POLICIES AND PROCEDURES

Local board policies, the Legal Framework for the Child-Centered Special Education Process and these procedures constitute policies and procedures for purposes of satisfying 34 CFR 300.201. The Bell County CoOp will follow these policies and procedures to ensure IDEA and its accompanying federal regulations, State statutes and regulations are implemented for each qualifying student with a disability.

The special education programs in the Bell County CoOp operate under local district board policies and the Legal Framework for the Child-Centered Special Education Process. This operational procedures manual is to clarify and support local district policy, State Board of Education and Commissioner's Rules for Special Education Services, and 34 Code of Federal Regulations (Individuals with Disabilities Education Act) IDEA 2004 - Part 300 – final revised regulations dated August 14, 2006. The local district board approved policy manual may be found in the office of the superintendent, the administrative office of each school, and the special education office.

The Legal Framework for the Child-Centered Special Education Process may be found online. The Bell County CoOp also uses approved district forms to document compliance with the Legal Framework for the Child-Centered Special Education Process. Training on personnel responsible for each step in the Child-Centered Special Education Process is conducted annually.

The list on the next page includes the most frequently referenced policy sections which relate to special education services.

Section 1. - INTERVENTION / REFERRAL

I. PRIOR TO INITIAL REFERRALS TO SPECIAL EDUCATION

Prior to a referral to special education, students experiencing difficulties progressing in the general curriculum should be considered for all support services and intervention programs available to all students in the district, including tutoring, RTI/MTSS programs, and remedial or compensatory programs. Implementation of any intervention program cannot serve to delay or deny referral, evaluation, and eligibility determinations under the IDEA when students are suspected of having a disability and a need for special education services. The Special Education Director will work with the campus Principals to train staff on Child Find procedures and duties including how to address and document any parent requests for evaluation. Students who have received tiered interventions through the campus MTSS Committee will have documentation of those interventions on required district forms provided to the Bell County CoOp in a referral packet. Procedures will be reviewed annually at the beginning of each school year.

Title I – Amendments to the Individuals with Disabilities Education Act (IDEA) “Part A-General Provisions

118 Statute 2647 - Sec. 601 (c) Findings – Congress finds the following:

- (5) Almost 30 years of research and experience has demonstrated that the education of children with disabilities can be made more effective by –
- (A) having high expectations for such children and ensuring their access to the general education curriculum in the regular classroom, to the maximum extent possible;
 -
 - (E) supporting high quality, intensive preservice preparation and professional development for all personnel who work with children with disabilities in order to ensure that such personnel have the skills and knowledge necessary to improve the academic achievement and functional performance of children with disabilities, including the use of scientifically based instructional practices;
 - (F) providing incentives for whole-school approaches, scientifically based early reading programs, positive behavioral interventions and supports, and early intervening services to reduce the need to label children as disabled in order to address the learning and behavioral needs of such children.

§300.309 Determining the existence of a specific learning disability.

- (b) To ensure that underachievement in a child suspected of having a specific learning disability is not due to lack of appropriate instruction in reading or math, the group must consider, as part of the evaluation described in § 300.304 through 300.306 -
- (1) Data that demonstrate that prior to, or as a part of the referral process, the child was provided appropriate instruction in regular education settings delivered by qualified personnel; and
 - (2) Data-based documentation of repeated assessments of achievement at reasonable intervals, reflecting formal assessment of student progress during instruction, which was provided to the child's parents.
- (c) The public agency must promptly request parental consent to evaluate the child to determine if the child needs special education and related services, and must adhere to the timeframes described in § 300.301 and 300.303, unless extended by mutual agreement of the child's parents and a group of qualified professionals, as described in 300.306(a)(1)--
- (1) If, prior to a referral, the child has not made adequate progress after an appropriate period of time, when provided instruction, as described in paragraphs (b)(1) and (2) of this section; and
 - (2) Whenever a child is referred for an evaluation.

The support services and intervention program options to address the students' difficulties should be made in collaboration with parents, who should be notified of their right to request a special education referral at any time. If students continue to struggle with the general curriculum despite provision of interventions, the student should be referred for a special education evaluation within a reasonable timeframe,

determined by the campus intervention committee based on each individual student, depending on the student's degree of response to interventions, the parents' input, and the degree of difficulty the student is experiencing in meeting mastery criteria on general curriculum. Implementation of any intervention program cannot serve to delay or deny referral, evaluation, and eligibility determinations under the IDEA when students are suspected of having a disability and a need for special education services. The Special Education Director will ensure the "Notice of Parent Right To Request Referral for Evaluation" is included in the districtwide student handbook provided to all parents. The districtwide student handbook including notice is provided annually. Specific Learning Disability is also found in Section 3 – Disability Criteria.

TEC §29.023. NOTICE OF RIGHTS.

<https://tea.texas.gov/about-tea/news-and-multimedia/correspondence/taa-letters/senate-bill-139-notice-families>
<https://tea.texas.gov/academics/special-student-populations/special-education/programs-and-services/student-handbook-statement-english>

- (a) The agency shall develop a notice for distribution as provided by Subsection (c) and posting on the agency's Internet website that indicates:
 - (1) the change made from 2016 to 2017 in reporting requirements for school districts and open-enrollment charter schools regarding the special education representation indicator adopted in the Performance-Based Monitoring Analysis System Manual; and
 - (2) in plain language, the rights of a child under both federal and state law and the general process available to initiate a referral of a child for a full individual and initial evaluation under Section 29.004 to determine the child's eligibility for special education services.
- (b) A school district or open-enrollment charter school shall include in the notice developed by the agency under Subsection (a) information indicating where the local processes and procedures for initiating a referral for special education services eligibility evaluation may be found.
- (c) By a date established by the commissioner, each school district or open-enrollment charter school shall provide the notice to the parent of each child who attends school in the district or at the school at any time during the 2019-2020 school year. A school district or open-enrollment charter school shall also make the notice available on request to any person. The notice must be available in English and Spanish, and a school district or open-enrollment charter school shall make a good faith effort to provide the notice in the parent's native language if the parent's native language is a language other than English or Spanish.
- (d) The notice is in addition to requirements imposed by Section 26.0081.
- (e) The commissioner may adopt rules necessary to implement this section.
- (f) This section expires September 1, 2023.

The district will provide the required notice in English and Spanish to each child who attends school in the district of their right to request an evaluation for special education. This notice will be included in each campus' student packet given to the parents of each enrolled student. Parents can request a referral at any time regardless of whether the student is receiving interventions through the MTSS Committee system. OSEP has advised that unless the district believes there is no reason to suspect that a child has a disability and is in need of special education services, an evaluation must be conducted within the applicable Federal/State existing timeline. If, however, the district does not suspect the child is a child with a disability and denies the request for an initial evaluation, the Bell County CoOp designee must: 1) provide written notice to parents explaining why the district declines to conduct an initial evaluation and the information that was used as the basis for that decision; 2) provide the parent with a copy of their procedural safeguards and be sure they are informed they can challenge this decision by requesting a due process hearing under 34 CFR §300.153 to resolve the dispute regarding the child's need for an evaluation; and 3) Bell County CoOp Special Education Director will determine the designee responsible for providing this information to the parent. The Special Education Director will train campus Principals and diagnostician/LSSP/SLP annually on the proper procedures. Other campus personnel will be trained annually at a minimum on this Child Find procedure by the campus principal or designee.

TEC §26.004. ACCESS TO STUDENT RECORDS.

- (a) In this section, "intervention strategy" means a strategy in a multi-tiered system of supports that is above the level of intervention generally used in that system with all children. The term includes response to intervention and other early intervening strategies.

- (b) A parent is entitled to access to all written records of a school district concerning the parent's child, including:
- (1) attendance records;
 - (2) test scores;
 - (3) grades;
 - (4) disciplinary records;
 - (5) counseling records;
 - (6) psychological records;
 - (7) applications for admission;
 - (8) health and immunization information;
 - (9) teacher and school counselor evaluations;
 - (10) reports of behavioral patterns; and
 - (11) records relating to assistance provided for learning difficulties, including information collected regarding any intervention strategies used with the child.

Response to Intervention (RtI) and Learning Disability (LD) Eligibility:

https://tea.texas.gov/Academics/Special_Student_Populations/Special_Education/Programs_and_Services/Response_to_Intervention/

The LEA is required to provide parents with notice whenever their child begins to receive intervention strategies. The notice must contain specific requirements. TEA has created a template that LEAs can use that meets the statutory requirements. For a sample of the notice form required in TEC §26.0081(d) as well as the Response to Intervention (RtI) and Learning Disability (LD) Eligibility document from TEA, use this link:

TEC §26.0081. RIGHT TO INFORMATION CONCERNING SPECIAL EDUCATION AND EDUCATION OF STUDENTS WITH LEARNING DIFFICULTIES.

- (a) The agency shall produce and provide to school districts sufficient copies of a comprehensive, easily understood document that explains the process by which an individualized education program is developed for a student in a special education program and the rights and responsibilities of a parent concerning the process. The document must include information a parent needs to effectively participate in an admission, review, and dismissal committee meeting for the parent's child.
- (b) The agency will ensure that each school district provides the document required under this section to the parent as provided by 20 U.S.C. Section 1415(b):
- (1) as soon as practicable after a child is referred to determine the child's eligibility for admission into the district's special education program, but at least five school days before the date of the initial meeting of the admission, review, and dismissal committee; and
 - (2) at any other time on reasonable request of the child's parent.
- (c) The agency shall produce and provide to school districts a written explanation of the options and requirements for providing assistance to students who have learning difficulties or who need or may need special education. The explanation must state that a parent is entitled at any time to request an evaluation of the parent's child for special education services under Section 29.004 or for aids, accommodations, or services under Section 504, Rehabilitation Act of 1973 (29 U.S.C. Section 794). Each school year, each district shall provide the written explanation to a parent of each district student by including the explanation in the student handbook or by another means.
- (d) Each school year, each school district shall notify a parent of each child, other than a child enrolled in a special education program under Subchapter A, Chapter 29, who receives assistance from the district for learning difficulties, including through the use of intervention strategies, as that term is defined by Section 26.004, that the district provides that assistance to the child. The notice must:
- (1) be provided when the child begins to receive the assistance for that school year;
 - (2) be written in English or, to the extent practicable, the parent's native language; and
 - (3) include:
 - (A) a reasonable description of the assistance that may be provided to the child, including any intervention strategies that may be used;
 - (B) information collected regarding any intervention in the base tier of a multi-tiered system of supports that has previously been used with the child;
 - (C) an estimate of the duration for which the assistance, including through the use of intervention strategies, will be provided;

- (D) the estimated time frames within which a report on the child's progress with the assistance, including any intervention strategies used, will be provided to the parent; and
 - (E) a copy of the explanation provided under Subsection (c).
- (e) The notice required under Subsection (d) may be provided to a child's parent at a meeting of the team established for the child under Section 504, Rehabilitation Act of 1973 (29 U.S.C. Section 794), if applicable.

TEC §38.003. SCREENING AND TREATMENT FOR DYSLEXIA AND RELATED DISORDERS.

- (a) Students enrolling in public schools in this state shall be screened or tested, as appropriate, for dyslexia and related disorders at appropriate times in accordance with a program approved by the State Board of Education. The program must include screening at the end of the school year of each student in kindergarten and each student in the first grade.
- (b) In accordance with the program approved by the State Board of Education, the board of trustees of each school district shall provide for the treatment of any student determined to have dyslexia or a related disorder.
- (b-1) Unless otherwise provided by law, a student determined to have dyslexia during screening or testing under Subsection (a) or accommodated because of dyslexia may not be rescreened or retested for dyslexia for the purpose of reassessing the student's need for accommodations until the district reevaluates the information obtained from previous screening or testing of the student.
- (c) The State Board of Education shall adopt any rules and standards necessary to administer this section.
- (c-1) The agency by rule shall develop procedures designed to allow the agency to:
 - (1) effectively audit and monitor and periodically conduct site visits of all school districts to ensure that districts are complying with this section, including the program approved by the State Board of Education under this section;
 - (2) identify any problems school districts experience in complying with this section, including the program approved by the State Board of Education under this section; and
 - (3) develop reasonable and appropriate remedial strategies to address school district noncompliance and ensure the purposes of this section are accomplished.
- (d) In this section:
 - (1) "Dyslexia" means a disorder of constitutional origin manifested by a difficulty in learning to read, write, or spell, despite conventional instruction, adequate intelligence, and sociocultural opportunity.
 - (2) "Related disorders" includes disorders similar to or related to dyslexia, such as developmental auditory imperception, dysphasia, specific developmental dyslexia, developmental dysgraphia, and developmental spelling disability.

TAC §74.1101. Dyslexia Screening Requirements for 2019-2020 and 2020-2021 School Years.

- (a) Conditional waiver for 2019-2020 school year. The requirement established under Texas Education Code (TEC), §38.003(a), to screen each student in Kindergarten for dyslexia and related disorders by the end of the school year was waived by the governor for the 2019-2020 school year due to school closures resulting from the COVID-19 pandemic, subject to guidance and rules adopted by Texas Education Agency.
- (b) Applicability. The waiver described under subsection (a) of this section applies to school districts and open-enrollment charter schools that implement the requirements of subsection (c) of this section.
- (c) Requirements for 2020-2021 school year. School districts and open-enrollment charter schools must administer the reading diagnostic instrument required by TEC, §28.006, within the first 20 school days of the 2020-2021 school year.
 - (1) A student should be provided reading intervention as needed based on the reading diagnostic instrument results.
 - (2) A student should be referred for an evaluation if dyslexia or a related disorder is suspected.
 - (3) A student should be referred for a full and individual initial evaluation as required by state and federal law if a need for special education services is suspected in addition to suspicion of the presence of dyslexia.
 - (4) Students in Grade 1 must be screened for dyslexia and related disorders by the end of January 2021 in accordance with TEC, §38.003(a), and the "Dyslexia Handbook: Procedures Concerning Dyslexia and Related Disorders" adopted under §74.28 of this title (relating to Students with Dyslexia and Related Disorders).
- (d) Alteration of timelines. The commissioner of education may alter the timelines under subsection (c) of this section for the state or an individual school district or open-enrollment charter school if circumstances resulting from the COVID-19 pandemic necessitate alteration.

TAC §74.28. Students with Dyslexia and Related Disorders.

- (a) In order to support and maintain full educational opportunity for students with dyslexia and related disorders and consistent with federal and state law, school districts and open-enrollment charter schools shall provide each student with dyslexia or a related disorder access to each program under which the student qualifies for services.
- (b) The board of trustees of a school district or the governing body of an open-enrollment charter school must ensure that procedures for identifying a student with dyslexia or a related disorder and for providing appropriate, evidence-based instructional services to the student are implemented in the district.
- (c) A school district's or open-enrollment charter school's procedures must be implemented according to the State Board of Education (SBOE) approved strategies for screening, individualized evaluation, and techniques for treating dyslexia and related disorders. The strategies and techniques are described in the "Dyslexia Handbook: Procedures Concerning Dyslexia and Related Disorders," provided in this subsection. The handbook is a set of guidelines for school districts and open-enrollment charter schools that may be modified by the SBOE only with broad-based dialogue that includes input from educators and professionals in the field of reading and dyslexia and related disorders from across the state.
- (d) Screening as described in the "Dyslexia Handbook: Procedures Concerning Dyslexia and Related Disorders," and further evaluation should only be conducted by individuals who are trained in valid, evidence-based assessments and who are trained to appropriately evaluate students for dyslexia and related disorders.
- (e) A school district or open enrollment charter school shall purchase a reading program or develop its own evidence-based reading program for students with dyslexia and related disorders that is aligned with the descriptors found in the "Dyslexia Handbook: Procedures Concerning Dyslexia and Related Disorders." Teachers who screen and treat these students must be trained in instructional strategies that use individualized, intensive, multisensory, phonetic methods and a variety of writing and spelling components described in the "Dyslexia Handbook: Procedures Concerning Dyslexia and Related Disorders." The professional development activities specified by each open-enrollment charter school and district and/or campus planning and decision making committee shall include these instructional strategies.
- (f) At least five school days before any evaluation or identification procedure is used selectively with an individual student, the school district or open-enrollment charter school must provide written notification to the student's parent or guardian or another person standing in parental relation to the student of the proposed identification or evaluation. The notice must be in English, or to the extent practicable, the individual's native language and must include the following:
 - (1) a reasonable description of the evaluation procedure to be used with the individual student;
 - (2) information related to any instructional intervention or strategy used to assist the student prior to evaluation;
 - (3) an estimated time frame within which the evaluation will be completed; and
 - (4) specific contact information for the campus point of contact, relevant Parent Training and Information Projects, and any other appropriate parent resources.
- (g) Before a full individual and initial evaluation is conducted to determine whether a student has a disability under the Individuals with Disabilities Education Act (IDEA), the school district or open-enrollment charter school must notify the student's parent or guardian or another person standing in parental relation to the student of its proposal to conduct an evaluation consistent with 34 Code of Federal Regulations (CFR), §300.503, provide all information required under subsection (f) of this section, and provide:
 - 1) a copy of the procedural safeguards notice required by 34 CFR, §300.504;
 - (2) an opportunity to give written consent for the evaluation; and
 - (3) a copy of information required under Texas Education Code (TEC), §26.0081.
- (h) Parents/guardians of a student with dyslexia or a related disorder must be informed of all services and options available to the student, including general education interventions under response to intervention and multi-tiered systems of support models as required by TEC, §26.0081(d), and options under federal law, including IDEA and the Rehabilitation Act, §504.
- (i) Each school or open-enrollment charter school must provide each identified student access at his or her campus to instructional programs required in subsection (e) of this section and to the services of a teacher trained in dyslexia and related disorders. The school district or open-enrollment charter school may, with the approval of each student's parents or guardians, offer additional services at a centralized location. Such centralized services shall not preclude each student from receiving services at his or her campus.
- (j) Because early intervention is critical, a process for early identification, intervention, and support for students at risk for dyslexia and related disorders must be available in each district and open-enrollment charter school as outlined in the "Dyslexia Handbook: Procedures Concerning Dyslexia and Related Disorders." School districts and open-enrollment charter schools may not use early intervention strategies, including multi-tiered

systems of support, to delay or deny the provision of a full and individual evaluation to a child suspected of having a specific learning disability, including dyslexia or a related disorder.

- (k) Each school district and open-enrollment charter school shall provide a parent education program for parents/guardians of students with dyslexia and related disorders. This program must include:
- (1) awareness and characteristics of dyslexia and related disorders;
 - (2) information on testing and diagnosis of dyslexia and related disorders;
 - (3) information on effective strategies for teaching students with dyslexia and related disorders;
 - (4) information on qualifications of those delivering services to students with dyslexia and related disorders;
 - (5) awareness of information on accommodations and modifications, especially those allowed for standardized testing;
 - (6) information on eligibility, evaluation requests, and services available under IDEA and the Rehabilitation Act, §504, and information on the response to intervention process; and
 - (7) contact information for the relevant regional and/or school district or open-enrollment charter school specialists.
- (l) School districts and open-enrollment charter schools shall provide to parents of children suspected to have dyslexia or a related disorder a copy or a link to the electronic version of the "Dyslexia Handbook: Procedures Concerning Dyslexia and Related Disorders."
- (m) School districts and open-enrollment charter schools will be subject to monitoring for compliance with federal law and regulations in connection with this section.

Current TEA Dyslexia Handbook: <https://tea.texas.gov/academics/dyslexia/>

The district Dyslexia Department in conjunction with the Special Education Department will provide training to each campus Principal and staff on procedures related to services for students with dyslexia during August in-service and at a minimum of annually.

- The campus MTSS Committee will be responsible for reviewing referrals of students suspected of having characteristics of dyslexia.*
- Students in grades K-2 may have been identified through a dyslexia screening procedure provided to all students in those grades.*
- Referrals for consideration of dyslexia may be completed for any student in the district.*
- Parents of all students suspected of dyslexia will be notified by the Bell County CoOp designee in conjunction with the Campus Designee and provided information concerning the condition and possible options for providing services to the student which align with the TEA Dyslexia Handbook. The district dyslexia specialist will provide an annual parent education program that provides information to parents regarding the characteristics of dyslexia and related disorder; the testing and diagnosis process, effective research based interventions and strategies, eligibility criteria under IDEA and Section 504, and accommodations and modifications that can be effective and utilized in standardized testing. All parents will also be provided a copy of the current Dyslexia Handbook published by TEA and it will be documented.*
- Using the designated district-wide process, the family of all students suspected of dyslexia will be offered an opportunity by the district dyslexia designee for an evaluation for dyslexia and the parent will be notified of their right to request a Full and Individual Evaluation if so desired.*
- When it appears that the student may require a program of specially designed instruction, the family will be offered a full initial and individual evaluation for special education services following the special education referral procedures. This includes following all special education timelines and includes Notice and Consent.*

Screenings and assessments for dyslexia must be done by individuals who have been appropriately trained to identify dyslexia and related disorders. Teachers and evaluators who screen and/or evaluate for dyslexia and related disorders must also be trained in instructional strategies that utilize researched based interventions as identified in the Dyslexia Handbook published by the TEA. The district will provide information to the TEA annually regarding the number of student enrolled in the district who are identified as having dyslexia. Data will be gathered through the electronic data management system utilized by the district.

If the student is referred for an FIE under special education, The FIE will include information if the student has dyslexia and is a student with a Learning Disability. The ARD committee will meet to determine eligibility and need for special education and related services. The ARD committee will determine a need for goals and the Least Restrictive Environment for services if necessary. The district dyslexia designee will provide the parent education

program, including all required components, annually. Documentation will be maintained by the district dyslexia designee.

Some families may decline a full initial and individual evaluation for a learning disability and may opt for evaluation under district Section 504 procedures instead. When it appears to the campus MTSS Committee, based on the request of the parent that no FIE be conducted, that the student will benefit from the standard dyslexia protocol, evaluation under Section 504 will be appropriate.

TAC §89.1011. Full Individual and Initial Evaluation.

- (a) Referral of students for a full individual and initial evaluation for possible special education services must be a part of the district's overall, general education referral or screening system. Prior to referral, students experiencing difficulty in the general classroom should be considered for all support services available to all students, such as tutorial; remedial; compensatory; response to evidence-based intervention; and other academic or behavior support services. If the student continues to experience difficulty in the general classroom after the provision of interventions, district personnel must refer the student for a full individual and initial evaluation. This referral for a full individual and initial evaluation may be initiated by school personnel, the student's parents or legal guardian, or another person involved in the education or care of the student.
- (b) If a parent submits a written request to a school district's director of special education services or to a district administrative employee for a full individual and initial evaluation of a student, the school district must, not later than the 15th school day after the date the district receives the request:
- (1) provide the parent with prior written notice of its proposal to conduct an evaluation consistent with 34 Code of Federal Regulations (CFR), §300.503; a copy of the procedural safeguards notice required by 34 CFR, §300.504; and an opportunity to give written consent for the evaluation; or
 - (2) provide the parent with prior written notice of its refusal to conduct an evaluation consistent with 34 CFR, §300.503, and a copy of the procedural safeguards notice required by 34 CFR, §300.504.

For TAC §89.1011 in its entirety, see V. TIMELINE - in this Section 1.

The Bell County CoOp/Troy ISD will use the MTSS Committee to consider all intervention services provided, all scientifically based reading or other programs used, any support services available to all students prior to referral for special education evaluation. Interventions such as tutorials, remedial support, compensatory support, and other services will be considered and documented in detail by the MTSS Committee prior to referral for special education evaluation.

Please note that parents have a right to request an evaluation at any time. When a disability is suspected, the appropriate referral process should be followed. Parents will also be given a copy of the Procedural Safeguards and information on how to appeal any decisions made through the Special Education Office.

II. REFERRALS FOR SPECIAL EDUCATION EVALUATION

TAC § 89.1035. Age Ranges for Student Eligibility.

- (a) Pursuant to state and federal law, services provided in accordance with this subchapter must be available to all eligible students ages 3-21. Services will be made available to eligible students on their third birthday. Graduation with a regular high school diploma pursuant to §89.1070 (b)(1), (b)(2)(D), (g)(1), (g)(2), (g)(3), or (g)(4)(D) of this title (relating to Graduation Requirements) terminates a student's eligibility to receive services in accordance with this subchapter. An eligible student receiving special education services who is 21 years of age on September 1 of a school year will be eligible for services through the end of that school year or until graduation with a regular high school diploma pursuant to §89.1070 (b)(1), (b)(2)(D), (g)(1), (g)(2), (g)(3), or (g)(4)(D) of this title, whichever comes first.
- (b) In accordance with the Texas Education Code (TEC), § 29.003, 30.002(a), and 30.081, a free, appropriate, public education must be available from birth to students with visual or impairments or who are deaf or hard of hearing. *(See Disability Criteria Section 3 for: TAC § 89.1040. Eligibility Criteria)*

Students meeting the age criteria above, suspected of having a disability, and residing within the Bell County CoOp can be referred for special education evaluation. Students suspected of having a disability attending a private, nonpublic school within the boundaries of Bell County CoOp may also obtain an evaluation for special education services. The district MTSS Committee, teacher, parent, doctor or other invested person with educational concerns may refer a student for a suspected disability and need for special education services. District forms are used for all documentation.

Enrolled Students (MTSS Committee):

Any enrolled student experiencing a lack of educational progress will be addressed by the general education intervention services provided as a part of the campus MTSS Committee process that is the responsibility of the campus principal. This local campus committee will monitor and determine student progress individually, track student progress on district forms and may refer for special education evaluation. At such time as the local campus committee determines a referral for special education evaluation is needed, the special education referral process begins. The district designee will complete the specific referral forms that are provided in the Bell County CoOp's Special Education computer system.

Enrolled Students (Parent/ Other Request):

Parents can request a referral at any time regardless of whether the student is receiving interventions through the MTSS Committee system. Unless the district believes there is no reason to suspect that a child has a disability and is in need of special education services, an evaluation must be conducted within the applicable Federal/State timeline found in Section 1 of these Operating Procedures.

- 1. If a parent contacts campus personnel verbally requesting a referral for special education evaluation, that campus person will immediately contact the local campus diagnostician/LSSP, principal, or Bell County CoOp who will reconnect with the parent and request a meeting.*
- 2. The parent will be offered the opportunity to meet with the local campus diagnostician/LSSP, or principal to discuss concerns regarding the student. The designee may also explain other options, 504 evaluation or the MTSS Committee process depending on student needs and parent request.*

The campus designee will proceed with gathering existing information. The designee will meet with the MTSS Committee to review all data and determine if the student data warrants moving forward with an evaluation for special education. The suspected disability must be interfering with the student's educational progress. If the MTSS Committee agrees the evaluation is needed, the committee will follow the district referral procedures. All state timelines will be followed.

If the MTSS Committee determines the evaluation is not warranted follow (b) (1), (2), & (3) below

If the parent wishes to proceed with a written request for a full and individual initial evaluation, the parent must provide the written request to the campus designee. The campus assessment specialist will then follow district procedures regarding Notice and Consent for Evaluation.

- (a) the special education department and campus designee will, not later than the 15th school day after the date the district receives the written request either continue the referral process providing and completing all required district forms including Notice/Consent (all TEA timelines for FIE and ARD apply); OR

- (b) If the district does not suspect the child is a child with a disability and denies the request for an initial evaluation, the Diagnostician or LSSP must
- (1) *provide prior written notice to parents explaining why the district declines to conduct an initial evaluation and the information that was used as the basis for that decision;*
 - (2) *provide the parent with a copy of their procedural safeguards. The district must ensure that parents are informed of their right to challenge this decision by requesting a due process hearing under 34 CFR §300.153.; and*
 - (3) *campus principals and Special Education Director will determine the designee responsible for providing the required information to the parent but most times it will be the Diagnostician or the LSSP.*

The Special Education Director will train campus Principals, and the diagnostician/LSSP annually on the proper procedures. Other appropriate campus personnel will be trained annually on this Child Find procedure by the Special Education Department. All MTSS Committee documentation will be maintained in the student's campus folder. All special education required notifications, consents and documentation will be maintained with the student's special education eligibility information at the Bell County CoOp.

III. MEMBERSHIP OF THE MTSS COMMITTEE

- a. The membership in the district's overall general education screening system is determined by local campus administration unless specified in Bell County CoOp policy. The overall screening system on each campus is under the general responsibility of the campus Principal and not the Special Education Department. The timeline for review of individual student progress is also under the direction of the Principal and members of the MTSS Committee. The Principal is responsible for annual training of the campus staff.*
- b. Special education personnel may participate on, but not be assigned primary responsibility for the MTSS Committee.*
- c. Special education personnel may be involved in collecting referral data ONLY for the following students:*
 - 1. pre-kindergarten students*
 - 2. students who are hospitalized, institutionalized, or admitted to treatment centers.*
 - 3. students with multiple-disabilities*
 - 4. eligible students with disabilities new to a district*
 - 5. students referred to special education during the summer*

IV. GENERAL EDUCATION RESPONSIBILITIES

- a. *The general education teacher will consider the student experiencing difficulty in the general classroom for all support services available to all students such as tutorial, remedial, compensatory, and other services. When a student is suspected of having both a disability and the need for specially designed instruction, a timely referral for evaluation under the IDEA is made. This referral can occur at any point in the MTSS Committee process.*
- b. *The general education teacher will discuss, consider, and document student educational concerns and all educational alternatives and options available and those tried, the amount of time tried, and reasons why those tried did not work.*
- c. *The teacher will discuss student needs and additional possible supports in the Bell County CoOp committee following campus procedures. However, if the student is suspected of having a disability and in need of special education services, the Bell County CoOp's process will not preclude a referral for special education evaluation.*
- d. *For students referred with a suspected learning disability, data-based documentation of repeated assessments of achievement at reasonable intervals, reflecting formal assessment of student progress during instruction, must have been documented and provided to the child's parents prior to referral for special education evaluation.*
- e. *If the options tried were not successful, the Bell County CoOp's referral forms required are outlined in the directions of the referral packet. All required information (including Procedural Safeguards) will be completed by the campus designee with appropriate signatures and dates. Required information includes the TEA publication "A Guide to the Admission, Review and Dismissal Process".*
- f. *Obtain the parent, guardian, adult student's signature showing explanation and receipt of the required Notice of Procedural Safeguards.*
- g. *Provide parent the Prior Written Notice of Proposal or Refusal to Provide Services. Obtain parent signature for Consent for Evaluation if appropriate. In the event the parent refuses Consent for Evaluation, the Bell County CoOp designee will request assistance from the campus diagnostician in order to complete required documentation. Also see Section 2. FIE and Section 7. Procedural Safeguards.*
- h. *The student's referral data shall be maintained for documentation purposes.*
- i. *For students whose Home Language Survey is other than English, the LPAC report, which must have been completed within the past year, must be included with the referral packet. The student should have been tested in English and their primary language. Referral information will also include referral information, LPAC report, LAS scores or equivalent test, amount of time in ESL, and a copy of the Home Language Survey.*

The principal will determine the manner in which referral packets are given to teachers.

V. TIMELINE – INITIAL REFERRAL TO EVALUATION

§ 300.301 Initial evaluations.

- (a) **General.** Each public agency must conduct a full and individual initial evaluation, in accordance with §§300.304 and 300.306, before the initial provision of special education and related services to a child with a disability under this part.
- (b) **Request for initial evaluation.** Consistent with the consent requirements in §300.300, either a parent of a child, or public agency may initiate a request for an initial evaluation to determine if the child is a child with a disability.
- (c) **Procedures for initial evaluation.** The initial evaluation--
- (1) (i) Must be conducted within 60 days of receiving parental consent for the evaluation; or
 - (ii) If the State establishes a timeframe within which the evaluation must be conducted, within that timeframe; and
 - (2) Must consist of procedures--
 - (i) To determine if the child is a child with a disability under §300.8; and
 - (ii) To determine the educational needs of the child.
- (d) **Exception.** The timeframe described in paragraph (c)(1) of this section shall not apply to the public agency if--
- (1) The parent of a child repeatedly fails or refuses to produce the child for the evaluation; or
 - (2) A child enrolls in a school of another public agency after the relevant timeframe in paragraph (c)(1) of this section has begun, and prior to a determination by the child's previous public agency as to whether the child is a child with a disability under § 300.8.
- (e) The exception in paragraph (d)(2) of this section applies only if the subsequent public agency is making sufficient progress to ensure a prompt completion of the evaluation, and the parent and subsequent public agency agree to a specific time when the evaluation will be completed. (Authority: 20 U.S.C. 1414(a))

TEC§ 29.004 Full and Individual Initial Evaluation (authorizing statute for §89.1011)

- (a) A written report of a full individual and initial evaluation of a student for purposes of special education services shall be completed as follows, except as otherwise provided by this section:
- (1) not later than the 45th school day following the date on which the school district, in accordance with 20 U.S.C. Section 1414(a), as amended, receives written consent for the evaluation, signed by the student's parent or legal guardian, except that if a student has been absent from school during that period on three or more days, that period must be extended by a number of school days equal to the number of school days during that period on which the student has been absent; or
 - (2) for students under five years of age by September 1 of the school year and not enrolled in public school and for students enrolled in a private or home school setting, not later than the 45th school day following the date on which the school district receives written consent for the evaluation, signed by a student's parent or legal guardian.
- (a-1) If a school district receives written consent signed by a student's parent or legal guardian for a full individual and initial evaluation of a student at least 35 but less than 45 school days before the last instructional day of the school year, the evaluation must be completed and the written report of the evaluation must be provided to the parent or legal guardian not later than June 30 of that year. The student's admission, review, and dismissal committee shall meet not later than the 15th school day of the following school year to consider the evaluation. If a district receives written consent signed by a student's parent or legal guardian less than 35 school days before the last instructional day of the school year or if the district receives the written consent at least 35 but less than 45 school days before the last instructional day of the school year but the student is absent from school during that period on three or more days, Subsection (a)(1) applies to the date the written report of the full individual and initial evaluation is required.
- (a-2) For purposes of this section, "school day" does not include a day that falls after the last instructional day of the spring school term and before the first instructional day of the subsequent fall school term. The commissioner by rule may determine days during which year-round schools are recessed that, consistent with this subsection, are not considered to be school days for purposes of this section.

- (a-3) Subsection (a) does not impair any rights of an infant or toddler with a disability who is receiving early intervention services in accordance with 20 U.S.C. Section 1431.
- (b) The evaluation shall be conducted using procedures that are appropriate for the student's most proficient method of communication.
- (c) If a parent or legal guardian makes a written request to a school district's director of special education services or to a district administrative employee for a full individual and initial evaluation of a student, the district shall, not later than the 15th school day after the date the district receives the request:
- (1) provide an opportunity for the parent or legal guardian to give written consent for the evaluation; or
 - (2) refuse to provide the evaluation and provide the parent or legal guardian with notice of procedural safeguards under 20 U.S.C. Section 1415(b).

The black bold text in 300.301 is Federal regulations. See our required state timeline that we follow in Texas (TEC§ 29.004 and TAC §89.1011).

SECTION 2. Section 29.004, Education Code, as amended by this Act, applies to completion of a report of a full individual and initial evaluation of a public school student for purposes of special education services only as to an initial evaluation performed on or after September 1, 2013.

SECTION 3. This Act takes effect September 1, 2013.

TAC §89.1011. Full Individual and Initial Evaluation.

- (a) Referral of students for a full individual and initial evaluation for possible special education services must be a part of the district's overall, general education referral or screening system. Prior to referral, students experiencing difficulty in the general classroom should be considered for all support services available to all students, such as tutorial; remedial; compensatory; response to evidence-based intervention; and other academic or behavior support services. If the student continues to experience difficulty in the general classroom after the provision of interventions, district personnel must refer the student for a full individual and initial evaluation. This referral for a full individual and initial evaluation may be initiated by school personnel, the student's parents or legal guardian, or another person involved in the education or care of the student.
- (b) If a parent submits a written request to a school district's director of special education services or to a district administrative employee for a full individual and initial evaluation of a student, the school district must, not later than the 15th school day after the date the district receives the request:
- (1) provide the parent with prior written notice of its proposal to conduct an evaluation consistent with 34 Code of Federal Regulations (CFR), §300.503; a copy of the procedural safeguards notice required by 34 CFR, §300.504; and an opportunity to give written consent for the evaluation; or
 - (2) provide the parent with prior written notice of its refusal to conduct an evaluation consistent with 34 CFR, §300.503, and a copy of the procedural safeguards notice required by 34 CFR, §300.504.
- (c) Except as otherwise provided in this section, a written report of a full individual and initial evaluation of a student must be completed as follows:
- (1) not later than the 45th school day following the date on which the school district receives written consent for the evaluation from the student's parent, except that if a student has been absent from school during that period on three or more school days, that period must be extended by a number of school days equal to the number of school days during that period on which the student has been absent; or
 - (2) for students under five years of age by September 1 of the school year and not enrolled in public school and for students enrolled in a private or home school setting, not later than the 45th school day following the date on which the school district receives written consent for the evaluation from the student's parent.
- (d) The admission, review, and dismissal (ARD) committee must make its decisions regarding a student's initial eligibility determination and, if appropriate, individualized education program (IEP) and placement within 30 calendar days from the date of the completion of the written full individual and initial evaluation report. If the 30th day falls during the summer and school is not in session, the student's ARD committee has until the first day of classes in the fall to finalize decisions concerning the student's initial eligibility determination, IEP, and placement, unless the full individual and initial evaluation indicates that the student will need extended school year services during that summer.
- (e) Notwithstanding the timelines in subsections (c) and (d) of this section, if the school district received the written consent for the evaluation from the student's parent at least 35 but less than 45 school days before the last instructional day of the school year, the written report of a full individual and initial evaluation of a student must be provided to the student's parent not later than June 30 of that year. The student's ARD committee must meet not later than the 15th school day of the following school year to consider the

evaluation. If, however, the student was absent from school three or more days between the time that the school district received written consent and the last instructional day of the school year, the timeline in subsection (c)(1) of this section applies to the date the written report of the full individual and initial evaluation is required.

- (f) If a student was in the process of being evaluated for special education eligibility by a school district and enrolls in another school district before the previous school district completed the full individual and initial evaluation, the new school district must coordinate with the previous school district as necessary and as expeditiously as possible to ensure a prompt completion of the evaluation in accordance with 34 CFR, §300.301(d)(2) and (e) and §300.304(c)(5). The timelines in subsections (c) and (e) of this section do not apply in such a situation if:
 - (1) the new school district is making sufficient progress to ensure a prompt completion of the evaluation; and
 - (2) the parent and the new school district agree to a specific time when the evaluation will be completed.
- (g) For purposes of subsections (b), (c), and (e) of this section, school day does not include a day that falls after the last instructional day of the spring school term and before the first instructional day of the subsequent fall school term.
- (h) For purposes of subsections (c)(1) and (e) of this section, a student is considered absent for the school day if the student is not in attendance at the school's official attendance taking time or at the alternate attendance taking time set for that student. A student is considered in attendance if the student is off campus participating in an activity that is approved by the school board and is under the direction of a professional staff member of the school district, or an adjunct staff member who has a minimum of a bachelor's degree and is eligible for participation in the Teacher Retirement System of Texas.

§ 300.302 Screening for instructional purposes is not evaluation.

The screening of a student by a teacher or specialist to determine appropriate instructional strategies for curriculum implementation shall not be considered to be an evaluation for eligibility for special education and related services. (Authority: 20 U.S.C. 1414(a)(1)(E))

VI. SPECIAL EDUCATION DEPARTMENT RESPONSIBILITIES

A. Referral Packet

- 1. When the Bell County CoOp MTSS Committee determines a referral for special education evaluation is needed, a Referral Packet will be used at each campus.*
- 2. The Referral Packet includes (but is not limited to) required district forms located within our district IEP computerized system, for example: Parental Receipt of Procedural Safeguards, Parent Information Form, etc.. Also provided is the TEA publication "A Guide to the Admission, Review and Dismissal Process".*
- 3. The Bell County CoOp diagnostician/LSSP completes the sections documenting Bell County CoOp activities and all existing data for the Referral Packet. The Bell County CoOp diagnostician/LSSP is responsible for meeting with the parent, providing the explanation of Procedural Safeguards, Notice of Evaluation and for obtaining written Consent for the Evaluation.*
- 4. The Bell County CoOp diagnostician/LSSP submits the completed packet to the Director at the Bell County CoOp noting the important timeline date (the day that the written "Consent for Evaluation" form is received by the school). This date begins the time line for the evaluation process.
The Bell County CoOp Clerk and the Special Education Director mark on the Referral packet, in a notebook for referrals, (or in the special education electronic system): the date the signed Parent Consent for Evaluation is received by the school and the date the FIE is due. (following the state regulations for the timeline for evaluation)*
- 5. The Bell County CoOp staff notify district evaluation personnel and the diagnostician/LSSP determine the evaluations needed. The Bell County CoOp staff contact appropriate special education personnel to assist and/or conduct the evaluation (for example if the student is suspected to be a student who is deaf or hard of hearing, suspected of having a visual impairment (VI), or to be bilingual, etc. special evaluation personnel may be needed).*
- 6. The evaluation personnel will conduct the evaluation and completes the written report for the Full and Individual Evaluation (FIE).*
- 7. The appropriate campus personnel who send the Notice of ARD Meeting are notified when the report is completed in order to schedule the ARD/IEP meeting.*

B. Schedule ARD/IEP Meeting

- 1. The campus diagnostician notifies the principal the data collection is completed, FIE report is written and ready for the ARD/IEP committee's review.*
- 2. Keeping within the timelines, the campus diagnostician/LSSP coordinates with the administrator and Bell County CoOp personnel while the Special Education teacher coordinates with the required ARD committee members for a date/time for the ARD/IEP meeting. Coordination with the parent may be done by phone calls or emails as well as Notifications of meeting forms that can be mailed or sent home. If the ARD is an Initial placement, the diagnostician/LSSP will review the written report with the parent prior to the ARD/IEP committee meeting.*
- 3. The designated district personnel schedules the ARD/IEP meeting, completes the Notice of ARD/IEP Meeting paperwork and sends the first written Notice to the parent and/or adult student as required. Notification of the ARD/IEP committee meeting will also be provided to all those who are requested to attend the meeting. (See Procedural Safeguards, section 7 of this manual, for specific requirements on fulfilling the Notice requirement.)*
- 4. The parent must be provided the Notice of ARD/IEP Committee Meeting at least 5 school days prior to the date of the meeting. The parents may choose to waive the 5 day Notice Requirement.*
- 5. The Notice and all documentation is included in the computerized IEP system utilized by the district.*

C. Timeline for ARD/IEP Meeting

TAC § 89.1011 (d)

The admission, review, and dismissal (ARD) committee must make its decisions regarding a student's initial eligibility determination and, if appropriate, individualized education program (IEP) and placement within 30 calendar days from the date of the completion of the written full individual and initial evaluation report. If the 30th day falls during the summer and school is not in session, the student's ARD committee has until the first

day of classes in the fall to finalize decisions concerning the student's initial eligibility determination, IEP, and placement, unless the full individual and initial evaluation indicates that the student will need extended school year services during that summer.

For the entire content of TAC §89.1011 please look above at V. TIMELINE and you will see all of TAC §89.1011(a - h).

D. Transfers from Outside the District – already in Special Education

For students who are new to Bell County CoOp and have received special education services in the student's previous school district, regular referral procedures are bypassed. Procedures to be followed are included in the ARD/IEP Section 4 of this manual under Transfers.

VII. REFERRALS FOR SPECIFIC AREAS:

§ 300.305 Additional requirements for evaluations and reevaluations.

- (a) **Review of existing evaluation data.** As part of an initial evaluation (if appropriate) and as part of any reevaluation under this part, the IEP Team and other qualified professionals, as appropriate, must--
- (1) **Review existing evaluation data on the child, including—**
 - (i) **Evaluations and information provided by the parents of the child;**
 - (ii) **Current classroom-based local or State assessments, and classroom-based observations; and**

 - (2) **On the basis of that review, and input from the child's parents, identify what additional data, if any, are needed.....**

(for entire text, see Section 2 – FIE)

Any evaluation of an existing special education student is NOT a referral but is a reevaluation and should follow all requirements of 300.305 found in Section 2 of FIE.

The need for additional testing may be requested through the ARD committee as part of a re-evaluation or as a request for additional testing. All requests must be supported by data. Students receiving Speech only services should have documented interventions and progress monitoring prior to the request for testing.

The Diagnostician/LSSP is responsible for obtaining notice and consent for any additional evaluations requested. Requests will be documented on the REED in the appropriate areas. Diagnostician/LSSP is responsible for notifying the requested evaluator when paperwork is turned into the Bell County CoOp.

Requests for Additional Assessment should be completed within 60 calendar days unless ARD Committee has determined a different due date and documented rationale.

A. Adapted Physical Education (APE)

§ 300.108 Physical education.

The SEA must ensure that public agencies in the State comply with the following:

- (a) **General.** Physical education services, specially designed if necessary, must be made available to every child with a disability receiving FAPE, unless the public agency enrolls children without disabilities and does not provide PE to children without disabilities in the same grades.
 - (b) **Regular physical education.** Each child with a disability must be afforded the opportunity to participate in the regular physical education program available to nondisabled children unless--
 - (1) The child is enrolled full time in a separate facility; or
 - (2) The child needs specially designed physical education, as prescribed in the child's IEP.
 - (c) **Special physical education.** If specially designed physical education is prescribed in a child's IEP, the public agency responsible for the education of that child must provide the services directly or make arrangements for those services to be provided through other public or private programs.
 - (d) **Education in separate facilities.** The public agency responsible for the education of a child with a disability who is enrolled in a separate facility must ensure that the child receives appropriate physical education services in compliance with this section.

Students Referred For Adapted P.E.

1. *All students referred for adapted physical education evaluation must have an identified disability.*
 - A. *The request for an adapted physical education evaluation must be made by the MTSS Committee upon initial referral or by the student's ARD/IEP committee.*
 - B. *The evaluation person will monitor the referral and forward the request for APE screening/evaluation to the appropriate person.*
2. *A written report from the adapted physical education evaluation personnel will be made available for ARD/IEP committee consideration and action including PLAAFP and IEP goal drafts.*

B. Assistive Technology.

(For more information see also FIE Section 2 and ARD/IEP Section 4)

Students Referred For AT

- 1. Requests for AT evaluation will come through the Full Initial and Individual Evaluation or the ARD/IEP Committee.*
- 2. The ARD/IEP Committee may recommend additional evaluation by the technology assistance team. The technology assistance team may include any of the following professionals: Occupational Therapist, Physical Therapist, Speech Pathologist, Diagnostician, Vision Teacher; others as needed.*
- 3. If the assistive technology team is requested for an evaluation, the team member(s) will conduct trials to determine what works with the student and then make written recommendations in an evaluation report for assistive technology services or devices including specific modifications which are needed to implement the student's individual education plan. The ARD/IEP Committee will then consider the recommendations.*
- 4. Recommendations for assistive technology for all students from the ARD/IEP Committee meetings will be logged and tracked by the AT designee to assure follow up occurs in ordering of material, any training required, etc.*

C. Attention Deficit Disorder/Attention Deficit With Hyperactivity Disorder

Students Referred For ADHD

If the general education staff has concerns and documented evidence of student behaviors, that documentation will be provided to the evaluation staff in the referral paperwork. The special education evaluation staff will proceed with proper documentation and any eligibility determination.

Evaluation staff will:

- 1. Discuss the educational needs with the parent and find out what instructional strategies have been implement to help with behavior.*
- 2. Discuss other information or factors occurring in the home*
- 3. Send an OHI Disability Report for the physician to fill out with parental consent.*

The evaluation team, (diagnostician/LSSP, administrator, parent, teachers), will meet as part of the evaluation process to review existing data, determine appropriate measures, conduct the evaluation and determine whether a student meets criteria as a student with a disability. If the student data indicates a possibility of ADD/ADHD, the team may recommend that the Other Health Impairment (OHI) eligibility be pursued.

§ 300.306 Determination of eligibility.

(b) Special rule for eligibility determination. A child must not be determined to be a child with a disability under this part--

(1) If the determinant factor for that determination is--

- (c) Subsection (b) does not:
- (1) prevent an appropriate referral under the child find system required under 20 U.S.C. Section 1412, as amended; or
 - (2) prohibit a school district employee who is a registered nurse, advanced nurse practitioner, physician, or certified or appropriately credentialed mental health professional from recommending that a child be evaluated by an appropriate medical practitioner; or

4. *The medical doctor is just one member of the multidisciplinary team and it is all still an ARD committee decision*

***Caution:** Remember that a student may be diagnosed by a physician as having ADD or ADHD but the student may not necessarily have an educational need for special education services. Some students' needs may be addressed by the local campus Section 504 committee or classroom strategies. If you have any questions, please review with your Bell County CoOp campus personnel or call the Bell County CoOp special education office.*

D. Early Childhood Intervention (ECI) *(see also section H. for ECSE information)*

For the Memorandum of Understanding (MOU) with the TEA and specific referral information, refer to the MOU in its entirety at: https://tea.texas.gov/index4.aspx?id=2147494988&ekfxmen_noscript=1&ekfxmense1=e9edebdf8_25769804222_25769804223

ECI is a coordinated system of services available in every county within Texas for children birth to age three with disabilities or delays. ECI is funded through the federal Individuals with Disabilities Education Act (IDEA, Part C), P.L. 105-17 and through state appropriations. ECI supports families to help children reach potential through developmental services. ECI contracts with local agencies and organizations through a funding application process.

ECI staff may include physical therapists, occupational therapists, speech and language therapists, audiologists, educators, social workers, nurses, dietitians, psychologists, licensed professional counselors, and early intervention specialists. ECI programs must follow the Texas Early Childhood Intervention Policy Manual.

The local ECI programs must identify, locate, and screen or evaluate all infants and toddlers, birth through two years of age, who have or are suspected of having developmental delays.

Before notifying the appropriate LEA that a child is potentially eligible for Part B services, the ECI program provides written notification to the child's parent advising the parent of:

- a. The information that will be disclosed, including the limited personally identifiable information (child's name, child's date of birth, parent's name, address, and telephone number), the service coordinator's name, and the child's home language; and

- b. The right to opt out of the disclosure by submitting a written request to Opt Out of the Notification to the ECI program (CFR) §303.209 and the timelines specified in the 40 TAC, Chapter 108 before the notification is scheduled to be sent;

For a child whose parent has not opted out of the disclosure within the prescribed timeline, the ECI program notifies the LEA at least 90 days before the child's third birthday that the child is potentially eligible for Part B services; An IEP is developed and implemented for Part B eligible children by their third birthday; The ARD committee determines the start date of the IEP if the child's birthday occurs during the summer. Services will begin by the first day of school, or earlier as determined and stated on the IEP; and For children transitioning from Part C services to Part B services, the ARD committee considers an IFSP that contains the IFSP content including the natural environments statement, described in 34 CFR §303.344, and that is developed in accordance with the IEP procedures under 34 CFR §300.323(b) when developing the initial IEP.

<https://texasprojectfirst.org/node/32>

The Bell County CoOp will transition students from ECI to ECSE as required. Parents are provided a document from the ECI staff that describes the process.

- *The Bell County CoOp maintains a local policy included in Procedures that includes requirements to ensure that a student transitioning from ECI has an IFSP adopted and/or an IEP developed and implemented by the child's third birthday 34 CFR §300.124(b) and §300.123(b)*

E. Homebound Instruction (see also Instructional Arrangement Section 5)

Students Referred For Homebound Instruction

Homebound instruction is a service that could be provided through General Education Homebound (GEH) services or Special Education Homebound services; depending which eligibility criteria the student meets. If the student is suspected of having a disability, a referral should be made for a special education evaluation through the established referral procedures. When determining services needed by a student, homebound services may only be considered under the following conditions:

- 1. The student is expected to be confined at home or hospital bedside for a minimum of four weeks;*
- 2. The student must be confined for medical reasons only;*
- 3. The medical condition is documented by a physician licensed to practice in the United States. Student Attendance Accounting Manual-Section III (4-21)*

Students may not be placed on Homebound services through either program solely for disciplinary reasons. If a student is in need of homebound services due to pregnancy and does not meet the eligibility requirements for special education, services will be provided through the General Education Homebound program. If the student is pregnant and in need of homebound services and also meets the requirements for special education, the ARD committee will meet to determine the level of services and supports needed for that particular student.

Special Education Homebound - The student has already been determined to be a student with a disability and the student is receiving special education services.

Parent Responsibilities:

- 1. Contact the campus principal/district diagnostician*
- 2. Share new medical information*

School Responsibility:

- 1. Obtain parent information and the Physician's Report upon receiving consent from parent for medical information. The report states the medical reason for homebound confinement and the amount of time suggested by the physician*
- 2. Schedule an ARD/IEP meeting to discuss the student's educational needs*

F. Limited English Proficient (LEP)

Students Referred Who Are Limited English Proficient (ELL)

1. For all LEP (Limited English Proficient) Students:

- A. The LPAC report, which must have been completed within the past year, must be included with the referral packet. The student should have been tested in English and their primary language.
- B. Referral information will include: Initial referral information, LPAC report, LAS scores or equivalent test, amount of time in ESL, Home Language Survey copy.
- C. When the packet is verified, the diagnostician gives the packet to the Bell County CoOp Coordinator.

2. Speech only referral: (for these guidelines, Spanish is referenced as the other language)

- A. (LANGUAGE) The language proficiency assessment (ex. LAS, IDEA, other) should be considered with regard to the following:
 - i. If the student is proficient in English and has a lower proficiency in Spanish, the normal procedures for the speech pathologist evaluations are followed.
 - ii. If the student is proficient in Spanish and not in English, the speech pathologist will confer with the second language specialist and determine if an evaluation in Spanish (or other language) is needed. The second language specialist and speech pathologist will collaboratively complete the evaluation and write the evaluation report.
 - iii. If the student is barely proficient in both languages, the second language specialist and speech pathologist will gather all information regarding the student's educational history and performance and consult with the special education administrator before proceeding with the FIE.
 - iv. If the student is proficient in both languages, normal procedures in English may be followed.
- B. (ARTICULATION) The articulation evaluation should be considered with regard to how the student articulates sounds in English as well as the student's native language.

3. Other Referrals (LD, ID, etc.):

- A. The language evaluation (ex. LAS, IDEA) should be considered with regard to the following:
 - i. If the student is proficient in English and lower in Spanish, the usual procedures for testing are followed.
 - ii. If the student is proficient in Spanish and not in English, the diagnostician/LSSP will confer with the second language specialist and determine if an evaluation in the student's native language is needed. The second language specialist and the diagnostician/LSSP will collaboratively determine the appropriate evaluation procedures and instruments and write the full and individual evaluation report (FIE) and proceed to ARD.
 - iii. If the student is barely proficient in both languages, the second language specialist and the diagnostician/LSSP will gather all the information regarding the student's educational history and performance and consult with the Special Education Coordinator or Director before proceeding with the FIE.
 - iv. If the student is above proficient in both languages, normal procedures in English may be followed.
- B. Consideration should be given to the following:
 - i. How long the student has been in the country;
 - ii. Whether or not the student was enrolled and attending school prior to entering the United States;
 - iii. What types of bilingual supports and services have been provided;
 - iv. What type of academic progress the student is making in their home language as well as their progress in English.

G. Occupational Therapy, Physical Therapy or any Related Service

Students Referred for Occupational Therapy, Physical Therapy, or any Related Service

1. A child must be identified as a student with a disability in order to receive OT, PT or any related service. If a child who is eligible for special education services is in need of a related service, the request for these services must be reviewed by the ARD committee and based on a current evaluation completed by the related service provider or a team of evaluators qualified to determine the need for the service.
2. Occupational and/or physical therapy services are provided to students whose disability, as determined through evaluation, interferes with their ability to benefit from educational programming.

3. *Occupational therapy services include the evaluation, consultation, and/or direct services to individuals whose ability to cope with the tasks of living and learning is threatened or impaired by developmental deficits, environmental or sensory deprivation, physical injury, illness, or psychological disability.*
4. *Physical therapy is the art and science of evaluation, program planning, and implementation of physical or corrective conditions resulting from birth, illness, or injury. Physical therapy includes therapeutic exercise programs designed to develop or restore neuromuscular and / or sensorimotor function, relieve pain, control postural deviations, minimize disabilities, and maintain maximal performance levels within the individual's capabilities. If the child qualifies for therapy, the OT or PT will work with the Bell County CoOp to obtain the needed medical prescriptions per the therapist licensing requirements.*
5. *The diagnostician/LSSP is the designated person to monitor the referrals or request for related services. A REED will be scheduled to determine the need for the related service evaluations. If the committee agrees that an evaluation is needed, the diagnostician/LSSP will contact the Bell County CoOp who in turn will contact the related service provider and determine who will obtain the required notice and consent documents from the parents.*
6. *The Special Education evaluation staff is responsible for collecting all evaluation information in order to provide recommendations to the ARD committee regarding the existence of a disability according to state and federal regulations and that the student is in need of specially designed instruction. The ARD committee is also responsible for determining all supports and services the student may need, including the provision or any related service.*

H. Early Childhood Special Education (ECSE) *(see also section 5 of the operating procedures)*

§ 300.124 Transition of children from the Part C program to preschool programs.

The State must have in effect policies and procedures to ensure that--

 - (1) In the case of a child with a disability aged three through five (or, at the discretion of the SEA, a two-year-old child with a disability who will turn age three during the school year), the IEP Team must consider an IFSP that contains the IFSP content (including the natural environments statement) described in section 636(d) of the Act and its implementing regulations (including an educational component that promotes school readiness and incorporates pre-literacy, language, and numeracy skills for children with IFSPs under this section who are at least three years of age), and that is developed in accordance with the IEP procedures under this part. The IFSP may serve as the IEP of the child, if using the IFSP as the IEP is--
 - (i) Consistent with State policy; and
 - (ii) Agreed to by the agency and the child's parents.
 - (2) In implementing the requirements of paragraph (b)(1) of this section, the public agency must--
 - (i) Provide to the child's parents a detailed explanation of the differences between an IFSP and an IEP; and

See also the ECI Memorandum of Understanding: https://tea.texas.gov/index4.aspx?id=2147494988&ekfxmen_noscript=1&ekfxmense1=e9edebdf8_25769804222_25769804223

Transition from ECI.

The transition meeting between the agency, parents and school is the cornerstone of the transition process. At the discretion of all parties, it can take place not more than 9 months prior to the third birthday but not less than 90 days before the child is eligible for the preschool services, to discuss any such services that the child may receive. The meeting provides an opportunity for the family, ECI and Bell County CoOp staff to make plans regarding the transition process. The transition meeting is an opportunity to explain eligibility criteria, service options, and the ARD/IEP process. The referral to the Bell County CoOp may be made before the transition meeting, during the transition meeting or after the transition meeting. Additional information is provided to parents/guardians regarding:

- The importance of explaining to the family that a delay in providing consent for Bell County CoOp involvement during the transition process may impede the implementation of timely, appropriate special education services for eligible children.*
- The need for collaborative involvement of the family, ECI, and Bell County CoOp staff. This ensures a more efficient and timely process of eligibility determination for Bell County CoOp special education services.*
- Information on the age eligibility criteria as it relates to when service may begin. Interagency collaboration is especially critical when the child turns three between the months of May and September. Generally, children turning three late in the school year should begin school services when they turn three. In some instances, the ARD/IEP committee, including the family, may decide that IEP services will begin at the start of the upcoming school year.*
- If a child turns three during the summer, the ARD/IEP committee, which includes the family, may recommend services for the student to begin at the start of the school year or due to the individual needs of the student the ARD/IEP committee may decide to begin to implement the IEP through ESY services. (Note: The instructional setting code for the initial ESY services should be the same as the instructional setting code for services implemented at the beginning of the fall session.) The need for ESY services must be documented from formal and /or informal evaluations provided by the Bell County CoOp , the parents, another agency or an ECI program.*

The Bell County CoOp and the ECI program will work closely to ensure that the IEP is in place for eligible children on their third birthday when a child is referred for services close to his/her third birthday.

ECI REFERRAL PROCEDURES

1. *Referral from ECI (Early Childhood Intervention) Programs (all decisions will occur collaboratively between ECI staff, school staff, and the parents)*
 - A. *Bell County CoOp will complete the child centered process including a Playbase or other needed evaluations where needed and the ARD/IEP process. Review of existing evaluation data, all time lines and referral requirements will be followed.*
 - i. *When invited by the ECI service provider, the Bell County CoOp representative will attend a face to face meeting held up to 9 months prior to the eligible child's third birthday*
 - ii. *a referral should be made to Bell County CoOp approximately 90 days prior to the student's third birthday.*
 - iii. *To avoid a gap in services and to assure a smooth effective transition to the preschool program, Bell County CoOp will accept appropriate evaluations from an infant program serving children with disabilities.*
 - iv. *Bell County CoOp will complete the referral, evaluation, and ARD/IEP process within the required time-lines.*
 - v. *Eligible preschool children will receive the necessary services as determined by the ARD/IEP committee beginning on their third birthday.*
 - B. *The ARD/IEP committee will determine eligibility, educational need and develop an IEP to determine placement.*
 - C. *Services to auditory or visual impairments birth through 2 are coordinated with ECI service providers in the development of the Individual Family Service Plan (IFSP) instead of an ARD/IEP.*
 - i. *The Bell County CoOp will document services were coordinated (including copies of progress reports), and*
 - ii. *The Bell County CoOp has the capacity to provide services to the student throughout the year.(48 weeks)*
 - iii. *Services are provided only under IDEA-C guidelines, not IDEA-B. Typical procedures followed such as: distributing Notice of Procedural Safeguards, completing the Part B referral packets, obtaining consents, and completing full and individual evaluations may not be followed. This would conflict with Part C, and cause parent confusion and may place undue hardship on parents.*
2. *Referral by Parents / Guardians / Others (children not previously served in ECI):*
 - A. *For children with suspected developmental delays birth through 2 years of age, the Bell County CoOp will maintain logs that document:*
 - i. *within 2 working days from the date that a "Child Find" referral is received it is forwarded to an ECI program, (the Bell County CoOp will collaborate with the ECI program and determine appropriate steps based on the student age and needs), or*
 - ii. *the Bell County CoOp will follow up with the ECI program to assure evaluation is completed within 45 calendar days from the date the referral is received,*
 - iii. *the ARD/IEP committee will determine eligibility, educational need and develop an IEP to determine placement prior to the third birthday.*
 - B. *For children referred prior to age 3, but less than the 90 days prior to their 3rd birthday, the Bell County CoOp will complete the referral and evaluation process in a timely manner following the required referral timelines.*
 - C. *For children referred for services after their 3rd birthday, the normal referral process will be followed. The Bell County CoOp may screen and use existing evaluation data to determine if the child will meet eligibility criteria. An ARD/IEP committee may temporarily place the child pending the 90 day timeline for referral, evaluation, and ARD/IEP completion.*
3. *Services: For eligible students 3 years of age and older, the Bell County CoOp will develop an IEP. If a student's 3rd birthday occurs during summer, the IEP team will determine the date services under the IEP will begin.*

I. Private / Nonpublic Schools (See VIII. CHILD FIND in this Section I. and Section 4a. ARD/IEP. For Private Non-Public Schools regulation in entirety go to: Section 5 – Instructional Arrangements)

These procedures also apply to homeless children; children who are wards of the state; highly mobile children (including migrant children); all preschool age children and any child suspected of being in need of special education but who are advancing from grade to grade.

The Special Education Director will train campus Principals, campus Child Find designee and the diagnosticians/LSSPs annually on the proper procedures. The Bell County CoOp will then train any other campus personnel. The referral of a private school student may be made by the parent, private school personnel, physician, etc. Each campus MTSS Committee, which includes the diagnostician/LSSP, will coordinate the referral. The data collection and review process will be followed to determine whether an evaluation is needed.

1. If Parent has concerns, they may do the following:

- A. Contact the appropriate neighborhood campus and initiate a referral. The campus designee will assist the parent.*
- B. Referrals will be accepted for students who attend a private / nonpublic school within the boundaries of Bell County CoOp.*
- C. Provide any documentation available to the diagnostician/LSSP regarding the child's suspected disability, the student's private school teacher's contact information and sign a Release form so Bell County CoOp's staff can talk to the private school teacher.*

2. Campus Responsibilities:

- A. Bell County CoOp will use established procedures and forms for the parent referral of students from private/nonpublic schools. This includes the completion of the Referral Packet.*
- B. The principal or designee will be responsible for coordinating the gathering of information from the parent and make it available to the diagnostician/LSSP to bring to the Bell County CoOp.*

NOTE: The same referral time lines apply. (If a parent makes a written request, the Bell County CoOp must respond within 15 school days.)

3. Evaluation Person Responsibilities:

- A. To the maximum extent possible, Bell County CoOp shall use referral and evaluation information from the private school's records in order to avoid unnecessary duplication of effort or services.*
- B. Coordinate and/or administer additional recommended evaluation.*

J. Psychological Referral

Bell County CoOp recommends that the general education teacher first work with the MTSS Committee regarding classroom management and behavioral issues.

Student is Not Currently Receiving Special Education Services

The general education teacher will follow the MTSS Committee process, including notifying the diagnostician/LSSP who will also notify the Behavior Specialists, and they will complete all required forms including notifying parents of their Procedural Safeguards, providing Notice of Evaluation and obtaining Consent for Evaluation. The general education campus teacher or campus designee will submit the completed referral packet to the Bell County CoOp who will in turn contact school psychologist/LSSP.

K. Regional Day School Program for the Deaf (See Section 4 and Section 5 of this document) *The Bell County CoOp has a MOU with Temple ISD and their Regional Day School Program.*

L. Specific Learning Disabilities (SLD) (See Section 4)

M. Texas School for the Deaf (TSD) (See Section 4 and Section 5 of this document)

(b) Use of term developmental delay.

The following provisions apply with respect to implementing the child find requirements of this section:

School districts shall require that the survey be signed by the student's parent or guardian for each student in prekindergarten through Grade 8 or by the student in Grades 9-12 as permitted under the Texas Education Code, §29.056(a)
 - (1). The original copy of the survey shall be kept in the student's permanent record.
- (b) (b) The home language survey shall be administered in English, Spanish, and Vietnamese; for students of other language groups, the home language survey shall be translated into the primary language whenever possible. The home language survey shall contain the following questions.
 - (1) "What language is spoken in the child's home most of the time?"
 - (2) "What language does the child speak most of the time?"
- (c) If the response on the home language survey indicates that a language other than English is used, the student shall be tested in accordance with §89.1225 of this title (relating to Testing and Classification of Students) or §89.1226 of this title (relating to Testing and Classification of Students, Beginning with School Year 2019-2020).
- (d) For students previously enrolled in a Texas public school, the receiving district shall secure the student records, including the home language survey. All attempts to contact the sending district to request records shall be documented. Multiple attempts to obtain the student's home language survey shall be made. If attempts to obtain the student's home language survey from the sending district are unsuccessful, the identification process shall begin while attempts to contact the sending district for records continue throughout the four-week testing and identification period.

TAC § 89.1226. Testing and Classification of Students.

<https://www.txel.org/lpac/>

- (a) The single state-approved English language proficiency test for identification of English learners described in subsection (c) of this section shall be used as part of the standardized, statewide identification process.
- (b) Within four weeks of initial enrollment in a Texas school, a student with a language other than English indicated on the home language survey shall be administered the state-approved English language proficiency test for identification as described in subsection (c) of this section and shall be identified as English learners and placed into the required bilingual education or ESL program in accordance with the criteria listed in subsection (f) of this section.
- (c) For identifying English learners, school districts shall administer to each student who has a language other than English as identified on the home language survey:
 - (1) in prekindergarten through Grade 1, the listening and speaking components of the state-approved English language proficiency test for identification; and
 - (2) in Grades 2-12, the listening, speaking, reading, and writing components of the state-approved English language proficiency test for identification.
- (d) School districts that provide a bilingual education program at the elementary grades shall administer a language proficiency test in the primary language of the student who is eligible to be served in the bilingual education program. If the primary language of the student is Spanish, the school district shall administer the Spanish version of the state-approved language proficiency test for identification. If a state-approved language proficiency test for identification is not available in the primary language of the student, the school district shall determine the student's level of proficiency using informal oral language assessment measures.
- (e) All of the language proficiency testing shall be administered by professionals or paraprofessionals who are proficient in the language of the test and trained in the language proficiency testing requirements of the test publisher.
- (f) For entry into a bilingual education or ESL program, a student shall be identified as an English learner using the following criteria.
 - (1) In prekindergarten through Grade 1, the student's score(s) from the listening and/or speaking components on the state-approved English language proficiency test for identification is/are below the level designated for indicating English proficiency.
 - (2) In Grades 2-12 the student's score(s) from the listening, speaking, reading, and/or writing components on the state-approved English language proficiency test for identification is/are below the level designated

for indicating English proficiency.

- (g) A student shall be identified as an English learner if the student's ability in English is so limited that the English language proficiency assessment described in subsection (c) of this section cannot be administered.
- (h) The language proficiency assessment committee in conjunction with the admission, review, and dismissal (ARD) committee shall identify a student as an English learner if the student's ability in English is so limited or the student's disabilities are so severe that the English language proficiency assessment described in subsection (c) of this section cannot be administered. The decision for entry into a bilingual education or ESL program shall be determined by the language proficiency assessment committee in conjunction with the ARD committee in accordance with §89.1220(f) of this title (relating to Language Proficiency Assessment Committee).
- (i) An English learner may be reclassified as English proficient only at the end of the school year in which a student would be able to participate equally in a general education, all-English instructional program. This determination shall be based upon all of the following:
 - (1) a proficiency rating on the state-approved English language proficiency test for reclassification that is designated for indicating English proficiency in each of the four language domains (listening, speaking, reading, and writing);
 - (2) passing standard met on the reading assessment instrument under the Texas Education Code (TEC), §39.023(a), or for students at grade levels not assessed by the aforementioned reading assessment instrument a score at or above the 40th percentile on both the English reading and the English language arts sections of the state-approved norm-referenced standardized achievement instrument; and
 - (3) the results of a subjective teacher evaluation using the state's standardized rubric.
- (j) An English learner may not be reclassified as English proficient in prekindergarten or kindergarten. A school district must ensure that English learners are prepared to meet academic standards required by the TEC, §28.0211.
- (k) An English learner may not be reclassified as English proficient if the language proficiency assessment committee has recommended designated supports or accommodations on the state reading assessment instrument based on the student's second language acquisition needs.
- (l) For English learners who are also eligible for special education services, the standardized process for English learner reclassification is followed in accordance with applicable provisions of subsection (i) of this section. However, annual meetings to review student progress and make recommendations for reclassification must be made in all instances by the language proficiency assessment committee in conjunction with the ARD committee in accordance with §89.1230(b) of this title (relating to Eligible Students with Disabilities). Additionally, the language proficiency assessment committee in conjunction with the ARD committee shall implement assessment procedures that differentiate between language proficiency and disabling conditions in accordance with §89.1230(a) of this title.
- (m) For an English learner with a significant cognitive disability, the language proficiency assessment committee in conjunction with the ARD committee may determine that the state's English language proficiency assessment for reclassification is not appropriate because of the nature of the student's disabling condition. In these cases, the language proficiency assessment committee in conjunction with the ARD committee may recommend that the student take the state's alternate English language proficiency assessment, determine an appropriate performance standard requirement for reclassification by language domain under subsection (i)(1) of this section, and utilize the results of a subjective teacher evaluation using the state's standardized alternate rubric.
- (n) Notwithstanding §101.101 of this title (relating to Group-Administered Tests), all tests used for the purpose of identification, reclassification, and placement of students and approved by the TEA must be re-normed at least every eight years.

- (d) **Exception.** The timeframe described in paragraph (c)(1) of this section shall not apply to the public agency if--
- (1) The parent of a child repeatedly fails or refuses to produce the child for the evaluation; or
 - (2) A child enrolls in a school of another public agency after the relevant timeframe in paragraph (c)(1) of this section has begun, and prior to a determination by the child's previous public agency as to whether the child is a child with a disability under §300.8.

Bell County CoOp will follow all state and federal regulations regarding initial evaluations before the provision of special education and related services can be provided to a child with a disability. The initial evaluation must attempt to evaluate the child in all areas of suspected disability and consist of procedures to determine the educational needs of the child. Following the written request for an initial evaluation for special education the district will notify the Bell County CoOp and the diagnostician/LSSP will provide a Written Notice of Evaluation and make every effort to obtain parental consent for the full and individual evaluation within required state timelines. The evaluation specialist in charge of the evaluation will utilize district forms. All documentation and notes of communication will be stored in the student's eligibility folder.

The written report of the initial evaluation must be completed not later than the 45th school day following the date in which written consent from the child's parent was received. If the student has been absent from school during the evaluation period on three or more school days, then the due date of the evaluation must be extended by the number of the school days the student has been absent. If the district receives consent for the evaluation from the child's parent at least 35 but less than 45 school days before the last instructional day of the school year, the evaluation report must be provided to the parent not later than June 30th of that year. The student's ARD/IEP committee must meet not later than the 15th school day of the following school year to review the evaluation.

If the parent refuses to provide consent for the initial evaluation, Bell County CoOp evaluation staff will provide clear written documentation of the repeated failure of the parent to produce the child for the evaluation or refusal to provide consent for the evaluation.

- (e) The exception in paragraph (d)(2) of this section applies only if the subsequent public agency is making sufficient progress to ensure a prompt completion of the evaluation, and the parent and subsequent public agency agree to a specific time when the evaluation will be completed. (Authority: 20 U.S.C. 1414(a))

For an Initial Evaluation : When the district assessment staff has obtained written parental consent for the evaluation, Bell County CoOp will complete a comprehensive full and individual evaluation for the initial evaluation of a student within state and federal timelines. An initial evaluation for eligibility for special education may not rely solely on a review of existing evaluation data unless there is existing evaluation data that was

completed by a private provider that meets the district criteria for establishing initial eligibility as a student with a disability under federal and state regulations.

Revoked Consent for Special Education and Related Services : If a parent has revoked consent for services and later requests to re-enroll the student, Bell County CoOp must treat this as a request for an initial evaluation. On the basis of that review and input from the child's parents, the IEP Team and other qualified professionals must identify what additional data, if any, are needed to determine whether the child is a child with a disability and the educational needs of the child.

TEC §29.004. FIE Timeline.

- (a) A written report of a full individual and initial evaluation of a student for purposes of special education services shall be completed as follows, except as otherwise provided by this section:
- (1) not later than the 45th school day following the date on which the school district, in accordance with 20 U.S.C. Section 1414(a), as amended, receives written consent for the evaluation, signed by the student's parent or legal guardian, except that if a student has been absent from school during that period on three or more days, that period must be extended by a number of school days equal to the number of school days during that period on which the student has been absent; or
 - (2) for students under five years of age by September 1 of the school year and not enrolled in public school and for students enrolled in a private or home school setting, not later than the 45th school day following the date on which the school district receives written consent for the evaluation, signed by a student's parent or legal guardian.
- (a-1) If a school district receives written consent signed by a student's parent or legal guardian for a full individual and initial evaluation of a student at least 35 but less than 45 school days before the last instructional day of the school year, the evaluation must be completed and the written report of the evaluation must be provided to the parent or legal guardian not later than June 30 of that year. The student's admission, review, and dismissal committee shall meet not later than the 15th school day of the following school year to consider the evaluation. If a district receives written consent signed by a student's parent or legal guardian less than 35 school days before the last instructional day of the school year or if the district receives the written consent at least 35 but less than 45 school days before the last instructional day of the school year but the student is absent from school during that period on three or more days, Subsection (a)(1) applies to the date the written report of the full individual and initial evaluation is required.
- (a-2) For purposes of this section, "school day" does not include a day that falls after the last instructional day of the spring school term and before the first instructional day of the subsequent fall school term. The commissioner by rule may determine days during which year-round schools are recessed that, consistent with this subsection, are not considered to be school days for purposes of this section.
- (a-3) Subsection (a) does not impair any rights of an infant or toddler with a disability who is receiving early intervention services in accordance with 20 U.S.C. Section 1431.
- (b) The evaluation shall be conducted using procedures that are appropriate for the student's most proficient method of communication.
- (c) If a parent or legal guardian makes a written request to a school district's director of special education services or to a district administrative employee for a full individual and initial evaluation of a student, the district shall, not later than the 15th school day after the date the district receives the request:
- (1) provide an opportunity for the parent or legal guardian to give written consent for the evaluation; or
 - (2) refuse to provide the evaluation and provide the parent or legal guardian with notice of procedural safeguards under 20 U.S.C. Section 1415(b). (Last amended September 1, 2013.)

SECTION 2. Section 29.004, Education Code, as amended by this Act, applies to completion of a report of a full individual and initial evaluation of a public school student for purposes of special education services only as to an initial evaluation performed on or after September 1, 2013.

For an Initial Evaluation: If the student moves from one campus to another within the district, the timelines still apply.

If the initial evaluation process for special education eligibility was initiated in a school district prior to the student's enrollment in Bell County CoOp and that process was not completed, Bell County CoOp must coordinate with the previous school district to ensure timely completion of the evaluation. The timelines for completion as established by the previous school district may be changed only if the parent and new school district agree to a

specific time for the completion of the evaluation; however, the Bell County CoOp evaluation personnel will make every effort to stick to the original agreed upon timeline.

TAC §89.1011. Full Individual and Initial Evaluation.

- (a) Referral of students for a full individual and initial evaluation for possible special education services must be a part of the district's overall, general education referral or screening system. Prior to referral, students experiencing difficulty in the general classroom should be considered for all support services available to all students, such as tutorial; remedial; compensatory; response to evidence-based intervention; and other academic or behavior support services. If the student continues to experience difficulty in the general classroom after the provision of interventions, district personnel must refer the student for a full individual and initial evaluation. This referral for a full individual and initial evaluation may be initiated by school personnel, the student's parents or legal guardian, or another person involved in the education or care of the student.
- (b) If a parent submits a written request to a school district's director of special education services or to a district administrative employee for a full individual and initial evaluation of a student, the school district must, not later than the 15th school day after the date the district receives the request:
 - (1) provide the parent with prior written notice of its proposal to conduct an evaluation consistent with 34 Code of Federal Regulations (CFR), §300.503; a copy of the procedural safeguards notice required by 34 CFR, §300.504; and an opportunity to give written consent for the evaluation; or
 - (2) provide the parent with prior written notice of its refusal to conduct an evaluation consistent with 34 CFR, §300.503, and a copy of the procedural safeguards notice required by 34 CFR, §300.504.
- (c) Except as otherwise provided in this section, a written report of a full individual and initial evaluation of a student must be completed as follows:
 - (1) not later than the 45th school day following the date on which the school district receives written consent for the evaluation from the student's parent, except that if a student has been absent from school during that period on three or more school days, that period must be extended by a number of school days equal to the number of school days during that period on which the student has been absent; or
 - (2) for students under five years of age by September 1 of the school year and not enrolled in public school and for students enrolled in a private or home school setting, not later than the 45th school day following the date on which the school district receives written consent for the evaluation from the student's parent.
- (d) The admission, review, and dismissal (ARD) committee must make its decisions regarding a student's initial eligibility determination and, if appropriate, individualized education program (IEP) and placement within 30 calendar days from the date of the completion of the written full individual and initial evaluation report. If the 30th day falls during the summer and school is not in session, the student's ARD committee has until the first day of classes in the fall to finalize decisions concerning the student's initial eligibility determination, IEP, and placement, unless the full individual and initial evaluation indicates that the student will need extended school year services during that summer.
- (e) Notwithstanding the timelines in subsections (c) and (d) of this section, if the school district received the written consent for the evaluation from the student's parent at least 35 but less than 45 school days before the last instructional day of the school year, the written report of a full individual and initial evaluation of a student must be provided to the student's parent not later than June 30 of that year. The student's ARD committee must meet not later than the 15th school day of the following school year to consider the evaluation. If, however, the student was absent from school three or more days between the time that the school district received written consent and the last instructional day of the school year, the timeline in subsection (c)(1) of this section applies to the date the written report of the full individual and initial evaluation is required. If an initial evaluation completed not later than June 30 indicates that the student will need extended school year services during that summer, the ARD committee must meet as expeditiously as possible.
- (f) If a student was in the process of being evaluated for special education eligibility by a school district and enrolls in another school district before the previous school district completed the full individual and initial evaluation, the new school district must coordinate with the previous school district as necessary and as expeditiously as possible to ensure a prompt completion of the evaluation in accordance with 34 CFR, §300.301(d)(2) and (e) and §300.304(c)(5). The timelines in subsections (c) and (e) of this section do not apply in such a situation if:
 - (1) the new school district is making sufficient progress to ensure a prompt completion of the evaluation; and
 - (2) the parent and the new school district agree to a specific time when the evaluation will be completed.

