

# In the Spotlight

## **Teacher of the month | October 2022**

Mr. Villa became a teacher because he likes working with teenagers, likes helping them grow, and because he wants to make a difference in the lives of all his students / help them reach their potential. Mr. Villa has been a teacher for 10 years, and he has been at LRFMS for all those years! He believes that Social Studies helps students understand other cultures and how they interact with each other, while helping them develop critical thinking and problem solving skills. Mr. Villa recommends organization (i.e., keeping track of assignments, due dates, and other important information). He also encourages students to take advantage of all the resources available.

## **Congratulations Mr. Villa!**
