GENERAL INFORMATION

ADMISSIONS

All children between the ages of four (4) years on or before September 1, and twenty-one (21) years on or before September 1, shall be entitled to attend school free of charge in the district in which they reside.

APPOINTMENTS AND CONFERENCES

Parent-Teacher conferences are encouraged. Parents are asked to call to schedule an appointment with the principal when it is necessary to have a conference with a teacher.

GRADING SYSTEM

Morris Public Schools follow a uniform grading system for all three buildings. Nine-week grades and semester grades will be letter grades. The following scale will be used: A - 90-100, B - 80-89, C - 70-79, D - 60-69, F – 59-0

REPORT CARDS

Report cards are handed out to students on Thursday following the end of a nine-week period. The semester grade is recorded on the permanent record. Special reports are sent to parents on Thursday of the fifth week of a nine-week period.

SCHOOL ATTENDANCE

A student receiving more than ten (10) absences in any class period during a semester will receive a failing grade, unless hospital or home confinement is required because of any accident or illness. If hospital or home confinement is required, a student must present a doctor's statement in order not to have days of confinement counted against him or her. (The parents/guardians will be notified by letter on the third, fifth and seventh days of their student being absent from school).

ABSENCES

Students are expected to attend all classes each day of school. Excused absences will only be allowed for death in the immediate family, sickness, dental/doctor appointments, and emergencies at the discretion of the principal. **Written evidence of absence signed by parents or a telephone call will be required before an excused absence will be granted.** If a student knows of an up-coming absence he/she should notify the principal's office in advance. **Students are not to leave the building to go home without permission from the office. Students leaving campus without permission will be considered truant.**

TARDIES

Each student must have an admission slip to enter class. If tardy to class, the student will report to the principal's office to receive an excused or unexcused admit. An unexcused admission will result in one detention written by the principal. If a student receives an excused admit, there is no detention. (3 unexcused tardies will count as 1 absence)

DISPENSING MEDICINE

It is the policy of the Morris Board of Education that if a student is required to take medication during school hours and the parent or guardian cannot be at school to administer the medication or if circumstances exist that indicate it is in the best interest of the student that a non-prescribed medication be dispensed to that student, the principal, or the principal's designee, may administer the medication only as follows:

The medication must be delivered to the principal's office in person by the parent or guardian of the student unless the medication must be retained by the student for immediate self-administration. The medication will be accompanied by written authorization from the parent, guardian, or person having legal custody that indicates the following:

- A. purpose of the medication,

- C. whether the medication must be retained by student for self-administration,

This policy statement will be provided to a parent or guardian upon receipt of a request for long-term administration of medication.

**MEDICATIONS GIVEN AT SCHOOL
(REGULATION)**

Giving medications to students at school requires the utmost care and caution on the part of school staff. The danger of a student receiving an incorrect medication puts the student's health at risk and places the school and employees in legal jeopardy. The board of education has established policies and procedures for the safe administration of medications at school, including the following:

1. The principal designates in writing which school employees may administer medications to students.
2. The school nurse:
 - A. Is responsible for the design, implementation and monitoring of procedures for administering and storing of all medications;
 - B. Communicates between the physician, parent, student, and school personnel concerning medications;
 - C. Is responsible for acquainting school personnel with the purposes of medications, possible side effects, and observable reactions expected;
 - D. Provides an annual in-service for principals, teachers, and those designated to administer medications, describing proper techniques and discussing safety issues. The nurse then provides ongoing monitoring for safe practices during the school year.
3. Designated school employees:
 - A. Are responsible for knowing and following the policy and correct procedures outlined for administering medications at school;
 - B. Report to the principal and the school nurse any noted discrepancies in the medication orders for the student.

The director of health services will contact local physicians and pharmacists annually to remind them of the district's medication policy. Pharmacists

will be asked to make a separate prescription container to be taken to school.

An appeal procedure review committee composed of two district administrators, a local physician, and a school nurse, will be established to address unusual circumstances which may arise but are not covered by the stated guidelines of the district's policy on administering medication at school. The committee will be chaired and convened by the director of health services as specific situations arise.

Information describing the rationale of the district's policy is available for parents to help them understand the need for the policy and these regulations.

SELF-ADMINISTRATION OF INHALED ASTHMA MEDICATION

In compliance with state law, the Morris Public Schools permit the self-administration of inhaled asthma medication by a student for treatment of asthma. The parent or guardian of the student must provide the district with written authorization for the student to self-administer the medication. The parent or guardian must also provide a written statement from the physician treating the student that the student has asthma and is capable of, and has been instructed in the proper method of, self-administration of medication.

Additionally:

1. The parent or guardian must provide the school with an emergency supply of the student's medication to be administered as authorized by state law.
2. The school district will inform the parent or guardian of the student, in writing, and the parent or guardian shall sign a statement acknowledging, that the school district and its employees and agents shall incur no liability as a result of any injury arising from the self-administration of medication by the student.
3. Permission for the self-administration of asthma medication is effective for the school year for which it is granted and shall be renewed each subsequent school year upon fulfillment of the above requirements.

4. A student who is permitted to self-administer asthma medication shall be permitted to possess and use a prescribed inhaler at all times.

5. Definitions:

A. **Medication** means a metered dose inhaler or a dry powder inhaler to alleviate asthmatic symptoms, prescribed by a physician and having an individual label.

B. **Self-administration** means a student's use of medication pursuant to prescription or written direction from a physician.

COMPETITIVE ATHLETICS

Morris Schools provides for and encourages participation in competitive athletics. Students wishing to participate in athletics should realize and be willing to allow the time it takes to participate to the fullest of their capabilities. This may include practices after school, games, meets, and or contests that may be conducted in the evenings or on weekends. Students are encouraged to meet with the respective head coach of their sport and determine whether or not they want to participate. Students participating in competitive athletics are encouraged to complete the requirements of that sport. Any student who no longer wishes to participate or is unable to participate will be required to enter a regularly scheduled class.

Students who participate in more than one sport may not receive equipment or participate in another sport until all equipment and fees have been checked in or paid for and the head coach of that sport has given a written release to go to the next sport.

No students may practice or participate until they each have a physical form, concussion and head injuries form, student extracurricular activity participant alcohol and illegal or performance enhancing drugs contract and an emergency procedure card on file clearing them to participate in competitive athletics.

