Administration

first-period announcements over the P.A. system-
 taking time to talk with students-conferences
 with parents-conferences with teachers-confer-
 ences with school officials-keeping the nut type
 under control-answering steady streams of phone
 calls-turning the wheels that keep the "machinery"
 of school life going-and heading up those sad
 morning teacher's meetings...

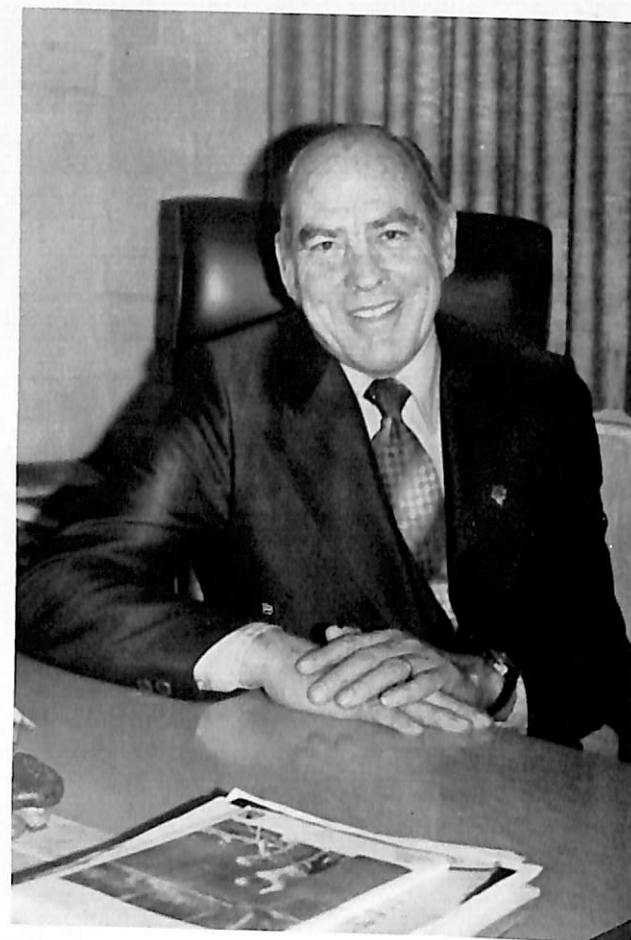

Superintendent Works to Maintain High Standards

There are many ways to evaluate the accomplishments of a year's work. May each of you be able to look back and be thankful for the opportunities you had and be satisfied with your personal efforts to gain knowledge and personal development. There is so much happiness in life when you know that you are doing your best.

My thanks to the Annual Staff for preserving these many memories of the 1977-78 school year.

Bert W. Cobb

Principal Attends To Many Jobs

Today our country is faced more than ever with the vital need for trained people to insure our continued progress. The advances during the past 20 years have continued to greatly increase the need for both professional and skilled personnel.

Knowledge, supported by interest, ambition, and initiative is a major determinant in the success of individuals today.

Good luck and best wishes to the class of 1978.

Jerry D. Odstrom

In Memory of Peter Chovanec

Friday, January 27, 1978, many people were shocked by the death of our custodian. Peter Chovanec died as he had lived; on the job and taking care of our school. He had dedicated himself to this job for so long and so sincerely, that it had become for him a way of life, and his manner of fulfilling his duties had become an example for all of us. His dedication was his contribution toward making this a better school and community. The students and faculty would like to express their deepest sympathy. Fayetteville High School has lost a truly dedicated and earnest worker.