- (g) For purposes of subsections (b), (c), and (e) of this section, school day does not include a day that falls after the last instructional day of the spring school term and before the first instructional day of the subsequent fall school term.
- (h) For purposes of subsections (c)(1) and (e) of this section, a student is considered absent for the school day if the student is not in attendance at the school's official attendance taking time or at the alternate attendance taking time set for that student. A student is considered in attendance if the student is off campus participating in an activity that is approved by the school board and is under the direction of a professional staff member of the school district, or an adjunct staff member who has a minimum of a bachelor's degree and is eligible for participation in the Teacher Retirement System of Texas.

A request for an initial evaluation by a parent must be provided in writing to the special education administrator or a district administrative employee. For purposes of 89.1011(b) regarding the written parental request for a full and individual initial evaluation, the definition of a district administrative employee is considered to be the local campus principal or assistant principal where a student attends. Bell County CoOp monitors all referrals and/or request for evaluations and timeline compliance through the district referral procedures and MTSS Committee procedures.

Bell County CoOp will respond to the written request from the parent for an initial evaluation for special education not later than the 15th school day after the date the district receives the written request with either the prior written notice of the district's proposal to conduct the evaluation or the notice of the district's refusal to conduct the evaluation. A copy of the procedural safeguards will be provided to the parent. The district will maintain documentation of all communication with the parent regarding the request.

§300.15 Evaluation. Evaluation means procedures used in accordance with §§300.304 through 300.311 to determine whether a child has a disability and the nature and extent of the special education and related services that the child needs. (Authority: 20 U.S.C. 1414(a)—(c))

§300.302 Screening for instructional purposes is not evaluation.

The screening of a student by a teacher or specialist to determine appropriate instructional strategies for curriculum implementation shall not be considered to be an evaluation for eligibility for special education and related services. (Authority: 20 U.S.C. 1414(a)(1)(E))

This screening of a student by a teacher or a specialist to determine appropriate instructional and/or behavioral strategies may occur without obtaining informed parental consent because it is not considered an evaluation for purposes of determining eligibility for special education. Bell County CoOp will determine person(s) considered a "specialist". The term "instructional strategies for curriculum implementation" is generally used to refer to strategies a teacher may use to more effectively teach children. 71 Fed Reg 46639 (August 14, 2006)

II. REEDs/RE-EVALUATIONS

§300.305 Additional requirements for evaluations and reevaluations.

- (a) Review of existing evaluation data. As part of an initial evaluation (if appropriate) and as part of any reevaluation under this part, the IEP Team and other qualified professionals, as appropriate, must--
- (1) Review existing evaluation data on the child, including—
 - (i) Evaluations and information provided by the parents of the child;
 - (ii) Current classroom-based local or State assessments, and classroom-based observations; and
 - (iii) Observations by teachers and related services providers; and
 - (2) On the basis of that review, and input from the child's parents, identify what additional data, if any, are needed to determine--
 - (i) (A) Whether the child is a child with a disability, as defined in §300.8, and the educational needs of the child; or
(B) In case of a reevaluation of a child, whether the child continues to have such a disability, and the educational needs of the child;
 - (ii) The present levels of academic achievement and related developmental needs of the child;
 - (iii) (A) Whether the child needs special education and related services; or
(B) In the case of a reevaluation of a child, whether the child continues to need special education and related services; and
 - (iv) Whether any additions or modifications to the special education and related services are needed to enable the child to meet the measurable annual goals set out in the IEP of the child and to participate, as appropriate, in the general education curriculum.
- (b) Conduct of review. The group described in paragraph (a) of this section may conduct its review without a meeting.
- (c) Source of data. The public agency must administer such assessments and other evaluation measures as may be needed to produce the data identified under paragraph (a) of this section.
- (d) Requirements if additional data are not needed.
- (1) If the IEP Team and other qualified professionals, as appropriate, determine that no additional data are needed to determine whether the child continues to be a child with a disability, and to determine the child's educational needs, the public agency must notify the child's parents of—
 - (i) That determination and the reasons for the determination; and
 - (ii) The right of the parents to request an assessment to determine whether the child continues to be a child with a disability, and to determine the child's educational needs.
 - (2) The public agency is not required to conduct the assessment described in paragraph (d)(1)(ii) of this section unless requested to do so by the child's parents.
- (e) Evaluations before change in eligibility.
- (1) Except as provided in paragraph (e)(2) of this section, the public agency must evaluate a child with a disability in accordance with §§300.304 through 300.311 before determining that the child is no longer a child with a disability.
 - (2) The evaluation described in paragraph (e)(1) of this section is not required before the termination of a child's eligibility under this part due to graduation from secondary school with a regular diploma, or due to exceeding the age eligibility for FAPE under State law.
 - (3) For a child whose eligibility terminates under circumstances described in paragraph (e)(2) of this section, the public agency must provide the child with a summary of the child's academic achievement and functional performance, which shall include recommendations on how to assist the child in meeting the child's postsecondary goals. (Authority: 20 U.S.C. 1414(c))

The group of qualified professionals in the Bell County CoOp to conduct the REED must include the same members that are required for attendance at the ARD / IEP committee meeting and the specific individuals required to participate in the evaluation of the student that are unique to that child's disability as defined in §300.304(c) and as specifically required for children with a visual impairment and or children who are deaf or hard of hearing.

Beginning with the 2014-2015 school year, the scope of any reevaluation of a student who has been determined, after the full individual and initial evaluation, to be eligible for the district's special education program on the

basis of a visual impairment must be determined, in accordance with 34 CFR, §§300.122 and 300.303-300.311, by a multidisciplinary team that includes an appropriately certified orientation and mobility specialist.

The district will maintain all REED documentation on the district required forms and archived in the electronic data system. All evaluation reports and REED documents must be signed and dated as per the district guidelines.

If the decision is made by the ARD committee that no additional data is needed to determine that the child continues to be a child with a disability, and to determine the child's educational needs, the new FIE date will be the date of the REED documentation.

§300.303 Reevaluations.

(a) General. A public agency must ensure that a reevaluation of each child with a disability is conducted in accordance with §§300.304 through 300.311

(1) If the public agency determines that the educational or related services needs, including improved academic achievement and functional performance, of the child warrant a reevaluation; or

(2) If the child's parent or teacher requests a reevaluation.

(b) Limitation. A reevaluation conducted under paragraph (a) of this section--

(1) May occur not more than once a year, unless the parent and the public agency agree otherwise; and

(2) Must occur at least once every 3 years, unless the parent and the public agency agree that a reevaluation is unnecessary. (Authority: 20 U.S.C. 1414(a)(2))

As part of an initial evaluation (if appropriate) and as part of any reevaluation The ARD/IEP committee members and other professionals (as needed) will review any existing evaluation on a child to identify what additional data is needed to determine if the child continues to have a disability and has a need for special education and related services and if there are any additions or modifications to the services or supports for the student to meet the annual goals and requirements of the IEP.

The review of existing evaluation data (REED) is part of the reevaluation process and the Bell County CoOp is not required to obtain parental consent before reviewing existing data as part of an evaluation or reevaluation. §300.300(d)(1)(i) and (Feb. 6, 2007, OSEP Letter to Anonymous)

The Bell County CoOp will present REED information and any additional evaluation information to the entire IEP team during a scheduled ARD/IEP committee meeting.

The ARD/IEP committee meeting to discuss the reevaluation and to complete the REED process can be conducted at the annual ARD/IEP committee meeting, but the REED must be completed and reviewed by the ARD/IEP committee at least 30 days prior to the due date of the three year reevaluation. If a three year evaluation is due in August or September, the REED ARD/IEP Committee meeting must be conducted at least 30 days prior to the end of the previous school year.

If the reevaluation is for additional assessments requested by the ARD/IEP Committee to determine behavioral supports, related services such as therapies or other needs and change is noted that would require discussion of eligibility or services, the assessments and written evaluation report must be completed by the 3 year evaluation date and the ARD/IEP meeting will be scheduled within 30 calendar days from the date of the completion of the written full and individual evaluation report.

If the reevaluation is for additional assessments requested by the parent, teacher, or other individual who works with the child and is not part of a three year re-evaluation process, an ARD/IEP committee will convene to complete the REED process to determine what additional assessments and information is needed and if to incorporate the information needed to complete the three year re-evaluation process. If the ARD/IEP Committee determines that only specific requested evaluations will be completed to determine the need for additional services and/or eligibilities and the complete three year re-evaluation process is not completed, then the original due date for the three year re-evaluation may not be changed to reflect the date of the additional evaluation report.

III. EVALUATION PROCEDURES

§300.304 Evaluation procedures.

- (a) **Notice.** The public agency will provide notice to the parents of a child with a disability, in accordance with §300.503, that describes any evaluation procedures the agency proposes to conduct.
- (b) **Conduct of evaluation.** In conducting the evaluation, the public agency will --
- (1) Use a variety of assessment tools and strategies to gather relevant functional, developmental, and academic information about the child, including information provided by the parent, that may assist in determining--
 - (i) Whether the child is a child with a disability under §300.8; and
 - (ii) The content of the child's IEP, including information related to enabling the child to be involved in and progress in the general education curriculum (or for a preschool child, to participate in appropriate activities);
 - (2) Not use any single measure or assessment as the sole criterion for determining whether a child is a child with a disability and for determining an appropriate educational program for the child; and
 - (3) Use technically sound instruments that may assess the relative contribution of cognitive and behavioral factors, in addition to physical or developmental factors.
- (c) **Other evaluation procedures.** Each public agency must ensure that--
- (1) Assessments and other evaluation materials used to assess a child under this part--
 - (i) Are selected and administered so as not to be discriminatory on a racial or cultural basis;
 - (ii) Are provided and administered in the child's native language or other mode of communication and in the form most likely to yield accurate information on what the child knows and can do academically, developmentally, and functionally, unless it is clearly not feasible to so provide or administer;
 - (iii) Are used for the purposes for which the assessments or measures are valid and reliable;
 - (iv) Are administered by trained and knowledgeable personnel; and
 - (v) Are administered in accordance with any instructions provided by the producer of the assessments.
 - (2) Assessments and other evaluation materials include those tailored to assess specific areas of educational need and not merely those that are designed to provide a single general intelligence quotient.
 - (3) Assessments are selected and administered so as best to ensure that if an assessment is administered to a child with impaired sensory, manual, or speaking skills, the assessment results accurately reflect the child's aptitude or achievement level or whatever other factors the test purports to measure, rather than reflecting the child's impaired sensory, manual, or speaking skills (unless those skills are the factors that the test purports to measure).
 - (4) The child is assessed in all areas related to the suspected disability, including, if appropriate, health, vision, hearing, social and emotional status, general intelligence, academic performance, communicative status, and motor abilities;
 - (5) Assessments of children with disabilities who transfer from one public agency to another public agency in the same school year are coordinated with those children's prior and subsequent schools, as necessary and as expeditiously as possible, consistent with §300.301 (d)(2) and (e), to ensure prompt completion of full evaluations.
 - (6) In evaluating each child with a disability under §§300.304 through 300.306, the evaluation is sufficiently comprehensive to identify all of the child's special education and related services needs, whether or not commonly linked to the disability category in which the child has been classified.
 - (7) Assessment tools and strategies that provide relevant information that directly assists persons in determining the educational needs of the child are provided.

§89.1230 (a) Eligible Students with Disabilities

School districts shall implement assessment procedures that differentiate between language proficiency and handicapping conditions in accordance with Subchapter AA of this chapter (relating to Commissioner's Rules Concerning Special Education Services) and shall establish placement procedures that ensure that placement in a bilingual education or English as a second language program is not refused solely because the student has a disability.

§29.310 Procedures and Materials for Assessment and Placement.

- (a) Procedures and materials for assessment and placement of students who are deaf or hard of hearing shall be selected and administered so as not to be racially, culturally, or sexually discriminatory.
- (b) A single assessment instrument may not be the sole criterion for determining the placement of a student.
- (c) The procedures and materials for the assessment and placement of a student who is deaf or hard of hearing shall be in the student's preferred mode of communication. All other procedures and materials used with any student who is deaf or hard of hearing and who has limited English proficiency shall be in the student's preferred mode of communication.

Bell County CoOp ensures evaluation procedures are followed by hiring qualified, certified and licensed professionals. Continual training is offered through a variety of resources including but not limited to the following: the education service center, the TEA TETN, state wide conferences, specific professional organizations, and legal academies. In addition, at each annual job evaluation, any areas needing improvement or additional training are identified and documented as an area for professional growth. Bell County CoOp maintains files of additional training attended by district personnel. The appraisal instruments and procedures for administration are selected based on the unique needs of the students.

§300.310 Observation.

- (a) **The public agency must ensure that the child is observed in the child's learning environment, including the regular classroom setting, to document the child's academic performance and behavior in the areas of difficulty.**
- (b) **The group described in §300.306(a)(1), in determining whether a child has a specific learning disability, must decide to—**
 - (1) **Use information from an observation in routine classroom instruction and monitoring of the child's performance that was done before the child was referred for an evaluation; or**
 - (2) **Have at least one member of the group described in §300.306(a)(1) conduct an observation of the child's academic performance in the regular classroom after the child has been referred for an evaluation and parental consent, consistent with §300.300(a), is obtained.**
- (c) **In the case of a child of less than school age or out of school, a group member must observe the child in an environment appropriate for a child of that age.**

Parental consent is not required for observations conducted as part of routine classroom instruction and monitoring of the child's performance as long as that observation is not conducted as part of the full and individual evaluation of the child.

TEC § 38.003. Screening and Treatment for Dyslexia and Related Disorders.

Current TEA Dyslexia Handbook: <https://tea.texas.gov/academics/dyslexia/>

- (a) Students enrolling in public schools in this state shall be tested for dyslexia and related disorders at appropriate terms in accordance with a program approved by the State Board of Education.
- (b) In accordance with the program approved by the State Board of Education, the board of trustees of each school district shall provide for the treatment of any student determined to have dyslexia or a related disorder.
- (c) The State Board of Education shall adopt any rules and standards necessary to administer this section.
- (d) In this section:
 - (1) "Dyslexia" means a disorder of constitutional origin manifested by a difficulty in learning to read, write, or spell, despite conventional instruction, adequate intelligence, and sociocultural opportunity.
 - (2) "Related disorders" includes disorders similar to or related to dyslexia, such as developmental auditory imperception, dysphasia, specific developmental dyslexia, developmental dysgraphia, and developmental spelling disability.

For additional state rules on Dyslexia, please see Section 1. TAC §74.28. Students with Dyslexia and Related Disorders.

Current TEA Dyslexia Handbook: <https://tea.texas.gov/academics/dyslexia/>

TEC § 38.016. Psychotropic Drugs and Psychiatric Evaluations or Examinations.

- (a) In this section:

- (1) "Parent" includes a guardian or other person standing in parental relation.
 - (2) "Psychotropic drug" means a substance that is:
 - (A) used in the diagnosis, treatment, or prevention of a disease or as a component of a medication; and
 - (B) intended to have an altering effect on perception, emotion, or behavior.
- (b) A school district employee may not:
- (1) recommend that a student use a psychotropic drug; or
 - (2) suggest any particular diagnosis; or
 - (3) use the refusal by a parent to consent to administration of a psychotropic drug to a student or to a psychiatric evaluation or examination of a student as grounds, by itself, for prohibiting the child from attending a class or participating in a school related activity.
- (c) Subsection (b) does not:
- (1) prevent an appropriate referral under the child find system required under 20 U.S.C. Section 1412, as amended; or
 - (2) prohibit a school district employee who is a registered nurse, advanced nurse practitioner, physician, or certified or appropriately credentialed mental health professional from recommending that a child be evaluated by an appropriate medical practitioner; or
 - (3) prohibit a school employee from discussing any aspect of a child's behavior or academic progress with the child's parent or another school district employee.
- (d) The board of trustees of each school district shall adopt a policy to ensure implementation and enforcement of this section.
- (e) An act in violation of Subsection (b) does not override the immunity from personal liability granted in Section 22.0511 or other law or the district's sovereign and governmental immunity.

IV. DETERMINATION OF ELIGIBILITY

§300.306 Determination of eligibility.

(a) General. Upon completion of the administration of assessments and other evaluation measures-

- (1) A group of qualified professionals and the parent of the child determines whether the child is a child with a disability, as defined in §300.8, in accordance with paragraph (c) of this section and the educational needs of the child; and
- (2) The public agency provides a copy of the evaluation report and the documentation of determination of eligibility at no cost to the parent.

The copy of the evaluation report will be provided to the parent by the appraisal staff, diagnostician/LSSP, if possible, prior to the ARD/IEP meeting. It is important to review the information with the parent, therefore, if the report cannot be provided prior to the ARD meeting, it will be provided at the meeting. If the parent is not in attendance, the copy will be mailed to the parent with an opportunity to discuss the report on the phone or in a conference.

(b) Special rule for eligibility determination. A child must not be determined to be a child with a disability under this part--

- (1) If the determinant factor for that determination is--
 - (i) Lack of appropriate instruction in reading, including the essential components of reading instruction (as defined in section 1208(3) of the ESEA) “as such section was in effect on the day before the date of enactment of the Every Student Succeeds Act (December 9, 2015);
 - (ii) Lack of instruction in math; or
 - (iii) Limited English proficiency; and
- (2) If the child does not otherwise meet the eligibility criteria under §300.8(a).

(c) Procedures for determining eligibility and educational need.

- (1) In interpreting evaluation data for the purpose of determining if a child is a child with a disability under §300.8, and the educational needs of the child, each public agency must--
 - (i) Draw upon information from a variety of sources, including aptitude and achievement tests, parent input, teacher recommendations, as well as recommendations about the child’s physical condition, social or cultural background, and adaptive behavior; and
 - (ii) Ensure that information obtained from all of these sources is documented and carefully considered.
- (2) If a determination is made that a child has a disability and needs special education and related services, an IEP must be developed for the child in accordance with §§300.320 through 300.324.

§300.306(b)(1) - referring to (section 1208 of ESEA – NCLB *from above*) are the Reading components meaning explicit and systematic instruction in

- (A.) phonemic awareness;
- (B.) phonics;
- (C.) vocabulary development;
- (D.) reading fluency, including oral reading skills; and
- (E.) reading comprehension strategies.

Following the required timelines, the ARD/IEP Committee will meet to review the FIE and determine if the child is a child with a disability and if there is an educational need in order for the student to be eligible for special education services.

V. WRITTEN EVALUATION REPORTS (including Related Service Reports)

TAC §89.1011. Full Individual and Initial Evaluation.

(c) Except as otherwise provided in this section, a written report of a full individual and initial evaluation of a student must be completed as follows:

- (1) not later than the 45th school day following the date on which the school district receives written consent for the evaluation from the student's parent, except that if a student has been absent from school during that period on three or more school days, that period must be extended by a number of school days equal to the number of school days during that period on which the student has been absent; or
- (2) for students under five years of age by September 1 of the school year and not enrolled in public school and for students enrolled in a private or home school setting, not later than the 45th school day following the date on which the school district receives written consent for the evaluation from the student's parent.

For TAC §89.1011 in its entirety, see I. EVALUATION - in this Section 2.

A written evaluation report for any disability or eligibility for related services will include all of the requirements in §89.1011 (c) and §300.311 (a – b) and documented on the district forms. In addition, specific requirements for each specific disability category found in Section 3-Disability Criteria will also be documented in the written evaluation report. Evaluation reports will be signed by all the professionals required in the evaluation process.

Assessment protocols will be filed in a separate folder alongside the student eligibility folder and will not be filed with the written evaluation report. Each assessment protocol will be labeled with student's name and placed in the eligibility folder that is specified for the archived protocols. Parents or adult students have access to educational records including a review of test protocols. Request to review the protocols must be made in writing and provided to the school's Educational Diagnostician/LSSP, Principal or the Director of Special Education. Arrangements will be made to have the appropriate professional review the protocol with the parent or adult student. The district will maintain signed Written Evaluation Reports, REED documentation, and Assessment protocols.

VI. EVALUATION OF LANGUAGE, PHYSICAL, SOCIOLOGICAL, AND OTHER CONDITIONS

Areas of Evaluation

A. Language Dominance

The evaluation team will first determine the student's dominant language most proficient method of communication (expressively and receptively). The student's dominant language is the language in which the student is most proficient. This determination may be made by formal or informal evaluation. Evaluation instruments must be administered in the student's dominant language (native language or other mode of communication unless it is clearly not feasible to do so). If the primary language of the home is not English, the student will be evaluated in his/her dominant language. Documentation will be Oral Language Proficiency scores, the LPAC report or a description of procedures used to ensure the student was evaluated in his/her dominant language when the examiner is not proficient in that language. Where no bilingual examiner is available, an interpreter may be used. Interpreters will be adequately trained.

B. Language Proficiency

The evaluation team must determine the student's most proficient method of communication. The language proficiency information must indicate the student's skill in understanding and using both receptive and expressive domains, such as oral and written language, reading comprehension, and listening comprehension, when appropriate. Proficiency in both English and the other language(s) must be addressed for Limited English Proficient (LEP) students. (see procedures in the Referral section 1 for ELL students and coordination with the LPAC to differentiate proficiency and disability)

TAC §89.1230. Eligible Students with Disabilities. (language proficiency)

- (a) School districts shall implement assessment procedures which differentiate between language proficiency and disabling conditions in accordance with Subchapter AA of this chapter (relating to Commissioner's Rules Concerning Special Education Services), and shall establish placement procedures which ensure that placement in a bilingual education or English as a second language program is not refused solely because the student has a disability.

C. Physical

The evaluation of an individual's physical factors (including health, vision, hearing, and psycho-motor abilities) must consist of an examination of physical conditions that directly affect the student's ability to profit from the educational process. A general medical examination will be required only when specified by eligibility criteria or when abnormal physical factors have been identified as part of the evaluation of physical factors. The health information collected during the referral process will be sufficient if a complete medical examination is not required by specific eligibility criteria and if there are no indications of need for further physical evaluation.

When requesting a medical examination these steps are required:

- 1. Evaluation personnel are to obtain a "Notice of Release of Confidential Information" that is signed and dated by the parent.*
- 2. Submit the following forms to central office personnel designated responsible for securing contract services:
 - a. A signed "Notice of Release of Confidential Information" form with contact information.*
 - b. The Eligibility form(s) for the area of suspected disability*
 - c. Any other documentation the medical provider may need to complete their evaluation.**
- 3. Upon approval, designated Bell County CoOp personnel will contact the appropriate service providers to complete the necessary documentation for contract services and establish a purchase order to ensure payment for services. Parents will be contacted by the designated individual (Bell County CoOP staff or possibly campus evaluation personnel) to notify the parent that they may contact the medical provider to schedule an appointment.*

D. Emotional/Behavioral

The evaluation of an individual's emotional and behavioral factors will consist of formally or informally identifying those characteristics manifested in in-school or out-of-school behavior, or both, which may influence learning. The evaluation will include behaviors relative to the disability that may affect educational placement, programming, or discipline. Adaptive behavior of all students must be considered to some degree, formal measures are required only when establishing a diagnosis of an intellectual disability.

E. Sociological

The evaluation of an individual's sociological variables must consist of identifying the child's family and community environmental situation influencing learning and behavioral patterns. Students will not be eligible for special education if the only deficiencies identified are directly attributable to a different cultural lifestyle or to the child not having had educational opportunities.

F. Cognitive

The evaluation of an individual's cognitive functioning must include an evaluation of verbal ability or performance or both. While the adaptive behavior of all students must be considered to some degree, formal measures of adaptive behavior will be required only when a student is being assessed for an intellectual disability. A formal evaluation of Intelligence must always be addressed when evaluating the possibility of an intellectual disability. An informal evaluation of cognitive ability may be used to determine cognitive functioning as a part of eligibility for certain disabilities at the discretion of the evaluation team.

All students who are graduating under 89.1070 must be provided with a summary of academic achievement and functional performance as describe in 300.305(e)(3). The summary must consider, as appropriate the view of the parent and student and written recommendations from adult service agencies on how to assist the student in meeting postsecondary goals. Students who participate in graduation ceremonies but who are not graduating under the guidelines of this section do not have to have a Summary of Academic Achievement and Functional Performance.

VII. EVALUATION OF LEARNING COMPETENCIES (Academic Achievement and Functional Performance)

Assessment Guidelines for the Evaluation of Academic and Functional Performance

The evaluation report will include:

- A. Criterion-referenced or curriculum-referenced assessments designed to aid in the development of the student's IEP; (include any district wide and state testing, benchmarks, etc.)*
- B. Information about the student's strengths and weaknesses; and*
- C. The specific modifications of instructional content, accommodations, methods and/or materials required by the student to achieve and maintain satisfactory progress, including those that can only be provided through special education services, and those adaptations necessary for the student's progress in general classes and other special and compensatory education programs.*

VIII. ASSISTIVE TECHNOLOGY DEVICES AND SERVICES

§300.5 Assistive technology device. Assistive technology device means any item, piece of equipment, or product system, whether acquired commercially off the shelf, modified, or customized, that is used to increase, maintain, or improve the functional capabilities of a child with a disability. The term does not include a medical device that is surgically implanted, or the replacement of such device.

§300.6 Assistive technology service. Assistive technology service means any service that directly assists a child with a disability in the selection, acquisition, or use of an assistive technology device. The term includes-

- (a) The evaluation of the needs of a child with a disability, including a functional evaluation of the child in the child's customary environment;
- (b) Purchasing, leasing, or otherwise providing for the acquisition of assistive technology devices by children with disabilities;
- (c) Selecting, designing, fitting, customizing, adapting, applying, maintaining, repairing, or replacing assistive technology devices;
- (d) Coordinating and using other therapies, interventions, or services with assistive technology devices, such as those associated with existing education and rehabilitation plans and programs;
- (e) Training or technical assistance for a child with a disability or, if appropriate, that child's family; and
- (f) Training or technical assistance for professionals (including individuals providing education or rehabilitation services), employers, or other individuals who provide services to, employ, or are otherwise substantially involved in the major life functions of that child. (Authority: 20 U.S.C. 1401(2))

§300.105 Assistive technology; proper functioning of hearing aids.

- (a) The public agency must ensure that assistive technology devices or assistive technology services, or both, as those terms are defined in §§300.5 and 300.6, respectively, are made available to a child with a disability if required as a part of the child's--
 - (1) Special education under §300.39;
 - (2) Related services under §300.34; or
 - (3) Supplementary aids and services under §§300.42 and 300.114(a)(2)(ii).
- (b) On a case-by-case basis, the use of school-purchased assistive technology devices in a child's home or in other settings is required if the child's IEP Team determines that the child needs access to those devices in order to receive FAPE. (Authority: 20 U.S.C. 1412(a)(1), 1412(a)(12)(B)(i))

[Assessment Guidelines for Assistive Technology](#)

Each student assessed for determination of a disability will be assessed for assistive technology needs.

The assistive technology evaluation team may include any of the following professionals: Occupational Therapist, Physical Therapist, Speech Pathologist, Diagnostician, Teacher of the Visually Impaired, and other staff members as needed.

IX. SPECIAL PROVISIONS

The following categories of evaluations have special provisions and may require specific evaluation personnel to be included.

A. Adapted Physical Education

Assessment Guidelines For Adapted Physical Education (APE):

APE evaluations will be administered by appropriately trained physical education or special education personnel. Results from the evaluation will be included in the written evaluation report and should address the student's physical strengths and weaknesses and recommendations for specific services to be considered by the ARD/IEP committee.

B. Attention Deficit Disorder (ADD-ADHD) see also Section 3 – Disability Criteria for OHI

Assessment Guidelines for Attention Deficit Disorder (ADD/ADHD):

When a parent request an evaluation based on their concern or personnel physician information that indicates their child may have Attention Deficit Disorder (ADD-ADHD) the evaluation team will follow the procedures for initial referral or the REED process, which ever is required. The evaluation procedures will follow the process for determining an eligibility for an Other Health Impairment Disability. In addition to medical information the parent will be informed of the comprehensive evaluation process which may include a full psychological evaluation and any other evaluations that may be necessary to determine if the child is a child with a disability who is in need of special education. If the parent has a medical doctor that has recently diagnosed the child with Attention Deficit Disorder, the evaluation team will obtain a signed copy of the OHI eligibility form directly from the child's physician after the parent has provided a signed copy of the "Consent for Release of Confidential Information." Even upon request, the parent will not be provided a copy of the district OHI eligibility form to provide to the child's physician. If the evaluation team determines that the child meets the criteria for a child with an Other Health Impairment and the parent does not have a physician, then district procedures will be followed for obtaining contract medical services to obtain the necessary evaluation from a licensed medical doctor.

After the Special Education referral is made:

1. Appropriate evaluation measures will be administered. Establishment of eligibility under under IDEA is the responsibility of the Bell County CoOp staff and presented to the ARD committee. Evaluation measures will include:
 - *Behavior Rating Scales: At least one (1) general behavior rating scale and one (1) ADHD rating scale should be administered to both the teacher and the parent. The purpose is to establish the presence of inattention and/or hyperactivity across settings.*
 - *Interviews: Interviews relating to ADHD characteristics should be completed with both the teacher(s) and the parent(s) of the student being evaluated. The purpose is to establish the presence of inattention and/or hyperactivity across settings and to meet other key criteria for the ADHD diagnosis. Interviews also document past efforts to address student's behavior or academic needs in the general education setting.*
 - *Direct Observation: Two or more observations of the student should be completed in the classroom ideally during study or instructional periods and data collected.*
 - *Cognitive and Achievement Testing: measure of cognitive potential and academic achievement should be administered to rule out alternative explanations for the students attention and/or behavior problems, including intellectual or learning disabilities.*

Caution: Remember that a student may be diagnosed by a physician as having ADD or ADHD but the student may not necessarily have an educational need for special education services. Determination of educational need is made by the ARD/IEP Committee considering all data. Needs of some students may be addressed by the local campus Section 504 committee or classroom strategies. If you have any questions, please review with your Bell County CoOp campus personnel or call the Bell County CoOp special education office.

C. Deaf or Hard of Hearing

Assessment Guidelines for Deaf or Hard of Hearing

A deaf or hard of hearing diagnosis must meet the criteria for deafness or for a hearing impairment. Deafness means a hearing impairment is so severe that the child is impaired in processing linguistic information through hearing, with or without amplification, that adversely affects a child's educational performance. A hearing impairment means an impairment in hearing, whether permanent or fluctuating, that adversely affects a child's education performance but is not included under the definition of deafness.

When considering students who are deaf or hard of hearing, a professional from the Temple Regional Day School, certified in the education of students who are deaf or hard of hearing will be assigned to assist in the REED process and/or the initial evaluation to:

- 1. Determine appropriate areas of evaluation;*
- 2. Develop or determine appropriate evaluation techniques;*
- 3. Conduct the evaluations when appropriate; and*
- 4. Interpret data to ensure consideration and understanding of the educational, psychological, and social implications of the disability.*

Birth – 2 years or Deaf-Blind:

When considering students from birth through age two that are deaf or hard of hearing, or students who are deaf-blind, a teacher of infants who are deaf or hard of hearing or a teacher of students who are deaf-blind, as appropriate, may perform the evaluation specified above. Bell County CoOp has a MOU with the Temple Regional Day School.

The deaf or hard of hearing evaluation must include an otological examination performed by a otolaryngologist or by a licensed medical doctor when an otolaryngologist is not available and a audiological performed by a licensed audiologist. The evaluation data must include a description of the implications of the hearing loss for the student's hearing in a variety of circumstances with or without recommended amplification. District evaluation personnel will follow the established procedures for procuring contract services for medical services and contract evaluators.

D. Autism

Assessment Guidelines for Autism

The team of professionals that completes the evaluation process for autism will include a psychologist or LSSP, a speech/language pathologist, a diagnostician, and any other professional appropriate. The parent is also a critical member of the team.

E. Evaluation of Very Young or Students with Severe Disabilities

Assessment Guidelines for the Evaluation of Students Who Have Severe Disabilities and/or Who are 0-5 Years of Age

If the evaluation team cannot test these students in accordance with the procedures listed under the individual evaluation section of this procedure manual, the team must document the rationale for deviating from the standard procedure, as well as, the modifications used to complete the evaluation. The written report will specify the nature and extent of the disability. The educational evaluation of such a student may be limited to competency based or criterion referenced measures. Outside evaluations will also be considered.

F. Functional Behavioral Assessment

Assessment Guidelines for a Functional Behavior Assessment/FBA

A Functional Behavioral Assessment is completed when a student's behavior impedes educational progress for the student or other students in the classroom. If the student's placement includes time in the general education classroom, the evaluation should Include input from the general education teacher. The FBA should include the following information:

- Identification of the specific observable behavior(s) that is impeding the student's learning. Documentation of the behaviors(s) should be as descriptive and specific as possible in order to clearly identify and quantify the*

behavior.

- *Data from a variety of sources including but not limited to: discussions, interviews, records, and direct observation in a variety of settings by a variety of staff. The evaluation team may also use standardized instruments, if available. The data should determine the duration, frequency, and intensity of any patterns of behavior.*
- *Identification and/or descriptions of any antecedents - events that logically serve as the stimulus for the behavior.*
- *Identification and/or descriptions of any consequences - this is the action that is following and causes the student to maintain specific behavior(s) - determine effectiveness of each.*
- *Identification and/or descriptions of the purpose of the student's behavior - usually to get something such as attention, avoid or escape something, or to control the antecedent event.*
- *A description of the relationship of the behavior to the event and provide possible variables that can be changed in the setting or the situation.*

Utilizing the information in the FBA, the evaluation team will develop a Behavioral Intervention Plan (BIP) which will include positive behavioral supports, reinforcers and possible consequences. The BIP will provide information to teach the student alternatives to the behavior that is interfering with the student's learning.

If disciplinary action results in a change in placement under federal law, not later than the 10th school day after the change in placement the district will immediately seek consent from the student's parent to conduct a functional behavioral assessment of the student if an FBA has never been done or the FBA is more than one year old. If there is a current FBA, the district will review and/or revise the FBA and any BIP that is currently in place as needed based on the behavior that triggered the change of placement decision.

Federal Guidelines stipulate required timelines. If the student's ARD committee agrees that there is a need for a functional behavior assessment, the committee may determine that there is enough data to complete the assessment at the ARD. If there is insufficient data to complete the assessment at the ARD, the ARD committee determines the timeline for the assessment(s) to be completed, which may be more than 10 days if warranted.

G. Homebound or Hospitalized

Assessment Guidelines for Homebound or Hospitalized

Any student being considered for Homebound or Hospitalized placements through special education must have received a full and individual evaluation that describes the student's functioning in all required areas; health, vision, hearing, social emotional status, general cognitive ability, academic performance, communication, and motor abilities. Services in the Homebound or Hospital setting may be considered if the FIE has been completed and the ARD/IEP committee has determined that the student is eligible for special education supports and services and if the student is expected to be confined at home or in the hospital for a minimum of four consecutive weeks (for chronically ill students, this period of confinement may be a period of time totaling at least four weeks throughout the school year). This confinement must be for medical reasons only and the medical condition must be documented by a licensed medical doctor.

TAC §89.63. Any student who is placed in the special education homebound instructional arrangement/setting must meet the following four criteria:

- be eligible for special education and related services as determined by an ARD committee;
- is expected to be confined at home or hospital bedside for a minimum of four consecutive weeks (instruction may, as provided by local district policy, also be provided to chronically ill students who are expected to be confined for any period of time totaling at least four weeks throughout the school year as documented by a physician licensed to practice in the United States);
- be confined for medical reasons only (unless the child is 0 – 5 years of age); and
- a medical condition is documented by a physician licensed to practice in the United States. 19 TAC §89.63(c)(2)(A)

In making eligibility and placement decisions the ARD committee must consider the physician's information. However, the physician's note/information is not the sole determining factor in the committee's decision making process.

General Education Homebound (GEH)

Any general education student should be referred to the local campus GEH committee. For more information see the Student Attendance Accounting Manual: <http://tea.texas.gov/index2.aspx?id=25769817607>

H. English Learner

See Section 1. and Section 4a. for more information.

§300.27 English Learner. English Learner has the meaning given the term in section 8101 of the ESEA.

Assessment Guidelines For English Language Learners (ELL)

Specific requirements for an assessment of an ELL student is identified in the Child Find Section of the Operating Procedures. The LPAC report, which must have been completed within the past year, must be included with the referral packet. The student should have been tested in English and Spanish. If this is an initial evaluation, information will include; the initial referral information, the LPAC report, LAS scores or equivalent test, the amount of time the student was served in the bilingual program, and a copy of the Home Language Survey.

Speech Only Referral for an ELL Student:

The language proficiency assessment (ex. LAS, IDEA) should be considered with regard to the following:

- i. If the student is proficient in English and has a lower proficiency in Spanish or a language other than English (LOTE), the normal procedures for the speech pathologist evaluations are followed. Assessment would be conducted in English.*
- ii. If the student is proficient in Spanish or a LOTE and is not proficient in English, the speech pathologist will confer with the second language specialist and determine if an evaluation in Spanish (or other language) is needed. The second language specialist and speech pathologist will collaboratively complete the evaluation and write the evaluation report.*
- iii. If the student is barely proficient in both languages, the second language specialist and speech pathologist will gather all information regarding the student's educational history and performance and consult with the special education administrator before proceeding with the FIE.*
- iv. If the student is proficient in both languages, normal procedures in English may be followed.*

The articulation evaluation should be considered with regard to how the student articulates sounds in English as well as the student's native language.

Other Referrals (LD, ID, etc.):

The language evaluation (ex. LAS, IDEA) should be considered with regard to the following:

- i. If the student is proficient in English and lower in Spanish, the usual procedures for testing are followed.*
- ii. If the student is proficient in Spanish and not in English, the diagnostician/LSSP will confer with the second language specialist and determine if an evaluation in the student's native language is needed. The second language specialist and the diagnostician/LSSP will collaboratively determine the appropriate evaluation procedures and instruments and write the full and individual evaluation report (FIE) and proceed to ARD.*
- iii. If the student is barely proficient in both languages, assessment should be completed in the student's dominant language. You may also consult with the Coordinator or Director of Bell County CoOp.*
- iv. If the student is barely proficient in both languages, the second language specialist and the diagnostician/LSSP will gather all the information regarding the student's educational history and performance and consult with the Special Education Coordinator or Director before proceeding with the FIE.*

If the student is above proficient in both languages, normal procedures in English may be followed. Consideration should be given to the following:

- How long the student has been in the country;*
- Whether or not the student was enrolled and attending school prior to entering the United States;*
- What types of bilingual supports and services have been provided and what type of academic progress the student is making in their home language as well as their progress in English.*

I. Speech Impairment

For students referred for speech/language suspected disability, the evaluation will be performed and documented by a certified speech and language pathologist, certified speech and hearing therapist, or a licensed speech/language pathologist. In addition to the speech and language components of the evaluation, the physical, mental, and emotional conditions and learning competencies will be addressed in the evaluation. The written report of evaluation will include the level of severity of the impairment and will state how the communication disorder affects the student's performance in the classroom resulting in an educational need for speech therapy services.

J. Visual Impairment (see also Section 3. DISABILITY and Section 4b)

Assessment Guidelines for Visual Impairment

A visual impairment is an impairment in a child's vision that even with correction, adversely affects a child's educational performance. It includes both partial sight and blindness. When considering students who have visual impairments, a professional certified in the education of students with visual impairments will be assigned to assist in:

- 1. Determining the appropriate areas of evaluation;*
- 2. Developing or determining the appropriate evaluation techniques;*
- 3. Conducting evaluations when appropriate; and*
- 4. Interpreting data to ensure consideration and understanding of the educational, psychological, and social implications of the disability; and*
- 5. Collecting appropriate medical documentation.*

When considering students from birth through age two that have visual impairments, or students who are deaf-blind, a teacher of infants who have visual impairments or a teacher of students who are deaf-blind, as appropriate, may perform the evaluation specified above.

2015 adjustments: For a student suspected of having a visual impairment:

- An FIE must include an orientation and mobility evaluation conducted by a person who is certified as an orientation and mobility specialist.*
- O&M specialist is part of the multidisciplinary team for evaluating visual impairments*
- An FIE must be conducted in a variety of lighting conditions and in a variety of settings, including the student's home, school, community, and settings unfamiliar to the student.*
- The scope of any reevaluation of a student who has been determined to be eligible as a student with a visual impairment, must include a certified O&M specialist as part of the multidisciplinary team.*

K. Vocational Evaluation (including FVE)

Assessment Guidelines for a Vocational Evaluation and a Functional Vocational Evaluation:

Special education will collect vocational evaluation data when appropriate. As the ARD/IEP committee begins discussion and planning for entry into the high school curriculum and discusses the graduation plan of the student, vocational evaluation may be determined appropriate. (For information on the Vocational Adjustment Coordination Program see Instructional Arrangements Section.)

- 1. The ARD/IEP committee may recommend vocational evaluation when:
 - A. The student has no specific identified skills which are determined necessary for employment, or*
 - B. The student has a need to determine vocational opportunities or interest.**
- 2. Based on ARD/IEP committee recommendation, a vocational evaluation may include information from:
 - A. The Full and Individual Evaluation;*
 - B. The current IEP;*
 - C. Information about past school performance;*
 - D. Work training history of the student; and*
 - E. Interviews with the student, the parent, and the teacher(s). The interviews include attitudes, work habits, behaviors, job readiness, work-related skills, and post-school expectations.**
- 3. The assigned special education teacher will explain to parents the purpose of the vocational evaluation process. Results of the evaluation may be discussed with the student prior to being filed in the student's special*

education folder. The results will also be discussed at the annual ARD/IEP committee meeting.

- 4. If the review of the records in #2. above indicates, additional vocational interest and aptitude evaluation may be recommended by the ARD/IEP committee. The special education teacher and/or speech pathologist are responsible for sending the Notice and Consent for a Full and Individual Evaluation to the parent prior to the evaluation. Evaluation will begin no earlier than five school days after notification in accordance with Bell County CoOp procedures.*
- 5. For students with disabilities whose initial vocational evaluation, does not yield measurable results or sufficient information for planning appropriate occupational preparation, additional vocational evaluation may be required such as: review of work samples, situational evaluations, and work behaviors analysis. Observation, training sites, or other instructional programs and settings may be used to provide part of this data.*
- 6. Situational assessment of students placed in campus-based and community-based job-training options as a part of the student's educational program will be conducted by special education instruction staff on an ongoing basis. Reports will be filed in the teacher's student folder and reviewed at each annual ARD/IEP meeting.*

Functional Vocational Evaluation.

The ARD/IEP committee will consider any recommendations as a result of Transition Planning. Transition services means a coordinated set of activities for a student with a disability that includes if appropriate a functional vocational evaluation. If the ARD/IEP committee recommends this, a qualified professional will conduct the evaluation.

- 1. The evaluation will include but not be limited to: observation in vocational settings, interview with teacher and parents, and other formal or informal evaluations as appropriate.*
- 2. Results of the evaluation including strengths and weaknesses will be addressed in a written report maintained in the eligibility file.*

A Functional Vocational Evaluation is just one component of transition planning that is included "if appropriate". The IEP committee determines if a functional vocational evaluation is appropriate. It may be necessary if the student cannot determine a career interest area or if it is difficult determining the student strengths and needs. It may be considered appropriate for:

- 1. Students who would benefit from the "hands-on" experience afforded by work sampling, observations, situational assessment,*
- 2. Students who are having difficulty determining career interests, and*
- 3. Those who may need to showcase talents other than those limited to academic classes where they traditionally have been unsuccessful.*

A Functional Vocational Evaluation (FVE) is a systematic assessment process used to identify practical useable career and employment-related information about an individual. A FVE can incorporate multiple formal and informal assessment techniques to observe, describe, measure, and predict vocational potential. A distinctive feature in all FVE's is that the FVE includes (and may emphasize) individualized experiential and performance-based opportunities, in natural vocational or work environments. The systematic method used to collect and organize the information from the assessment is more important than the type of assessment utilized. The process may begin early and be quite broad during the middle school years, but becomes increasingly more specific as the student moves closer to graduation. This is not a task that will be done one time only, but rather will be built upon as the student has new experiences and can be documented with data over time.

This Functional Vocational Evaluation procedure considers and documents the interactions of the student with instructors, peers, and employer and includes:

- 1. Interviews;*
- 2. Observation, inventories, surveys, and record reviews; personality and temperament;*
- 3. Career exploration of student's interests, values, attitudes, and social skills;*
- 4. Situational assessment of student's interests, skills, strengths, temperaments; work demands environmental factors abilities, motivation, physical capacity, and work tolerance work habits;*
- 5. Training needs;; assistive technology; necessary adaptations and*
- 6. Multi-agency planning and assessment.*

X. APPRAISAL PERSONNEL *(see also Personnel in Section 8-Administration)*

§300.156 Personnel qualifications.

- (a) **General.** The SEA must establish and maintain qualifications to ensure that personnel necessary to carry out the purposes of this part are appropriately and adequately prepared and trained, including that those personnel have the content knowledge and skills to serve children with disabilities.
- (b) **Related services personnel and paraprofessionals.** The qualifications under paragraph (a) of this section must include qualifications for related services personnel and paraprofessionals that--
- (1) Are consistent with any State-approved or State-recognized certification, licensing, registration, or other comparable requirements that apply to the professional discipline in which those personnel are providing special education or related services; and
 - (2) Ensure that related services personnel who deliver services in their discipline or profession--
 - (i) Meet the requirements of paragraph (b)(1) of this section; and
 - (ii) Have not had certification or licensure requirements waived on an emergency, temporary, or provisional basis; and
 - (iii) Allow paraprofessionals and assistants who are appropriately trained and supervised, in accordance with State law, regulation, or written policy, in meeting the requirements of this part to be used to assist in the provision of special education and related services under this part to children with disabilities.
- (c) **for remaining portion**

22 TAC § 465.38. Psychological Services in the Schools. [Excerpt]

This rule acknowledges the unique difference in the delivery of school psychological services in the public schools from psychological services in the private sector. The Board recognizes the purview of the State Board of Education and the Texas Education Agency in safeguarding the rights of public school children in Texas. The mandated multidisciplinary team decision making, hierarchy of supervision, regulatory provisions, and past traditions of school psychological service delivery both nationally and in Texas, among other factors, allow for rules of practice in the public schools which reflect these occupational distinctions from the private practice of psychology.

XI. INDEPENDENT EDUCATIONAL EVALUATION (IEE)

§300.502 Independent educational evaluation.

(a) General.

(1) The parents of a child with a disability have the right under this part to obtain an independent educational evaluation of the child, subject to paragraphs (b) through (e) of this section.

(2) The public agency must provide to parents, upon request for an independent educational evaluation, information about where an independent educational evaluation may be obtained, and the agency criteria applicable for independent educational evaluations as set forth in paragraph (e) of this section.

The parents of a child with a disability have the right to obtain an independent educational evaluation (IEE) of the child at public expense if the parent disagrees with an evaluation completed by the district.

Information on where an IEE may be obtained will be provided to parents on request. A list of individuals who can provide an IEE is available from the Bell County CoOp Office. The district criteria (State/Federal requirements) for all evaluations must also be followed for the IEE. Evaluator Requirements are listed below. Contract evaluation personnel (which includes personnel who complete evaluations for Independent Educational Evaluations) must provide assessment results, recommendations and a written report to Bell County CoOp prior to or at the same time the information is provided to parents.

(3) For the purposes of this subpart--

- (i) Independent educational evaluation means an evaluation conducted by a qualified examiner who is not employed by the public agency responsible for the education of the child in question; and**
- (ii) Public expense means that the public agency either pays for the full cost of the evaluation or ensures that the evaluation is otherwise provided at no cost to the parent, consistent with §300.103.**

(b) Parent right to evaluation at public expense.

(1) A parent has the right to an independent educational evaluation at public expense if the parent disagrees with an evaluation obtained by the public agency, subject to the conditions in paragraphs (b)(2) through (4) of this section.

(2) If a parent requests an independent educational evaluation at public expense, the public agency must, without unnecessary delay, either--

- (i) File a due process complaint to request a hearing to show that its evaluation is appropriate; or**
- (ii) Ensure that an independent educational evaluation is provided at public expense, unless the agency demonstrates in a hearing pursuant to §§300.507 through 300.513 that the evaluation obtained by the parent did not meet agency criteria.**

If the parent requests an IEE from any staff member or campus Principal, the parent will be provided the name and phone number of the Special Education Director and asked to notify that administrator immediately so that proper steps may be taken to address their request for an IEE. The Special Education Director, in consultation with appropriate Bell County CoOp staff, will determine whether to pay for the IEE or file for a due process hearing. The Special Education Administration will respond to the parent regarding the IEE request within 15 school days, following all required Notice procedures.

(3) If the public agency files a due process complaint notice to request a hearing and the final decision is that the public agency's evaluation is appropriate, the parent still has the right to an independent educational evaluation, but not at public expense.

(4) If a parent requests an independent educational evaluation, the public agency may ask for the parent's reason why he or she objects to the public evaluation. However, the public agency may not require the parent to provide an explanation and may not unreasonably delay either providing the independent educational evaluation at public expense or filing a due process complaint to request a due process hearing to defend the public evaluation.

(5) A parent is entitled to only one independent educational evaluation at public expense each time the public agency conducts an evaluation with which the parent disagrees.

If the parent requests an IEE during an ARD/IEP meeting, the minutes will document that the parent was asked to provide reasons why they object to the public agency evaluation. If the parent does not provide any specific reason, that also will be documented in the minutes. The ARD Administrator or designee will immediately notify the Special Education Administrator of the parent request for an IEE in order to determine the district's response to the request. The district will not delay and will respond within the determined school days noted above.

- (c) Parent-initiated evaluations. If the parent obtains an independent educational evaluation at public expense or shares with the public agency an evaluation obtained at private expense, the results of the evaluation--**
- (1) Must be considered by the public agency, if it meets agency criteria, in any decision made with respect to the provision of FAPE to the child; and**
 - (2) May be presented by any party as evidence at a hearing on a due process complaint under subpart E of this part regarding that child.**
- (d) Requests for evaluations by hearing officers. If a hearing officer requests an independent educational evaluation as part of a hearing on a due process complaint, the cost of the evaluation must be at public expense.**
- (e) Agency criteria.**
- (1) If an independent educational evaluation is at public expense, the criteria under which the evaluation is obtained, including the location of the evaluation and the qualifications of the examiner, must be the same as the criteria that the public agency uses when it initiates an evaluation, to the extent those criteria are consistent with the parent's right to an independent educational evaluation.**
 - (2) Except for the criteria described in paragraph (e)(1) of this section, the public agency may not impose conditions or timelines related to obtaining an independent educational evaluation at public expense.**

District Steps as Soon as Notified of IEE Request

Special Education Director will notify parent the IEE request is received. Inform the parent that within 15 school days a decision will be made to either request a Due Process Hearing to defend district evaluation or pay parent for an IEE. If decision is to pay for an IEE, Special Education Administration will:

- 1. Provide the parent with Procedural Safeguards and the district IEE guidelines.*
- 2. Designate the local district contact person, (Director of Special Education), for the parents to coordinate the IEE process. Encourage the parent pay close attention to the Evaluator Requirements and the district process for payment of the IEE.*
- 3. Provide the parent a list of qualified examiners in the area.*
- 4. Once the parent has selected the independent evaluator they will provide the district with contact information for the evaluator and sign consent for the district to speak with the person chosen about the student.*
- 5. The district will contact the independent evaluator chosen by the parent and provide a written contract with IEE criteria and Evaluator Requirements. Once the contract is signed the Special Education Director will ensure that the Purchase Order Procedures for the district are followed to ensure payment once the evaluation is completed and provided to the district with an invoice for services.*

Evaluator Requirements

- 1. The independent evaluator will coordinate activities with the district designee whose name was provided to the parent by the Special Education Director.*
- 2. The independent evaluator will have the same qualifications as the Bell County CoOp assessment personnel (e.g., psychologist, associate psychologist, Licensed Specialist in School Psychology, or educational diagnostician) and as required by Texas law and also described in Section 8)*
- 3. Each independent evaluator must provide to the district a copy of of his or her license(s) or certificate(s).*
- 4. The independent evaluator may be requested to complete a conflict of interest form provided by the Bell County CoOp indicating whether the examiner has a personal monetary interest in any service or program recommended by the examiner.*
- 5. The independent evaluator will be provided access to the student's cumulative folder and special education folders upon request. and parental consent*
- 6. The independent evaluator may meet with district by appointment to gather information about a student prior to the assessment or to share information following the completion of the evaluation by contacting the special education director.*

7. *The independent evaluator will follow federal and state assessment regulations and rules, reporting requirements and established eligibility criteria for the diagnosis of students with disabilities.*
8. *The independent evaluator will consider data obtained from the student's teacher or service provider through consultation and/or interview.*
9. *The independent evaluator will provide a written assessment report that shall address the presence or absence of those symptoms or conditions included in the specific eligibility criteria for the disability for which the student is being assessed. The report shall include the type and severity of the impairment and the functional implications for the educational process. The report must provide the ARD committee with sufficient information to determine whether or not the student has a disability and is in need of special education services.*
10. *The independent evaluation may be restricted to one assessment area upon mutual agreement by the Bell County CoOp and parent.*
11. *The independent evaluator must be located within a 100 mile radius of the Bell County CoOp.*
12. *If the independent evaluator is going to be conducting the evaluation on school property then Per Senate Bill 9, they must complete a state and national criminal history background search and the district must receive those results through the DPS criminal history clearinghouse (Fingerprint-based Applicant Clearinghouse of Texas – FACT prior to the assessment.*
13. *The evaluator must provide information in the same timely manner as required by Bell County CoOp personnel including an original typed report to the Bell County CoOp within 30 calendar days from the date that an IEE is approved by Bell County CoOp and 10 days prior to the ARD meeting. The report must address the Bell County CoOp format (which will be provided to the evaluator) for assessment and eligibility. Protocols must be available for review and the report must include an original signature and title of all assessment personnel involved in the evaluation. The report must comply with all requirements of state and federal regulations.*

16. *Upon completion of evaluation, the written report will be submitted to the parent and the district along with the Invoice for payment.*

Reimbursement or Payment

Parents are free to select whomever they choose to perform the IEE, so long as the examiner meets the District's criteria. If parents select an examiner that is not on the District's list of qualified examiners, they should submit the name and vitae of the examiner with copies of certificates and/or licenses in advance of conducting the IEE in order that the District may confirm and notify the parents whether the examiner is qualified to perform the IEE. If the parents fail to submit the name and vitae of the examiner prior to conducting the IEE, the evaluator will not be paid if they do not meet the District's criteria. The parent and evaluator are taking an unnecessary risk of nonpayment. This should be determined prior to the IEE conducted.

Reimbursement/payment will be made directly to evaluator upon receipt of an invoice and the IEE which meets all of the Bell County CoOp assessment criteria. Parents obtaining an IEE without following these procedures risk payment. Whenever an IEE is at public expense, the criteria under which the IEE is obtained, must be the same as the criteria which the school uses when it initiates an evaluation, to the extent those criteria are consistent with the parent's rights to an IEE.

Criteria for Fee Setting

1. *The Bell County CoOp will pay a fee for the IEE which allows a parent to choose from among the qualified professionals in the area.*
2. *The Bell County CoOp will not pay unreasonably excessive fees. An unreasonably excessive fee is one which is (this percentage needs to be determined based on your area and data available for reasonable cost for an evaluation. Thirty five percent above the Medicaid rate is now the acceptable rate) above the average rate in the local area for the services required to complete the IEE.*
3. *Upon receipt of an invoice for payment of an unreasonably excessive fee, the Bell County CoOp will notify the parent of the unreasonable rate.*
4. *Parents will be allowed the opportunity to demonstrate to an ARD committee that unique circumstances justify an IEE that does not fall within the Bell County CoOp fee criteria. However, the payment decision will remain with the district.*

5. *When service providers have a sliding scale fee based on parent income, the Bell County CoOp will pay the amount charged to the parent.*
6. *In the event that a parent pursues an IEE independently, an original billing form must be submitted to the Bell County CoOp prior to payment. Before reimbursement or direct payment is authorized, criteria must be met not only regarding the fee, but also the evaluator criteria and the written report received by the district and the evaluation meet the district's IEE criteria.*
7. *Any Travel costs for examiner and/or parents will not exceed Bell County CoOp rates for travel as established by state guidelines.*

Parents Seeking Reimbursement for a Unilaterally Obtained IEE

1. *The Bell County CoOp will not consider a parent request for payment for a unilaterally parent-initiated IEE unless the request is made within a reasonable time after receipt of the results of the evaluation. A reasonable time is defined as 90 calendar days.*
2. *The Bell County CoOp can request a due process hearing to prove its own evaluation is appropriate. This can occur before an IEE is conducted or, in this scenario, after the parent has obtained the IEE and is seeking reimbursement.*
3. *Parent must submit Invoice for payment, the evaluator's name and qualifications, the completed IEE that meets all criteria.*
4. *The Bell County CoOp will review all information submitted by the parent.*
5. *The Bell County CoOp will deny payment of an IEE conducted by an evaluator who does not meet minimum qualifications.*
6. *The Bell County CoOp will deny payment of an IEE which does not meet minimum Texas Education Agency criteria for the specific disability identified.*
7. *The Bell County CoOp will deny payment of an IEE which does not meet substantial compliance with all state and federal requirements.*
8. *The Bell County CoOp will deny payment of an IEE that exceeds the maximum cost criteria.*

Consideration of Parent Initiated IEE

The results of a parent-initiated IEE obtained at private expense will be considered by the ARD committee in any decision made with respect to the provision of a free appropriate public education to the student (if the IEE meets federal and state criteria). Such consideration does not make the Bell County CoOp liable for payment of the evaluation.

Number of IEEs

A parent is entitled to only one IEE for each evaluation performed by the District, if the parent disagrees with the evaluation. This would include the three year re-evaluation or re-evaluations conducted more frequently. A parent is not entitled to multiple IEEs at public expense without an intervening re-evaluation. Section 3. - DISABILITY CRITERIA

REGULATIONS

§300.8 Child with a disability.

(a) General.

- (1) Child with a disability means a child evaluated in accordance with §§300.304 through 300.311 as having an intellectual disability, a hearing impairment (including deafness), a speech or language impairment, a visual impairment (including blindness), a serious emotional disturbance (referred to in this part as emotional disturbance), an orthopedic impairment, autism, traumatic brain injury, an other health impairment, a specific learning disability, deaf-blindness, or multiple disabilities, and who, by reason thereof, needs special education and related services.**
- (2) (i) Subject to paragraph (a)(2)(ii) of this section, if it is determined, through an appropriate evaluation under §§300.304 through 300.311, that a child has one of the disabilities identified in paragraph (a)(1) of this section, but only needs a related service and not special education, the child is not a child with a disability under this part.**
 - (ii) If, consistent with §300.39(a)(2), the related service required by the child is considered special education rather than a related service under State standards, the child would be determined to be a child with a disability under paragraph (a)(1) of this section.**

(b) Children aged 3-9

(c) Definitions of disability terms

Each disability criteria requires addressing how the disability adversely affects a child's educational performance. A child does not have to fail or be retained in a course or grade in order to be considered for special education and related services. However, the child must have one or more of the impairments identified in Federal law and a need for specially designed instruction and related services because of that impairment. A range of factors - both academic and nonacademic- can be considered in making this determination for each individual child. Even if a child is advancing from grade to grade or is placed in the regular educational environment for most or all of the school day, the team still could determine the child's impairment or condition adversely affects the child's educational performance because the child could not progress satisfactorily in the absence of specially designed instruction, which could include; modifications to the general curriculum, specific instructional adaptations or supportive services, and/or specific behavioral interventions.

§300.306 Determination of eligibility (for more information see Section 2 – FIE)

(a) General. Upon completion of the administration of assessments and other evaluation measures-

- (1) A group of qualified professionals and the parent of the child determines whether the child is a child with a disability, as defined in §300.8, in accordance with paragraph (c) of this section and the educational needs of the child; and**
- (2) The public agency provides a copy of the evaluation report and the documentation of determination of eligibility at no cost to the parent.**

The group of "qualified professionals" includes those described below.

TAC §89.1040. Eligibility Criteria

- (a) Special education services.** To be eligible to receive special education services, a student must be a "child with a disability," as defined in 34 Code of Federal Regulations (CFR), §300.8(a), subject to the provisions of 34 CFR, §300.8(c), the Texas Education Code (TEC), §29.003, and this section. The provisions in this section specify criteria to be used in determining whether a student's condition meets one or more of the definitions in federal regulations or in state law.
- (b) Eligibility determination.** The determination of whether a student is eligible for special education and related services is made by the student's admission, review, and dismissal (ARD) committee. Any evaluation or re-evaluation of a student shall be conducted in accordance with 34 CFR, §§300.301-300.306 and 300.122. The **multidisciplinary team** that collects or reviews evaluation data in connection with the determination of a student's eligibility must include, but is not limited to, the following:
 - (1) a licensed specialist in school psychology (LSSP), an educational diagnostician, or other appropriately certified or licensed practitioner with experience and training in the area of the disability; or**

TEC §29.003. Eligibility Criteria

- (a) The agency shall develop specific eligibility criteria based on the general classifications established by this section with reference to contemporary diagnostic or evaluative terminologies and techniques. Eligible students with disabilities shall enjoy the right to a free appropriate public education, which may include instruction in the regular classroom, instruction through special teaching, or instruction through contracts approved under this subchapter. Instruction shall be supplemented by the provision of related services when appropriate.
- (b) A student is eligible to participate in the school district's special education program if the student:
- (1) is not more than 21 years of age and has a visual or auditory impairment that prevents the student from being adequately or safely educated in public school without the provision of special services; or
 - (2) is at least three but not more than 21 years of age and has one or more of the following disabilities that prevents the student from being adequately or safely educated in public school without the provision of special services:

 - (D) learning disability;
 - (E) autism;
 - (F) speech disability; or
 - (G) traumatic brain injury.

TAC §89.1035. Age Ranges for Student Eligibility

- (a) Pursuant to state and federal law, services provided in accordance with this subchapter ~~shall~~ must be available to all eligible students ages 3-21. Services will be made available to eligible students on their third birthday. Graduation with a regular high school diploma pursuant to §89.1070 (b)(1), (b)(2)(D), (g)(1), (g)(2), (g)(3), or (g)(4)(D) of this title (relating to Graduation Requirements) terminates a student's eligibility to receive services in accordance with this subchapter. An eligible student receiving special education services who is 21 years of age on September 1 of a school year will be eligible for services through the end of that school year or until graduation with a regular high school diploma pursuant to §89.1070 (b)(1), (b)(2)(D), (g)(1), (g)(2), (g)(3), or (g)(4)(D) of this title, whichever comes first.

TEC §30.081. Legislative Intent Concerning Regional Day Schools for the Deaf

The legislature, by this subchapter, intends to continue a process of providing on a statewide basis a suitable education to deaf or hard of hearing students who are under 21 years of age and assuring that those students have the opportunity to become independent citizens.

These professionals use a range of information to distinguish autism spectrum disorders from other disorders by close examination of comprehensive assessment information and the student's developmental history and presentation of symptoms.

III. DEAF – BLINDNESS

§300.8 Child with a disability.

(c) Definitions of disability terms. The terms used in this definition of a child with a disability are defined as follows:

- (D) has a documented medical diagnosis of a progressive medical condition that will result in concomitant hearing and visual losses that, without special education intervention, will adversely affect the student's educational performance.

Assessment Guidelines for Deaf/Blind

A student who has been determined to meet the criteria for deaf-blindness is one who:

- Meets the eligibility criteria for a student who is deaf or hard of hearing and a visual impairment; or*
- Meets the eligibility criteria for a visual impairment and has a suspected hearing loss that cannot be demonstrated conclusively but has been identified by a licensed speech pathologist as having no speech at an age when speech would be normally expected; or*

IV. EMOTIONAL DISTURBANCE

§300.8 Child with a disability.

(c) Definitions of disability terms. The terms used in this definition of a child with a disability are defined as follows:

- (4) (i) **Emotional disturbance** means a condition exhibiting one or more of the following characteristics over a long period of time and to a marked degree that adversely affects a child's educational performance:
- (A) An inability to learn that cannot be explained by intellectual, sensory, or health factors.
 - (B) An inability to build or maintain satisfactory interpersonal relationships with peers and teachers.
 - (C) Inappropriate types of behavior or feelings under normal circumstances.
 - (D) A general pervasive mood of unhappiness or depression.
 - (E) A tendency to develop physical symptoms or fears associated with personal or school problems.
- (ii) Emotional disturbance includes schizophrenia. The term does not apply to children who are socially maladjusted, unless it is determined that they have an emotional disturbance under paragraph (c)(4)(i) of this section.

TAC §89.1040. Eligibility Criteria.

(c) Eligibility definitions.

- (4) Emotional disturbance. A student with an emotional disturbance is one who has been determined to meet the criteria for emotional disturbance as stated in 34 CFR, §300.8(c)(4). The written report of evaluation must include specific recommendations for behavioral supports and interventions.

Assessment Guidelines for Emotional Disturbance

Diagnosis and eligibility will be assessed by a LSSP with information from other members of the multidisciplinary team such as the Behavior Specialists, parent, etc. These professionals use a range of information to distinguish emotional disturbance from other disabilities by close examination of comprehensive assessment information and the student's history and presentation of symptoms. The diagnosis of schizophrenia will only be made by an individual who is licensed and qualified to make that diagnosis in the state of Texas, which could include a LSSP, a licensed clinical psychologist, and/or a licensed psychiatrist.

V. INTELLECTUAL DISABILITY

§300.8 Child with a disability.

(c) Definitions of disability terms. The terms used in this definition of a child with a disability are defined as follows:

(6) **Intellectual Disability means significantly subaverage general intellectual functioning, existing concurrently with deficits in adaptive behavior and manifested during the developmental period, that adversely affects a child's educational performance. The term “intellectual disability: was formerly termed “mental retardation.”**

TAC §89.1040. Eligibility Criteria.

(c) Eligibility definitions.

- (5) Intellectual Disability. A student with an intellectual disability is one who has been determined to meet the criteria for an intellectual disability as stated in 34 CFR, §300.8(c)(6). In meeting the criteria stated in 34 CFR, §300.8(c)(6), a student with an intellectual disability is one who:
- (A) has been determined to have significantly sub-average intellectual functioning as measured by a standardized, individually administered test of cognitive ability in which the **overall test score** is at least two standard deviations below the mean, **when taking into consideration the standard error of measurement** of the test; and
- (B) concurrently exhibits **deficits in at least two** of the following areas of adaptive behavior: communication, self-care, home living, social/interpersonal skills, use of community resources, self-direction, functional academic skills, work, leisure, health, and safety.

Assessment Guidelines for Intellectual Disability

An intellectual disability is defined as significantly subaverage general intellectual functioning as measured by a standardized individually administered test of cognitive ability in which the overall test score is at least two standard deviations below the mean, when taking into consideration the standard error of measurement of the test. The student must also demonstrate concurrent deficits in adaptive behavior in at least two of the following areas; communication, self-care, home living, social/interpersonal skills, us of community resources, self-direction, functional academic skills, work, leisure, health, and safety. These deficits must be manifested during the developmental period and adversely affect a child's educational performance.

*The following **local** guidelines apply:*

- 1. In most cases, a norm referenced standardized IQ assessment will be administered. If non-standardized procedures are used to administer a standardized test or developmental scale because of a severe sensory impairment (e.g. a visual impairment), another severe physical disability, or because of language or communication differences, the adaptations should be noted and the implications for test interpretation should be documented. Normed scores are based on standardized administration procedures and should not be reported if non-standardized procedures are used to administer the test. Reporting ranges or categories of scores may be more appropriate.*
- 2. If a student is very young and/or has a severe disability or a severe sensory impairment, a developmental scale may be administered instead of intelligence tests. The student's performance must be within the intellectually disabled range on the developmental scale.*
- 3. Some measures of intellectual ability result in a composite or global score rather than individual verbal and performance scores. When an IQ test is used which results in a single score, it is up to the evaluation professional to ensure that both verbal and performance skills have been measured and documented. If they have, the single score will suffice as a measure of both verbal and performance ability.*
- 4. An adaptive behavior scale must be administered and at least two of the areas of adaptive behavior listed above must be documented. The adaptive behavior scale includes interviewing a parent, teacher, and/or another individual who is familiar with the student's daily activities. Deficit scores should equate to a standard score below 70 when taking into consideration the standard error of measurement of the test given.*

VI. MULTIPLE DISABILITIES

§300.8 Child with a disability.

(c) Definitions of disability terms. The terms used in this definition of a child with a disability are defined as follows:

- (7) Multiple disabilities** means concomitant impairments (such as intellectual disability -blindness, intellectual disability -orthopedic impairment, etc.), the combination of which causes such severe educational needs that they cannot be accommodated in special education programs solely for one of the impairments. Multiple disabilities does not include deaf-blindness.

TAC §89.1040. Eligibility Criteria.

(c) Eligibility definitions.

(6) Multiple disabilities.

(A) A student with multiple disabilities is one who has been determined to meet the criteria for multiple disabilities as stated in 34 CFR, §300.8(c)(7). In meeting the criteria stated in 34 CFR, §300.8(c)(7), a student with multiple disabilities is one who has a combination of disabilities defined in this section and who meets all of the following conditions:

- (i) the student's disability is expected to continue indefinitely; and
- (ii) the disabilities severely impair performance in two or more of the following areas:
 - (I) psychomotor skills;
 - (II) self-care skills;
 - (III) communication;
 - (IV) social and emotional development; or
 - (V) cognition.

(B) Students who have more than one of the disabilities defined in this section but who do not meet the criteria in subparagraph (A) of this paragraph must not be classified or reported as having multiple disabilities.

Assessment Guidelines for Multiple Disabilities

A diagnosis of multiple disabilities occurs when a child has been determined to have a combination of disabilities (such as intellectual disability and blindness, intellectual disability and orthopedic impairment, etc.). The disabilities are expected to continue indefinitely and must severely impair two or more of the following areas:

- *Psychomotor skills;*
- *Self-care skills;*
- *Communication;*
- *Social and emotional development; or*
- *Cognition*

The term Multiple Disabilities does not include deaf-blindness.

VII. NONCATEGORICAL EARLY CHILDHOOD (NCEC) – Developmental Delays

§300.8 Child with a disability.

(b) **Children aged three through nine experiencing developmental delays.** Child with a disability for children aged three through nine (or any subset of that age range, including ages three through five), subject to the conditions described in §300.111(b), include a child--

- (1) **Who is experiencing developmental delays, as defined by the State and as measured by appropriate diagnostic instruments and procedures, in one or more of the following areas: physical development, cognitive development, communication development, social or emotional development, or adaptive development; and**
- (2) **Who, by reason thereof, needs special education and related services.**

TAC §89.1040. Eligibility Criteria.

(c) Eligibility definitions.

- (13) Noncategorical. A student between the ages of 3-5 who is evaluated as having an intellectual disability, an emotional disturbance, a specific learning disability, or autism may be described as noncategorical early childhood.

Assessment Guidelines for Noncategorical Early Childhood

A student with a non categorical early childhood disability (NCEC) must be between the ages of 3 and 5 years old. The use of NCEC is a local decision. The use of NCEC will be determined by the Bell County CoOp at the policy level prior to implementation in the evaluation and ARD/IEP committee process.

There must be a documented eligibility report that the student is evaluated as having one of the following:

- *autism,*
- *emotional disturbance,*
- *learning disability, or*
- *intellectual disability.*

In making a decision to identify a child as being eligible under the NCEC eligibility category, multidisciplinary teams and ARD/IEP committees could consider the following:

- *the age of the child and/or*
- *the child's functioning level and/or*
- *all available formal and informal evaluation data.*

VIII. ORTHOPEDIC IMPAIRMENT

§300.8 Child with a disability.

(c) Definitions of disability terms. The terms used in this definition of a child with a disability are defined as follows:

- (8) **Orthopedic impairment** means a severe orthopedic impairment that adversely affects a child's educational performance. The term includes impairments caused by a congenital anomaly, impairments caused by disease (e.g., poliomyelitis, bone tuberculosis, etc.), and impairments from other causes (e.g., cerebral palsy, amputations, and fractures or burns that cause contractures).

TAC §89.1040. Eligibility Criteria.

(c) Eligibility definitions.

- (7) Orthopedic impairment. A student with an orthopedic impairment is one who has been determined to meet the criteria for orthopedic impairment as stated in 34 CFR, §300.8(c)(8). The multidisciplinary team that collects or reviews evaluation data in connection with the determination of a student's eligibility based on an orthopedic impairment must include a licensed physician.

Assessment Guidelines for Orthopedic Impairment

A student with an orthopedic impairment must be diagnosed by a licensed medical doctor and the impairment must adversely affect a child's educational performance. This includes impairments caused by a congenital anomaly, impairments caused by disease, and impairments from other causes such as; cerebral palsy, amputations, and fractures or burns that cause contractures.

The multidisciplinary assessment team will work closely with the physician and the parent to complete the FIE and to obtain an eligibility document signed by the physician. A "Release of Confidential Information" form will be obtained from the parent and the eligibility form will be sent directly to the physician by the district. If the child does not have a licensed physician, the district assessment professional will follow the district procedures for obtaining contract services.

IX. OTHER HEALTH IMPAIRMENT

§300.8 Child with a disability.

(c) Definitions of disability terms. The terms used in this definition of a child with a disability are defined as follows:

- (9) Other health impairment** means having limited strength, vitality or alertness, including a heightened alertness to environmental stimuli, that results in limited alertness with respect to the educational environment, that--
- (i) Is due to chronic or acute health problems such as asthma, attention deficit disorder or attention deficit hyperactivity disorder, diabetes, epilepsy, a heart condition, hemophilia, lead poisoning, leukemia, nephritis, rheumatic fever, sickle cell anemia and Tourette syndrome; and**
 - (ii) Adversely affects a child's educational performance.**

TAC §89.1040. Eligibility Criteria.

(c) Eligibility definitions.

- (8) Other health impairment.** A student with other health impairment is one who has been determined to meet the criteria for other health impairment due to chronic or acute health problems such as asthma, attention deficit disorder or attention deficit hyperactivity disorder, diabetes, epilepsy, a heart condition, hemophilia, lead poisoning, leukemia, nephritis, rheumatic fever, sickle cell anemia, and Tourette's Disorder as stated in 34 CFR, §300.8(c)(9). The multidisciplinary team that collects or reviews evaluation data in connection with the determination of a student's eligibility based on other health impairment must include a licensed physician.

Assessment Guidelines for Other Health Impairment

The disability of other health impairment is defined as having limited strength, vitality or alertness, including a heightened alertness to environmental stimuli, that results in limited alertness due to chronic or acute health problems such as asthma, attention deficit disorder or attention deficit hyperactivity disorder, diabetes, epilepsy, a heart condition, hemophilia lead poisoning, leukemia, nephritis, rheumatic fever, sickle cell anemia or Tourette's Disorder.

The multidisciplinary assessment team must include a licensed medical doctor. The district assessment professional will work closely with the parent to obtain an eligibility document signed by the physician. A "Release of Confidential Information" form will be obtained from the parent and the eligibility form will be sent directly to the physician by the district. If the child does not have a licensed physician, the district assessment professional will follow the district procedures for obtaining contract services.

X. SPECIFIC LEARNING DISABILITY: Additional Procedures for Identifying Children With Specific Learning Disabilities

§300.8 Child with a disability.

(c) Definitions of disability terms. The terms used in this definition of a child with a disability are defined as follows:

(10) Specific learning disability.

- (i) General.** Specific learning disability means a disorder in one or more of the basic psychological processes involved in understanding or in using language, spoken or written, that may manifest itself in the imperfect ability to listen, think, speak, read, write, spell, or to do mathematical calculations, including conditions such as perceptual disabilities, brain injury, minimal brain dysfunction, dyslexia, and developmental aphasia.
- (ii) Disorders not included.** Specific learning disability does not include learning problems that are primarily the result of visual, hearing, or motor disabilities, of mental retardation, of emotional disturbance, or of environmental, cultural, or economic disadvantage.

§300.307 Specific learning disabilities.

(a) General. A State must adopt, consistent with §300.309 criteria for determining whether a child has a specific learning disability as defined in §300.8 (c)(10). In addition, the criteria adopted by the State-

- (1) Must not require the use of a severe discrepancy between intellectual ability and achievement for determining whether a child has a specific learning disability as defined in §300.8 (c)(10).**
- (2) Must permit the use of a process based on the child's response to evidence-based intervention; and**
- (3) May permit the use of other alternative research-based procedures for determining whether a child has a specific learning disability as defined in §300.8 (c)(10).**

Assessment Guidelines for Specific Learning Disability

A specific learning disability means a disorder in one or more of the basic psychological processes involved in understanding or using language, spoken or written, that may manifest itself in the inability to listen, think, speak, read, write, spell, or to do mathematical calculations. This includes conditions such as perceptual disabilities, brain injury, minimal brain dysfunction, dyslexia and developmental aphasia. The existence of a specific learning disability is determined by evidence of:

- Inadequate achievement for the child's age or the inability of the child to meet state-approved grade-level standards in one or more of the areas of: oral expression, listening comprehension, written expression, basic reading skill, reading fluency skills, reading comprehension, mathematics calculation or mathematics problem solving; and*
- The child does not make sufficient progress to meet age or state-approved grade-level standards in one or more of the above areas when using a process based on the child's response to scientific research-based intervention; or*
- The child exhibits a pattern of strengths and weaknesses in performance achievement, or both, relative to age, state approved grade level standards, or intellectual development that is determined by the group to be relevant to the identification of a specific learning disability, using appropriate assessments and multiple sources of data are used/considered of which neither supersedes the preponderance of data gathered; and*
- The evaluation team determines that the inadequate achievement is not primarily the result of a disability in hearing, vision, motor abilities, an intellectual disability, an emotional disturbance, cultural factors, limited English proficiency, or environmental or economic disadvantages.*
- The performance of the child is observed in the child's learning environment, including the general education classroom setting by an individual as identified in §89.1040(D).*
- The evaluation team that completes the assessment for a student suspected of having a specific learning disability must be made by the student's parents and a team of qualified professionals that must include a licensed specialist in school psychology (LSSP), an educational diagnostician, or other appropriately certified or licensed practitioner with experience and training in the area of the disability. A speech difficulty must be ruled out as the cause for the learning difficulties. The team must include a remedial reading teacher and the classroom teacher as defined in §89.1040(E)*

The evaluation team must include data that prior to the referral for an FIE the child was provided appropriate instruction in a regular education setting delivered by qualified personnel and that parents had been provided

documentation of repeated assessments of the child's achievement that occurred at reasonable intervals and reflected formal assessment of the student's educational progress.

