

# Connecting to HSD Guest Registration

Please carefully follow the directions listed below for connecting your personal device to the Guest Wireless.

You will only have to register once every 30 days and can connect up to three personal devices with your code.

Step 1. Go to Wi-Fi settings on your personal device and connect to HSD Guest Registration wireless.

Step 2. Register on the Guest Network using your contact information.

## Secure Internet Portal

### Registration

Register to access the network.

**Register**

It might take a moment for registration to complete (\* required).

Step 3. Copy or right down your access code after successfully registering

## Secure Internet Portal

### ✓ Registration Successful

You are now connected to the network.HSD\_Guest\_WiFi

**PxJ978z**

Registration was successful.  
NOTE: YOUR ACCOUNT MAY NOT BE ACTIVE YET. A notice will be sent to you when your Private Pre-Shared Key has been granted.

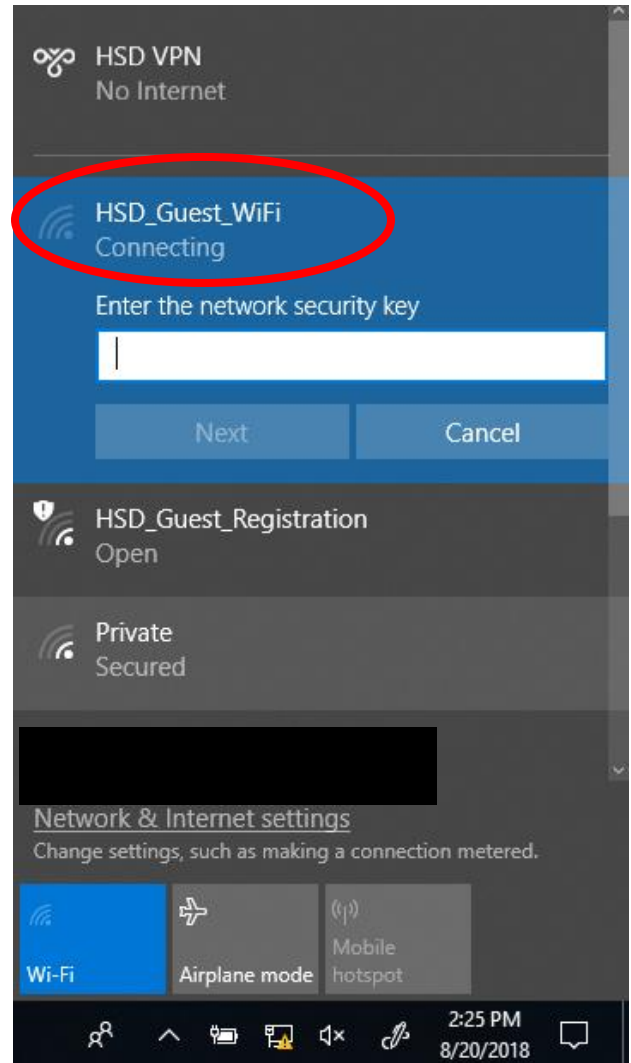

NOTE: If the key is still inactive in a few minutes, register again and one new will be generated and granted. Keep in mind use the latest one.

Step 4. Connect to “HSD Guest Wi-Fi” using the provided access code.

# Connecting to HSD Guest Registration Troubleshooting

---

1. If you are getting a “Login Failure” error message, it is most likely because you have already registered within the last 30 days and you will need to re-enter that code you received already.
2. If you are having trouble connecting to the Guest Registration, go into network settings and forget the Guest Registration Wireless.
