

RRMS Project for New Benches/Tables

Current RRMS school grounds for students.

Proposed Layout of Equipment

Rene Rost Middle School is asking for some assistance with our playground area for our middle school students who currently have three benches for approximately 450 students on campus. We are asking for picnic tables with umbrellas, benches, a basketball play area, and various sports equipment (footballs, soccer balls, bag to store, jump ropes). This new area would allow our students an area to eat lunch and socialize with other students. The basketball area would give our students an avenue to interact with their peers, and incorporate physical activity for our students. Any help you could give to our school and our students to create an inviting area on our campus would be greatly appreciated.

Sincerely,
 Sonya Louviere, Principal
 DeEtte Bigot, Assistant Principal