View "RTI and Learning Disability Eligibility" <http://tea.texas.gov/WorkArea/linkit.aspx?LinkIdentifier=id&ItemID=25769817951&libID=25769818054>

- (b) **Consistency with State criteria.** A public agency must use the State criteria adopted pursuant to paragraph (a) of this section in determining whether a child has a specific learning disability. (Authority: 20 U.S.C. 1221e-3; 1401(30); 1414(b)(6))

§300.308 Additional group members.

The determination of whether a child suspected of having a specific learning disability is a child with a disability, as defined in §300.8, must be made by the child's parents and a team of qualified professionals, which must include--

- (a) (1) The child's regular teacher; or
(2) If the child does not have a regular teacher, a regular classroom teacher qualified to teach a child of his or her age; or
(3) For a child of less than school age, an individual qualified by the SEA to teach a child of his or her age; and
- (b) At least one person qualified to conduct individual diagnostic examinations of children, such as a school psychologist, speech-language pathologist, or remedial reading teacher. (Authority: 20 U.S.C. 1221e-3; 1401(30); 1414(b)(6))

§300.309 Determining the existence of a specific learning disability.

- (a) The group described in §300.306 may determine that a child has a specific learning disability, as defined in §300.8(c)(10), if-
- (1) The child does not achieve adequately for the child's age or to meet State-approved grade-level standards in one or more of the following areas, when provided with learning experiences and instruction appropriate for the child's age or State-approved grade-level standards:
- (i) Oral expression.
 - (ii) Listening comprehension.
 - (iii) Written expression.
 - (iv) Basic reading skill.
 - (v) Reading fluency skills.
 - (vi) Reading comprehension.
 - (vii) Mathematics calculation.
 - (viii) Mathematics problem solving.
- (2) (i) The child does not make sufficient progress to meet age or State-approved grade-level standards in one or more of the areas identified in paragraph (a)(1) of this section when using a process based on the child's response to scientific research-based intervention; or
(ii) The child exhibits a pattern of strengths and weaknesses in performance, achievement, or both, relative to age, that is determined by the group to be relevant to the identification of a specific learning disability, using appropriate assessments consistent with §§300.304 and 300.305; and
- (3) The group determines that its findings under paragraph (a)(1) and (2) of this section are not primarily the result of--
- (i) A visual, hearing, or motor disability;
 - (ii) Intellectual disability;
 - (iii) Emotional disturbance;
 - (iv) Cultural factors; or
 - (v) Environmental or economic disadvantage.
 - (vi) Limited English proficiency.
- (b) To ensure that underachievement in a child suspected of having a specific learning disability is not due to lack of appropriate instruction in reading or math, the group must consider, as part of the evaluation described in §§300.304 through 300.306--

- (1) Data that demonstrate that prior to, or as a part of the referral process, the child was provided appropriate instruction in regular education settings, delivered by qualified personnel; and
 - (2) Data-based documentation of repeated assessments of achievement at reasonable intervals, reflecting formal assessment of student progress during instruction, which was provided to the child's parents.
- (c) The public agency must promptly request parental consent to evaluate the child to determine if the child needs special education and related services, and must adhere to the timeframes described in 300.301 and 300.303, unless extended by mutual written agreement of the child's parents and a group of qualified professionals, as described in 300.306(1)(1)--
- (1) If, prior to a referral, a child has not made adequate progress after an appropriate period of time when provided instruction, as described in paragraphs (b)(1) and (b)(2) of this section; and
 - (2) Whenever a child is referred for an evaluation.

§300.310 Observation.

- (a) The public agency must ensure that the child is observed in the child's learning environment, including the regular classroom setting, to document the child's academic performance and behavior in the areas of difficulty.
- (b) The group described in §300.306(a)(1), in determining whether a child has a specific learning disability, must decide to—
- (1) Use information from an observation in routine classroom instruction and monitoring of the child's performance that was done before the child was referred for an evaluation; or
 - (2) Have at least one member of the group described in §300.306(a)(1) conduct an observation of the child's academic performance in the regular classroom after the child has been referred for an evaluation and parental consent, consistent with §300.300(a), is obtained.
- (c) In the case of a child of less than school age or out of school, a group member must observe the child in an environment appropriate for a child of that age. (Authority: 20 U.S.C. 1221e-3; 1401(30); 1414(b)(6))
The diagnostician/LSSP will attempt to schedule an observation of the child at the day care where the student attends. If this is not feasible, the district will use an age appropriate play room on a district campus.

Parental consent is not required for observations conducted as part of routine classroom instruction and monitoring of child before the child is referred for an evaluation. Parental consent is required for observations conducted after the student is suspected of having a disability and is referred for an evaluation. The district may choose to use either type of observation as available and appropriate.

§300.311 Specific documentation for the eligibility determination.

- (a) For a child suspected of having a specific learning disability, the documentation of the determination of eligibility, as required by §300.306(a)(2), must include a statement of--
- (1) Whether the child has a specific learning disability;
 - (2) The basis for making the determination, including an assurance that the determination has been made in accordance with §300.306(c)(1);
 - (3) The relevant behavior, if any, noted during the observation of the child and the relationship of that behavior to the child's academic functioning;
 - (4) The educationally relevant medical findings, if any;
 - (5) Whether --
 - (i) The child does not achieve adequately for the child's age or to meet State-approved grade-level standards consistent with §300.309(a)(1); and
 - (ii) (A) The child does not make sufficient progress to meet age or State-approved grade-level standards consistent with §300.309(a)(2)(i); or
 (B) The child exhibits a pattern of strengths and weaknesses in performance, achievement, or both, relative to age, State-approved grade-level standards or intellectual development consistent with §300.309(a)(2)(ii).
 - (6) The determination of the group concerning the effects of a visual, hearing, or motor disability; intellectual disability, emotional disturbance; cultural factors; environmental or economic disadvantage; or limited English proficiency on the child's achievement level; and
 - (7) If the child has participated in a process that assesses the child's response to evidence-based intervention--
 - (i) The instructional strategies used and the student-centered data collected;

- (ii) **The documentation that the child’s parents were notified about—**
 - (A) **The State’s policies regarding the amount and nature of student performance data that would be collected and the general education services that would be provided;**
 - (B) **Strategies for increasing the child’s rate of learning; and**
 - (C) **The parents’ right to request an evaluation.**
- (b) **Each group member must certify in writing whether the report reflects the member’s conclusion. If it does not reflect the member’s conclusion, the group member must submit a separate statement presenting the member’s conclusions. (Authority: 20 U.S.C. 1221e-3; 1401(30); 1414(b)(6))**

TAC §89.1040. Eligibility Criteria.

(c) Eligibility definitions.

(9) Learning disability.

- (A) Specific Learning Disability means a disorder in one or more of the basic psychological processes involved in understanding or in using language, spoken or written, that may manifest itself in the imperfect ability to listen, think, speak, read, write, spell, or do mathematical calculations, including conditions such perceptual disabilities, brain injury, minimal brain dysfunction, dyslexia, and developmental aphasia. Specific learning disability does not include learning problems that are primarily the result of visual, hearing, or motor disabilities; intellectual disability; emotional disturbance; or environmental, cultural, or economic disadvantage.
- (B) A student with a specific learning disability is one who:
 - (i) has been determined through a variety of assessment tools and strategies to meet the criteria for a specific learning disability as stated in 34 CFR, §300.8(c)(10), in accordance with the provisions in 34 CFR, §§300.307-300.311;
 - (ii) When provided with learning experiences and instruction appropriate for the student’s age or state-approved grade-level standards as indicated by performance on multiple measures such as in-class tests, grade average over time (e.g. six weeks or semester), norm-or criterion-referenced tests, and statewide assessments, does not achieve adequately for the student's age or meet state-approved grade-level standards in one or more of the following areas:
 - (I) oral expression;
 - (II) listening comprehension;
 - (III) written expression;
 - (IV) basic reading skill;
 - (V) reading fluency skills;
 - (VI) reading comprehension;
 - (VII) mathematics calculation; or
 - (VIII) mathematics problem solving;
 - (iii) meets one of the following criteria
 - (I) does not make sufficient progress to meet age or state-approved grade-level standards in one or more of the areas identified in clause (ii)(I)(VIII) of this subparagraph when using a process based on the student’s response to scientific research-based intervention; or
 - (II) exhibits a pattern of strengths and weaknesses in performance, achievement, or both relative to age, state approved grade-level standards, or intellectual development that is determined to be relevant to the identification of a specific learning disability, using appropriate assessment, consistent with 34 CFR §300.304 and §300.305; and
 - (iv) does not meet the findings under clauses (ii) and (iii) of this subparagraph primarily as the result of:
 - (I) a visual, hearing, or motor disability;
 - (II) an intellectual disability;
 - (III) emotional disturbance;
 - (IV) cultural factors;
 - (V) environmental or economic disadvantage; or
 - (VI) limited English proficiency.
- (C) Prior to and as part of the evaluation described in subparagraph (B) of this paragraph and 34 CFR §§300.307-300.311, and in order to ensure that underachievement by a student suspected of having a specific learning disability is not due to lack of appropriate instruction in reading or mathematics, the following must be considered:
 - (i) data that demonstrates the student was provided appropriate instruction in reading(as described in 20 United States Code (USC), §6368(3)), and/or mathematics within general education settings

- delivered by qualified personnel; and
- (ii) data-based documentation of repeated assessments of achievement at reasonable intervals, reflecting formal evaluation of student progress during instruction which must be provided to the student's parents. Data-based documentation of repeated assessments may include, but is not limited to, response to intervention progress monitoring results, in-class tests on grade-level curriculum, or other regularly administered assessments. Intervals are considered reasonable if consistent with the assessment requirements of a student's specific instructional program.
- (D) The school district must ensure that the student is observed in the student's learning environment, including the regular classroom setting, to document the student's academic performance and behavior in the areas of difficulty. In determining whether a student has a specific learning disability, the admission, review, and dismissal (ARD) committee must decide to either use information from an observation in routine classroom instruction and monitoring of the student's performance that was conducted before the student was referred for an evaluation or have at least one of the members described in subsection (b) of this section conduct an observation of the student's academic performance in the regular classroom after the student has been referred for an evaluation and the school district has obtained parental consent consistent with 34 CFR §300.300(a). In the case of a student of less than school age or out of school, a member described in subsection (b) of this section must observe the student in an environment appropriate for a student of that age.
- (E) The determination of whether a student suspected of having a specific learning disability is a student with a disability as defined in 34 CFR §300.8 must be made by the student's parents and a team of qualified professionals, which must include at least one person qualified to conduct individual diagnostic examinations of children such as a licensed specialist in school psychology, an educational diagnostician, a speech-language pathologist, or a remedial reading teacher and one of the following;
- (i) the student's regular teacher;
 - (ii) if the student does not have a regular teacher, a regular classroom teacher qualified to teach a student of his or her age; or
 - (iii) for a student of less than school age, an individual qualified by the Texas Education Agency to teach a student of his or her age.

Referrals: Initial referrals must have gone through a rigorous "Response to Intervention" process prior to the referral for special education evaluation and ALL documentation must support the RtI process implemented. The multi-disciplinary evaluation team will review and consider all information provided to determine if a child meets the disability criteria for eligibility as a student with a learning disability. Campus administration and diagnostician/LSSP must work collaboratively to ensure that documentation of the MTSS/RTI process is clear and that the necessary documentation of implementation is understood by all parties involved and unnecessary delays of evaluation for eligibility for special education are avoided.

XI. SPEECH OR LANGUAGE IMPAIRMENT

§300.8 Child with a disability.

(c) Definitions of disability terms. The terms used in this definition of a child with a disability are defined as follows:

- (11) Speech or language impairment means a communication disorder, such as stuttering, impaired articulation, a language impairment, or a voice impairment, that adversely affects a child's educational performance.

§300.34 Related services.

(15) Speech-language pathology services includes--

- (i) Identification of children with speech or language impairments;
- (ii) Diagnosis and appraisal of specific speech or language impairments;
- (iii) Referral for medical or other professional attention necessary for the habilitation of speech or language impairments;
- (iv) Provision of speech and language services for the habilitation or prevention of communicative impairments; and
- (v) Counseling and guidance of parents, children, and teachers regarding speech and language impairments.

TAC §89.1040. Eligibility Criteria.

(c) Eligibility definitions.

- (10) Speech impairment. A student with a speech impairment is one who has been determined to meet the criteria for speech or language impairment as stated in 34 CFR, §300.8(c)(11). The multidisciplinary team that collects or reviews evaluation data in connection with the determination of a student's eligibility based on a speech impairment must include a certified speech and hearing therapist, a certified speech and language therapist, or a licensed speech/language pathologist.

Assessment Guidelines for Speech Impairment

A speech or language impairment is a communication disorder such as stuttering, impaired articulation, a language impairment, or a voice impairment, that adversely affects a child's educational performance.

“Whether a speech and language impairment adversely affects a child's educational performance must be determined on a case-by-case basis, depending on the unique needs of a particular child and not based only on discrepancies in age or grade performance in academic subject areas.” OSEP Letter to Clark (3-8-2007)

XII. TRAUMATIC BRAIN INJURY

§300.8 Child with a disability.

(c) Definitions of disability terms. The terms used in this definition of a child with a disability are defined as follows:

(12) **Traumatic brain injury** means an acquired injury to the brain caused by an external physical force, resulting in total or partial functional disability or psychosocial impairment, or both, that adversely affects a child's educational performance. Traumatic brain injury applies to open or closed head injuries resulting in impairments in one or more areas, such as cognition; language; memory; attention; reasoning; abstract thinking; judgment; problem-solving; sensory, perceptual, and motor abilities; psychosocial behavior; physical functions; information processing; and speech. Traumatic brain injury does not apply to brain injuries that are congenital or degenerative, or to brain injuries induced by birth trauma.

TAC §89.1040. Eligibility Criteria.

(c) Eligibility definitions.

(11) Traumatic brain injury. A student with a traumatic brain injury is one who has been determined to meet the criteria for traumatic brain injury as stated in 34 CFR, §300.8(c)(12). The multidisciplinary team that collects or reviews evaluation data in connection with the determination of a student's eligibility based on a traumatic brain injury must include a licensed physician, in addition to the licensed or certified practitioners specified in subsection (b)(1) of this section.

Assessment Guidelines for Traumatic Brain Injury (TBI)

A student with a TBI is one who has acquired an injury to the brain caused by an external physical force, resulting in total or partial functional disability or psychosocial impairment or both, that adversely affects a child's educational performance. A TBI can be an open or closed head injury which results in impairments in one or more areas such as cognition; language; memory; attention; reasoning; abstract thinking; judgment; problem-solving; sensory, perceptual, and motor abilities; psychosocial behavior; physical functions, information processing, and speech. A student cannot be diagnosed with a TBI when the brain injuries are congenital or degenerative, or the brain injury was induced by birth trauma.

The district multi-disciplinary team will include professionals licensed to evaluate the areas of concern that are identified in the referral information and must include a licensed medical doctor. If emotional/behavioral concerns are noted, the district should include an LSSP, a licensed clinical psychologist, behavior specialist and or a Licensed Professional Counselor. The district assessment professional will work closely with the parent to obtain an eligibility document signed by a licensed medical doctor. A "Release of Confidential Information" form will be obtained from the parent and the eligibility form will be sent directly to the physician by the district. If the child does not have a licensed physician, the district assessment professional will follow the district procedures for obtaining contract services

TAC §89.1040. Eligibility Criteria.

(c) Eligibility definitions.

(12) Visual impairment.

- (A) A student with a visual impairment is one who has been determined to meet the criteria for visual impairment as stated in 34 CFR, §300.8(c)(13). The visual loss should be stated in exact measures of visual field and corrected visual acuity at a distance and at close range in each eye in a report by a licensed ophthalmologist or optometrist. The report should also include prognosis whenever possible. If exact measures cannot be obtained, the eye specialist must so state and provide best estimates. In meeting the criteria stated in 34 CFR, §300.8(c)(13), a student with a visual impairment is one who:
- (i) has been determined by a licensed ophthalmologist or optometrist:
 - (I) to have no vision or to have a serious visual loss after correction; or
 - (II) to have a progressive medical condition that will result in no vision or a serious visual loss after correction; and
 - (ii) has been determined by the following evaluations to have a need for special services:
 - (I) a functional vision evaluation by a certified teacher of students with visual impairments or a certified orientation and mobility instructor. The evaluation must include the performance of tasks in a variety of environments requiring the use of both near and distance vision and recommendations concerning the need for a clinical low vision evaluation and an orientation and mobility evaluation; and
 - (II) a learning media assessment by a certified teacher of students with visual impairments. The learning media assessment must include recommendations concerning which specific visual, tactual, and/or auditory learning media are appropriate for the student and whether or not there is a need for ongoing evaluation in this area.
- (B) A student with a visual impairment is functionally blind if, based on the preceding evaluations, the student will use tactual media (which includes Braille) as a primary tool for learning to be able to communicate in both reading and writing at the same level of proficiency as other students of comparable ability.
- (C) Beginning with the 2014-2015 school year, a full individual and initial evaluation of a student suspected of having a visual impairment must include an orientation and mobility evaluation conducted by a person who is appropriately certified as an orientation and mobility specialist and must be conducted in a variety of lighting conditions and in a variety of settings, including in the student's home, school, and community and in settings unfamiliar to the student.
- (D) Beginning with the 2014-2015 school year, a person who is appropriately certified as an orientation and mobility specialist must participate, as part of a multidisciplinary team, in evaluating data used in making the determination of the student's eligibility as a student with a visual impairment.
- (E) Beginning with the 2014-2015 school year, the scope of any reevaluation of a student who has been determined, after the full individual and initial evaluation, to be eligible for the district's special education program on the basis of a visual impairment must be determined, in accordance with 34 CFR, §§300.122 and 300.303-300.311, by a multidisciplinary team that includes an appropriately certified orientation and mobility specialist.

§300.112 Individualized education programs (IEP).

The State must ensure that an IEP, or an IFSP that meets the requirements of section 636(d) of the Act, is developed, reviewed, and revised for each child with a disability in accordance with §§300.320 through 300.324, except as provided in §300.300(b)(3)(ii). (Authority: 20 U.S.C. 1412(a)(4))

The school district will establish an admission, review, and dismissal (ARD) committee for each student who is to be considered for eligibility or already eligible for special education under current state and federal regulations. The ARD committee in Texas is the IEP team that is defined in federal regulations (CFR §300.321).

An IEP will be developed for each child with a disability in the district who meets the state and federal guidelines for special education eligibility. The IEP (or IFSP for students birth through two years of age with a visual and/or who is deaf or hard of hearing) will be in effect at the beginning of each school year and reviewed no less than on an annual basis. Each IEP will contain all the components required in state and federal regulations.

(§§300.320 Definition of IEP, .321 IEP Team, .322 Parent Participation, .323 when IEPs must be in effect, .324 Development of IEP) (300.300(b) Parent Consent).

TAC §89.1050. The Admission, Review, and Dismissal (ARD) Committee.

(b) For a student from birth through two years of age with a visual impairment or who is deaf or hard of hearing, an individualized family services plan (IFSP) meeting must be held in place of an ARD committee meeting in accordance with 34 CFR, §§300.320-300.324, and the memorandum of understanding between the Texas Education Agency and the Department of Assistive and Rehabilitative Services. For students three years of age and older, school districts must develop an IEP.

§300.323 When IEPs must be in effect.

- (a) **General.** At the beginning of each school year, the public agency must have in effect, for each child with a disability within its jurisdiction, an IEP, as defined in §300.320.
- (b) IEP or IFSP for children aged three through five; (c) Timeline below; (d) Teacher Accessibility and Input; (e) Transfer Instate; (f) Transfer Out of state; (g) Records *(all found in this section 4)*

II. TIMELINE

§300.323 When IEPs must be in effect.

(c) Initial IEPs; provision of services. The public agency must ensure that--

- (1) A meeting to develop an IEP for a child is conducted within 30-days of a determination that the child needs special education and related services; and**
- (2) As soon as possible following development of the IEP, special education and related services are made available to the child in accordance with the child's IEP.**

TAC §89.1011. Full Individual and Initial Evaluation

- (b) If a parent submits a written request to a school district's director of special education services or to a district administrative employee for a full individual and initial evaluation of a student, the school district must, not later than the 15th school day after the date the district receives the request:
 - (1) provide the parent with prior written notice of its proposal to conduct an evaluation consistent with 34 Code of Federal Regulations (CFR), §300.503; a copy of the procedural safeguards notice required by 34 CFR, §300.504; and an opportunity to give written consent for the evaluation; or
 - (2) provide the parent with prior written notice of its refusal to conduct an evaluation consistent with 34 CFR, §300.503, and a copy of the procedural safeguards notice required by 34 CFR, §300.504.
- (c) Except as otherwise provided in this section, a written report of a full individual and initial evaluation of a student must be completed as follows:
 - (1) not later than the 45th school day following the date on which the school district receives written consent for the evaluation from the student's parent, except that if a student has been absent from school during that period on three or more school days, that period must be extended by a number of school days equal to the number of school days during that period on which the student has been absent; or
 - (2) for students under five years of age by September 1 of the school year and not enrolled in public school and for students enrolled in a private or home school setting, not later than the 45th school day following the date on which the school district receives written consent for the evaluation from the student's parent.
- (d) The admission, review, and dismissal (ARD) committee must make its decisions regarding a student's initial eligibility determination and, if appropriate, individualized education program (IEP) and placement within 30 calendar days from the date of the completion of the written full individual and initial evaluation report. If the 30th day falls during the summer and school is not in session, the student's ARD committee has until the first day of classes in the fall to finalize decisions concerning the student's initial eligibility determination, IEP, and placement, unless the full individual and initial evaluation indicates that the student will need extended school year services during that summer.
- (e) Notwithstanding the timelines in subsections (c) and (d) of this section, if the school district received the written consent for the evaluation from the student's parent at least 35 but less than 45 school days before the last instructional day of the school year, the written report of a full individual and initial evaluation of a student must be provided to the student's parent not later than June 30 of that year. The student's ARD committee must meet not later than the 15th school day of the following school year to consider the evaluation. If, however, the student was absent from school three or more days between the time that the school district received written consent and the last instructional day of the school year, the timeline in subsection (c)(1) of this section applies to the date the written report of the full individual and initial evaluation is required.
- (f) If a student was in the process of being evaluated for special education eligibility by a school district and enrolls in another school district before the previous school district completed the full individual and initial evaluation, the new school district must coordinate with the previous school district as necessary and as expeditiously as possible to ensure a prompt completion of the evaluation in accordance with 34 CFR, §300.301(d)(2) and (e) and §300.304(c)(5). The timelines in subsections (c) and (e) of this section do not apply in such a situation if:
 - (1) the new school district is making sufficient progress to ensure a prompt completion of the evaluation; and
 - (2) the parent and the new school district agree to a specific time when the evaluation will be completed.
- (g) For purposes of subsections (b), (c), and (e) of this section, school day does not include a day that falls after the last instructional day of the spring school term and before the first instructional day of the subsequent fall school term.

(h) For purposes of subsections (c)(1) and (e) of this section, a student is considered absent for the school day if the student is not in attendance at the school's official attendance taking time or at the alternate attendance taking time set for that student. A student is considered in attendance if the student is off campus participating in an activity that is approved by the school board and is under the direction of a professional staff member of the school district, or an adjunct staff member who has a minimum of a bachelor's degree and is eligible for participation in the Teacher Retirement System of Texas.

Upon completion of a full individual evaluation (FIE) the district will hold an ARD/IEP meeting to consider the student's eligibility for special education services and to develop an IEP. This must be done within 30 calendar days of the completion of the evaluation. It is the responsibility of the educational diagnostician/LSSP to schedule the ARD/IEP meeting within the required timelines.

Following the required timelines, the ARD/IEP Committee will meet to review the FIE and determine if the child is a child with a disability and if there is an educational need in order for the student to be eligible for special education services. Documentation of the discussion regarding eligibility for services will be completed using district forms and filed by the educational diagnostician/LSSP in the student's special education eligibility folder.

III. WRITTEN REPORT OF ARD / IEP MEETING

§300.22 Individualized Education Program.

Individualized education program or IEP means a written statement for a child with a disability that is developed, reviewed, and revised in accordance with §§300.320 through 300.324. (Authority: 20 U.S.C. 1401(14))

TAC §89.1050 The Admission, Review and Dismissal Committee

- (i) If the student's parent is unable to speak English and the parent's native language is Spanish, the school district must provide a written copy or audio recording of the student's IEP translated into Spanish. If the student's parent is unable to speak English and the parent's native language is a language other than Spanish, the school district must make a good faith effort to provide a written copy or audio recording of the student's IEP translated into the parent's native language.
- (1) For purposes of this subsection, a written copy of the student's IEP translated into Spanish or the parent's native language means that all of the text in the student's IEP in English is accurately translated into the target language in written form. The IEP translated into the target language must be a comparable rendition of the IEP in English and not a partial translation or summary of the IEP in English.
 - (2) For purposes of this subsection, an audio recording of the student's IEP translated into Spanish or the parent's native language means that all of the content in the student's IEP in English is orally translated into the target language and recorded with an audio device. A school district is not prohibited from providing the parent with an audio recording of an ARD committee meeting at which the parent was assisted by an interpreter as long as the audio recording provided to the parent contains an oral translation into the target language of all of the content in the student's IEP in English.
 - (3) If a parent's native language is not a written language, the school district must take steps to ensure that the student's IEP is translated orally or by other means to the parent in his or her native language or other mode of communication.
 - (4) Under 34 CFR, §300.322(f), a school district must give a parent a written copy of the student's IEP at no cost to the parent. A school district meets this requirement by providing a parent with a written copy of the student's IEP in English or by providing a parent with a written translation of the student's IEP in the parent's native language in accordance with paragraph (1) of this subsection.

The staff will provide a copy of the Prior Written Notice document to the parent at the end of the meeting if the parent is in attendance. If the parent is not in attendance, a copy will be sent home to the parents within 3 school days of the meeting. The written report of the ARD/IEP meeting should be submitted to the Bell County CoOp office no later than 10 school days of the ARD meeting. A final copy will be sent home to a parent via DocuHub if the parent signed the consent for electronic transfer otherwise it will be mailed. A draft copy may be provided upon parent request prior to the final version being mailed/emailed home.

TAC §89.1055 Content of the Individualized Education Program.

- (j) The written statement of the IEP must document the decisions of the ARD committee with respect to issues discussed at each ARD committee meeting. The written statement must also include:
- (1) the date of the meeting;
 - (2) the name, position, and signature of each member participating in the meeting; and
 - (3) an indication of whether the child's parents, the adult student, if applicable, and the administrator agreed or disagreed with the decisions of the ARD committee.

Special education, related services and supplementary aids and services based on peer reviewed research to the extent practicable means to the extent that research is possible and available. An IEP is not required to include specific instructional methodologies unless the IEP committee agrees it is necessary for the child to receive FAPE. The final decision must be made by the child's IEP team based on the individual needs of the child. If the IEP committee determines a qualified student with a disability requires related aids and services to participate in a regular education class or program (including accelerated classes) then the student must receive those related aids and services. Additional information on scientifically based research and response to intervention resources may be found on the Region 10 ESC Special Education website.

(5) An explanation of the extent, if any, to which the child will not participate with nondisabled children in the regular class and in the activities described in paragraph (a)(4) of this section;

(6) (i) A statement of any individual appropriate accommodations that are necessary to measure the academic achievement and functional performance of the child on State and districtwide

- assessments consistent with section 612(a)(16) of the Act; and
- (ii) If the IEP Team determines that the child must take an alternate assessment instead of a particular regular State or districtwide assessment of student achievement, a statement of why--
- (A) The child cannot participate in the regular assessment; and
- (B) The particular alternate assessment selected is appropriate for the child; and
- (7) The projected date for the beginning of the services and modifications described in paragraph (a)(4) of this section, and the anticipated frequency, location, and duration of those services and modifications.

Documentation for provision of services described in the IEP will be through a variety of information and sources based on the most appropriate means for the individual service and environment. Special education instructional and related services will be documented by progress on the IEP, student attendance and lesson plans. In addition, portfolios may be maintained as well as provider logs. Provider logs will be maintained by each service provider and reviewed at the IEP meeting as appropriate. Any service interruption resulting from special education staff absence will be reported to the appropriate administration following local district procedures.

The Federal Register dated August 14, 2006, provides guidance in this area within its discussion of the comments regarding the proposed 2006 IDEA regulations. A comment to the regulations asked for clarification regarding the term duration. The response in the Federal Register was:

The meaning of the term "duration" will vary, depending on such things as the needs of the child, the service being provided, the particular format used in an IEP, and how the child's day and IEP are structured.

What is required is that the IEP include information about the amount of services that will be provided to the child, so that the level of the agency's commitment of resources will be clear to parents and other IEP Team members. The amount of time to be committed to each of the various services to be provided must be appropriate to the specific service, and clearly stated in the IEP in a manner that can be understood by all involved in the development and implementation of the IEP. (Federal Register, Vol 71 No 156 p. 46667)

Requirements for Documenting the Provision of Services

- *Frequency – **how often** the child will receive the service(s) (number of times per day or week). If the service is less than daily then the conditions for the provision of the services must be clearly specified within the ARD documents using a weekly reference (ex: 1 hour per week, 30 minutes every two weeks)*
- *Duration - **how long** each "session" will last (number of minutes) and **when** services will begin and end (starting and ending dates) How long will each session be (15 minutes, 30 minutes)? If a term (1 class period) is used in the IEP to define duration of service, the term must be defined in the IEP (example: 1 class period = 50 minutes).*
- *Location - **where** services will be provided (in the general education classroom or another setting such as a special education resource room).*

(b) **Transition** *see [Transition in this Section 4](#).*

(c) **Transfer of rights at age of majority.** *See [VI. Parent Rights below](#).*

(d) **Construction.** **Nothing in this section shall be construed to require--**

- (1) **That additional information be included in a child's IEP beyond what is explicitly required in section 614 of the Act; or**
- (2) **The IEP Team to include information under one component of a child's IEP that is already contained under another component of the child's IEP. (Authority: 20 U.S.C. 1414(d)(1)(A) and (d)(6))**

§300.324 Development, review, and revision of IEP.

(a) Development of IEP.

(1) **General.** **In developing each child's IEP, the IEP Team must consider--**

- (i) **The strengths of the child;**
- (ii) **The concerns of the parents for enhancing the education of their child;**
- (iii) **The results of the initial or most recent evaluation of the child; and**
- (iv) **The academic, developmental, and functional needs of the child.**

(2) **Consideration of special factors.** **The IEP Team must...**

- (i) **In the case of a child whose behavior impedes the child's learning or that of others, consider the use of positive behavioral interventions and supports, and other strategies, to address that behavior.**

The IEP committee is required to 'consider the use of positive behavioral interventions and supports, and other strategies to address that behavior' if the child's behavior impedes his or her learning or that of others. The final decision on interventions, strategies and supports is left to the IEP committee. Additional resources include the Texas Behavior Support Initiative (TBSI) and the TEA statewide project Texas Collaborative for Emotional Development in Schools (TxCEDS). See also Section 6. Discipline.

- (ii) In the case of a child with limited English proficiency, consider the language needs of the child as those needs relate to the child's IEP;** <https://www.txel.org/lpac/>

Also find more information regarding English Language Learners in Section 1. and LEP in Section 4b.

English Language Learners served by special education have needs related to a disability as well as needs related to language. The ARD committee and the LPAC will collaborate to make appropriate assessment decisions for these students in accordance with the procedures outlined in the ARD manual and the LPAC framework (found on ESC 20 link provided). The LPAC framework serves as a guide in making decisions about the inclusion of LEP students in the Texas Student Assessment Program and helps districts meet the educational needs of English learners.

- (iii) In the case of a child who is blind or visually impaired, provide for instruction in Braille and the use of Braille unless the IEP Team determines, after an evaluation of the child's reading and writing skills, needs, and appropriate reading and writing media (including an evaluation of the child's future needs for instruction in Braille or the use of Braille), that instruction in Braille or the use of Braille is not appropriate for the child;**
- (iv) Consider whether the child needs assistive technology devices and services.**
- (v) Consider the communication needs of the child, and in the case of a child who is deaf or hard of hearing, consider the child's language and communication needs, opportunities for direct communications with peers and professional personnel in the child's language and communication mode, academic level, and full range of needs, including opportunities for direct instruction in the child's language and communication mode;**

(b) Review and revision of IEP. *located in this Section 4 of the document.*

TAC §89.1055. Content of the Individualized Education Program (IEP).

- (a) The individualized education program (IEP) developed by the admission, review, and dismissal (ARD) committee for each student with a disability must comply with the requirements of 34 Code of Federal Regulations (CFR), §300.320 and §300.324.
- (b) The IEP must include a statement of any individual appropriate and allowable accommodations in the administration of assessment instruments developed in accordance with Texas Education Code (TEC), §39.023(a)-(c), or districtwide assessments of student achievement (if the district administers such optional assessments) that are necessary to measure the academic achievement and functional performance of the student on the assessments. If the ARD committee determines that the student will not participate in a general statewide or districtwide assessment of student achievement (or part of an assessment), the IEP must include a statement explaining:
- (1) why the student cannot participate in the general assessment; and
 - (2) why the particular alternate assessment selected is appropriate for the student.
- (c) If the ARD committee determines that the student is in need of extended school year (ESY) services, as described in §89.1065 of this title (relating to Extended School Year Services), then the IEP must identify which of the goals and objectives in the IEP will be addressed during ESY services.
- (d) For students with visual impairments, from birth through 21 years of age, the IEP or individualized family services plan (IFSP) must also meet the requirements of TEC, §30.002(e).
- (e) For students eligible under §89.1040(c)(1) of this title (relating to Eligibility Criteria), the strategies described in this subsection must be considered, based on peer-reviewed, research-based educational programming practices to the extent practicable and, when needed, addressed in the IEP:
- (1) extended educational programming (for example: extended day and/or extended school year services that consider the duration of programs/settings based on assessment of behavior, social skills, communication, academics, and self-help skills);
 - (2) daily schedules reflecting minimal unstructured time and active engagement in learning activities (for example: lunch, snack, and recess periods that provide flexibility within routines; adapt to

- individual skill levels; and assist with schedule changes, such as changes involving substitute teachers and pep rallies);
- (3) in-home and community-based training or viable alternatives that assist the student with acquisition of social/behavioral skills (for example: strategies that facilitate maintenance and generalization of such skills from home to school, school to home, home to community, and school to community);
 - (4) positive behavior support strategies based on relevant information, for example:
 - (A) antecedent manipulation, replacement behaviors, reinforcement strategies, and data-based decisions; and
 - (B) a behavioral intervention plan developed from a functional behavioral assessment that uses current data related to target behaviors and addresses behavioral programming across home, school, and community-based settings;
 - (5) beginning at any age, consistent with subsection (h) of this section, futures planning for integrated living, work, community, and educational environments that considers skills necessary to function in current and post-secondary environments;
 - (6) parent/family training and support, provided by qualified personnel with experience in Autism Spectrum Disorders (ASD), that, for example:
 - (A) provides a family with skills necessary for a student to succeed in the home/community setting;
 - (B) includes information regarding resources (for example: parent support groups, workshops, videos, conferences, and materials designed to increase parent knowledge of specific teaching/management techniques related to the student's curriculum); and
 - (C) facilitates parental carryover of in-home training (for example: strategies for behavior management and developing structured home environments and/or communication training so that parents are active participants in promoting the continuity of interventions across all settings);
 - (7) suitable staff-to-student ratio appropriate to identified activities and as needed to achieve social/behavioral progress based on the student's developmental and learning level (acquisition, fluency, maintenance, generalization) that encourages work towards individual independence as determined by, for example:
 - (A) adaptive behavior evaluation results;
 - (B) behavioral accommodation needs across settings; and
 - (C) transitions within the school day;
 - (8) communication interventions, including language forms and functions that enhance effective communication across settings (for example: augmentative, incidental, and naturalistic teaching);
 - (9) social skills supports and strategies based on social skills assessment/curriculum and provided across settings (for example: trained peer facilitators (e.g., circle of friends), video modeling, social stories, and role playing);
 - (10) professional educator/staff support (for example: training provided to personnel who work with the student to assure the correct implementation of techniques and strategies described in the IEP); and
 - (11) teaching strategies based on peer reviewed, research-based practices for students with ASD (for example: those associated with discrete-trial training, visual supports, applied behavior analysis, structured learning, augmentative communication, or social skills training).
- (f) If the ARD committee determines that services are not needed in one or more of the areas specified in subsection (e) of this section, the IEP must include a statement to that effect and the basis upon which the determination was made.
- (g) If the ARD committee determines that a behavior improvement plan or a behavioral intervention plan is appropriate for a student, that plan must be included as part of the student's IEP and provided to each teacher with responsibility for educating the student.
- (h) In accordance with TEC, §29.011 and §29.0111, not later than when a student reaches 14 years of age, the ARD committee must consider, and if appropriate, address:
- (1) appropriate student involvement in the student's transition to life outside the public school system;

- (2) if the student is younger than 18 years of age, appropriate parental involvement in the student's transition;
 - (3) if the student is at least 18 years of age, appropriate parental involvement in the student's transition, if the parent is invited to participate by the student or the school district in which the student is enrolled;
 - (4) any postsecondary education options;
 - (5) a functional vocational evaluation;
 - (6) employment goals and objectives;
 - (7) if the student is at least 18 years of age, the availability of age-appropriate instructional environments;
 - (8) independent living goals and objectives; and
 - (9) appropriate circumstances for referring a student or the student's parents to a governmental agency for services.
- (i) In accordance with 34 CFR, §300.320(b), beginning not later than the first IEP to be in effect when the student turns 16 years of age, or younger if determined appropriate by the ARD committee, and updated annually thereafter, the IEP must include the following:
- (1) appropriate measurable postsecondary goals based upon age-appropriate transition assessments related to training, education, employment, and, where appropriate, independent living skills; and
 - (2) the transition services, including courses of study, needed to assist the student in reaching the postsecondary goals developed under paragraph (1) of this subsection.

TEC §29.0052. Individualized Education Program Supplement

(a) Except as provided by Subsection (b), for each child who was enrolled in a school district's special education program under this subchapter during the 2019—2020 school year or the 2020-2021 school year, the district shall prepare a supplement to be included with the written statement of the individualized education program developed for the child under Section 29.005(b). The supplement must include information indicating;

- (1) if applicable, whether the written report of the child's full individual and initial evaluation under Section 29.004 was completed during the 2019-2020 school year or the 2020-2021 school year and if so, whether the report was completed by the date required under that section;
- (2) if applicable, whether the child's initial individualized education program was developed under Section 29.005(b) during the 2019-2020 school year or the 2020-2021 school year and if so, whether the program was developed by the date required under 34 C.F.R. Section 300.323(c)(1);
- (3) whether the provision of special services to the child under an individualized education program during the the 2019-2020 school year or the 2020-2021 school year was interrupted, reduced, delayed, suspended, or discontinued; and

(4) whether compensatory educational services are appropriate for the child based on the information under Subdivisions (1)-(3) or any other factors.

(b) Subsection (a) does not apply to a child if during the 2020-2021 school year the written statement of the child's individualized education program documents the information described under Subsections (a)(1)-(4).

(c) Section 29.005(f) and Section 29.0051 do not apply to a supplement prepared for inclusion with a written statement of an individualized education program as required by this section.

(d) The commissioner may adopt rules as necessary to implement this section.

(e) This section expires September 1, 2023

The district will prepare a supplement to the IEP report documenting any delays during the 2019-2020 or 2020-2021 school year to a student's full and individual initial evaluation, delays in the development of the student's initial IEP program, and whether any provision of special services to the student were interrupted, reduced, delayed, suspended, or discontinued. The supplement will also include any compensatory education services that are appropriate for the child based on these delays. This has been completed each year and documented in the annual IEP in the deliberations and through the Contingency Plan and its updates. The SB 89 form from TEA was used and included for the 2021/2022 school year.

TAC §89.1075. General Program Requirements and Local District Procedures – Commensurate Day.

(e) Students with disabilities must have available an instructional day commensurate with that of students without disabilities. The ARD committee must determine the appropriate instructional setting and length of day for each

student, and these must be specified in the student's IEP.

<https://tea.texas.gov/WorkArea/linkit.aspx?LinkIdentifier=id&ItemID=51539626957>

When conducting ARD Committee meetings, assessment personnel responsible for student's ARD will ensure that personnel are not mentioned by name as the sole supporter of services for future needs in any portion of the ARD forms, including IEPs and deliberations.

TAC §89.1801 Instructional Requirements for Education Services Provided in a Juvenile Residential Facility.

(g) Length and number of school days required.

- (1) The school district in a pre-adjudication secure detention facility or a post-adjudication secure correctional facility shall, at a minimum, provide a seven-hour school day that consists of at least five and one-half hours of required secondary curriculum to students in the facility. For each school year, each school district must operate so that the facility provides for at least 180 days of instruction for students.
- (2) The school district in a pre-adjudication secure detention facility or a post-adjudication secure correctional facility shall ensure that students with disabilities are provided instructional days commensurate with those provided to students without disabilities in accordance with requirements contained in §89.1075.

VI. PARENT RIGHTS / PARTICIPATION *(also in Section 7)*

TEC §29.005.

- (d) If the child's parent is unable to speak English, the district shall:
- (1) provide the parent with a written or audiotaped copy of the child's individualized education program translated into Spanish if Spanish is the parent's native language; or
 - (2) if the parent's native language is a language other than Spanish, make a good faith effort to provide the parent with a written or audiotaped copy of the child's individualized education program translated into the parent's native language.

TAC §89.1050. The Admission, Review and Dismissal Committee.

- (d) The school district must take steps to ensure that one or both parents are present at each ARD committee meeting or are afforded the opportunity to participate, including notifying the parents of the meeting early enough to ensure that they will have an opportunity to attend and scheduling the meeting at a mutually agreed upon time and place. Additionally, a school district must allow parents who cannot attend an ARD committee meeting to participate in the meeting through other methods such as through telephone calls or video conferencing. The school district must provide the parents with written notice of the ARD committee meeting that meets the requirements in 34 CFR, §300.322, at least five school days before the meeting unless the parents agree to a shorter timeframe.
- (e) Upon receipt of a written request for an ARD committee meeting from a parent, the school district must:
- (1) schedule and convene a meeting in accordance with the procedures in subsection (d) of this section; or
 - (2) within five school days, provide the parent with written notice explaining why the district refuses to convene a meeting.
- (f) If the parent is unable to speak English, the school district must provide the parent with a written notice required under subsection (d) or (e)(2) of this section in the parent's native language, unless it is clearly not feasible to do so. If the parent's native language is not a written language, the school district must take steps to ensure that the notice is translated orally or by other means to the parent in his or her native language or other mode of communication so that the parent understands the content of the notice.
- (g) All members of the ARD committee must have the opportunity to participate in a collaborative manner in developing the IEP. A decision of the ARD committee concerning required elements of the IEP must be made by mutual agreement if possible. The ARD committee may agree to an annual IEP or an IEP of shorter duration.
- (1) When mutual agreement about all required elements of the IEP is not achieved, the parent who disagrees must be offered a single opportunity to recess and reconvene the ARD committee meeting. The period of time for reconvening the ARD committee meeting must not exceed ten school days, unless the parties mutually agree otherwise. The ARD committee must schedule the reconvened meeting at a mutually agreed upon time and place. The opportunity to recess and reconvene is not required when the student's presence on the campus presents a danger of physical harm to the student or others or when the student has committed an expellable offense or an offense that may lead to a placement in a disciplinary alternative education program. The requirements of this subsection do not prohibit the ARD committee from recessing an ARD committee meeting for reasons other than the failure to reach mutual agreement about all required elements of an IEP.
 - (2) During the recess, the ARD committee members must consider alternatives, gather additional data, prepare further documentation, and/or obtain additional resource persons who may assist in enabling the ARD committee to reach mutual agreement.
 - (3) If a recess is implemented as provided in paragraph (1) of this subsection and the ARD committee still cannot reach mutual agreement, the school district must implement the IEP that it has determined to be appropriate for the student. *For more information on Mutual Agreement, see IX.*
 - (4) Each member of the ARD committee who disagrees with the IEP developed by the ARD committee is entitled to include a statement of disagreement in the IEP.
- (h) Whenever a school district proposes or refuses to initiate or change the identification, evaluation, or educational placement of a student or the provision of a free appropriate public education to the student, the school district must provide prior written notice as required in 34 CFR, §300.503, including providing the notice in the parent's native language or other mode of communication. This notice must be provided to the parent at least five school days before the school district proposes or refuses the action unless the parent agrees to a shorter timeframe.

Parents are required members of the ARD/IEP committee meeting and as such, every effort should be made to encourage and ensure their participation.

3 Prior Notice Attempts To Ensure Parent Participation in the IEP Committee Meeting.

The Bell County CoOp will make advance attempts to notify parents of ARD/IEP committee meetings and arrange a mutually agreeable time and location.

- 1. The first Prior Written Notice of the ARD/IEP meeting form is provided in writing at least 7 school days prior to the scheduled ARD/IEP date, (earlier if possible). This early notice will allow more time to contact the parent and then proceed at the first scheduled date and time. The Notice form includes options to agree to the proposed date, change the date, hold the meeting on the phone, online meeting in Google Meets, or suggest the district proceed without the parent in attendance. A copy of the completed Notice form sent to the parent is maintained in the student eligibility file as documentation.*
- 2. The second attempt to notify the parents of the ARD will also be in writing (if there is no response from the parent after the first notice). The Bell County CoOp will copy the first notice form and send it as the second Notice of ARD/IEP meeting.*
- 3. The third Notice contact will be attempted to get parental participation if there is no response from the first two attempts. After 3 attempts and no response, the Bell County CoOp may go forward with the ARD meeting as scheduled.*

All dates of scheduling attempts and the initials of personnel attempting contact must be documented on the district Notice form and filed in the student eligibility folder by the campus educational diagnostician/LSSP. Staff will also contact the parent by phone and email in addition to the written forms so as to get parent participation.

A. Participation

§300.322 Parent Participation.

- (a) Bell County CoOp responsibility — general.** The public agency must take steps to ensure that one or both of the parents of a child with a disability are present at each IEP Team meeting or are afforded the opportunity to participate, including--

 - (ii) Identifies any other agency that will be invited to send a representative.**
- (c) Other methods to ensure parent participation.** If neither parent can attend an IEP Team meeting, the public agency must use other methods to ensure parent participation, including individual or conference telephone calls, consistent with §300.328 (related to alternative means of meeting participation).

Campus staff will offer to allow the parent to attend in multiple ways such as by phone or online through Google Meets to accommodate work needs. The campus staff will make every effort to accommodate the parents schedule, however, there is no requirement that an IEP meeting must be held outside of regular business hours for the school. OSEP Letter to Thomas (6-3-2008)

- (d) **Conducting an IEP meeting without a parent in attendance.** A meeting may be conducted without a parent in attendance if the public agency is unable to convince the parents that they should attend. In this case, the public agency must keep a record of its attempts to arrange a mutually agreed on time and place such as:
- (1) Detailed records of telephone calls made or attempted and the results of those calls;
 - (2) Copies of correspondence sent to the parents and any responses received; and
 - (3) Detailed records of visits made to the parent's home or place of employment and the results of those visits.
- (e) **Use of interpreters or other action, as appropriate.** The public agency must take whatever action is necessary to ensure that the parent understands the proceedings of the IEP Team meeting, including arranging for an interpreter for parents with deafness or whose native language is other than English.
- (f) **Parent copy of child's IEP.** The public agency must give the parent a copy of the child's IEP at no cost to the parent. (Authority: 20 U.S.C. 1414(d)(1)(B)(i))

§300.501 Parent Participation in Meetings.

(b) Parent participation in meetings.

- (1) The parents of a child with a disability must be afforded an opportunity to participate in meetings with respect to--
 - (i) The identification, evaluation, and educational placement of the child; and
 - (ii) The provision of FAPE to the child.
- (2) The public agency must provide notice consistent with §300.322(a)(1) and (b)(1) to ensure that parents of children with disabilities have the opportunity to participate in meetings described in paragraph (b)(1) of this section.
- (3) A meeting does not include informal or unscheduled conversations involving public agency personnel and conversations on issues such as teaching methodology, lesson plans, or coordination of service provision. A meeting also does not include preparatory activities that public agency personnel engage in to develop a proposal or response to a parent proposal that will be discussed at a later meeting.

(c) Parent involvement in placement decisions.

- (1) The public agency must ensure that a parent of each child with a disability is a member of any group that makes decisions on the educational placement of the parent's child.
- (2) In implementing the requirements of paragraph (c)(1) of this section, the public agency must use procedures consistent with the procedures described in §300.322(a) through (b)(1). *(found on previous page)*
- (3) If neither parent can participate in a meeting in which a decision is to be made relating to the educational placement of their child, the public agency must use other methods to ensure their participation, including individual or conference telephone calls, or video conferencing.
- (4) A placement decision may be made by a group without the involvement of a parent, if the public agency is unable to obtain the parent's participation in the decision. In this case, the public agency must have a record of its attempt to ensure their involvement. (Authority: 20 U.S.C. 1414(e), 1415(b)(1))

Virtual Learning Delays

- *What procedures are in place for ARD committee members to meet virtually if needed? The Bell County CoOp will ensure that links to virtual meetings are provided to parents and staff in advance. If the parent is unable to participate virtually, Assessment staff will call the parent to ensure the opportunity to participate. Each ARD Committee Meeting will contain a Contingency Plan for the event of School Closure and implementation of virtual instruction.*
- *Describe procedures followed for documenting services provided during virtual learning days. Services during virtual learning days will be maintained on the parent contact page in the electronic documentation system and Progress will be monitored to make sure that students are getting the services needed to be successful.*
- *What alternatives are available if students are not able to access technology and the curriculum at home during virtual learning days? In the event that students are not able to access technology and the curriculum at home during virtual learning days, they may receive instruction face to face or at an alternative location. The Bell County CoOp staff have made it available to parents for hybrid plans, plans where staff go to the house, etc in order to make sure that students are getting what they need. The districts have also provided devices and internet if needed.*

- *Describe how related services will be provided remotely? If necessary, how will the LEA make-up any missed related services? Related services will be provided directly through virtual instruction provided parents give consent or by consult with the parent. Related service providers have also done home visits to provide services.*
- *Describe training for staff about the provision of special education and related services during virtual learning days, such as the provision of instructional phone calls, videoconferencing, homework packets, online lessons, and other available distance-based learning approaches. Staff will receive regular instruction in the methods used to provide virtual instruction.*
- *Describe procedures followed for documenting communication with parent(s) during extended periods of virtual learning days. All parent contact is documented through the parent contact log in the electronic documentation system.*

§300.327 Educational placements.

Consistent with §300.501(c), the public agency must ensure that the parents of each child with a disability are members of any group that makes decisions on the educational placement of their child.

§300.328 Alternative means of meeting participation.

When conducting IEP Team meetings and placement meetings pursuant to this subpart, and Subpart E of this part, and carrying out administrative matters under section 615 of the Act (such as scheduling, exchange of witness lists, and status conferences), the parent of a child with a disability and the public agency may agree to use alternative means of meeting participation, such as video conferences and conference calls.

B. Transfer of Rights at Age of Majority

§300.320 Definition of individualized education program

(c) **Transfer of rights at age of majority.** Beginning not later than one year before the child reaches the age of majority under State law, the IEP must include a statement that the child has been informed of the child's rights under Part B of the Act, if any, that will transfer to the child on reaching the age of majority under §300.520.

§300.520 Transfer of parental rights at age of majority.

- (a) **General.** A State may provide that, when a child with a disability reaches the age of majority under State law that applies to all children (except for a child with a disability who has been determined to be incompetent under State law)--
- (1) (i) The public agency must provide any notice required by this part to both the individual and the parents; and
(ii) All other rights accorded to parents under Part B of the Act transfer to the child;

 - (c-1) In accordance with 34 C.F.R. Section 300.520, the school district shall provide written notice to the student and the student's parents of the transfer of rights under this section. The notice must include the information and resources provided under Subsection (c)(1)(B).
 - (c-2) If a student with a disability or the student's parent requests information regarding guardianship or alternatives to guardianship from the school district at which the student is enrolled, the school district shall provide to the student or parent information and resources on supported decision-making agreements under Chapter 1357, Estates Code.
 - (c-3) The commissioner shall develop and post on the agency's Internet website a model form for use by school districts in notifying students and parents as required by Subsections (c) and (c-1). TAC §89.1049. Parental Rights Regarding Adult Students.

- (a) In accordance with 34 Code of Federal Regulations (CFR), §300.320(c) and §300.520, and Texas Education Code (TEC), §29.017, beginning at least one year before a student reaches 18 years of age, the student's individualized education program (IEP) must include a statement that the student has been informed that, unless the student's parent or other individual has been granted guardianship of the student under the Probate Code, Chapter XIII, Guardianship, all rights granted to the parent under the Individuals with Disabilities Education Act (IDEA), Part B, other than the right to receive any notice required under IDEA, Part B, will transfer to the student upon reaching age 18. Beginning with the 2018-2019 school year, the IEP must also state that the student has been provided information and resources regarding guardianship, alternatives to guardianship, including a supported decision-making agreement under Texas Estates Code, Chapter 1357, and other supports and services that may enable the student to live independently. After the student reaches the age of 18, except as provided by subsection (b) of this section, the Bell County CoOp shall provide any notice required under IDEA, Part B, to both the adult student and the parent.
- (b) In accordance with 34 CFR, §300.520(a)(2), and TEC, §29.017(a), all rights accorded to a parent under IDEA, Part B, including the right to receive any notice required by IDEA, Part B, will transfer to an 18-year-old student who is incarcerated in an adult or juvenile, state or local correctional institution, unless the student's parent or other individual has been granted guardianship of the student under Texas Estates Code, Title 3.
- (c) In accordance with 34 CFR, §300.520(a)(3), a school district must notify in writing the adult student and parent of the transfer of parental rights, as described in subsections (a) and (b) of this section, at the time the student reaches the age of 18. This notification is separate and distinct from the requirement that the student's IEP include a statement relating to the transfer of parental rights beginning at least one year before the student reaches the age of 18. This notification is not required to contain the elements of notice referenced in 34 CFR, §300.503, but must include a statement that parental rights have transferred to the adult student. Beginning with the 2018-2019 school year, the notice must also include information and resources regarding guardianship, alternatives to guardianship, including a supported decision-making agreement under Texas Estates Code, Chapter 1357, and other supports and services that may enable the student to live independently, and must provide contact information for the parties to use in obtaining additional information.
- (d) A notice under IDEA, Part B, which is required to be given to an adult student and parent does not create a right for the parent to consent to or participate in the proposal or refusal to which the notice relates. For

example, a notice of an admission, review, and dismissal (ARD) committee meeting does not constitute invitation to, or create a right for, the parent to attend the meeting. However, in accordance with 34 CFR, §300.321(a)(6), the adult student or the school district may invite individuals who have knowledge or special expertise regarding the student, including the parent.

- (e) Nothing in this section prohibits a supported decision-making agreement or a valid power of attorney from being executed by an individual who holds rights under IDEA, Part B.

A district that chooses to use individualized education program facilitation shall provide information to parents regarding individualized education program facilitation. The information:
- (1) must be included with other information provided to the parent of a student with a disability, although it may be provided as a separate document; and
 - (2) may be provided in a written or electronic format.
- (b) Information provided by the agency under this section must indicate that individualized education program facilitation is an alternative dispute resolution method that some districts may choose to provide.
- (c) If a school district chooses to offer individualized education program facilitation as an alternative dispute resolution method:
- (1) the district may determine whether to use independent contractors, district employees, or other qualified individuals as facilitators;

 - (3) the facilitation must be provided at no cost to a parent.
- (d) The use of any alternative dispute resolution method, including individualized education program facilitation, must be voluntary on the part of the participants, and the use or availability of any such method may not in any manner be used to deny or delay the right to pursue a special education complaint, mediation, or due process hearing in accordance with federal law.

SECTION 2. This Act applies beginning with the 2014-2015 school year.

TAC §89.1196. Individualized Education Program Facilitation.

- (a) For the purpose of this section and Texas Education Code, §29.019, individualized education program (IEP) facilitation refers to a method of alternative dispute resolution that involves the use of a trained facilitator to assist an admission, review, and dismissal (ARD) committee in developing an IEP for a student with a disability. The facilitator uses facilitation techniques to help the committee members communicate and collaborate effectively. While public education agencies are not required to offer IEP facilitation as an alternative dispute resolution method, the Texas Education Agency (TEA) encourages the use of IEP facilitation as described in this section.
- (b) A public education agency is not prohibited from incorporating elements of IEP facilitation into ARD committee meetings that are conducted without the assistance of a facilitator as described in this section. For example, a public education agency may provide training on communication skills, conflict management, or meeting effectiveness to individuals who participate in ARD committee meetings to enhance collaboration and efficiency in those meetings.
- (c) A public education agency that chooses to offer IEP facilitation under this section may determine whether to use independent contractors, employees, or other qualified individuals as facilitators. At a minimum, an individual who serves as a facilitator must:
- (1) have demonstrated knowledge of federal and state requirements relating to the provision of special education and related services to students with disabilities;
 - (2) have demonstrated knowledge of and experience with the ARD committee meeting process;
 - (3) have completed 18 hours of training in IEP facilitation, consensus building, and/or conflict resolution; and
 - (4) complete continuing education as determined by the public education agency.
- (d) A public education agency that chooses to offer IEP facilitation under this section must ensure that:
- (1) participation is voluntary on the part of the parties;
 - (2) the facilitation is provided at no cost to parents; and
 - (3) the process is not used to deny or delay the right to pursue a special education complaint, mediation, or a due process hearing in accordance with Part B of the Individuals with Disabilities Education Act (IDEA) and this division.
- (e) A public education agency that chooses to offer IEP facilitation under this section must develop written policies and procedures that include:
- (1) the procedures for requesting facilitation;
 - (2) facilitator qualifications, including whether facilitators are independent contractors, employees, or other qualified individuals;
 - (3) the process for assigning a facilitator;
 - (4) the continuing education requirements for facilitators; and
 - (5) a method for evaluating the effectiveness of the facilitation services and the individual facilitators.
- (f) A public education agency that chooses to offer IEP facilitation under this section must provide parents with information about the process, including a description of the procedures for requesting IEP facilitation and information related to facilitator qualifications. This information must be included when a copy of the procedural safeguards notice under 34 Code of Federal Regulations (CFR), §300.504 is provided to parents, although this information may be provided as a separate document and may be provided in a written or electronic format.
- (g) A facilitator under this section must not be a member of the student's ARD committee, must not have any decision-making authority over the committee, and must remain impartial to the topics under discussion. The facilitator must assist with the overall organization and conduct of the ARD committee meeting by:
- (1) assisting the committee in establishing an agenda and setting the time allotted for the meeting;
 - (2) assisting the committee in establishing a set of guidelines for the meeting;
 - (3) guiding the discussion and keeping the focus on developing a mutually agreed upon IEP for the student;
 - (4) ensuring that each committee member has an opportunity to speak and be heard;
 - (5) helping to resolve disagreements that arise; and
 - (6) helping to keep the ARD committee on task and within the time allotted for the meeting.
- (h) Promptly after being assigned to facilitate an ARD committee meeting, or within a timeline established under the public education agency's procedures, the facilitator must contact the parents and public education agency representative to clarify the issues, gather necessary information, and explain the IEP facilitation process.

- (i) A public education agency that chooses to offer IEP facilitation under this section must ensure that facilitators protect the confidentiality of personally identifiable information about the student and comply with the requirements in the Family Educational Rights and Privacy Act regulations, 34 CFR, Part 99, relating to the disclosure and redisclosure of personally identifiable information from a student's education record.
- (j) The TEA will develop information regarding IEP facilitation as an alternative dispute resolution method, and such information will be available upon request from the TEA and on the TEA website.

TAC §89.1050 The Admission, Review, and Dismissal (ARD) Committee.

- (g) All members of the ARD committee must have the opportunity to participate in a collaborative manner in developing the IEP. A decision of the ARD committee concerning required elements of the IEP must be made by mutual agreement if possible. The ARD committee may agree to an annual IEP or an IEP of shorter duration.

- (1) When mutual agreement about all required elements of the IEP is not achieved, the parent who disagrees must be offered a single opportunity to recess and reconvene the ARD committee meeting. The period of time for reconvening the ARD committee meeting must not exceed ten school days, unless the parties mutually agree otherwise. The ARD committee must schedule the reconvened meeting at a mutually agreed upon time and place. The opportunity to recess and reconvene is not required when the student's presence on the campus presents a danger of physical harm to the student or others or when the student has committed an expellable offense or an offense that [which] may lead to a placement in a disciplinary alternative education program. The requirements of this subsection do not prohibit the ARD committee from recessing an ARD committee meeting for reasons other than the failure to reach mutual agreement about all required elements of an IEP.

If the parent brings an attorney to the ARD meeting without prior notice to the school district, the Administrator must recess the ARD and contact the Director of Special Education at the Bell County CoOp until such time as the school's attorney can also attend. It is critical that the district document the student services that will continue until the ARD is reconvened. During the recess involve the Special Education Director or Coordinator to consider alternative resolutions to propose to the parent other than involvement of attorneys.

- (2) During the recess, the ARD committee members must consider alternatives, gather additional data, prepare further documentation, and/or obtain additional resource persons who may assist in enabling the ARD committee to reach mutual agreement. *Determine if training staff in facilitation is needed in order to reach mutual agreement. The administrator working with the staff will analyze all possible options, pros/cons and prepare to present the data.*

- *It is important to help the group of people understand their common objectives are to benefit and assist the student.*
- *Beginning with assessment/evaluation at the beginning of the IEP, present IEP areas in small segments and determine agreement at each step. Listen and keep the focus on the student!*
- *In areas of disagreement, determine if agreement can be reached for a trial period of even a short segment of time such as 6 weeks or 2-3 months then return to a review IEP meeting.*
- *In decision making consider at all times the student needs.*

- (3) If a recess is implemented as provided in paragraph (1) of this subsection and the ARD committee still cannot reach mutual agreement, the school district must implement the IEP that it has determined to be appropriate for the student.

- (4) When mutual agreement is not reached, a written statement of the basis for the disagreement must be included in the IEP. The parent who disagrees must be offered the opportunity to write his or her own statement of disagreement.

If the parent disagrees with any part of the IEP, the parent must be offered the opportunity to write their disagreement in the IEP. If the parent refuses to write their disagreement, the school district personnel must write in the IEP specifics of the parental disagreement to the best of their understanding.

- (h) Whenever a school district proposes or refuses to initiate or change the identification, evaluation, or educational placement of a student or the provision of a free appropriate public education to the student, the school district must provide prior written notice as required in 34 CFR, §300.503, including providing the notice in the parent's native language or other mode of communication. This notice must be provided to the

parent at least five school days before the school district proposes or refuses the action unless the parent agrees to a shorter timeframe.

TAC §89.1050 The Admission, Review, and Dismissal (ARD) Committee.

(j) A school district must comply with the following for a student who is newly enrolled in the school district.

(1) When a student transfers to a new school district within the state in the same school year and the parents verify that the student was receiving special education services in the previous school district or the

previous school district verifies in writing or by telephone that the student was receiving special education services, the new school district must meet the requirements of 34 CFR, §300.323(e), regarding the provision of special education services. The timeline for completing the requirements outlined in 34 CFR, §300.323(e)(1) or (2), is 30 school days from the date the student is verified as being a student eligible for special education services.

- (2) When a student transfers from a school district in another state in the same school year and the parents verify that the student was receiving special education services in the previous school district or the previous school district verifies in writing or by telephone that the student was receiving special education services, the new school district must meet the requirements of 34 CFR, §300.323(f), regarding the provision of special education services. If the new school district determines that an evaluation is necessary, the evaluation is considered a full individual and initial evaluation and must be completed within the timelines established by §89.1011(c) and (e) of this title. The timeline for completing the requirements in 34 CFR, §300.323(f)(2), if appropriate, is 30 calendar days from the date of the completion of the evaluation report. If the school district determines that an evaluation is not necessary, the timeline for completing the requirements outlined in 34 CFR, §300.323(f)(2), is 30 school days from the date the student is verified as being a student eligible for special education services.
- (3) In accordance with TEC, §25.002, and 34 CFR, §300.323(g), the school district in which the student was previously enrolled must furnish the new school district with a copy of the student's records, including the student's special education records, not later than the 10th working day after the date a request for the information is received by the previous school district.
- (4) A student with a disability who has an IEP in place from a previous in-or out-of -state school district and who enrolls in a new school district during the summer is not considered a transfer student for the purposes of this subsection or for 34 CFR §300.323(e) or (f). For these students the new school district must implement the IEP from the previous school district in full on the first day of class of the new school year or must convene an ARD committee meeting during the summer to revise the student's IEP for implementation on the first day of class of the new school year.

For all of 34 CFR 99.31 FERPA see: <http://www2.ed.gov/policy/gen/reg/ferpa/index.html>

TEC §25.002 requires the previous LEA to transmit the student's current IEP through the Texas Records Exchange (TREx) system within 10 working days from receiving the request. The 30-day timeline referenced above in 19 TAC §89.1050(f)(4), applies to the rest of a student's eligibility record requested by a new LEA.

The Family Educational Rights and Privacy Act (FERPA), 20 U.S.C., §1232g, does not require the student's current and previous school districts to obtain parental consent before requesting or sending the student's special education records if the disclosure is conducted in accordance with 34 CFR, §99.31(a)(2) and §99.34.

Transfers/New to the District

When a student enrolls on a campus during the summer and a school employee (clerk, teacher, administrator, etc) is informed the student is receiving special education services in the previous district the Bell County CoOp will be notified as soon as possible. If the student enrolls during the summer from a district in or out of the state, the student will not be considered a transfer student. The staff will attempt to obtain all documentation of the IEP prior to the start of the school year and that IEP, if current will be implemented on the first day of school unless the district conducts an ARD committee meeting to revise the IEP. When a student enrolls on a campus during the school year and a school employee (clerk, teacher, administrator, etc) is informed the student is receiving special education services in the previous district

- The individual receiving the information will notify the special education staff on the campus and the Bell County CoOp.*
- The Bell County CoOp staff will verify the student received services by: a) phone call with previous district; b) IEP provided by parent; c) Review of current FIE.*

The special education staff will also:

- Attempt to obtain a Consent for Disclosure of Confidential Information.*

- *Mail or fax signed consent to the previous district as soon as possible. Parent consent when requesting records from another Texas school district is not required but should be attempted.*
- *Schedule a meeting the day of enrollment or day after the student's enrollment (if at all possible) with the parent and fill out a schedule based on parent knowledge of the services a student was getting in the previous district. Services will be provided which are as close as possible to the services in the previous district until such time as the district can gather more data / information.*
- *In determining comparable services consider the following: amount of special education service minutes, amount of time in general education, IEP goals and any other factors in the IEP which will support this decision.*
- *Contact the campus lead diagnostician as soon as possible for a consultation. If the student has ADHD, ED, or AU, consult with an LSSP to determine if the evaluation meets federal and state legal requirements.*
- *If changes need to be made to any paperwork obtained from the previous district or the evaluation date is or will be up soon, the diagnostician/LSSP will schedule a ARD meeting to discuss any changes.*

A temporary placement ARD committee will determine needed evaluation data and the evaluation will be completed within 30 school days from the temporary placement ARD date. The ARD Committee determines that the IEP objectives of the student can be met on the home campus and agrees on temporary placement for 30 school days. If an evaluation is pending in the previous district, coordination will occur to ensure timely completion.

If the Temporary ARD Committee determines that the IEP objectives of the student cannot be met on the home campus and the student will need placement on a different campus, the student will temporarily continue to receive services on the home campus. The campus special education staff will contact the Bell County CoOp. An ARD will be scheduled to include appropriate staff from the possible receiving campus to discuss appropriate placement options for the least restrictive environment.

The Director of Special Education is responsible for contacting the campus administrator annually to ensure appropriate office clerks have received training on all child find procedures including transfer students.

The same procedure will be followed should the student be transferring from another state. However, it may not be possible to obtain records from the previous school. In this case, use documentation provided by the family. All other procedures will be followed.

- (2) If the private school or facility initiates and conducts these meetings, the public agency must ensure that the parents and an agency representative--
 - (i) Are involved in any decision about the child's IEP; and
 - (ii) Agree to any proposed changes in the IEP before those changes are implemented.

- (c) **Responsibility.** Even if a private school or facility implements a child's IEP, responsibility for compliance with this part remains with the public agency and the SEA. (Authority: 20 U.S.C. 1412(a)(10)(B))

For all other Federal regulations regarding parentally placed private school children, please go to Section 5, Instructional Arrangements. You will find §§300.130 - 300.144.

***Placed by District:** The district special education department has followed all requirements to ensure the private facility is appropriate and the private school administration and appropriate staff are involved and participating in the ARD/IEP process. All Notices, Consents and district ARD/IEP forms for documentation of the process will be completed.*

B. Placed by the Parent

§300.37 Services plan. Services plan means a written statement that describes the special education and related services the public agency will provide to a parentally-placed child with a disability enrolled in a private school who has been designated to receive services, including the location of the services and any transportation necessary, consistent with §300.132, and is developed and implemented in accordance with §§300.137 through 300.139. (Authority: 20 U.S.C. 1412(a)(10)(A))

§89.1075. General Program Requirements and Local District Procedures.

- (g) School districts that contract for services from non-public day schools must do so in accordance with 34 Code of Federal Regulations, §300.147, and procedures developed by the TEA.

TAC §89.1096. Provision of Services for Students Placed by their Parents in Private Schools or Facilities.

- (a) Except as specifically provided in this section, in accordance with 34 Code of Federal Regulations (CFR), §300.137, no eligible student who has been placed by his or her parent(s) in a private school or facility has an individual right to receive some or all of the special education and related services that the student would receive if he or she were enrolled in a public school district. Except as specifically set forth in this section, a school district's obligations with respect to students placed by their parents in private schools are governed by 34 CFR, §§300.130-300.144.
 - (1) For purposes of subsections (a) and (d) of this section only, private school is defined as a private elementary or secondary school, including any pre-school, religious school, and institutional day or residential school, that:
 - (A) as required by 34 CFR, §300.13 and §300.130, is a nonprofit entity that meets the definition of nonprofit in 34 CFR, §77.1; and
 - (B) provides elementary or secondary education that incorporates an adopted curriculum designed to meet basic educational goals, including scope and sequence of courses, and formal review and documentation of student progress.
 - (2) A home school must meet the requirements of paragraph (1)(B) of this subsection, but not paragraph (1)(A) of this subsection, to be considered a private school for purposes of subsections (a) and (d) of this section.
- (b) When a student with a disability who has been placed by his or her parents directly in a private school or facility is referred to the local school district, the local district shall convene an admission, review, and dismissal (ARD) committee meeting to determine whether the district can offer the student a free appropriate public education (FAPE). If the district determines that it can offer a FAPE to the student, the district is not responsible for providing educational services to the student, except as provided in 34 CFR, §§300.130-300.144, or subsection (e) of this section, until such time as the parents choose to enroll the student in public school full time.
- (c) Parents of an eligible student ages 3 or 4 shall have the right to "dual enroll" their student in both the public school and the private school beginning on the student's third birthday and continuing until the end of the school year in which the student turns five or until the student is eligible to attend a district's public school kindergarten program, whichever comes first, subject to paragraphs (1)-(3) of this subsection. The public school district where a student resides is responsible for providing special education and related services to a student whose parents choose dual enrollment.
 - (1) The student's ARD committee shall develop an individualized education program (IEP) designed to provide the student with a FAPE in the least restrictive environment appropriate for the student.
 - (2) From the IEP, the parent and the district shall determine which special education and/or related services will be provided to the student and the location where those services will be provided, based on the requirements concerning placement in the least restrictive environment set forth in 34 CFR, §§300.114-300.120, and the policies and procedures of the district.
 - (3) For students served under the provisions of this subsection, the school district shall be responsible for the employment and supervision of the personnel providing the service, providing the needed instructional materials, and maintaining pupil accounting records. Materials and services provided shall be consistent with those provided for students enrolled only in the public school and shall remain the property of the school district.
- (d) Parents of an eligible student ages 3 or 4 who decline dual enrollment for their student may request a services plan as described in 34 CFR, §§300.130-300.144. The public school district where the private school is located is responsible for the development of a services plan, if the student is designated to receive services under 34 CFR, §300.132.
- (e) The school district shall provide special transportation with federal funds only when the ARD committee determines that the condition of the student warrants the service in order for the student to receive the special education and related services (if any) set forth in the IEP.
- (f) Complaints regarding the implementation of the components of the student's IEP that have been selected by the parent and the district under subsection (c) of this section may be filed with the Texas Education Agency under the procedures in 34 CFR, §§300.151-300.153. Additionally, parents may request mediation as outlined in 34 CFR, §300.506. The procedures in 34 CFR, §§300.300, 300.504, 300.507, 300.508, and 300.510-300.518 (relating to due process hearings) do not apply to complaints regarding the implementation of the components of the student's IEP that have been selected by the parent and the district under subsection (c).

Section 4b. ADDITIONAL IEP INFORMATION

I. SPECIFIC AREAS TO ADDRESS IN THE ARD / IEP MEETING

A. Adapted Physical Education (APE)

§300.108 Physical education.

The TEA must ensure that public agencies in the State comply with the following:

- (a) **General.** Physical education services, specially designed if necessary, must be made available to every child with a disability receiving FAPE, unless the Bell County CoOp enrolls children without disabilities and does not provide PE to children without disabilities in the same grades.
- (b) **Regular physical education.** Each child with a disability must be afforded the opportunity to participate in the regular physical education program available to nondisabled children unless--
 - (1) The child is enrolled full time in a separate facility; or
 - (2) The child needs specially designed physical education, as prescribed in the child's IEP.
- (c) **Special physical education.** If specially designed physical education is prescribed in a child's IEP, the public agency responsible for the education of that child must provide the services directly or make arrangements for those services to be provided through other public or private programs.
- (d) **Education in separate facilities.** The public agency responsible for the education of a child with a disability who is enrolled in a separate facility must ensure that the child receives appropriate physical education services in compliance with this section. (Authority: 20 U.S.C. 1412(a)(5)(A))

http://www.tahperd.org/web/Online/About_us/Adapted_Physical_Education.aspx

- 1. All students referred for adapted physical education evaluation must have an identified disability.*
 - A. The request for an adapted physical education first requires an evaluation be conducted. The evaluation request may have come from the MTSS Committee upon initial referral or by the student's ARD/IEP committee.*
 - B. APE is provided upon consideration of a current evaluation and written report.*
- 2. If APE is provided, the goals and objectives will be approved by the ARD/IEP Committee.*
- 3. Parents will receive progress reports toward the APE goals/objectives in the same timeframe as nondisabled students.*

B. Assistive Technology

§300.5 Assistive technology device. **Assistive technology device** means any item, piece of equipment, or product system, whether acquired commercially off the shelf, modified, or customized, that is used to increase, maintain, or improve the functional capabilities of a child with a disability. The term does not include a medical device that is surgically implanted, or the replacement of that device.
(Authority: 20 U.S.C. 1401(1))

§300.6 Assistive technology service. **Assistive technology service** means any service that directly assists a child with a disability in the selection, acquisition, or use of an assistive technology device. The term includes-

- (a) The evaluation of the needs of a child with a disability, including a functional evaluation of the child in the child's customary environment;
- (b) Purchasing, leasing, or otherwise providing for the acquisition of assistive technology devices by children with disabilities;
- (c) Selecting, designing, fitting, customizing, adapting, applying, maintaining, repairing, or replacing assistive technology devices;
- (d) Coordinating and using other therapies, interventions, or services with assistive technology devices, such as those associated with existing education and rehabilitation plans and programs;
- (e) Training or technical assistance for a child with a disability or, if appropriate, that child's family; and
- (f) Training or technical assistance for professionals (including individuals providing education or rehabilitation services), employers, or other individuals who provide services to, employ, or are

otherwise substantially involved in the major life functions of that child. (Authority: 20 U.S.C. 1401(2))

§300.105 Assistive technology; proper functioning of hearing aids.

- (a) Each public agency must ensure that assistive technology devices or assistive technology services, or both, as those terms are defined in §§300.5 and 300.6, respectively, are made available to a child with a disability if required as a part of the child's--
- (1) Special education under §300.39;
 - (2) Related services under §300.34; or
 - (3) Supplementary aids and services under §§300.42 and 300.114(a)(2)(ii).
- (b) On a case-by-case basis, the use of school-purchased assistive technology devices in a child's home or in other settings is required if the child's IEP Team determines that the child needs access to those devices in order to receive FAPE.

§300.324 Development, review, and revision of IEP

- (a) (2) **Consideration of special factors.** The IEP Team must--
- (v) Consider whether the child needs assistive technology devices and services.

Student use in a school setting of any assistive technology, including but not limited to 2 way listening/talking devices, GPS locators, etc., must be discussed at the IEP meeting. All variables to the use of such devices will be considered. Federal information privacy laws require consideration of other student's rights before any auditory device may be used in a school setting. Discussion of assistive technology needs of the student will be documented on district forms and filed by the educational diagnostician/LSSP in the student's special education eligibility folder.

<http://www.texasat.net/>

The decentralized function of TEA for assistive technology is assigned to Region 4 ESC. They provide statewide leadership through the Texas Assistive Technology Network (TATN). Online training modules are provided in a variety of areas including evaluation, reading, writing, etc.

C. Deaf or Hard of Hearing

§300.324 Development, review, and revision of IEP

- (a) (2) **Consideration of special factors.** The IEP Team must--
- (iv) Consider the communication needs of the child, and in the case of a child who is deaf or hard of hearing, consider the child's language and communication needs, opportunities for direct communications with peers and professional personnel in the child's language and communication mode, academic level, and full range of needs, including opportunities for direct instruction in the child's language and communication mode; and
 - (v) Consider whether the child needs assistive technology devices and services.

Opportunities for direct communications with peers and professional personnel in the child's language and communication mode will be specifically addressed in the ARD/IEP Committee meeting. For a student who is deaf or hard of hearing, the ARD will consider assistive technology needs. Discussion of needs of the student in this area will be documented on district forms and filed by the education diagnostician/LSSP in the student's special education eligibility folder.

TAC §89.1050 The Admission, Review, and Dismissal (ARD) Committee.

- (b) For a student from birth through two years of age with a visual impairment or who is deaf or hard of hearing, an individualized family services plan (IFSP) meeting must be held in place of an ARD committee meeting in accordance with 34 CFR, §§300.320-300.324, and the memorandum of understanding between the Texas Education Agency and the Department of Assistive and Rehabilitative Services. For students three years of age and older, school districts must develop an IEP.

TEC §29.301. Definitions. In this subchapter:

- (1) "Admission, review, and dismissal committee" means the committee required by State Board of Education rules to develop the individualized education program required by the Individuals with Disabilities Education

Act (20 U.S.C. Section 1400 et seq.) for any student needing special education.

- (2) "American Sign Language" means a complete, visual, and manual language with its own grammar and syntax.
- (3) "English" includes writing, reading, speech, speech reading, cued speech, and any English-based manual-visual method of communication.
- (4) "Unique communication mode" or "appropriate language mode" includes English and American Sign Language.

TEC § 29.302. Findings.

