

# Don't Forget Me: Children in Hot Cars

## Preventive Tips:

- Talk to older children about the dangers of hot cars.
- Never leave a child alone in a vehicle, even to run a short errand.
- Keep vehicles locked at all times; keep keys and remote openers out of children's reach.

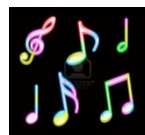

- Place your cell phone, purse or briefcase in the backseat with the child.

- Place the child's diaper bag, stuffed animal or shoe in your front seat to help remind you of their presences.

- Talk or sing to the child to avoid self-absorbed thoughts.

- Request that the daycare notify you if your child doesn't show up.
- Make a habit to confirm who brings your child from your car into your home each time.