WITHDRAWAL FROM SCHOOL

If a student plans to withdraw from school, they must notify the principal of their intention and receive a withdrawal slip to present to each of their teachers. If they have any state-owned books, library or departmental books or supplies, they must return them to the teacher who issued them. After they get their teachers' signatures on the withdrawal slip, it must be presented to the principal for approval. Students are financially responsible for all school-owned books, equipment, etc. that are checked out to them.

DISCIPLINE AND CONTROL OF STUDENTS

The school's primary goal is to educate, not discipline; however, when the behavior of an individual student comes in conflict with the rights of others, corrective actions are necessary for the benefit of the individual and the school.

By Oklahoma statutes, the teacher of a child attending a public school shall have the same right as a parent or guardian to control and discipline such child according to local policies during the time the child is in attendance or in transit to or from the school or any other school function authorized by the school district or classroom presided over by the teacher.

The goal of this disciplinary policy is to correct the misconduct of the individual and to promote adherence by that student and other students to the policies and regulations of the district. Faculty response to student misconduct is a matter directly influencing the morale of the entire student body. As such, all students will be treated in a fair and equitable manner. Disciplinary action will be based on a careful assessment of the circumstances surrounding each infraction. Examples of these circumstances are: the student's attitude, the seriousness of the offense, and its potential effect on other students.

In administering discipline, consideration will be given to alternative methods of punishment to insure that the most effective discipline is administered in each case. In all disciplinary actions, the faculty will be mindful of the fact that they are dealing with individual personalities. The faculty will consider consultation with parents on disciplinary measures that might prove most effective in particular instances.

This is in contrast to the maximum period of suspension that can be imposed for other offenses, which is the current and succeeding semester.

PUPILS SEEKING ENROLLMENT IN AN OKLAHOMA SCHOOL WHILE UNDER SUSPENSION

Oklahoma school districts frequently are asked to enroll students who have been suspended out-of-school from a public or private school in Oklahoma or another state. If the student has been suspended from another school (whether in Oklahoma or outside of Oklahoma) for a violent act or an act showing deliberate or reckless disregard for the health or safety of faculty or other students, that student shall not be entitled to enroll in an Oklahoma school and no Oklahoma school shall be required to enroll the student until the terms of the suspension imposed by the Oklahoma school district or the out-of-state district have been met or the time period applicable to the suspension has expired. Moreover, if a student who seeks to enroll has been removed from another school district for a violent act or an act showing deliberate or reckless disregard for the health or safety of faculty or other students, the receiving school district is not required to accept that student until the school has determined that the student no longer poses a threat to self, other students, or faculty. In this event, the school is not excused from providing any services; however, it is excused from providing education services in a regular school setting such as home-based instruction or other appropriate setting.

***NOTE: All rules concerning discipline apply to student behavior in school buildings, on school grounds, all school sponsored functions and/or trips at all times.**

STATEMENT OF PURPOSE AND INTENT

65874104. 1. It is the desire of the Board of Education, administration and staff that every student in the School District refrains from using or possessing alcohol and illegal or performance enhancing drugs. Notwithstanding this desire, the administration and board of education realize that their power to restrict the possession or use of alcohol and illegal or performance enhancing drugs is limited. Therefore, except as provided below, the sanctions of this Policy relate solely to limiting the opportunity of any student determined to be in violation of this Policy to participate in extracurricular activities. This Policy is intended to supplement and complement all other policies, rules and regulations of the School District regarding possession or use of alcohol and illegal or performance enhancing drugs.

Students who participate in these activities are respected by the student body and are expected to conduct themselves as good examples of behavior, sportsmanship and training. Accordingly, students who participate in extracurricular activities carry a responsibility to themselves, their fellow students, their parents and their school to set the highest possible example of conduct, which includes avoiding the use or possession of alcohol and illegal or performance enhancing drugs.

65874106. 3. The purpose of this Policy is to prevent alcohol and illegal or performance enhancing drug use, to educate students who

participate in extracurricular activities as to the serious physical, mental and emotional harm caused by alcohol and illegal or performance enhancing drug use, to alert students participating in extracurricular activities who have possible substance abuse problems to the potential harms of use, to prevent injury, illness and harm as a result of alcohol and illegal or performance enhancing drug use, and to strive within the School District for an environment free of alcohol and illegal or performance enhancing drug possession and use. This Policy is not intended to be disciplinary or punitive in nature. The sanctions of this Policy relate solely to limiting the opportunity of any student who participates in extracurricular activities and who is found to be in violation of the Policy to participate in extracurricular activities. There will be no academic sanction solely for a violation of this Policy. **Notwithstanding the foregoing, a student may be disciplined, including suspended out of school, if a violation of this policy also results in a violation of the School District's Student Behavior Policy.**

PARTICIPATION AND PROCEDURES

65874121. 1. Alcohol and illegal or performance enhancing drug possession or use is incompatible with participation in extracurricular activities on behalf of the School District. For the safety, health and well being of the student extracurricular activity participants of the School District, the School District has adopted this Policy for use by all participating students at the 7th-12th grade level. Any student found to be in possession of, or having used alcohol or illegal or

performance enhancing drugs, either by observation or drug or alcohol use test, will be considered to have violated this Policy.

65874122. 2. Each student extracurricular activity participant shall be provided with a copy of this Policy and the "Student Extracurricular Activity Participant Alcohol and Illegal or Performance Enhancing Drugs Contract (the "Contract") which shall be read, signed and dated by the student, parent or custodial guardian and a coach/sponsor before such student shall be eligible to practice or participate in any extracurricular activity. No student shall be allowed to practice or participate in any extracurricular activity unless the student has returned the properly signed Contract.

65874123. 3. The principal and sponsor, or, in the case of student athletes only, the athletic director and applicable coach, shall be responsible for determining whether a violation of this Policy has occurred when an observation of possession or use of alcohol or illegal drug by a student extracurricular activity participant has been reported. If a violation of the Policy is determined to have occurred by a student extracurricular activities participant other than a student athlete, the principal will contact the student, the sponsor, and the parent or custodial guardian of the student and schedule a conference. If a violation of the Policy is determined to have occurred by a student athlete, the athletic director will contact the student, the sponsor or head coach, the applicable principal, and the parent or custodial guardian of the student and schedule a conference. At the conference, the violation of the Policy will be described and the restrictions explained.

65874124. 4. The Contract for alcohol and illegal or performance enhancing drug and/or alcohol use testing shall be to provide a urine sample: a) as chosen by the random selection basis; and b) at any time a student extracurricular activities participant is requested by the principal or athletic director or by the sponsor or coach, based on reasonable suspicion, to be tested for alcohol and illegal or performance enhancing drugs.