- (a) The legislature finds that it is essential for the well-being and growth of students who are deaf or hard of hearing that educational programs recognize the unique nature of deafness and the hard-of-hearing condition and ensure that all students who are deaf or hard of hearing have appropriate, ongoing, and fully accessible educational opportunities. Students who are deaf or hard of hearing may choose to use a variety of language modes and languages, including oral and manual-visual language. Students who are deaf may choose to communicate through the language of the deaf community, American Sign Language, or through any of a number of English-based manual-visual languages. Students who are hard of hearing may choose to use spoken and written English, including speech reading or lip reading, together with amplification instruments, such as hearing aids, cochlear implants, or assistive listening systems, to communicate with the hearing population. Students who are deaf or hard of hearing may choose to use a combination of oral or manual-visual language systems, including cued speech, manual signed systems, and American Sign Language, or may rely exclusively on the oral-aural language of their choice. Students who are deaf or hard of hearing also may use other technologies to enhance language learning.
- (b) The legislature recognizes that students who are deaf or hard of hearing should have the opportunity to develop proficiency in English, including oral or manual-visual methods of communication, and American Sign Language.

TEC §29.303. Unique Communication. Students who are deaf or hard of hearing must have an education in which their unique communication mode is respected, used, and developed to an appropriate level of proficiency. Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

TEC §29.305. Language Mode Peers.

If practicable and not in conflict with any admission, review, and dismissal committee recommendations, a student who is deaf or hard of hearing must have an education in the company of a sufficient number of peers using the same language mode and with whom the student can communicate directly. If practicable, the peers must be of the same or approximately the same age and ability. Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

TEC §29.306. Familial and Advocate Involvement. A student who is deaf or hard of hearing must have an education in which the student's parents or legal guardians and advocates for the student's parents or legal guardians are involved in determining the extent, content, and purpose of programs. Other individuals, including individuals who are deaf or hard of hearing, may be involved at the discretion of parents or legal guardians or the Bell County CoOp.

TEC §29.307. Role Models. A student who is deaf or hard of hearing shall be given the opportunity to be exposed to deaf or hard-of-hearing role models.

TEC §29.308. Regional Programs. Regional programs for students who are deaf or hard of hearing shall meet the unique communication needs of students who can benefit from those programs. Appropriate funding for those programs shall be consistent with federal and state law, and money appropriated to school districts for educational programs and services for students who are deaf or hard of hearing may not be allocated or used for any other program or service.

TEC §29.310. Procedures and Materials for Assessment and Placement

- (a) Procedures and materials for assessment and placement of students who are deaf or hard of hearing shall be selected and administered so as not to be racially, culturally, or sexually discriminatory.
- (b) A single assessment instrument may not be the sole criterion for determining the placement of a student.
- (c) The procedures and materials for the assessment and placement of a student who is deaf or hard of hearing shall be in the student's preferred mode of communication. All other procedures and materials used with any

student who is deaf or hard of hearing and who has limited English proficiency shall be in the student's preferred mode of communication.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

TEC §29.311. Educational Programs.

- (a) Educational programs for students who are deaf or hard of hearing must be coordinated with other public and private agencies, including:
- (1) agencies operating early childhood intervention programs;
 - (2) preschools;
 - (3) agencies operating child development programs;
 - (4) nonpublic, nonsectarian schools;
 - (5) agencies operating regional occupational centers and programs; and
 - (6) the Texas School for the Deaf.
- (b) As appropriate, the programs must also be coordinated with postsecondary and adult programs for persons who are deaf or hard of hearing.

TEC §29.312. Psychological Counseling Services. Appropriate psychological counseling services for a student who is deaf or hard of hearing shall be made available at the student's school site in the student's primary mode of communication. In the case of a student who is hard of hearing, appropriate auditory systems to enhance oral communication shall be used if required by the student's admission, review, and dismissal committee.

TEC §29.313. Evaluation of Programs. Each school district must provide continuous evaluation of the effectiveness of programs of the district for students who are deaf or hard of hearing. If practicable, evaluations shall follow program excellence indicators established by the TEA. Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

TEC §29.314. Transition into Regular Class.

In addition to satisfying requirements of the admission, review, and dismissal committee and to satisfying requirements under state and federal law for vocational training, the Bell County CoOp shall develop and implement a transition plan for the transition of a student who is deaf or hard of hearing into a regular class program if the student is to be transferred from a special class or center or nonpublic, nonsectarian school into a regular class in a public school for any part of the school day. The transition plan must provide for activities:

- (1) to integrate the student into the regular education program and specify the nature of each activity and the time spent on the activity each day; and
- (2) to support the transition of the student from the special education program into the regular education program.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

TEC §38.033. SCHOOL HEALTH AND RELATED SERVICES PROGRAM; ELIGIBILITY FOR AUDIOLOGY SERVICES.

- (c) The executive commissioner of the Health and Human Services Commission, in consultation with the agency, shall adopt rules necessary to implement this section.

SECTION 2. If before implementing any provision of this Act a state agency determines that a waiver or authorization from a federal agency is necessary for implementation of that provision, the agency affected by the provision shall request the waiver or authorization and may delay implementing that provision until the waiver or authorization is granted.

SECTION 4. The Texas Education Agency and the Health and Human Services Commission are required to implement Section 29.316, Education Code, as added by this Act, only if the legislature appropriates money specifically for that purpose. If the legislature does not appropriate money specifically for that purpose, the agency and commission may, but are not required to, implement Section 29.316, Education Code, as added by this Act, using other appropriations available for the purpose.

TAC §89.1055. Content of the Individualized Education Program (IEP).

(e) For students eligible under §89.1040(c)(1) of this title (relating to Eligibility Criteria), the strategies described in this subsection must be considered, based on peer-reviewed, research-based educational programming practices to the extent practicable and, when needed, addressed in the IEP:

- (1) extended educational programming (for example: extended day and/or extended school year services that consider the duration of programs/settings based on assessment of behavior, social skills, communication, academics, and self-help skills);
- (2) daily schedules reflecting minimal unstructured time and active engagement in learning activities (for example: lunch, snack, and recess periods that provide flexibility within routines; adapt to individual skill levels; and assist with schedule changes, such as changes involving substitute teachers and pep rallies);
- (3) in-home and community-based training or viable alternatives that assist the student with acquisition of social/behavioral skills (for example: strategies that facilitate maintenance and generalization of such skills from home to school, school to home, home to community, and school to community);
- (4) positive behavior support strategies based on relevant information, for example:
 - (A) antecedent manipulation, replacement behaviors, reinforcement strategies, and data-based decisions; and
 - (B) a behavioral intervention plan developed from a functional behavioral assessment that uses current data related to target behaviors and addresses behavioral programming across home, school, and community-based settings;
- (5) beginning at any age, consistent with subsection (h) of this section, futures planning for integrated living, work, community, and educational environments that considers skills necessary to function in current and post-secondary environments;
- (6) parent/family training and support, provided by qualified personnel with experience in Autism Spectrum Disorders (ASD), that, for example:
 - (A) provides a family with skills necessary for a student to succeed in the home/community setting;
 - (B) includes information regarding resources (for example: parent support groups, workshops, videos, conferences, and materials designed to increase parent knowledge of specific teaching/management techniques related to the student's curriculum); and
 - (C) facilitates parental carryover of in-home training (for example: strategies for behavior management and developing structured home environments and/or communication training so that parents are active participants in promoting the continuity of interventions across all settings);
- (7) suitable staff-to-student ratio appropriate to identified activities and as needed to achieve social/behavioral progress based on the student's developmental and learning level (acquisition, fluency, maintenance, generalization) that encourages work towards individual independence as determined by, for example:
 - (A) adaptive behavior evaluation results;
 - (B) behavioral accommodation needs across settings; and
 - (C) transitions within the school day;
- (8) communication interventions, including language forms and functions that enhance effective communication across settings (for example: augmentative, incidental, and naturalistic teaching);

- (9) social skills supports and strategies based on social skills assessment/curriculum and provided across settings (for example: trained peer facilitators (e.g., circle of friends), video modeling, social stories, and role playing);
 - (10) professional educator/staff support (for example: training provided to personnel who work with the student to assure the correct implementation of techniques and strategies described in the IEP); and
 - (11) teaching strategies based on peer reviewed, research-based practices for students with ASD (for example: those associated with discrete-trial training, visual supports, applied behavior analysis, structured learning, augmentative communication, or social skills training).
- (f) If the ARD committee determines that services are not needed in one or more of the areas specified in subsection (e) of this section, the IEP must include a statement to that effect and the basis upon which the determination was made.

For students with Autism, the district ARD/IEP committee must consider specialized strategies that are based on peer-reviewed, research-based education programming practices to the extent practicable. The consideration and/or need for specific strategies must be reviewed annually and documented in the ARD/IEP.

Methodologies

Education methodologies refers to systems of practices and procedures such as project based learning, cooperative learning or applied behavioral analysis. Educational programming methodologies are not the responsibility of the ARD Committee. Appropriate instructional strategies and accommodations recommended by the ARD committee will be documented in the ARD. The Bell County CoOp is responsible for ensuring that classroom teachers will have appropriate training in specific strategies and accommodations needed by students. Students with autism may benefit from applied behavioral analysis strategies which include a systematic approach to the assessment and evaluation of observable behavior, and the application of specific targeted interventions that alter behavior. Data collection and analysis of progress is a key component in all special education classes in Bell County CoOp.

TEC §25.087 Amended by HB 192, 2009, adds §25.087(b-3)

Summary : School districts are currently required to excuse certain temporary absences for appointments with health care professionals. New Subsection (b-3) specifies that such absences include the temporary absence of a student diagnosed with autism spectrum disorder for an appointment with a health care practitioner, as described by §1355.015(b), Insurance Code, to receive a generally recognized service for persons with autism spectrum disorder, including applied behavioral analysis, speech therapy, and occupational therapy. The text of §1355.015(b), Insurance Code, is available at:

<http://www.statutes.legis.state.tx.us/SOTWDocs/IN/word/IN.1355.doc>

Students with autism may be excused from attendance in order to participate in specific therapies in the community setting as arranged by their parents. The Bell County CoOp will request information from the parent in order to document the request for an excused absence. The following must be documented:

- *What service specifically the student is receiving;*
- *What are the credentials of the health care practitioner; and*
- *Verification of attendance with the health care practitioner.*

F. Extended School Year Services (ESY)

§300.106 Extended school year services.

(a) General.

- (1) **The Bell County CoOp must ensure that extended school year services are available as necessary to provide FAPE, consistent with paragraph (a)(2) of this section.**
 - (2) **Extended school year services must be provided only if a child's IEP team determines, on an individual basis, in accordance with §§300.320 through 300.324, that the services are necessary for the provision of FAPE to the child. (§§300.320 Definition of IEP, .321 IEP Team, .322 Parent Participation, .323 when IEPs must be in effect, .324 Development of IEP)**
 - (3) **In implementing the requirements of this section, a public agency may not--**
 - (i) **Limit extended school year services to particular categories of disability; or**
 - (ii) **Unilaterally limit the type, amount, or duration of those services.**
- (b) **Definition.** As used in this section, the term extended school year services means special education and related services that--
- (1) **Are provided to a child with a disability--**
 - (i) **Beyond the normal school year of the Bell County CoOp;**
 - (ii) **In accordance with the child's IEP; and**
 - (iii) **At no cost to the parents of the child; and**
 - (2) **Meet the standards of the SEA.**

TAC §89.1055. Content of the Individualized Education Program (IEP).

- (c) If the ARD committee determines that the student is in need of extended school year (ESY) services, as described in §89.1065 of this title (relating to Extended School Year Services), then the IEP must identify which of the goals and objectives in the IEP will be addressed during ESY services.

TAC §89.1065. Extended School Year Services (ESY Services).

Extended school year (ESY) services are defined as individualized instructional programs beyond the regular school year for eligible students with disabilities.

- (1) The need for ESY services must be determined on an individual student basis by the admission, review, and dismissal (ARD) committee in accordance with 34 Code of Federal Regulations (CFR), §300.106, and the provisions of this section. In determining the need for and in providing ESY services, the Bell County CoOp may not:
 - (A) limit ESY services to particular categories of disability; or
 - (B) unilaterally limit the type, amount, or duration of ESY services.
- (2) The need for ESY services must be documented from formal and/or informal evaluations provided by the district or the parents. The documentation must demonstrate that in one or more critical areas addressed in the current individualized education program (IEP) goals and objectives, the student has exhibited, or reasonably may be expected to exhibit, severe or substantial regression that cannot be recouped within a reasonable period of time. Severe or substantial regression means that the student has been, or will be, unable to maintain one or more acquired critical skills in the absence of ESY services.
- (3) The reasonable period of time for recoupment of acquired critical skills must be determined on the basis of needs identified in each student's IEP. If the loss of acquired critical skills would be particularly severe or substantial, or if such loss results, or reasonably may be expected to result, in immediate physical harm to the student or to others, ESY services may be justified without consideration of the period of time for recoupment of such skills. In any case, the period of time for recoupment must not exceed eight weeks.
- (4) A skill is critical when the loss of that skill results, or is reasonably expected to result, in any of the following occurrences during the first eight weeks of the next regular school year:
 - (A) placement in a more restrictive instructional arrangement;
 - (B) significant loss of acquired skills necessary for the student to appropriately progress in the general curriculum;
 - (C) significant loss of self-sufficiency in self-help skill areas as evidenced by an increase in the number of direct service staff and/or amount of time required to provide special education or related services;
 - (D) loss of access to community-based independent living skills instruction or an independent living environment provided by noneducational sources as a result of regression in skills; or
 - (E) loss of access to on-the-job training or productive employment as a result of regression in skills.
- (5) If the district does not propose ESY services for discussion at the annual review of a student's IEP, the parent may request that the ARD committee discuss ESY services pursuant to 34 CFR, §300.321.
- (6) If a student for whom ESY services were considered and rejected loses critical skills because of the decision not to provide ESY services, and if those skills are not regained after the reasonable period of time for recoupment, the ARD committee must reconsider the current IEP if the student's loss of critical skills interferes with the implementation of the student's IEP.

- (7) For students enrolling in a district during the school year, information obtained from the prior school district as well as information collected during the current year may be used to determine the need for ESY services.
- (8) The provision of ESY services is limited to the educational needs of the student and must not supplant or limit the responsibility of other public agencies to continue to provide care and treatment services pursuant to policy or practice, even when those services are similar to, or the same as, the services addressed in the student's IEP. No student will be denied ESY services because the student receives care and treatment services under the auspices of other agencies.
- (9) Districts are not eligible for reimbursement for ESY services provided to students for reasons other than those set forth in this section.

The following guidelines will be used to assist in identifying students who may need ESY services. ESY services are determined on an annual basis, are not synonymous with summer school and are not intended as a recreational service. ESY services may be provided during the summer, before or after school hours, or during school vacations depending upon the need of the individual student.

1. Decisions concerning the qualification for ESY services will be based upon a body of data collected throughout the school year. This data will include student work, anecdotal records, charting, etc. Procedures will include the following:

- a. Identification of students who have experienced regression on specific IEP objectives at the beginning of the year compared to IEP reviews conducted the last six weeks of the previous school year. This process is done for students who did receive ESY services and for students who did not receive ESY services.*
- b. At the IEP progress review at the close of the first six weeks, students identified at the beginning of the year as having experienced significant regression, should be evaluated to determine if they have recouped the skills lost during the summer. For those students not evidencing recoupment of skills at this review, another review should be conducted following an additional two weeks.*
- c. Throughout the school year, following holiday breaks, etc. additional data may identify students who are experiencing regression on IEP goals.*
- d. For some students regression might be considered substantial even though recoupment does occur within the six to eight weeks (includes the 2 weeks of additional reteach). This is particularly true in critical skill areas such as health, safety and vocational skills. This must be an educational decision by the ARD/IEP committee, based on knowledge of the individual student's needs and current IEP goals and objectives. Data reviewed may also include predictive data, based on the opinion of professionals in consultation with the child's parents as well as circumstantial considerations of the child's individual situation at home and in his or her neighborhood and community.*

2. The ARD/IEP committee will review the body of data in determining the need for ESY services for the coming summer break for any student:

- a. For whom the data indicates regression and recoupment issues*
- b. For any student referred by their parent for regression and recoupment issues.*

3. The ARD committee in reviewing the need for ESY services will determine the appropriate IEP goals and objectives from the current IEP and the required amount of instruction time needed to prevent regression and recoupment issues.

4. For students transferring into the district during the school year the following procedures can be used to determine the need for ESY services:

- a. Attempt to contact a teacher from the student's original school for supporting data related to regression*
- b. Begin immediate data collection using the FIE, current IEP goals and continue with data collection throughout the school year focusing particularly on school holidays and student performance following such holidays.*

5. For ECI students new to the district, the staff will use all existing data to analyze regression recoupment of the goals and objectives on the IEP or the IFSP.

Data to support ESY decisions will be collected by the special education staff supporting the student and presented to the ARD/IEP committee for consideration. All decisions regarding ESY will be documented on district forms and filed in the student's special education eligibility folder by the educational diagnostician/LSSP

TAC §89.1011(d). Full Individual and Initial Evaluation. The admission, review, and dismissal (ARD) committee must make its decisions regarding a student's initial eligibility determination and, if appropriate, individualized education program (IEP) and placement within 30 calendar days from the date of the completion of the written full individual and initial evaluation report. If the 30th day falls during the summer and school is not in session, the student's ARD committee has until the first day of classes in the fall to finalize decisions concerning the student's initial eligibility determination, IEP, and placement, unless the full individual and initial evaluation indicates that the student will need extended school year services during that summer.

G. Extracurricular Activities

§300.107 Nonacademic services.

The State must ensure the following:

- (a) Each public agency must take steps, including the provision of supplementary aids and services determined appropriate and necessary by the child's IEP Team, to provide nonacademic and extracurricular services and activities in the manner necessary to afford children with disabilities an equal opportunity for participation in those services and activities.**
- (b) Nonacademic and extracurricular services and activities may include counseling services, athletics, transportation, health services, recreational activities, special interest groups or clubs sponsored by the public agency, referrals to agencies that provide assistance to individuals with disabilities, and employment of students, including both employment by the public agency and assistance in making outside employment available.**

(Authority: 20 U.S.C. 1412(a)(1))

§300.117 Nonacademic settings.

In providing or arranging for the provision of nonacademic and extracurricular services and activities, including meals, recess periods, and the services and activities set forth in §300.107, each public agency must ensure that each child with a disability participates with nondisabled children in those services and activities to the maximum extent appropriate to the needs of that child. The Bell County CoOp must ensure that each child with a disability has the supplementary aids and services determined by the child's IEP Team to be appropriate and necessary for the child to participate in nonacademic settings. (Authority: 20 U.S.C. 1412(a)(5))

§300.320 Definition of individualized education program.

- (a) General. As used in this part, the term individualized education program or IEP means a written statement for each child with a disability that is developed, reviewed, and revised in a meeting in accordance with §§300.320 through 300.324, and that must include--**
 - (4) A statement of the special education and related services and supplementary aids and services, based on peer-reviewed research to the extent practicable, to be provided to the child, or on behalf of the child, and a statement of the program modifications or supports for school personnel that will be provided to enable the child--**
 - (i) To advance appropriately toward attaining the annual goals;**
 - (ii) To be involved in and make progress in the general education curriculum in accordance with paragraph (a)(1) of this section, and to participate in extracurricular and other nonacademic activities; and**
 - (iii) To be educated and participate with other children with disabilities and nondisabled children in the activities described in this section;**

TEC §. 33.081. Extracurricular Activities.

- (e) Suspension of a student with a disability that significantly interferes with the student's ability to meet regular academic standards must be based on the student's failure to meet the requirements of the student's individualized education program. The determination of whether a disability significantly interferes with a student's ability to meet regular academic standards must be made by the student's admission, review, and dismissal committee. For purposes of this subsection, "student with a disability" means a student who is eligible for a district's special education program under Section 29.003(b).**

- (f) A student suspended under this section may practice or rehearse with other students for an extracurricular activity but may not participate in a competition or other public performance.

H. FBA (Functional Behavior Assessment) / BIP (Behavior Intervention Plan)

(see also Section 2-FIE and Section 6-Discipline)

§300.324 Development, review, and revision of IEP

(a) (2) Consideration of special factors. The IEP Team must--

- (i) In the case of a child whose behavior impedes the child's learning or that of others, consider the use of positive behavioral interventions and supports, and other strategies, to address that behavior.**

TAC §89.1050 The Admission, Review, and Dismissal (ARD) Committee.

- (k) All disciplinary actions regarding students with disabilities must be determined in accordance with 34 CFR, §§300.101(a) and 300.530-300.536 (relating to disciplinary actions and procedures), the TEC, Chapter 37, Subchapter A (Alternative Settings for Behavior Management), and §89.1053 of this title (relating to Procedures for Use of Restraint and Time-Out).

TEC §29.005

- (g) The committee may determine that a behavior improvement plan or a behavioral intervention plan is appropriate for a student for whom the committee has developed an individualized education program. If the committee makes that determination, the behavior improvement plan or the behavioral intervention plan shall be included as part of the student's individualized education program and provided to each teacher with responsibility for educating the student.
- (h) If a behavior improvement plan or a behavioral intervention plan is included as part of a student's individualized education program under Subsection (g), the committee shall review the plan at least annually and more frequently if appropriate to address:
- (1) changes in a student's circumstances that may impact the student's behavior, such as:
 - (A) the placement of the student in a different educational setting;
 - (B) an increase or persistence in disciplinary actions taken regarding the student for similar types of behavioral incidents;
 - (C) a pattern of unexcused absences; or
 - (D) an unauthorized unsupervised departure from an educational setting; or
 - (2) the safety of the student or others.

TAC §89.1055 Content of the IEP

- (g) If the ARD committee determines that a behavior improvement plan or a behavioral intervention plan is appropriate for a student, that plan must be included as part of the student's IEP and provided to each teacher with responsibility for educating the student.

The ARD/IEP committee will address the needs of the student which arise from behaviors that interfere with the student's learning or the learning of other students. Addressing the continuum of behavioral needs: ,

- *Student special education needs will be addressed in the Least Restrictive Environment appropriate for each individual as determined by the ARD/IEP Committee*
- *If the student exhibits behavior that is interfering with his/her learning or the learning of others, the ARD/IEP Committee will consider completing a Functional Behavior Assessment (FBA) and develop a Behavioral Intervention Plan (BIP) if needed.*
- *If a BIP is developed, the ARD/IEP committee will review the plan at least annually and more frequently if appropriate to address any changes in a student's circumstances that may impact the student's behavior, such as; the placement of the student in a different educational setting, an increase or persistence in disciplinary actions taken regarding the student for similar types of behavioral incidents, a pattern of unexcused absences, an unauthorized unsupervised departure from an educational setting and/or the safety of the student or others.*
- *In addition, Social/Emotional Goals/Objectives might be appropriate.*

For more information see Section 2-FIE for development of the FBA and also Section 6 of the OPOs for more information on Discipline. Discussion of needs of the student in this area will be documented on district forms and filed by the educational diagnostician/LSSP in the student's special education eligibility folder. The Bell County CoOp has a variety of Behavior Specialists who are trained and need to be included in FBA/BIP decisions.

I. Grading and Reporting

TEC §28.0214. Finality of Grade.

- (a) An examination or course grade issued by a classroom teacher is final and may not be changed unless the grade is arbitrary, erroneous, or not consistent with the Bell County CoOp grading policy applicable to the grade, as determined by the board of trustees of the school district in which the teacher is employed.
- (b) A determination by a school district board of trustees under Subsection (a) is not subject to appeal. This subsection does not prohibit an appeal related to a student's eligibility to participate in extracurricular activities under Section 33.081.

§300.320 Definition of individualized education program.

(a) (3) A description of--

- (i) How the child's progress toward meeting the annual goals described in paragraph (2) of this section will be measured; and**
- (ii) When periodic reports on the progress the child is making toward meeting the annual goals (such as through the use of quarterly or other periodic reports, concurrent with the issuance of report cards) will be provided;**

TEC §28.0216 - District Grading Policy

Requires that school districts adopt a grading policy before the start of each school year. The school district policy:

- (1) must require a classroom teacher to assign a grade that reflects the student's relative mastery of an assignment;
- (2) may not require a classroom teacher to assign a minimum grade for an assignment without regard for the student's quality of work; and
- (3) may allow a student a reasonable opportunity to make up or redo a class assignment or examination for which the student received a failing grade.

Each student receiving special education instruction has an individual education program (IEP) which addresses the student's educational needs, and individual goals and objectives relative to student's identified disability. The district grading policy will be followed and discussed during the ARD/IEP meeting.

- 1. Students receiving instruction in a special education classroom (resource or self-contained) will receive grades with supporting documentation.*
- 2. Grades received in any instruction setting will reflect work completed and progress documented.*
- 3. If the student with disabilities fails to make progress on the IEP, the responsible teacher will review the IEP for appropriateness of goals/objectives, instructional materials and methods. The teacher must document the efforts made to try to help the student achieve success.*
 - a. If a student with disabilities is not be progressing toward mastery of the goal by the annual ARD, the ARD/IEP committee must convene to discuss the student's needs and make recommendations to assist the student.*
 - b. An ARD/IEP committee will meet if the student is not attending school to discuss the appropriateness of the IEP, need for additional testing, and pursuit of compulsory attendance, if appropriate.*
- 4. The grading of a special education student in a general education classroom is based upon the district grading policy and the ARD/IEP committee recommends accommodations of pacing, methods, and materials needed. When accommodations have been recommended by the ARD/IEP committee, the special education teacher is responsible for:*
 - a. informing the general education teacher of the recommended accommodations;*
 - b. providing other information concerning the student's achievement and functioning levels, learning style and behavioral needs;*
 - c. offering assistance to the general education teacher on a scheduled basis, as recommended by the ARD/IEP committee; and*
 - d. documenting contacts with the general education teacher.*
- 5. Unless the ARD/IEP committee designates otherwise,*
 - a. when a special education student in general education classes is enrolled in the homebound program, the general classroom teacher will be responsible for grading all assignments and recording grades on the*

- report card and permanent record for all subject areas.*
- b. *report cards will be issued to ECSE children on the same schedule as non-disabled students on their assigned campus.*

- (1) enable the student to:
 - (A) to the extent practicable, perform at the student's grade level at the conclusion of the next regular school term; or
 - (B) attain a standard of annual growth specified by the school district and reported by the district to the TEA; and
 - (2) if applicable, carry out the purposes of Section 28.0211.
- (c) The Bell County CoOp shall use funds appropriated by the legislature for an intensive program of instruction to plan and implement intensive instruction and other activities aimed at helping a student satisfy state and local high school graduation requirements. The commissioner shall distribute funds to districts that implement a program under this section based on the number of students identified by the district who:
- (1) do not perform satisfactorily on an assessment instrument administered under Subchapter B, Chapter 39; or
 - (2) are not likely to receive a high school diploma before the fifth school year following the student's enrollment in grade nine, as determined by the district.
- (d) A school district's determination of the appropriateness of a program for a student under this section is final and does not create a cause of action.
- (e) For a student in a special education program under Subchapter A, Chapter 29, who does not perform satisfactorily on an assessment instrument administered under Section 39.023(a), (b), or (c), the student's admission, review, and dismissal committee shall design the program to:
- (1) enable the student to attain a standard of annual growth on the basis of the student's individualized education program; and
 - (2) if applicable, carry out the purposes of Section 28.0211.

K. Length of School Day

TAC §89.1075. General Program Requirements and Local District Procedures.

- (e) Students with disabilities must have available an instructional day commensurate with that of students without disabilities. The ARD committee must determine the appropriate instructional setting and length of day for each student, and these must be specified in the student's IEP.
- Any variation in the length of school day will be thoroughly documented in the IEP and the specific plan for returning the student to a normal school day (the same as nondisabled peers) will be developed in the ARD meeting.*

<https://tea.texas.gov/academics/special-student-populations/english-learner-support/bilingual-and-english-as-a-second-language-education-programs>

§300.324 Development, review, and revision of IEP

- (a) (2) **Consideration of special factors.** The IEP Team must--
- (ii) **In the case of a child with limited English proficiency, consider the language needs of the child as those needs relate to the child's IEP;**

TEC §101.1007. Assessment Provisions for Graduation.

- (1) has been enrolled in U.S. schools for three school years or less or qualifies as an unschooled asylee or refugee enrolled in U.S. schools for five school years or less; and
 - (2) the student has not yet demonstrated English language proficiency in reading as determined by the assessment under §101.1003 of this title (relating to English Language Proficiency Assessments).
- (b) Concerning the applicable English I assessment in which the student is enrolled, an ELL who meets the eligibility criteria in subsection (a) of this section shall not be required to retake the assessment each time it is administered if the student passes the course but fails to achieve the passing standard on the assessment.

TEC §101.1005. Assessments of Achievement in Academic Content Areas and Courses.

- (a) The language proficiency assessment committee (LPAC) shall select the appropriate assessment option for each English language learner (ELL) in accordance with this subchapter. The LPAC shall document the decisions and justifications in the student's permanent record file, and the ARD committee shall document the decisions and justifications in the student's individualized education program. Assessment decisions shall be made on an individual student basis and in accordance with administrative procedures established by the Texas Education Agency (TEA).
- (b) Except as provided by subsection (c) of this section an ELL shall participate in the Grades 3-8 and end-of-course assessments as required by the Texas Education Code (TEC), §39.023(c). Except as specified in paragraphs (1)-(3) of this subsection, an ELL shall be administered the general form of the English-version state assessment.

 - (A) a Spanish-version assessment does not exist or is not the most appropriate measure of the student's academic progress;
 - (B) the student has not yet demonstrated English language proficiency in reading as determined by the assessment under §101.1003 of this title (relating to English Language Proficiency Assessments); and
 - (C) the student has been enrolled in U.S. schools for three school years or less or qualifies as an unschooled asylee or refugee enrolled in U.S. schools for five school years or less.
 - (3) In certain cases, an ELL who receives special education services may, as a result of his or her particular disabling condition, qualify to be administered an alternative assessment instrument based on alternative achievement standards.
- (c) In accordance with the TEC, §39.027(a-1), an unschooled asylee or refugee who meets the criteria of paragraphs (1)-(3) of this subsection shall be granted an exemption from an administration of an assessment instrument under the TEC, §39.023(a), (b), or (l). This exemption will only apply during the school year an unschooled asylee or refugee is first enrolled in a US public school. An unschooled asylee or refugee is a student who:

- (f) An ELL whose parent or guardian has declined the services required by the TEC, Chapter 29, Subchapter B, is not eligible for special assessment, accommodation, or accountability provisions made available to ELLs on the basis of limited English proficiency.
- (g) School districts may administer the assessment of academic skills in Spanish to a student who is not identified as limited English proficient but who participates in a bilingual program if the LPAC determines the

assessment in Spanish to be the most appropriate measure of the student's academic progress.

- (h) Policies for including the academic performance of an ELL in state and federal accountability measures, which will take into account the second language acquisition developmental needs of this student population, shall be delineated in the official TEA publications required by Chapter 97 of this title (relating to Planning and Accountability).

TAC §89.1230. Eligible Students with Disabilities.

TAC §89.1226 Testing and Classification of Students, Beginning with School Year 2019-2020

- (l) For English learners who are also eligible for special education services, the standardized process for English learner program exit is followed in accordance with applicable provisions of subsection (i) of this section. However, annual meetings to review student progress and make recommendations for program exit must be made in all instances by the language proficiency assessment committee in conjunction with the ARD committee in accordance with §89.1230(b) of this title (relating to Eligible Students with Disabilities). Additionally, the language proficiency committee in conjunction with the ARD committee shall implement assessment procedures that differentiate between language proficiency and disabling conditions in accordance with §89.1230(a) of this title.
- (m) For an English learner with significant cognitive disabilities, the language proficiency assessment committee in conjunction with the ARD committee may determine that the state's English language proficiency assessment for exit is not appropriate because of the nature of the student's disabling condition. In these cases, the language proficiency assessment committee in conjunction with the ARD committee may recommend that the student take the state's alternate English language proficiency assessment and shall determine an appropriate performance standard requirement for exit by language domain under subsection (i)(1) of this section;

The Special Education Director or designee and the LPAC Coordinator will work closely together to ensure that campus staff has training and materials needed to make decisions in the ARD/IEP committee meeting. The LPAC and the ARD/IEP committee will follow all state and federal regulations regarding students with disabilities who are also English Learners.

Provisions for ELLs Receiving Special Education Services. When an ELL receives special education services, the student's ARD committee is required to work in conjunction with the student's LPAC to ensure that issues related to both the student's particular disability and English language proficiency level are carefully considered when assessment decisions are made. If the student is not eligible for an exit level LEP postponement, the STAAR requirements for the student are the same as for other students receiving special education services. LPACs must maintain documentation of all TEA student assessment and accommodation decisions in the student's permanent record file, and the ARD committee must document the information in the student's IEP.

Note that factors related to how much English the student knows (language proficiency in English) must not be used in determining the appropriateness of an assessment. The selection of the appropriate type of assessment is related to the student's disabling condition, not acquisition of English as a second language.

Decisions regarding exemptions of certain qualifying ELL students will be made following the state criteria.
<http://tea.texas.gov/student.assessment/ell/lpac/> or

For All Limited English Proficient (LEP) Students with Disabilities:

- The LPAC report, must have been completed within the past year for each Annual ARD to review.
- The ARD/IEP committee will determine placement based on current assessment and IEP Goals and Objectives needed.
- The ARD/IEP committee will include the LPAC representative and will ensure that placement in a bilingual education or English as a second language program, if appropriate, is not refused solely because the student has a disability.

Additional LPAC guidance on TEA website will be followed:

<http://www.tea.state.tx.us/index2.aspx?id=2147496923> or <http://www.tea.state.tx.us/student.assessment/ell/lpac/>

Role of LPAC and ARD/IEP Committee:

The members of the ARD/IEP Committee and the LPAC will pool expertise related to special education and second language acquisition to collaborate making assessment and accommodation decisions with an LPAC member participating in the ARD/IEP Committee meeting to:

- Evaluate student needs,
- Determine and implement testing requirements, and
- Make instructional recommendations for the student.

Additional Guidance in Serving Students With Disabilities Who are Also English Learners Includes:

- Use the TEA manuals to assist with decision making.
- Review carefully to be clear on how to fulfill special education and EL assessment requirements for ELs receiving special education services.
- Decisions must be made on an individual basis.
- The decision is indicated as "ARD/IEP Committee Decision" in student's TELPAS record.
- ELs receiving special education services may be administered any assessment for which they meet the participation requirements (STAAR, STAAR Spanish, STAAR Alternate 2).

Chapter 101 of the TAC requires the LPAC to work in conjunction with the ARD committee to make assessment decisions for these students. This collaboration helps ensure that factors related to disabling conditions and second language acquisition are both carefully considered. The LPAC's involvement in assessment decision-making for ELs served by special education should help ensure that EL participation in these assessments is appropriate.

Accommodations for ELLs with Disabilities

For these students, LPACs will make accommodation decisions for the STAAR program in conjunction with the student's ARD committee, as applicable.

- Linguistic accommodation decisions
- Accommodation decisions related to the student's disability

These committees will refer to the accommodation information on the TEA Accommodation Resources webpage.

TELPAS (Texas English Language Proficiency Assessment System) results will be reviewed and considered as required by state law. To view all English language learner (ELL) resources, visit the ELL webpage .

<http://www.tea.state.tx.us/student.assessment/ell/>

Discussion of needs of the student in this area will be documented on district forms and filed by the educational diagnostician/LSSP in the student's special education eligibility folder.

M. LRE (Least Restrictive Environment - Placement)

§300.114 LRE requirements.

(a)General.

- (1) Except as provided in §300.324(d)(2) (regarding children with disabilities in adult prisons), the State must have in effect policies and procedures to ensure that public agencies in the State meet the LRE requirements of this section and §§300.115 through 300.120.

(2) Each public agency must ensure that--

- (i) To the maximum extent appropriate, children with disabilities, including children in public or private institutions or other care facilities, are educated with children who are nondisabled; and
- (ii) Special classes, separate schooling, or other removal of children with disabilities from the regular educational environment occurs only if the nature or severity of the disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily.

(b) Additional requirement-State funding mechanism.

(1) General.

- (i) A State funding mechanism must not result in placements that violate the requirements of paragraph (a) of this section ; and
- (ii) A State must not use a funding mechanism by which the State distributes funds on the basis of the type of setting in which a child is served that will result in the failure to provide a child with a disability FAPE according to the unique needs of the child, as described in the child's IEP.

(2) Assurance. If the State does not have policies and procedures to ensure compliance with paragraph (b)(1) of this section, the State must provide the Secretary an assurance that the State will revise the funding mechanism as soon as feasible to ensure that the mechanism does not result in placements that violate that paragraph.

§300.115 Continuum of alternative placements. *(see also Section 5)*

(a) Each public agency must ensure that a continuum of alternative placements is available to meet the needs of children with disabilities for special education and related services.

(b) The continuum required in paragraph (a) of this section must--

- (1) Include the alternative placements listed in the definition of special education under §300.39 (instruction in regular classes, special classes, special schools, home instruction, and instruction in hospitals and institutions); and
- (2) Make provision for supplementary services (such as resource room or itinerant instruction) to be provided in conjunction with regular class placement.

§300.116 Placements.

In determining the educational placement of a child with a disability, including a preschool child with a disability, each public agency must ensure that--

(a) The placement decision--

- (1) Is made by a group of persons, including the parents, and other persons knowledgeable about the child, the meaning of the evaluation data, and the placement options; and
- (2) Is made in conformity with the LRE provisions of this subpart, including §§300.114 through 300.118;

(b) The child's placement--

- (1) Is determined at least annually;
- (2) Is based on the child's IEP; and
- (3) Is as close as possible to the child's home, unless the parent agrees otherwise;

(c) Unless the IEP of a child with a disability requires some other arrangement, the child is educated in the school that he or she would attend if nondisabled;

(d) In selecting the LRE, consideration is given to any potential harmful effect on the child or on the quality of services that he or she needs; and

(e) A child with a disability is not removed from education in age-appropriate regular classrooms solely because of needed modifications in the general education curriculum. *(regular = public schools K-12th)*

Bell County CoOp will consider the general education classroom first when determining the least restrictive environment for a student receiving special education services. Whenever a student is removed from the general education setting, the ARD/IEP committee will discuss and document in the IEP why the removal is in the best interest of the student.

The student will be educated in a school as close to the student's home school as possible, unless the services identified in the child's IEP require a different location. The Bell County CoOp makes available a full continuum of alternative placement options that provides opportunities for students with disabilities to be educated with nondisabled peers to the maximum extent appropriate. If a student's IEP requires services that are not available at the school closest to the home, the student may be placed in another school that can offer the services that are included in the IEP and necessary for the student to receive FAPE. If needed to benefit from special education, transportation as a related service will be provided at no cost to the parent to the location where the IEP services will be provided. All LRE discussions will be documented in the IEP on district forms and filed by the educational diagnostician/LSSP in the student's special education eligibility folder.

§300.320 Definition of individualized education program.

(a) General. As used in this part, the term individualized education program or IEP means a written statement for each child with a disability that is developed, reviewed, and revised in a meeting in accordance with §§300.320 through 300.324, and that must include--

(1) A statement of the child's present levels of academic achievement and functional performance, including--

(i) How the child's disability affects the child's involvement and progress in the general education curriculum (i.e., the same curriculum as for nondisabled children); or

(ii) For preschool children, as appropriate, how the disability affects the child's participation in appropriate activities;

§300.110 Program options.

The State must ensure that each public agency takes steps to ensure that its children with disabilities have available to them the variety of educational programs and services available to nondisabled children in the area served by the agency, including art, music, industrial arts, consumer and homemaking education, and vocational education. (Authority: 20 U.S.C. 1412(a)(2), 1413(a)(1))

LRE Questions the ARD/IEP Committee may Discuss :

The following are points for discussion and documentation as an ARD/IEP committee determines the appropriateness of the Least Restrictive Environment for a student with disabilities. {based on Daniel R.R. v. State Board of Education, 874 F.2d 1036(5th Cir. 1989)}

- Can education in the general classroom, with the use of supplementary aids and services be achieved satisfactorily for the student?*
- Has the Bell County CoOp provided a range of supplementary aids and services which might include some of the following: assistive technology supports; supports from specialists such as behavior support or speech and language supports; and supports from special educators through direct instruction or consultation?*
- Have a range of accommodations been considered and tried?*
- Have efforts been made to modify the curriculum expectations, if appropriate?*
- What educational benefits might the student receive from the general classroom? The student is not required to be able to make the same progress as non-disabled peers. It is also possible that the primary benefits for the student will be social. Those are acceptable reasons to consider inclusion of the student.*
- It is allowable to consider the impact of the included student on other peers in the classroom and on the classroom teacher. The ARD will collect data to support this area and to describe the steps taken to ameliorate concerns.*
- It is important to consider the sufficiency of efforts which have been taken to support the student within general education. These efforts should be documented and more than mere "minimal efforts".*
- If education in a general classroom cannot be achieved satisfactorily, determine whether the student has been included to the maximum extent appropriate for that student and if all academic and non-academic classes in general education with non disabled peers have been considered or tried. This could include times such as lunch or recess.*

Placement decisions are made on a case by case basis depending on each child's unique educational needs and circumstances, rather than by the child's category of disability, and must be based on the child's IEP. Students with disabilities will have access to curriculum based on the TEKS in the least restrictive environment appropriate to meet their unique needs.

N. Physical Education

§300.108 Physical education.

The TEA must ensure that public agencies in the State comply with the following:

- (a) **General.** Physical education services, specially designed if necessary, must be made available to every child with a disability receiving FAPE, unless the Bell County CoOp enrolls children without disabilities and does not provide PE to children without disabilities in the same grades.
- (b) **Regular physical education.** Each child with a disability must be afforded the opportunity to participate in the regular physical education program available to nondisabled children unless--
 - (1) The child is enrolled full time in a separate facility; or
 - (2) The child needs specially designed physical education, as prescribed in the child's IEP.
- (c) **Special physical education.** If specially designed physical education is prescribed in a child's IEP, the public agency responsible for the education of that child must provide the services directly or make arrangements for those services to be provided through other public or private programs.
- (d) **Education in separate facilities.** The public agency responsible for the education of a child with a disability who is enrolled in a separate facility must ensure that the child receives appropriate physical education services in compliance with this section.

State-wide Fitness Assessment: During the 80th Legislative Session, Senate Bill 530 was passed, which requires a statewide fitness assessment for all students in grades 3 to 12 starting in the 2007-2008 school year. The TEA identified [FITNESSGRAM](#) as the assessment tool to be used by all districts throughout the state. The law allows a school district to determine if a student is unable to participate. Most districts are following the IEP for students with disabilities to determine necessary exemptions.

TAC §103.1003, Student Physical Activity Requirements and Exemptions

TEC §28.002, Required Curriculum, as amended by Senate Bill 530, 80th Texas Legislature, 2007 (excerpts)

- (d) The physical education curriculum required under Subsection (a)(2)(C) must be sequential, developmentally appropriate, and designed, implemented, and evaluated to enable students to develop the motor, self-management, and other skills, knowledge, attitudes, and confidence necessary to participate in physical activity throughout life. Each school district shall establish specific objectives and goals the district intends to accomplish through the physical education curriculum. In identifying the essential knowledge and skills of physical education, the State Board of Education shall ensure that the curriculum:
 - (1) emphasizes the knowledge and skills capable of being used during a lifetime of regular physical activity;
 - (2) is consistent with national physical education standards for:
 - (A) the information that students should learn about physical activity; and
 - (B) the physical activities that students should be able to perform;
 - (3) requires that, on a weekly basis, at least 50 percent of the physical education class be used for actual student physical activity and that the activity be, to the extent practicable, at a moderate or vigorous level;
 - (4) offers students an opportunity to choose among many types of physical activity in which to participate;
 - (5) offers students both cooperative and competitive games;
 - (6) meets the needs of students of all physical ability levels, including students who have a [disability,] chronic health problem, disability, including a student who is a person with a disability described under Section 29.003(b) or criteria developed by the agency in accordance with that section, or other special need that precludes the student from participating in regular physical education instruction but who might be able to participate in physical education that is suitably adapted and, if applicable, included in the student's individualized education program;
 - (7) takes into account the effect that gender and cultural differences might have on the degree of student interest in physical activity or on the types of physical activity in which a student is interested;
 - (8) teaches self-management and movement skills;
 - (9) teaches cooperation, fair play, and responsible participation in physical activity;
 - (10) promotes student participation in physical activity outside of school; and
 - (11) allows physical education classes to be an enjoyable experience for students.

Section 2. This Act applies beginning with the 2015-2016 school year.

Exemptions for Students with Disabilities: Statutory References (28.002)(d)(6)

<http://framework.esc18.net/display/Webforms/ESC18-FW-Citation.aspx?ID=4511>

The Texas Education Code (TEC) permits an exemption for students with disabilities from participating in the physical fitness assessment, as indicated in the code below:

TEC §38.101. ASSESSMENT REQUIRED.

- (a) Except as provided by Subsection (b), a school district annually shall assess the physical fitness of students enrolled in grades 3 through 12.
- (b) A school district is not required to assess a student for whom, as a result of disability or other condition identified by commissioner rule, the assessment instrument adopted under Section 38.102 is inappropriate. <http://www.statutes.legis.state.tx.us/SOTWDocs/ED/htm/ED.38.htm>

A “student with a disability” may be able to participate like any other student or with modifications and/or adaptations. A student receiving special education services should not be restricted from participating in the assessment based solely on the student’s eligibility for special education services. Only students who meet the “restricted” definition as provided in the Texas Administrative Code (TAC) must be temporarily and/or permanently restricted from participation.

TAC §74.31. Health Classifications for Physical Education.

For physical education, a district must classify each student, on the basis of health, into one of the following categories.

- (1) Unrestricted (not limited in activities).
- (2) Restricted (excludes the more vigorous activities).
 - (A) Permanent. A member of the healing arts licensed to practice in Texas must provide the school written documentation concerning the nature of the impairment and the expectations for physical activity for the student.
 - (B) Temporary. The student may be restricted from physical activity of the physical education class. A member of the healing arts licensed to practice in Texas must provide the school written documentation concerning the nature of the temporary impairment and the expected amount of time for recovery. During recovery time, the student must continue to learn the concepts of the lessons but may not actively participate in the skill demonstration.
- (3) Adapted and remedial (specific activities prescribed or prohibited, as directed by a member of the healing arts licensed to practice in Texas).

A health classification of restricted, adapted and remedial must be determined by a “member of the healing arts”, as defined in Chapter 104 of the Occupations Code:

TEC § 28.025

(b-11) Beginning with the 2014-15 school year, if the ARD committee determines that the child is unable to participate in physical activity due to a disability or illness, the child will be allowed to substitute one credit in English language arts, mathematics, science, social studies, or one academic elective credit for the physical education credit required for graduation.

O. Early Childhood Special Education (ECSE).

§300.112 Individualized education programs (IEP).

The State must ensure that an IEP, or an IFSP that meets the requirements of section 636(d) of the Act, is developed, reviewed, and revised for each child with a disability in accordance with §§300.320 through 300.324, except as provided in §300.300(b)(3)(ii). (Authority: 20 U.S.C. 1412(a)(4))
(§§300.320 Definition of IEP, .321 IEP Team, .322 Parent Participation, .323 when IEPs must be in effect, .324 Development of IEP)(300.300 b. Parental Consent)

§300.323 When IEPs must be in effect.

(b) IEP or IFSP for children aged three through five.

(1) In the case of a child with a disability aged three through five (or, at the discretion of the SEA, a two-year-old child with a disability who will turn age three during the school year), the IEP Team must consider an IFSP that contains the IFSP content (including the natural environments statement) described in section 636(d) of the Act and its implementing regulations (including an educational component that promotes school readiness and incorporates pre-literacy, language, and numeracy

skills for children with IFSPs under this section who are at least three years of age), and that is developed in accordance with the IEP procedures under this part. The IFSP may serve as the IEP of the child, if using the IFSP as the IEP is--

- (i) Consistent with State policy; and
 - (ii) Agreed to by the agency and the child's parents.
- (2) In implementing the requirements of paragraph (b)(1) of this section, the public agency must--
- (i) Provide to the child's parents a detailed explanation of the differences between an IFSP and an IEP; and
 - (ii) If the parents choose an IFSP, obtain written informed consent from the parents.

P. Prison

§300.324 Development, review, and revision of IEP

(d) Children with disabilities in adult prisons.

- (1) Requirements that do not apply. The following requirements do not apply to children with disabilities who are convicted as adults under State law and incarcerated in adult prisons:
- (i) The requirements contained in §300.160 and §300.320(a)(6) (relating to participation of children with disabilities in general assessments).
 - (ii) The requirements in §300.320(b) (relating to transition planning and transition services), do not apply with respect to the children whose eligibility under Part B of the Act will end, because of their age, before they will be eligible to be released from prison based on consideration of their sentence and eligibility for early release.
- (2) Modifications of IEP or placement.
- (i) Subject to paragraph (c)(2)(ii) of this section, the IEP Team of a child with a disability who is convicted as an adult under State law and incarcerated in an adult prison may modify the child's IEP or placement if the State has demonstrated a bona fide security or compelling penological interest that cannot otherwise be accommodated.
 - (ii) The requirements of §§300.320 (relating to IEPs), and 300.114 (relating to LRE), do not apply with respect to the modifications described in paragraph (d)(2)(i) of this section.

Children with disabilities incarcerated in adult prisons are addressed by the district as follows:

- *ARD/IEP committees of this nature will be led by a district special education representative such as a supervisor, coordinator or director.*
- *The IEP may be modified if the state has determined a compelling reason exists to make the modifications due to safety concerns.*
- *Notice of transfer of rights at age 18 is required.*
- *Transition services may or may not apply depending on the length of the incarceration.*

Q. Reading (K – 2nd grade) – Accelerated Instruction

TEC §28.006. Reading Diagnosis.

- (a) The commissioner shall develop recommendations for school districts for:
- (1) administering reading instruments to diagnose student reading development and comprehension;
 - (2) training educators in administering the reading instruments; and
 - (3) applying the results of the reading instruments to the instructional program.
- (b) The commissioner shall adopt a list of reading instruments that a school district may use to diagnose student reading development and comprehension. A district-level committee established under Subchapter F, Chapter 11, may adopt a list of reading instruments for use in the district in addition to the reading instruments on the commissioner's list. Each reading instrument adopted by the commissioner or a district-level committee must be based on scientific research concerning reading skills development and reading comprehension. A list of reading instruments adopted under this subsection must provide for diagnosing the reading development and comprehension of students participating in a program under Subchapter B, Chapter 29.
- (c) Each school district shall administer, at the kindergarten and first and second grade levels, a reading instrument on the list adopted by the commissioner or by the district-level committee. The district shall administer the reading instrument in accordance with the commissioner's recommendations under Subsection (a)(1).

- (g) The Bell County CoOp shall notify the parent or guardian of each student in kindergarten or first or second grade who is determined, on the basis of reading instrument results, to be at risk for dyslexia or other reading difficulties. The Bell County CoOp shall implement an accelerated reading instruction program that provides reading instruction that addresses reading deficiencies to those students and shall determine the form, content, and timing of that program. The admission, review, and dismissal committee of a student who participates in Bell County CoOp's special education program under Subchapter B, Chapter 29, and who does not perform satisfactorily on a reading instrument under this section shall determine the manner in which the student will participate in an accelerated reading instruction program under this subsection.
- (h) The Bell County CoOp shall make a good faith effort to ensure that the notice required under this section is provided either in person or by regular mail and that the notice is clear and easy to understand and is written in English and in the parent or guardian's native language.

R. Regional Day School Program for the Deaf (RDSPD)

TAC §89.1080. Regional Day School Program for the Deaf.

In accordance with the Texas Education Code (TEC), §§30.081-30.087, local school districts shall have access to regional day school programs for the deaf operated by school districts at sites previously established by the State Board of Education (SBOE). Any student who has a hearing impairment which severely impairs processing linguistic information through hearing, even with recommended amplification, and which adversely affects educational performance shall be eligible for consideration for the Regional Day School Program for the Deaf, subject to the admission, review, and dismissal (ARD) committee recommendations.

S. STAAR – State of Texas Assessment of Academic Readiness

§300.160 Participation in assessments.

- (a) **General.** A State must ensure that all children with disabilities are included in all general State and district-wide assessment programs, including assessments described under section 1111 of the ESEA, 20 U.S.C. 6311, with appropriate accommodations and alternate assessments, if necessary, as indicated in their respective IEPs.
- (b) **Accommodation guidelines.**
 - (1) A State (or, in the case of a district-wide assessment, an LEA) must develop guidelines for the provision of appropriate accommodations.
 - (2) The State's (or, in the case of a district-wide assessment, the LEA's) guidelines must—
 - (i) Identify only those accommodations for each assessment that do not invalidate the score; and
 - (ii) Instruct IEP Teams to select, for each assessment, only those accommodations that do not invalidate the score.
- (c) **Alternate assessments.**
 - (1) A State (or, in the case of a district-wide assessment, an LEA) must develop and implement alternate assessments and guidelines for the participation of children with disabilities in alternate assessments for those children who cannot participate in regular assessments, even with accommodations, as indicated in their respective IEPs, as provided in paragraph (a) of this section.
 - (2) For assessing the academic progress of students with disabilities under Title I of the ESEA, the alternate assessments and guidelines in paragraph (c)(1) of this section must provide for alternate assessments that—
 - (i) Are aligned with the State's challenging academic content standards and challenging student academic achievement standards;
 - (ii) If the State has adopted alternate academic achievement standards permitted in 34 CFR 200.1(d), measure the achievement of children with the most significant cognitive disabilities against those standards; and
 - (iii) Except as provided in paragraph (c)(2)(ii) of this section, a State's alternate assessments, if any, must measure the achievement of children with disabilities against the State's grade-level academic achievement standards, consistent with 34 CFR 200.6(a)(2)(ii)(A).
 - (3) Consistent with 34 CFR 200.1(e), a State may not adopt modified academic achievement standards for any students with disabilities under section 602(3) of the Act.
- (d) **Explanation to IEP Teams.** A State (or in the case of a district-wide assessment, the LEA) must—
 - (1) Provide to IEP teams a clear explanation of the differences between assessments based on grade-level academic achievement standards and those based on alternate academic achievement standards, including any effects of State and local policies on a student's education resulting from

taking an alternate assessment aligned with alternate academic achievement standards, such as how participation in such assessments may delay or otherwise affect the student from completing the requirements for a regular high school diploma; and

- (2) Not preclude a student with the most significant cognitive disabilities who takes an alternate assessment aligned with alternate academic achievement standards from attempting to complete the requirements for a regular high school diploma.
- (e) **Inform parents.** A State (or in the case of a district-wide assessment, a LEA) must ensure that parents of students selected to be assessed using an alternate assessment aligned with alternate academic achievement standards under the State's guidelines in paragraph (c)(1) of this section are informed, consistent with 34 CFR 200.2(e), that their child's achievement will be measured based on alternate academic achievement standards, and of how participation in such assessments may delay or otherwise affect the student from completing the requirements for a regular high school diploma.
- (f) **Reports.** An SEA (or, in the case of a district-wide assessment, an LEA) must make available to the public, and report to the public with the same frequency and in the same detail as it reports on the assessment of nondisabled children, the following:
- (1) The number of children with disabilities participating in regular assessments, and the number of those children who were provided accommodations (that did not result in an invalid score) in order to participate in those assessments.
 - (2) The number of children with disabilities, if any, participating in alternate assessments based on grade level academic achievement standards in school years prior to 2017-2018.
 - (3) The number of children with disabilities, if any, participating in alternate assessments based on aligned with modified academic achievement standards in school years prior to 2016-2017.
 - (4) The number of children with disabilities who are students with the most significant cognitive disabilities participating in alternate assessments based on aligned with alternate academic achievement standards.
 - (5) Compared with the achievement of all children, including children with disabilities, the performance results of children with disabilities on regular assessments, alternate assessments based on grade-level academic achievement standards (prior to 2017-2018), alternate assessments based on modified academic achievement standards (prior to 2016-2017), and alternate assessments based on aligned with alternate academic achievement standards if—
 - (i) The number of children participating in those assessments is sufficient to yield statistically reliable information; and
 - (ii) Reporting that information will not reveal personally identifiable information about an individual student on those assessments.
- (g) **Universal design.** An SEA (or, in the case of a district-wide assessment, an LEA) must, to the extent possible, use universal design principles in developing and administering any assessments under this section. (Authority: 20 U.S.C. 1412(a)(16))

§300.320 Definition of individualized education program.

- (a) **General.** As used in this part, the term individualized education program or IEP means a written statement for each child with a disability that is developed, reviewed, and revised in a meeting in accordance with §§300.320 through 300.324, and that must include—
- (6) (i) A statement of any individual appropriate accommodations that are necessary to measure the academic achievement and functional performance of the child on State and districtwide assessments consistent with §300.160; and
 - (ii) If the IEP Team determines that the child must take an alternate assessment instead of a particular regular State or districtwide assessment of student achievement, a statement of why--
 - (A) The child cannot participate in the regular assessment; and
 - (B) The particular alternate assessment selected is appropriate for the child.

TAC §89.1055. Content of the Individualized Education Program (IEP).

- (b) The IEP must include a statement of any individual appropriate and allowable accommodations in the administration of assessment instruments developed in accordance with Texas Education Code (TEC), §39.023(a)-(c), or districtwide assessments of student achievement (if the district administers such optional assessments) that are necessary to measure the academic achievement and functional performance of the student on the assessments. If the ARD committee determines that the student will not participate in a general statewide or districtwide assessment of student achievement (or part of an assessment), the IEP must include a statement explaining:

- (1) why the student cannot participate in the general assessment; and
- (2) why the particular alternate assessment selected is appropriate for the student.

Staff Training Related to State Assessments

The Bell County CoOp special education director/coordinators will work closely with the district testing coordinator to ensure special education staff is provided continuous training with local campus staff. The Bell County CoOp will follow the TEA recommendations found online. Training of special education staff will be held annually. The Bell County CoOp follows the most current Assessment Guidance available through the TEA Student Assessment Division for ARD Resource and Special Education Assessment information:

Allowable Accommodations from TEA:

Continuously updated information regarding accommodations can be found on the TEA website.

ARD/IEP Committee

All students with disabilities must participate in all required state and district assessments including the STAAR, STAAR A and the TELPAS. Decisions regarding such assessments and any accommodations needed by the student will be made by the ARD/IEP Committee. For ELL students, the decision will be made in collaboration with the LPAC. It is important to emphasize that the instructional decisions made by the ARD/IEP committee and documented in the individualized education program (IEP) must always guide the assessment decisions for students receiving special education services.

For students with disabilities working below their enrolled grade level, it is the responsibility of all stakeholders, the state as well as the district, campuses, and classroom teachers—to work with parents and other members of the community to understand and provide the support these students need to reach their academic potential. All students have the right to be exposed to as much of an on-grade-level curriculum as possible. The ARD committee must weigh the benefits of rigorous and challenging expectations given each student's individual strengths, needs, instruction, and accommodations. As always, the ARD committee should first consider administering the State of Texas Assessments of Academic Readiness (STAAR) when making assessment decisions.

Discussions regarding student participation in state and district assessment will be documented on district forms and filed by the educational diagnostician/LSSP in the student's special education eligibility folder

TEC §39.023. ADOPTION AND ADMINISTRATION OF INSTRUMENTS

SECTION 2. Effective September 1, 2021

(a) The agency shall adopt or develop appropriate criterion-referenced assessment instruments designed to assess essential knowledge and skills in reading, mathematics, social studies, and science. Except as provided by Subsection (a-2), all students, other than students assessed under Subsection (b) or (l) or exempted under Section 39.027, shall be assessed in:

- (1) mathematics, annually in grades three through eight;
- (2) reading, annually in grades three through eight;
- (3) social studies, in grade eight;

- (4) science, in grades five and eight; and
- (5) any other subject and grade required by federal law.

Current information on STAAR assessments pertaining to students with disabilities may be found on the TEA website: <http://tea.texas.gov/student.assessment/special-ed/>

Allowable accommodations are found in the Coordinator's Manuals provided by the TEA. The accommodations listed in the manual will be followed as required by TEA and determined by the ARD/IEP committee for each individual student. The Coordinator's Manual also lists accommodations which are non-allowable.

STAAR - Alt. 2

The Texas Education Agency (TEA) has developed the State of Texas Assessments of Academic Readiness Alternate (STAAR™ Alternate) to take the place of the TAKS Alt. STAAR Alternate is designed for the purpose of assessing students in grades 3–8 and high school who have significant cognitive disabilities and are receiving special education services. STAAR Alternate beginning in 2011–2012. For most current updates see: <http://www.tea.state.tx.us/student.assessment/special-ed/taaralt/essence/> and <http://tea.texas.gov/student.assessment/special-ed/taaralt/>

§89.1226. Testing and Classification of Students, Beginning with School Year 2019-2020.

- (l) For English learners who are also eligible for special education services, the standardized process for English learner program exit is followed in accordance with applicable provisions of subsection (i) of this section. However, annual meetings to review student progress and make recommendations for program exit must be made in all instances by the language proficiency assessment committee in conjunction with the ARD committee in accordance with §89.1230(b) of this title (relating to Eligible Students with Disabilities). Additionally, the language proficiency committee in conjunction with the ARD committee shall implement assessment procedures that differentiate between language proficiency and disabling conditions in accordance with §89.1230(a) of this title.
- (m) For an English learner with significant cognitive disabilities, the language proficiency assessment committee in conjunction with the ARD committee may determine that the state's English language proficiency assessment for exit is not appropriate because of the nature of the student's disabling condition. In these cases, the language proficiency assessment committee in conjunction with the ARD committee may recommend that the student take the state's alternate English language proficiency assessment and shall determine an appropriate performance standard requirement for exit by language domain under subsection (i)(1) of this section;

§101.6001. Texas Middle School Diagnostic Reading Assessment.

- (a) Each school district shall administer during the first six weeks of the school year the diagnostic reading instrument specified in subsection (c) of this section to each student in Grade 7 whose performance on the Grade 6 statewide reading assessment did not meet the passing standard. The admission, review, and dismissal committee or the Section 504 committee for each student who was administered an alternate form of the state assessment in reading may determine if the diagnostic assessment is appropriate for use with that student.

REQUIRED EXPLANATION OF STATE /DISTRICT-WIDE TESTING FOR THE IEP TEAM - INCLUDING PARENTS:

In order to meet all of the requirements listed above regarding state and district-wide testing, the following questions must be addressed in the ARD/IEP committee meeting. If the ARD/IEP Team determines, based on analysis of current data, that the student cannot take the State or district-wide assessments, the committee shall provide and document the following information:

- A. Specify why the child cannot participate in the regular assessment.*
- B. List the particular alternate assessment selected that is appropriate for the child.*

- C. Provide documentation (multiple records and multiple sources of information) to answer ALL of the following questions in the affirmative. The student:
- requires supports to access the general curriculum that may include assistance involving communication, response style, physical access, or daily living skills,
 - requires direct, intensive, individualized instruction in a variety of settings to accomplish the acquisition, maintenance and generalization of skills,
 - accesses and participates in the grade-level Texas Essential Knowledge and Skills (TEKS) through activities that focus on prerequisite skills,
 - demonstrates knowledge and skills routinely in class by methods other than paper and pencil tasks, and
 - demonstrates performance objectives that may include real life applications of the grade-level TEKS as appropriate to the student's abilities and needs.
- D. Explain clearly the differences between assessments based on grade-level academic achievement standards and those based on modified or alternate academic achievement standards.
- E. Explain clearly the effects on the student's education resulting from taking an alternate assessment based on alternate or modified academic achievement standards (such as whether only satisfactory performance on a regular assessment would qualify a student for a regular high school diploma).

Definitions Below:

Accountability: refers to an individual or group of individuals taking responsibility for the performance of students on achievement measures or other types of educational outcomes (e.g. dropout rates.)

Alternate Assessment: an assessment that is different from the one administered to most students. It is best viewed as the "process" for collecting information about what a student knows and can do. The majority of students participate in statewide assessments, some by using accommodations. Some students, however, are unable to take the test even with accommodation. For these students, a state must design an alternate way of determining their learning /learning progress. (Massanari, Carol B.,1999)

Alternate or modified academic achievement standards: a tailored/personalized measurement of a child's attainment or accomplishment of the standards for academic areas of reading, writing, math. This alternate or modified measurement is not the same as the STAAR measurement used with the regular education majority of students.

Differences: While the majority of regular education students will be administered STAAR assessment, the alternate or modified academic achievement standards will be based on the student's functional performance data gathered by the IEP Team and will be individualized at the student's functioning level and not at the assigned grade level.

Effects on the student's education resulting from taking an alternate assessment based on alternate or modified academic achievement standards :

- satisfactory performance on the regular STAAR assessment will qualify the student for a regular high school diploma if all credits and other requirements are also met
- satisfactory performance on an alternate assessment will qualify the student for a regular high school diploma if all credits and other requirements are also met, however, the following implication should be discussed: taking an assessment other than STAAR limits the student's preparation for post secondary training above the Jr. college entry level.

Accommodation that does not invalidate the test: an adjustment, change, or adaptation made to an assessment or the process of administering an assessment to students with special needs. This term generally refers to changes that do not significantly alter what the test measures. It results from a student need and it is not intended to give the student an unfair advantage. All accommodations must be identified in the student's IEP (CEC and the Learning Network 2000-2001).

Benchmarks: are statements of what all students should know and be able to do in a content area by the end of grade levels 4, 8, and 12.

Content Standards: are broad descriptions of knowledge and skills students should acquire in a particular subject area. The State of Texas content standards are known as the Texas Essential Knowledge and Skills (TEKS) and can be found online at the TEA website.

Criterion-Referenced Test: a test that is designed to provide information on the specific knowledge or skills possessed by a student. Such tests are designed to measure the objectives of instruction, skill levels, or areas of knowledge. Their scores have meaning in terms of what the student knows and can do, rather than in their relation to the scores made by some comparison to a norm group (Tuckman, B, 1986).

Functional Tasks: skills used in everyday life or that prepare students for life after graduation. These skills include those required for personal maintenance and development, homemaking, and community life, work and career, recreational activities and travel within the community (Smith, D.D., 1998).

High Stakes Assessment: state and or district-wide tests that have important consequences for students, staff, or schools (CEC and the Learning Network 2000-2001).

Large Scale Assessments: these assessments show how students are performing against state standards or national norms, and to hold school districts accountable for student performance (CEC and the Learning Network 2000-2001).

Norm-referenced Test: a test designed to provide information on the performance of test takers relative to one another. It measures basic concepts and skills commonly taught in schools throughout the country. These tests are not designed as precise measures of any given curriculum or single instructional program. The results provide information that compares a student's achievement with that of a representative national sample. (Tuckman, B. 1986).

Performance-based Assessment: a task that enables a student to demonstrate abilities to meet objectives or standards (Campbell, Melenyzer, Nettles, and Wyman, 2000).

Rubric: a set of criteria and a scoring scale that is used to assess and evaluate students' work (Campbell, Melenyzer, Nettles, and Wyman, 2000).

Standardized Test : a type of test that is always administered and scored in the same way. These tests have norms reflecting a larger population (usually these are age or grade based norms reflecting the performance of children throughout the country on the same tests).

T. Accelerated Learning Committee/Accelerated Instruction Requirements

The ARD/IEP committee will function as the Accelerated Learning Committee (ALC) if there is a need for an ALC and determine all Accelerated Learning Requirements per Section 28.0211 for all students who do not perform satisfactorily on the 3rd-8th grade reading and math STAAR assessment or the state End-of-Course Assessments as established in 39.023.

TEC §28.0211. ACCELERATED LEARNING COMMITTEE; ACCELERATED INSTRUCTION; MODIFIED TEACHER ASSIGNMENT.

- (i) The admission, review, and dismissal committee of a student who participates in a district's special education program under Subchapter A [B], Chapter 29, and who does not perform satisfactorily on an assessment instrument specified under Subsection (a) and administered under Section 39.023(a) or (b) must meet to determine the manner in which the student will participate in an accelerated instruction program under this section.
- (i-1) At a meeting of the admission, review, and dismissal committee of a student under Subsection (i), the committee may promote the student to the next grade level if the committee concludes that the student has made sufficient progress in the measurable academic goals contained in the student's individualized education program developed under Section 29.005. A school district that promotes a student under this subsection is not required to provide an additional opportunity for the student to perform satisfactorily on the assessment instrument.
- (i-2) Not later than September 1 of each school year, a school district must notify the parent or person standing in parental relation to a student enrolled in the district's special education program under Subchapter A, Chapter 29, of the options of the admission, review, and dismissal committee under Subsections (i) and (i-1) if the student does not perform satisfactorily on an assessment instrument.

TEC §39.024. Satisfactory Performance

- (a) Except as otherwise provided by this subsection, the State Board of Education shall determine the level of performance considered to be satisfactory on the assessment instruments. The admission, review, and dismissal committee of a student being assessed under Section 39.023(b) shall determine the level of performance considered to be satisfactory on the assessment instruments administered to that student in accordance with criteria established by agency rule.

The ARD committee will design an intensive program of instruction to enable the student, to the extent practicable, perform at the student's grade level at the conclusion of the next regular school term; or attain the state required standard of mastery. The committee will also determine if the parent or guardian is requesting a specific teacher per the guidelines of 28.0211 for students going into grades 4, 6, or 9 the subject areas (reading and/or math) in which the student did not perform satisfactorily on the STAAR assessment.

If a student is receiving special education and related services in a Homebound placement, the ARD/IEP committee will determine the supplemental accelerated instruction that meets the needs of the student based on the student's medical condition and the student's ability to participate in instructional activities.

U. Supplementary Aids and Services - Accommodations

§300.42 Supplementary aids and services. Supplementary aids and services means aids, services, and other supports that are provided in regular education classes, other education-related settings, and in extracurricular and nonacademic settings, to enable children with disabilities to be educated with nondisabled children to the maximum extent appropriate in accordance with §§300.114 through 300.116.

The ARD/IEP committee will identify any aids, services or other supports (accommodations) needed by the student with a disability to be educated with non disabled children to the maximum extent appropriate and which are provided in the general education environment. The committee will identify needed accommodations for the student by subject area and will also consider behavioral accommodations as necessary.

** Specific pages in the The TEA State Assessment manual will provide information on accommodations by type of assessment and accommodations category. Information in italics indicates that an Accommodation Request Form is required.*

** The TEA Student Assessment division will provide information to districts regarding the provision of adequate objective evidence when submitting an Accommodation Request Form (ARF).*

Discussion of the accommodation needs of the student will be documented on district forms and filed by the educational diagnostician/LSSP in the student's special education eligibility folder. All educators providing instruction to the student will have information concerning specific accommodations identified in the student's IEP. Distribution and documentation of this information will be done by the student's special education teacher or case manager and filed in the student's special education eligibility folder.

§300.320 Definition of individualized education program.

(a) (4) A statement of the special education and related services and supplementary aids and services, based on peer-reviewed research to the extent practicable, to be provided to the child, or on behalf of the child, and a statement of the program modifications or supports for school personnel that will be provided to enable the child--

(i) To advance appropriately toward attaining the annual goals;

(ii) To be involved in and make progress in the general education curriculum in accordance with paragraph (a)(1) of this section, and to participate in extracurricular and other nonacademic activities; and

(iii) To be educated and participate with other children with disabilities and nondisabled children in the activities described in this section;

Special education, related services and supplementary aids and services must be based on evidence based research to the extent practicable which means to the extent that research is possible and available. Services with the greatest body of research are not necessarily the service required for a child to receive FAPE. The What Works website provides information and a list of strategies documented by evidence.

If a qualified student with a disability requires related aids and services to participate in a regular education class or program (including accelerated classes) then the student must receive those related aids and services. Additional information on scientifically based research and response to intervention resources may be found on the Region 10 ESC Special Education website.

V. Tape or Video Recording

TEC §29.005.

(d) If the child's parent is unable to speak English, the Bell County CoOp shall:

- (1) provide the parent with a written or audiotaped copy of the child's individualized education program translated into Spanish if Spanish is the parent's native language; or
- (2) if the parent's native language is a language other than Spanish, make a good faith effort to provide the parent with a written or audiotaped copy of the child's individualized education program translated into the parent's native language.

The Bell County CoOp, the parent, or the adult student may audio-record the ARD/IEP committee meeting. All participants in the meeting will be informed that such a recording is being made. If a parent or adult student notifies the ARD/IEP committee that they will record the meeting, the district should also record the meeting and put a reference to the audio-tape in the student's special education eligibility folder. The audio tape will be kept confidential and located with the eligibility folder.

The diagnostician/LSSP will ask at the beginning of each ARD meeting if anyone is recording.

TEC §26.009. Consent Required for Certain Activities. (video taping)

(a) An employee of Bell County CoOp must obtain the written consent of a child's parent before the employee may:

- (1) conduct a psychological examination, test, or treatment, unless the examination, test, or treatment is required under Section 38.004 or state or federal law regarding requirements for special education; or
- (2) make or authorize the making of a videotape of a child or record or authorize the recording of a child's voice.

(b) An employee of Bell County CoOp is not required to obtain the consent of a child's parent before the employee may make a videotape of a child or authorize the recording of a child's voice if the videotape or voice recording is to be used only for:

- (1) purposes of safety, including the maintenance of order and discipline in common areas of the school or on school buses;
- (2) a purpose related to a cocurricular or extracurricular activity;

If representatives of the resident school district and representatives of the TSBVI or the TSD disagree, as members of a student's ARD committee, with respect to a recommendation by one or more members of the student's ARD committee that the student be evaluated for placement, initially placed, or continued to be placed at the TSBVI or TSD, as applicable, the representatives of the resident school district and the TSBVI or TSD, as applicable, may seek resolution through the mediation procedures adopted by the Texas Education Agency or through any due process hearing to which the resident school district or the TSBVI or the TSD are entitled under the IDEA, 20 USC, §§1400, et seq.
- (c) When a student's ARD committee places the student at the TSBVI or the TSD, the student's resident school district shall comply with the following requirements.
- (1) For each student, the resident school district shall list those services in the student's individualized education program (IEP) which the TSBVI or the TSD can appropriately provide.
 - (2) The district may make an on-site visit to verify that the TSBVI or the TSD can and will offer the services listed in the individual student's IEP and to ensure that the school offers an appropriate educational program for the student.
 - (3) For each student, the resident school district shall include in the student's IEP the criteria and estimated time lines for returning the student to the resident school district.
- (d) In addition to the provisions of subsections (a)-(c) of this section, and as provided in TEC, §30.057, the TSD shall provide services in accordance with TEC, §30.051, to any eligible student with a disability for whom the TSD is an appropriate placement if the student has been referred for admission by the student's parent or legal guardian, a person with legal authority to act in place of the parent or legal guardian, or the student, if the student is age 18 or older, at any time during the school year if the referring person chooses the TSD as the appropriate placement for the student rather than placement in the student's resident school district or regional program determined by the student's ARD committee. For students placed at the TSD pursuant to this subsection, the TSD shall be responsible for assuring that a FAPE is provided to the student at the TSD, in accordance with IDEA, 20 USC, §§1400, et seq., 34 CFR, Part 300, state statutes, and rules of the SBOE and the commissioner of education.
- (e) For purposes of this section and §89.1090 of this title (relating to Transportation of Students Placed in a Residential Setting, Including the Texas School for the Blind and Visually Impaired and the Texas School for the Deaf), the "resident school district" is the school district in which the student would be enrolled under TEC, §25.001, if the student were not placed at the TSBVI or the TSD.

Y. Transition Planning

§300.320 Definition of individualized education program

(a) **General.** As used in this part, the term individualized education program or IEP means a written statement for each child with a disability that is developed, reviewed, and revised in a meeting in accordance with §§300.320 through 300.324, and that must include--

(1) ---

(2) (i) A statement of **measurable annual goals**, including academic and functional goals designed to--

(A) Meet the child's needs that result from the child's disability to enable the child to be involved in and make progress in the general education curriculum; and

(B) Meet each of the child's other educational needs that result from the child's disability;

(ii) For children with disabilities who take alternate assessments aligned to alternate achievement standards, a description of **benchmarks or short-term objectives**;

(b) **Transition services.** Beginning not later than the first IEP to be in effect when the child turns 16, or younger if determined appropriate by the IEP Team, and updated annually, thereafter, the IEP must include--

(1) Appropriate measurable postsecondary goals based upon age appropriate transition assessments related to training, education, employment, and, where appropriate, independent living skills; and

(2) The transition services (including courses of study) needed to assist the child in reaching those goals.

(3) A description of--

(i) How the **child's progress** toward meeting the annual goals described in paragraph (2) of this section will be measured; and

(ii) When **periodic reports** on the progress the child is making toward meeting the annual goals (such as through the use of quarterly or other periodic reports, concurrent with the issuance of report cards) will be provided;

(4) (For §300.320 in its entirety, please see Section 4a.)

TEC § 29.0111. Beginning of Transition Planning. Appropriate state transition planning under the procedure adopted under Section 29.011 must begin for a student not later than when the student reaches 14 years of age. *Transition services must be in place on or before the student's fourteenth birthday. Diagnostician/LSSPs for the Bell County CoOp will make sure that transition is completed and in place by the age of 13. Therefore, the district will begin formal transition discussions to address transition needs in the annual ARD/IEP committee meeting that occurs prior to the student's fourteenth birthday. Transition services will include:*

- *Identification of measurable postsecondary goals related to training, education, employment, and independent living skills as needed by the student,*
 - *The Transition services needed (including courses) to help the student reach the goals, and*
 - *How progress toward such goals will be measured and how and when progress will be reported to the parents.*
- However, transition discussions will begin when the student enters the ECSE program at age 3 in order to maintain a continuum of services designed to help transition the student into adulthood.*

Documentation of these transition activities will be completed on the district's forms and filed in the student's special education eligibility folder by the educational diagnostician/LSSP.

Transition information will be collected and reviewed by the special education case manager, teacher, or Transition Specialist by meeting with the student at least annually to complete the following activities prior to the ARD/IEP committee meeting.

- *Assist the student to determine strengths, interests, and preferences for future career goals,*
- *Discuss with the student a coordinated set of activities necessary to further goals including CTE electives, the minimum, recommended, and distinguished graduation/career plans, etc.*
- *Determine if Transition Assessments are completed or if any additional assessments are needed. These assessments may be formal or informal assessments such as surveys, environmental inventories, structured observations, interest inventories, etc. and*
- *Assist the student to prepare for sharing his/her postsecondary goals in the ARD/IEP committee meeting. (not later than the first IEP to be in effect when the child turns 14, or younger if determined appropriate by the IEP Team).*

ARD/IEP team participants to invite when transition will be discussed at the committee meeting include:

- *The child with a disability must be invited beginning in Middle School. If he/she does not attend other means should be used so that the child's needs and interest are appropriately addressed.*

- *When appropriate, members of agencies that might be involved in providing or paying for services will be invited.*
- *All required IEP/ARD committee members.*

§300.43 Transition services.

(a) Transition services means a coordinated set of activities for a child with a disability that--

- (1) Is designed to be within a results-oriented process, that is focused on improving the academic and functional achievement of the child with a disability to facilitate the child's movement from school to post-school activities, including postsecondary education, vocational education, integrated employment (including supported employment), continuing and adult education, adult services, independent living, or community participation;**
- (2) Is based on the individual child's needs, taking into account the child's strengths, preferences and interests; and includes--**
 - (i) Instruction;**
 - (ii) Related services;**
 - (iii) Community experiences;**
 - (iv) The development of employment and other post-school adult living objectives; and**
 - (v) If appropriate, acquisition of daily living skills and functional vocational evaluation.**

(b) Transition services for children with disabilities may be special education, if provided as specially designed instruction, or a related service, if required to assist a child with a disability to benefit from special education. (Authority: 20 U.S.C. 1401(34))

§300.321 IEP Team

(b) Transition services participants.

- (1) In accordance with paragraph (a)(7) of this section, the public agency must invite a child with a disability to attend the child's IEP meeting if a purpose of the meeting will be the consideration of the postsecondary goals for the child and the transition services needed to assist the child in reaching those goals under §300.320(b).**
- (2) If the child does not attend the IEP meeting, the public agency must take other steps to ensure that the child's preferences and interests are considered.**

 - (3)that provides for a timely district response to the teacher's request; and
 - (4)that provides for notification to the student's parent or legal guardian of that response.

