Parental Involvement, often a missing element in educational partnerships, represents a powerful force that can build collective and proactive strategies to improve our educational system for all students.

We believe foremost that parents are valuable partners in fostering student achievement within the district, school, and community. We have embraced a vision that parents and children in this district and community will be active partners in student learning and in the success of our district.

Parental involvement of most any kind increases student achievement and self-esteem. Programs designed with strong parent involvement produces students who perform better than identical programs without parent involvement. Students who are failing improve dramatically when parents are called in to help. Parent involvement also has positive results for parents, schools, and communities.

Schools need parent involvement parent-child and school community relationship.. Studies have shown that students receiver higher grades and higher test results when parents are involved and to build a more effective school.

(Publication from Parent Education Network)

Miami ISD is a Title I school where all staff and members pledge to invite all parents to be active members of their child(ren)'s education. We will invite and encourage parent participation throughout the year to benefit the learning and well-being of all students.

Many educational opportunities are provided to help children reach their maximum level of achievement.

These include:

- Balanced Literacy,
- Computer Lab,
- 1:1 laptops for students grades 3-12,
- Counseling,
- Gifted and Talented Program,
- Special Education and Inclusion,
- Dyslexia support,
- Smart Boards,
- IPADS ,
- Dual College Classes,
- Tutorials ,
- Response To Intervention (RTI),
- Gateway classes

Pledge for Education

School Pledge

The entire staff at Miami ISD pledges to invite all parents to a meeting at which time the school-parent compact will be discussed. Parents will be provided training in ways they can learn how to help student achievement and give meaningful input into the education process.

Teacher Pledge

As a teacher of Miami ISD I pledge to have high expectations and to motivate my students to be life-long learners. I will provide a safe, caring learning environment which will consist of interesting and challenging lessons that promote student achievement. I will communicate regularly (examples: notes, report cards, and three-week progress reports) with parents about student progress.

Parent Pledge

As a parent of a Miami ISD student, I pledge to accept responsibility for supporting my child's learning by monitoring: school attendance, homework, television watching, computer and internet usage, and extra-curricular activities. I will monitor my child's progress in school and will participate in activities such as school decision making, volunteering and/or attending parent-conferences. I will respect the school, staff, and students of Miami ISD.

Student Pledge

Students join with faculty, staff, and parents in creating goals for themselves for the school year. In order to encourage academic growth, students suggest: 1. Set goals for myself to increase reading time each day. 2. Find real world applications for writing. 3. Ask for help when needed. 4. Have a positive attitude about learning and setting goals for myself. 5. Be on time and present for school and class each day.

Mission Statement

Miami ISD has a staff and student body determined to exhibit excellence in every endeavor and demonstrate integrity in every encounter to be an inspiration to the community and the world.