65874125. 5. Drug and/or alcohol use testing for student extracurricular activities participants will also be chosen on a random selection basis monthly from a list of all in-season student participants. The School District will determine a monthly number of

student names to be drawn at random to provide a urine sample for drug and/or alcohol use testing for alcohol and/or illegal or performance enhancing drugs.

65874126. 6. In addition to the drug and alcohol use tests required by paragraphs 4 and 5 any student extracurricular activities participant may be required to submit to a drug and/or alcohol use test for alcohol or illegal or performance enhancing drugs or the metabolites thereof at any time upon reasonable suspicion.

65874127. 7. The School District will pay the fee for all drug and/or alcohol testing.

65874128. 8. Any alcohol or drug use test required by the School District under the terms of this Policy will be administered by or at the direction of a professional laboratory chosen by the School District using scientifically validated toxicological methods. The professional laboratory shall be required to have detailed written specifications to assure chain of custody of the specimens, proper laboratory control and scientific testing.

65874129. 9. All aspects of the alcohol or drug use testing program, including the taking of specimens, will be conducted so as to safeguard the personal and privacy rights of the student extracurricular activities participants to the maximum degree possible. The test specimen shall be obtained in a manner designed to minimize intrusiveness of the procedure. In particular, the specimen must be collected in a restroom or other private facility behind a closed stall. The principal or athletic director shall designate a sponsor or coach or other adult person of the same sex as the student to accompany the student to a restroom or other private facility behind a closed stall. The monitor shall not observe the student while the specimen is being produced, but the monitor shall be present outside the stall to listen for the normal sounds of urination in order to guard against tampered specimens and to insure an accurate chain of custody. The monitor shall verify the normal warmth and appearance of the specimen. If at any time during the testing procedure the monitor has reason to believe or suspect that a student is tampering with the specimen, the monitor may stop the procedure and inform the principal or athletic director who will then determine if a new sample should be obtained. If a student is determined to have tampered with any specimen or

otherwise engaged in any conduct that disrupts the testing process of any student, then the student will be deemed to have committed a second offense under this Policy and the sanctions for a second offense will be imposed. The monitor shall give each student a form on which the student may list any medications he/she has taken or any other legitimate reasons for having been in contact with illegal drugs or performance enhancing drugs in the preceding thirty (30) days. The medication list may be submitted to the lab in a sealed and confidential envelope.

65874130. 10. If an initial drug use test is positive, the initial test result will be subject to confirmation by a second and different test of the same specimen. The second test will use the gas chromatography/mass spectroscopy technique. A specimen shall not be reported positive unless the second test utilizing the gas chromatography/mass spectrometry procedure is positive for the presence of an illegal drug or performance enhancing drug or the metabolites thereof. If an initial alcohol use test is positive for the presence of alcohol, the initial test result will be subject to confirmation by a second test using any scientifically accepted method. The unused portion, if any, of a specimen that tested positive for alcohol or illegal or performance enhancing drugs shall be preserved by the laboratory for a period of six (6) months.

65874131. 11. If the alcohol or drug use test for any student extracurricular activities participant has a positive result, the laboratory will contact the principal or the athletic director with the results. In the case of student extracurricular activities participants who are not athletes, the principal will contact the student, the sponsor, and the parent or custodial guardian of the student and schedule a conference. In the case of student athletes, the athletic director will contact the student, the sponsor or head coach, the applicable principal, and the parent or custodial guardian of the student and schedule a conference. At the conference, the principal or the athletic director will solicit any explanation for the positive result and ask for doctor prescriptions of any drugs that the student was taking that might have affected the outcome of the alcohol or drug use test. If the student and his/her parent or custodial guardian desires another test of the remaining portion, if any, of the specimen, the principal or athletic director will arrange for another test at the same laboratory or at another laboratory agreeable to the

principal or athletic director. Any such re-test shall be at the expense of the student and his/her parent or custodial guardian.

65874132. 12. If the student extracurricular activities participant asserts that the positive test results are caused by other than consumption of alcohol or an illegal or performance enhancing drug by the student, then the student will be given an opportunity to present evidence of such to the principal or to the athletic director. The School District will rely on the opinion of the original laboratory that performed the test in determining whether the positive test result was produced by other than consumption of alcohol or an illegal or performance enhancing drug.

65874133. 13. A student who has been determined by the principal or the athletic director to be in violation of this Policy shall have the right to appeal the decision to the superintendent or his/her designee(s). Such appeal must be lodged within five (5) business days of notice of the initial report of the offense, during which time the student will remain ineligible to participate in any extracurricular activities. The superintendent or his/her designee(s) shall then determine whether the original finding was justified. There is no further appeal right from the superintendent's decision and his/her decision shall be conclusive in all respects. Any necessary interpretation or application of this Policy shall be the sole and exclusive judgment and discretion of the superintendent which shall be final and non-appealable.

65874134. 14. Before a student extracurricular activities participant who has tested positive in an alcohol or drug use test may rejoin his/her extracurricular activity after a first or second offense, such student may be required to undergo one or more additional alcohol or drug use tests to determine whether the student is no longer using alcohol or illegal or performance enhancing drugs. The School District will rely on the opinion of the laboratory which performed or analyzed the additional alcohol or drug use test in determining whether a positive result in the additional alcohol or drug use test was produced by alcohol or illegal or performance enhancing drugs used by the student before the offense or by more recent use.

65874135. 15. All documents created pursuant to this Policy with regard to any student will be kept in a confidential folder and will

never be made a part of the student's cumulative folder nor be considered a "disciplinary" record.

VIOLATION

65874136. 1. Any student who is determined by observation or by alcohol or drug use tests to have violated this Policy shall be subject to the loss of the privilege to participate in extracurricular activities and offered educational and support assistance to stop using.

65874137. 2. **For the First Offense:** Suspension from participation in all scheduled extracurricular activities (including all meetings, practices, performances and games/competitions) for 25 school days which may be reduced by 15 school days (five school days reduced for professional drug/alcohol evaluation/assessment and ten school days reduced for participating in and successfully completing at least four (4) hours of substance abuse education/counseling provided by the School District or an outside agency). A student extracurricular activities participant must miss a minimum of two (2) games/competitions. If the student is not competing in an extracurricular activity during any suspension period due to injury, academic ineligibility or the games or competitions for that sport or activity are finished or have not begun for that school year and, therefore, does not miss a minimum of two games/competitions during the suspension period, then the student will be required to miss the next two games/competitions after he or she returns from the injury, becomes eligible or the games or competitions resume in the following school year or begin later in the same school year. These restrictions and requirements shall begin immediately following the determination of an observed violation or the reporting of the results of a positive alcohol or drug use test. Such suspension will extend into a succeeding competition season if necessary to fulfill the suspension.