- (e) Students with disabilities must have available an instructional day commensurate with that of students without disabilities. The ARD committee must determine the appropriate instructional setting and length of day for each student, and these must be specified in the student's IEP.

Opportunity for General Education Teachers to Request Assistance:

The campus administrator or designee will identify the student's special education case manager as the professional charged with providing information and assistance to general education teachers instructing the student. The special education teacher will carry out the following responsibilities in this area.

- A. Provide relevant sections of the IEP such as goals and objectives and accommodations to all teachers working with the student.*
- B. Offer to provide consultation and clarification of the student's program through meetings during a planning time or before/after school. Such consultation might include: discuss grading, homework; clarify student abilities and needs based on evaluation; discuss test accommodations for the teacher to use; or to suggest a behavioral strategy that may work for the student or review the behavioral intervention plan. Support meetings with general educators should be documented in a contact log maintained by the special education teacher.*
- C. Should the general education teacher request support in working with the student or in reviewing the IEP the special education teacher will document the consultation in the electronic notes section of the special education management system.*
- D. General education teachers working with a student may request an IEP meeting should the consultation provided not resolve any issues or concerns. This request will be submitted to the campus principal.*

Opportunity to Provide Input to the ARD committee :

The general education teacher will be provided an opportunity to provide input to the IEP of students they serve. Documentation will be maintained that teacher input forms were provided by special education or that consultation was held with general educators regarding student progress. General education and special education teachers may collaborate in order to determine what is needed on the student's PLAAFP; however, the special education teacher MUST send out the ARD/IEP committee teacher input form to all the student's teachers prior to:

- A. an initial ARD/IEP committee meeting,*
- B. an ARD/IEP meeting to consider existing evaluation data / reevaluation,*
- C. annual review ARD/IEP meeting, or*
- D. an ARD/IEP meeting considering other areas such as behavior, failures, etc..*

Process for Submitting Requests for Further Consideration of Student's IEP - General Education Teacher :

General education teachers working with a student may request an IEP meeting should the consultation provided not resolve any issues or concerns. This request will be submitted to the campus principal. The principal may attempt to resolve concerns by involving other staff such as the diagnostician/LSSP, related services staff or staff with behavioral expertise, depending upon the nature of the concern. An ARD/IEP committee meeting may be requested by principal at any time.

III. SPECIAL EDUCATION TEACHER/SERVICE PROVIDER RESPONSIBILITIES

The special education teacher, speech pathologist, and/or any related service providers are all responsible for the development of the student's PLAAFP and appropriate goals and objectives as well as ongoing progress monitoring and documentation.

The draft of the proposed PLAAFP, IEP goals and objectives should be sent home one week prior to the ARD/IEP committee meeting. A note to the parent should accompany the proposed goals and objectives that explains that the documents are drafts and that the document purpose is to plan for the IEP meeting and to request parent input on the goals and objectives.

The Bell County CoOp staff will come to the ARD/IEP committee meeting prepared to discuss findings and preliminary recommendations for the IEP.

A. Initial ARD/IEP Meeting.

The special education teacher responsibilities in the IEP process are to:

- 1. complete the draft PLAAFP and draft IEP measurable annual goals, based on appropriate evaluation of present levels of performance, benchmark testing, previous state testing, etc., selecting a minimum of one goal for each subject or developmental area that has been addressed on the PLAAFP as a critical area including objectives where a goal is needed to be broken down into smaller steps remembering that there needs to be a minimum of 2 objectives; (remember the general education teacher(s) to the extent appropriate, should participate in the development, review, and revision of the student's IEP),*
- 2. complete the draft IEP by writing in any individualized items needed:*
 - a. complete header information marking DRAFT IEP,*
 - b. complete proposed evaluation procedures, and criteria.*
 - c. how will you teach the goal*
 - d. how will you measure that the goal and determine success*
 - e. what evidence will you use to determine mastery*
- 3. send draft PLAAFP and IEP goals/objectives to the parent at least 7 school days prior to ARD/IEP meeting;*
- 4. write the date the IEP is accepted by ARD/IEP committee on the IEP during the ARD.*
- 5. make copies of the accepted IEP goals and objectives.*
 - a. One copy is to be filed in the student eligibility folder with the completed ARD/IEP forms, and*
 - b. additional copies of the approved IEP will be distributed to the parent and if appropriate, other staff members working with the student.*
 - (1) ensure general education teachers have access to relevant portions of the IEP at any time. Explain how to access relevant portions of the IEP such as goals and benchmarks, needed accommodations, behavioral and other supports needed for the list of special education students they instruct. Access to relevant sections may be offered through viewing the special education teachers' printed copy of the IEP; or making a copy of the relevant sections of the IEP; or logging into the district IEP system if access is available.*
 - (2) In order to document above, obtain signed documentation from the general education teachers that access to relevant portions of the IEP was provided.*
 - c. assist general education teachers who are involved in the student's instruction to maintain documentation that they are modifying and/or accommodating educational programs of students as specified in the ARD/IEP.*
- 6. The special education teacher's copy is used to document progress in the same timely manner as students on your campus who are nondisabled. (ex. every 6 weeks).*

B. Annual

The following apply for each annual ARD/IEP committee meeting:

- 1. Each student's individual educational program (IEP) will be reviewed within 12 months to determine the student's progress, the student's continued need for special education and related services, and the need for modifying the plan. The ARD/IEP committee may schedule an earlier review date if needed for review, modification, failure, etc.*
- 2. At the annual review, the current IEP objectives will be reviewed and documented on the IEP prior to the development and acceptance of a new IEP.*
- 3. IEP's will also be reviewed and documented at the beginning of the year and after breaks in the program for regression/recoupment information necessary to discuss the need for ESY.*
- 4. Progress on the IEP is documented in the same timely manner as other non-disabled students and reported to parents.*
- 5. A copy of the progress report should be filed in the student's special education record to document the report.*

C. Brief/Revision ARD

Recommendations for changes in the individual educational program (IEP), including changes in the student's placement, will be made to the ARD/IEP committee until further guidance from the TEA. Revisions in the student's IEP which need ARD/IEP committee action may include, but not be limited to:

- 1. any lack of expected progress toward the annual goals and in the general curriculum, if appropriate,*
- 2. the results of any reevaluation conducted ,*
- 3. information about the student provided to, or by, the parents,*
- 4. the student's anticipated needs, or*
- 5. other matters including but not limited to:*
 - a. when a student with disabilities fails;*
 - b. assigning a student to a classroom to receive instruction in a different curriculum area (i.e. reading comprehension, math calculation, etc.) than was designated by the last ARD/IEP committee;*
 - c. any addition or deletion of a related service;*
 - d. adding new objectives when all of the goals and objectives have been met;*
 - e. any change in schedule which would change the instructional arrangement, or for high school students-the graduation plan;*
 - f. when the teacher feels the IEP is not appropriate to the student's need.*

All disciplinary actions regarding student with disabilities will be in accordance with federal requirements and TEC Chapter 37, Subchapter A. The ARD/IEP committee will determine the instructional and related services to be provided during the time of expulsion. The student's IEP will include goals and objectives designed to assist in returning the student to school and preventing significant regression.

D. Transfer ARD

The special education teacher will be responsible for attending the Permanent Placement ARD meeting as necessary and working with the campus diagnostician/appraisal staff to plan the draft IEP for the transfer student. Assist in conducting any benchmark or released STAAR testing as appropriate. The Bell County CoOp will assist in obtaining any records from the other district that were not made available through the request from the district to the other district through the Trex system.

For specifics on Transfer ARDs, see Section **4a.X**.

E. Standards-based IEP Development

http://www.esc20.net/default.aspx?name=ci_se.agc.OnlineTraining

A standards-based IEP is a process in which the IEP team has incorporated state content standards in its development of goals aligned with, and chosen to facilitate the student's achievement of, state grade-level academic standards. Many of the questions below are the responsibility of the student's special education teacher(s) in collaboration with the general education teachers.

Steps to Creating a Standards-based IEP

(These steps are adapted from the ESC 20 Progress in the General Curriculum Project Materials)

Step 1: Consider the grade-level content standards for the grade in which the student is enrolled or would be enrolled based on age.

- *What is the intent of the content standard?*
- *What is the content standard saying that the student must know and be able to do?*

Step 2: Examine classroom and student data to determine where the student is functioning in relation to the grade-level standards.

- *Has the student been taught content aligned with grade-level standards?*
- *Has the student been provided appropriate instructional scaffolding to attain grade-level expectations?*
- *Were the lessons and teaching materials used to teach the student aligned with state grade-level standards?*
- *Was the instruction evidence-based?*

Step 3: Develop the present level of academic achievement and functional performance.

Describe the individual strengths and needs of the student in relation to accessing and mastering the general curriculum. Information should be obtained from general education teachers, parents, and any other service providers.

- *What do we know about the student's response to academic instruction (e.g., progress monitoring data)?*
- *What programs, accommodations (i.e., classroom and testing) and/or interventions have been successful with the student?*
- *What have we learned from previous IEPs and student data that can inform decision making?*
- *Are there assessment data (i.e., state, district and/or classroom) that can provide useful information for making decisions about the student's strengths and needs (e.g., patterns in the data)?*

Consider the factors related to the student's disability and how they affect how the student learns and demonstrates what he or she knows.

- *How does the student's disability affect participation and progress in the general curriculum?*
- *What supports does the student need to learn the knowledge and attain the skills to progress in the general curriculum?*
- *Is the student on track to achieve grade-level proficiency?*

Step 4: Develop measurable annual goals aligned with grade-level academic content standards.

- *What are the student's needs as identified in the present level of performance?*
- *Does the goal have a specific timeframe?*
- *What can the student reasonably be expected to accomplish in one school year?*
- *Are the conditions for meeting the goal addressed?*
- *How will the outcome of the goal be measured? Be specific/concrete using measures such as 7 of 10 trials for mastery.*

Step 5: Assess and report the student's progress throughout the year.

- *How does the student demonstrate what he/she knows on classroom, district and state assessments?*
- *Are a variety of assessments used to measure progress?*
- *How will progress be reported to parents?*

Step 6: Identify specially designed instruction including accommodations and/or modifications needed to access and progress in the general education curriculum.

- *What allowable accommodations are needed to enable the student to access the knowledge in the general education curriculum?*
- *What accommodations have been used with the student and were they effective?*
- *Has the complexity of the material changed in such a way that the content has been modified?*

Step 7: Determine the most appropriate assessment option.

- *What types of assessments are offered for the grade level? STAAR, etc.*
- *What types of responses do different assessments require?*

- *What are the administrative conditions of the assessment? (i.e., setting, delivery of instructions, time allotted, etc.)*
- *What accommodations are allowed on the assessment(s)?*
- *Are the accommodations approved for the assessment also used in the classroom? They must be or they cannot be allowed on the state assessment.*
- *Has the student received standards-based, grade-level instruction?*
- *Was the instruction evidence based?*
- *What is the student's instructional level?*
- *How different is the student's instructional level from the level of typical peers?*
- *Can the student make progress toward grade-level standards in the same timeframe as typical peers? (If no, consider modified academic achievement standards)*
- *What can be learned from the student's previous state assessment results?*
- *Can the student demonstrate what he/she knows on the assessment option under consideration?*

IV. PARENTAL OPTIONS FOR STUDENT RETENTION

TEC §28.02124. Parental Option For Student Retention

- (a) Subject to Subsection (c), a parent or guardian may elect for a student to:
- (1) repeat prekindergarten;
 - (2) enroll in prekindergarten, if the student would have been eligible to enroll in prekindergarten during the previous school year under Section 29.153(b) and the student has not yet enrolled in kindergarten;
 - (3) repeat kindergarten;
 - (4) enroll in kindergarten, if the student would have been eligible to enroll in kindergarten in the previous school year and has not yet enrolled in first grade; or
 - (5) for grades one through three, repeat the grade in which the student was enrolled during the previous school year.
- (a-1) Subject to Subsections (a-3) and (c), a parent or guardian may elect for a student to:
- (1) for grades four through eight, repeat the grade the student was enrolled in during the previous school year; and

- (a-4) Subsections (a-1), (a-2), (a-3), and this subsection apply for students who repeat courses from the 2020-2021 school year during the 2021-2022 school year and for students who otherwise enroll during the 2021-2022 school year. Subsections (a-1), (a-2), (a-3), and this subsection expire September 1, 2022.
- (b) An election made by a parent or guardian under this section shall be made in writing to a school district or open-enrollment charter school, as applicable.
- (c) If a school district or an open-enrollment charter school disagrees with an election authorized under this section, the school district or open-enrollment charter school must convene a retention committee and meet with the parent or guardian to discuss retention. A meeting under this subsection shall be conducted in person unless an alternative means is agreeable to the parent or guardian. A student may not be retained for a grade or retake a course under this section if the parent or guardian does not meet with the retention committee.
- (d) A retention committee established under Subsection (c) shall be composed of:
- (1) the principal or the principal's designee;

- (f) If established under Subsection (c), after the parent or guardian has participated in a retention committee meeting, the parent or guardian shall decide whether the student should be retained or retake a grade or course. The school district or open-enrollment school must abide by the decision of the parent or guardian.
- (g) A student who receives a passing grade or who earns credit for a high school course shall retain a school district's or open-enrollment charter school's original assignment of a grade or award of credit when a student is retained under this section, unless the school district or open-enrollment charter school adopts a policy to a different effect.
- (h) Except as provided by this section or other law, retention of a student pursuant to a parent's or guardian's election under this section shall be considered the same as retention of a student by a school district or open-enrollment charter school.
- (i) The rights of a parent or guardian under this section transfer to a student if the student is 18 years of age or older or has had the disabilities of a minor removed, unless the student is under a form of guardianship imposed by law or court order that continues after the student turns 18 years of age.
- (j) The commissioner may adopt rules to implement this section.

Added by Acts 2021, 87th Leg., R.S., Ch. 887 (S.B. 1697), Sec. 4, eff. June 16, 2021.

The district will follow all guidelines for parental options for student retention per §28.02124. The ARD committee may meet to discuss the results of the retention committee decision and review the need for any changes to the student's IEP prior to the beginning of the school year or semester in which the student will be repeating the same grade or high school course.

Section 4c. - RELATED SERVICES

I. DEFINITIONS

TEC §29.002. Definitions. In this subchapter, “special services” means:

- (1) special education instruction, which may be provided by professional and supported by paraprofessional personnel in the regular classroom or in an instructional arrangement described by Section 42.151; and
- (2) related services, which are developmental, corrective, supportive, or evaluative services, not instructional in nature, that may be required for the student to benefit from special education instruction and for implementation of a student’s individualized education program.

The Bell County CoOp will follow all evaluation criteria in the FIE and Disability sections for appropriate related service assessments and reports. Also, ARD/IEP criteria will be followed for related services.

What are direct services?

Direct services usually refer to hands-on, face-to-face interactions between the related services professional and the student. These interactions can take place in a variety of settings, such as the classroom, gym, health office, resource room, counseling office, or playground. Typically, the related service professional analyzes student responses and uses specific techniques to develop or improve particular skills. The professional will also typically: monitor the student's performance within the educational setting so that adjustments can be made to improve student performance, as needed, and consult with teachers, administrators and parents on an ongoing basis, so that relevant strategies can be carried out through indirect means at other times.

What are indirect services?

Indirect services may involve teaching, consulting with, and/or directly supervising other personnel (including paraprofessionals and parents) so that they can carry out therapeutically-appropriate activities. For example, a school psychologist might train teachers and other educators how to implement a program included in a student's IEP to decrease the child's problem behaviors. Similarly, a physical therapist may serve as a consultant to a teacher and provide expertise to solve problems regarding a student's access to instruction.

A record of the related services provided will be documented and maintained by the service provider. Such records are required for both direct and indirect services.

II. REGULATIONS

§300.8 Child with a disability.

(a) General.

- (1) Child with a disability means a child evaluated in accordance with §§300.304 through 300.311 as having mental retardation, a hearing impairment (including deafness), a speech or language impairment, a visual impairment (including blindness), a serious emotional disturbance (referred to in this part as emotional disturbance), an orthopedic impairment, autism, traumatic brain injury, an other health impairment, a specific learning disability, deaf-blindness, or multiple disabilities, and who, by reason thereof, needs special education and related services.
- (2) (i) Subject to paragraph (a)(2)(ii) of this section, if it is determined, through an appropriate evaluation under §§300.304 through 300.311, that a child has one of the disabilities identified in paragraph (a)(1) of this section, but only needs a related service and not special education, the child is not a child with a disability under this part.
(ii) If, consistent with §300.38(a)(2), the related service required by the child is considered special education rather than a related service under State standards, the child would be determined to be a child with a disability under paragraph (a)(1) of this section.

§300.34 Related services.

(a) General. Related services means transportation and such developmental, corrective, and other supportive services as are required to assist a child with a disability to benefit from special education, and includes speech-language pathology and audiology services, interpreting services, psychological services, physical and occupational therapy, recreation, including therapeutic recreation, early identification and assessment of disabilities in children, counseling services, including rehabilitation counseling, orientation and mobility services, and medical services for diagnostic or evaluation purposes. Related services also includes school health services, school nurse services designed to enable a child with a disability to receive a free appropriate public education as described in the IEP of the child, social work services in schools, and parent counseling and training.

(b) Exception; services that apply to children with surgically implanted devices, including cochlear implants.

- (1) Related services do not include a medical device that is surgically implanted, the optimization of device functioning (e.g., mapping), maintenance of the device, or the replacement of that device.
- (2) Nothing in paragraph (b)(1) of this section—
 - (i) Limits the right of a child with a surgically implanted device (e.g., cochlear implant) to receive related services (as listed in paragraph (a) of this section) that are determined by the IEP Team to be necessary for the child to receive FAPE.
 - (ii) Limits the responsibility of Bell County CoOp to appropriately monitor and maintain medical devices that are needed to maintain the health and safety of the child, including breathing, nutrition, or operation of other bodily functions, while the child is transported to and from school or is at school; or
 - (iii) Prevents the routine checking of an external component of a surgically implanted device to make sure it is functioning properly, as required in §300.113(b).

(c) Individual related services terms defined. The terms used in this definition are defined as follows:

(1) Audiology includes--

- (i) Identification of children with hearing loss;
- (ii) Determination of the range, nature, and degree of hearing loss, including referral for medical or other professional attention for the habilitation of hearing;
- (iii) Provision of habilitative activities, such as language habilitation, auditory training, speech reading (lip-reading), hearing evaluation, and speech conservation;
- (iv) Creation and administration of programs for prevention of hearing loss;
- (v) Counseling and guidance of children, parents, and teachers regarding hearing loss; and
- (vi) Determination of children's needs for group and individual amplification, selecting and fitting an appropriate aid, and evaluating the effectiveness of amplification.

- (2) **Counseling services** means services provided by qualified social workers, psychologists, guidance counselors, or other qualified personnel.

Counseling services are provided to assist a child with a disability to benefit from special education. Parent counseling and training includes assisting parents in understanding the special needs of their child; providing information about child development; and helping parents acquire the skills necessary to allow them to support the implementation of their child's IEP or IFSP.

- (3) **Early identification and assessment of disabilities in children** means the implementation of a formal plan for identifying a disability as early as possible in a child's life.

In-Home Training

In-home training is the result of findings by the State of Texas that many individuals with autism/P.D.D. experience difficulty generalizing social/behavioral skills from one setting to another. In-home training is a supplemental/related service for students with autism/P.D.D. that involves working directly with the student and/or providing strategies for a variety of non-school settings including home or community to help them generalize social/behavioral skills. A referral should be made by the diagnostician/LSSP to the Special Education Director to determine skills to generalize through in-home training; which can be derived from a request from a parent, guardian, teacher or other member(s) of an ARDC. Once the referral is made, an in-home training needs assessment should be conducted. This assessment should involve an interview with the parent or guardian, observation of the student and interview(s) with teacher(s), review of other data including current IEPs to determine mastered or near mastered goals and objectives for determination of skills to generalize. Parents, or a district approved designee, are required to participate in In-Home Training sessions in order to be equipped and implement generalization of ARD Committee determined goals.

This service may be implemented by the same - or different - service providers (in-home trainers/ parent trainers). Service providers are determined by district personnel but should be knowledgeable of the unique needs of students with autism/P.D.D.

In-home training may also be considered by the IEP team for students with other intellectual and/or developmental disabilities. The criterion for making such a determination is that the student is not making educational progress and requires support and training beyond the regular school day. Request for this service will be made to the Special Education office using appropriate district forms and documented in the IEP meeting.

- (4) **Interpreting services** means services provided by a licensed physician to determine a child's medically related disability that results in the child's need for special education and related services.

- (i) The following when used with respect to children who are deaf or hard of hearing: oral transliteration services, cued language transliteration services, and sign language transliteration and interpreting services and transcription services, such as communication access real-time translation (CART), C-Print, and TypeWell; and
- (ii) Special interpreting services for children who are deaf-blind.

- (5) **Medical services** means services provided by a licensed physician to determine a child's medically related disability that results in the child's need for special education and related services.

- (6) **Occupational therapy** means--

(i) Services provided by a qualified occupational therapist; and

(ii) Includes--

- (A) Improving, developing or restoring functions impaired or lost through illness, injury, or deprivation;
- (B) Improving ability to perform tasks for independent functioning if functions are impaired or lost; and
- (C) Preventing, through early intervention, initial or further impairment or loss of function.

The primary function is to directly assist the student to benefit from instruction. Occupational and physical therapy services will be provided when a disability adversely affects the educational performance. The therapist will aid the student to develop, increase, improve, and maintain skills that are

prerequisites for the student to function within his educational environment. For referral information see also Section 1.

Medical Requirement

OT/PT Physician's Referral Form. (This form must be completed and signed by a physician. This form is required before any PT services can be implemented. **Implementation of some OT services may require this form.**).

Occupational and Physical Therapy Services

The following are key considerations for the delivery of OT and PT services in the public school setting. These considerations are based on research and guidance from leading experts in the practice of therapy services in school systems:

1. Services are provided to enable the student to benefit from his or her special education program and facilitate access to the general curriculum.
 - Strategies should be integrated into the classroom and school environment to support learning of curriculum content.
 - Interventions should support skills that are needed for graduation with a diploma.
2. Services are provided in the student's daily educational routine.
 - Skills are taught across all educational settings.
 - Therapeutic activities occur throughout the school day and often are implemented by instructional staff in collaboration with the therapist.
 - Skills must be taught in naturally occurring environments.
 - Skills must be generalized across different school settings, not isolated solely with the therapist in a separate area.
3. Services are provided through a team approach.
 - Team members share information, strategies, and techniques to assure continuity of services.
 - Educational strategies and interventions are developed and implemented jointly by the IEP team members including the student when appropriate.
 - Regular team meetings provide the communication of information and outcomes that guide the plan of activities and instruction that occurs throughout the day in the classroom, home and community.

Occupational and Physical Therapy Service Delivery Options

Services are provided through the use of a variety of delivery models.

- Service delivery models include monitoring, consulting and working directly with the student.
- Effective therapy services generally include a combination of models to meet the unique needs of each student.
- Effective therapy services include the following:
- Training parents and school staff in activities and accommodations to be implemented throughout the student's day
- Observing and critically analyzing student performance and responses that prevent the student from benefiting from his or her educational program
- Identifying, selecting, and adapting special materials and equipment
- Collaborating and coordinating with teacher and families for needed changes in instruction and in the learning environment
- Consulting with students, parents and school staff.

A student's need for OT and/or PT services may vary over time.

- Student therapy needs differ in intensity and in focus during the students' school year/s.
- These fluctuations are reflected in the IEP and should be fluid and flexible, based on the immediate educational needs at any time during the student's course of study.

Discontinuation Of Occupational and/or Physical Therapy Services Will Occur:

Upon ARD/IEP committee discussion of current evaluation (formal and/or informal) and recommendation that OT/PT services are no longer required due to one or more of the following:

- The student has accomplished the goals targeted in the IEP (Individual Educational Program);

- *The student has achieved the maximum benefit from occupational and/or physical therapy;*
- *The student's physical dysfunction does not negatively affect his/her educational program;*
- *The student maintains progress and no evidence of change is seen;*
- *The intervention will not impact the educational success of the student.*

TAC §372.1 OT Provision of Services

- (a) The occupational therapist is responsible for determining whether any aspect of the provision of services may be conducted via telehealth or must be conducted in person.
- (a) Medical Conditions.
- (1) Occupational therapists may provide consultation or monitored services, or screen or evaluate the client to determine the need for occupational therapy services without a referral. However, a referral must be requested at any time during the evaluation process when necessary to ensure the safety and welfare of the client.
 - (2) The initial evaluation for a medical condition must be conducted in person and may not be conducted via telehealth.
- (c) Non-Medical Conditions.
- (1) Consultation, monitored services, screening, and evaluation for need of services may be provided without a referral.
 - (2) Non-medical conditions do not require a referral. However, a referral must be requested at any time during the evaluation or intervention process when necessary to ensure the safety and welfare of the client.
- (d) Methods of Referral. The referral must be from a licensed referral source in accordance with the Practice Act, §454.213 (relating to Accepted Practice; Practitioner's Referral), and may be transmitted in the following ways:
- (1) in a written document, including faxed and emailed documents; or
 - (2) verbally, either in person or by electronic information/communications technologies. If a referral is transmitted verbally, it must be documented by the authorized personnel who receives the referral. In this section, "authorized personnel" means staff members authorized by the employer or occupational therapist to receive referrals transmitted verbally.
- (e) Screening, Consultation, and Monitored Services. A screening, consultation, or monitored services may be performed by an occupational therapy practitioner.
- (f) Evaluation.
- (1) Only an occupational therapist may perform an initial evaluation or any re-evaluations.

 - (3) The occupational therapist must have real time interaction with the client during the evaluation process either in person or via telehealth.
 - (4) The occupational therapist may delegate to an occupational therapy assistant or temporary licensee the collection of data for the assessment. The occupational therapist is responsible for the accuracy of the data collected by the assistant.
- (g) Plan of Care.
- (1) Only an occupational therapist may initiate, develop, modify or complete an occupational therapy plan of care. It is a violation of the OT Practice Act for anyone other than the evaluating or treating occupational therapist to dictate, or attempt to dictate, when occupational therapy services should or should not be provided, the nature and frequency of services that are provided, when the client should be discharged, or any other aspect of the provision of occupational therapy as set out in the OT Act and Rules.
 - (2) The occupational therapist and an occupational therapy assistant may work jointly to revise the short-term goals, but the final determination resides with the occupational therapist. Revisions to the plan of care and goals must be documented by the occupational therapist and/or occupational therapy assistant to reflect revisions at the time of the change.
 - (3) An occupational therapy plan of care may be integrated into an interdisciplinary plan of care, but the occupational therapy goals or objectives must be easily identifiable in the plan of care.
 - (4) Only occupational therapy practitioners may implement the written plan of care once it is completed by the occupational therapist.

- (5) Only the occupational therapy practitioner may train non-licensed personnel or family members to carry out specific tasks that support the occupational therapy plan of care.

 - (7) The occupational therapy practitioners must have real time interaction with the client during the intervention process either in person or via telehealth.
 - (8) Devices that are in sustained skin contact with the client (including but not limited to wheelchair positioning devices, splints, hot/cold packs, and therapeutic tape) require the on-site and attending presence of the occupational therapy practitioner for any initial applications. The occupational therapy practitioner is responsible for determining the need to be on-site and attending for subsequent applications or modifications.
 - (9) Except where otherwise restricted by rule, the supervising occupational therapist may only delegate to an occupational therapy assistant or temporary licensee tasks that they both agree are within the competency level of that occupational therapy assistant or temporary licensee.
- (h) Documentation.
- (1) The client's records include the medical referral, if required, and the plan of care. The plan of care includes the initial examination and evaluation; the goals and any updates or change of the goals; the documentation of each intervention session by the OT or OTA providing the service; progress notes and any re-evaluations, if required; any written communication; and the discharge documentation.
 - (2) The licensee providing occupational therapy services must document for each intervention session. The documentation must accurately reflect the intervention, decline of intervention, and/or modalities provided.
 - (3) The occupational therapy assistant must include the name of a supervising OT in each intervention note. This may not necessarily be the occupational therapist who wrote the plan of care, but an occupational therapist who is readily available to answer questions about the client's intervention at the time of the provision of services. If this requirement is not met, the occupational therapy assistant may not provide services.
- (i) Discharge.
- (1) Only an occupational therapist has the authority to discharge clients from occupational therapy services. The discharge is based on whether the client has achieved predetermined goals, has achieved maximum benefit from occupational therapy services, or when other circumstances warrant discontinuation of occupational therapy services.
 - (2) The occupational therapist must review any information from the occupational therapy assistant(s), determine if goals were met or not, complete and sign the discharge documentation, and/or make recommendations for any further needs of the client in another continuum of care.

22 TAC §465.38. Psychological Services in the Schools. [Excerpt]

This rule acknowledges the unique difference in the delivery of school psychological services in the public schools from psychological services in the private sector. The Board recognizes the purview of the State Board of Education and the Texas Education Agency in safeguarding the rights of public school children in Texas. The mandated multi disciplinary team decision making, hierarchy of supervision, regulatory provisions, and past traditions of school psychological service delivery both nationally and in Texas, among other factors, allow for rules of practice in the public schools which reflect these occupational distinctions from the private practice of psychology.

Prior to requesting a psychological evaluation, school personnel should be able to document previous educational efforts and strategies and the results of those efforts including participation in or consideration for other programs within Bell County CoOp. Further, an intellectual and academic evaluation must be completed.

Service animal means any dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. Other species of animals, whether wild or domestic, trained or untrained, are not service animals for the purposes of this definition. The work or tasks performed by a service animal must be directly related to the handler’s disability. Examples of work or tasks include, but are not limited to, assisting individuals who are blind or have low vision with navigation and other tasks, alerting individuals who are deaf or hard of hearing to the presence of people or sounds, providing non-violent protection or rescue work, pulling a wheelchair, assisting an individual during a seizure, alerting individuals to the presence of allergens, retrieving items such as medicine or the telephone, providing physical support and assistance with balance and stability to individuals with mobility disabilities, and helping persons with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors. The crime deterrent effects of an animal’s presence and the provision of emotional support, well-being, comfort, or companionship do not constitute work or tasks for the purposes of this definition.

83rd Legislature Summer 2013

Governor Perry signed House Bill 489, on June 10, 2013, which allows individuals with disabilities to use the assistance of service animals in all public places, including retail businesses and restaurants, without having to show the qualifications or certifications of the assistance animal.

SERVICE ANIMALS

The Bell County CoOp special education department will follow any current State or local school board policy regarding the use of service animals in the school buildings during the school day. Service animals are supportive services required for the student to receive FAPE(Free Appropriate Public Education) and benefit from special education. See definitions below.

28 CFR §35.136 Service animals.

- (a) **General.** Generally, a public entity shall modify its policies, practices, or procedures to permit the use of a service animal by an individual with a disability.
- (b) **Exceptions.** A public entity may ask an individual with a disability to remove a service animal from the premises if—
- (1) The animal is out of control and the animal’s handler does not take effective action to control it; or
 - (2) The animal is not housebroken.
- (c) **If an animal is properly excluded.** If a public entity properly excludes a service animal under § 35.136(b), it shall give the individual with a disability the opportunity to participate in the service, program, or activity without having the service animal on the premises.
- (d) **Animal under handler’s control.** A service animal shall be under the control of its handler. A service animal shall have a harness, leash, or other tether, unless either the handler is unable because of a disability to use a harness, leash, or other tether, or the use of a harness, leash, or other tether would interfere with the service animal’s safe, effective performance of work or tasks, in which case the service animal must be otherwise under the handler’s control (e.g., voice control, signals, or other effective means).
- (e) **Care or supervision.** A public entity is not responsible for the care or supervision of a service animal.
- (f) **Inquiries.** A public entity shall not ask about the nature or extent of a person’s disability, but may make two inquiries to determine whether an animal qualifies as a service animal. A public entity may ask if the animal is required because of a disability and what work or task the animal has been trained to perform. A public entity shall not require documentation, such as proof that the animal has been certified, trained, or licensed as a service animal.
Generally, the Bell County CoOp may not make these inquiries about a service animal when it is readily apparent that an animal is trained to do work or perform tasks for an individual with a disability (e.g., the dog is observed guiding an individual who is blind or has low vision, pulling a person’s wheelchair, or providing assistance with stability or balance to an individual with an observable mobility disability).
- (g) **Access to areas of a public entity.** Individuals with disabilities shall be permitted to be accompanied by their service animals in all areas of a public entity’s facilities where members of the public, participants in services, programs or activities, or invitees, as relevant, are allowed to go.
- (h) **Surcharges.** A public entity shall not ask or require an individual with a disability to pay a surcharge, even if people accompanied by pets are required to pay fees, or to comply with other requirements generally not applicable to people without pets. If a public entity normally charges individuals for the damage they cause, an individual with a disability may be charged for damage caused by his or her service animal.
- (i) **Miniature horses.**
- (1) **Reasonable modifications.** A public entity shall make reasonable modifications in policies, practices, or procedures to permit the use of a miniature horse by an individual with a disability if the miniature horse has been individually trained to do work or perform tasks for the benefit of the individual with a disability.
 - (2) **Assessment factors.** In determining whether reasonable modifications in policies, practices, or procedures can be made to allow a miniature horse into a specific facility, a public entity shall consider—
 - (i) The type, size, and weight of the miniature horse and whether the facility can accommodate these features;
 - (ii) Whether the handler has sufficient control of the miniature horse;
 - (iii) Whether the miniature horse is housebroken; and
 - (iv) Whether the miniature horse’s presence in a specific facility compromises legitimate safety requirements that are necessary for safe operation.
- (C) **Other requirements.** Paragraphs 35.136(c) through (h) of this section, which apply to service animals, shall also apply to miniature horses.

[SERVICE ANIMALS IN SCHOOLS:](#)

Generally, under the federal Americans with Disabilities Act (ADA) and other federal laws concerning service animals, two primary questions exist in whether a person has a legal right to claim their animal as a service animal. 28 CFR §35.136

- is the animal required because of a disability and
- what work or task the animal has been trained to perform.

IEP Meeting Scheduled if Parental Request for Service Animal

- 1. Schedule an IEP meeting to discuss necessity of the service animal on school premises.*
- 2. The student must have a disability and the parent / student must share/verify two questions.*
 - is the animal required because of the disability and*
 - what work or task the animal has been trained to perform? The animal must be a trained service animal. Document specific tasks the animal has been taught to perform or do work (help, aid, support) that assists the disabled individual. Parent will share with the IEP committee the specific ways the service animal assists the student at home and how the animal could assist the student to gain educational benefit at school.*

- 5. After the trial implementation, the IEP Committee will reconvene to review the data and determine if the service animal is needed during the school day. Based on the data gathered, if the school district has an IEP in place that can meet the same service needs as the service animal, the animal is not needed during the school day. However, if the data supports the need for the service animal, then the Bell County CoOp will incorporate the service animal into the school day and assign personnel to assist with the care and toileting needs of the animal during the school day.*

IV. RELATED SERVICES – Frequency, Location, Duration

§300.320 Definition of individualized education program.

(a) **General.** As used in this part, the term individualized education program or IEP means a written statement for each child with a disability that is developed, reviewed, and revised in a meeting in accordance with §§300.320 through 300.324, and that must include--

- (4) A statement of the special education and related services and supplementary aids and services, based on peer-reviewed research to the extent practicable, to be provided to the child, or on behalf of the child, and a statement of the program modifications or supports for school personnel that will be provided to enable the child--
 - (i) To advance appropriately toward attaining the annual goals;
 - (ii) To be involved in and make progress in the general education curriculum in accordance with paragraph (a)(1) of this section, and to participate in extracurricular and other nonacademic activities; and
 - (iii) To be educated and participate with other children with disabilities and nondisabled children in the activities described in this section;
- (5) An explanation of the extent, if any, to which the child will not participate with nondisabled children in the regular class and in the activities described in paragraph (a)(4) of this section;
- (6) (i) A statement of any individual appropriate accommodations that are necessary to measure the academic achievement and functional performance of the child on State and districtwide assessments consistent with section 612(a)(16) of the Act; and
(ii) If the IEP Team determines that the child must take an alternate assessment instead of a particular regular State or districtwide assessment of student achievement, a statement of why--
 - (A) The child cannot participate in the regular assessment; and
 - (B) The particular alternate assessment selected is appropriate for the child; and
- (7) The projected date for the beginning of the services and modifications described in paragraph (a)(4) of this section, and the **anticipated frequency, location, and duration of those services and modifications.**

Documentation for provision of services described in the IEP will be through a variety of information and sources based on the most appropriate means for the individual service and environment. Special education instructional and related services will be documented by progress on the IEP, student attendance and lesson plans. In addition, portfolios may be maintained as well as provider logs. Provider logs will be maintained by each service provider and reviewed at the IEP meeting as appropriate. Any service interruption resulting from special education staff absence will be reported to the appropriate administration following local district procedures.

Documenting the Frequency, Location and Duration of Related Services

The Federal Register dated August 14, 2006, provides guidance in this area within its discussion of the comments regarding the proposed 2006 IDEA regulations. A comment to the regulations asked for clarification regarding the term duration. The response in the Federal Register was:

The meaning of the term “duration” will vary, depending on such things as the needs of the child, the service being provided, the particular format used in an IEP, and how the child’s day and IEP are structured. What is required is that the IEP include information about the amount of services that will be provided to the child, so that the level of the agency’s commitment of resources will be clear to parents and other IEP Team members. The amount of time to be committed to each of the various services to be provided must be appropriate to the specific service, and clearly stated in the IEP in a manner that can be understood by all involved in the development and implementation of the IEP. (Federal Register, Vol 71 No 156 p. 46667)

Requirements for Documenting the Provision of Related Services

- **Frequency – how often** the child will receive the service(s) (number of times per day or week). If the service is less than daily then the conditions for the provision of the services must be clearly specified within the ARD documents using a weekly reference (ex: 1 hour per week, 30 minutes every two weeks)
- **Duration - how long** each “session” will last (number of minutes) and **when** services will begin and end (starting and ending dates) How long will each session be (15 minutes, 30 minutes)? If a term (1 class period) is

used in the IEP to define duration of service, the term must be defined in the IEP (example: 1 class period = 50 minutes).

- *Location - **where** services will be provided (in the general education classroom or another setting such as a special education resource room).*

V. Private Service Providers

The local district does not allow private consultants or service providers to meet and work with students during the school day on the school premises. The school district is responsible for making decisions in the ARD/IEP meeting regarding the student needs (FAPE) that the school district is responsible for providing in the Least Restrictive Environment. Liability and other concerns constitute reason for this decision. If a parent request for a private service provider is made to a Principal or other school employee, an ARD/IEP Committee Meeting may be held to discuss the request and appropriate services for the student.

TAC §89.63. Instructional Arrangements and Settings.

- (a) The LEA shall be able to provide services with special education personnel to students with disabilities in order to meet the special needs of those students in accordance with 34 Code of Federal Regulations, §§300.114-300.118.
- (b) Subject to §89.1075(f) of this title (relating to General Program Requirements and Local District Procedures) for the purpose of determining the student's instructional arrangement/setting, the regular school day is defined as the period of time determined appropriate by the admission, review, and dismissal (ARD) committee.
- (c) Instructional arrangements/settings shall be based on the individual needs and individualized education programs (IEPs) of eligible students receiving special education services and shall include the following.
 - (1) **Mainstream.** This instructional arrangement/setting is for providing special education and related services to a student in the regular classroom in accordance with the student's IEP. Qualified special education personnel must be involved in the implementation of the student's IEP through the provision of direct, indirect and/or support services to the student, and/or the student's regular classroom teacher(s) necessary to enrich the regular classroom and enable student success. The student's IEP must specify the services that will be provided by qualified special education personnel to enable the student to appropriately progress in the general education curriculum and/or appropriately advance in achieving the goals set out in the student's IEP. Examples of services provided in this instructional arrangement include, but are not limited to, direct instruction, helping teacher, team teaching, co-teaching, interpreter, education aides, curricular or instructional modifications/accommodations, special materials/equipment, positive classroom behavioral interventions and supports, consultation with the student and his/her regular classroom teacher(s) regarding the student's progress in regular education classes, staff development, and reduction of ratio of students to instructional staff. *The role of the special education teacher for a fully included mainstream student is to follow the IEP for those students on their assigned case load. The IEP is individualized, therefore, a student will receive varying degrees of specially designed instruction as described above. Qualified special education personnel must be involved in the implementation of the student's IEP through the provision of direct, indirect, and/or support services provided to the student in the general education classroom and/or; in collaboration with the student's general education classroom teachers(s). Monitoring student progress in and of itself does **not** constitute a special education service. If certified special education personnel are **only monitoring** student progress, mainstream special education funding cannot be generated. **Requirements Related to Teachers Providing Instruction in Mainstream Settings:** A student with a disability receives specially designed instruction. Specially designed instruction may be provided by either a special education teacher, a para-educator or a general education teacher. If provided by a para-educator or a general education teacher, the services must be designed by and supervised by the special education teacher. One teacher, even if dually certified, may not serve in both a general education and a special education role simultaneously when serving students in grades K–12. Students with disabilities who are aged 3 or 4 years may have an instructional arrangement/setting code of 40, mainstream, if special education services are provided in classroom settings with nondisabled peers. The only context in which a dually certified teacher may serve in both a general education and a special education role is in an early childhood program for students aged 3 or 4 years.* TEA-SAAH
 - (2) **Homebound.** This instructional arrangement/setting is for providing special education and related services to students who are served at home or hospital bedside.
 - (A) Students served on a homebound or hospital bedside basis are expected to be confined for a minimum of four consecutive weeks as documented by a physician licensed to practice in the United States. Homebound or hospital bedside instruction may, as provided by local district policy, also be

provided to chronically ill students who are expected to be confined for any period of time totaling at least four weeks throughout the school year as documented by a physician licensed to practice in the United States. The student's ARD committee shall determine the amount of services to be provided to the student in this instructional arrangement/setting in accordance with federal and state laws, rules, and regulations, including the provisions specified in subsection (b) of this section.

- (B) Home instruction may also be used for services to infants and toddlers (birth through age 2) and young children (ages 3-5) when determined appropriate by the child's individualized family services plan (IFSP) committee or ARD committee. This arrangement/setting also applies to school districts described in Texas Education Code, §29.014.

Homebound Notes

To be placed in the special education homebound instructional setting, a student aged 6 years or older must meet the following four criteria:

- The student is eligible for special education and related services as determined by an ARD committee.
- The student is expected to be confined at home or hospital bedside for a minimum of 4 weeks (the weeks need not be consecutive).
- The student is confined at home or hospital bedside for medical reasons only.
- The student's medical condition is documented by a physician licensed to practice in the United States.

The student's ARD committee determines the amount of services to be provided to the student in this instructional arrangement/setting.

- The teacher serving a student at home or hospital bedside ("homebound teacher") while the student is in the special education homebound setting must be a certified special education teacher. Beginning with the 2016-17 school year, schools and teachers only needed to meet state requirements for certification. The federal term of "highly qualified teacher status" no longer applies. It is important to note that all state certification requirements adopted in State Board for Educator Certification rules remain in place. For the certification required for particular assignments, see 19 TAC Chapter 231, available at: <http://ritter.tea.state.tx.us/sbecrules/tac/chapter231/>
- A student aged 6 years or older who is served in the special education homebound instructional setting retains the same ADA eligibility code he or she had before receiving homebound services, regardless of how many hours the student will be served in the homebound instructional setting.
- The placement of a student who is expelled must not be changed to the homebound instructional setting (see [10.6.2. Disciplinary Removals of Students with Disabilities](#) for detailed information regarding appropriate instructional setting codes and ADA eligibility when expelling students who are receiving special education and related services).

General Education Homebound (GEH)

Any general education student should be referred to the local campus GEH committee.

Student Attendance Accounting Manual - (Section 3-7)

- (3) **Hospital class.** This instructional arrangement/setting is for providing special education instruction in a classroom, in a hospital facility, or a residential care and treatment facility not operated by the school district. If the students residing in the facility are provided special education services outside the facility, they are considered to be served in the instructional arrangement in which they are placed and are not to be considered as in a hospital class.
- (4) **Speech therapy.** This instructional arrangement/setting is for providing speech therapy services whether in a regular education classroom or in a setting other than a regular education classroom. When the only special education or related service provided to a student is speech therapy, then this instructional arrangement may not be combined with any other instructional arrangement.
- (5) **Resource room/services.** This instructional arrangement/setting is for providing special education and related services to a student in a setting other than regular education for less than 50% of the regular school day.
- (6) **Self-contained** (mild, moderate, or severe) regular campus. This instructional arrangement/setting is for providing special education and related services to a student who is in a self-contained program for 50% or more of the regular school day on a regular school campus.
- (7) **Off-home campus.** This instructional arrangement/setting is for providing special education and related services to the following, including, but not limited to, students at South Texas Independent School District and Windham Independent School District:
 - (A) a student who is one of a group of students from more than one school district served in a single location when a free appropriate public education is not available in the respective sending district;

- (B) a student in a community setting or environment (not operated by a school district) that prepares the student for postsecondary education/training, integrated employment, and/or independent living in coordination with the student's individual transition goals and objectives, including a student with regularly scheduled instruction or direct involvement provided by school district personnel, or a student in a facility not operated by a school district (other than a nonpublic day school) with instruction provided by school district personnel; or
- (C) a student in a self-contained program at a separate campus operated by the school district that provides only special education and related services.
- (8) **Nonpublic day school.** This instructional arrangement/setting is for providing special education and related services to students through a contractual agreement with a nonpublic school for special education.
- (9) **Vocational adjustment class/program.** This instructional arrangement/setting is for providing special education and related services to a student who is placed on a job (paid or unpaid unless otherwise prohibited by law) with regularly scheduled direct involvement by special education personnel in the implementation of the student's IEP. This instructional arrangement/setting shall be used in conjunction with the student's individual transition goals and only after the school district's career and technical education classes have been considered and determined inappropriate for the student.
- (10) **Residential care and treatment facility** (not school district resident). This instructional arrangement/setting is for providing special education instruction and related services to students who reside in care and treatment facilities and whose parents do not reside within the boundaries of the school district providing educational services to the students. In order to be considered in this arrangement, the services must be provided on a school district campus. If the instruction is provided at the facility, rather than on a school district campus, the instructional arrangement is considered to be the hospital class arrangement/setting rather than this instructional arrangement. Students with disabilities who reside in these facilities may be included in the average daily attendance of the district in the same way as all other students receiving special education.
- (11) **State supported living center.** This instructional arrangement/setting is for providing special education and related services to a student who resides at a state supported living center when the services are provided at the state supported living center location. If services are provided on a local school district campus, the student is considered to be served in the residential care and treatment facility arrangement/setting.
- (d) The appropriate instructional arrangement for students from birth through the age of two with visual and/or auditory impairments shall be determined in accordance with the IFSP, current attendance guidelines, and the agreement memorandum between the Texas Education Agency (TEA) and the Department of Assistive and Rehabilitative Services (DARS) Early Childhood Intervention (ECI) Services.
- (e) For nonpublic day school placements, the school district or shared service arrangement shall submit information to the TEA indicating the students' identification numbers, initial dates of placement, and the names of the facilities with which the school district or shared service arrangement is contracting. The school district or shared service arrangement shall not count contract students' average daily attendance as eligible. The TEA shall determine the number of contract students reported in full-time equivalents and pay state funds to the district according to the formula prescribed in law.
- (f) Other program options which may be considered for the delivery of special education and related services to a student may include the following:
 - (1) contracts with other school districts; and
 - (2) other program options as approved by the TEA.

TEC §89.1094 Students Receiving Special Education and Related Services in an Off-Campus Program.

- (a) Definitions. The following words and terms, when used in this section, shall have the following meanings, unless the context clearly indicates otherwise.
 - (1) School district--The definition of a school district includes independent school districts established under Texas Education Code (TEC), Chapter 11, Subchapters A-F, and open-enrollment charter schools established under TEC, Chapter 12, Subchapter D.
 - (2) Off-campus program--An off-campus program includes special education and related services provided during school hours in a facility other than a school district campus.
 - (3) Off-campus program provider--An off-campus program provider is an entity that provides the services identified in subsection (a)(2) of this section and includes:
 - (A) a county system operating under application of former law as provided in TEC, §11.301;
 - (B) a regional education service center established under TEC, Chapter 8;
 - (C) a nonpublic day school; or

- (D) any other public or private entity with which a school district enters into a contract under TEC, §11.157, for the provision of special education services in a facility other than a school district campus operated by a school district.
- (b) Off-campus program placement. A school district may contract with an off-campus program provider to provide some or all of the special education and related services to a student in accordance with the requirements in this section.
- (1) Before the school district places a student with a disability in, or refers a student to, an off-campus program, the district shall initiate and conduct an onsite review to ensure that the off-campus program is appropriate for meeting the student's educational needs.
 - (2) Before the school district places a student with a disability in, or refers a student to, an off-campus program, the district shall initiate and conduct a meeting of the student's admission, review, and dismissal (ARD) committee to develop an individualized education program (IEP) for the student in accordance with 34 Code of Federal Regulations (CFR), §§300.320-300.325, state statutes, and commissioner of education rules in Chapter 89 of this title (relating to Commissioner's Rules Concerning Special Education Services).
 - (3) The appropriateness of the off-campus program for each student placed shall be documented in the IEP annually. The student's ARD committee may only recommend an off-campus program placement for a student if the committee determines that the nature and severity of the student's disability and special education needs are such that the student cannot be satisfactorily educated in the school district.
 - (A) The student's IEP must list which services the school district is unable to provide and which services the facility will provide.
 - (B) The ARD committee shall establish, in writing, criteria and estimated timelines for the student's return to the school and document this information in the IEP.
 - (C) The school district shall make two on-site visits annually, one announced and one unannounced, to:
 - (i) verify that the off-campus program can, and will, provide the services listed in the student's IEP that the off-campus program has agreed to provide to the student;
 - (ii) obtain written verification that the facility meets minimum standards for health and safety and holds applicable local and state accreditation and permit requirements; and
 - (iii) verify the educational program provided at the off-campus program facility is the least restrictive environment for the student.
 - (4) The placement of more than one student in the same off-campus program facility may be considered in the same on-site visit to a facility. However, the IEP of each student must be individually reviewed, and a determination of appropriateness of placement and services must be made for each student.
- (c) Notification. Within 30 calendar days from an ARD committee's decision to place a student in an off-campus program, a school district must electronically submit to the Texas Education Agency (TEA) notice of, and information regarding, the placement in accordance with submission procedures specified by the TEA.
- (1) If the off-campus program is on the commissioner's list of approved off-campus programs, the TEA will review the student's IEP and placement as required by 34 CFR, §300.120, and, in the case of a placement in or referral to a private school or facility, 34 CFR, §300.146. After review, the TEA will notify the school district whether federal or state funds for the off-campus program placement are approved. If the TEA does not approve the use of funds, it will notify the school district of the basis for the non-approval.
 - (2) If the off-campus program is not on the commissioner's list of approved off-campus programs, the TEA will begin the approval procedures described in subsection (d) of this section. School districts must ensure there is no delay in implementing a child's IEP in accordance with 34 CFR, §300.103(c).
 - (3) If an off-campus program placement is ordered by a special education hearing officer or court of competent jurisdiction, the school district must notify the TEA of the order within 30 calendar days. The off-campus program serving the student is not required to go through the approval procedures described in subsection (d) of this section for the ordered placement. If, however, the school district or other school districts intend to place other students in the off-campus program, the off-campus program will be required to go through the approval procedures to be included on the commissioner's list of approved off-campus programs.
- (d) Approval of the off-campus program. Off-campus programs must have their educational programs approved for contracting purposes by the commissioner.
- (1) For a program to be approved, the school district must electronically submit to the TEA notice of, and information regarding, the placement in accordance with submission procedures specified by the TEA. The TEA shall begin approval procedures and conduct an on-site visit to the facility within 30 calendar days after the TEA has been notified by the school district. Initial approval of the off-campus program shall be for one calendar year.

- (2) The off-campus program may be approved only after, at minimum, a programmatic evaluation of personnel qualifications, adequacy of physical plant and equipment, and curriculum content.
 - (3) The commissioner shall renew approvals and issue new approvals only for those facilities that have a contract already in place with a school district for the placement of one or more students or that have a pending request from a school district. This approval does not apply to facilities that only provide related services. Nor does it apply to facilities when the school district, within which the facility is located, provides the educational program. Re-approval of the off-campus program may be for one, two, or three years at the TEA's discretion.
- (e) Funding procedures and other requirements. The cost of off-campus program placements will be funded according to TEC, §42.151 (Special Education), and §89.63(e) of this title (relating to Instructional Arrangements and Settings).
- (1) Contracts between school districts and approved off-campus programs must not exceed a school district's fiscal year and shall not begin prior to July 1 of the contracted fiscal year.
 - (2) Amendments to a contract must be electronically submitted to the TEA in accordance with submission procedures specified by the TEA no later than 30 calendar days from the change in placement or services within the school district's fiscal year.
 - (3) If a student who is placed in an off-campus program by a school district changes his or her residence to another Texas school district during the school year, the school district must notify the TEA within 10 calendar days of the date on which the school district ceased contracting with the off-campus program for the student's placement. The student's new school district must meet the requirements of 34 CFR, §300.323(e), by providing comparable services to those described in the student's IEP from the previous school district until the new school district either adopts the student's IEP from the previous school district or develops, adopts, and implements a new IEP. The new school district must comply with all procedures described in this section for continued or new off-campus program placement.

The district will follow requirements of TEC §89.1094 for any off-campus placement.

II. PRIVATE SCHOOLS: ENROLLED BY THE PARENTS

§300.129 State responsibility regarding children in private schools.

(IMPORTANT: See also TAC §89.1096. Services for Students Placed by their Parents – Section 4 IEP).

§300.131 Child find for parentally-placed private school children with disabilities.

- (a) **General.** Each LEA must locate, identify, and evaluate all children with disabilities who are enrolled by their parents in private, including religious, elementary schools and secondary schools located in the school district served by the LEA, in accordance with paragraphs (b) through (e) of this section, and §§300.111 and 300.201.
- (b) **Child find design.** The child find process must be designed to ensure--
 - (1) The equitable participation of parentally-placed private school children; and
 - (2) An accurate count of those children.
- (c) **Activities.** In carrying out the requirements of this section, the LEA, or, if applicable, the SEA, must undertake activities similar to the activities undertaken for the agency's public school children.
- (d) **Cost.** The cost of carrying out the child find requirements in this section, including individual evaluations, may not be considered in determining if the LEA has met its obligation under §300.133. *(Private school expenditures - below)*
- (e) **Completion period.** The child find process must be completed in a time period comparable to that for other students attending public schools in the LEA consistent with §300.301. *(Initial Evaluations-section 2 of this document)*
- (f) **Out-of-State children.** Each LEA in which private, including religious, elementary schools and secondary schools are located must, in carrying out the child find requirements in this section, include parentally-placed private school children who reside in a State other than the State in which the private schools that they attend are located. (Authority: 20 U.S.C. 1412(a)(10)(A)(ii))

§300.132 Provision of services for parentally-placed private school children with disabilities--basic requirement.

- (a) **General.** To the extent consistent with the number and location of children with disabilities who are enrolled by their parents in private, including religious, elementary schools and secondary schools located in the school district served by the LEA, provision is made for the participation of those children in the program assisted or carried out under Part B of the Act by providing them with special education and related services, including direct services determined in accordance with §300.137, unless the Secretary has arranged for services to those children under the by-pass provisions in §§300.190 through 300.198.
- (b) **Services plan parentally-placed private school children with disabilities.** In accordance with paragraph (a) of this section and §§300.137 through 300.139, a services plan must be developed and implemented for each private school child with a disability who has been designated by the LEA in which the private

school is located to receive special education and related services under this part. (*Service Plan - Section 4-IEP*)

(c) **Record keeping.** The LEA must maintain in its records, and provide to the SEA, the following information related to parentally-placed private school children covered under §§300.130 through 300.144:

- (1) The number of children evaluated;
- (2) The number of children determined to be children with disabilities; and
- (3) The number of children served. (Authority: 20 U.S.C. 1412(a)(10)(A)(i))

(*IMPORTANT: See TAC §89.1096. Services for Students Placed by their Parents – Section 4 IEP.*)

§300.133 Expenditures.

(a) **Formula.** To meet the requirement of §300.132(a), the LEA must spend the following on providing special education and related services (including direct services) to parentally-placed private school children with disabilities:

- (1) For children aged 3 through 21, an amount that is the same proportion of the LEA's total subgrant under section 611(f) of the Act as the number of private school children with disabilities aged 3 through 21 who are enrolled by their parents in private, including religious, elementary schools and secondary schools located in the school district served by the LEA, is to the total number of children with disabilities in its jurisdiction aged 3 through 21.
- (2) (i) For children aged three through five, an amount that is the same proportion of the LEA's total subgrant under section 619(g) of the Act as the number of parentally-placed private school children with disabilities aged three through five who are enrolled by their parents in private, including religious, elementary schools located in the school district served by the LEA, is to the total number of children with disabilities in its jurisdiction aged three through five.
(ii) As described in paragraph (a)(2)(i) of this section, children aged three through five are considered to be parentally-placed private school children with disabilities enrolled by their parents in private, including religious, elementary schools, if they are enrolled in a private school that meets the definition of elementary school in §300.13.
- (3) If an LEA has not expended for equitable services all of the funds described in paragraphs (a)(1) and (a)(2) of this section by the end of the fiscal year for which Congress appropriated the funds, the LEA must obligate the remaining funds for special education and related services (including direct services) to parentally-placed private school children with disabilities during a carry-over period of one additional year.

(b) **Calculating proportionate amount.** In calculating the proportionate amount of Federal funds to be provided for parentally-placed private school children with disabilities, the LEA, after timely and meaningful consultation with representatives of private schools under §300.134, must conduct a thorough and complete child find process to determine the number of parentally-placed children with disabilities attending private schools located in the LEA. (See Appendix B of the final regulations for an example of how proportionate share is calculated).

The proportionate share of federal IDEA money available for the upcoming school year, will be considered in light of the consultation process and information gathered. Determination will be made regarding which eligible private school children will participate in special education services, what services will be provided, and how, where and by whom the services will be provided. The eligible students and parents will be invited to attend a meeting to develop an Individual Service Plan (similar to an IEP).

(c) **Annual count of the number of parentally-placed private school children with disabilities.**

(1) Each LEA must--

- (i) After timely and meaningful consultation with representatives of parentally-placed private school children with disabilities (consistent with §300.134), determine the number of parentally-placed private school children with disabilities attending private schools located in the LEA; and
- (ii) Ensure that the count is conducted on any date between October 1 and December 1, inclusive, of each year.

(2) The child count must be used to determine the amount that the LEA must spend on providing special education and related services to parentally-placed private school children with disabilities in the next subsequent fiscal year.

(d) **Supplement, not supplant.** State and local funds may supplement and in no case supplant the proportionate amount of Federal funds required to be expended for parentally-placed private school

children with disabilities under this part. (Authority: 20 U.S.C. 1412(a)(10)(A))

§300.134 Consultation.

To ensure timely and meaningful consultation, an LEA, or, if appropriate, an SEA, must consult with private school representatives and representatives of parents of parentally-placed private school children with disabilities during the design and development of special education and related services for the children regarding the following:

(a) Child find. The child find process, including--

(1) How parentally-placed private school children suspected of having a disability can participate equitably; and

(2) How parents, teachers, and private school officials will be informed of the process. *See Child Find activities in Section 1 of this document.*

(b) Proportionate share of funds. The determination of the proportionate share of Federal funds available to serve parentally-placed private school children with disabilities under §300.133(b), including the determination of how the proportionate share of those funds was calculated. *See Section 8 Administration. Through Child Find efforts and consultation with private nonpublic schools, the Bell County CoOp will make decisions regarding use of proportionate share of federal IDEA money. Decisions made by the district will include which eligible private school children will participate in special education services, what services will be provided, how, when, where and by whom the services will be provided.*

(c) Consultation process. The consultation process among the LEA, private school officials, and representatives of parents of parentally-placed private school children with disabilities, including how the process will operate throughout the school year to ensure that parentally-placed children with disabilities identified through the child find process can meaningfully participate in special education and related services. *All private schools located in the Bell County CoOp will be contacted via survey to provide input into the process and information will be shared on how to obtain referral information from the school district campus.*

The Bell County CoOp will locate all private schools within the district and ensure consultation on the following:

(1). Proportionate Share of Funds.

(2). How Special Education services may be provided.

(3). Explanation of services to be provided.

(4). How parentally-placed private school children suspected of having a disability can participate equitably; and

(5). How parents, teachers, and private school officials will be informed of the process.

(6). Any other topics appropriate for consultation including all Federal Regulations listed.

Consultation methods with administrative and parent representatives of eligible private school children may include:

- Individual meetings with private school officials and the representative of parents of eligible private school children.*

- One or more group meetings with private school representatives and representatives of parents of eligible private school children.*

- Written correspondence to all private schools known to the Bell County CoOp to be within district boundaries.*

- Written correspondence to parents known to the Bell County CoOp who home school their children.*

- Written correspondence to parents of eligible private school students.*

The Bell County CoOp will carefully consider the information from private schools and parents of eligible private school students regarding use of available federal funds. After consultation, a complete child find process is conducted to determine the total number of eligible students with disabilities place by parents in private schools. Consultation will be timely taking place prior to the designation of eligible private school students to participate in the Bell County CoOp's special education supports and services.

(d) Provision of special education and related services. How, where, and by whom special education and related services will be provided for parentally-placed private school children with disabilities, including a discussion of--

(1) The types of services, including direct services and alternate service delivery mechanisms; and

(2) How special education and related services will be apportioned if funds are insufficient to serve all parentally-placed private school children; and

(3) How and when those decisions will be made;

Decisions made after the survey results will be shared with private school administration and appropriate parents affected.

- (e) **Written explanation by the LEA regarding services.** How, if the LEA disagrees with the views of the private school officials on the provision of services or the types of services (whether provided directly or through a contract) the LEA will provide to the private school officials a written explanation of the reasons why the LEA chose not to provide services directly or through a contract.

§300.135 Written affirmation.

- (a) When timely and meaningful consultation, as required by §300.134, has occurred, the LEA must obtain a written affirmation signed by the representatives of participating private schools.
- (b) If the representatives do not provide the affirmation within a reasonable period of time, the LEA must forward the documentation of the consultation process to the TEA.

The Bell County CoOp will collect and keep on file any written affirmations. If unable to obtain a written affirmation, the Bell County CoOp will submit documentation explaining the attempts to secure the written affirmation to TEA at: sped@tea.state.tx.us

§300.136 Compliance.

- (a) **General.** A private school official has the right to submit a complaint to the SEA that the LEA—

- (1) Did not engage in consultation that was meaningful and timely; or
- (2) Did not give due consideration to the views of the private school official.

- (b) **Procedure.**

- (1) If the private school official wishes to submit a complaint, the official must provide to the SEA the basis of the noncompliance by the LEA with the applicable private school provisions in this part; and
- (2) The LEA must forward the appropriate documentation to the SEA.
- (3) (i) If the private school official is dissatisfied with the decision of the SEA, the official may submit a complaint to the Secretary by providing the information on noncompliance described in paragraph (b)(1) of this section; and
- (ii) The SEA must forward the appropriate documentation to the Secretary.
(Authority: 20 U.S.C. 1412(a)(10)(A)(v))

§300.137 Equitable services determined.

- (a) **No individual right to special education and related services.** No private school child with a disability has an individual right to receive some or all of the special education and related services that the child would receive if enrolled in a public school.
- (b) **Decisions.**
- (1) Decisions about the services that will be provided to parentally-placed private school children with disabilities under §§300.130 through 300.144 must be made in accordance with paragraph (c) of this section and §300.134(c).
 - (2) The LEA must make the final decisions with respect to the services to be provided to eligible parentally-placed private school children with disabilities.
- (c) **Services plan for each child served under §§300.130 through 300.144.** If a child with a disability is enrolled in a religious or other private school by the child's parents and will receive special education or related services from the LEA, the LEA must--
- (1) Initiate and conduct meetings to develop, review, and revise a services plan for the child, in accordance with §300.138(b); and
 - (2) Ensure that a representative of the religious or other private school attends each meeting. If the representative cannot attend, the LEA shall use other methods to ensure participation by the religious or other private school, including individual or conference telephone calls.

After consultation with local private schools within the Bell County CoOp, eligible private school students may participate in the special education services during a specific school year. An individual services plan will be developed and implemented as soon as possible after the services plan meeting. The services plan will be available to any Bell County CoOp staff and/or private school staff or other persons who implement any portion of it, and they will be advised of their specific responsibilities in implementing the services plan. The plan is reviewed not less than annually. An eligible private school student with a services plan in one school year has no

right to a services plan in a subsequent school year. The Bell County CoOp is responsible to determine eligible private school students who will participate each year.

The final decision with respect to which eligible private school children will participate, the nature of the services, their frequency and location, and how they will be evaluated will be made by the Bell County CoOp. Private school students may be referred and evaluated throughout the school year. The provision of services will depend upon available funds.

The services plan team includes the same participants as would be included in an ARD Committee for the child. The parents, a representative of the private school, minimum of one regular education teacher of the child if the child is or may be participating in a regular education environment, minimum of one special education teacher or special education provider of the child, a representative of the Bell County CoOp who is qualified to provide or supervise the provision of special education, is knowledgeable about the general curriculum and the availability of resources in the Bell County CoOp; a person who can interpret the instructional implications of evaluation results, the child, if appropriate; and at the discretion of the parent or the Bell County CoOp, any other individuals who have knowledge or special expertise regarding the child, including related services personnel if appropriate.

The regular education teacher of the child may be an employee of the private school. The District will ensure that a representative of the private school will be invited to the services plan meeting. If the representative is unable to attend, the District will share the document with the school if parent permission is obtained.

Records of all private school students referred, identified and served through this process will be maintained in the office of the Special Education Administrator

The district has completed all Child Find activities to engage any private/nonpublic school within our boundaries. The district Special Education Director (a minimum of annually) has communicated, solicited input, planned and maintained documentation of those activities. The referral of a private school student may be made by the parent, private school personnel, physician, etc. Each campus MTSS Committee will coordinate the referral. The district data collection and referral procedures will be followed.

If the private school student has already been evaluated and identified as a student with a disability, the district diagnostician/LSSP will schedule the Individual Service Plan meeting. If a district outside of our boundaries completed the student's evaluation, the parent must provide a copy of that evaluation. A copy of any previous ARD/IEP paperwork will also be requested from the parent. The diagnostician/LSSP will follow the same district procedures to schedule an ARD/IEP meeting within the same required timelines.

When a student referred for testing from a private school is not a resident of the Bell County CoOp, and has not been evaluated to determine eligibility for special education, the special education administration will contact the district in which the student resides to collaborate regarding which district will complete the full and individual evaluation, if one is needed. The responsibility for conducting the ARD to offer FAPE to the student is the responsibility of the district where the student resides. Once the FIE and ARD have been completed, the district of residence will provide all appropriate documentation necessary to develop an Individual Service Plan for the student.

Creation of the Individual Service Plan: The Individual Service Plan meeting will be scheduled to plan appropriate services. All documentation for Notice will be followed. The private school student's Individual Service Plan meeting will be held and documented on district forms.

- 1. Individual Service Plan: the Individual Service Plan meeting will include the same required members as an ARD/IEP meeting, in addition to a representative of the private school. The Individual Service Plan will have measurable goals, will be implemented by district staff or district hired consultant, will use any necessary district materials, and progress monitoring and reporting will occur. The Individual Service Plan will be annually reviewed and revised as needed. If the student is eligible to receive proportionate share services, the school district where the private school is located is responsible for the services.*
- 2. Dual Enrollment: if a preschool age student is enrolled in a facility that meets criteria as a private school, the parents of eligible 3-5 year olds will be provided an explanation of the dual enrollment process by the campus diagnostician/LSSP. For dual enrollment, the student must reside within our district boundaries as well. The child may continue through the school year in which child turns 5 years after September 1, an eligible child in private school and may be enrolled in private school and still enroll part-time in Bell County CoOp and participate in special education services as specified in the child's IEP. It is the parent's choice to have the child educated only in private school or through dual enrollment. A parent may enroll a child full time in the*

public school district and receive all the special education services determined by the ARD Committee in the child's IEPs. When the child is 5 years of age or older on September 1 of the current school year, dual enrollment is no longer permitted.

- 3. If a parent chooses to dual enroll the student, the district procedures for Notice, Consent, Evaluation and ARD/IEP will be followed and documented on district forms. For a child dually enrolled, the student's ARD/IEP Committee will inform the parent at the end of the school year in which the child turns five OR when the child is eligible to attend the district kindergarten program, whichever comes first. The parent will need to make a decision to either enroll the student or develop an individual Service Plan for the child to continue in the parentally placed private school. If a parent declines the dual enrollment, an individual service plan can be developed and procedures in #1 above will be followed.*

III. PRIVATE SCHOOLS: PLACED OR REFERRED BY THE LEA

§300.145 Applicability of §§300.145 through 300.147.

Sections 300.146 through 300.147 apply only to children with disabilities who are or have been placed in or referred to a private school or facility by a public agency as a means of providing special education and related services. (Authority: 20 U.S.C. 1412(a)(10)(B))

§300.146 Responsibility of SEA.

Each SEA must ensure that a child with a disability who is placed in or referred to a private school or facility by a public agency--

(a) Is provided special education and related services--

(1) In conformance with an IEP that meets the requirements of §§300.320 through 300.325 (*IEP section 4 of this document*); and

(2) At no cost to the parents;

(b) Is provided an education that meets the standards that apply to education provided by the SEA and LEAs including the requirements of this part, except for §300.156(c) (*Personnel qualifications section 8 of this document*); and

(c) Has all of the rights of a child with a disability who is served by the LEA.

(Authority: 20 U.S.C. 1412(a)(10)(B))

§300.147 Implementation by SEA. In implementing §300.146, the SEA must--

(a) Monitor compliance through procedures such as written reports, on-site visits, and parent questionnaires;

(b) Disseminate copies of applicable standards to each private school and facility to which the LEA has referred or placed a child with a disability; and

(c) Provide an opportunity for those private schools and facilities to participate in the development and revision of State standards that apply to them.

(Authority: 20 U.S.C. 1412(a)(10)(B))

TAC §89.1075. General Program Requirements and Local District Procedures.

(g) School districts that contract for services from non-public day schools must do so in accordance with 34 Code of Federal Regulations, §300.147, and procedures developed by the TEA.

IV. PRIVATE SCHOOLS: ENROLLED BY PARENT - WHEN FAPE IS AT ISSUE

§300.148 Placement of children by parents if FAPE is at issue.

- (a) **General.** This part does not require the LEA to pay for the cost of education, including special education and related services, of a child with a disability at a private school or facility if the LEA has made FAPE available to the child and the parents elected to place the child in a private school or facility. However, the LEA must include that child in the population whose needs are addressed consistent with §§300.131 through 300.144 (found Section 5 of this document)
- (b) **Disagreements about FAPE.** Disagreements between the parents and a public agency regarding the availability of a program appropriate for the child, and the question of financial reimbursement, are subject to the due process procedures in §§300.504 through 300.520. (in section 7 of this document) .
- (c) **Reimbursement for private school placement.** If the parents of a child with a disability, who previously received special education and related services under the authority of a public agency, enroll the child in a private preschool, elementary school, or secondary school without the consent of or referral by the public agency, a court or a hearing officer may require the agency to reimburse the parents for the cost of that enrollment if the court or hearing officer finds that the agency had not made FAPE available to the child in a timely manner prior to that enrollment and that the private placement is appropriate. A parental placement may be found to be appropriate by a hearing officer or a court even if it does not meet the State standards that apply to education provided by the SEA and LEAs.
- (d) **Limitation on reimbursement.** The cost of reimbursement described in paragraph (c) of this section may be reduced or denied--
- (1) If--
 - (i) At the most recent IEP Team meeting that the parents attended prior to removal of the child from the LEA, the parents did not inform the IEP Team that they were rejecting the placement proposed by the LEA to provide FAPE to their child, including stating their concerns and their intent to enroll their child in a private school at public expense; or
 - (ii) At least ten (10) business days (including any holidays that occur on a business day) prior to the removal of the child from the public school, the parents did not give written notice to the LEA of the information described in paragraph (d)(1)(i) of this section;
 - (2) If, prior to the parents' removal of the child from the public school, the LEA informed the parents, through the notice requirements described in §300.503(a)(1), of its intent to evaluate the child (including a statement of the purpose of the evaluation that was appropriate and reasonable), but the parents did not make the child available for the evaluation; or

 - (ii) The parents had not received notice, pursuant to §300.504, of the notice requirement in paragraph (d)(1) of this section; or
 - (iii) Compliance with paragraph (d)(1) of this section would likely result in physical harm to the child; and
 - (2) May, in the discretion of the court or a hearing officer, not be reduced or denied for failure to provide this notice if--
 - (i) The parents are not literate or cannot write in English; or
 - (ii) Compliance with paragraph (d)(1) of this section would likely result in serious emotional harm to the child. (Authority: 20 U.S.C. 1412(a)(10)(C))

V. CONTRACTING FOR EDUCATIONAL PLACEMENT

A. Residential Placements

TAC §89.1115. Memorandum of Understanding Concerning Interagency Coordination of Special Education Services to Students with Disabilities in Residential Facilities. ([Section 8. Administration](#))

§300.104 Residential placement.

If placement in a public or private residential program is necessary to provide special education and related services to a child with a disability, the program, including non-medical care and room and board, must be at no cost to the parents of the child. (Authority: 20 U.S.C. 1412(a)(1), 1412(a)(10)(B))

TEC §29.008. Contracts for Services; Residential Placement.

- (a) A school district, shared services arrangement unit, or regional education service center may contract with a public or private facility, institution, or agency inside or outside of this state for the provision of services to students with disabilities. Each contract for residential placement must be approved by the commissioner. The commissioner may approve a residential placement contract only after at least a programmatic evaluation of personnel qualifications, adequacy of physical plant and equipment, and curriculum content. The commissioner may approve either the whole or a part of a facility or program.
- (b) Except as provided by Subsection (c), costs of an approved contract for residential placement may be paid from a combination of federal, state, and local funds. The local share of the total contract cost for each student is that portion of the local tax effort that exceeds the district's local fund assignment under Section 42.252, divided by the average daily attendance in the district. If the contract involves a private facility, the state share of the total contract cost is that amount remaining after subtracting the local share. If the contract involves a public facility, the state share is that amount remaining after subtracting the local share from the portion of the contract that involves the costs of instructional and related services. For purposes of this subsection, "local tax effort" means the total amount of money generated by taxes imposed for debt service and maintenance and operation less any amounts paid into a tax increment fund under Chapter 311, Tax Code.
- (c) When a student, including one for whom the state is managing conservator, is placed primarily for care or treatment reasons in a private residential facility that operates its own private education program, none of the costs may be paid from public education funds. If a residential placement primarily for care or treatment reasons involves a private residential facility in which the education program is provided by the school district, the portion of the costs that includes appropriate education services, as determined by the school district's admission, review, and dismissal committee, shall be paid from state and federal education funds.
- (d) A district that contracts for the provision of education services rather than providing the services itself shall oversee the implementation of the student's individualized education program and shall annually reevaluate the appropriateness of the arrangement. An approved facility, institution, or agency with whom the Bell County CoOp contracts shall periodically report to the district on the services the student has received or will receive in accordance with the contract as well as diagnostic or other evaluative information that the district requires in order to fulfill its obligations under this subchapter.

For any student in a RF facility in Bell County CoOp, the district will oversee the implementation of the student's IEP and annually reevaluate the appropriateness of the placement. If contracting becomes necessary, reports will be obtained each 6 weeks on the services the student receives.

TAC §89.61. Contracting for Residential Educational Placements for Students with Disabilities.

- (a) Residential placement. A school district may contract for residential placement of a student when the student's admission, review, and dismissal (ARD) committee determines that a residential placement is necessary in order for the student to receive a free appropriate public education (FAPE).
 - (1) A school district may contract for a residential placement of a student only with either public or private residential facilities which maintain current and valid licensure by the Texas Department of Aging and Disability Services, Texas Department of Family and Protective Services, or Department of State Health Services for the particular disabling condition and age of the student. A school district may contract for an out-of-state residential placement in accordance with the provisions of subsection (c)(3) of this section.

- (2) Subject to subsections (b) and (c) of this section, the district may contract with a residential facility to provide some or all of the special education services listed in the contracted student's individualized education program (IEP). If the facility provides any educational services listed in the student's IEP, the facility's education program must be approved by the commissioner of education in accordance with subsection (c) of this section.
- (3) A school district which intends to contract for residential placement of a student with a residential facility under this section shall notify the Texas Education Agency (TEA) of its intent to contract for the residential placement through the residential application process described in subsection (b) of this section.
- (4) The school district has the following responsibilities when making a residential placement.
 - (A) Before the school district places a student with a disability in, or refers a student to, a residential facility, the district shall initiate and conduct a meeting of the student's ARD committee to develop an IEP for the student in accordance with 34 Code of Federal Regulations, §§300.342-300.347, state statutes, and commissioner of education rules.
 - (B) For each student, the services which the school district is unable to provide and which the facility will provide shall be listed in the student's IEP.
 - (C) For each student, the ARD committee shall establish, in writing, criteria and estimated timelines for the student's return to the school district.
 - (D) The appropriateness of the facility for each student residentially placed shall be documented in the IEP. General screening by a regional education service center is not sufficient to meet the requirements of this subsection.
 - (E) The school district shall make an initial and an annual on-site visit to verify that the residential facility can, and will, provide the services listed in the student's IEP which the facility has agreed to provide to the student.
 - (F) For each student placed in a residential facility (both initial and continuing placements), the school district shall verify, during the initial residential placement ARD committee meeting and each subsequent annual ARD committee meeting, that:
 - (i) the facility meets minimum standards for health and safety;
 - (ii) residential placement is needed and is documented in the IEP; and
 - (iii) the educational program provided at the residential facility is appropriate and the placement is the least restrictive environment for the student.
 - (G) The placement of more than one student, in the same residential facility, may be considered in the same on-site visit to a facility; however, the IEP of each student must be individually reviewed and a determination of appropriateness of placement and service must be made for each student.
 - (H) When a student who is residentially placed by a school district changes his residence to another Texas school district, and the student continues in the contracted placement, the school district which negotiated the contract shall be responsible for the residential contract for the remainder of the school year.
- (b) Application approval process. Requests for approval of state and federal funding for residentially placed students shall be negotiated on an individual student basis through a residential application submitted by the school district to the TEA.
 - (1) A residential application may be submitted for educational purposes only. The residential application shall not be approved if the application indicates that the:
 - (A) placement is due primarily to the student's medical problems;
 - (B) placement is due primarily to problems in the student's home;
 - (C) district does not have a plan, including timelines and criteria, for the student's return to the local school program;
 - (D) district did not attempt to implement lesser restrictive placements prior to residential placement (except in emergency situations as documented by the student's ARD committee);
 - (E) placement is not cost effective when compared with other alternative placements; and/or
 - (F) residential facility provides unfundable/unapprovable services.
 - (2) The residential placement, if approved by the TEA, shall be funded as follows:
 - (A) the education cost of residential contracts shall be funded with state funds on the same basis as nonpublic day school contract costs according to Texas Education Code, §42.151;
 - (B) related services and residential costs for residential contract students shall be funded from a combination of fund sources. After expending any other available funds, the district must expend its local tax share per average daily attendance and 25% of its Individuals with Disabilities Education Act, Part B, (IDEA-B) formula tentative entitlement (or an equivalent amount of state and/or local

funds) for related services and residential costs. If this is not sufficient to cover all costs of the residential placement, the district through the residential application process may receive additional IDEA-B discretionary funds to pay the balance of the residential contract placement(s) costs; and (C) funds generated by the formula for residential costs described in subsection (b)(2)(B) of this section shall not exceed the daily rate recommended by the Texas Department of Protective and Regulatory Services for the specific level of care in which the student is placed.

