

Cleveland Middle School Presents: CMS SPOTLIGHT SERIES

Nassrin Spencer

I am an Instructional Specialist for math and science at Cleveland Middle School. This is my 5th year as an Instructional Specialist and my 21th year as an educator. I have a master's degree in educational administration and a master degree in agricultural economics with emphasis in horticulture. Prior to teaching, I worked as a Research Associate at Texas A&M Experiment Station for 13 years. I have two children and two grandchildren. My hobbies are gardening and traveling when I can. I love living in Texas, eating Whataburger and Mexican food and watching bluebonnets in springtime.

Pattie Myers

As an Instructional Specialist and Campus Test Coordinator, I handle the administrative side of curriculum and instruction for English Language Arts and Reading as well as Social Studies. I meet weekly with our teachers as a department and daily as their needs arise, conduct 10 to 15 Powerwalks a day, create Common Assessments every three weeks, conduct Data Talks, and work hand in hand with our Librarian to ensure the Accelerated Reading Program

runs smoothly. As the Campus Test Coordinator, I plan and organize all state testing on our campus, train teachers, and keep our campus legal with all current TEA guidelines. I am completing my 38th year in education, with a Bachelors from Sam Houston State University and a Masters from Texas A&M Texarkana with teaching experience in grades K – 12 and 11 years in administration.

We are so blessed to have these ladies as a part of our Leadership Team at CMS! #onetribe