65874138. 3. **For the Second Offense (in the same school year):** Complete suspension from participation in all extracurricular activities including all meetings, practices, performances and competition for eighteen (18) continuous and successive school weeks from the date of the determination of a violation or the reporting of the results of a positive alcohol or drug use test under this Policy. Such suspension will extend into a succeeding school

year if necessary to fulfill the suspension. Offenses shall not accumulate from school year to school year; the eighteen (18) week suspension from participation in all extracurricular activities shall come into play only when two (2) or more offenses are committed in the same school year.

65874139. **4. For the Third Offense (in the same school year):** Complete suspension from participation in all extracurricular activities including all meetings, practices, performances and competition for thirty-six (36) continuous and successive school weeks from the date of the determination of a violation or the reporting of the results of a positive alcohol or drug use test under this Policy. Such suspension will extend into a succeeding school year if necessary to fulfill the suspension. Offenses shall not accumulate from school year to school year; the thirty-six (36) week suspension from participation in all extracurricular activities shall come into play only when two (2) or more offenses are committed in the same school year.

65874140. **5. Self-Referral:** As an option to the consequences for a first offense only, a student may self-refer to the principal or athletic director or to a coach or sponsor before being notified of a Policy violation or prior to being asked or required to submit to an alcohol or drug use test. A student who self-refers will be allowed to remain active in all extracurricular activities after the following conditions have been fulfilled: a conference has been held with the student, the principal or athletic director, the sponsor or coach, and the parent or custodial guardian of the student to discuss the Policy violation; an alcohol or drug use test is provided by the student that is not positive, and a participation commitment by the student and parent for four (4) hours of substance abuse education/counseling provided by the school or an outside agency. Documentation of successful completion of this commitment must be provided to the principal or athletic director by the student or parent. A student who self-refers will, however, be considered to have committed his/her first offense under this Policy. A self-referral may be used only once in a student's time in the School District.

REFUSAL TO SUBMIT TO ALCOHOL OR DRUG USE TEST

If, after signing the Contract, a student extracurricular activities participant refuses to submit to an alcohol or drug use test authorized under this Policy,

such student shall not be eligible to participate in any extracurricular activities including all meetings, practice, performances and competition for eighteen (18) continuous and successive school weeks. Such suspension will extend into a succeeding school year if necessary to fulfill the suspension.

COLLECTION FOR ALL CAFETERIA CHARGES

***ALL CAFETERIA MEALS ARE TO BE PAID FOR IN ADVANCE.
(Individual student accounts)***

It is the responsibility of the School Food Authority to develop a policy regarding students who fail to pay for their meals. If the family does not qualify after completing the application or they do not wish to complete one, the school district is not obligated to continue providing meals without receiving payment. (Section XVI Article a; State Department of Education, Page 65, Child Nutrition Fact Sheet)

The policy developed by the Morris Schools regarding the above statement is as follows:

Parents/guardians of individual students who fail to pay for cafeteria charges that exceed ten dollars will be notified by a hand out to students and given one week to make payment or arrangements with cafeteria cashier. If at this time the school has not received a response, the student will not be allowed to eat from the regular cafeteria lines, but will be provided with a peanut butter sandwich and milk or water.

Morris Public Schools will provide access to a number of computer-based resources including the Internet. The Internet is a valuable resource with nearly unlimited sources of educational information. Unfortunately, materials, which are inappropriate for schools and students, will also be accessible. The Internet service provider and this school have taken extensive measures and available precautions to block access to unwanted resources and information. However, an industrious and knowledgeable user may discover ways to access information or services this school deems inappropriate. Therefore, students using these resources must agree to the following terms and conditions:

INTERNET ACCEPTABLE USE POLICY

Purpose

The district provides its students and employees with access to the district's computer network system, including Internet access, in an effort to expand the informational and communication resources in furtherance of the district's goal of promoting educational excellence. It is hoped that the expanded use of these resources will enhance students' research capabilities, increase faculty and staff productivity and result in better communication between the district and its patrons.

The Internet has often been described as the information super-highway. The Internet consists of a network of servers connecting thousands of computers worldwide, permitting access and communication with millions of individual users. Through the Internet, the district will provide students, faculty and staff access to:

- electronic mail providing communication with people throughout the world;
- information and news, including the opportunity to correspond with scientists at research institutions in the public and private sector, including NASA;
- public domain software and shareware of all types;
- news groups, or discussion groups, covering a wide range of topics appropriate to the educational purposes of the district;
- access to university libraries, the Library of Congress and other repositories of information;
- World Wide Web access to information containing text, graphics and photographs, as well as sound on literally millions of topics

With access to such vast storehouses of information and instant communication with millions of people from all over the world, material will be available that may not be considered to be of educational value by the district or which is inappropriate for distribution to students. The district has taken available precautions, including but not limited to enforcing the use of filters that block access to obscenity, child pornography and other materials harmful

to minors. However, on a global network, it is impossible to control all material and an industrious user may obtain access to inappropriate information or material. The district firmly believes that the value of the information and interaction available on the Internet far outweighs the possibility that students and employees may procure material which is not consistent with our educational goals.

Internet access is coordinated through a complex association of government agencies, regional and state networks. The smooth operation of these networks relies upon the proper conduct of the end users and the users' adherence to generally accepted guidelines. The guidelines provided in this policy are designed to promote the efficient, ethical and legal utilization of network resources. If a district user violates any of these provisions, his or her account will be terminated and future access could be denied. The user's signature on the Internet Access Agreement is a legally binding obligation, affirming that the user has read the terms and conditions of the Internet Acceptable Use Policy, understands the policies and agrees to abide by all terms and conditions described in the policy or subsequently implemented by the district's Director of Technical Services. Students' use of the district's system will also be governed by a student code of conduct.

Internet Access - Terms and Conditions.

Acceptable Use. The use of the district's system, whether by students, faculty or staff, must be in support of education and consistent with the educational objectives of the district. The use of any other organizations' network or computing resources must comply with the rules and regulations appropriate for that network. The transmission or receipt of any material in violation of any United States or state law or regulation and the transmission or receipt of any material inconsistent with the educational objectives of the district is prohibited. This includes, but is not limited to: copyrighted material, threatening, indecent, lewd or obscene material, or material protected by trade secret. Use of the district system for commercial activities is not acceptable. Use for product advertisement or political lobbying is also prohibited.