- (c) Approval of the education program for facilities which provide educational services. Residential facilities which provide educational services must have their educational programs approved for contracting purposes by the commissioner of education.
- (1) If the education program of a residential facility which is not approved by the commissioner of education is being considered for a residential placement by a local school district, the school district should notify the TEA in writing of its intent to place a student at the facility. The TEA shall begin approval procedures and conduct an on-site visit to the facility within 30 calendar days after the TEA has been notified by the local school district. Approval of the education program of a residential facility may be for one, two, or three years.
 - (2) The commissioner of education shall renew approvals and issue new approvals only for those facilities which have contract students already placed or which have a pending request for residential placement from a school district. This approval does not apply to residential facilities which only provide related services or residential facilities in which the local accredited school district where the facility is located provides the educational program.
 - (3) School districts which contract for out-of-state residential placement shall do so in accordance with the rules for in-state residential placement in this section, except that the facility must be approved by the appropriate agency in the state in which the facility is located, rather than by the commissioner of education in Texas.

TEC §29.012. Residential Facilities

- (a) Except as provided by Subsection (b)(2), not later than the third day after the date a person 22 years of age or younger is placed in a residential facility, the residential facility shall:
- (1) if the person is three years of age or older, notify the school district in which the facility is located, unless the facility is an open-enrollment charter school; or
 - (2) if the person is younger than three years of age, notify a local early intervention program in the area in which the facility is located.
- (b) An agency or political subdivision that funds, licenses, certifies, contracts with, or regulates a residential facility must:
- (1) require the facility to comply with Subsection (a) as a condition of the funding, licensing, certification, or contracting; or
 - (2) if the agency or political subdivision places a person in a residential facility, provide the notice under Subsection (a) for that person.
- (c) For purposes of enrollment in a school, a person who resides in a residential facility is considered a resident of the school district or geographical area served by the open-enrollment charter school in which the facility is located.
- (c-1) The commissioner by rule shall require each school district and open-enrollment charter school to include in the district's or school's Public Education Information Management System (PEIMS) report the number of children with disabilities residing in a residential facility who:
- (1) are required to be tracked by the Residential Facility Monitoring (RFM) System; and
 - (2) receive educational services from the district or school.

SECTION 2. This Act applies beginning with the 2017-2018 school year.

SECTION 3. This Act takes effect only if a specific appropriation for the implementation of the Act is provided in a general appropriations act of the 85th Legislature.

SECTION 4. This Act takes effect immediately if it receives a vote of two-thirds of all the members elected to each house, as provided by Section 39, Article III, Texas Constitution. If this Act does not receive the vote necessary for immediate effect, this Act takes effect September 1, 2017.

- (d) The Texas Education Agency, the Texas Department of Mental Health and Mental Retardation, the Texas Department of Human Services, the Texas Department of Health, the Department of Protective and Regulatory Services, the Interagency Council on Early Childhood Intervention, the Texas Commission on Alcohol and Drug Abuse, the Texas Juvenile Probation Commission, and the Texas Youth Commission by a cooperative effort shall develop and by rule adopt a memorandum of understanding. The memorandum must:

- (1) establish the respective responsibilities of school districts and of residential facilities for the provision of a free, appropriate public education, as required by the Individuals with Disabilities Education Act (20 U.S.C. Section 1400 et seq.) and its subsequent amendments, including each requirement for children with disabilities who reside in those facilities;
 - (2) coordinate regulatory and planning functions of the parties to the memorandum;
 - (3) establish criteria for determining when a public school will provide educational services;
 - (4) provide for appropriate educational space when education services will be provided at the residential facility;
 - (5) establish measures designed to ensure the safety of students and teachers; and
 - (6) provide for binding arbitration consistent with Chapter 2009, Government Code, and Section 154.027, Civil Practice and Remedies Code.
- (e) This section does not apply to a residential treatment facility for juveniles established under Section 221.056, Human Resources Code.
- (f) Except as provided by Subsection (g), a residential facility shall provide to a school district or open-enrollment charter school that provides educational services to a student placed in the facility any information retained by the facility relating to:
- (1) the student's school records, including records regarding:
 - (A) special education eligibility or services;
 - (B) behavioral intervention plans;
 - (C) school-related disciplinary actions; and
 - (D) other documents related to the student's educational needs;
 - (2) any other behavioral history information regarding the student that is not confidential under another provision of law; and
 - (3) the student's record of convictions or the student's probation, community supervision, or parole status, as provided to the facility by a law enforcement agency, local juvenile probation department or juvenile parole office, community supervision and corrections department, or parole office, if the information is needed to provide educational services to the student.
- (g) Subsection (f) does not apply to a:
- (1) juvenile pre-adjudication secure detention facility; or
 - (2) juvenile post-adjudication secure correctional facility.

SECTION 2. If this Act does not receive the vote necessary for immediate effect, this Act takes effect September 1, 2017.

The Bell County CoOp will follow the federal and state rules as well as the agency MOU agreements in serving students with disabilities in the residential facilities located within our district boundaries. The MOU agreements will be reviewed annually. The MOU requirements are located in Section 8 of the OPOs. The following are additional local clarification and guidelines:

*1. **Residential Facilities Specialist:** For purposes of compliance, quality and continuity, the Bell County CoOp special education department will designate RF job responsibilities and oversight to one district employee. That identified person will be the district designee to maintain communication and compliance oversight with the RF within the district boundaries. Systematic documentation will be maintained annually by the Bell County CoOp special education department designee. This documentation will include a 3 ring binder with individual sections for each RF within the attendance boundary. The RF designee will maintain the MOU, contact logs, RF meeting Agenda and minutes, correspondence copies, child find/ referral logs, sample referral packet, procedures and local guidelines, sample documentation forms and any other pertinent information.*

*2. **Child Find:** Annually, in January, the Bell County CoOp will determine licensed / accredited agencies and obtain updated contact information. A survey (by phone, fax or email) will be conducted to determine the student population served. The district will conduct annual training for the RF staff regarding the guidelines for enrollment and referral. Agendas and attendance will be kept in the documentation notebook.*

*3. **Enrollment Guidelines:** Any MOU requirements will be followed. A designee from each RF will provide information to the Bell County CoOp designee upon student enrollment in the RF. A disposition upon enrollment is made of previous general education or previous special education. Also documentation will be kept if the student enrolling is a current Bell County CoOp student or a non-Bell County CoOp enrolling student. For school age students, the enrollment information is shared with the Bell County CoOp designated RF specialist. Education services are not to be interrupted for any student enrolling in a RF. The RF is responsible for providing the*

following information: the date of withdrawal from previous district, birth certificate or other proof of identity, student registration, medical history and records, parent approval of participation, student enrollment form, student directory information, parent survey of home language, transcript of working document, and documentation of special education eligibility, current FIE and current ARD/IEP, if the student was receiving special education services. The district will collaborate with the RF on the need for an ARD/IEP committee meeting and follow all guidelines for a student who transfers into the district. In addition, the RF will determine if the student was classified as a 504 student or if the student was receiving any RTI/MTSS interventions or specialized services from the previous district.

4. **Referral and Evaluation:** Determination of Disability and Eligibility for Special Education Services MOU requirements will be followed. Upon enrollment in the RF, the student will receive general education services pending completion of the referral and evaluation process. Upon determination of previous special education services, the special education state rules will be followed as previously stated.

5. **Service Delivery:** If the student has a disability and meets eligibility criteria, follow the federal and state rules and the ARD/IEP committee recommendations. The ARD/IEP Committee will determine any special education, related services or supplementary aides and services necessary for the student to make progress in the general curriculum in the Least Restrictive Environment. If the ARD/IEP Committee determines the special education student should remain in general education, the TEKS/ISD curriculum will be implemented. If the student needs any accommodations in general education classes, those accommodations will be determined by the ARD/IEP Committee and specified in the IEP.

§300.320 Definition of individualized education program.

(a) **General.** As used in this part, the term individualized education program or IEP means a written statement for each child with a disability that is developed, reviewed, and revised in a meeting in accordance with §§300.320 through 300.324, and that must include--

- (1) A statement of the child's present levels of academic achievement and functional performance, including--
 - (i) How the child's disability affects the child's involvement and progress in the general education curriculum (i.e., the same curriculum as for nondisabled children); or
 - (ii) For preschool children, as appropriate, how the disability affects the child's participation in appropriate activities;
- (2) (i) A statement of measurable annual goals, including academic and functional goals designed to--
 - (A) Meet the child's needs that result from the child's disability to enable the child to be involved in and make progress in the general education curriculum; and
 - (B) Meet each of the child's other educational needs that result from the child's disability;
 - (ii) For children with disabilities who take alternate assessments aligned to alternate achievement standards, a description of benchmarks or short-term objectives;

If the ARD Committee determines an alternate state assessment is appropriate, the ARD will develop short term objectives in addition to the measurable annual goals required in (2)(i) above.

If appropriate, any specialized services or supports such as 504 accommodations , G/T, Bilingual / ESL, or Dyslexia will be provided to the RF student.

6. **Progress Monitoring:** The federal and state rules will be followed for all students including those in a residential facility residing in the Bell County CoOp. Progress toward mastery of the goals and objectives will be documented and reported to the parent/guardian/adult student in the same timely manner as students who do not have a disability. Annual review of the IEP which includes placement in the least restrictive environment appropriate for the student will be conducted by the ARD/IEP Committee following all state and federal regulations.

7. **Program Evaluation:** The district will continually review the implementation of RF requirements and update the database of RF facilities on an annual basis.

B. Texas School for the Blind and Visually Impaired (TSBVI)

TEC §30.021. Purpose of Texas School for the Blind and Visually Impaired. (TSBVI)

- (a) The Texas School for the Blind and Visually Impaired is a state agency established to serve as a special school in the continuum of statewide alternative placements for students who are 21 years of age or younger on September 1 of any school year and who have a visual impairment and who may have one or more other disabilities. The school is intended to serve students who require specialized or intensive educational or related services related to the visual impairment. The school is not intended to serve:
- (1) students whose needs are appropriately addressed in a home or hospital setting or in a residential treatment facility; or
 - (2) students whose primary, ongoing needs are related to a severe or profound emotional, behavioral, or cognitive deficit.
- (b) The school district in which a student resides is responsible for assuring that a free appropriate public education is provided to each district student placed in the regular school year program of the school and that all legally required meetings for the purpose of developing and reviewing the student's individualized educational program are conducted. If the school disagrees with a district's individualized education program committee recommendation that a student be evaluated for placement, initially placed, or continued to be placed at the school, the district or the school may seek resolution according to a procedure established by the commissioner or through any due process hearing to which the district or school is entitled under the Individuals with Disabilities Education Act (20 U.S.C. Section 1400 et seq.).

C. Texas School for the Deaf (TSD)

TEC §30.051. Purpose of Texas School For the Deaf (TSD)

- (a) The Texas School for the Deaf is a state agency established to provide educational services to persons who are 21 years of age or younger on September 1 of any school year and who are deaf or hard of hearing. The school shall provide:
- (1) comprehensive educational services, on a day or residential basis;
 - (2) short-term services to allow a student to better achieve educational results from services available in the community; and
 - (3) services for any student who is deaf or hard of hearing and also has an additional disability and who requires a specialized support program but does not require a residential treatment facility.

TEC §30.057. Admission to Texas School for the Deaf (TSD)

- (a) The Texas School for the Deaf shall provide services in accordance with Section 30.051 to any eligible student with a disability for whom the school is an appropriate placement if the student has been referred for admission:
- (1) by the school district in which the student resides under the student's individualized education program;
 - (2) by the student's parent or legal guardian, or a person with legal authority to act in place of the parent or legal guardian, or the student, if the student is age 18 or older, at any time during the school year, if the referring person chooses the school as the appropriate placement for the student rather than the placement in the student's local or regional program recommended under the student's individualized education program; or
 - (3) by the student's parent or legal guardian through the student's admission, review, and dismissal or individualized family service plan committee, as an initial referral to special education for students who are three years of age or younger.
- (b) The commissioner, with the advice of the school's governing board, shall adopt rules to implement this section. The rules adopted by the commissioner may address the respective responsibilities of a student's parent or legal guardian or a person with legal authority to act in place of the parent or legal guardian, or the student, if age 18 or older, the school district in which the student resides, and the school.

D. Regional Day School Program for the Deaf (RDSPD)

TEC §30.083. Statewide Plan.

- (a) The director of services shall develop and administer a comprehensive statewide plan for educational services for students who are deaf or hard of hearing, including continuing diagnosis and evaluation, counseling, and teaching. The plan shall be designed to accomplish the following objectives:
- (1) providing assistance and counseling to parents of students who are deaf or hard of hearing in regional day school programs for the deaf and admitting to the programs students who have a hearing loss that interferes with the processing of linguistic information;

- (2) enabling students who are deaf or hard of hearing to reside with their parents or guardians and be provided an appropriate education in their home school districts or in regional day school programs for the deaf;
 - (3) enabling students who are deaf or hard of hearing who are unable to attend schools at their place of residence and whose parents or guardians live too far from facilities of regional day school programs for the deaf for daily commuting to be accommodated in foster homes or other residential school facilities provided for by the agency so that those children may attend a regional day school program for the deaf;
 - (4) enrolling in the Texas School for the Deaf those students who are deaf or hard of hearing whose needs can best be met in that school and designating the Texas School for the Deaf as the statewide educational resource for students who are deaf or hard of hearing;
 - (5) encouraging students in regional day school programs for the deaf to attend general education classes on a part-time, full-time, or trial basis; and
 - (6) recognizing the need for development of language and communications abilities in students who are deaf or hard of hearing, but also calling for the use of methods of communication that will meet the needs of each individual student, with each student assessed thoroughly so as to ascertain the student's potential for communications through a variety of means, including through oral or aural means, fingerspelling, or sign language.
- (b) The director of services may establish separate programs to accommodate diverse communication methodologies. Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

TEC §30.081 - TEC §30.086. [See Section 8 for Funding](#)

VI. INSTRUCTIONAL PROGRAMS / SERVICE DELIVERY

§300.110 Program options.

The State must ensure that each public agency takes steps to ensure that its children with disabilities have available to them the variety of educational programs and services available to nondisabled children in the area served by the agency, including art, music, industrial arts, consumer and homemaking education, and vocational education.

(Authority: 20 U.S.C. 1412(a)(2), 1413(a)(1))

A. Adapted Physical Education

§300.108 Physical education.

The TEA must ensure that public agencies in the State comply with the following:

- (a) **General.** Physical education services, specially designed if necessary, must be made available to every child with a disability receiving FAPE, unless the Bell County CoOp enrolls children without disabilities and does not provide PE to children without disabilities in the same grades.
- (b) **Regular physical education.** Each child with a disability must be afforded the opportunity to participate in the regular physical education program available to nondisabled children unless--
 - (1) The child is enrolled full time in a separate facility; or
 - (2) The child needs specially designed physical education, as prescribed in the child's IEP.
- (c) **Special physical education.** If specially designed physical education is prescribed in a child's IEP, the public agency responsible for the education of that child must provide the services directly or make arrangements for those services to be provided through other public or private programs.
- (d) **Education in separate facilities.** The public agency responsible for the education of a child with a disability who is enrolled in a separate facility must ensure that the child receives appropriate physical education services in compliance with this section.

(Authority: 20 U.S.C. 1412(a)(5)(A))

Physical Education services, specially designed where necessary, will be provided as an integral part of the educational program of each student with disabilities. The ARD/IEP committee should consider three options when making decisions about the physical education needs of students with disabilities. These decisions must be based on an adapted physical education evaluation.

1. The APE evaluation will provide the ARD/IEP committee with the following information:

- a. identification of student's problems,
- b. identification of areas of competencies,
- c. documentation of the student's need for adapted physical education.

2. Regular Physical Education with No Modifications or Accommodations

NOTE: An adapted physical education evaluation is not necessary when the student with disabilities can participate in regular physical education with no modifications or accommodations.

3. Regular Education with Accommodations

Regular PE should be considered when accommodations would make it possible for the student with disabilities to be successful in a regular physical education program. The specific accommodations must be described in the student's IEP. It would be the responsibility of the special education teacher to assist the regular physical education teacher with accommodations for the student and to monitor the progress of the student.

4. Adapted Physical Education

An adapted physical education program with IEP objectives should be provided when the adapted physical education evaluation determines that the student cannot be successful in a regular physical education class with modifications. When the ARD/IEP committee has made the recommendation and the arrangements are specified in the student's IEP, physical education for the students with disabilities may be provided by the following personnel:

1. special education instructional or related service personnel who have the necessary skills and knowledge;
2. physical education teachers;
3. occupational therapist;

4. *physical therapist;*
5. *occupational therapy assistant or physical therapy assistant working under supervision in accordance with the standards of their profession.*
- b. *When these services are provided by special education personnel, the Bell County CoOp must document that they have the necessary skills and knowledge. Documentation may include, but not be limited to, in-service records, evidence of attendance at seminars or workshops, and/or transcripts of college courses.*
- c. *If specially designed physical education is prescribed in a student's IEP, the Bell County CoOp will provide the services directly or make arrangements for those services to be provided through other public or private programs.*
- d. *If Bell County CoOp enrolls a student with a disability into a facility, Bell County CoOp ensures that the student receives appropriate physical education services.*

TEC §33.093. RECOGNITION OF PARTICIPATION IN SPECIAL OLYMPICS.

If a school district allows high school students to earn a letter for academic, athletic, or extracurricular achievements, the district must allow high school students in the district to earn a letter on the basis of a student's participation in a Special Olympics event.

SECTION 2. This Act applies beginning with the 2017-2018 school year.

SECTION 3. This Act takes effect immediately if it receives a vote of two-thirds of all the members elected to each house, as provided by Section 39, Article III, Texas Constitution. If this Act does not receive the vote necessary for immediate effect, this Act takes effect September 1, 2017.

B. Behavior Improvement Classes

The Bell County CoOp will provide specialized instructional strategies and incorporate a behavioral level system for those students whose ARD/IEP Committee determine a more restrictive placement is appropriate due to behavioral needs.

C. Content Mastery Program Overview

The Content Mastery Center is designed to assist students with achieving appropriate grade level TEKS. The Content Mastery teacher collaborates with the general education teacher to provide the necessary supports for the student to be successful.

The Content Mastery Teacher will be proactive - obtaining lesson plans, materials, etc., ahead of time to plan a quality support system for both the general education teacher and the student. Increased stimulus variation is offered to students by utilizing as many different strategies as necessary to teach an objective.

1. *There are two underlying principles of the program that are essential to its success:*
 - a. *Students with disabilities can learn and succeed in the mainstream with appropriate accommodations and support.*
 - b. *To be successful in the mainstream, the special student may need support in core and elective classes as appropriate.*
2. *Services may include (if adopted by the student's ARD committee), but are not restricted to the following:*
 - a. *taped textbooks;*
 - b. *hi-lighted materials (textbooks, worksheets, etc.);*
 - c. *reading test to students and/or assisting teachers with test adaptation;*
 - d. *help with a packet, worksheet, written assignment, or anything involving textbooks;*
 - e. *study group for exams;*
 - f. *discussing individual student's strengths and weaknesses with regular teachers;*
 - g. *monitoring student progress and placement;*
 - h. *aiding in student organizational skills;*
 - i. *vocabulary files for general education courses;*
 - j. *supplementary materials for courses;*
 - k. *alternative work environment*
 - l. *modified materials; and*
 - m. *collaborative planning among general and special education teachers.*
3. *Examples of when the student may use the Content Mastery Center:*

a. when working independently on a packet, written assignment, worksheet, or questions from the textbook;

b. when the student is assigned to read a chapter in class; or

c. when students are studying for a test or a test is being given.

Note: It would **not** be appropriate for a student to leave the general education classroom during the teacher's direct instruction, class discussion, group work, lab, or a film.

4. The time spent in the Content Mastery Center may vary from ten minutes to the entire class period, depending on what the student needs to accomplish. Recommended guidelines for general education teachers utilizing the Content Mastery Center for students placed into this setting:

a. Consistently Low Grades

If a student's grades are consistently low in a subject (70's or below), then the student needs to use the Content Mastery Center on a regular basis.

b. Poor Student Performance

The student's performance during the lesson cycle provides the most accurate assessment of appropriate use of Content Mastery. There are two critical checkpoints in the lesson cycle:

(a) check for understanding, and

(b) guided practice. If a student is experiencing academic difficulty at either of these two checks, then he/she should go to Content Mastery for a reteach.

c. Gaps in Student Skills

If the general education teacher and the content mastery teacher determine that a student is missing vital prerequisite skills for a lesson, then the student may need a "preteach" at some point in the lesson cycle for tomorrow's lesson. The most appropriate step for this to occur is during independent practice, which would need to be reduced in order for there to be adequate time for a "preteach".

d. Behavior. It is inappropriate to send a student to content mastery because of behavior problems unless so determined by ARD.

D. Co-teaching

Co-teaching occurs in the general education classroom and is one way of assisting with inclusive education and providing specially designed instruction in the general education classroom. The special education teacher works along side the regular education teacher and lessons are planned together. Both teach the subject together to a class of special and regular education students. Co-teaching supports academic diversity in the regular classroom and provides all students with access to the state curriculum. Preplanning occurs with both teachers contributing equally. Teachers who are co-teaching will identify the following:

1. Styles (Instructional and Discipline): hands-on doing experiments and using manipulatives, use the textbooks first and then supplement with experiments and manipulatives? How do you manage behaviors? What are discipline styles? What are your strengths and weaknesses?
2. Plan of action to address:
 - Scheduling
 - Expected classroom behaviors
 - Classroom procedures, such as class work and homework policies, turning in work
 - Consequences of not following rules and procedures
 - Grading
 - Communication between home and school
3. Students in special education belong to both educators, so the general educator must be informed about the IEP for each child.
4. Roles in talking with parents.

F. General Education Career and Technical Education (CTE)

TEC §75.1023. Provisions for Individuals who are Members of Special Populations.

- (a) An individual who is a member of a special population as defined in 20 United States Code (USC) , §2302(29), shall be provided career and technical education in accordance with all applicable federal law and regulations, state statutes, and rules of the State Board of Education (SBOE) and commissioner of education.
- (b) A student with a disability shall be provided career and technical education in accordance with the provisions of the Individuals with Disabilities Education Improvement Act (IDEA) of 2004, 20 USC §§1400-14910 , and implementing regulations, state statutes, and rules of the SBOE and commissioner of education relating to services to students with disabilities.
- (c) A student with a disability shall be instructed in accordance with the student's individualized education program (IEP) in the least restrictive environment, as determined by the admission, review, and dismissal (ARD) committee. If a student is unable to receive a free appropriate public education (educational benefit) in a regular career and technical education program, using supplementary aids and services, the student may be served in separate programs designed to address the student's occupational/training needs, such as career and technical education for students with disabilities (CTED) programs.
- (d) A student with a disability identified in accordance with provisions of Public Law 105-302 and the IDEA, is an eligible participant in career and technical education when the requirements of this subsection are met.
 - (1) The ARD committee shall include a representative from career and technical education, preferably the teacher, when considering initial or continued placement of a student in a career and technical education program. An ARD committee member, including a member described in this subsection, is not required to attend an ARD committee meeting if the conditions of 34 Code of Federal Regulations (CFR), §300.321(e)(1), regarding attendance, or 34 CFR, §300.321(e)(2), regarding excusal, have been met.
 - (2) Planning for students with disabilities shall be coordinated among career and technical education, special education, and state rehabilitation agencies and should include a coherent sequence of courses.
 - (3) The Bell County CoOp shall monitor to determine if the instruction being provided students with disabilities in career and technical education classes is consistent with the IEP developed for a student .
 - (4) A school district shall provide supplementary services that each student with a disability needs to successfully complete a career and technical education program, such as curriculum modification, equipment modification, classroom modification, supportive personnel, and instructional aids and devices.
 - (5) A school district shall help fulfill the transitional service requirements of the IDEA of 2004, 20 USC §§1400-1491o , and implementing regulations, state statutes, and rules of the commissioner of education for each student with a disability who is completing a coherent sequence of career and technical education courses.
 - (6) When determining placement in a career and technical education classroom, the ARD committee shall consider a student's graduation plan, the content of the IEP, including the consideration of transition services, and classroom supports. Enrollment numbers should not create a harmful effect on student learning for a student with or without disabilities in accordance with the provisions in the IDEA of 2004, 20 USC §§1400-14910, and its implementing regulations.
The ARD/IEP Committee will determine the individualized program needed for each student with disabilities placed in CTE classes. The case manager will collaborate with the CTE teacher regarding the IEP and instructional needs.

G. Homebound Program

Please see the Student Attendance Accounting Manual for detailed information on the following:

- Homebound Services for Students with Chronic Illness/Acute Health Problems
- Chronic Illness/Acute Health Problems Policy Requirements
- Pregnancy Related Services (PRS)
- Infants and Toddlers with AI/VI
- ECSE
- Homebound Funding and Documentation Requirement
- Transition from Homebound to the Classroom
- Transitioning Students with Chronic Illness between Homebound and the Classroom
- Career and Technology Education Funding Requirements
- others

The Bell County CoOp provides homebound instruction for special education students who are unable to attend school because of medical reasons.

1. *It is the responsibility of the ARD/IEP committee to determine:*
 - a. *the curriculum that is appropriate for homebound instruction;*

b. modifications of the student's schedule.

The general classroom teacher on the student's home campus determines academic course work for the special education homebound student in his/her class and will coordinate with the assigned homebound teacher.

2. *It is important for the ARD/IEP committee to explain to the parents that an adult must be present in the home when a homebound teacher is providing instruction.*
3. *Dismissal procedures for homebound students are outlined in the ARD/IEP committee meeting that initiates homebound instruction. A homebound student will return to school:*
 - a. *when the medical release from the physician indicates*
 - b. *when the medical report from the physician expires.*

Homebound Program for Pregnant Students

Special Education eligibility and services do not change as a result of a student's becoming pregnant.

During the periods the student is confined to the home or hospital bedside, either prenatal or postnatal, special education and related services should be provided in the homebound instructional setting.

To ensure that there is no break in special education services, the ARD committee should convene as soon as possible on verification of a student's pregnancy to determine how special education and related services will be provided in the homebound instructional arrangement during the period of confinement to the home or hospital bedside. The committee should –

- *consider any prenatal medical conditions (such as, but not limited to, gestational diabetes, high blood pressure, preterm labor, etc.)*
- *consider postpartum periods of pregnancy; and*
- *document in the IEP the change of placement and in the type/amount of services that should begin on receipt of the physician's note.*

H. Learning in Functional Environments (L.I.F.E.) or Work Based Learning (WBL)

The Learning in Functional Environments (L.I.F.E.) program is the name given to describe a service delivery option, which may be considered by the ARD/IEP committee. This instructional option provides state curriculum as well as a focus on training students in functional daily living skills with a strong vocational emphasis at the secondary level to prepare students for work in a supported employment environment when they leave school. The core academic curriculum areas of reading, writing, and mathematics are included as well as science and social studies with an emphasis on functional skills to become as independent as possible. The term Community-based Instruction (CBI) is a term used to describe teaching and learning the functional skills in the actual real environment of the community versus inside the classroom. Community-based Instruction is not a field trip; rather it is an instructional trip specifically to teach the goals and objectives of the IEP on a consistent basis in the real environments. A more current term to describe learning in real work environments is WBL or Work Based Learning.

I. Early Childhood Special Education (ECSE)

The Early Childhood Special Education services for children with disabilities ages three through five is offered on select elementary school campuses. Parents are encouraged to be active participants in all phases of the educational process. Instruction is based on an individual education plan that is determined after evaluation has been completed. There may be several instructional personnel working together for the benefit of the student. These staff members may include, but are not limited to, an educational diagnostician, speech pathologist, nurse, special education teacher, special education instructional aide, occupational and/or physical therapist. ECSE placement is based on evaluation, eligibility and the student's IEP.

J. Speech Therapy

The speech/language pathologist utilizes a service delivery system that has a range of services from least to most restrictive. An important component of this model is the option of providing service in general classroom through collaboration with the general education teacher. (Speech/language pathologist should be strongly encouraged to continue to implement this when appropriate for students.)

*The amount of therapy time set out in the IEP establishes that these services will be provided. Therefore, it is essential that therapy **not** be canceled. Careful planning is required to allow for ARD/IEP meetings and testing time. Missed therapy sessions must be made up if the student is involved in a school related activity or if the therapist is out ill or attending professional development.*

- 1. Relative to ARD/IEP committee meetings, the speech pathologist:
 - a. should send home a DRAFT IEP at least one week prior to the ARD. A cover letter with name, conference time and phone number should accompany the IEP.*
 - b. conducts ARDs for students with a “speech impairment only”;*
 - c. copy and distribute the accommodation checklist to all the student’s teachers that are SI only.*
 - d. should attend ARDs for students that have the SI label in addition to another disability.**
- 2. Other responsibilities:
 - a. Full-time pathologists traditionally schedule a set time per week to use for testing, ARD/IEP committee meetings and paperwork.*
 - b. Weekly Therapy logs and attendance logs shall be maintained by the speech/language therapist.*
 - c. Our goal is for full-time therapists serve approximately 60 to 65 students per week. There may be circumstances in which this caseload is not possible.*
 - d. Lesson plans should be used as a guide for the implementation of the IEP.**

K. Vision Services

- 1. All arrangements for service for students with visual impairments are designed to help the student to be successful in his/her primary academic setting.*
- 2. The visual impairment (VI) may be primary, secondary, or tertiary disability, and services from VI personnel will be implemented as determined by the ARD/IEP Committee. For every student receiving any type of vision service because of a certified visual impairment, the service assignments on the ARD/IEP form should include visual impairment. This may be in addition to other services or may be the only services the student receives.*
- 3. Progress of the students will be reviewed by vision staff and any other instructors. For students with a visual impairment, the ARD/IEP Committees must include the VI teacher.*
- 4. Staff assigned to work with students with visual impairments will have access to training and resources available through various agencies, including, but not limited to our local Regional Education Service Center (plus ESC 17), Texas School for the Blind and Visually Impaired (TSBVI), and Division for Blind Services (DBS) under Texas Department of Assistive and Rehabilitative Services (DARS).*

L. Vocational Adjustment Class/Program

(See also E. Gen. Ed. CTE) Local as determined by ARD committee. The Vocational Adjustment Class (VAC) is a special education vocational program that is offered on the high school campus. This instructional arrangement is designed for students with disabilities who desire vocational training and are unable to make progress in general education CTE programs. The curriculum of the VAC program includes on-the-job training and frequent supervision at work sites in the community. Employment opportunities and training are based on vocational evaluation, student needs and abilities, teacher recommendations and parental preference.

Admission to the Vocational Adjustment Program is made by the Admission, Review and Dismissal (ARD/IEP) committee.

Community-Based Vocational Education (CBVE) delivers vocational education to students in typical community work settings rather than conventional school environments. Students engage in vocational exploration, assessment, and training experiences to assist in identifying career interests, assessing skills and training needs and developing the skills and attitudes necessary for paid, long-term employment. Students in CBVE will work toward independent employment, as appropriate.

§300.177 States' sovereign immunity and positive efforts to employ and advance qualified individuals with disabilities.

(a) States' sovereign immunity.

- (1) A State that accepts funds under this part waives its immunity under the 11th amendment of the Constitution of the United States from suit in Federal court for a violation of this part.**
- (2) In a suit against a State for a violation of this part, remedies (including remedies both at law and in equity) are available for such a violation in the suit against any public entity other than a State.**

- (3) Paragraphs (a)(1) and (a)(2) of this section apply with respect to violations that occur in whole or part after the date of enactment of the Education of the Handicapped Act Amendments of 1990.**
- (b) Positive efforts to employ and advance qualified individuals with disabilities. Each recipient of assistance under Part B of the Act must make positive efforts to employ, and advance in employment, qualified individuals with disabilities in programs assisted under Part B of the Act.**

The Special Education Department (including High School VAC's) in Bell County CoOp will work in cooperation with the district Personnel Office and Administration to carefully review job openings within the district. Consideration will be given to any qualified individual with disabilities to advance in employment. Examples of positive efforts may include providing employment vacancy information to organizations for persons with disabilities and conducting job fairs for persons with disabilities.

Section 6. - DISCIPLINE SECTION

I. STUDENT CODE OF CONDUCT

§300.530 Authority of school personnel.

- (a) **Case-by-case determination.** School personnel may consider any unique circumstances on a case-by-case basis when determining whether a change in placement, consistent with the other requirements of this section, is appropriate for a child with a disability who violates a code of student conduct.

TEC §37.001. STUDENT CODE OF CONDUCT.

- (a) The board of trustees of an independent school district shall, with the advice of its district-level committee established under Subchapter F, Chapter 11, adopt a student code of conduct for the district. The student code of conduct must be posted and prominently displayed at each school campus or made available for review at the office of the campus principal. In addition to establishing standards for student conduct, the student code of conduct must:
- (1) specify the circumstances, in accordance with this subchapter, under which a student may be removed from a classroom, campus, or disciplinary alternative education program, or vehicle owned or operated by the district;
 - (2) specify conditions that authorize or require a principal or other appropriate administrator to transfer a student to a disciplinary alternative education program;
 - (3) outline conditions under which a student may be suspended as provided by Section 37.005 or expelled as provided by Section 37.007;
 - (4) specify that consideration will be given, as a factor in each decision concerning suspension, removal to a disciplinary alternative education program, expulsion, or placement in a juvenile justice alternative education program, regardless of whether the decision concerns a mandatory or discretionary action, to:
 - (A) self-defense;
 - (B) intent or lack of intent at the time the student engaged in the conduct;
 - (C) a student's disciplinary history; or
 - (D) a disability that substantially impairs the student's capacity to appreciate the wrongfulness of the student's conduct;
 - (E) a student's status in the conservatorship of the Department of Family and Protective Services; or;
 - (F) a student's status as a student who is homeless;
 - (5) provide guidelines for setting the length of a term of:
 - (A) a removal under Section 37.006; and
 - (B) an expulsion under Section 37.007;
 - (6) address the notification of a student's parent or guardian of a violation of the student code of conduct committed by the student that results in suspension, removal to a disciplinary alternative education program, or expulsion;
 - (7) prohibit bullying, harassment, and making hit lists and ensure that district employees enforce those prohibitions; and
 - (8) provide, as appropriate for students at each grade level, methods, including options, for:
 - (A) managing students in the classroom and on school grounds, and on a vehicle owned or operated by the district;
 - (B) disciplining students; and
 - (C) preventing and intervening in student discipline problems, including bullying, harassment, and making hit lists.
 - (9) provide, include and explanation of the provisions regarding refusal of entry to or ejection from district property under Section 37.105, including the appeal process established under Section 37.105(h)
- (b) In this section:
- (1) "Bullying" has the meaning assigned by Section 37.0832.
 - (2) "Harassment" means threatening to cause harm or bodily injury to another student, engaging in sexually intimidating conduct, causing physical damage to the property of another student, subjecting another student to physical confinement or restraint, or maliciously taking any action that substantially harms another student's physical or emotional health or safety.

- (3) "Hit list" means a list of people targeted to be harmed, using:
 - (A) a firearm, as defined by Section 46.01(3), Penal Code;
 - (B) a knife, as defined by Section 46.01(7), Penal Code; or
 - (C) any other object to be used with intent to cause bodily harm.
- (4) "Student who is homeless" has the meaning assigned to the term "homeless children and youths" under 42 U.S.C. Section 11434a.
- (b-1) The methods adopted under Subsection (a)(8) must provide that a student who is enrolled in a special education program under Subchapter A, Chapter 29, may not be disciplined for conduct prohibited in accordance with Subsection (a)(7) until an admission, review, and dismissal committee meeting has been held to review the conduct.
- (c) Once the student code of conduct is promulgated, any change or amendment must be approved by the board of trustees.
- (d) Each school year, the school district shall provide parents notice of and information regarding the student code of conduct.
- (e) Except as provided by Section 37.007(e), this subchapter does not require the student code of conduct to specify a minimum term of a removal under Section 37.006 or an expulsion under Section 37.007.

The Bell County CoOp has adopted a positive behavioral support program/initiative and all campus staff receive annual training on the program.

TEC §37.0012. DESIGNATION OF CAMPUS BEHAVIOR COORDINATOR.

- (a) A person at each campus must be designated to serve as the campus behavior coordinator. The person designated may be the principal of the campus or any other campus administrator selected by the principal.
- (b) The campus behavior coordinator is primarily responsible for maintaining student discipline and the implementation of this subchapter.
- (c) Except as provided by this chapter, the specific duties of the campus behavior coordinator may be established by campus or district policy. Unless otherwise provided by campus or district policy:
 - (1) a duty imposed on a campus principal or other campus administrator under this subchapter shall be performed by the campus behavior coordinator; and
 - (2) a power granted to a campus principal or other campus administrator under this subchapter may be exercised by the campus behavior coordinator.
- (d) The campus behavior coordinator shall promptly notify a student's parent or guardian as provided by this subsection if under this subchapter the student is placed into in-school or out-of-school suspension, placed in a disciplinary alternative education program, expelled, or placed in a juvenile justice alternative education program or is taken into custody by a law enforcement officer. A campus behavior coordinator must comply with this subsection by:
 - (1) promptly contacting the parent or guardian by telephone or in person; and
 - (2) making a good faith effort to provide written notice of the disciplinary action to the student, on the day the action is taken, for delivery to the student's parent or guardian.
- (e) If a parent or guardian entitled to notice under Subsection (d) has not been reached by telephone or in person by 5 p.m. of the first business day after the day the disciplinary action is taken, a campus behavior coordinator shall mail written notice of the action to the parent or guardian at the parent's or guardian's last known address.
- (f) If a campus behavior coordinator is unable or not available to promptly provide notice under Subsection (d), the principal or other designee shall provide the notice.

TEC §37.0013. POSITIVE BEHAVIOR PROGRAM.

- (a) Each school district and open-enrollment charter school may develop and implement a program, in consultation with campus behavior coordinators employed by the district or school and representatives of a regional education service center, that provides a disciplinary alternative for a student enrolled in a grade level below grade three who engages in conduct described by Section 37.005(a) and is not subject to Section 37.005(c). The program must:
 - (1) be age-appropriate and research-based;
 - (2) provide models for positive behavior;
 - (3) promote a positive school environment;

- (4) provide alternative disciplinary courses of action that do not rely on the use of in-school suspension, out-of-school suspension, or placement in a disciplinary alternative education program to manage student behavior; and
 - (5) provide behavior management strategies, including:
 - (A) positive behavioral intervention and support;
 - (B) trauma-informed practices;
 - (C) social and emotional learning;
 - (D) a referral for services, as necessary; and
 - (E) restorative practices.
- (b) Each school district and open-enrollment charter school may annually conduct training for staff employed by the district or school on the program adopted under Subsection (a).

II. CHANGE OF PLACEMENT DECISIONS Change of Placement Analysis

The local campus administrator is responsible for maintaining records on student discipline. Students with disabilities must be monitored by the local campus for total number of removals in order to follow state and federal disciplinary requirements outlined in this section.

Change of Placement Analysis

When a principal or other appropriate administrator recommends disciplinary removal from the student's current IEP placement, a district must conduct a Change of Placement Analysis by reviewing the following:

- (1) Count the days of disciplinary removal from the student's current educational placement.
 - (a) Portions of a school day that a child had been suspended would be included in determining whether the child had been removed for more than 10 cumulative school days or subjected to a change of placement.*
 - (b) An in-school suspension would not be considered a part of the days of suspension as long as the child is afforded the opportunity to:
 - (i) Appropriately progress in the general curriculum,*
 - (ii) Continue to receive the services specified on his or her IEP, and*
 - (iii) Continue to participate with non disabled children to the extent they would have in their current placement.**
 - (c) Whether a bus suspension would count as a day of suspension would depend on whether the bus transportation is a part of the child's IEP.
 - (i) If the bus transportation is a part of the child's IEP, a bus suspension would be treated as a suspension unless the Bell County CoOp provides the bus service in some other way.*
 - (ii) If the bus transportation is not a part of the child's IEP, a bus suspension would not be a suspension.***
- (2) Determine whether the disciplinary removal(s) constitute(s) a change of placement. A disciplinary change of placement occurs if:
 - (a) The removal is for more than 10 consecutive school days, or*
 - (b) The student is subject to a series of removals that constitute a pattern because they cumulate to more than 10 school days in a school year and because of factors such as the length of each removal, the total amount of time the student is removed and the proximity of the removals to one another.**

A. Less than 10 School Day Removals

- The Bell County CoOp is not required to provide services for removal of a student with a disability who has been removed from the current placement for 10 school days or less in that school year, if services are not provided to a student without disabilities who has been similarly removed.*
- The Bell County CoOp may choose to provide the IEP services to the student with disabilities during any short term removal to ISS in order to prevent counting those days of removal toward the 10 cumulative days.*
- In the case of a student whose behavior impedes his or her learning or that of others, convene an ARD meeting, if appropriate, to consider completing an FBA/BIP including positive behavior interventions, strategies, and supports to address that behavior.*

B. More than 10 School Day Removals

1. Consecutive or Cumulative – Pattern

§300.536 Change of placement because of disciplinary removals.

- (a) For purposes of removals of a child with a disability from the child's current educational placement under §§300.530 through 300.535, a change of placement occurs if--**
 - (1) The removal is for more than 10 consecutive school days; or**
 - (2) The child has been subjected to a series of removals that constitute a pattern--**
 - (i) Because the series of removals total more than 10 school days in a school year;**
 - (ii) Because the child's behavior is substantially similar to the child's behavior in previous incidents that resulted in the series of removals, and**

- (iii) Because of such additional factors as the length of each removal, the total amount of time the child has been removed, and the proximity of the removals to one another.
- (b) (1) The Bell County CoOp determines on a case-by-case basis whether a pattern of removals constitutes a change of placement.
- (2) This determination is subject to review through due process and judicial proceedings. (Authority: 20 U.S.C. 1415(k))

Additional (beyond 10 cumulative days in a school year) short-term removals (of 10 consecutive days or less) for separate incidents of misconduct, are permitted, to the extent removals would be applied to nondisabled students (as long as those removals do not constitute a Change of Placement described in 300.536 above).

An ARD/IEP Committee will:

- consider special education and disciplinary records of the student with a disability prior to the final determination regarding the disciplinary action;*
- review the student's BIP and its implementation to determine if accommodations / modifications are necessary;*
- consult with one or more of the child's teachers to determine the extent to which services are needed and the location necessary to enable the student to appropriately progress in the general curriculum and appropriately advance toward achieving the goals set out in the student's IEP.*
- If the Bell County CoOp initiates disciplinary procedures applicable to all students, the special education and disciplinary records of the student with a disability will be provided to the person or persons making the final determination regarding disciplinary action.*

2. Manifestation Determination

If a disciplinary removal constitutes a change in placement, within 10 school days of any decision to change the placement because of a violation of a code of student conduct, the Bell County CoOp must convene an ARD/IEP meeting to conduct a manifestation determination and address the two questions in §300.530(e)(1) below.

§300.530 Authority of school personnel.

(e) Manifestation determination.

- (1) Within 10 school days of any decision to change the placement of a child with a disability because of a violation of a code of student conduct, the LEA, the parent, and relevant members of the child's IEP Team (as determined by the parent and the LEA) must review all relevant information in the student's file, including the child's IEP, any teacher observations, and any relevant information provided by the parents to determine--
- (i) If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or
- (ii) If the conduct in question was the direct result of the LEAs failure to implement the IEP.
- (2) The conduct must be determined to be a manifestation of the child's disability if the LEA, the parent, and relevant members of the child's IEP Team determine that a condition in either paragraph (e)(1)(i) or (1)(ii) of this section was met.
- Previously, any tangential or attenuated relationship between the discipline infraction and the child's disability was sufficient to determine that the infraction was a "manifestation" of the child's disability. In IDEA 2004, the House Committee FAQ says to be a manifestation "it is the intention that the conduct in question was caused by, or has a direct and substantial relationship to the child's disability, and is not an attenuated association or mere correlation, such as low self-esteem, to the child's disability."*
 - Relevant Members of the IEP Team: depending on the type of discipline infraction, when the infraction occurred and who was present, some members of the IEP Team may not be relevant to the discussion of the discipline event. Nonetheless, in each instance the relevant members should be determined in collaboration by the parents and the Bell County CoOp.*
- (3) If the LEA, the parent and relevant members of the child's IEP Team determine the condition described in paragraph (e)(1)(ii) of this section was met, the LEA must take immediate steps to remedy those deficiencies.
- (f) **Determination that behavior was a manifestation.** If the LEA, the parent, and relevant members of the IEP Team make the determination that the conduct was a manifestation of the child's disability, the IEP Team must--
- (1) Either--

- (i) Conduct a functional behavioral assessment, unless the LEA had conducted a functional behavioral assessment before the behavior that resulted in the change of placement occurred, and implement a behavioral intervention plan for the child; or
- (ii) If a behavioral intervention plan already has been developed, review the behavioral intervention plan, and modify it, as necessary, to address the behavior; and
- (2) Except as provided in paragraph (g) of this section, return the child to the placement from which the child was removed, unless the parent and the LEA agree to a change of placement as part of the modification of the behavioral intervention plan.
- (g) **Special circumstances.** School personnel may remove a student to an interim alternative educational setting for not more than 45 school days without regard to whether the behavior is determined to be a manifestation of the child's disability, if the child --
 - (1) Carries a weapon to or possesses a weapon at school, on school premises, or to or at a school function under the jurisdiction of an SEA or an LEA;
 - (2) Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function under the jurisdiction of an SEA or an LEA; or
 - (3) Has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of an SEA or an LEA.

If the student's ARD committee agrees that additional assessment is indicated, Federal Guidelines stipulate required timelines. If the student's ARD committee agrees that there is a need for a functional behavior assessment, the committee may determine that there is enough data to complete the assessment at the ARD. If there is insufficient data to complete the assessment at the ARD, the ARD committee determines the timeline for the assessment(s) to be completed, which may be more than 10 days if warranted.

3. FBA (Functional Behavioral Assessment) / Behavior Intervention Plan (BIP)

§300.324 Development, review, and revision of IEP

- (a) (2) **Consideration of special factors. The IEP Team must--**
 - (i) **In the case of a child whose behavior impedes the child's learning or that of others, consider the use of positive behavioral interventions and supports, and other strategies, to address that behavior.**

The IEP committee is required to 'consider the use of positive behavioral interventions and supports, and other strategies to address that behavior' if the child's behavior impedes his or her learning or that of others. The final decision on interventions, strategies and supports is left to the IEP committee. The Texas Project FIRST provides additional resources to schools and families on behavior and emotional support for students.

§300.530 Authority of school personnel.

(d) Services.

- (1) **A child with a disability who is removed from the child's current placement pursuant to paragraph (c) or (g) of this section must--**
 - (i) **Continue to receive educational services, as provided in §300.101(a), so as to enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP; and**
 - (ii) **Receive, as appropriate, a functional behavioral assessment, and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur.**
- (2) **for (d)(2,3,4,5) see OPO Section 6, FAPE for Students Removed**

The Functional Behavioral Assessment (FBA) must be completed when:

- *the removal is more than 10 school days due to any other violation of code (FBA to prevent recurrence)*
- *the removals are due to drugs, weapons or serious bodily injury*
- *if behavior is a manifestation of the disability(unless FBA/BIP is already in place / then review, revise as needed)*

The district will ensure that relevant members of the ARD Committee (including the general education teacher) participate in providing information for the FBA and in the development of the FBA/BIP:

- *target the specific behavior that is impeding learning by clearly defining and describing the observable behavior(s).*
- *obtain information from a variety of sources including but not limited to: discussions, interviews, records, and direct observation. Also use any standardized instruments if available. Determine duration, frequency, and intensity of any patterns of behavior.*
- *identify and describe any antecedents - events that logically serve as the stimulus for the behavior.*
- *identify and describe any consequences - this is the action that is following and causes the student to maintain specific behavior - determine effectiveness of each.*
- *determine the purpose of the student's behavior - usually to get something, avoid or escape something, or to control the antecedent event.*
- *describe the relationship of the behavior to the event and provide possible variables that can be changed in the setting or the situation.*
- *develop a plan which includes accommodations and behavioral strategies that focus on teaching alternatives to the behavior including positive reinforcement as well as consequences for the targeted behavior(s).*
- *include strategies for consistent implementation and time frames that will allow for the behavior intervention plan and any accommodations to be effective.*

See OPOs, Section 2 (XI) (G) for additional guidance on FBAs and Section 7 for guidance on Consent and Prior Written Notice.

C. Placement made by ARD/IEP Committee

TEC §37.004. Placement of Students with Disabilities

- (a) The placement of a student with a disability who receives special education services may be made only by a duly constituted admission, review, and dismissal committee.
- (b) Any disciplinary action regarding a student with a disability who receives special education services that would constitute a change in placement under federal law may be taken only after the student's admission, review, and dismissal committee conducts a manifestation determination review under 20 U.S.C. Section 1415(k)(4) and its subsequent amendments. Any disciplinary action regarding the student shall be determined in accordance with federal law and regulations, including laws or regulations requiring the provision of:
 - (1) functional behavioral assessments;
 - (2) positive behavioral interventions, strategies, and supports;
 - (3) behavioral intervention plans; and
 - (4) the manifestation determination review.
- (b-1) If a school district takes a disciplinary action regarding a student with a disability who receives special education services that constitutes a change in placement under federal law, the district shall:
 - (1) not later than the 10th school day after the change in placement:
 - (A) seek consent from the student's parent or person standing in parental relation to the student to conduct a functional behavioral assessment of the student, if a functional behavioral assessment has never been conducted on the student or the student's most recent functional behavioral assessment is more than one year old; and
 - (B) review any previously conducted functional behavioral assessment of the student and any behavior improvement plan or behavioral intervention plan developed for the student based on that assessment; and
 - (2) as necessary:
 - (A) develop a behavior improvement plan or behavioral intervention plan for the student if the student does not have a plan; or

- (B) if the student has a behavior improvement plan or behavioral intervention plan, revise the student's plan.
- (c) A student with a disability who receives special education services may not be placed in alternative education programs solely for educational purposes.
- (d) A teacher in an alternative education program under Section 37.008 who has a special education assignment must hold an appropriate certificate or permit for that assignment.

TAC §89.1050. The Admission, Review and Dismissal Committee.

- (k) All disciplinary actions regarding students with disabilities must be determined in accordance with 34 CFR, §§300.101(a) and 300.530-300.536; TEC, Chapter 37, Subchapter A; and §89.1053 of this title (relating to Procedures for Use of Restraint and Time-Out).

III. REMOVALS OF STUDENTS WITH DISABILITIES

To read the entire text of Chapter 37, see: <https://statutes.capitol.texas.gov/Docs/ED/htm/ED.37.htm>

Student level data will be reviewed annually to identify any patterns or trends in disciplinary removals. Patterns or trends identified will assist the Bell County CoOp to develop and target staff training. Examples of patterns to look for are disproportionality of specific disabilities, grade levels, campuses, gender, ethnicity, etc.

A. Teacher Removal

TEC §37.002. Removal by Teacher

- (a) A teacher may send a student to the campus behavior coordinator's office to maintain effective discipline in the classroom. The campus behavior coordinator shall respond by employing appropriate discipline management techniques consistent with the student code of conduct adopted under Section 37.001 that can reasonably be expected to improve the student's behavior before returning the student to the classroom. If the student's behavior does not improve, the campus behavior coordinator shall employ alternative discipline management techniques, including any progressive interventions designated as the responsibility of the campus behavior coordinator in the student code of conduct.
- (b) A teacher may remove from class a student:
 - (1) who has been documented by the teacher to repeatedly interfere with the teacher's ability to communicate effectively with the students in the class or with the ability of the student's classmates to learn; or
 - (2) whose behavior the teacher determines is so unruly, disruptive, or abusive that it seriously interferes with the teacher's ability to communicate effectively with the students in the class or with the ability of the student's classmates to learn.
- (b-1) A teacher may document any conduct by a student that does not conform to the student code of conduct adopted under Section 37.001 and may submit that documentation to the principal. A school district may not discipline a teacher on the basis of documentation submitted under this subsection.
- (c) If a teacher removes a student from class under Subsection (b), the principal may place the student into another appropriate classroom, into in-school suspension, or into a disciplinary alternative education program as provided by Section 37.008. The principal may not return the student to that teacher's class without the teacher's consent unless the committee established under Section 37.003 determines that such placement is the best or only alternative available. The terms of the removal may prohibit the student from attending or participating in school-sponsored or school-related activity.
- (d) A teacher shall remove from class and send to the principal for placement in a disciplinary alternative education program or for expulsion, as appropriate, a student who engages in conduct described under Section 37.006 or 37.007. The student may not be returned to that teacher's class without the teacher's consent unless the committee established under Section 37.003 determines that such placement is the best or only alternative available. If the teacher removed the student from class because the student has engaged in the element of any offense listed in Section 37.006 (a)(2)(B) or Section 37.007 (a)(2)(A) of (b)(2)(C) against the teacher, the student may not be returned to the teacher's class without the teacher's consent. The teacher may not be coerced to consent.
- (e) A student who is sent to the campus behavior coordinator's or other administrator's office under Subsection (a) or removed from class under Subsection (b) is not considered to have been removed from the classroom for the purposes of reporting data through the Public Education Information Management System (PEIMS) or other similar reports required by state or federal law.

Prior to the removal of a special education student from a specialized setting identified in the IEP, the ARD Committee must convene to consider supports, services, and alternative that meet the needs of the student.

TEC §37.003. Placement Review Committee

- (a) Each school shall establish a three-member committee to determine placement of a student when a teacher refuses the return of a student to the teacher's class and make recommendations to the district regarding readmission of expelled students. Members shall be appointed as follows:
 - (1) the campus faculty shall choose two teachers to serve as members and one teacher to serve as an alternate member; and
 - (2) the principal shall choose one member from the professional staff of a campus.

- (b) The teacher refusing to readmit the student may not serve on the committee.
- (c) The committee's placement determination regarding a student with a disability who receives special education services under Subchapter A, Chapter 29, is subject to the requirements of the Individuals with Disabilities Education Act (20 U.S.C. Section 1400 et seq.) and federal regulations, state statutes, and agency requirements necessary to carry out federal law or regulations or state law relating to special education.

TEC §37.0181 Professional Development Regarding Disciplinary Procedures

- (a) Each principal or other appropriate administrator who oversees student discipline shall, at least once every three school years, attend professional development training regarding this subchapter, including training relating to the distinction between a discipline management technique used at the principal's discretion under Section 37.002(a) and the discretionary authority of a teacher to remove a disruptive student under Section 37.002(b).
- (b) Professional development training under this section may be provided in coordination with regional education service centers through the use of distance learning methods, such as telecommunications networks, and using available agency resources.

B. ISS – In School Suspension

The local campus administrator is responsible for maintaining records on student discipline. Students with disabilities must be monitored by the local campus for total number of removals in order to follow state and federal disciplinary requirements regarding Change of Placement requirements which are outlined in this section.

Suspension

TEC §37.005. Suspension.

- (a) The principal or other appropriate administrator may suspend a student who engages in conduct identified in the student code of conduct adopted under Section 37.001 as conduct for which a student may be suspended.
- (b) A suspension under this section may not exceed three school days.
- (c) A student who is enrolled in a grade level below grade three may not be placed in out-of-school suspension unless while on school property or while attending a school-sponsored or school-related activity on or off of school property, the student engages in:
 - (1) conduct that contains the elements of an offense related to weapons under Section 46.02 or 46.05, Penal Code;
 - (2) conduct that contains the elements of a violent offense under Section 22.01, 22.011, 22.02, or 22.021, Penal Code; or
 - (3) selling, giving, or delivering to another person or possessing, using, or being under the influence of any amount of:
 - (A) marihuana or a controlled substance, as defined by Chapter 481, Health and Safety Code, or by 21 U.S.C. Section 801 et seq.;
 - (B) a dangerous drug, as defined by Chapter 483, Health and Safety Code; or
 - (C) an alcoholic beverage, as defined by Section 1.04, Alcoholic Beverage Code.
- (d) A school district or open-enrollment charter school may not place a student who is homeless in out-of-school suspension unless the student engages in conduct described by Subsections (c)(1)-(3) while on school property or while attending a school-sponsored or school-related activity on or off of school property. The campus behavior coordinator may coordinate with the school district's homeless education liaison to identify appropriate alternatives to out-of-school suspension for a student who is homeless. In this subsection, "student who is homeless" has the meaning assigned to the term "homeless children and youths" under 42 U.S.C. Section 11434a.
- (e) A school district shall provide to a student during the period of the student's suspension under this section, regardless of whether the student is placed in in-school or out-of-school suspension, an alternative means of receiving all course work provided in the classes in the foundation curriculum under Section 28.002 (a)(1) that the student misses as a result of the suspension. The district must provide at least one option for receiving the course work that does not require the use of the internet.

TEC §33.081. Extracurricular Activities.

- (e) Suspension of a student with a disability that significantly interferes with the student's ability to meet regular academic standards must be based on the student's failure to meet the requirements of the student's

individualized education program. The determination of whether a disability significantly interferes with a student's ability to meet regular academic standards must be made by the student's admission, review, and dismissal committee. For purposes of this subsection, "student with a disability" means a student who is eligible for a district's special education program under Section 29.003(b).

- (f) A student suspended under this section may practice or rehearse with other students for an extracurricular activity but may not participate in a competition or other public performance.
- (g) An appeal to the commissioner is not a contested case under Chapter 2001, Government Code, if the issues presented relate to a student's eligibility to participate in extracurricular activities, including issues related to the student's grades or the Bell County CoOp's grading policy as applied to the student's eligibility. The commissioner may delegate the matter for decision to a person the commissioner designates. The decision of the commissioner or the commissioner's designee in a matter governed by this subsection may not be appealed except on the grounds that the decision is arbitrary or capricious. Evidence may not be introduced on appeal other than the record of the evidence before the commissioner.

§300.170 Suspension and expulsion rates.

- (a) **General.** The SEA must examine data, including data disaggregated by race and ethnicity, to determine if significant discrepancies are occurring in the rate of long-term suspensions and expulsions of children with disabilities--
 - (1) Among LEAs in the State; or
 - (2) Compared to the rates for nondisabled children within those agencies.
- (b) **Review and revision of policies.** If the discrepancies described in paragraph (a) of this section are occurring, the SEA must reviews and, if appropriate, revises (or requires the affected State agency or LEA to revise) its policies, procedures, and practices relating to the development and implementation of IEPs, the use of positive behavioral interventions and supports, and procedural safeguards, to ensure that these policies, procedures, and practices comply with the Act. (Authority: 20 U.S.C. 1412(a)(22))

D. IAES - (Interim Alternative Educational Setting) Removals for Drugs, Weapons, Serious Bodily Injury.

45 School Day Rule The district administrator may take disciplinary action with a student with a disability regardless of the Manifestation Determination decision if the behavior is a result of 3 specific circumstances identified in §300.530 (g)}

§300.530 Authority of school personnel.

- (g) **Special circumstances.** School personnel may remove a student to an interim alternative educational setting for not more than 45 school days without regard to whether the behavior is determined to be a manifestation of the child's disability, if the child--
 - (1) Carries a weapon to or possesses a weapon at school, on school premises, or to or at a school function under the jurisdiction of an SEA or an LEA;
 - (2) Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function under the jurisdiction of an SEA or an LEA; or
 - (3) Has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of an SEA or an LEA.
- (h) **Notification.** On the date on which the decision is made to make a removal that constitutes a change of placement of a child with a disability because of a violation of a code of student conduct, the LEA must notify the parents of that decision, and provide the parents the procedural safeguards notice described in §300.504.
- (i) **Definitions.** For purposes of this section, the following definitions apply:
 - (1) **Controlled substance** means a drug or other substance identified under schedules I, II, III, IV, or V in section 202(c) of the Controlled Substances Act (21 U.S.C. 812(c)).
 - (2) **Illegal drug** means a controlled substance; but does not include a controlled substance that is legally possessed or used under the supervision of a licensed health-care professional or that is legally possessed or used under any other authority under that Act or under any other provision of Federal law.

- (3) **Serious bodily injury** has the meaning given the term "serious bodily injury" under paragraph (3) of subsection (h) of section 1365 of title 18, United States Code.
- (4) **Weapon** has the meaning given the term "dangerous weapon" under paragraph (2) of the first subsection (g) of section 930 of title 18, United States Code. (Authority: 20 U.S.C. 1415(k)(1) and (7))

§300.531 Determination of setting.

The child's IEP Team determines the interim alternative educational setting for services under §300.530(c), (d)(5) and (g) (*found on page 619*). (Authority: 20 U.S.C. 1415(k)(2))

The ARD committee will assure that the student will receive appropriate services in the IAES assigned. There is nothing in the regulations that mandate the Bell County CoOp must have multiple possible interim alternative educational settings.

DAEP (Disciplinary Alternative Education Programs)

TEC §37.008. Disciplinary Alternative Education Programs (DAEP)

 - (2) a school-community guidance center; or
 - (3) a community-based alternative school.
- (c) An off-campus disciplinary alternative education program is not subject to a requirement imposed by this title, other than a limitation on liability, a reporting requirement, or a requirement imposed by this chapter or by Chapter 39.
- (d) A school district may provide a disciplinary alternative education program jointly with one or more other districts.
- (e) Each school district shall cooperate with government agencies and community organizations that provide services in the district to students placed in a disciplinary alternative education program.
- (f) A student removed to a disciplinary alternative education program is counted in computing the average daily attendance of students in the district for the student's time in actual attendance in the program.
- (g) The Bell County CoOp shall allocate to a disciplinary alternative education program the same expenditure per student attending the disciplinary alternative education program, including federal, state, and local funds, that would be allocated to the student's school if the student were attending the student's regularly assigned education program, including a special education program.
- (h) The LEA may not place a student, other than a student suspended as provided under Section 37.005 or expelled as provided under Section 37.007, in an unsupervised setting as a result of conduct for which a student may be placed in a disciplinary alternative education program.
- (i) On request of a school district, a regional education service center may provide to the district information on developing a disciplinary alternative education program that takes into consideration the district's size, wealth, and existing facilities in determining the program best suited to the district.

- (j) If a student placed in a disciplinary alternative education program enrolls in another school district before the expiration of the period of placement, the board of trustees of the district requiring the placement shall provide to the district in which the student enrolls, at the same time other records of the student are provided, a copy of the placement order. The district in which the student enrolls may continue the disciplinary alternative education program placement under the terms of the order or may allow the student to attend regular classes without completing the period of placement. A district may take any action permitted by this subsection if:
- (1) the student was placed in a disciplinary alternative education program by an open-enrollment charter school under Section 12.131 and the charter school provides to the district a copy of the placement order; or
 - (2) the student was placed in a disciplinary alternative education program by a school district in another state and:
 - (A) the out-of-state district provides to the district a copy of the placement order; and
 - (B) the grounds for the placement by the out-of-state district are grounds for placement in the district in which the student is enrolling.
- (j-1) If a student was placed in a disciplinary alternative education program by a school district in another state for a period that exceeds one year and a school district in this state in which the student enrolls continues the placement under Subsection (j), the district shall reduce the period of the placement so that the aggregate period does not exceed one year unless, after a review, the district determines that:
- (1) the student is a threat to the safety of other students or to district employees; or
 - (2) extended placement is in the best interest of the student.
- (k) A program of educational and support services may be provided to a student and the student's parents when the offense involves drugs or alcohol as specified under Section 37.006 or 37.007. A disciplinary alternative education program that provides chemical dependency treatment services must be licensed under Chapter 464, Health and Safety Code.
- (l) The LEA is required to provide in the district's disciplinary alternative education program a course necessary to fulfill a student's high school graduation requirements only as provided by this subsection. The LEA shall offer a student removed to a disciplinary alternative education program an opportunity to complete coursework before the beginning of the next school year. The LEA may provide the student an opportunity to complete coursework through any method available, including a correspondence course, distance learning, or summer school. The district may not charge the student for a course provided under this subsection.
- (l-1) The LEA will provide the parents of a student removed to a disciplinary alternative education program with written notice of the district's obligation under Subsection (l) to provide the student with an opportunity to complete coursework required for graduation. The notice must:
- (1) include information regarding all methods available for completing the coursework; and
 - (2) state that the methods are available at no cost to the student.
- (m) The commissioner shall adopt rules necessary to evaluate annually the performance of each district's disciplinary alternative education program established under this subchapter. The evaluation required by this section shall be based on indicators defined by the commissioner, but must include student performance on assessment instruments required under Sections 39.023(a) and (c). Academically, the mission of disciplinary alternative education programs shall be to enable students to perform at grade level.
- (m-1) The commissioner shall develop a process for evaluating a school district disciplinary alternative education program electronically. The commissioner shall also develop a system and standards for review of the evaluation or use systems already available at the agency. The system must be designed to identify districts that are at high risk of having inaccurate disciplinary alternative education program data or of failing to comply with disciplinary alternative education program requirements. The commissioner shall notify the board of trustees of a district of any objection the commissioner has to the district's disciplinary alternative education program data or of a violation of a law or rule revealed by the data, including any violation of disciplinary alternative education program requirements, or of any recommendation by the commissioner concerning the data. If the data reflect that a penal law has been violated, the commissioner shall notify the county attorney, district attorney, or criminal district attorney, as appropriate, and the attorney general. The commissioner is entitled to access to all district records the commissioner considers necessary or appropriate for the review, analysis, or approval of disciplinary alternative education program data. Amended by: 82nd Leg., R.S., Ch. 1316, Sec. 1, eff. June 17, 2011.

- (d) In addition to Subsections (a), (b), and (c), a student may be removed from class and placed in a disciplinary alternative education program under Section 37.008 based on conduct occurring off campus and while the student is not in attendance at a school-sponsored or school-related activity if:
 - (1) the superintendent or the superintendent's designee has a reasonable belief that the student has engaged in conduct defined as a felony offense other than aggravated robbery under Section 29.03, Penal Code, or those offenses defined in Title 5, Penal Code; and

- (a) This section applies only to the expulsion of a student with a disability under:
 - (1) Texas Education Code (TEC), §37.007(b), (c), or (f); or
 - (2) TEC, §37.007(d), as a result of conduct that contains the elements of any offense listed in TEC, §37.007(b)(2)(C), against any employee or volunteer in retaliation for or as a result of the person's employment or association with a school district.

The school district must provide written notice of the meeting at least five school days before the meeting or a shorter timeframe agreed to by the student's parents. A copy of the student's current individualized education program (IEP) must be provided to the JJAEP representative with the notice. If the JJAEP representative is unable to attend the ARD committee meeting, the representative must be given the opportunity to participate in the meeting through alternative means including conference telephone calls. TEC §37.011. Juvenile Justice Alternative Education Program

- (a) The juvenile board of a county with a population greater than 125,000 shall develop a juvenile justice alternative education program, subject to the approval of the Texas Juvenile Probation Commission. The juvenile board of a county with a population of 125,000 or less may develop a juvenile justice alternative education program. For the purposes of this subchapter, only a disciplinary alternative education program operated under the authority of a juvenile board of a county is considered a juvenile justice alternative education program. A juvenile justice alternative education program in a county with a population of 125,000 or less:
 - (1) is not required to be approved by the Texas Juvenile Probation Commission; and
 - (2) is not subject to Subsection (c), (d), (f), or (g).
- (b) If a student admitted into the public schools of a school district under Section 25.001(b) is expelled from school for conduct for which expulsion is required under Section 37.007(a), (d), or (e), the juvenile court, the juvenile board, or the juvenile board's designee, as appropriate, shall:

- (1) if the student is placed on probation under Section 54.04, Family Code, order the student to attend the juvenile justice alternative education program in the county in which the student resides from the date of disposition as a condition of probation, unless the child is placed in a post-adjudication treatment facility;
 - (2) if the student is placed on deferred prosecution under Section 53.03, Family Code, by the court, prosecutor, or probation department, require the student to immediately attend the juvenile justice alternative education program in the county in which the student resides for a period not to exceed six months as a condition of the deferred prosecution;
 - (3) in determining the conditions of the deferred prosecution or court-ordered probation, consider the length of the school district's expulsion order for the student; and
 - (4) provide timely educational services to the student in the juvenile justice alternative education program in the county in which the student resides, regardless of the student's age or whether the juvenile court has jurisdiction over the student.
- (b-1) Subsection (b)(4) does not require that educational services be provided to a student who is not entitled to admission into the public schools of a school district under Section 25.001(b).
- (c) A juvenile justice alternative education program shall adopt a student code of conduct in accordance with Section 37.001.
 - (d) A juvenile justice alternative education program must focus on English language arts, mathematics, science, social studies, and self-discipline. Each school district shall consider course credit earned by a student while in a juvenile justice alternative education program as credit earned in a district school. Each program shall administer assessment instruments under Subchapter B, Chapter 39, and shall offer a high school equivalency program. The juvenile board or the board's designee, with the parent or guardian of each student, shall regularly review the student's academic progress. In the case of a high school student, the board or the board's designee, with the student's parent or guardian, shall review the student's progress towards meeting high school graduation requirements and shall establish a specific graduation plan for the student. The program is not required to provide a course necessary to fulfill a student's high school graduation requirements other than a course specified by this subsection.
 - (e) A juvenile justice alternative education program may be provided in a facility owned by a school district. A school district may provide personnel and services for a juvenile justice alternative education program under a contract with the juvenile board.
 - (f) A juvenile justice alternative education program must operate at least seven hours per day and 180 days per year, except that a program may apply to the Texas Juvenile Probation Commission for a waiver of the 180-day requirement. The commission may not grant a waiver to a program under this subsection for a number of days that exceeds the highest number of instructional days waived by the commissioner during the same school year for a school district served by the program.
 - (g) A juvenile justice alternative education program shall be subject to a written operating policy developed by the local juvenile justice board and submitted to the Texas Juvenile Probation Commission for review and comment. A juvenile justice alternative education program is not subject to a requirement imposed by this title, other than a reporting requirement or a requirement imposed by this chapter or by Chapter 39.
 - (h) Academically, the mission of juvenile justice alternative education programs shall be to enable students to perform at grade level. For purposes of accountability under Chapter 39, a student enrolled in a juvenile justice alternative education program is reported as if the student were enrolled at the student's assigned campus in the student's regularly assigned education program, including a special education program. Annually the Texas Juvenile Probation Commission, with the agreement of the commissioner, shall develop and implement a system of accountability consistent with Chapter 39, where appropriate, to assure that students make progress toward grade level while attending a juvenile justice alternative education program. The Texas Juvenile Probation Commission shall adopt rules for the distribution of funds appropriated under this section to juvenile boards in counties required to establish juvenile justice alternative education programs. Except as determined by the commissioner, a student served by a juvenile justice alternative education program on the basis of an expulsion required under Section 37.007(a), (d), or (e) is not eligible for Foundation School Program funding under Chapter 42 or 31 if the juvenile justice alternative education program receives funding from the Texas Juvenile Probation Commission under this subchapter.
 - (i) A student transferred to a juvenile justice alternative education program must participate in the program for the full period ordered by the juvenile court unless the student's school district agrees to accept the student before the date ordered by the juvenile court. The juvenile court may not order a period of transfer under this section that exceeds the term of any probation ordered by the juvenile court.
 - (j) In relation to the development and operation of a juvenile justice alternative education program, a juvenile board and a county and a commissioner's court are immune from liability to the same extent as a school

district, and the juvenile board's or county's professional employees and volunteers are immune from liability to the same extent as a school district's professional employees and volunteers.

- (k) Each school district in a county with a population greater than 125,000 and the county juvenile board shall annually enter into a joint memorandum of understanding that:
- (1) outlines the responsibilities of the juvenile board concerning the establishment and operation of a juvenile justice alternative education program under this section;
 - (2) defines the amount and conditions on payments from the school district to the juvenile board for students of the school district served in the juvenile justice alternative education program whose placement was not made on the basis of an expulsion required under Section 37.007(a), (d), or (e);
 - (3) establishes that a student may be placed in the juvenile justice alternative education program if the student engages in serious misbehavior, as defined by Section 37.007(c).

(found in Section 6 of this OG)

- (4) identifies and requires a timely placement and specifies a term of placement for expelled students for whom the school district has received a notice under Section 52.041(d), Family Code;
 - (5) establishes services for the transitioning of expelled students to the school district prior to the completion of the student's placement in the juvenile justice alternative education program;
 - (6) establishes a plan that provides transportation services for students placed in the juvenile justice alternative education program;
 - (7) establishes the circumstances and conditions under which a juvenile may be allowed to remain in the juvenile justice alternative education program setting once the juvenile is no longer under juvenile court jurisdiction; and
 - (8) establishes a plan to address special education services required by law.
- (l) The school district shall be responsible for providing an immediate educational program to students who engage in behavior resulting in expulsion under Section 37.007(b), (c) and (f) but who are not eligible for admission into the juvenile justice alternative education program in accordance with the memorandum of understanding required under this section. The school district may provide the program or the school district may contract with a county juvenile board, a private provider, or one or more other school districts to provide the program. The memorandum of understanding shall address the circumstances under which such students who continue to engage in serious [or persistent] misbehavior, as defined by Section 37.007(c), shall be admitted into the juvenile justice alternative education program.
- (m) Each school district in a county with a population greater than 125,000 and the county juvenile board shall adopt a joint memorandum of understanding as required by this section not later than September 1 of each school year.
- (n) If a student who is ordered to attend a juvenile justice alternative education program moves from one county to another, the juvenile court may request the juvenile justice alternative education program in the county to which the student moves to provide educational services to the student in accordance with the local memorandum of understanding between the school district and juvenile board in the receiving county.
- (o) In relation to the development and operation of a juvenile justice alternative education program, a juvenile board and a county and a commissioners court are immune from liability to the same extent as a school district, and the juvenile board's or county's employees and volunteers are immune from liability to the same extent as a school district's employees and volunteers.
- (p) If a district elects to contract with the juvenile board for placement in the juvenile justice alternative education program of students expelled under Section 37.007(b), (c), and (f) and the juvenile board and district are unable to reach an agreement in the memorandum of understanding, either party may request that the issues of dispute be referred to a binding arbitration process that uses a qualified alternative dispute resolution arbitrator in which each party will pay its pro rata share of the arbitration costs. Each party must submit its final proposal to the arbitrator. If the parties cannot agree on an arbitrator, the juvenile board shall select an arbitrator, the school districts shall select an arbitrator, and those two arbitrators shall select an arbitrator who will decide the issues in dispute. An arbitration decision issued under this subsection is enforceable in a court in the county in which the juvenile justice alternative education program is located. Any decision by an arbitrator concerning the amount of the funding for a student who is expelled and attending a juvenile justice alternative education program must provide an amount sufficient based on operation of the juvenile justice alternative education program in accordance with this chapter. In determining the amount to be paid by a school district for an expelled student enrolled in a juvenile justice alternative education program, the arbitrator shall consider the relevant factors, including evidence of:
- (1) the actual average total per student expenditure in the district's alternative education setting;
 - (2) the expected per student cost in the juvenile justice alternative education program as described and agreed on in the memorandum of understanding and in compliance with this chapter; and

- (3) the costs necessary to achieve the accountability goals under this chapter.
- (q) In accordance with rules adopted by the board of trustees for the Teacher Retirement System of Texas, a certified educator employed by a juvenile board in a juvenile justice alternative education program shall be eligible for membership and participation in the system to the same extent that an employee of a public school district is eligible. The juvenile board shall make any contribution that otherwise would be the responsibility of the school district if the person were employed by the school district, and the state shall make any contribution to the same extent as if the person were employed by a school district.

Other TEC regulations for JJAEP are addressed by local school board policy.

The campus administrator and diagnostician on the designated campus is responsible for ensuring all procedures and guidelines are followed for the expulsion of a student with a disability as well as notification to all special education and general education teachers. Involvement of the special education designated administrator is also necessary to ensure clear communication.

 - (1) at an approved target range facility that is not located on a school campus; and
 - (2) while participating in or preparing for a school-sponsored shooting sports competition or a shooting sports educational activity that is sponsored or supported by the Parks and Wildlife Department or a shooting sports sanctioning organization working with the department.
- (l) Subsection (k) does not authorize a student to bring a firearm on school property to participate in or prepare for a school-sponsored shooting sports competition or a shooting sports educational activity described by that

subsection.

The placement of a student who is expelled must not be changed to the homebound instructional setting (see [10.6.2 Disciplinary Removals of Students with Disabilities](#) for detailed information regarding appropriate instructional setting codes and ADA eligibility when expelling students who are receiving special education and related services). <http://tea.texas.gov/index2.aspx?id=25769817607>

F. Emergency Placement

TEC §37.019. Emergency Placement of Expulsion

- (a) This subchapter does not prevent the principal or the principal's designee from ordering the immediate placement of a student in a disciplinary alternative education program if the principal or the principal's designee reasonably believes the student's behavior is so unruly, disruptive, or abusive that it seriously interferes with a teacher's ability to communicate effectively with the students in a class, with the ability of the student's classmates to learn, or with the operation of school or a school-sponsored activity.
- (b) This subchapter does not prevent the principal or the principal's designee from ordering the immediate expulsion of a student if the principal or the principal's designee reasonably believes that action is necessary to protect persons or property from imminent harm.
- (c) At the time of an emergency placement or expulsion, the student shall be given oral notice of the reason for the action. The reason must be a reason for which placement in a disciplinary alternative education program or expulsion may be made on a nonemergency basis. Within a reasonable time after the emergency placement or expulsion, but not later than the 10th day after the date of the placement or expulsion, the student shall be accorded the appropriate due process as required under Section 37.009. If the student subject to the emergency placement or expulsion is a student with disabilities who receives special education services, the emergency placement or expulsion is subject to federal law and regulations and must be consistent with the consequences that would apply under this subchapter to a student without a disability.
- (d) A principal or principal's designee is not liable in civil damages for an emergency placement under this section.

G. Court Involvement after Hearing.

§37.010. Court Involvement

- (a) Not later than the second business day after the date a hearing is held under Section 37.009, the board of trustees of a school district or the board's designee shall deliver a copy of the order placing a student in a disciplinary alternative education program under Section 37.006 or expelling a student under Section 37.007 and any information required under Section 52.04, Family Code, to the authorized officer of the juvenile court in the county in which the student resides. In a county that operates a program under Section 37.011, an expelled student shall to the extent provided by law or by the memorandum of understanding immediately attend the educational program from the date of expulsion, except that in a county with a population greater than 125,000, every expelled student who is not detained or receiving treatment under an order of the juvenile court must be enrolled in an educational program.
- (b) If a student is expelled under Section 37.007(c), the board or its designee shall refer the student to the authorized officer of the juvenile court for appropriate proceedings under Title 3, Family Code.
- (c) Unless the juvenile board for the county in which the district's central administrative office is located has entered into a memorandum of understanding with the district's board of trustees concerning the juvenile probation department's role in supervising and providing other support services for students in disciplinary alternative education programs, a court may not order a student expelled under Section 37.007 to attend a regular classroom, a regular campus, or a school district disciplinary alternative education program as a condition of probation.
- (d) Unless the juvenile board for the county in which the district's central administrative office is located has entered into a memorandum of understanding as described by Subsection (c), if a court orders a student to attend a disciplinary alternative education program as a condition of probation once during a school year and the student is referred to juvenile court again during that school year, the juvenile court may not order the student to attend a disciplinary alternative education program in a district without the district's consent until the student has successfully completed any sentencing requirements the court imposes.
- (e) Any placement in a disciplinary alternative education program by a court under this section must prohibit the student from attending or participating in school sponsored or school-related activities.

