

JA Staff Safety Plan

The health and safety of our JA staff members is very important to us. The following procedures have been put in place to help keep all our employees healthy and safe.

- If a staff member or a family member is at higher risk for Covid-19, they can complete an At Risk Assessment so that the school can be aware.
- As we reopen, staff will have temperatures taken and sign an affidavit regarding symptoms daily.
- Staff will be discouraged from interacting with each other unmasked and within 6 feet of each other.
- Staff will be required to stay home if they exhibit symptoms consistent with COVID-19 and then tested. They will only return to work after a negative test or quarantine as recommended by the health department.
- Staff will be extensively trained in all health and safety measures implemented for the reopening of the school year. These will be revisited at least weekly if not more frequently.
- Staff will be required to wear a face shield or covering if within 6 feet of another person.
- Large gatherings will only be held if physical distancing can be executed.
- If information, training, etc. can be delivered via email or virtually, it will be done that way to avoid large close gatherings.
- Many other measures as outlined in the school reopening plan will also protect staff members. See it for more details.