Parental Consent. In order for a student to gain access to the district system, the student's parent or guardian must be provided a copy of the Internet Acceptable Use Policy and sign the Internet Access Agreement requesting that their child be given Internet access under the terms and conditions described in this policy. Parents may withdraw their consent at any time. There is, however, a wide range of information available through the internet which is not appropriate for access by minors, has no educational value or does not meet with the particular values of the families of the student. The

district system and internet acceptable use policy contain devices and restrictions on use intended to prevent access to inappropriate material or information. However, it is impossible for the district to guarantee that students will not be exposed to inappropriate material through their use of the internet. The district believes that parents bear primary responsibility for communicating acceptable behavior and family values to their children. The district encourages parents to discuss with their children what material is and is not acceptable for their children to access through the district system.

Privilege of Use. The district system and its Internet access is a privilege afforded to students and staff of the district. Use of these resources is not a right and inappropriate use will result in a cancellation of those privileges. Inappropriate use is any use prohibited by the terms of this policy or use determined by the district's system administrators to be inappropriate under particular facts and circumstances. Prior to receiving Internet access, all users will be required to successfully complete an Internet training program administered by the district.

Inappropriate Use. Each system user is expected to comply with all district policies governing Internet access and to abide by generally-accepted rules of network etiquette. These general rules include, but are not limited to, the following:

- a. Appropriate language - Do not use abusive language in messages to others. Be polite. Do not use obscene, indecent, lewd or profane language, vulgarities, rude or disrespectful language. Do not engage in personal attacks or activities intended to distress, harass or annoy another user.
- b. Safety - Do not reveal personal contact information about yourself or any other person. This information includes telephone numbers and addresses. Do not use the Internet access to arrange meetings with persons you have met on line. Users will promptly disclose to the teacher, district system administrator or to some other member of the faculty or staff any message they consider to be inappropriate or which makes them feel uncomfortable.
- c. Electronic mail - Users should be aware that electronic mail (E-Mail) may not be assumed to be a private communication. The district and system administrators do have access to E-Mail. Messages relating to, in

support of or in furtherance of illegal activities will be reported to the authorities. System users should not post any message which is intended to be private.

- d. Network resources - System users should not use the network in a way that will disrupt the use of the network by other users. The network should be used for educational, professional and career development activities only. System users should refrain from downloading large files unless absolutely necessary, and then only when the system is not being heavily used. Such files should be removed from the system computer to the user's personal computer as soon as possible.
- e. Intellectual property - Do not plagiarize works obtained from the Internet. Users must respect the rights of copyright owners and comply with all limitations imposed upon use of copyrighted material.

Limitation of Liability. The district makes no warranties of any kind, whether express or implied, for the services provided and will not be responsible for any damages which you may suffer through use of the district system or the Internet, including, but not limited to, the loss of information or files or the interruption of service. The district is not responsible for the accuracy or quality of information obtained through use of the district system or the Internet. The district is not responsible for any financial obligations which may be incurred through use of the district system.

Security. Security on any computer system is a high priority, especially when the system involves multiple users. Users are responsible for their individual account and should take precautions to prevent others from accessing that account. Under no conditions should a user provide their personal password to another person. If you identify a potential security problem on the district system or the Internet, you must notify the system administrator immediately. You should not demonstrate the problem to others, nor should you intentionally attempt to identify potential security problems. In either instance, your actions may be misinterpreted as an illegal attempt to gain unauthorized access. Any attempt to log on to the Internet as a system administrator will result in cancellation of user privileges. Any user identified as a security risk or having a history of problems with the district system or any other computer system may be denied further access.

Vandalism. Vandalism of district hardware, software or the system itself will

result in cancellation of privileges. Vandalism is defined as any malicious attempt to harm or destroy the property or data of the district, of another user or of any other network connected to the Internet or all or any portion of the district's computer network system or any other network or system connected to the Internet. This includes, but is not limited to, the uploading or creation of computer viruses or any actions that disrupt, "crash" or "bomb" all or any portion of the district's computer system. All system users shall avoid the accidental spread of computer viruses by strict adherence to district policies governing the downloading of software. No system user may use the system to "hack" or attempt to gain unauthorized access to any other computer system, network or site or any unauthorized portion of the district's system.

Inappropriate Material. Access to information shall not be restricted or denied solely because of the political, religious or philosophical content of the material. However, system users must realize that rights go hand-in-hand with responsibilities and agree not to use the district system to access information or to distribute information or material which is:

- a. Obscene to minors, meaning (i) material which, taken as a whole, lacks serious literary, artistic, political or scientific value for minors and, (ii) when an average person, applying contemporary community standards, would find that the written material, taken as a whole, appeals to an obsessive interest in sex by minors.
- b. Libelous, meaning a false and unprivileged statement about a specific individual which tends to harm the individual's reputation.
- c. Vulgar, lewd or indecent, meaning material which, taken as a whole, an average person would deem improper for access by or distribution to minors because of sexual connotations or profane language.
- d. Display or promotion of unlawful products or services, meaning material which advertises or advocates the use of products or services prohibited by law from being sold or provided to minors.
- e. Group defamation or hate literature, meaning material which disparages a group or a member of a group on the basis of race, color, sex, national origin, religion, disability, veteran status, sexual orientation, age, or genetic information or advocates illegal conduct or

violence or discrimination toward any particular group of people. This includes racial and religious epithets, "slurs", insults and abuse.

- f. Disruptive school operations, meaning material which, on the basis of past experience or based upon specific instances of actual or threatened disruptions relating to the information or material in question, is likely to cause a material and substantial disruption of the proper and orderly operation of school activities or school discipline.

Employee Access. In order for any employee of the district to gain access to the district system, the employee must sign the Employee Internet Access Agreement.

Application and Enforceability. The terms and conditions set forth in this policy shall be deemed to be incorporated in their entirety in the Internet Access Agreement executed by each system user. By executing the Internet Access Agreement, the system user agrees to abide by the terms and conditions contained in this policy. The system user acknowledges that any violation of this policy may result in access privileges being revoked, disciplinary action being taken, including, as to students, disciplinary action under the district's Student Discipline Policy and, as to employees, any such discipline as may be allowed by law, including termination of employment.