- (f) If a student is expelled under Section 37.007, on the recommendation of the committee established under Section 37.003 or on its own initiative, a district may readmit the student while the student is completing any court disposition requirements the court imposes. After the student has successfully completed any court disposition requirements the court imposes, including conditions of a deferred prosecution ordered by the court, or such conditions required by the prosecutor or probation department, if the student meets the requirements for admission into the public schools established by this title, a district may not refuse to admit the student, but the district may place the student in the disciplinary alternative education program. Notwithstanding Section 37.002(d), the student may not be returned to the classroom of the teacher under whose supervision the offense occurred without that teacher's consent. The teacher may not be coerced to consent.
- (g) If an expelled student enrolls in another school district, the board of trustees of the district that expelled the student shall provide to the district in which the student enrolls, at the same time other records of the student are provided, a copy of the expulsion order and the referral to the authorized officer of the juvenile court. The district in which the student enrolls may continue the expulsion under the terms of the order, may place the student in a disciplinary alternative education program for the period specified by the expulsion order, or may allow the student to attend regular classes without completing the period of expulsion. A district may take any action permitted by this subsection if the student was expelled by a school district in another state if:
- (1) the out-of-state district provides to the district a copy of the expulsion order; and
 - (2) the grounds for the expulsion are also grounds for expulsion in the district in which the student is enrolling.
- (g-1) If a student was expelled by a school district in another state for a period that exceeds one year and a school district in this state continues the expulsion or places the student in a disciplinary alternative education program under Subsection (g), the district shall reduce the period of the expulsion or placement so that the aggregate period does not exceed one year unless, after a review, the district determines that:
- (1) the student is a threat to the safety of other students or to district employees; or
 - (2) extended placement is in the best interest of the student.
- (h) A person is not liable in civil damages for a referral to juvenile court as required by this section.

IV. FREE APPROPRIATE PUBLIC EDUCATION (FAPE) FOR STUDENTS REMOVED

§300.530 Authority of school personnel.

- (a) **Case-by-case determination.** School personnel may consider any unique circumstances on a case-by-case basis when determining whether a change in placement, consistent with the requirements of this section, is appropriate for a child with a disability who violates a code of student conduct.
- (b) **General.**
- (1) School personnel under this section may remove a child with a disability who violates a code of student conduct from his or her current placement to an appropriate interim alternative educational setting, another setting, or suspension, for not more than 10 consecutive school days (to the extent those alternatives are applied to children without disabilities), and for additional removals of not more than 10 consecutive school days in that same school year for separate incidents of misconduct (as long as those removals do not constitute a change of placement under §300.536).
 - (2) After a child with a disability has been removed from his or her current placement for 10 school days in the same school year, during any subsequent days of removal the public agency must provide services to the extent required under paragraph (d) of this section.
- (c) **Additional authority.** For disciplinary changes in placement that would exceed 10 consecutive school days, if the behavior that gave rise to the violation of the school code is determined not to be a manifestation of the child's disability pursuant to paragraph (e) of this section, school personnel may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to children without disabilities, except as provided in paragraph (d) of this section.
- (d) **Services.**
- (1) A child with a disability who is removed from the child's current placement pursuant to paragraph (c) or (g) of this section must--
 - (i) Continue to receive educational services, as provided in §300.101(a), so as to enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP; and
 - (ii) Receive, as appropriate, a functional behavioral assessment, and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur.
 - (2) The services required by paragraph (d)(1), (d)(3), (d)(4), and (d)(5), of this section may be provided in an interim alternative educational setting.
 - (3) A public agency is only required to provide services during periods of removal to a child with a disability who has been removed from his or her current placement for 10 school days or less in that school year, if it provides services to a child without disabilities who has been similarly removed.
 - (4) After a child with a disability has been removed from his or her current placement for 10 school days in the same school year, if the current removal is for not more than 10 consecutive school days and is not a change of placement under §300.536, school personnel, in consultation with at least one of the child's teachers, determine the extent to which services are needed as provided in §300.101(a), so as to enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP.
 - (5) If the removal is a change of placement under §300.536, the child's IEP Team determines appropriate services under paragraph (d)(1) of this section.
- (e) **Manifestation determination.**
- (1) Within 10 school days of any decision to change the placement of a child with a disability because of a violation of a code of student conduct, the LEA, the parent, and relevant members of the child's IEP Team (as determined by the parent and the Bell County CoOp) must review all relevant information in the student's file, including the child's IEP, any teacher observations, and any relevant information provided by the parents to determine--
 - (i) If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or
 - (ii) If the conduct in question was the direct result of the Bell County CoOp's failure to implement the IEP.

- (2) The conduct must be determined to be a manifestation of the child's disability if the Bell County CoOp, the parent, and relevant members of the child's IEP Team determine that a condition in either paragraph (e)(1)(i) or (1)(ii) of this section was met.
- (3) If the LEA, the parent and relevant members of the child's IEP Team determine the condition described in paragraph (e)(1)(ii) of this section was met, the LEA must take immediate steps to remedy those deficiencies.
- (f) **Determination that behavior was a manifestation.** If the Bell County CoOp, the parent, and relevant members of the IEP Team make the determination that the conduct was a manifestation of the child's disability, the IEP Team must--
 - (1) Either--
 - (i) Conduct a functional behavioral assessment, unless the Bell County CoOp had conducted a functional behavioral assessment before the behavior that resulted in the change of placement occurred, and implement a behavioral intervention plan for the child; or
 - (ii) If a behavioral intervention plan already has been developed, review the behavioral intervention plan, and modify it, as necessary, to address the behavior; and
 - (2) Except as provided in paragraph (g) of this section, return the child to the placement from which the child was removed, unless the parent and the LEA agree to a change of placement as part of the modification of the behavioral intervention plan.
- (g) **Special circumstances.** School personnel may remove a student to an interim alternative educational setting for not more than 45 school days without regard to whether the behavior is determined to be a manifestation of the child's disability, if the child--
 - (1) Carries a weapon to or possesses a weapon at school, on school premises, or to or at a school function under the jurisdiction of an SEA or an LEA;
 - (2) Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function under the jurisdiction of an SEA or an LEA; or
 - (3) Has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of an SEA or an LEA.
- (h) **Notification.** On the date on which the decision is made to make a removal that constitutes a change of placement of a child with a disability because of a violation of a code of student conduct, the LEA must notify the parents of that decision, and provide the parents the procedural safeguards notice described in §300.504.
- (i) **Definitions.** For purposes of this section, the following definitions apply:
 - (1) **Controlled substance** means a drug or other substance identified under schedules I, II, III, IV, or V in section 202(c) of the Controlled Substances Act (21 U.S.C. 812(c)).
 - (2) **Illegal drug** means a controlled substance; but does not include a controlled substance that is legally possessed or used under the supervision of a licensed health-care professional or that is legally possessed or used under any other authority under that Act or under any other provision of Federal law.
 - (3) **Serious bodily injury** has the meaning given the term "serious bodily injury" under paragraph (3) of subsection (h) of section 1365 of title 18, United States Code.
 - (4) **Weapon** has the meaning given the term "dangerous weapon" under paragraph (2) of the first subsection (g) of section 930 of title 18, United States Code. (Authority: 20 U.S.C. 1415(k)(1) and (7))

TEC §37.021. Opportunity To Complete Courses During In-School And Certain Other Placements.

- (a) If a school district removes a student from the regular classroom and places the student in in-school suspension or another setting other than a disciplinary alternative education program, the district shall offer the student the opportunity to complete before the beginning of the next school year each course in which the student was enrolled at the time of the removal.
- (b) The district may provide the opportunity to complete courses by any method available, including a correspondence course, distance learning, or summer school.

V. CONFINEMENT, RESTRAINT, TIME-OUT

A. Use of Confinement, Restraint, Seclusion, and Time-Out

TEC §37.0021. Use of Confinement, Restraint, Seclusion, and Time-out

- (a) It is the policy of this state to treat with dignity and respect all students, including students with disabilities who receive special education services under Subchapter A, Chapter 29. A student with a disability who receives special education services under Subchapter A, Chapter 29, may not be confined in a locked box, locked closet, or other specially designed locked space as either a discipline management practice or a behavior management technique.
- (b) In this section:
- (1) "Restraint" means the use of physical force or a mechanical device to significantly restrict the free movement of all or a portion of a student's body.
 - (2) "Seclusion" means a behavior management technique in which a student is confined in a locked box, locked closet, or locked room that:
 - (A) is designed solely to seclude a person; and
 - (B) contains less than 50 square feet of space.
 - (3) "Time-out" means a behavior management technique in which, to provide a student with an opportunity to regain self-control, the student is separated from other students for a limited period in a setting:
 - (A) that is not locked; and
 - (B) from which the exit is not physically blocked by furniture, a closed door held shut from the outside, or another inanimate object.
- (c) A LEA employee or volunteer or an independent contractor of a district may not place a student in seclusion. This subsection does not apply to the use of seclusion in a court-ordered placement, other than a placement in an educational program of LEA, or in a placement or facility to which the following law, rules, or regulations apply:
- (1) the Children's Health Act of 2000, Pub. L. No. 106-310, any subsequent amendments to that Act, any regulations adopted under that Act, or any subsequent amendments to those regulations;
 - (2) 40 TAC. Sections 720.1001-720.1013; or
 - (3) 25 TAC. Section 412.308(e).
- (d) The commissioner by rule shall adopt procedures for the use of restraint and time-out by a LEA employee or volunteer or an independent contractor of a district in the case of a student with a disability receiving special education services under Subchapter A, Chapter 29. A procedure adopted under this subsection must:
- (1) be consistent with:
 - (A) professionally accepted practices and standards of student discipline and techniques for behavior management; and
 - (B) relevant health and safety standards;
 - (2) identify any discipline management practice or behavior management technique that requires a district employee or volunteer or an independent contractor of a district to be trained before using that practice or technique; and
 - (3) require a school district to:
 - (A) provide written notification to the student's parent or person standing in parental relation to the student for each use of restraint that includes:
 - (i) the name of the student;
 - (ii) the name of the district employee or volunteer or independent contractor of the district who administered the restraint;
 - (iii) the date of the restraint;
 - (iv) the time the restraint started and ended;
 - (v) the location of the restraint;
 - (vi) the nature of the restraint;
 - (vii) a description of the activity in which the student was engaged immediately preceding the use of the restraint;
 - (viii) the behavior of the student that prompted the restraint;
 - (ix) any efforts made to de-escalate the situation and any alternatives to restraint that were attempted;

- (x) if the student has a behavior improvement plan or a behavioral intervention plan, whether the plan may need to be revised as a result of the behavior that led to the restraint; and
- (xi) if the student does not have a behavior improvement plan or a behavioral intervention plan information on the procedure for the student's parent or person standing in parental relation to the student to request an admission, review, and dismissal committee meeting to discuss the possibility of conducting a functional behavioral assessment of the student and developing a plan for the student;
- (B) include in a student's special education eligibility school records:
 - (i) a copy of the written notification provided to the student's parent or person standing in parental relation to the student under Paragraph (A);
 - (ii) information on the method by which the written notification was sent to the parent or person; and
 - (iii) the contact information for the parent or person to whom the district sent the notification; and
- (C) if the student has a behavior improvement plan or behavioral intervention plan, document each use of time-out prompted by a behavior of the student specified in the student's plan, including a description of the behavior that prompted the time-out.
- (e) In the case of a conflict between a rule adopted under Subsection (d) and a rule adopted under Subchapter A, Chapter 29, the rule adopted under Subsection (d) controls.
- (f) For purposes of this subsection, "weapon" includes any weapon described under Section 37.007(a)(1). This section does not prevent a student's locked, unattended **confinement in an emergency** situation while awaiting the arrival of law enforcement personnel if:
 - (1) the student possesses a weapon; and
 - (2) the confinement is necessary to prevent the student from causing bodily harm to the student or another person.
- (g) This section and any rules or procedures adopted under this section **do not apply** to:
 - (1) a peace officer while performing law enforcement duties;
 - (2) juvenile probation, detention, or corrections personnel; or
 - (3) an educational services provider with whom a student is placed by a judicial authority, unless the services are provided in an educational program of the LEA.

B. Procedures for Use of Restraint and Time-out

TAC §89.1053. Procedures for Use of Restraint and Time-Out.

- (a) Requirement to implement. In addition to the requirements of 34 Code of Federal Regulations (CFR), §300.324(a)(2)(i), school districts and charter schools must implement the provisions of this section regarding the use of restraint and time-out. In accordance with the provisions of Texas Education Code (TEC), §37.0021 (Use of Confinement, Restraint, Seclusion, and Time-Out), it is the policy of the state to treat with dignity and respect all students, including students with disabilities who receive special education services under TEC, Chapter 29, Subchapter A.
- (b) Definitions.
 - (1) Emergency means a situation in which a student's behavior poses a threat of:
 - (A) imminent, serious physical harm to the student or others; or
 - (B) imminent, serious property destruction.
 - (2) Restraint means the use of physical force or a mechanical device to significantly restrict the free movement of all or a portion of the student's body.
 - (3) Time-out means a behavior management technique in which, to provide a student with an opportunity to regain self-control, the student is separated from other students for a limited period in a setting:
 - (A) that is not locked; and
 - (B) from which the exit is not physically blocked by furniture, a closed door held shut from the outside, or another inanimate object.
- (c) Use of restraint. A school employee, volunteer, or independent contractor may use restraint only in an emergency as defined in subsection (b) of this section and with the following limitations.
 - (1) Restraint must be limited to the use of such reasonable force as is necessary to address the emergency.
 - (2) Restraint must be discontinued at the point at which the emergency no longer exists.
 - (3) Restraint must be implemented in such a way as to protect the health and safety of the student and others.
 - (4) Restraint must not deprive the student of basic human necessities.
- (d) Training on use of restraint. Training for school employees, volunteers, or independent contractors must be provided according to the following requirements.

- (1) A core team of personnel on each Bell County CoOp campus must be trained in the use of restraint, and the team must include a campus administrator or designee and any general or special education personnel likely to use restraint.
 - (2) Personnel called upon to use restraint in an emergency and who have not received prior training must receive training within 30 school days following the use of restraint.
 - (3) Training on use of restraint must include prevention and de-escalation techniques and provide alternatives to the use of restraint.
 - (4) All trained personnel must receive instruction in current professionally accepted practices and standards regarding behavior management and the use of restraint.
- (e) Documentation and notification on use of restraint. In a case in which restraint is used, school employees, volunteers, or independent contractors must implement the following documentation requirements.
- (1) On the day restraint is utilized, the campus administrator or designee must be notified verbally or in writing regarding the use of restraint.
 - (2) On the day restraint is utilized, a good faith effort must be made to verbally notify the parent(s) regarding the use of restraint. (Sample form http://tea.texas.gov/Academics/Special_Student_Populations/Special_Education/Programs_and_Services/State_Guidance/Written_Summary_of_Restraint_Use_Sample_Form/)
 - (3) Written notification of the use of restraint must be placed in the mail or otherwise provided to the parent within one school day of the use of restraint.
 - (4) Written documentation regarding the use of restraint must be placed in the student's special education eligibility folder in a timely manner so the information is available to the admission, review, and dismissal (ARD) committee when it considers the impact of the student's behavior on the student's learning and/or the creation or revision of a behavioral intervention plan (BIP).
 - (5) Written notification to the parent(s) and documentation to the student's special education eligibility folder must include the following:
 - (A) name of the student;
 - (B) name of the staff member(s) administering the restraint;
 - (C) date of the restraint and the time the restraint began and ended;
 - (D) location of the restraint;
 - (E) nature of the restraint;
 - (F) a description of the activity in which the student was engaged immediately preceding the use of restraint;
 - (G) the behavior that prompted the restraint;
 - (H) the efforts made to de-escalate the situation and alternatives to restraint that were attempted; and
 - (I) information documenting parent contact and notification.
- (f) Clarification regarding restraint. The provisions adopted under this section do not apply to the use of physical force or a mechanical device that does not significantly restrict the free movement of all or a portion of the student's body. Restraint that involves significant restriction as referenced in subsection (b)(2) of this section does not include:
- (1) physical contact or appropriately prescribed adaptive equipment to promote normative body positioning and/or physical functioning;
 - (2) limited physical contact with a student to promote safety (e.g., holding a student's hand), prevent a potentially harmful action (e.g., running into the street), teach a skill, redirect attention, provide guidance to a location, or provide comfort;
 - (3) limited physical contact or appropriately prescribed adaptive equipment to prevent a student from engaging in ongoing, repetitive self-injurious behaviors, with the expectation that instruction will be reflected in the individualized education program (IEP) as required by 34 CFR, §300.324(a)(2)(i) to promote student learning and reduce and/or prevent the need for ongoing intervention; or
 - (4) seat belts and other safety equipment used to secure students during transportation.
- (g) Use of time-out. A school employee, volunteer, or independent contractor may use time-out in accordance with subsection (b)(3) of this section with the following limitations.
- (1) Physical force or threat of physical force must not be used to place a student in time-out.
 - (2) Time-out may only be used in conjunction with an array of positive behavior intervention strategies and techniques and must be included in the student's IEP and/or BIP if it is utilized on a recurrent basis to increase or decrease a targeted behavior.
 - (3) Use of time-out must not be implemented in a fashion that precludes the ability of the student to be involved in and progress in the general curriculum and advance appropriately toward attaining the annual goals specified in the student's IEP.

- (h) Training on use of time-out. Training for school employees, volunteers, or independent contractors must be provided according to the following requirements.
 - (1) General or special education personnel who implement time-out based on requirements established in a student's IEP and/or BIP must be trained in the use of time-out.
 - (2) Newly-identified personnel called upon to implement time-out based on requirements established in a student's IEP and/or BIP must receive training in the use of time-out within 30 school days of being assigned the responsibility for implementing time-out.
 - (3) Training on the use of time-out must be provided as part of a program which addresses a full continuum of positive behavioral intervention strategies, and must address the impact of time-out on the ability of the student to be involved in and progress in the general curriculum and advance appropriately toward attaining the annual goals specified in the student's IEP.
 - (4) All trained personnel must receive instruction in current professionally accepted practices and standards regarding behavior management and the use of time-out.
- (i) Documentation on use of time-out. Necessary documentation or data collection regarding the use of time-out, if any, must be addressed in the IEP or BIP. The ARD committee must use any collected data to judge the effectiveness of the intervention and provide a basis for making determinations regarding its continued use.
- (j) Student safety. Any behavior management technique and/or discipline management practice must be implemented in such a way as to protect the health and safety of the student and others. No discipline management practice may be calculated to inflict injury, cause harm, demean, or deprive the student of basic human necessities.
- (k) Data reporting. With the exception of actions covered by subsection (f) of this section, data regarding the use of restraint must be electronically reported to the Texas Education Agency (TEA) in accordance with reporting standards specified by the TEA.
- (l) Peace officers. The provisions adopted under this section apply to a peace officer only if the peace officer is employed or commissioned by the school district or provides, as a school resource officer, a regular police presence on a school district campus under a memorandum of understanding between the school district and a local law enforcement agency, except that the data reporting requirements in subsection (k) of this section apply to the use of restraint by any peace officer performing law enforcement duties on school property or during a school-sponsored or school-related activity.
- (m) The provisions adopted under this section do not apply to:
 - (1) juvenile probation, detention, or corrections personnel; or
 - (2) an educational services provider with whom a student is placed by a judicial authority, unless the services are provided in an educational program of the Bell County CoOp.

1. *Restraint means the use of physical force or mechanical device to significantly restrict free movement of all or a portion of a student's body. Physical restraint will be used as a last resort when it is clear that imminent, serious physical harm to the student or others is about to occur or occurring. Designated campus staff will be trained in Nonviolent Crisis Intervention annually.*
2. *A staff member who has been trained in SAMA, which is the methodology adopted, will administer any necessary restraint, if at all possible.*
3. *SAMA is a safe, non-harmful behavior management system designed to help staff members provide for the best possible care and welfare for all.*
4. *The IEP/BIP must clearly outline any restraint for the student.*
5. *When restraint is used, the trained staff will document and file in the student's eligibility folder. District forms will be used: (a) Written Summary of Incident and Restraint – Parent Contact Form; and (b) A cover letter to be put on your school stationery (in English or Spanish).*
6. *Send the cover letter and written summary of the incident and restraint to parent(s) within one day from the date of restraint. The parent(s) will be contacted by phone on the day of the restraint.*
7. *Document training of staff who use restraint in an emergency and any staff if they had not received prior training within 30 days following the use of restraint and send a copy to the Special Education Administrator.*
8. *Send a copy of all documentation to the Special Education Administration.*

C. Time-out Guidelines

The staff of Bell County CoOp will be trained and all rules above will be followed. The guidelines below are for the use of time-out. Time-out is outlined below as either Non-exclusionary, which is the least restrictive, or Exclusionary time-out which results from more serious behaviors. Exclusionary time-out should be used when

Non-exclusionary attempts are not successful. The campus will maintain documentation of time-out as it relates to the student's BIP. District forms will be filled out and given to the Bell County CoOp.

1. Non-exclusionary time-out:

- Planned Ignoring: This is the simplest form of Non-exclusionary time-out. Planned ignoring involves the systematic removal of social reinforcement (attention) by the teacher for a specific amount of time. When the student misbehaves, the teacher breaks eye contact, turns away, and stops all social interaction with the student. Planned ignoring assumes that the teacher's social attention is reinforcing. If it is not, then this will not work to decrease the behavior. If planned ignoring is the appropriate response, the teacher should prepare initially for an increase in the behavior before the behavior will decrease.*
- Head down on desk: This has been used by teachers for a long time. The student is simply told to put his head down on his desk for a short period of time. (timer may be used)*
- Observation time-out: The student is removed from his/her desk for misbehaving and is usually placed in a desk away from the main classroom activities for a short period of time. The student is allowed/required to observe the classroom discussion/activities, but is not allowed to actively participate in them. (use of timer recommended – 5 minutes and may reset once)*
- Non-observation time-out (instructional isolation): This is basically the same as observation time-out, except the student is not allowed to observe the classroom activities. Usually, the student is placed in a particular part of the classroom that does not provide for viewing other students. (use of timer recommended – 10 minutes and may reset once)*

2. Exclusionary time-out: The student is removed from the classroom and placed in a separate environment for cooling down and instructional activities to resume. Clearly, this is more restrictive and other types of time-out should be attempted first.

- Isolated instruction: This is extended time-out from the classroom. The student is required to complete class work in an isolated area in the classroom, another classroom, or the office.*
- In-school Suspension: This program is designed to supervise and assist students who have problems related to their general education setting. Reference the campus Student Code of Conduct for complete guidelines.*

D. Prohibited Aversive Techniques

TEC §37.0023. PROHIBITED AVERSIVE TECHNIQUES.

- (a) In this section, "aversive technique" means a technique or intervention that is intended to reduce the likelihood of a behavior reoccurring by intentionally inflicting on a student significant physical or emotional discomfort or pain. The term includes a technique or intervention that:
- (1) is designed to or likely to cause physical pain, other than an intervention or technique permitted under Section 37.0011;
 - (2) notwithstanding Section 37.0011, is designed to or likely to cause physical pain through the use of electric shock or any procedure that involves the use of pressure points or joint locks;
 - (3) involves the directed release of a noxious, toxic, or otherwise unpleasant spray, mist, or substance near the student's face;
 - (4) denies adequate sleep, air, food, water, shelter, bedding, physical comfort, supervision, or access to a restroom facility;
 - (5) ridicules or demeans the student in a manner that adversely affects or endangers the learning or mental health of the student or constitutes verbal abuse;
 - (6) employs a device, material, or object that simultaneously immobilizes all four extremities, including any procedure that results in such immobilization known as prone or supine floor restraint;
 - (7) impairs the student's breathing, including any procedure that involves:
 - (A) applying pressure to the student's torso or neck; or
 - (B) obstructing the student's airway, including placing an object in, on, or over the student's mouth or nose or placing a bag, cover, or mask over the student's face;
 - (8) restricts the student's circulation;
 - (9) secures the student to a stationary object while the student is in a sitting or standing position;
 - (10) inhibits, reduces, or hinders the student's ability to communicate;
 - (11) involves the use of a chemical restraint;
 - (12) constitutes a use of timeout that precludes the student from being able to be involved in and progress appropriately in the required curriculum and, if applicable, toward the annual goals included in the student's individualized education program, including isolating the student by the use of physical barriers; or
 - (13) except as provided by Subsection (c), deprives the student of the use of one or more of the student's senses.
- (b) A school district or school district employee or volunteer or an independent contractor of a school district may not apply an aversive technique, or by authorization, order, or consent, cause an aversive technique to be applied, to a student.
- (c) Notwithstanding Subsection (a)(13), an aversive technique described by Subsection (a)(13) may be used if the technique is executed in a manner that:
- (1) does not cause the student pain or discomfort; or
 - (2) complies with the student's individualized education program or behavior intervention plan.
- (d) Nothing in this section may be construed to prohibit a teacher from removing a student from class under Section 37.002.
- (e) In adopting procedures under this section, the commissioner shall provide guidance to school district employees, volunteers, and independent contractors of school districts in avoiding a violation of Subsection (b).

VI. DUE PROCESS REQUIREMENTS

A. Procedural Safeguards

All procedural safeguards, including required notice and consents, will be followed throughout the process of disciplinary action for students with disabilities.

B. Conference, Hearing, Review

TEC §37.009. Conference, Hearing, Review

- (a) Not later than the third class day after the day on which a student is removed from class by the teacher under Section 37.002(b) or (d) or by the school principal or other appropriate administrator under Section 37.001(a)(2) or 37.006, the campus behavior coordinator or other appropriate administrator shall schedule a conference among the campus behavior coordinator or other appropriate administrator, a parent or guardian of the student, the teacher removing the student from class, if any, and the student. At the conference, the student is entitled to written or oral notice of the reasons for the removal, an explanation of the basis for the removal, and an opportunity to respond to the reasons for the removal. The student may not be returned to the regular classroom pending the conference. Following the conference, and whether or not each requested person is in attendance after valid attempts to require the person's attendance, the campus behavior coordinator, after consideration of the factors under Section 37.001(a)(4) shall order the placement of the student for a period consistent with the student code of conduct. Before ordering the suspension, expulsion, removal to a disciplinary alternative education program, or placement in a juvenile justice alternative education program of a student, the behavior coordinator must consider whether the student acted in self-defense, the intent or lack of intent at the time the student engaged in the conduct, the student's disciplinary history, and whether the student has a disability that substantially impairs the student's capacity to appreciate the wrongfulness of the student's conduct, regardless of whether the decision of the behavior coordinator concerns a mandatory or discretionary action. If Bell County CoOp policy allows a student to appeal to the board of trustees or the board's designee a decision of the campus behavior coordinator or other appropriate administrator, other than an expulsion under Section 37.007, the decision of the board or the board's designee is final and may not be appealed. If the period of the placement is inconsistent with the guidelines included in the student code of conduct under Section 37.001(a)(5), the order must give notice of the inconsistency. The period of the placement may not exceed one year unless, after a review, the district determines that the student is a threat to the safety of other students or to district employees.
- (b) If a student's placement in a disciplinary alternative education program is to extend beyond 60 days or the end of the next grading period, whichever is earlier, a student's parent or guardian is entitled to notice of and an opportunity to participate in a proceeding before the board of trustees of the Bell County CoOp or the board's designee, as provided by policy of the board of trustees of the district. Any decision of the board or the board's designee under this subsection is final and may not be appealed.
- (c) Before it may place a student in a disciplinary alternative education program for a period that extends beyond the end of the school year, the board or the board's designee must determine that:
- (1) the student's presence in the regular classroom program or at the student's regular campus presents a danger of physical harm to the student or to another individual; or
 - (2) the student has engaged in serious or persistent misbehavior that violates the district's student code of conduct.
- (d) The board or the board's designee shall set a term for a student's placement in a disciplinary alternative education program. If the period of the placement is inconsistent with the guidelines included in the student code of conduct under Section 37.001(a)(5), the order must give notice of the inconsistency. The period of the placement may not exceed one year unless, after a review, the district determines that:
- (1) the student is a threat to the safety of other students or to district employees; or
 - (2) extended placement is in the best interest of the student.
- (e) A student placed in a disciplinary alternative education program shall be provided a review of the student's status, including a review of the student's academic status, by the board's designee at intervals not to exceed 120 days. In the case of a high school student, the board's designee, with the student's parent or guardian, shall review the student's progress towards meeting high school graduation requirements and shall establish a specific graduation plan for the student. The district is not required under this subsection to provide a course in the district's disciplinary alternative education program except as required by Section 37.008(1). At the review, the student or the student's parent or guardian must be given the opportunity to present arguments for the student's return to the regular classroom or campus. The student may not be returned to the classroom of the teacher who removed the student without that teacher's consent. The teacher may not be coerced to consent.
- (f) Before a student may be expelled under Section 37.007, the board or the board's designee must provide the student a hearing at which the student is afforded appropriate due process as required by the federal constitution and which the student's parent or guardian is invited, in writing, to attend. At the hearing, the student is entitled to be represented by the student's parent or guardian or another adult who can provide guidance to the student and who is not an employee of the school district. If the school district makes a good-faith effort to inform the student and the student's parent or guardian of the time and place of the hearing, the

district may hold the hearing regardless of whether the student, the student's parent or guardian, or another adult representing the student attends. If the decision to expel a student is made by the board's designee, the decision may be appealed to the board. Before ordering the expulsion of a student, the board of trustees must consider whether the student acted in self-defense, the intent or lack of intent at the time the student engaged in the conduct, the student's disciplinary history, and whether the student has a disability that substantially impairs the student's capacity to appreciate the wrongfulness of the student's conduct, regardless of whether the decision of the board concerns a mandatory or discretionary action. The decision of the board may be appealed by trial de novo to a district court of the county in which the school district's central administrative office is located.

- (g) The board or the board's designee shall deliver to the student and the student's parent or guardian a copy of the order placing the student in a disciplinary alternative education program under Section 37.001, 37.002, or 37.006 or expelling the student under Section 37.007.
- (h) If the period of an expulsion is inconsistent with the guidelines included in the student code of conduct under Section 37.001 (a)(5), the order must give notice of the inconsistency. The period of an expulsion may not exceed one year unless, after a review, the district determines that:
 - (1) the student is a threat to the safety of other students or to district employees; or
 - (2) extended placement is in the best interest of the student. After the school district notifies the parents or guardians of a student that the student has been expelled, the parent or guardian shall provide adequate supervision of the student during the period of expulsion.
- (i) If a student withdraws from the district before an order for placement in a disciplinary alternative education program or expulsion is entered under this section, the principal or board, as appropriate, may complete the proceedings and enter an order. If the student subsequently enrolls in the district during the same or subsequent school year, the district may enforce the order at that time except for any period of the placement or expulsion that has been served by the student on enrollment in another district that honored the order. If the principal or board fails to enter an order after the student withdraws, the next district in which the student enrolls may complete the proceedings and enter an order.
- (j) If, during the term of a placement or expulsion ordered under this section, a student engages in additional conduct for which placement in a disciplinary alternative education program or expulsion is required or permitted, additional proceedings may be conducted under this section regarding that conduct and the principal or board, as appropriate, may enter an additional order as a result of those proceedings.

C. Stay Put

- (a) Previously during appeals, a child with a disability remained in the original placement, "stay-put". The new IDEA eliminates the "stay-put" requirement in the case of discipline. The "stay-put" rule still applies to the non-disciplinary dispute. Now during the time that an appeal is pending, the child will remain in the interim alternative educational setting (IAES) until the appeal is resolved or until the expiration of the suspension, whichever occurs first.(see D. and E. below)*
- (b) As described below in §300.532, the hearing officer is required to make a decision within 30 school days from the date the hearing is requested. Therefore, if the student is assigned to an IAES for 45 school days, the hearing officer's decision will come first.*
- (c) The IEP Team will pick the appropriate IAES. The timeframe for expiration of the IAES is determined by school personnel applying the "relevant disciplinary procedures applicable to children without disabilities" referred to in the Student Code of Conduct.*

D. Appeal

§300.532 Appeal.

- (a) General.** The parent of a child with a disability who disagrees with any decision regarding placement under §§300.530 and 300.531, or the manifestation determination under §300.530(e), or an LEA that believes that maintaining the current placement of the child is substantially likely to result in injury to the child or others, may appeal the decision by requesting a hearing. The hearing is requested by filing a complaint pursuant to § 300.507 and § 300.508(a) and (b).
- (b) Authority of hearing officer.**
 - (1)** A hearing officer under §300.511 hears, and makes a determination regarding, an appeal requested under paragraph (a) of this section.
 - (2)** In making the determination under paragraph (b)(1) of this section, the hearing officer may—

- (i) Return the child with a disability to the placement from which the child was removed if the hearing officer determines that the removal was a violation of §300.530 or that the child's behavior was a manifestation of the child's disability; or
 - (ii) Order a change of placement of the child with a disability to an appropriate interim alternative educational setting for not more than 45 school days if the hearing officer determines that maintaining the current placement of the child is substantially likely to result in injury to the child or to others.
- (3) The procedures under paragraphs (a) and (b)(1) and (2) of this section may be repeated, if the Bell County CoOp believes that returning the child to the original placement is substantially likely to result in injury to the child or to others.
- (c) **Expedited due process hearing.**
- (1) Whenever a hearing is requested under paragraph (a) of this section, the parents or the LEA involved in the dispute must have an opportunity for an impartial due process hearing consistent with the requirements of §§300.507 and 300.508(a) through (c) and §§300.510 through 300.514, except as provided in paragraph (c)(2) through (5)(4) of this section.
 - (2) The SEA or Bell County CoOp is responsible for arranging the expedited due process hearing, which must occur within 20 school days of the date the complaint requesting the hearing is filed. The hearing officer must make a determination within 10 school days after the hearing.
 - (3) Unless the parents and the LEA agree in writing to waive the resolution meeting described in paragraph (c)(3)(i) of this section, or agree to use the mediation process described in §300.506--
 - (i) A resolution meeting must occur within seven days of receiving notice, and
 - (ii) The due process hearing may proceed unless the matter has been resolved to the satisfaction of both parties within 15 days of receipt of the due process complaint.
 - (4) A State may establish different State-imposed procedural rules for expedited due process hearings conducted under this section than it has established for other due process hearings, but, except for the timelines as modified in paragraph (c)(3) of this section, the State must ensure that the requirements in §§300.510 through 300.514 are met.
 - (5) The decisions on expedited due process hearings are appealable consistent with §300.514. (Authority: 20 U.S.C. 1415(k)(3) and (4)(B), 1415(f)(1)(A))

E. Placement During Appeals

§300.533 Placement during appeals.

When an appeal under §300.532 has been requested by either the parent or the Bell County CoOp, the child must remain in the interim alternative educational setting pending the decision of the hearing officer or until the expiration of the time period specified in §300.530 (c) or (g), whichever occurs first, unless the parent and the SEA or Bell County CoOp agree otherwise. (Authority: 20 U.S.C. 1415(k)(4)(A))

F. Resolution Meeting Prior to Due Process

§300.510 Resolution process.

(a) Resolution meeting.

- (1) Within 15 days of receiving notice of the parents' due process complaint, and prior to the initiation of a due process hearing under §300.511, the LEA must convene a meeting with the parents and the relevant member or members of the IEP Team who have specific knowledge of the facts identified in the due process complaint that--
 - (i) Includes a representative of the public agency who has decision-making authority on behalf of that agency; and
 - (ii) May not include an attorney of the Bell County CoOp unless the parent is accompanied by an attorney.
- (2) The purpose of the meeting is for the parents of the child to discuss their due process complaint, and the facts that form the basis of the due process complaint, so that the LEA has the opportunity to resolve the dispute that is the basis for the due process complaint.
- (3) The meeting described in paragraph (a)(1) and (2) of this section need not be held if--
 - (i) The parent and the LEA agree in writing to waive the meeting; or
 - (ii) The parent and the LEA agree to use the mediation process described in §300.506.
- (4) The parent and the LEA determine the relevant members of the IEP Team to attend the meeting.

(b) Resolution period.

- (1) If the LEA has not resolved the due process complaint to the satisfaction of the parents within 30 days of the receipt of the due process complaint, the due process hearing must occur.
 - (2) Except as provided in paragraph (c) of this section, the timeline for issuing a final decision under §300.515 begins at the expiration of this 30-day period.
 - (3) Except where the parties have jointly agreed to waive the resolution process or to use mediation, notwithstanding paragraphs (b)(1) and (2) of this section, the failure of a parent filing a due process complaint to participate in the resolution meeting will delay the timelines for the resolution process and due process hearing until the meeting is held.
 - (4) If the LEA is unable to obtain the participation of the parent in the resolution meeting after reasonable efforts have been made (and documented using the procedures in §.300.322(d)), the LEA may, at the conclusion of the 30-day period, request that a hearing officer dismiss the parent's due process complaint.
 - (5) If the LEA fails to hold the resolution meeting specified in paragraph (a) of this section within 15 days of receiving notice of a parent's due process complaint or fails to participate in the resolution meeting, the parent may seek the intervention of a hearing officer to begin the due process hearing timeline.
- (c) **Adjustments to 30-day resolution period.** The 45-day timeline for the due process hearing in §.300.515(a) starts the day after one of the following events:
- (1) Both parties agree in writing to waive the resolution meeting;
 - (2) After either the mediation or resolution meeting starts but before the end of the 30-day resolution period, the parties agree in writing that no agreement is possible;
 - (3) If both parties agree in writing to continue the mediation at the end of the 30-day resolution period, but later, the parent or Bell County CoOp withdraws from the mediation process.
- (d) **Written settlement agreement.** If a resolution to the dispute is reached at the meeting described in paragraphs (a)(1) and (2) of this section, the parties must execute a legally binding agreement that is--
- (1) Signed by both the parent and a representative of the agency who has the authority to bind the agency; and
 - (2) Enforceable in any State court of competent jurisdiction or in a district court of the United States, or by the SEA, if the State has other mechanisms or procedures that permit parties to seek enforcement of resolution agreements, pursuant to §.300.537.
- (e) **Agreement review period.** If the parties execute an agreement pursuant to paragraph (c) of this section, a party may void the agreement within 3 business days of the agreement's execution.
(Authority: 20 U.S.C. 1415(f)(1)(B))

This process allows an opportunity for the school to resolve the parent's complaint. This can take up to 30 days and the timelines for a due process hearing begin to run only after those first 30 days. Also, there is an "expedited hearing" in the case of a disciplinary appeal. When the final regulations are completed, this may be resolved.

G. Notice of Disciplinary Actions (Student Moves to another District)

TEC §37.022. Notice of Disciplinary Action

- (a) In this section:
- (1) "Disciplinary action" means a suspension, expulsion, placement in an alternative education program, or other limitation in enrollment eligibility of a student by a district or school.
 - (2) "District or school" includes an independent school district, a home-rule school district, a campus or campus program charter holder, or an open-enrollment charter school.
- (b) If a district or school takes disciplinary action against a student and the student subsequently enrolls in another district or school before the expiration of the period of disciplinary action, the governing body of the district or school taking the disciplinary action shall provide to the district or school in which the student enrolls, at the same time other records of the student are provided, a copy of the order of disciplinary action.
- (c) Subject to Section 37.007(e), the district or school in which the student enrolls may continue the disciplinary action under the terms of the order or may allow the student to attend regular classes without completing the period of disciplinary action.

H. Protection for Students not Yet Eligible for Special Education

§300.534 Protections for children not yet eligible for special education and related services.

- (a) **General.** A child who has not been determined to be eligible for special education and related services under this part and who has engaged in behavior that violated a code of student conduct, may assert

any of the protections provided for in this part if the Bell County CoOp had knowledge (as determined in accordance with paragraph (b) of this section) that the child was a child with a disability before the behavior that precipitated the disciplinary action occurred.

- (b) **Basis of knowledge.** The Bell County CoOp must be deemed to have knowledge that a child is a child with a disability if before the behavior that precipitated the disciplinary action occurred—
- (1) The parent of the child expressed concern in writing to supervisory or administrative personnel of the appropriate educational agency, or a teacher of the child, that the child is in need of special education and related services;
 - (2) The parent of the child requested an evaluation of the child pursuant to §§300.300 through 300.311; or
 - (3) The teacher of the child, or other personnel of the Bell County CoOp, expressed specific concerns about a pattern of behavior demonstrated by the child directly to the director of special education of the Bell County CoOp or to other supervisory personnel of the agency.
- (c) **Exception.** A public agency would not be deemed to have knowledge under paragraph (b) of this section if—
- (1) The parent of the child—
 - (i) Has not allowed an evaluation of the child pursuant to §§300.300 through 300.311; or
 - (ii) Has refused services under this part; or
 - (2) The child has been evaluated in accordance with §§300.300 through 300.311 and determined to not be a child with a disability under this part.
- (d) **Conditions that apply if no basis of knowledge.**
- (1) If a Bell County CoOp does not have knowledge that a child is a child with a disability (in accordance with paragraphs (b) and (c) of this section) prior to taking disciplinary measures against the child, the child may be subjected to the disciplinary measures applied to children without disabilities who engaged in comparable behaviors consistent with paragraph (d)(2) of this section.
 - (2)
 - (i) If a request is made for an evaluation of a child during the time period in which the child is subjected to disciplinary measures under §300.530, the evaluation must be conducted in an expedited manner.
 - (ii) Until the evaluation is completed, the child remains in the educational placement determined by school authorities, which can include suspension or expulsion without educational services .
 - (iii) If the child is determined to be a child with a disability, taking into consideration information from the evaluation conducted by the agency and information provided by the parents, the agency must provide special education and related services in accordance with this part, including the requirements of §§300.530 through 300.536 and section 612(a)(1)(A) of the Act.

I. Noncustodial Parent

TEC §37.0091. Notice to Noncustodial Parent.

- (a) A noncustodial parent may request in writing that the Bell County CoOp or school, for the remainder of the school year in which the request is received, provide that parent with a copy of any written notification relating to student misconduct under Section 37.006 or 37.007 that is generally provided by the Bell County CoOp or school to a student's parent or guardian.
 - (b) The Bell County CoOp or school may not unreasonably deny a request authorized by Subsection (a).
 - (c) Notwithstanding any other provision of this section, the Bell County CoOp or school shall comply with any applicable court order of which the Bell County CoOp or school has knowledge.
- Added by Acts 2003, 78th Leg., ch. 1055, Sec. 14, eff. June 20, 2003.

VII. LAW ENFORCEMENT

§300.535 Referral to and action by law enforcement and judicial authorities.

- (a) **Rule of construction.** Nothing in this part prohibits an agency from reporting a crime committed by a child with a disability to appropriate authorities or prevents State law enforcement and judicial authorities from exercising their responsibilities with regard to the application of Federal and State law to crimes committed by a child with a disability.
- (b) **Transmittal of records.**
- (1) An agency reporting a crime committed by a child with a disability must ensure that copies of the special education and disciplinary records of the child are transmitted for consideration by the appropriate authorities to whom the agency reports the crime.
 - (2) An agency reporting a crime under this section may transmit copies of the child's special education and disciplinary records only to the extent that the transmission is permitted by the Family Educational Rights and Privacy Act. (Authority: 20 U.S.C. 1415(k)(6))

- (b) A person who makes a notification under this section shall include the name and address of each student the person believes may have participated in the activity.
- (c) A notification is not required under Subsection (a) if the person reasonably believes that the activity does not constitute a criminal offense.
- (d) The principal of a public or private primary or secondary school may designate a school employee who is under the supervision of the principal to make the reports required by this section.
- (e) The person who makes the notification required under Subsection (a) shall also notify each instructional or support employee of the school who has regular contact with a student whose conduct is the subject of the notice.
- (f) A person is not liable in civil damages for reporting in good faith as required by this section.

TEC §37.016. Report of Drug Offenses; Liability

- Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

VIII. DISCIPLINARY RECORDS

§300.229 Disciplinary information.

- (a) The State may require that a public agency include in the records of a child with a disability a statement of any current or previous disciplinary action that has been taken against the child and transmit the statement to the same extent that the disciplinary information is included in, and transmitted with, the student records of nondisabled children.
- (b) The statement may include a description of any behavior engaged in by the child that required disciplinary action, a description of the disciplinary action taken, and any other information that is relevant to the safety of the child and other individuals involved with the child.
- (c) If the State adopts such a policy, and the child transfers from one school to another, the transmission of any of the child's records must include both the child's current IEP and any statement of current or previous disciplinary action that has been taken against the child. (Authority: 20 U.S.C. 1413(i))

TEC § 37.017. Destruction of Certain Records.

Information received by a school district under Article 15.27, Code of Criminal Procedure, may not be attached to the permanent academic file of the student who is the subject of the report. The school district shall destroy the information at the end of the school year in which the report was filed.

TEC §37.008. Disciplinary Alternative Education Programs (DAEP).

- (j) If a student placed in a disciplinary alternative education program enrolls in another school district before the expiration of the period of placement, the board of trustees of the district requiring the placement shall provide to the district in which the student enrolls, at the same time other records of the student are provided, a copy of the placement order. The district in which the student enrolls may continue the disciplinary alternative education program placement under the terms of the order or may allow the student to attend regular classes without completing the period of placement. A district may take any action permitted by this subsection if:
 - (1) the student was placed in a disciplinary alternative education program by an open-enrollment charter school under Section 12.131 and the charter school provides to the district a copy of the placement order; or
 - (2) the student was placed in a disciplinary alternative education program by a school district in another state and:
 - (A) the out-of-state district provides to the district a copy of the placement order; and
 - (B) the grounds for the placement by the out-of-state district are grounds for placement in the district in which the student is enrolling.
- (j-1) If a student was placed in a disciplinary alternative education program by a school district in another state for a period that exceeds one year and a school district in this state in which the student enrolls continues the placement under Subsection (j), the district shall reduce the period of the placement so that the aggregate period does not exceed one year unless, after a review, the district determines that:
 - (1) the student is a threat to the safety of other students or to district employees; or
 - (2) extended placement is in the best interest of the student.

IX. COMPULSORY ATTENDANCE

TAC § 25.086. Exemptions. (from compulsory attendance)

- (a) A child is exempt from the requirements of compulsory school attendance if the child:
- (1) attends a private or parochial school that includes in its course a study of good citizenship;
 - (2) is eligible to participate in a school district's special education program under Section 29.003 and cannot be appropriately served by the resident district;

Campus staff should contact the Special Education Administration when the parent or adult student Revokes Consent for Special Education Services. Documentation in writing of the parent or adult student's revocation will be on the required district form provided to you. As stated in (b)(4)(i) above, use of the district provided form will assure that Prior Written Notice federal requirements (listed on page 703) are specifically documented prior to ceasing services. Parent signature on this PWN form can suffice as written request from the parent.

When a parent revokes consent for the provision of special education and related services, the Bell County CoOp may inquire as to why a parent is revoking consent, but may not require a parent to provide an explanation, either orally or in writing, prior to ceasing the provision of special education services.

Prior Written Notice is provided to the parent promptly after receiving written revocation of consent for provision of special education services.

The Bell County CoOp cannot discontinue services (following a revocation of consent) until the parent receives the Prior Written Notice form. The PWN states Bell County CoOp will provide parents the

“reasonable time” and information needed to make informed decisions regarding their child’s continued need for services. In Texas, a reasonable time means at least five school days.

(c) Parental consent for reevaluations.

(1) Subject to paragraph (c)(2) of this section, the Bell County CoOp

- (i) Must obtain informed parental consent, in accordance with §300.300(a)(1), prior to conducting any reevaluation of a child with a disability.**
- (ii) If the parent refuses to consent to the reevaluation the Bell County CoOp may, but is not required to pursue the reevaluation by using the consent override procedures described in paragraph (a)(3) of this section.**
- (iii) The Bell County CoOp does not violate its obligation under §300.111 and §§300.301 through 300.311 if it declines to pursue the evaluation or reevaluation.**

(2) The informed parental consent described in paragraph (c)(1) of this section need not be obtained if the Bell County CoOp can demonstrate that--

- (i) It made reasonable efforts to obtain such consent; and**
- (ii) The child’s parent has failed to respond.**

Parental consent is not required if the evaluation team determines that additional data are not needed for an evaluation or reevaluation. In all instances, the parents have the opportunity to be part of the team which makes that determination. Therefore, no parental consent is necessary if no additional data are needed to conduct the evaluation or reevaluation. If the team determines the review of existing evaluation data are sufficient to determine whether the child is a child with a disability and that no additional data are needed to determine whether the child qualifies as a child with a disability, parental consent for an evaluation is not required.

Evaluations occur as a regular part of student progress monitoring to assess whether the child has mastered the information. If the evaluation is crucial to determining a child’s continued eligibility or to determine whether “services should be increased or decreased” that is considered a reevaluation requiring written parental consent. (OSEP Letter to Sarzynski - May 6, 2008)

FBA - Functional Behavior Evaluation needs parental consent when completed to:

- * develop or modify a Behavior Intervention Plan*
- * determine whether the child is a child with a disability and the extent of special education and related services needed,*
- * determine whether the positive behavioral interventions and supports set out in the current IEP for a child with a disability would be effective in enabling the child to make progress toward the IEP goals/objectives, or*
- * determine whether the behavioral components of the IEP would need to be revised.*

(d) Other consent requirements.

(1) Parental consent is not required before -

- (i) Reviewing existing data as part of an evaluation or a reevaluation; or**
- (ii) Administering a test or other evaluation that is administered to all children unless, before administration of that test or evaluation, consent is required of parents of all children.**

(2) In addition to the parental consent requirements described in paragraphs (a), (b), and (c) of this section, a State may require parental consent for other services and activities under this part if it ensures that each public agency in the State establishes and implements effective procedures to ensure that a parent's refusal to consent does not result in a failure to provide the child with FAPE.

(3) The Bell County CoOp may not use a parent's refusal to consent to one service or activity under paragraphs (a), (b), (c) and (d)(2) of this section to deny the parent or child any other service, benefit, or activity of the public agency, except as required by this part.

- (4) (i) If a parent of a child who is home schooled or placed in a private school by the parents at their own expense does not provide consent for the initial evaluation or the reevaluation, or the parent fails to respond to a request to provide consent, the Bell County CoOp may not use the consent override procedures (described in paragraphs (a)(3) and (c)(1) of the section); and**
(ii) The Bell County CoOp is not required to consider the child as eligible for services under §§300.132 through 300.144.

(5) To meet the reasonable efforts requirement in paragraphs (a)(1)(iii), (a)(2)(i), (b)(2), and (c)(2)(i) of this section, the Bell County CoOp must document its attempts to obtain parental consent using the

procedures in §300.322(d). (*found on pg 711 - conducting IEP meeting without parent in attendance*)

(d) Children with disabilities who are covered by public benefits or insurance.

- (1) **The Bell County CoOp may use the Medicaid or other public benefits or insurance programs in which a child participates to provide or pay for services required under this part, as permitted under the public benefits or insurance program, except as provided in paragraph (d)(2) of this section.**
- (2) **With regard to services required to provide FAPE to an eligible child under this part, the Bell County CoOp--**
 - (i), (ii), and (iii) *are in section 8- Administration*
 - (iv) **(A) Must obtain parental consent consistent with §300.9 each time that access to public benefits or insurance is sought; and**
 - (B) Notify parents that the parents' refusal to allow access to their public benefits or insurance does not relieve the public agency of its responsibility to ensure that all required services are provided at no cost to the parents.**

Informed parental consent may be obtained one time for the specific services and duration of services identified in a child's IEP. The Bell County CoOp is not required to obtain a separate consent each time a Medicaid agency or other public insurer or public program is billed for the provision of required services. Section 1414 for the administration of any psychological examination or test to the child that is included as part of the evaluation of the child's need for special education, the Bell County CoOp will provide to the child's parent:**
 - (1) **the name and type of the examination or test; and**
 - (2) **an explanation of how the examination or test will be used to develop an appropriate individualized education program for the child.**

- (b) If the Bell County CoOp determines that an additional examination or test is required for the evaluation of a child's need for special education after obtaining consent from the child's parent under Subsection (a), the Bell County CoOp shall provide the information described by Subsections (a)(1) and (2) to the child's parent regarding the additional examination or test and shall obtain additional consent for the examination or test.
- (c) The time required for the Bell County CoOp to provide information and seek consent under Subsection (b) may not be counted toward the 60 calendar days for completion of an evaluation under Section 29.004. If a parent does not give consent under Subsection (b) within 20 calendar days after the date the Bell County CoOp provided to the parent the information required by that subsection, the parent's consent is considered denied.

TAC § 26.009. Consent Required for Certain Activities (videotaping)

- (a) An employee of the Bell County CoOp will obtain the written consent of a child's parent before the employee may:
 - (1) conduct a psychological examination, test, or treatment, unless the examination, test, or treatment is required under Section 38.004 or state or federal law regarding requirements for special education; or
 - (2) make or authorize the making of a videotape of a child or record or authorize the recording of a child's voice.
- (b) An employee of the Bell County CoOp is **not required to obtain the consent of a child's parent** before the employee may make a videotape of a child or authorize the recording of a child's voice if the videotape or voice recording is to be used only for:
 - (1) purposes of safety, including the maintenance of order and discipline in common areas of the school or on school buses;
 - (2) a purpose related to a cocurricular or extracurricular activity;
 - (3) a purpose related to regular classroom instruction; or

In order to promote student safety, on receipt of a written request authorized under Subsection (a-1), a school district or open-enrollment charter school shall provide equipment, including a video camera, to the school or schools in the district or the charter school campus or campuses specified in the request. A school or campus that receives equipment as provided by this subsection shall place, operate, and maintain one or more video cameras in self-contained classrooms and other special education settings in which a majority of the students in regular attendance are provided special education and related services and are assigned to one or more self-contained classrooms or other special education settings for at least 50 percent of the instructional day, provided that:

- (1) a school or campus that receives equipment as a result of the request by a parent or staff member is required to place equipment only in classrooms or settings in which the parent's child is in regular attendance or to which the staff member is assigned, as applicable; and
 - (2) a school or campus that receives equipment as a result of the request by a board of trustees, governing body, principal, or assistant principal is required to place equipment only in classrooms or settings identified by the requestor, if the requestor limits the request to specific classrooms or settings subject to this subsection.

The agency shall notify the requestor and the district, if the district is not the requestor, of the agency's determination.
- (p) The commissioner:
 - (1) shall adopt rules relating to the expedited review process under Subsections (m), (n), and (o), including standards for making a determination under Subsection (o); and

 - (A) the date on which the current school year ends; or
 - (B) the 10th school business day after the date of the placement determination by the admission, review, and dismissal committee;
- (6) a requirement that, if a request is made by a parent in compliance with paragraph (5) of this subsection, unless the TEA grants an extension of time, a school or campus begin operation of a video camera in compliance with this section not later than the later of:
 - (A) the 10th school day of the fall semester; or
 - (B) the 45th school business day, or the first school day after the 45th school business day if that day is not a school day, after the date the request is made;
- (7) the procedures for requesting video surveillance and the procedures for responding to a request for video surveillance;
- (8) the procedures for providing advanced written notice to the campus staff and the parents of the students assigned to a self-contained classroom or other special education setting that video and audio surveillance will be conducted or cease in the classroom or setting, including procedures for notice, in compliance with TEC, §29.022(b), of the opportunity to request continued video and audio surveillance if video and audio surveillance will otherwise cease;
- (9) a requirement that video cameras be operated at all times during the instructional day when one or more students are present in a self-contained classroom or other special education setting in which video cameras are placed;
- (10) a statement regarding the personnel who will have access to video equipment or video recordings for purposes of operating and maintaining the equipment or recordings;
- (11) a requirement that a campus continue to operate and maintain any video camera placed in a self-contained classroom or other special education setting for as long as the classroom or setting continues to satisfy the requirements in TEC, §29.022(a), for the remainder of the school year in which the school or campus received the request, unless the requestor withdraws the request in writing;
- (12) a requirement that video cameras placed in a self-contained classroom or other special education setting be capable of recording video and audio of all areas of the classroom or setting, except that no visual monitoring of bathrooms and areas in which a student's clothes are changed may occur. Incidental visual coverage of the inside of a bathroom or any area of the classroom or other special education setting in which a student's clothes are changed is permitted only to the extent that such coverage is the result of the layout of the classroom or setting. Audio recording of the inside of a bathroom or any area of the classroom or other special education setting in which a student's clothes are changed is required;
- (13) a statement that video recordings must be retained for at least three months after the date the video was recorded and that video recordings will be maintained in accordance with the requirements of TEC, §29.022(e-1), when applicable;
- (14) a statement that the regular or continual monitoring of video is prohibited and that video recordings must not be used for teacher evaluation or monitoring or for any purpose other than the promotion of student safety;
- (15) at the school district's or open-enrollment charter school's discretion, a requirement that campuses post a notice at the entrance of any self-contained classroom or other special education setting in which video cameras are placed stating that video and audio surveillance are conducted in the classroom or setting;
- (16) the procedures for reporting an allegation to the school district, charter school, or school that an incident occurred in a self-contained classroom or other special education setting in which video surveillance under TEC, §29.022, and this section is conducted;
- (17) the local grievance procedures for filing a complaint alleging violations of TEC, §29.022, and/or this section; and

- (18) a statement that video recordings made under TEC, §29.022, and this section are confidential and a description of the limited circumstances under which the recordings may be viewed.
- (h) Confidentiality of video recordings. A video recording made under TEC, §29.022, and this section is confidential and may only be released and/or viewed by the following individuals, to the extent permitted or required by TEC, §29.022(i), and to the extent not limited by the Family Educational Rights and Privacy Act of 1974 (FERPA) or other law:
- (1) a staff member or a parent of a student involved in an incident described in subsection (b)(8) of this section that is documented by a video recording for which an incident has been reported to the district, charter school, or school;
 - (2) appropriate Texas Department of Family and Protective Services personnel as part of an investigation under Texas Family Code, §261.406;
 - (3) a peace officer, school nurse, or administrator of a school district, charter school, or school trained in de-escalation and restraint techniques as provided by commissioner rule, or a human resources staff member designated by the school district's board of trustees or open-enrollment charter school's governing body in response to a report or an investigation of an incident described in subsection (b)(8) of this section; or
 - (4) appropriate TEA or State Board for Educator Certification personnel or agents as part of an investigation.
- (i) Exception to restrictions on viewing. A contractor or employee performing job duties relating to the installation, operation, or maintenance of video equipment or the retention of video recordings who incidentally views a video recording does not violate subsection (h) of this section.
- (j) Child abuse and neglect reporting. If a person described in subsection (h)(3) or (4) of this section views a video recording and has cause to believe that the recording documents possible abuse or neglect of a child under Texas Family Code, Chapter 261, the person must submit a report to the Texas Department of Family and Protective Services or other authority in accordance with the local policy adopted under §61.1051 of this title (relating to Reporting Child Abuse and Neglect) and Texas Family Code, Chapter 261.
- (k) Disciplinary actions and legal proceedings. If a person described in subsection (h)(2), (3), or (4) of this section views a video recording and believes that it documents a possible violation of school district, open-enrollment charter school, or campus policy, the person may allow access to the recording to appropriate legal and human resources personnel of the district or charter school to the extent not limited by FERPA or other law. A recording believed to document a possible violation of school district, open-enrollment charter school, or campus policy relating to the neglect or abuse of a student may be used in a disciplinary action against district or charter school personnel and must be released in a legal proceeding at the request of a parent of the student involved in the incident documented by the recording. A recording believed to document a possible violation of school district, open-enrollment charter school, or campus policy relating to the neglect or abuse of a student must be released for viewing by the district or charter school employee who is the subject of the disciplinary action at the request of the employee.
- (l) Access rights. Subsections (j) and (k) of this section do not limit the access of a student's parent to an educational record of the student under FERPA or other law. To the extent any provisions in TEC, §29.022, and this section conflict with FERPA or other federal law, federal law prevails.

All State Rules will be followed in implementing the Video Camera Surveillance Requirements to promote student safety.

§103.1303. Commissioner's Review of Actions Concerning Video Cameras in Special Education Settings.

- (a) Applicability. This section shall apply to all hearings and reviews of actions taken under Texas Education Code (TEC), §29.022, concerning denials of requests for the installation of cameras, denials of requests to view a video, denials of requests to release a video, and requests of a school district for an extension of time for the installation of cameras. This section applies to constructive denials of requests, which occur when a school district fails to timely issue a denial of a request. To the extent that this section conflicts with any other sections governing hearings before the commissioner of education, including Chapter 157, Subchapter AA of this title (relating to General Provisions for Hearings Before the Commissioner of Education) and Subchapter BB of this title (relating to Specific Appeals to the Commissioner), this section shall prevail.
- (b) Denial of request. The following standards and procedures apply to a denial of a request made under TEC, §29.022(a), for the placement of a video camera or to the denial of a request to release a video or to view a video made under TEC, §29.022(i) or (l)(2).
- (1) Once a request for placement of a video camera or a request to release a video is administratively denied, the requestor must exhaust administrative remedies through the school district's grievance process even if the requestor opts for the expedited review process. However, a school district, parent, staff member, or administrator may request an expedited review even before local remedies are exhausted.
 - (2) After local remedies are exhausted by filing a grievance with the school board and obtaining a school board determination, the requestor may appeal the denial to the commissioner of education under TEC, §7.057, by filing a petition for review.
 - (3) In a case where there is a denial of a request for the placement of a video camera, the commissioner will determine whether the person requesting placement is a person allowed to request placement under TEC, §29.022(a-1), and whether the requestor made a proper request under TEC, §29.022(a-3)
 - (4) The commissioner will not consider the cost to the district of installing cameras or releasing a video.
 - (5) In a case where there is a denial of a request to release a video, the commissioner will determine whether the requestor is a person allowed to receive a video under TEC, §29.022(i). The commissioner may make an in-camera inspection of the video in question in the appropriate case.
 - (6) The following timelines are established for filing a petition for review.
 - (A) A petition for review shall be filed with the commissioner within 10 calendar days of the decision of the board of trustees denying the request being first communicated to the requestor or requestor's counsel, whichever occurs first. The petition for review shall be made in accordance with §157.1073(c) of this title (Relating to Hearings Brought Under Texas Education Code, §7.057) and may include a request for expedited review.
 - (B) The district's answer and local record shall comply with §157.1052(b) and (c) of this title (relating to Answers) and §157.1073(d) of this title and shall be filed with the commissioner within 10 calendar days of the school district receiving notification from the commissioner of the appeal.
 - (C) The procedures specified in §§157.1059; 157.1061; and 157.1073(e)-(h), (j), and (k) of this title apply to a case brought to the commissioner under this section.

(7) A request for expedited review is governed by the following.

- (A) The expedited review process is designed to allow a requestor to promptly receive a preliminary judgment from the commissioner as to a decision to deny a request for the installation of cameras or a decision to deny a request to release a video while at the same time respecting the school grievance process. The expedited review process does not apply to a request to only view a video. Invoking the expedited review process results in a prompt initial determination. However, the final commissioner's determination is to be based on a substantial evidence review of the school district's grievance record. This allows for a full record to be developed at the school district level and does not require the requestor and the school district to make an evidentiary record before the Texas Education Agency (TEA) in Austin, Texas. Because the requirements of TEC, §7.057, are met when the school board's decision is heard by the commissioner, an appeal to district court is allowed under TEC, §7.057(d). TEC, §29.022, does not by itself allow an appeal to district court.
 - (B) A school district, parent, staff member, or administrator may request an expedited review. Any request for an expedited review shall include the names, telephone numbers, and addresses of all interested parties to the request. "Interested parties" are all persons who brought the grievance, all persons who have testified or provided written statements as part of the grievance process, and the school district. The request for expedited review shall specify whether the school district denied a request for the placement of a video camera or the school district denied a request to release a video and briefly describe why that decision is either correct or incorrect.
 - (C) A request for expedited review shall be filed with the commissioner no earlier than 14 business days after a request for placement of a video camera or a request to release a video is administratively denied under TEC, §29.022(i) or (l)(2), and no later than the fifth business day after a school board resolves a grievance as to a request for placement of a video camera or a request to release a video. A request for expedited review shall be filed with the commissioner by U.S. mail, facsimile, hand delivery, or by a commercial delivery service.
 - (D) Whenever an interested party files a document with the commissioner, with the exception of the request for expedited review, the interested party shall send the same document to all other interested parties by the same method that the document was sent to the commissioner. Hand-delivery of the document by the next day may be substituted for service by facsimile delivery.
 - (E) If a request for expedited review is timely filed, the commissioner will establish a briefing schedule and will send to all interested parties a notice that an expedited review has been filed, which will include relevant statutes and rules. Any interested party who knows of any additional interested parties who have not been notified will promptly inform the commissioner in writing.
 - (F) All briefing shall clearly state the facts relied upon. Documents relevant to the issues presented may be attached to a brief. All briefing shall provide the reasons why the commissioner should or should not grant the request for expedited review. Citations to statutes, rules, commissioner decisions, and caselaw are important to identify the legal basis for the claims made.
 - (G) All interested parties who are in favor of granting the request for expedited review shall file briefing at the time specified for the requestor of the expedited review.
 - (H) All interested parties who are opposed to granting the request for expedited review shall file briefing at the same time.
 - (I) Briefing is not limited to the issues specifically raised in the pleadings in the case. However, no new arguments may be raised in the reply briefs. Reply briefs may contain new citations to the record and legal authority as to issues previously raised.
 - (J) A preliminary judgment shall be issued based on the briefing of the interested parties. The preliminary judgment will be sent to the requestor, the school district, and all interested parties. If it is determined that a school district is not likely to prevail on the issue of a request for the placement of video cameras or the issue of a request to view a video under full review, the school district will fully comply with TEC, §29.022.
 - (K) After a preliminary judgment is made, a final judgment will be made in accordance with the procedures set forth in paragraphs (1)-(5) of this subsection.
- (c) Extension of time. A request by a school district for an extension of time to begin the operation of a video camera under TEC, §29.022, shall be made and decided using the following procedures.
- (1) Any request by a school district for an extension of time to begin the operation of a video camera shall be filed with the commissioner prior to the 45th school business day after a request to begin operating a video camera is received. However, a school district should request an extension of time as soon as it determines that an extension of time should be filed.

- (2) A request for an extension of time to begin the operation of a video camera shall specify why an extension of time should be granted. The request shall include affidavits supporting any factual claims made in the request and reference any legal authority as to why the request should be granted. The request may include a request for expedited review. The request shall name the individual who requested the installation of cameras and provide the individual's address and telephone number. Immediately following the individual's address and telephone number there shall appear in bold type: "You have been identified as the individual who requested the operation of a video camera that is the subject of this request to the commissioner of education to extend the statutory timeline. You may, but are not required to, participate in the proceedings before the commissioner concerning the school district's request for an extension of time. It is entirely up to you whether and to what extent you wish to participate in these proceedings. The procedures governing these proceedings are found at 19 Texas Administrative Code §103.1303(c) and Texas Education Code, §29.022."
- (3) A request for an extension of time to begin the operation of a video camera shall list the names, telephone numbers, and addresses of all interested parties to the request. All interested parties include all parents of students in the classroom or other special education setting for which a video camera has been requested and all staff who provided services in a classroom for which a video camera has been requested.
- (4) All documents in a case shall be filed with the Division of Hearings and Appeals, Texas Education Agency, 1701 North Congress Avenue, Austin, Texas 78701, facsimile number (512) 475-3662. Documents can be filed by mail, delivery, or facsimile. All documents must be actually received by the Division of Hearings and Appeals by the date specified in this section. The mailbox rule does not apply to filings in a case filed under this subsection. Filing by facsimile is strongly encouraged.
- (5) All filings in a case shall be sent to the school district, the individual who initially requested the installation of the cameras, and all interested parties who have filed a request to receive documents filed in the case by the same method as the request is filed with the commissioner. Due to the requirements of the Family Educational Rights and Privacy Act of 1974, the names, telephone numbers, and addresses of parents and other publicly identifiable student information may not be given to the interested parties. The copies of the filings sent to interested parties shall be redacted to remove all personally identifiable student information.
- (6) Any response to a request for an extension of time to begin the operation of a video camera shall be filed with the commissioner by an interested party within 10 calendar days of the filing of the request. If no response to the request is timely filed, the commissioner shall issue a final decision within 20 calendar days of the filing of the request.
- (7) A response to a request for an extension of time to begin the operation of a video camera shall specify why an extension of time should or should not be granted. The response shall include affidavits concerning any factual claims made in the request and reference any legal authority as to why the request should or should not be granted. The response may include a request for expedited review.
- (8) A request for expedited review must be filed with the commissioner within 10 calendar days of the filing of the request for an extension of time to begin the operation of a video camera. If a request for expedited review is made, all interested parties shall be notified that they have been identified as interested parties in the request for an extension of time to begin the operation of a video camera. In particular, the interested parties will be informed that it is their choice whether to participate in the proceedings before the commissioner, that it is entirely up to them to determine to what extent they wish to participate in the proceedings, that the procedures governing these proceedings are found in this subsection and TEC, §29.022, and that upon their written request filed with the commissioner they will be sent all filings in this case.
- (9) If a request for an expedited review is not made, the commissioner shall issue a final decision within 45 calendar days of the filing of the request for an extension of time to begin the operation of a video camera, unless the commissioner determines that an evidentiary hearing would be helpful in deciding the issues raised. If the commissioner decides to hold an evidentiary hearing, the commissioner shall establish the timelines and procedures to be used. Whether to conduct the hearing by telephone or other electronic methods will be considered.
- (10) If a request for expedited review is made, the following procedures shall be followed.
 - (A) Any reply by the school district to any response to the request shall be filed with the commissioner within 25 calendar days of the filing of the request for an extension of time to begin the operation of a video camera.
 - (B) A preliminary judgment shall be made by the commissioner within 35 calendar days of the filing of the request for an extension of time to begin the operation of a video camera.

- (C) Any interested party or the school district may file objections to the preliminary judgment within 40 calendar days of the filing of the request for an extension of time to begin the operation of a video camera.
- (D) Any reply to an objection to a preliminary judgment must be filed within 45 calendar days of the filing of a request for an extension of time to begin the operation of a video camera.
- (E) The commissioner shall issue a final decision within 55 calendar days of the filing of the request for an extension of time to begin the operation of a video camera, unless the commissioner determines that an evidentiary hearing would be helpful in deciding the issues raised. If the commissioner decides to hold an evidentiary hearing, the commissioner shall establish the timelines and procedures to be used. Whether to conduct the hearing by telephone or other electronic methods will be considered.
- (11) In making either a preliminary judgment or a final judgment under this subsection, the commissioner will consider whether granting the requested extension is reasonable considering all factors, including contracting statutes, architectural and structural issues, and the difference in costs to the district if a moderate extension of time is granted.
- (12) A commissioner's final decision under this subsection is not subject to appeal.

§300.323 When IEPs must be in effect.

(b) IEP or IFSP for children aged three through five.

- (1) In the case of a child with a disability aged three through five (or, at the discretion of the SEA, a two-year-old child with a disability who will turn age three during the school year), the IEP Team must consider an IFSP that contains the IFSP content (including the natural environments statement) described in section 636(d) of the Act and its implementing regulations (including an educational component that promotes school readiness and incorporates pre-literacy, language, and numeracy skills for children with IFSPs under this section who are at least three years of age), and that is developed in accordance with the IEP procedures under this part. The IFSP may serve as the IEP of the child, if using the IFSP as the IEP is--
 - (i) Consistent with State policy; and
 - (ii) Agreed to by the agency and the child's parents.
- (2) In implementing the requirements of paragraph (b)(1) of this section, the Bell County CoOp must--
 - (i) Provide to the child's parents a detailed explanation of the differences between an IFSP and an IEP; and
 - (ii) If the parents choose an IFSP, obtain written informed consent from the parents.

§300.323 When IEPs must be in effect.

- (e) If a child with a disability (who had an IEP that was in effect in a previous public agency in the same State) transfers to a new public agency in the same State, and enrolls in a new school within the same school year, the new public agency (in consultation with the parents) must provide FAPE to the child (including services comparable to those described in the child's IEP from the previous public agency), until the new public agency either--
 - (1) Adopts the child's IEP from the previous public agency; or
 - (2) Develops, adopts, and implements a new IEP that meets the applicable requirements in §§300.320 through 300.324.

IV. PARENT PARTICIPATION IN MEETINGS *(also in section 4-ARD/IEP)*

§300.30 Parent.

(a) Parent means--

- (1) A biological or adoptive parent of a child;**
 - (2) A foster parent, unless State law, regulations or contractual obligations with a State or local entity prohibit a foster parent from acting as a parent;**
 - (3) A guardian generally authorized to act as the child's parent, or authorized to make educational decisions for the child (but not the State if the child is a ward of the State);**
 - (4) An individual acting in the place of a biological or adoptive parent (including a grandparent, stepparent, or other relative) with whom the child lives, or an individual who is legally responsible for the child's welfare; or**

- (2) If a judicial decree or order identifies a specific person or persons under paragraph (a)(1) through (4) of this section to act as the "parent" of a child or to make educational decisions on behalf of a child, then such person or persons shall be determined to be the "parent" for purposes of this section, except that a public agency that provides education or care for the child may not act as the parent.**

School districts may provide optional ongoing or supplemental training.
- (b) If a school district denies a foster parent the right to serve as a parent, the school district must provide the foster parent with written notice of such denial within seven calendar days after the date on which the decision is made. The written notice must:

Once an individual has completed the training, the individual may not be required by any school district to complete additional training in order to serve as the surrogate parent or the parent for the student or other students with disabilities who are in foster care. School districts may provide optional ongoing or supplemental training.
- (d) Each school district or shared services arrangement must develop and implement procedures for conducting an analysis of whether a potential surrogate parent has an interest that conflicts with the interests of his or her child. Issues concerning quality of care of the child do not constitute a conflict of interest. Concerns regarding quality of care of the child should be communicated, and may be statutorily required to be reported, to TDFPS.
- (e) If a court appoints a surrogate parent for a child with a disability under Texas Family Code, §263.0025, and the school district determines that the surrogate parent is failing to perform or is not properly performing the duties listed under TEC, §29.0151(d), the district must consult with TDFPS and appoint another person to serve as the surrogate parent for the child.

§300.502 Independent educational evaluation.

(a) General.

- (1) The parents of a child with a disability have the right under this part to obtain an independent educational evaluation of the child, subject to paragraphs (b) through (e) of this section.**
- (2) The Bell County CoOp must provide to parents, upon request for an independent educational evaluation, information about where an independent educational evaluation may be obtained, and the agency criteria applicable for independent educational evaluations as set forth in paragraph (e) of this section.**
- (3) For the purposes of this subpart--**
 - (i) Independent educational evaluation means an evaluation conducted by a qualified examiner who is not employed by the Bell County CoOp responsible for the education of the child in question; and**
 - (ii) Public expense means that the Bell County CoOp either pays for the full cost of the evaluation or ensures that the evaluation is otherwise provided at no cost to the parent, consistent with §300.103.**

(b) Parent right to evaluation at public expense.

- (1) A parent has the right to an independent educational evaluation at public expense if the parent disagrees with an evaluation obtained by the Bell County CoOp, subject to the conditions in paragraphs (b)(2) through (4) of this section.**
- (2) If a parent requests an independent educational evaluation at public expense, the Bell County CoOp must, without unnecessary delay, either--**
 - (i) File a due process complaint to request a hearing to show that its evaluation is appropriate; or**

- (3) If the Bell County CoOp files a due process complaint notice to request a hearing and the final decision is that the Bell County CoOp's evaluation is appropriate, the parent still has the right to an independent educational evaluation, but not at public expense.**
- (4) If a parent requests an independent educational evaluation, the Bell County CoOp may ask for the parent's reason why he or she objects to the public evaluation.  - (A) conduct an investigation of the complaint that must include a complete review of all relevant documentation and that may include interviews with appropriate individuals and an independent on-site investigation, if necessary;
 - (B) consider all facts and issues presented and the applicable requirements specified in law, regulations, or standards;
 - (C) make a determination of compliance or noncompliance on each issue in the complaint based upon the facts and applicable law, regulations, or standards and issue a written report of findings of fact and conclusions, including reasons for the decision, and any corrective actions that are required, including the time period within which each action must be taken;

- (D) review any evidence that the public education agency has corrected noncompliance on its own initiative;
 - (E) ensure that the TEA's final decision is effectively implemented, if needed, through technical assistance activities, negotiations, and corrective actions to achieve compliance; and
 - (F) in the case of a complaint filed by an individual other than the student's parent, provide a copy of the written report only if written parental consent has been provided to the TEA.
- (6) In resolving a complaint in which a failure to provide appropriate services is found, the TEA must address:
- (A) the failure to provide appropriate services, including corrective action appropriate to address the needs of the student, including compensatory services, monetary reimbursement, or other corrective action appropriate to the needs of the student; and
 - (B) appropriate future provision of services for all students with disabilities.
- (7) In accordance with 34 CFR, §300.600(e), the public education agency must complete all required corrective actions as soon as possible, and in no case later than one year after the TEA's identification of the noncompliance. A public education agency's failure to correct the identified noncompliance within the one-year timeline will result in an additional finding of noncompliance under 34 CFR, §300.600(e), and may result in sanctions against the public education agency in accordance with §89.1076 of this title (relating to Interventions and Sanctions).
- (f) If a party to a complaint believes that the TEA's written report includes an error that is material to the determination in the report, the party may submit a signed, written request for reconsideration to the TEA by mail, hand-delivery, or facsimile within 15 calendar days of the date of the report. The party's reconsideration request must identify the asserted error and include any documentation to support the claim. The party filing a reconsideration request must forward a copy of the request to the other party at the same time that the request is filed with the TEA. The other party may respond to the reconsideration request within five calendar days of the date on which the TEA received the request. The TEA will consider the reconsideration request and provide a written response to the parties within 45 calendar days of receipt of the request. The filing of a reconsideration request must not delay a public education agency's implementation of any corrective actions required by the TEA.
- (g) In accordance with 34 CFR, §300.151, the TEA's complaint resolution procedures must be widely disseminated to parents and other interested individuals, including parent training and information centers, protection and advocacy agencies, independent living centers, and other appropriate entities.

If there is a dispute relating to the identification, evaluation, or educational placement of or the provision of a free appropriate public education (FAPE), to a student with a disability, it is the intent of the Bell County CoOp to encourage and support the resolution of any dispute at the lowest level possible and in a prompt, efficient, and effective manner.

The Bell County CoOp should always be sure the parents have a current Procedural Safeguards document if there is disagreement expressed by the parent. If the parents say they do not have the document, provide them with the document, an explanation, and keep documentation that they have received the document. This documentation of receipt of the Procedural Safeguards is kept in the Special Education student eligibility file. The possible options for resolving disputes include, but are not limited to §89.1150(c) found on the following pages below:

Schools should contact the appropriate Special Education Administrator as soon as there is reason to believe any type of complaint will be made.

A. Administration may encourage parents to follow local complaint procedures. The following may also be suggested:

- 1. schedule an ARD Committee meeting to discuss concern,*
- 2. follow 10 day recess procedures to try to reach mutual agreement (see ARD Section),*
- 3. encourage the parents to contact the Special Education Director for a meeting to discuss possible alternatives or mediation.*

B. Parents may notify the Texas Education Agency and file a complaint. The TEA will:

- 1. collect information concerning special education and analyzing the information in conjunction with other information on file with the TEA;*
- 2. respond to inquiries concerning special education services;*
- 3. take appropriate action on substantial complaints;*
- 4. engage in mediation activities; and*

*5. provide information on the formal procedures available in the impartial hearing process.
Complaint must include: §300.153.*

§300.510 Resolution process.