Education of Students Regarding Appropriate On-Line Behavior. In compliance with the Protecting Children in the 21st Century Act, Section 254(h)(5), the District is educating minors about appropriate on-line behavior, including interacting with other individuals on social networking websites and in chat rooms and cyber bullying awareness and response. As part of this education, the following information on Cyber Bullying and Internet Safety is distributed with this Policy to all students and parents for their review prior to signing an Internet Access Agreement to access the Internet:

Cyber Bullying and Internet Safety

As young people embrace the Internet and other mobile communication technologies, bullying has manifested itself in a new and potentially more dangerous way — through cyber bullying. Cyber bullying can generally be defined as sending or posting harmful, harassing, intimidating, threatening, or malicious messages or images through e-mail, instant messages, cell phones and websites. It is emerging as one of the more challenging issues facing educators, since it has a direct impact on students but often occurs away

from school property.

Examples of cyber bullying include, but are not limited to:

- Sending cruel, vicious and sometimes threatening messages;
- Creating websites that contain stories, cartoons, pictures and jokes ridiculing others;
- Posting pictures of classmates on-line with intent to embarrass them;
- Breaking into an e-mail account and sending vicious or embarrassing material to others;
- Engaging in IM (instant messaging) to trick another person into revealing sensitive or personal information and forwarding that information to others; and
- Taking a picture of a person using a digital phone camera and sending that picture electronically to others without consent, or the equivalent of that.

Social Networking Sites

Most teenagers visit websites to communicate with friends and meet new people. [Facebook.com](#) is a social networking site, one of many that have become increasingly popular with students. Facebook allows students to create a personal website (for free), post pictures, add comments, and use it to meet "on-line friends." The website often includes their full name, telephone number, address, school name, and a picture.

YouTube is a similar site dedicated to hosting video clips.

About 68 million people reportedly use Facebook and millions more use other social networking sites, such as: [twitter.com](#); [livejournal.com](#); [nexopia.com](#); and Google+. According recent Facebook demographics, 20 million users in the United States are under the age of 18 with 7.5 million of those being under the minimum age of 13. The danger lies in that the Internet is vast, public and constantly expanding. And, if students have not developed critical thinking skills, are unsupervised or create websites that are not monitored, they can be at risk of unknowingly communicating with predators, spammers or pornographers. As such sites proliferate, students should be warned not to post identifying information to the site and never to meet someone in

person they have met through the site unless an adult accompanies them. And, parents should conduct frequent reviews of the site to ensure that identifying information or pictures have not been posted.

Facebook and other social networking sites will cooperate in shutting down a site created solely to harass another individual.

Internet Safety

No action is foolproof, but there are steps students can take to protect themselves on-line and lessen the chance of becoming the victim of unsolicited messages:

- Never give out personal information, passwords, PIN numbers, etc.
- Remember that personal information includes your name, age, e-mail address, the names of family or friends, your home address, phone number (cell or home) or school name.
- Choose a user name that your friends will recognize but strangers will not recognize (such as a nickname used at school). This will help you to identify yourself to friends and lets you know who is trying to communicate with you.
- Do not submit or post pictures of yourself to any website, including your own. These can easily be copied and posted to any other website.
- Passwords are secret. Never tell anyone your password except your parents or guardians.
- Do not respond to "spam" or unsolicited e-mail.
- Set up e-mail and instant messenger accounts with your parents.
- Do not respond to, or engage in, cyber abuse.

If you are the victim of a cyber bully:

- Do not reply to messages from cyber bullies.

- Tell an adult you know and trust. Just as with any other kind of bullying, ignoring it often leads to escalation.
- If the bullying is occurring through text messaging, use "call display" or dial *69 to identify the phone number and have it tracked through your cell phone/pager service provider.
- Instant messages (e.g. Yahoo instant messenger; Microsoft Messenger) are best handled by blocking messages from certain senders.
- Bullies are likely to register for an anonymous e-mail account, such as Hotmail, Yahoo or G-Mail, using a fake name. If you receive threatening e-mail messages, instruct your e-mail program to block messages from that address. Then, inform your Internet Service Provider (ISP).
- If physical threats are made or the bullying escalates, inform your local police.
- Do not erase or delete messages from cyber bullies. You do not have to read them; but keep them as evidence. You may get similar messages from other accounts. The police, your ISP and/or your telephone company can use these messages to help you.
- If necessary, get a new phone number, account or e-mail address and give it out to only one (1) person at a time.
- If the bullying occurs at school or on district property, or is the act of another student, report the bullying to the appropriate official and refer to the district's bullying policy.

Suggestions for Parents:

- Make sure your children understand how vast and public the Internet is. Remind them that anything they post or send in a message is virtually available to be seen or read by anyone in the world.
- Talk to your children about cyber bullying. Make sure they understand what it is. Let them know that cyber bullying is no less serious and unacceptable than other

forms of bullying.

- Set up the family computer in an open, common area so that you can monitor what your child is sending and receiving.
- Inform your ISP or cell phone service provider of any abuse. Although it can take a lot of time and effort to get Providers to respond and deal with your complaints about cyber bullying, it is necessary in order to try to stop it from reoccurring.
- Purchase software that can help track activity. There are parental controls that filter both IM and chat rooms.

DRESS CODE

A student's appearance should not distract classmates from the important

2. Clothing should be buttoned and appropriate under- garments worn at all times. The student's torso, chest, or undergarments should not show at any time even while sitting, bending or leaning. Sleeveless blouses/shirts must cover at least two (2) inches of each shoulder. Necklines should be modest and appropriate.
3. Safety and sanitation dictate that students wear appropriate footwear. No house shoes are allowed.
4. Mesh shirts, midriffs, halters, low riders, tank tops, razorback shirts, pajamas, clothes with holes, tears, or cuts and other similar attire are inappropriate for school wear and will not be permitted.

6. Hats, scarves, bandanas, and sunglasses are not to be worn inside the buildings at anytime. Any student wearing such in any building will be asked to give it to any employee who asks for it. It will be sent to the principal. Hoods on sweatshirts or sweaters may not be worn over the head inside the building at anytime.

8. All students participating in school activities will comply with the dress and appearance regulations of activities to which they belong and participate.

10. Administrator shall have the authority to determine the appropriateness of any attire. In making such a determination, the administrator should be governed by whether the attire is offensive, disruptive, or distracting to the educational environment.

Penalties for violation of dress code:

- a. First offense; referral to the principal, change of clothes obtained or placed in I.S.D. for remainder of day. If change of clothing is not possible, parent/guardian contact will be made and possible disciplinary action taken. The student may also receive an unexcused absence from class (es) missed while clothes are being obtained.
- b. Second offense; same as above plus one (1) days I.S.D.
- c. Third offense; suspension, length of time determined by the principal.

CAMPUS CURFEW

In order to maintain better security, reduce vandalism, discourage loitering, and cooperate with the police, the Morris Board of Education hereby adopts the following regulations concerning campus curfew:

1. All school facilities including, but not limited to, parking lots, athletic fields, basketball courts, and playgrounds shall be closed at 6:00 p.m.

ASBESTOS INFORMATION

Morris Public Schools has completed the Asbestos Program as required by the Dept of Labor, the Dept of Health, and Environmental Protection Agency. The following statement was taken from EPA guidelines.

Asbestos is a known human carcinogen. There is no evidence of a threshold exposure level below which the risk of cancer is not increased. While it is difficult to quantify the precise risk posed by exposure to asbestos in buildings, unnecessary exposure should be avoided.

According to the Asbestos Hazard Emergency Response Act, (AHERA), Morris School is required to notify building occupants at least once year that Morris School is in compliance with the law. This includes, but is not limited to, inspection, surveillance, abatement, and operations and maintenance of asbestos containing material.

A copy of the AHERA Management plan is available for your inspection in the Administrative Office, or in the Maintenance Supervisor's Office.

Appointments may be made through the counselor's office, or if the situation is a pressing problem, a student may obtain a pass from his/her teacher to visit the counselor.

GUIDANCE AND TESTING SERVICES

Guidance is considered an essential part of any good school program. Guidance and counseling services are available to all students of the Morris school system.

This school has a testing program designed to provide information to help the student know himself better (his interests and capabilities) and to help in planning his schoolwork and life work.

A well-rounded testing program has been developed that can be very valuable to teach students if the information is properly interpreted and used.

Tests are made available and the results are explained to each student taking them. Any student or parent having questions about the tests or testing program is encouraged to ask the help of the school counselor.

BOARD OF EDUCATION POLICIES

These general policies recorded in this booklet become binding and a part of the Morris School Board policies to all students with their enrollment in said Morris School.

STUDENT RECORDS

Only that information which is pertinent to the individual's educational progress and those items required by law are to be maintained in the student's file.

Student's records are open for inspection by the student, the parents or guardian, school officials and certified employees of the school district.

Copies of records shall be furnished to authorize agencies upon written request of parents, guardians or students of legal age.

PROMOTION AND RETENTION

Whenever a teacher or teachers recommend that a student be retained at the present grade level or not passed in a course, the parent or guardian, if dissatisfied with the recommendation, may appeal the decision by complying with the district's appeal process. The decision of the board of education shall be final. The parent may prepare a written statement to be placed in and become a part of the permanent record of the student stating the reason(s) for disagreeing with the decision of the board. (70-24-114.1) Note: Amended by HB 1056, Sec. 1, of the 1995 Reg. Sess.

OSSBA POLICY SERVICES EIA-R4

STUDENT RETENTION (REGULATION)

In accordance with the policy of the board of education, the following criteria for the selection of students to be retained in their current grade, or denied course credit, will be used in this school district.

Students shall be promoted or receive credit for a course of study if a grade average of 60% has been achieved for an entire course of study as determined by the teacher.

Students in grades one through eight must achieve a grade average of 60% or higher in at least three major courses of study to be promoted to the next higher grade. The major courses of study are math, language arts, science, reading, and social studies.

Beginning with the 2017-2018 school year, students who score below proficient level on the Reading Comprehension and Vocabulary portion of the third grade criterion-referenced test(s) may only be promoted to fourth grade if the student qualifies for a good cause exemption:

- (1) Students with limited English proficiency may be granted a good cause exemption for promotion to the fourth grade.
- (2) Students with disabilities who are assessed with alternate achievement standards under the Oklahoma School Testing Program (OSTP) with the Oklahoma Alternative Assessment Program (OAAP) qualify for the good cause exemption.
- (3) Students who demonstrate an acceptable level of performance on an alternative standardized reading assessment may be granted a good cause exemption for promotion to the fourth grade pursuant to 70 O.S. § 1210.508C(K)(3).
- (4) Students who can demonstrate evidence through a student portfolio that the student has mastered state standards beyond the retention level and that the student is reading on grade level or higher may be granted a good cause exemption pursuant to 70 O.S. § 1210.508C(K)(4).
- (5) Students with disabilities who participate in the statewide criterion-referenced test and have an IEP may qualify for a good cause exemption pursuant to 70 O.S. § 1210.508C(K)(5).
- (6) Students who demonstrate a reading deficiency and have been previously retained may qualify for a good cause exemption pursuant to 70 O.S. § 1210.508C(K)(6).

(7) Students facing exceptional emergency circumstances which prevent the student from being assessed during the testing window. These requests for exemptions must be approved by the Office of Accountability and Assessment.

In Addition:

Under SB 630, the reading teams, officially designated as Student Reading Proficiency Teams (SRPT), would include a child's parent or guardian, current teacher, future teacher and reading specialist. Principals and their district superintendent would then review and approve each reading team recommendation.

The bill requires any student not reading on grade level in the first or second grade to receive individualized remediation prescribed by the reading team. Beginning in school year 2017-2018 and again in 2017-2018, any third grade student who has not received an exemption from the requirements of RSA, and who scores below proficient on the state third-grade reading test, would be evaluated for "probationary promotion" by the reading team. This includes limited knowledge students.

SB 630 also specifies that only the reading comprehension and vocabulary portions of the state third-grade reading test be used for determination of retention or promotion under RSA.

Requests to exempt students from the mandatory retention requirements based on one of the good-cause exemptions shall be made using the following process:

1. Documentation submitted from the teacher of the student to the school principal that indicates the student meets one of the good-cause exemptions and promotion of the student is appropriate. Documentation shall be limited to the alternative assessment results or student portfolio work and the individual education plan (IEP), as applicable;
2. The principal of the school shall review and discuss the documentation with the teacher. If the principal determines that the student meets one of the good-cause exemptions and should be promoted based on the documentation provided, the principal shall make a recommendation in writing to the school district superintendent; and

3. After review, the school district superintendent shall accept or reject the recommendation of the principal in writing.

In the elementary and middle schools, a placement committee consisting of the principal, counselor, and teacher(s) shall determine if a student is to be assigned to the next higher grade. The committee shall consider standardized test scores and the student's age.

Whenever a teacher or a placement committee recommends that a student be retained at the present grade level or not passed in a course, the parent(s) or guardian, if dissatisfied with the recommendation, may appeal the decision by complying with the district's appeal process. The decision of the board of education shall be final. The parent(s) or guardian may prepare a written statement to be placed in and become a part of the permanent record of the student stating the parent(s)'s or guardian's reason(s) for disagreeing with the decision of the board.

Therefore, it is the policy of the board of education that a minimum of 24 units of credit be earned in the subject areas listed below to be eligible for graduation. All students, in order to graduate from an Oklahoma public school, will be required to complete the "college preparatory/work ready curriculum units or sets of competencies" at the secondary level. However, all students in grades nine through twelve are required to enroll in a minimum of six periods, or the equivalent in block scheduling, of rigorous academic and/or rigorous vocational courses each day, which may include arts, vocal and instrumental music, speech classes, and physical education classes.

Students who transfer into this school district from out of state after their junior year of high school shall not be denied, because of differing graduation requirements, the opportunity to be awarded a standard diploma. This applies to students who would be unable to meet the specific graduation requirements listed above without extending the date of graduation. Exception from the graduation requirements will be based on rules established by the State Department of Education. All exceptions and the reasons therefore shall be reported to the State Department of Education on or before July 1 of each year.

All course credit earned through examination by students in required curriculum areas shall be appropriately noted on the student's transcript and/or student record. A school administrator may waive this requirement for an eligible student who has a disability. A student may also be excused from this requirement if a parent or guardian of the student objects in writing.

Students who start ninth grade prior to or during the 2017-2018 school year will be required to complete an assessment in order to graduate with a standard diploma. Computer Science may be used to fulfill the three additional units. Computer Science courses should include programming and convey an understanding of computer hardware. Courses that teach business computer applications (i.e. word processing, databases, spreadsheets, and graphics programs) will be accepted. Keyboarding and courses designed to teach students typing skills will not be accepted

World history may be used to satisfy the “non-western culture” option.

COLLEGE PREPARATION

All students considering a college education should plan their high school courses as early as possible to meet the college entrance requirements of the particular college they plan to attend.

One of our state universities announced they would not offer any high school, or zero credit subjects. Therefore, a student seeking admittance to it and needing extra high school units in math, science, language, etc., will have to take those subjects at their own high school. Another has announced that they will require zero credit courses to be taken if a student’s ACT test score is below a certain number. It is of the utmost importance that each student checks individually with his/her choice of colleges as to the particular requirements. All colleges, universities and tech schools are more than happy to send students information concerning their school. Postal cards or letters should be addressed to:

Town and State Zip

OKLAHOMA HIGHER LEARNING ACCESS PROGRAM

The Oklahoma Legislature in 1992 who offers college scholarship funds to Oklahoma students created the Oklahoma Higher Learning Access Program for families with limited income (less than \$50,000), who fulfill an agreement to meet certain academic and conduct standards in high school. The unique feature about this program is that students can only enroll in the program during the eighth or tenth grade.

EARLY GRADUATION POLICY

The administration at Morris Public Schools believes that while early graduation may be of benefit to some students, other options exist that may present a greater benefit to most. The administration encourages students to explore additional course offerings at Morris High School, enrollment at Green Country Technical Center, O.S.S.M. Regional Center, and concurrent

enrollment at OSU-Okmulgee prior to deciding to apply for early graduation.

Courses may not be taken prior to completion of pre-requisites, out of order, or at an early grade level. Underclassmen will not be allowed to take senior classes. Completion of course work early would have to be accomplished through summer school, correspondence work, or some other means.

1. The student must make an application in writing, to the Superintendent of schools no later than sixty-days (60) prior to the expected completion date of the requirements for graduation.

5. The decisions of the Superintendent may be appealed to the Morris Board of Education whose decision shall be final.
6. The following apply to all early graduates:
 - a) A transcript showing all completed course work, and a graduation date will be provided.
 - b) Diplomas will be provided only once per year in May.
 - c) Early graduates may be included in pictures, ordering of announcements, ordering of caps and gowns, and commencement along with regular graduates.
 - d) The early graduate is responsible to communicate with the high school office to facilitate item "C" above.
 - e) Early graduates MAY NOT participate in class trips, Junior/Senior Prom & Banquet, or any other class activities not directly associated with commencement.

Parents are asked to sign and return the folder and whatever work, etc. the teacher asks to be returned. The purpose of the "Thursday Folder" is to aid students in keeping up with assignments; teachers in communicating with the parents; and parents in helping teachers help students. We appreciate our Morris State Bank for sponsoring this beneficial project.

K-5 grade students will either go to the cafeteria for breakfast or enter the building through the door at the end of the covered walkway and report to the gym. Students will read a book and sit quietly in their designated line when they enter the gym. If a student is in Kindergarten, they will report to the media room, which is located near the gym.

Walkin' & Shakin' will be our daily opening and starts promptly at 8:05. This is part of the school day. Students arriving after 8:10 will need to report to the office for a tardy slip.

CONTINUED- ARRIVAL-DEPARTURE TIME FOR ALL STUDENTS

Students arriving after 8:05 am or departing before 3:10 pm, must check in or out through the office. Students will not be allowed to leave campus during school hours unless an authorized adult checks them out.

Students will not be allowed in the school building or on the playground before 7:45 a.m., unless the child is eating breakfast, starting at 7:30, in the cafeteria. The student then may go directly to the Holding Room. Students who walk home from school are to leave the school ground as soon as school is out.

CLOSED CAMPUS

Once a vehicle enters campus, that vehicle should not be moved until 3:10 pm unless permission has been granted. The student must sign out for doctor, dentist, funerals, court, etc. with a note or phone call from parents. Students must exit their vehicles immediately upon arrival at school.

Students in grades 9-12 are allowed to leave campus at noon providing they walk. Students will not be permitted to ride around with outsiders at noon. Parents may pick up their children at noon to take them to lunch, but student must sign out before leaving.

Students who park their vehicle off campus with intentions of driving at noon will be disciplined the same as driving from campus without signing out. Students, who are absent for any reason with intentions of returning to school after lunch, may enter campus parking, but not cruise around before hand.

Students who disrespect, abuse, destroy, deface, or litter public or private property jeopardize the freedom of leaving campus in the future.

CONCURRENT ENROLLMENT

This program is designed to begin the summer after the student's sophomore year. Juniors and seniors who meet state requirements may enroll in college classes. For every class dropped at Morris High School, the equivalent of 3 college credit hours must be taken at the college attended. Any student enrolled concurrently at a College or University for High School credits, and who successfully passes the enrolled course will be granted Advanced Standing for the course for High School credit. The Advanced Standing would be to raise the received grade by one letter grade provided that grade is below the grade of "A". Example: The grade of "C" would be recorded as a grade of "B" on the High School transcript.