(a) Resolution meeting.

- (1) Within 15 days of receiving notice of the parents' due process complaint, and prior to the initiation of a due process hearing under §300.511, the Bell County CoOp must convene a meeting with the parents and the relevant member or members of the IEP Team who have specific knowledge of the facts identified in the due process complaint that--
 - (i) Includes a representative of the Bell County CoOp who has decision-making authority on behalf of that agency; and
 - (ii) May not include an attorney of the Bell County CoOp unless the parent is accompanied by an attorney.
- (2) The purpose of the meeting is for the parents of the child to discuss their due process complaint, and the facts that form the basis of the due process complaint, so that the Bell County CoOp has the opportunity to resolve the dispute that is the basis for the due process complaint.
- (3) The meeting described in paragraph (a)(1) and (2) of this section need not be held if--
 - (i) The parents and the Bell County CoOp agree in writing to waive the meeting; or
 - (ii) The parents and the Bell County CoOp agree to use the mediation process described in §300.506.
- (4) The parents and the Bell County CoOp determine the relevant members of the IEP Team to attend the meeting.

- (2) Except as provided in paragraph (c) of this section, the timeline for issuing a final decision under §300.515 begins at the expiration of this 30-day period.
- (3) Except where the parties have jointly agreed to waive the resolution process or to use mediation, notwithstanding paragraphs (b)(1) and (2) of this section, the failure of a parent filing a due process complaint to participate in the resolution meeting will delay the timelines for the resolution process and due process hearing until the meeting is held.
- (4) If the Bell County CoOp is unable to obtain the participation of the parent in the resolution meeting after reasonable efforts have been made (and documented using the procedures in §300.322(d)), the Bell County CoOp may, at the conclusion of the 30-day period, request that a hearing officer dismiss the parent's due process complaint.
- (5) If the Bell County CoOp fails to hold the resolution meeting specified in paragraph (a) of this section within 15 days of receiving notice of a parent's due process complaint or fails to participate in the resolution meeting, the parent may seek the intervention of a hearing officer to begin the due process hearing timeline.

(c) Adjustments to 30-day resolution period. The 45-day timeline for the due process hearing in §300.515(a) starts the day after one of the following events:

- (1) Both parties agree in writing to waive the resolution meeting;
- (2) After either the mediation or resolution meeting starts but before the end of the 30-day resolution period, the parties agree in writing that no agreement is possible;
- (3) If both parties agree in writing to continue the mediation at the end of the 30-day resolution period, but later, the parent or Bell County CoOp withdraws from the mediation process.

(d) Written settlement agreement. If a resolution to the dispute is reached at the meeting described in paragraphs (a)(1) and (2) of this section, the parties must execute a legally binding agreement that is--

- (1) Signed by both the parent and a representative of the agency who has the authority to bind the agency; and
- (2) Enforceable in any State court of competent jurisdiction or in a district court of the United States, or by the SEA, if the State has other mechanisms or procedures that permit parties to seek enforcement of resolution agreements, pursuant to §300.537.

(e) Agreement review period. If the parties execute an agreement pursuant to paragraph (c) of this section, a party may void the agreement within 3 business days of the agreement's execution.

(Authority: 20 U.S.C. 1415(f)(1)(B))

This process allows an opportunity for the school to resolve the parent's complaint. This can take up to 30 days and the timelines for a due process hearing begin to run only after those first 30 days. Also, there is an "expedited hearing" in the case of a disciplinary appeal.

- (a) The Texas Education Agency (TEA) will maintain a pool of impartial hearing officers to conduct due process hearings. The TEA may ~~will~~ assign cases to hearing officers who are private practice attorneys based on an alphabetical rotation. If, however, a request for a hearing relates to the same student who was involved in another hearing that was filed within the last 12 months, the TEA will assign the recently filed hearing request to the same hearing officer who presided over the previous hearing. In addition, the same hearing officer may be assigned to hearings involving siblings that are filed within 12 months of each other.
- (b) If a hearing officer is also a mediator under §89.1193 of this title (relating to Special Education Mediation), that individual will not be assigned as hearing officer if he or she is the mediator in a pending mediation involving the same student who is the subject of the hearing or was the mediator in a previous mediation involving the student who is the subject of the hearing.
- (c) A hearing officer must possess the knowledge and abilities described in 34 Code of Federal Regulations, §300.511(c), and must not be:

- (f) If a hearing officer is removed, dies, becomes disabled, or withdraws from a hearing before the completion of duties, the TEA will designate a substitute hearing officer to complete the performance of duties without the necessity of repeating any previous proceedings.
- (g) A party to a hearing who has grounds to believe that the assigned hearing officer cannot afford the party a fair and impartial hearing due to bias, prejudice, or a conflict of interest may file a written request with the assigned hearing officer asking that the hearing officer recuse himself or herself from presiding over the hearing. Any such written request must state the grounds for the request and the facts upon which the request is based. Upon receipt of a request, the assigned hearing officer must review the request and determine the sufficiency of the grounds stated in the request. The hearing officer then must prepare a written order concerning the request and serve the order on the parties to the hearing within three business days of receiving the request. If the hearing officer finds that the grounds for recusal are insufficient, the TEA will assign a second hearing officer to review the request. The second hearing officer must rule on the request and serve a written order on the parties to the hearing within three business days of receiving the assignment. If the second hearing officer also determines that the grounds for recusal are insufficient, the assigned hearing officer will continue to preside over the hearing. officer finds that the grounds for recusal are sufficient, the TEA will assign another hearing officer to preside over the remainder of the proceedings in accordance with the procedures in subsection (a) of this section.

 - (1) the non-attorney representative has agreed to abide by a voluntary code of ethics and professional conduct during the period of representation; and
 - (2) the non-attorney representative and the party have entered into a confidential, written representation agreement that includes a process for resolving any disputes that may arise between the non-attorney representative and the party.
- (g) The written authorization must be signed and dated by the party.

No other objections to a party's representation by a non-attorney are permitted under this section.
- (i) Upon receipt of a written authorization filed under this section, the hearing officer must promptly determine whether the non-attorney representative is qualified and meets the requirements to represent the party in the hearing and must notify the parties in writing of the determination. A hearing officer's determination is final and not subject to review or appeal.
- (j) A non-attorney representative may not file pleadings or other documents on behalf of a party, present statements and arguments on behalf of a party, examine and cross-examine witnesses, offer and introduce evidence, object to the introduction of evidence and testimony, or engage in other activities in a representative capacity unless the hearing officer has reviewed a written authorization filed under this section and determined that the non-attorney representative is qualified to represent the party in the hearing.

TAC §89.1180. Prehearing Procedures.

- (1) Response to Request for a Due Process Hearing (34 Code of Federal Regulations (CFR), §300.508(f));
 - (2) Resolution Meeting (34 CFR, §300.510(a));
 - (3) Contesting Sufficiency of the Request for a Hearing (34 CFR, §300.508(d));
 - (4) Resolution Period (34 CFR, §300.510(b));
 - (5) Five-Business Day Disclosure (34 CFR, §300.512(a)(3)); and
 - (6) the date by which the final decision of the hearing officer must be issued (34 CFR, §300.515 and §300.532(c)(2)).
- (b) The hearing officer must schedule a prehearing conference to be held at a time reasonably convenient to the parties to the hearing. The prehearing conference must be held by telephone unless the hearing officer determines that circumstances require an in-person conference.
- (c) The prehearing conference must be recorded and transcribed by a court reporter, who will promptly prepare a transcript of the prehearing conference for the hearing officer with copies to each of the parties.
- (d) The purpose of the prehearing conference will be to consider any of the following:
- (1) specifying issues as set forth in the request for a hearing;
 - (2) admitting certain assertions of fact or stipulations;
 - (3) establishing any limitations on the number of witnesses and the time allotted for presenting each party's case; and/or
 - (4) discussing other matters which may aid in simplifying the proceeding or disposing of matters in controversy, including settling matters in dispute.
- (e) Promptly upon the conclusion of the prehearing conference, the hearing officer will issue and deliver to the parties a written prehearing order which confirms and/or identifies:

 - (2) the issues to be adjudicated at the hearing;

 - (4) the deadline for disclosure of evidence and identification of witnesses, which must be at least five business days prior to the scheduled date of the hearing (hereinafter referred to as the "Disclosure Deadline");
 - (5) the date by which the final decision of the hearing officer must be issued; and
 - (6) other information determined to be relevant by the hearing officer.
- (f) No pleadings, other than the request for a hearing, and the response to the request for a hearing, if applicable, are mandatory, unless ordered by the hearing officer. Any pleadings after the request for a hearing must be filed with the hearing officer. Copies of all pleadings must be sent to all parties of record in the hearing and to the hearing officer. If a party is represented by an attorney or a non-attorney determined by the hearing officer to be qualified to represent the party, all copies must be sent to the attorney of record or non-attorney representative, as applicable. Facsimile copies may be substituted for copies sent by other means. An affirmative statement that a copy of the pleading has been sent to all parties and the hearing officer is sufficient to indicate compliance with this subsection.
- (g) Discovery methods are limited to those specified in the Administrative Procedure Act (APA), Texas Government Code, Chapter 2001, and may be further limited by order of the hearing officer. Upon a party's request to the hearing officer, the hearing officer may issue subpoenas and commissions to take depositions under the APA. Subpoenas and commissions to take depositions must be issued in the name of the Texas Education Agency.
- (h) On or before the Disclosure Deadline (which must be at least five business days prior to a scheduled hearing), each party must disclose and provide to all other parties and the hearing officer copies of all evidence (including, without limitation, all evaluations completed by that date and recommendations based on those evaluations) that the party intends to use at the hearing. An index of the documents disclosed must be included with and accompany the documents. Each party must also include with the documents disclosed a list of all

witnesses (including their names, addresses, phone numbers, and professions) that the party anticipates calling to testify at the hearing.

- (i) A party may request a dismissal or nonsuit of a hearing to the same extent that a plaintiff may dismiss or nonsuit a case under the Texas Rules of Civil Procedure, Rule 162. However, if a party requests a dismissal or nonsuit of a hearing after the Disclosure Deadline has passed and, at any time within one year thereafter requests a subsequent hearing involving the same or substantially similar issues as those alleged in the original hearing, then, absent good cause or unless the parties agree otherwise, only evidence disclosed and witnesses identified by the Disclosure Deadline in the original hearing may be introduced at the subsequent hearing.
Amended to be effective March 1, 2017, 42 TexReg 760.

TAC §89.1183. Resolution Process.

- (a) Within 15 calendar days of receiving notice of the parent's request for a due process hearing, the public education agency must convene a resolution meeting with the parent and the relevant members of the admission, review, and dismissal committee who have specific knowledge of the facts identified in the request. The resolution meeting:
- (1) must include a representative of the public education agency who has decision-making authority on behalf of the public education agency; and
 - (2) may not include an attorney of the public education agency unless the parent is accompanied by an attorney.
- (b) The purpose of the resolution meeting is for the parent of the child to discuss the hearing issues and the facts that form the basis of the request for a hearing so that the public education agency has the opportunity to resolve the dispute.
- (c) The resolution meeting described in subsections (a) and (b) of this section need not be held if:
- (1) the parent and the public education agency agree in writing to waive the meeting; or
 - (2) the parent and the public education agency agree to use the mediation process described in §89.1193 of this title (relating to Special Education Mediation).
- (d) The parent and the public education agency determine the relevant members of the admission, review, and dismissal committee to attend the resolution meeting.
- (e) The parties may enter into a confidentiality agreement as part of their resolution agreement. - (f) If the public education agency has not resolved the hearing issues to the satisfaction of the parent within 30 calendar days of the receipt of the request for a hearing, the hearing may occur.
- (g) Except as provided in subsection (k) of this section, the timeline for issuing a final decision begins at the expiration of this 30-day resolution period.
- (h) Except where the parties have jointly agreed to waive the resolution process or to use mediation, notwithstanding subsections (f) and (g) of this section, the failure of the parent filing a request for a hearing to participate in the resolution meeting delays the timelines for the resolution process and the hearing until the meeting is held.
- (i) If the public education agency is unable to obtain the participation of the parent in the resolution meeting after reasonable efforts have been made (and documented in accordance with the procedures in 34 Code of Federal Regulations, §300.322(d)), the public education agency may at the conclusion of the 30-day resolution period, request that a hearing officer dismiss the parent's request for a hearing.
- (j) If the public education agency fails to hold the resolution meeting within 15 calendar days of receiving the parent's request for a hearing or fails to participate in the resolution meeting, the parent may seek the intervention of the hearing officer to begin the hearing timeline.
- (k) Notwithstanding subsections (f) and (g) of this section, the timeline for issuing a final decision starts the calendar day after one of the following events:
- (1) both parties agree in writing to waive the resolution meeting;
 - (2) after either the mediation or resolution meeting starts but before the end of the 30-day resolution period, the parties agree in writing that no agreement is possible; or
 - (3) if both parties agree in writing to continue the mediation at the end of the 30-day resolution period, but later the parent or public education agency withdraws from the mediation process.
- (l) If a resolution to the dispute is reached at the resolution meeting, the parties must execute a legally binding agreement that is:
- (1) signed by both the parent and a representative of the public education agency who has the authority to bind the public education agency; and
 - (2) enforceable in any state or federal court of competent jurisdiction.

- (m) If the parties execute an agreement pursuant to subsection (l) of this section, a party may void the agreement within three business days of the agreement's execution. *Statutory Authority: amended to be effective March 1, 2017, 42 TexReg 760.*

- (e) Before a document may be offered or admitted into evidence, the document must be identified as an exhibit of the party offering the document. All pages within the exhibit must be numbered, and all personally identifiable information concerning any student who is not the subject of the hearing must be redacted from the exhibit.
- (f) The hearing officer may set reasonable time limits for presenting evidence at the hearing.
- (g) Upon request, the hearing officer, at his or her discretion, may permit testimony to be received by telephone.
- (h) Granting of a motion to exclude witnesses from the hearing room will ~~shall~~ be at the hearing officer's discretion.
- (i) Hearings conducted under this division must be closed to the public, unless the parent requests that the hearing be open.
- (j) The hearing must be recorded and transcribed by a court reporter, who will promptly prepare and transmit a transcript of the evidence to the hearing officer with copies to each of the parties.
- (k) Filing of post-hearing briefs will be permitted only upon order of the hearing officer.
- (l) The hearing officer must issue a final decision, signed and dated, no later than 45 calendar days after the expiration of the 30-day resolution period under 34 CFR, §300.510(b), and §89.1183 of this title (relating to Resolution Process) or the adjusted time periods described in 34 CFR, §300.510(c), and §89.1183 of this title after a request for a due process hearing is received by the Texas Education Agency (TEA), unless the deadline for a final decision has been extended by the hearing officer as provided in §89.1186 of this title (relating to Extensions of Time). A final decision must be in writing and must include findings of fact and conclusions of law separately stated. Findings of fact must be based exclusively on the evidence presented at the hearing. The final decision must be mailed to each party by the hearing officer on the day that the decision is issued. The hearing officer, at his or her discretion, may render his or her decision following the conclusion of the hearing, to be followed by written findings of fact and written decision.
- (m) At the request of either party, the hearing officer must include, in the final decision, specific findings of fact regarding the following issues:
- (1) whether the parent or the public education agency unreasonably protracted the final resolution of the issues in controversy in the hearing; and
 - (2) if the parent was represented by an attorney, whether the parent's attorney provided the public education agency the appropriate information in the request for a hearing in accordance with 34 CFR, §300.508(b).
- (n) The decision issued by the hearing officer is final, except that any party aggrieved by the findings and decision made by the hearing officer, or the performance thereof by any other party, may bring a civil action with respect to the issues presented at the hearing in any state court competent jurisdiction or in a district court of the United States, as provided in 34 CFR, §300.516.
- (o) A public education agency must implement any decision of the hearing officer that is, at least in part, adverse to the public education agency within the timeframe prescribed by the hearing officer or, if there is no timeframe prescribed by the hearing officer or, within ten school days after the date the decision was rendered. In accordance with 34 CFR, §300.518(d), a public education agency must implement a hearing officer's decision during the pendency of an appeal, except that the public education agency may withhold reimbursement for past expenses ordered by the hearing officer.

(p) In accordance with 34 CFR, §300.152(c)(3), a parent may file a complaint with the TEA alleging that a public education agency has failed to implement a hearing officer's decision. *Amended to be effective March 1, 2017, 42 TexReg 760.*

Any extension must be granted to a specific date, and the reason for the extension must be documented in a written order of the hearing officer and provided to each of the parties.
- (b) A hearing officer may grant a request for an extension only after fully considering the cumulative impact of the following factors:

 - (2) the need of a party for additional time to prepare or present the party's position at the hearing;
 - (3) any adverse financial or other detrimental consequences likely to be suffered by a party in the event of delay; and

- (a) Except as provided in §300.533, during the pendency of any administrative or judicial proceeding regarding a request for a due process complaint notice requesting a due process hearing under §300.507, unless the State or local agency and the parents of the child agree otherwise, the child involved in the complaint must remain in his or her current educational placement.**
- (b) If the complaint involves an application for initial admission to public school, the child, with the consent of the parents, must be placed in the public school until the completion of all the proceedings.**
- (c) If the complaint involves an application for initial services under this part from a child who is transitioning from Part C of the Act to Part B and is no longer eligible for Part C services because the child has turned three, the Bell County CoOp is not required to provide the Part C services that the child had been receiving. If the child is found eligible for special education and related services under Part B and the parent consents to the initial provision of special education and related services under §300.300(b), then the Bell County CoOp must provide those special education and related services that are not in dispute between the parent and the Bell County CoOp.**
- (d) If the hearing officer in a due process hearing conducted by the SEA or a State review official in an administrative appeal agrees with the child's parents that a change of placement is appropriate, that placement must be treated as an agreement between the State or local agency and the parents for purposes of paragraph (a) of this section.**

FAPE/ARD

Under Federal law students with disabilities are entitled to a free appropriate public education (FAPE) at no expense to the family. The ARD/IEP committee is charged with developing an individual program for each student that is reasonably calculated to provide FAPE to the student. The Supreme Court has defined FAPE as a program reasonably calculated to permit the student to make progress based upon the unique circumstances of the student. (Endrew F. V Douglas County School District, 2017).

The school district will establish an admission, review, and dismissal (ARD) committee for each student who is to be considered for eligibility or already eligible for special education under current state and federal regulations. The ARD committee in Texas is the IEP team that is defined in federal regulations (CFR §300.321).

The IEP (or IFSP for students birth through two years of age with a visual and/or deaf or hard of hearing will be in effect at the beginning of each school year and reviewed no less than on an annual basis. Each IEP will contain all the components required in state and federal regulations.

(See TAC §89.1050.)

Decisions regarding eligibility and programming for a student with a disability will be made by a group of persons who meet at least annually as an ARD/IEP committee. This committee must include:

- *The parent of the child*
- *At least one general education teacher of the child. Efforts should be made to ensure that the general education representative of the ARD committee be a professional who has contact with the student either daily or weekly and thus has direct knowledge of the student. Efforts may include; selecting a teacher who provides academic instruction at some point in the student's schedule, selecting a teacher who provides instruction in physical education or a related arts area, selecting a teacher who provides intervention support, or selecting a teacher who provides instruction in an elective area,*
- *At least one special education teacher or service provider working with the student,*
- *A representative of the school district. This member of the ARD is either the campus principal or the principal's designee which might include the assistant or vice principal. Regardless of the position which serves in this capacity, the following conditions apply; the individual in this position must have the authority and responsibility to commit district resources to ensure implementation of the student's IEP, regardless of the*

designee, the principal remains responsible for ensuring that the IEP is implemented, and the individual in the position chairs the meeting, guides the discussion and supports parent participation and involvement.

- A person who can interpret the results of assessment. The special education teacher can interpret evaluation or state assessment results unless the IEP team is determining necessary three year evaluation needs or results and then the diagnostician or LSSP will be required. The LSSP or counselor will interpret results for students with emotional disturbance.*
- With the permission of the parent, other individuals who have knowledge of the child.,*
- Related services staff,*
- The student if appropriate. The invitation to the ARD meeting will indicate that the student was invited to the meeting,*

In certain circumstances additional persons may be required participants in the ARD/IEP committee meeting. These include:

- A representative of the district career and technology department, if the committee is considering placement in a CTE class,*
- With the consent of the parents, or a student who has reached the age of majority, a representative of any participating agency that is likely to be responsible for providing or paying for transition services. The Bell County CoOp attempts to have representatives from other agencies meet with students and parents prior to the IEP meeting to ensure more quality time to discuss post secondary services and options. Documentation of such meetings may include an invitation, a meeting agenda and/or summary notes from the meeting. Such documentation will be included in the student's special education record,*
- A representative of the district Language Proficiency Assessment Committee if the student qualifies as a student who is learning English as a second language,*
- A professional certified in the education of students with visual impairment, if the students has or is suspected of having a visual impairment,*
- A teacher of the deaf if the student has or is suspected of having a hearing impairment,*
- A teacher of both the deaf and one of the visually impaired if the student has or is suspected of having deaf-blindness.*

Documentation will be maintained in the student eligibility folder that the above individuals were invited to the meeting. The record of the filed in the eligibility folder will indicate the positions of individuals attending the meeting. Responsibility for filing such documentation is assigned to the educational diagnostician/LSSP for the campus.

Excusal

If the member's area is not being modified or discussed, the member may be excused from the meeting if the parent and Bell County CoOp agree in writing on the district form that the members attendance is not necessary. The Bell County CoOp parental informed consent is required in order to excuse an IEP member if their area of the curriculum or related service will not be modified or discussed otherwise they are required to attend unless there is a unforeseen emergency. Parental consent for excusal in the meeting must include all elements of informed consent found in Procedural Safeguards section. The Bell County CoOp will attempt to provide a minimum of 3 days advance written input to the parent to consider excusal unless there are emergency circumstances which cannot be avoided. The parent always has the right not to agree to the excusal. The Bell County CoOp will not routinely excuse IEP members and each IEP meeting requires either appropriate agreement or consent for the IEP member requesting excusal. Any excusal from the ARD/IEP Meeting will follow exact guidelines in §300.321 (e) (1-2) and be documented in writing on the Bell County CoOp form.

Parent Participation

Resources

TEC §29.05

TAC §89.1050

(Extracted from 4a, Section VI)

Parents are required members of the ARD/IEP committee meeting and as such, every effort should be made to encourage and ensure their participation.

3 Prior Notice Attempts To Ensure Parent Participation in the IEP Committee Meeting.

The Bell County CoOp will make advance attempts to notify parents of ARD/IEP committee meetings and arrange a mutually agreeable time and location.

- 1. The first Prior Written Notice of the ARD/IEP meeting form is provided in writing at least 7 school days prior to the scheduled ARD/IEP date, (earlier if possible). This early notice will allow more time to contact the parent and then proceed at the first scheduled date and time. The Notice form includes options to agree to the proposed date, change the date, hold the meeting on the phone, online meeting in Google Meets, or suggest the district proceed without the parent in attendance. A copy of the completed Notice form sent to the parent is maintained in the student eligibility file as documentation.*
- 2. The second attempt to notify the parents of the ARD will also be in writing (if there is no response from the parent after the first notice). The Bell County CoOp will copy the first notice form and send it as the second Notice of ARD/IEP meeting.*
- 3. The third Notice contact will be attempted to get parental participation if there is no response from the first two attempts. After 3 attempts and no response, the Bell County CoOp may go forward with the ARD meeting as scheduled.*

All dates of scheduling attempts and the initials of personnel attempting contact must be documented on the district Notice form and filed in the student eligibility folder by the campus educational diagnostician/LSSP. Staff will also contact the parent by phone and email in addition to the written forms so as to get parent participation.

Campus staff will offer to allow the parent to attend in multiple ways such as by phone or online through Google Meets to accommodate work needs. The campus staff will make every effort to accommodate the parents schedule, however, there is no requirement that an IEP meeting must be held outside of regular business hours for the school. OSEP Letter to Thomas (6-3-2008)

Virtual Learning Delays

- What procedures are in place for ARD committee members to meet virtually if needed? The Bell County CoOp will ensure that links to virtual meetings are provided to parents and staff in advance. If the parent is unable to participate virtually, Assessment staff will call the parent to ensure the opportunity to participate. Each ARD Committee Meeting will contain a Contingency Plan for the event of School Closure and implementation of virtual instruction.*
- Describe procedures followed for documenting services provided during virtual learning days. Services during virtual learning days will be maintained on the parent contact page in the electronic documentation system and Progress will be monitored to make sure that students are getting the services needed to be successful.*
- What alternatives are available if students are not able to access technology and the curriculum at home during virtual learning days? In the event that students are not able to access technology and the curriculum at home during virtual learning days, they may receive instruction face to face or at an alternative location. The Bell County CoOp staff have made it available to parents for hybrid plans, plans where staff go to the house, etc in order to make sure that students are getting what they need. The districts have also provided devices and internet if needed.*
- Describe how related services will be provided remotely? If necessary, how will the LEA make-up any missed related services? Related services will be provided directly through virtual instruction provided parents give consent or by consult with the parent. Related service providers have also done home visits to provide services.*
- Describe training for staff about the provision of special education and related services during virtual learning days, such as the provision of instructional phone calls, videoconferencing, homework packets, online lessons, and other available distance-based learning approaches. Staff will receive regular instruction in the methods used to provide virtual instruction.*
- Describe procedures followed for documenting communication with parent(s) during extended periods of virtual learning days. All parent contact is documented through the parent contact log in the electronic documentation system.*

At each ARD/IEP committee meeting appropriate district forms will be used to document the meeting and decisions. The special education staff will provide relevant evaluation and educational data to the ARD/IEP committee as appropriate including a draft of the PLAAFP and IEP goals.

Once the student is determined eligible for special education services, the parent or district staff may request an ARD/IEP committee meeting as needed to discuss or review the student's IEP. An ARD/IEP committee meeting may be requested by contacting the student's special education teacher or case manager. The diagnostician/LSSP will be responsible for the following tasks related to the meeting.

- 1. Collaborating with campus staff to develop the ARD/IEP committee meeting schedule using monthly data printout of annual ARD due dates;*
- 2. Making sure the teacher completed the Notice of ARD/IEP committee meeting and sent the first written notice approximately at least 7 school days prior to the due date for the annual meeting*
- 3. Contacting the parent to schedule the committee meeting at a mutually agreeable time and date when the meeting is being requested by the parent or the school;*
- 4. Notifying all required members of the ARD/IEP committee meeting and proving required notices (see Procedural Safeguards); and*
- 5. Providing a copy of the completed PWN to the parent at the close of the meeting and a copy by an online program to obtain signatures if the parent was unable to attend and signed consent for electronic shares.*

The district will prepare a supplement to the IEP report documenting any delays during the 2019-2020 or 2020-2021 school year to a student's full and individual initial evaluation, delays in the development of the student's initial IEP program, and whether any provision of special services to the student were interrupted, reduced, delayed, suspended, or discontinued. The supplement will also include any compensatory education services that are appropriate for the child based on these delays. This has been completed each year and documented in the annual IEP in the deliberations and through the Contingency Plan and its updates. The SB 89 form from TEA was used and included for the 2021/2022 school year.

If the parent brings an attorney to the ARD meeting without prior notice to the school district, the Administrator must recess the ARD and contact the Director of Special Education at the Bell County CoOp until such time as the school's attorney can also attend. It is critical that the district document the student services that will continue until the ARD is reconvened. During the recess involve the Special Education Director or Coordinator to consider alternative resolutions to propose to the parent other than involvement of attorneys.

Determine if training staff in facilitation is needed in order to reach mutual agreement. The administrator working with the staff will analyze all possible options, pros/cons and prepare to present the data.

- It is important to help the group of people understand their common objectives are to benefit and assist the student.*
- Beginning with assessment/evaluation at the beginning of the IEP, present IEP areas in small segments and determine agreement at each step. Listen and keep the focus on the student!*
- In areas of disagreement, determine if agreement can be reached for a trial period of even a short segment of time such as 6 weeks or 2-3 months then return to a review IEP meeting.*
- In decision making consider at all times the student needs.*

If the parent disagrees with any part of the IEP, the parent must be offered the opportunity to write their disagreement in the IEP. If the parent refuses to write their disagreement, the school district personnel must write

in the IEP specifics of the parental disagreement to the best of their understanding.

Either the principal or the diagnostician/LSSP should contact the Special Education Director for consultation when an ARD meeting is going to reconvene due to parental disagreement.

<https://www2.ed.gov/about/offices/list/ocr/transitionguide.html>

Transition services must be in place on or before the student's fourteenth birthday. Diagnostician/LSSPs for the Bell County CoOp will make sure that transition is completed and in place by the age of 13. Therefore, the district will began formal transition discussions to address transitions needs in the annual ARD/IEP committee meeting that occurs prior to the student's fourteenth birthday. Transition services will include:

- *Identification of measurable postsecondary goals related to training, education, employment, and independent living skills as needed by the student,*
 - *The Transition services needed (including courses) to help the student reach the goals, and*
 - *How progress toward such goals will be measured and how and when progress will be reported to the parents.*
- However, transition discussions will begin when the student enters the ECSE program at age 3 in order to maintain a continuum of services designed to help transition the student into adulthood.*

Documentation of these transition activities will be completed on the district's forms and filed in the student's special education eligibility folder by the educational diagnostician/LSSP.

Transition information will be collected and reviewed by the special education case manager, teacher, or Transition Specialist by meeting with the student at least annually to complete the following activities prior to the ARD/IEP committee meeting.

- *Assist the student to determine strengths, interests, and preferences for future career goals,*

- Discuss with the student a coordinated set of activities necessary to further goals including CTE electives, the minimum, recommended, and distinguished graduation/career plans, etc.
- Determine if Transition Assessments are completed or if any additional assessments are needed. These assessments may be formal or informal assessments such as surveys, environmental inventories, structured observations, interest inventories, etc. and
- Assist the student to prepare for sharing his/her postsecondary goals in the ARD/IEP committee meeting. (not later than the first IEP to be in effect when the child turns 14, or younger if determined appropriate by the IEP Team).

ARD/IEP team participants to invite when transition will be discussed at the committee meeting include:

- The child with a disability must be invited beginning in Middle School. If he/she does not attend other means should be used so that the child's needs and interest are appropriately addressed.
- When appropriate, members of agencies that might be involved in providing or paying for services will be invited.
- All required IEP/ARD committee members.

The Special Education office will provide a print out of special education students for the diagnostician / case manager to note who will be turning 18 years old and their birth date. By the student's 17th birthday the district will convene an ARD/IEP committee meeting to provide each student and the student's parents a written notice regarding the transfer of rights and other required information regarding guardianship or alternatives to guardianship.

Documentation of all transition activities will be kept in the student's special education eligibility folder.

V. CURRICULUM FOR STUDENTS WITH DISABILITIES

Click link to review the Region 20 ESC Access to General Curriculum Statewide Function which TEA supports.
http://www.esc20.net/default.aspx?name=ci_se.agc.Home

The Bell County CoOp has the responsibility for providing educational and related services to eligible students in the least restrictive environment. Students with disabilities shall have the opportunity to participate in educational programs and activities with non-disabled students to the maximum extent appropriate.

The Bell County CoOp curriculum will enable each student to acquire knowledge and skills in the basic areas of learning commensurate with the student's needs and abilities. These skills may be attained in the general program of instruction or in a program of special education instruction, as determined by the Admission, Review, and Dismissal committee.

All students, regardless of special need or condition, will be provided a well-balanced curriculum. The Texas state standards are found in the TEKS – Texas Essential Knowledge and Skills. The TEKS represent core knowledge, skills, and competencies students should learn. Students with special needs shall be instructed in those same TEKS in a manner appropriate to their needs. The TEKS constitute a sound developmental sequence of instruction and their mastery should be the goal for all students, including students with disabilities. Although some students with disabilities will have different learning rates or different levels of mastery, the Bell County CoOp must provide each student with disabilities the opportunity to make satisfactory progress in the essential knowledge and skills in a manner appropriate to the student's needs. If a student's disability is such that mastery of some or all of the TEKS is inappropriate for that student, the ARD/IEP committee has the responsibility to develop an appropriate scope and sequence of skills for that student and to modify/accommodate the method of instruction, pacing, and/or materials, as appropriate, to provide full opportunity for learning the TEKS.

- Identified special education students will follow the general education curriculum, consisting of the essential elements, when deemed appropriate by the ARD/IEP committee and reflected in the IEP.*
- Identified special education students will follow the general education curriculum with modification and/or special education support when deemed appropriate by the ARD/IEP committee and reflected in the IEP. Each identified special education student shall follow the IEP developed and approved by the ARD/IEP committee.*

Tutorials - *Students in special education programs will be eligible for tutorial services, but the tutorials will not replace other special services provided for the student.*

Textbooks - *State-adopted textbooks are available for identified students with disabilities' use, regardless of placement. State-adopted textbooks may be requested by the teacher of the student with disabilities, following local building procedures. Local Bell County CoOp guidelines will be followed when textbooks are issued to identified students with disabilities. Students are responsible for the proper handling and return of a state-adopted textbook, which has been issued to the student. Consequences for improper use or return of a textbook will comply with local district procedures for all students.*

- A special education teacher may request teacher's manuals and other supplementary aids for state-adopted textbooks used by the identified students with disabilities assigned to the special education teacher. Local procedures for textbook acquisition will be followed in requesting teacher's manuals and aids.*
- Textbooks on Tape - The Bell County CoOp makes available certain state-adopted textbooks and selected other books on tape for students with disabilities based on ARD/IEP committee recommendation.*
- Original sets of tapes are maintained in Content Mastery Centers.*

Scientifically Research Based Interventions/Strategies

- Based on IDEA 2004, the IEP now requires a statement of the special education and related services and supplementary aids and services, based on peer-reviewed research to the extent practicable, to be provided to the child, or on behalf of the child, and a statement of the program modifications or supports for school personnel that will be provided.*
- Also based on IDEA 2004, prior to, or as a part of the referral process, the child must have been provided appropriate high-quality, research-based instruction in regular education settings, consistent with section 1111(b)(8)(D) and (E) of the ESEA, including that the instruction was delivered by qualified personnel.*
- As a result, it is incumbent upon the special education department to continually evaluate the programs and strategies used by special education staff and to train staff on the use of scientifically research based interventions and programs to address the curriculum.*

- *The term “scientifically based research” means research that involves the application of rigorous, systematic and objective procedures to obtain reliable and valid knowledge relevant to education activities and programs, and includes research that:*
 1. *employs systematic, empirical methods that draw on observation or experiment;*
 2. *involves rigorous data analyses that are adequate to test the state hypotheses and justify the general conclusions drawn;*
 3. *relies on measurements or observational methods that provide reliable and valid data across evaluators and observers, across multiple measurements and observations, and across studies by the same or different investigators;*
 4. *is evaluated using experimental or quasi-experimental designs;*
 5. *ensures that experimental studies are presented in sufficient detail and clarity to allow for replication, and*
 6. *has been accepted by a peer-reviewed journal or approved by a panel of independent experts through a comparably rigorous, objective, and scientific review.*

 - (xv) residential facilities funded and/or licensed by TCADA;
 - (xvi) settings other than the student's natural or adoptive home in which residential services are provided in programs authorized by the Social Security Act, §1915(c); and
 - (xvii) state hospitals, state schools, and state centers operated by TDMHMR.
 - (2) "Student with a disability" means an individual who is eligible to receive special education and related services in accordance with IDEA and its implementing regulations, Code of Federal Regulations, Title 34, §§300.1 et seq., and state laws and rules, including, without limitation, TEC, Chapter 29, and Chapter 89 of this title (relating to Adaptations for Special Populations).
 - (3) Consistent with 20 USC §1401(8), "free appropriate public education" (FAPE) means special education and related services that:
 - (A) are provided at public expense, under public supervision and direction, and without charge;
 - (B) meet the standards of TEA;
 - (C) include preschool, elementary, or secondary school education; and
 - (D) are provided in conformity with the student's individualized education program (IEP).
 - (4) Consistent with 20 U. S. C. §1401(15), "local educational agency" (LEA) means any public authority, institution, or agency having administrative control and direction of a public elementary or secondary school, including a public charter school that is established as an LEA under state law.
- (d) Terms of MOU. The parties agree to the following terms:
- (1) The responsibilities of LEAs and RFs related to the provision of a FAPE to students with disabilities who reside in RFs are established as follows.
 - (A) LEAs must provide or ensure the provision of a FAPE to students with disabilities residing in RFs in accordance with IDEA, applicable federal regulations, and state laws and rules.
 - (i) Except as provided in paragraph (2) of this subsection, an LEA must provide or ensure the provision of a FAPE for a student with a disability residing in an RF located in the geographical area served by that LEA.
 - (ii) If an LEA places a student with a disability in an RF for educational purposes, the placing LEA must provide or ensure the provision of a FAPE to the student .

- (B) Not later than the third day after the date a person 22 years of age or younger is placed in an RF, the RF must provide notification in accordance with TEC, §29.012(a), as follows:
 - (i) if the person placed in the RF is three years of age or older, the RF must notify the LEA in which the RF is located, unless the RF is an open-enrollment charter school or the RF has been designated as an LEA (e.g., TYC correctional facilities, Texas School for the Deaf, the University of Texas Medical Branch); or
 - (ii) if the person placed in the RF is younger than three years of age, the RF must notify a local early childhood intervention program in the area in which the RF is located.
- (2) Regulatory and planning functions of the parties are coordinated as follows.
 - (A) The parties will require LEAs and RFs to:
 - (i) share, within a reasonable period of time and to the extent permitted by applicable statutes and regulations, all appropriate records and relevant information relating to a student with a disability. This subsection does not authorize the LEA to modify requirements for admission and enrollment into an LEA as set forth in TEC, Chapter 25. The records and information to be shared may include, but are not limited to:
 - (I) birth certificate or other identifying document that proves the student's age;
 - (II) medical history and medical records, including current immunization records and a history of infectious disease (e.g., Hepatitis B, tuberculosis), including a description of any behavioral characteristics related to the transmission of such disease;
 - (III) social history;
 - (IV) vision and hearing screening and evaluation;
 - (V) evaluation reports, including psychological, educational, related service, assistive technology and vocational evaluations, and behavioral assessments;
 - (VI) treatment plan of care or service;
 - (VII) educational history (e.g., previous educational placement information);
 - (VIII) any relevant court orders (e.g., orders related to placement in an RF, guardianship or conservatorship, or court-ordered services);
 - (IX) information regarding a student's movement from an RF to a subsequent residence, including but not limited to the date the student left the RF and the location of the student's subsequent residence; and
 - (X) name and phone number of contact persons representing the RF and the LEA; and
 - (ii) coordinate a student's individualized education program (IEP) and treatment plan of care or service. Coordination between an LEA and RF includes but is not limited to communication about responsibilities and timelines related to the development and implementation of the IEP and treatment plan, including permanency planning.
 - (B) TEA will require LEAs to provide:
 - (i) the name and phone number of the contact person representing the RF to the surrogate parent, upon assignment of the surrogate parent;
 - (ii) the name and phone number of the surrogate parent, upon assignment of the surrogate parent, to the contact person representing the RF; and
 - (iii) designation and training of surrogate parents in accordance with §89.1047 of this title (relating to Procedures for Surrogate and Foster Parents).
 - (C) TYC and the HHS agencies will provide the following notifications to TEA.
 - (i) TYC and the HHS agencies, other than PRS, will notify TEA when an RF opens, closes, expands, or reduces its capacity to provide services, if the notifying agency expects such action will have a significant effect on one or more LEAs. The notice will be provided to TEA before the RF opens, closes, expands, or reduces its capacity to provide services, or as soon thereafter as the notifying agency becomes aware of the action. If an RF is closing, the notifying TYC or HHS agency will request that the RF attempt to obtain any consent necessary to release to TEA and an LEA, information about a student with a disability residing in the RF, including the student's name, date of birth, social security number, disability, and name of the LEA to which the student will be moving. TEA will notify the affected LEA of the expected action so the LEA can adjust its capacity to serve students with disabilities.
 - (ii) PRS will provide TEA with a copy of the notice required by Texas Human Resources Code, §42.0461(a)(2). Additionally, PRS and TEA will explore possible use of PRS' Child Care Licensing Automation Support Services management system to generate information that may assist TEA in its effort to notify LEAs when an RF opens, closes, expands, or reduces its capacity to provide services.

- (3) Criteria for determining when a public school will provide educational services are established as follows.
 - (A) TEA will ensure that the local school district provides a FAPE to all eligible students with disabilities, in the least restrictive environment (LRE), to the maximum extent appropriate, to meet the individual educational needs of the student as determined by a duly-constituted admission, review, and dismissal (ARD) committee, and in accordance with §89.1001 of this title (relating to Scope and Applicability).
 - (B) The student's ARD committee must determine the appropriate educational placement for the student, considering all available information regarding the educational needs of the student, and including the non-educational needs that may restrict the ability of the LEA to serve the student on a public school campus or other instructional setting. These non-educational needs could include the student's health and safety (e.g. substance abuse), and/or the student's placement in a restrictive RF program (e.g., juvenile incarceration or restrictive court-ordered placements). The ARD committee's determination must be individualized based on student need and not made on a categorical basis, such as the student's disability or residence in an RF. Further, ARD committees must not determine educational placement on the basis of what is most convenient to LEAs or RFs.
- (4) When educational services will be provided at an RF, appropriate educational space will be determined as follows.
 - (A) The ARD committee must determine whether space available at the RF is appropriate for the provision of a FAPE. This determination must be based on the individual student's needs and the RF's available space.
 - (B) An ARD committee must find alternative locations for providing educational services if the ARD committee or RF determines that the RF has no appropriate available space.
- (5) Measures designed to ensure the safety of students and teachers are established as follows.
 - (A) The parties will require RFs and LEAs to agree in writing to the staffing levels that will be maintained by both the RF and the LEA to ensure the safety of students and teachers while educational services are provided at an RF.
 - (B) TYC, TJPC, and HHS agencies will require RFs to communicate to LEA staff applicable safety, emergency, and security procedures to be followed while educational services are provided at an RF.
- (6) Disputes concerning the implementation of this MOU will be resolved as follows.
 - (A) Local disputes. Resolution of disputes concerning implementation of this MOU between LEAs or between an LEA and an RF shall first be attempted at the local level. The specific issues involved in the dispute and possible solutions shall be identified and referred to local personnel authorized to make decisions necessary to resolve the dispute. If resolution is not reached after a reasonable period of time (not to exceed 45 calendar days unless the disputing entities agree otherwise), the LEA shall refer (and the RF may refer) the dispute to TEA for further negotiations toward a mutually agreeable resolution. TEA will contact the disputing entities and set up a meeting for this purpose. Local entities referring disputes to TEA shall identify:
 - (i) the nature of the dispute; (ii) any resolutions agreed upon; (iii) the issues that remain unresolved; and (iv) the contact persons representing the disputing entities.
 - (B) State agency disputes. Resolution of disputes concerning implementation of this MOU between two or more parties must first be attempted at the staff level. If resolution is not reached after a reasonable period of time (not to exceed 45 calendar days unless the disputing parties agree otherwise), the disputing parties will refer the dispute to their respective executive officers, or their designees for further negotiation. The appropriate state officials shall meet to seek resolution of the dispute.
 - (i) Mediation. If the chief executive officers of the disputing parties determine that the dispute cannot be resolved at their level, the disputing parties may pursue resolution through the use of mediation pursuant to the Governmental Dispute Resolution Act, Texas Government Code, Chapter 2009.
 - (ii) Arbitration. If the disputing parties do not agree to pursue resolution of their dispute through mediation, or if mediation does not result in a resolution of their dispute, the disputing parties will participate in binding arbitration consistent with Texas Government Code, Chapter 2009, and Texas Civil Practice and Remedies Code, §154.027.
- (7) Other terms of this MOU.
 - (A) This MOU shall be signed by the executive officers of the participating agencies and shall be effective upon signature by all.
 - (B) This MOU may be considered for expansion, modification, or amendment upon mutual agreement of the executive officers of the participating agencies.
 - (C) In the event that federal and/or state laws should be amended, federally interpreted, or judicially interpreted so as to render continued implementation of this MOU unreasonable or impossible, the participating agencies may agree to amend or terminate this MOU.

The TEA has worked collaboratively with several agencies to develop memorandum of understandings (MOU) or agreement memorandums (AM) that will assist in the coordination with the numerous state agencies in providing services to students with disabilities.

a. coordination between ECI, DARS and TEA

b. interagency coordination of transition services to students with disabilities (coordination between TCB, TDHS, TDMHMR, TEA, TEC, TRC, and TDPRS) – currently there is no longer an MOU, however, there is an Interagency Letter of Agreement signed and dated 3/23/2005 by Shirley J. Neeley, Commissioner of Education, TEA

IX. TRANSFER OF ASSISTIVE TECHNOLOGY DEVICES

TEC §30.0015. Transfer of Assistive Technology Devices.

(a) In this section:

- (1) "Assistive technology device" means any device, including equipment or a product system, that is used to increase, maintain, or improve functional capabilities of a student with a disability.
- (2) "Student with a disability" means a student who is eligible to participate in a school district's special education program under Section 29.003.
- (3) "Transfer" means the process by which a school district that has purchased an assistive technology device may sell, lease, or loan the device for the continuing use of a student with a disability changing the school of attendance in the district or leaving the district.

(b) The TEA by rule shall develop and annually disseminate standards for a school district's transfer of an assistive technology device to an entity listed in this subsection when a student with a disability using the device changes the school of attendance in the district or ceases to attend school in the district that purchased the device and the student's parents, or the student if the student has the legal capacity to enter into a contract, agrees to the transfer. The device may be transferred to:

- (1) the school or school district in which the student enrolls;
- (2) a state agency, including the Texas Rehabilitation Commission and the Texas Department of Mental Health and Mental Retardation, that provides services to the student following the student's graduation from high school; or
- (3) the student's parents, or the student if the student has the legal capacity to enter into a contract.

(c) The standards developed under this section must include:

- (1) a uniform transfer agreement to convey title to an assistive technology device and applicable warranty information;
- (2) a method for computing the fair market value of an assistive technology device, including a reasonable allowance for use; and
- (3) a process to obtain written consent by the student's parents, or the student where appropriate, to the transfer.

Parent indicates informed consent by written signature on the TEA - Uniform Transfer Agreement or locally developed form. See also the OSEP Letter to Goodman (June 21, 1998) and 34 CFR §80.32 EDGAR regulation governing equipment.

(d) This section does not alter any existing obligation under federal or state law to provide assistive technology devices to students with disabilities.

TAC §89.1056. Transfer of Assistive Technology Devices.

(a) Unless otherwise specifically defined in this section, the terms used in this section shall have the meanings ascribed to such terms in Texas Education Code (TEC), §30.0015, (Transfer of Assistive Technology Devices).

(b) A transfer of an assistive technology device (ATD) pursuant to TEC, §30.0015, shall be in accordance with a transfer agreement which incorporates the standards described in TEC, §30.0015(c), and which includes, specifically, the following.

- (1) The transferor and transferee must represent and agree that the terms of the transfer are based on the fair market value of the ATD, determined in accordance with generally accepted accounting principles.
- (2) The informed consent of the parent of the student with a disability for whom the ATD is being transferred must be obtained before the transfer of an ATD pursuant to TEC, §30.0015. The procedures employed by a school district in obtaining such informed consent shall be consistent with the procedures employed by the district to obtain parental consent under 34 Code of Federal Regulations (CFR), §300.300. If the student has the legal capacity to enter into a contract, the informed consent may be obtained from the student. Consistent with 34 CFR, §300.505(c), informed parental or adult student consent need not be obtained if the school district can demonstrate that it has taken reasonable measures to obtain that consent, and the student's parent or the adult student has failed to respond. To meet the reasonable measures requirement, the school district must use procedures consistent with those described in 34 CFR, §300.322(d).
- (3) If the transfer is a sale, then the sale of the ATD shall be evidenced by a "Uniform Transfer Agreement" (UTA) which includes the following:

- (A) the names of the transferor and the transferee (which may be any individual or entity identified in TEC, §30.0015(b));
 - (B) the date of the transfer;
 - (C) a description of the ATD being transferred;
 - (D) the terms of the transfer (including the transfer of warranties, to the extent applicable); and
 - (E) the signatures of authorized representatives of both the transferor and the transferee.
- (c) The Texas Education Agency shall annually disseminate to school districts the standards for a school district's transfer of an ATD pursuant to TEC, §30.0015.
- (d) Nothing in this section or in TEC, §30.0015, shall:
- (1) alter any existing obligation under federal or state law to provide ATDs to students with disabilities;
 - (2) require a school district to transfer an ATD to any person or entity;
 - (3) limit a school district's right to sell, lease, loan, or otherwise convey or dispose of property as authorized by federal or state laws, rules, or regulations; or
 - (4) authorize any transfer of an ATD that is inconsistent with any restriction on transferability imposed by the manufacturer or developer of the ATD or applicable federal or state laws, rules, or regulations.

X. FUNDING

A. Federal Funds

§300.226 Early intervening services.

- (a) **General.** An LEA may not use more than 15 percent of the amount the LEA receives under Part B of the Act for any fiscal year, less any amount reduced by the LEA pursuant to §300.205, if any, in combination with other amounts (which may include amounts other than education funds), to develop and implement coordinated, early intervening services, which may include interagency financing structures, for students in kindergarten through grade 12 (with a particular emphasis on students in kindergarten through grade three) who have not been identified as needing special education or related services, but who need additional academic and behavioral support to succeed in a general education environment.
- (b) **Activities.** In implementing coordinated, early intervening services under this section, the Bell County CoOp may carry out activities that include--
- (1) Professional development (which may be provided by entities other than LEAs) for teachers and other school staff to enable such personnel to deliver scientifically based academic and behavioral interventions, including scientifically based literacy instruction, and, where appropriate, instruction on the use of adaptive and instructional software; and
 - (2) Providing educational and behavioral evaluations, services, and supports, including scientifically based literacy instruction.
- (c) **Construction.** Nothing in this section shall be construed to either limit or create a right to FAPE under Part B of the Act or to delay appropriate evaluation of a child suspected of having a disability.
- (d) **Reporting.** Each LEA that develops and maintains coordinated, early intervening services under this section must annually report to the SEA on--
- (1) The number of children served under this section who received early intervening services; and
 - (2) The number of children served under this section who received early intervening services and subsequently receive special education and related services under Part B of the Act during the preceding two year period.
- (e) **Coordination with ESEA.** Funds made available to carry out this section may be used to carry out coordinated, early intervening services aligned with activities funded by, and carried out under the ESEA if those funds are used to supplement, and not supplant, funds made available under the ESEA for the activities and services assisted under this section. (Authority: 20 U.S.C. 1413(f))

§300.162 Supplementation of State, local, and other Federal funds.

- (a) **Expenditures.** Funds paid to a State under this part must be expended in accordance with all the provisions of this part.
- (b) **Prohibition against commingling.**
- (1) Funds paid to a State under this part must not be commingled with State funds.
 - (2) The requirement in paragraph (b)(1) of this section is satisfied by the use of a separate accounting system that includes an audit trail of the expenditure of funds paid to a State under this part. Separate bank accounts are not required. (See 34 CFR 76.702 (Fiscal control and fund accounting procedures)).
- (c) **State-level nonsupplanting.**
- (1) Except as provided in §300.202, funds paid to a State under Part B of the Act must be used to supplement the level of Federal, State, and local funds (including funds that are not under the direct control of the SEA or LEAs) expended for special education and related services provided to children with disabilities under Part B of the Act, and in no case to supplant those Federal, State, and local funds.
 - (2) If the State provides clear and convincing evidence that all children with disabilities have available to them FAPE, the Secretary may waive, in whole or in part, the requirements of paragraph (c)(1) of this section if the Secretary concurs with the evidence provided by the State under §300.164.

§300.163 Maintenance of State financial support.

- (a) **General.** A State must not reduce the amount of State financial support for special education and related services for children with disabilities, or otherwise made available because of the excess costs of educating those children, below the amount of that support for the preceding fiscal year.
- (b) **Reduction of funds for failure to maintain support.** The Secretary reduces the allocation of funds under section 611 of the Act for any fiscal year following the fiscal year in which the State fails to comply with the requirement of paragraph (a) of this section by the same amount by which the State fails to meet the requirement.
- (c) **Waivers for exceptional or uncontrollable circumstances.** The Secretary may waive the requirement of paragraph (a) of this section for a State, for one fiscal year at a time, if the Secretary determines that--
 - (1) Granting a waiver would be equitable due to exceptional or uncontrollable circumstances such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State; or
 - (2) The State meets the standard in §300.164 for a waiver of the requirement to supplement, and not to supplant, funds received under Part B of the Act.
- (d) **Subsequent years.** If, for any fiscal year, a State fails to meet the requirement of paragraph (a) of this section, including any year for which the State is granted a waiver under paragraph (c) of this section, the financial support required of the State in future years under paragraph (a) of this section shall be the amount that would have been required in the absence of that failure and not the reduced level of the State's support. (Authority: 20 U.S.C. 1412(a)(18))

§300.164 Waiver of requirement regarding supplementing and not supplanting with Part B funds.

- (a) Except as provided under §§300.202 through 300.205, funds paid to a State under Part B of the Act must be used to supplement and increase the level of Federal, State, and local funds (including funds that are not under the direct control of SEAs or LEAs) expended for special education and related services provided to children with disabilities under Part B of the Act and in no case to supplant those Federal, State, and local funds. A State may use funds it retains under §300.704(a) and (b) without regard to the prohibition on supplanting other funds.
- (b) If a State provides clear and convincing evidence that all eligible children with disabilities throughout the State have FAPE available to them, the Secretary may waive for a period of one year in whole or in part the requirement under §300.162 (regarding State-level nonsupplanting) if the Secretary concurs with the evidence provided by the State.
- (c) If a State wishes to request a waiver under this section, it must submit to the Secretary a written request that includes--
 - (1) An assurance that FAPE is currently available, and will remain available throughout the period that a waiver would be in effect, to all eligible children with disabilities throughout the State, regardless of the public agency that is responsible for providing FAPE to them. The assurance must be signed by an official who has the authority to provide that assurance as it applies to all eligible children with disabilities in the State;
 - (2) All evidence that the State wishes the Secretary to consider in determining whether all eligible children with disabilities have FAPE available to them, setting forth in detail--
 - (i) The basis on which the State has concluded that FAPE is available to all eligible children in the State; and
 - (ii) The procedures that the State will implement to ensure that FAPE remains available to all eligible children in the State, which must include--
 - (A) The State's procedures under §300.111 for ensuring that all eligible children are identified, located and evaluated;
 - (B) The State's procedures for monitoring public agencies to ensure that they comply with all requirements of this part;
 - (C) The State's complaint procedures under §§300.151 through 300.153; and
 - (D) The State's hearing procedures under §§300.511 through 300.516 and §§300.530 through 300.536;
 - (3) A summary of all State and Federal monitoring reports, and State complaint decisions (see §§300.151 through 300.153) and hearing decisions (see §§300.511 through 300.516 and §§300.530 through 300.536), issued within three years prior to the date of the State's request for a waiver under this section, that includes any finding that FAPE has not been available to one or more eligible children, and evidence that FAPE is now available to all children addressed in those reports or decisions; and
 - (4) Evidence that the State, in determining that FAPE is currently available to all eligible children with disabilities in the State, has consulted with the State advisory panel under §300.167.

- (d) If the Secretary determines that the request and supporting evidence submitted by the State makes a **prima facie** showing that FAPE is, and will remain, available to all eligible children with disabilities in the State, the Secretary, after notice to the public throughout the State, conducts a public hearing at which all interested persons and organizations may present evidence regarding the following issues:
 - (1) Whether FAPE is currently available to all eligible children with disabilities in the State.
 - (2) Whether the State will be able to ensure that FAPE remains available to all eligible children with disabilities in the State if the Secretary provides the requested waiver.
- (e) Following the hearing, the Secretary, based on all submitted evidence, will provide a waiver, in whole or in part, for a period of one year if the Secretary finds that the State has provided clear and convincing evidence that FAPE is currently available to all eligible children with disabilities in the State, and the State will be able to ensure that FAPE remains available to all eligible children with disabilities in the State if the Secretary provides the requested waiver.
- (f) A State may receive a waiver of the requirement of section 612(a)(18)(A) of the Act and §300.164 if it satisfies the requirements of paragraphs (b) through (e) of this section.
- (g) The Secretary may grant subsequent waivers for a period of one year each, if the Secretary determines that the State has provided clear and convincing evidence that all eligible children with disabilities throughout the State have, and will continue to have throughout the one-year period of the waiver, FAPE available to them.

Subpart C – LEA Eligibility

§300.202 Use of amounts.

- (a) **General.** Amounts provided to the Bell County CoOp under Part B of the Act--
 - (1) Must be expended in accordance with the applicable provisions of this part;
 - (2) Must be used only to pay the excess costs of providing special education and related services to children with disabilities, consistent with paragraph (b) of this section; and
 - (3) Must be used to supplement State, local, and other Federal funds and not to supplant those funds.
- (b) **Excess cost requirement.**
 - (1) **General.**
 - (i) The excess cost requirement prevents the Bell County CoOp from using funds provided under Part B of the Act to pay for all of the costs directly attributable to the education of a child with a disability, subject to paragraph (b)(1)(ii) of this section.
 - (ii) The excess cost requirement does not prevent the Bell County CoOp from using Part B funds to pay for all of the costs directly attributable to the education of a child with a disability in any of the ages 3, 4, 5, 18, 19, 20, or 21, if no local or State funds are available for nondisabled children of these ages. However, the Bell County CoOp must comply with the nonsupplanting and other requirements of this part in providing the education and services for these children.
 - (2) (i) An LEA meets the excess cost requirement if it has spent at least a minimum average amount for the education of its children with disabilities before funds under Part B of the Act are used.
 - (ii) The amount described in paragraph (b)(2)(i) of this section is determined in accordance with the definition of **excess costs** in §300.16. That amount may not include capital outlay or debt service.
 - (3) If two or more LEAs jointly establish eligibility in accordance with §300.223, the minimum average amount is the average of the combined minimum average amounts determined in accordance with the definition of excess costs in §300.16 in those agencies for elementary or secondary school students, as the case may be. (Authority: 20 U.S.C. 1413(a)(2)(A))

§300.16 Excess costs. **Excess costs** means those costs that are in excess of the average annual per-student expenditure in an LEA during the preceding school year for an elementary school or secondary school student, as may be appropriate, and that must be computed after deducting--

- (a) Amounts received--
 - (1) Under Part B of the Act;
 - (2) Under Part A of title I of the ESEA; and
 - (3) Under Part A of title III of the ESEA; and
- (b) Any State or local funds expended for programs that would qualify for assistance under any of the parts described in paragraph (a) of this section, but excluding any amounts for capital outlay or debt service. (see Appendix A to Part 300 for an example of how excess cost must be calculated) (Authority: 20 U.S.C. 1401(8))

§300.221 Notification of LEA and State agency in case of ineligibility.

If the SEA determines that an LEA or State agency is not eligible under Part B of the Act, then the SEA must—

- (a) Notify the LEA or State agency of that determination; and
 - (b) Provide the LEA or State agency with reasonable notice and an opportunity for a hearing.
- (Authority: 20 U.S.C. 1413(c))

§300.222 LEA and State agency compliance.

- (a) **General.** If the SEA, after reasonable notice and an opportunity for a hearing, finds that an LEA or State agency that has been determined to be eligible under this subpart is failing to comply with any requirement described in §§300.201 through 300.213, the SEA must reduce or must not provide any further payments to the LEA or State agency until the SEA is satisfied that the LEA or State agency is complying with that requirement.
- (b) **Notice requirement.** Any State agency or LEA in receipt of a notice described in paragraph (a) of this section must, by means of public notice, take the measures necessary to bring the pendency of an action pursuant to this section to the attention of the public within the jurisdiction of the agency.
- (c) **Consideration.** In carrying out its responsibilities under this section, each SEA must consider any decision resulting from a hearing held under §§300.511 through 300.533 that is adverse to the LEA or State agency involved in the decision. (Authority: 20 U.S.C. 1413(d))

§300.223 Joint establishment of eligibility.

- (a) **General.** An SEA may require an LEA to establish its eligibility jointly with another LEA if the SEA determines that the LEA will be ineligible under this subpart because the agency will not be able to establish and maintain programs of sufficient size and scope to effectively meet the needs of children with disabilities.
- (b) **Charter school exception.** An SEA may not require a charter school that is an LEA to jointly establish its eligibility under paragraph (a) of this section unless the charter school is explicitly permitted to do so under the State's charter school statute.
- (c) **Amount of payments.** If an SEA requires the joint establishment of eligibility under paragraph (a) of this section, the total amount of funds made available to the affected LEAs must be equal to the sum of the payments that each LEA would have received under §300.705 if the agencies were eligible for those payments. (Authority: 20 U.S.C. 1413(e)(1) and (2))

§300.203 Maintenance of effort.

- (a) **General.** Except as provided in §§300.204 and 300.205, funds provided to Bell County CoOp under Part B of the Act must not be used to reduce the level of expenditures for the education of children with disabilities made by the LEA from local funds below the level of those expenditures for the preceding fiscal year.
- (b) **Standard.**
 - (1) Except as provided in paragraph (b)(2) of this section, the SEA must determine that an LEA complies with paragraph (a) of this section for purposes of establishing the LEA's eligibility for an award for a fiscal year if the LEA budgets, for the education of children with disabilities, at least the same total or per-capita amount from either of the following sources as the LEA spent for that purpose from the same source for the most recent prior year for which information is available:
 - (i) Local funds only.
 - (ii) The combination of State and local funds.
 - (2) An LEA that relies on paragraph (b)(1)(i) of this section for any fiscal year must ensure that the amount of local funds it budgets for the education of children with disabilities in that year is at least the same, either in total or per capita, as the amount it spent for that purpose in the most recent fiscal year for which information is available and the standard in paragraph (b)(1)(i) of this section was used to establish its compliance with this section.
 - (3) The SEA may not consider any expenditures made from funds provided by the Federal Government for which the SEA is required to account to the Federal Government or for which the LEA is required to account to the Federal Government directly or through the SEA in determining an

LEA's compliance with the requirement in paragraph (a) of this section. (Authority: 20 U.S.C. 1413(a)(2)(A))

Notwithstanding the restriction in §300.203(a), the Bell County CoOp may reduce the level of expenditures by the Bell County CoOp under Part B of the Act below the level of those expenditures for the preceding fiscal year if the reduction is attributable to any of the following:

- (b) A decrease in the enrollment of children with disabilities.**
- (c) The termination of the obligation of the agency, consistent with this part, to provide a program of special education to a particular child with a disability that is an exceptionally costly program, as determined by the SEA, because the child --**
 - (1) Has left the jurisdiction of the agency;**
 - (2) Has reached the age at which the obligation of the agency to provide FAPE to the child has terminated; or**
 - (3) No longer needs the program of special education.**

- (a) Amounts in excess.** Notwithstanding §300.202(a)(2) and (b) and §300.203(a), and except as provided in paragraph (d) of this section and §300.230(e)(2), for any fiscal year for which the allocation received by an LEA under section §300.705 exceeds the amount the LEA received for the previous fiscal year, the LEA may reduce the level of expenditures otherwise required by §300.203(a) by not more than 50 percent of the amount of that excess.
- (b) Use of amounts to carry out activities under ESEA.** If the Bell County CoOp exercises the authority under paragraph (a) of this section, the Bell County CoOp must use an amount of local funds equal to the reduction in expenditures under paragraph (a) of this section to carry out activities that could be supported with funds under the ESEA regardless of whether the Bell County CoOp is using funds under the ESEA for those activities.
- (c) State prohibition.** Notwithstanding paragraph (a) of this section, if an SEA determines that an LEA is unable to establish and maintain programs of FAPE that meet the requirements of section 613(a) of the Act and this part or the SEA has taken action against the LEA under section 616 of the Act and subpart F of these regulations, the SEA must prohibit the LEA from reducing the level of expenditures under paragraph (a) of this section for that fiscal year.
- (d) Special rule.** The amount of funds expended by Bell County CoOp for early intervening services under §300.226 shall count toward the maximum amount of expenditures that the Bell County CoOp may reduce under paragraph (a) of this section. (Authority: 20 U.S.C. 1413(a)(2)(C))

B. State Funds *(always watch for legislative updates)*

TAC §89.1121. Distribution of State Funds.

- (a) Procedures for counting the average daily attendance (ADA) of students receiving special education services in various instructional settings must be developed by the commissioner of education and included in the student attendance accounting handbook adopted under §129.1025 of this title (relating to Adoption by Reference: Student Attendance Accounting Handbook).
- (b) State special education funds must be distributed to school districts on the basis of ADA of full-time equivalents of eligible students served in accordance with §129.21 of this title (relating to Requirements for Student Attendance Accounting for State Funding Purposes).
- (c) The special education attendance must be converted to contact hours by instructional arrangement and then to full-time equivalents. The full-time equivalent for each instructional arrangement is multiplied by the annual amount equal to the basic allotment or if applicable, the sum of the basic allotment and the allotment under Texas Education Code (TEC), §48.101 and then multiplied by the weight for the instructional arrangement as prescribed in TEC §48.102(a). Contact hours for any one student receiving special education services may not exceed six hours per day or 30 hours per week for funding purposes. The total contact hours generated per week is divided by 30 to determine the full-time equivalents. Special education full-time equivalents generated are deducted from the school district's ADA for purposes of the regular education allotment.
- (d) The receipt of special education funds is contingent upon the operation of an approved comprehensive special education program in accordance with state and federal laws and regulations. No district may divert special education funds for other purposes, with the exception of administrative costs as defined in Chapter 105,

Subchapter B, of this title (relating to Use of State Funds). Funds generated by full-time equivalents in one instructional arrangement may be spent on the overall special education program and are not limited to the instructional arrangement which generated the funds. The district must maintain separate accountability for the total state special education program fund within the general fund.

- (e) A special education fund balance may be carried over to the next fiscal year but must be expended on the special education program in the subsequent year. State special education carryover funds cannot be used for administrative costs.
- (f) Students who are at least three, but younger than 22, years of age on September 1 of the current scholastic year who participate in the regional day school program for the deaf may be counted as part of the district's ADA if they receive instruction from the basic program for at least 50% of the school day.
- (g) Students from birth through age two with a visual impairment or who are deaf or hard of hearing or both who are provided services by the district according to an individual family services plan (IFSP) must be enrolled on the district home or regional day school campus and must be considered eligible for ADA on the same basis as other students receiving special education services.
- (h) Funding for the mainstream special education instructional arrangement must be based on the average daily attendance of the students in the arrangement multiplied by the annual amount equal to the basic allotment or, if applicable, the sum of the basic allotment and the allotment under TEC §48.101 and the 1.15 weight as provided by TEC §48.102(a). The attendance must not be converted to contact hours/full-time equivalents as with the other instructional arrangements.

TEC §105.11. Maximum Allowable Indirect Cost.

- (a) No more than 48% of each school district's Foundation School Program (FSP) special allotments under the Texas Education Code, Chapter 42, Subchapter C, may be expended for indirect costs related to the following programs: compensatory education, bilingual education and special language programs, and special education. No more than 45% of each school district's FSP special allotments under the Texas Education Code, Chapter 42, Subchapter C, may be expended for indirect costs related to gifted and talented education programs. No more than 42% of each school district's FSP special allotments under the Texas Education Code, Chapter 42, Subchapter C, may be expended for indirect costs related to career and technical education programs. Indirect costs may be attributed to the following expenditure function codes: 34--Student Transportation; 41--General Administration; 81--Facilities Acquisition and Construction; and the Function 90 series of the general fund, as defined in the Texas Education Agency publication, Financial Accountability System Resource Guide.
- (b) For the 2012-2013 school year and each year thereafter, a school district may choose to use a greater indirect cost allotment under the Texas Education Code, §§42.151, 42.153, 42.154, and 42.156, to the extent the school district receives less funding per weighted student in state and local maintenance and operations revenue than in the 2011-2012 school year. The commissioner of education shall develop a methodology for a school district to make a determination under this section and may require any information necessary to implement this subsection. The commissioner's methodology must limit the percentage increase in allowable indirect cost to no more than the percentage decrease in state and local maintenance and operations revenue from the 2011-2012 school year.

TEC §105.12. Basic Allotment.

A school district may use state aid received pursuant to the Texas Education Code (TEC), Chapter 42, Subchapter B, and indirect costs as defined in §105.11 of this title (relating to Maximum Allowable Indirect Cost) for any lawful purpose, including operations and using, purchasing, or acquiring real property or land; improving real property; constructing or equipping buildings; renovating real property; repairing real property; or maintaining real property. A school district may fund obligations from state aid received pursuant to the TEC, Chapter 42, Subchapter B, including reduction of bond tax by deposit into the district debt service fund, lease purchase agreements, and public property finance contracts authorized under the Local Government Code, §271.004 and §271.005; time warrants issued pursuant to the TEC, §45.103; maintenance notes issued pursuant to the TEC, §45.108; and contracts issued pursuant to the TEC, §44.901.

TAC §89.1125. Allowable Expenditures of State Special Education Funds.

- (a) Persons paid from special education funds shall be assigned to instructional or other duties in the special education program and/or to provide support services to the regular education program in order for students with disabilities to be included in the regular program. Support services shall include, but not be limited to, collaborative planning, co-teaching, small group instruction with special and regular education students, direct instruction to special education students, or other support services determined necessary by the admission, review, and dismissal (ARD) committee for an appropriate program for the student with disabilities.

Assignments may include duties supportive to school operations equivalent to those assigned to regular education personnel.

- (b) Personnel assigned to provide support services to the regular education program as stated in subsection (a) of this section may be fully funded from special education funds.
- (c) If personnel are assigned to special education on less than a full-time basis, except as stated in subsection (a) of this section, only that portion of time for which the personnel are assigned to students with disabilities shall be paid from state special education funds.
- (d) State special education funds may be used for special materials, supplies, and equipment which are directly related to the development and implementation of individualized education programs (IEPs) of students and which are not ordinarily purchased for the regular classroom. Office and routine classroom supplies are not allowable. Special equipment may include instructional and assistive technology devices, audiovisual equipment, computers for instruction or assessment purposes, and assessment equipment only if used directly with students.
- (e) State special education funds may be used to contract with consultants to provide staff development, program planning and evaluation, instructional services, assessments, and related services to students with disabilities.
- (f) State special education funds may be used for transportation only to and from residential placements. Prior to using federal funds for transportation costs to and from a residential facility, a district must use state or local funds based on actual expenses up to the state transportation maximum for private transportation contracts.
- (g) State special education funds may be used to pay staff travel to perform services directly related to the education of eligible students with disabilities. Funds may also be used to pay travel of staff (including administrators, general education teachers, and special education teachers and service providers) to attend staff development meetings for the purpose of improving performance in assigned positions directly related to the education of eligible students with disabilities. In no event shall the purpose for attending such staff development meetings include time spent in performing functions relating to the operation of professional organizations. Funds may also be used to pay for the joint training of parents and special education, related services, and general education personnel.

For each full-time equivalent student in average daily attendance in a special education program under Subchapter A, Chapter 29, in an instructional arrangement other than a mainstream instructional arrangement, a district is entitled to an annual allotment equal to the basic allotment, or, if applicable, the sum of the basic allotment and the allotment under Section 48.101 to which the district is entitled, multiplied by a weight determined according to instructional arrangement as follows:
 - Homebound 5.0
 - Hospital class 3.0
 - Speech therapy 5.0
 - Resource room 3.0
 - Self-contained, mild and moderate, regular campus 3.0
 - Self-contained, severe, regular campus 3.0
 - Off home campus 2.7
 - Nonpublic day school 1.7
 - Vocational adjustment class 2.3
- (b) A special instructional arrangement for students with disabilities residing in care and treatment facilities, other than state schools, whose parents or guardians do not reside in the district providing education services shall be established by commissioner rule. The funding weight for this arrangement shall be 4.0 for those students who receive their education service on a local school district campus. A special instructional arrangement for students with disabilities residing in state schools shall be established by commissioner rule with a funding weight of 2.8.
- (c) For funding purposes, the number of contact hours credited per day for each student in the off home campus instructional arrangement may not exceed the contact hours credited per day for the multidistrict class instructional arrangement in the 1992-1993 school year.
- (d) For funding purposes the contact hours credited per day for each student in the resource room; self-contained, mild and moderate; and self-contained, severe, instructional arrangements may not exceed the average of the

statewide total contact hours credited per day for those three instructional arrangements in the 1992-1993 school year.

- (e) The commissioner by rule shall prescribe the qualifications an instructional arrangement must meet in order to be funded as a particular instructional arrangement under this section. In prescribing the qualifications that a mainstream instructional arrangement must meet, the commissioner shall establish requirements that students with disabilities and their teachers receive the direct, indirect, and support services that are necessary to enrich the regular classroom and enable student success.
- (f) In this section, "full-time equivalent student" means 30 hours of contact a week between a special education student and special education program personnel.
- (g) The commissioner shall adopt rules and procedures governing contracts for residential placement of special education students. The legislature shall provide by appropriation for the state's share of the costs of those placements.
- (h) At least 55 percent of the funds allocated under this section must be used in the special education program under Subchapter A, Chapter 29.

The total amount of state funding for extended year services under this section may not exceed \$10 million per year. A school district may use funds received under this section only in providing an extended year program.
- (k) From the total amount of funds appropriated for special education under this section, the commissioner shall withhold an amount specified in the General Appropriations Act, and distribute that amount to school districts for programs under Section 29.014. The program established under that section is required only in school districts in which the program is financed by funds distributed under this subsection and any other funds available for the program. After deducting the amount withheld under this subsection from the total amount appropriated for special education, the commissioner shall reduce each district's allotment proportionately and shall allocate funds to each district accordingly.

- (c) If the commissioner determines that the total amount of funding for special education for a school year that ends during the second state fiscal year of a state fiscal biennium is less than the amount required to comply with requirements regarding maintenance of state financial support under 20 U.S.C. Section 1412(a)(18), the commissioner shall submit to the legislature an estimate of the amount of funding needed to comply with that provision for that state fiscal year.
- (d) If federal funds are withheld for a school year due to noncompliance with requirements regarding maintenance of state financial support under 20 U.S.C. Section 1412(a)(18), the commissioner shall use for that school year an amount of funds described by Subsection (a) equal to the amount of withheld funds in the same manner and for the same purposes as the withheld funds would have been provided.
- (e) After the commissioner has replaced any withheld federal funds as provided by Subsection (d), the commissioner shall distribute the remaining amount, if any, of funds described by Subsection (a) to proportionately increase funding for the special education allotment under Section 48.102.
- (f) In complying with Subsection (d), the commissioner may implement any program necessary to ensure the use of funds in accordance with that subsection.

- (c) Notwithstanding any other provision of this code, a student whose appropriate education program is a regular education program may receive services and be counted for attendance purposes for the number of hours per week appropriate for the student's condition if the student:
 - (1) is temporarily classified as eligible for participation in a special education program because of the student's confinement in a hospital; and
 - (2) the student's education is provided by a district to which this section applies.
- (d) The basic allotment for a student enrolled in a district to which this section applies is adjusted by:

If the district has a wealth per student greater than the guaranteed wealth level but less than the equalized wealth level, the district in which the student is enrolled on the date a court orders the student to be confined to a juvenile residential facility shall transfer to the district providing education services an amount equal to the difference between the average Foundation School Program costs per student of the district providing education services and the sum of the state aid and the money from the available school fund received by the district that is attributable to the student for the portion of the school year for which the district provides education services to the student.

E. Nonpublic - Private School

TAC §89.63. Instructional Arrangements and Settings.

- (b) The funds may be used only for eligible students with disabilities who would remain or would have to be placed in residential facilities primarily for educational reasons without the provision of noneducational community-based support services.
- (c) The support services may include in-home family support, respite care, and case management for families with a student who otherwise would have been placed by a district in a private residential facility.
- (d) The provision of services under this section does not supersede or limit the responsibility of other agencies to provide or pay for costs of noneducational community-based support services to enable any student with disabilities to receive a free appropriate public education in the least restrictive environment. Specifically, services provided under this section may not be used for a student with disabilities who is currently placed or who needs to be placed in a residential facility primarily for noneducational reasons.

 - (ii) May not require parents to incur an out-of-pocket expense such as the payment of a deductible or co-pay amount incurred in filing a claim for services provided pursuant to this part, but pursuant to paragraph (g)(2) of this section, may pay the cost that the parent otherwise would be required to pay;
 - (iii) May not use a child's benefits under a public benefits or insurance program if that use would--
 - (A) Decrease available lifetime coverage or any other insured benefit;
 - (B) Result in the family paying for services that would otherwise be covered by the public benefits or insurance program and that are required for the child outside of the time the child is in school;
 - (C) Increase premiums or lead to the discontinuation of benefits or insurance; or
 - (D) Risk loss of eligibility for home and community-based waivers, based on aggregate health-related expenditures; and
 - (iv) (A) Must obtain parental consent consistent with §300.9 each time that access to public benefits or insurance is sought; and
 - (B) Notify parents that the parents' refusal to allow access to their public benefits or insurance does not relieve the public agency of its responsibility to ensure that all required services are provided at no cost to the parents.

(e) Children with disabilities who are covered by private insurance.

- (1) With regard to services required to provide FAPE to an eligible child under this part, the Bell County CoOp may access a parent's private insurance proceeds only if the parent provides consent consistent with §300.9.
- (2) Each time the Bell County CoOp proposes to access the parent's private insurance proceeds, the Bell County CoOp must--
 - (i) Obtain parental consent in accordance with paragraph (e)(1) of this section; and
 - (ii) Inform the parents that their refusal to permit the Bell County CoOp to access their private insurance does not relieve the Bell County CoOp of its responsibility to ensure that all required services are provided at no cost to the parents.

(f) Use of Part B funds.

- (1) If the Bell County CoOp is unable to obtain parental consent to use the parent's private insurance, or public benefits or insurance when the parent would incur a cost for a specified service required under this part, to ensure FAPE the Bell County CoOp may use its Part B funds to pay for the service.
- (2) To avoid financial cost to parents who otherwise would consent to use private insurance, or public benefits or insurance if the parent would incur a cost, the Bell County CoOp may use its Part B

funds to pay the cost that the parents otherwise would have to pay to use the parent's benefits or insurance (e.g., the deductible or co-pay amounts).

(g) Proceeds from public benefits or insurance or private insurance.

(1) Proceeds from public benefits or insurance or private insurance will not be treated as program income for purposes of 34 CFR 80.25.

(2) If the Bell County CoOp spends reimbursements from Federal funds (e.g., Medicaid) for services under this part, those funds will not be considered "State or local" funds for purposes of the maintenance of effort provisions in §§300.163 and 300.203.

(h) Construction. Nothing in this part should be construed to alter the requirements imposed on a State Medicaid agency, or any other agency administering a public benefits or insurance program by Federal statute, regulations or policy under title XIX, or title XXI of the Social Security Act, 42 U.S.C. 1396 through 1396v and 42 U.S.C. 1397aa through 1397jj, or any other public benefits or insurance program. SECTION 3. This Act takes effect September 1, 2017.

H. TSD – Texas School for the Deaf

TEC §30.087. Funding.

(a) The cost of educating students who are deaf or hard of hearing shall be borne by the state and paid from the foundation school fund, but independent school districts and institutions of higher education in the state may and are encouraged to make available property or services in cooperation with the regional day school programs for the deaf for any activities related to the education of students who are deaf or hard of hearing, including research, personnel training, and staff development.

(b) From the amount appropriated for regional day school programs, the commissioner shall allocate funds to each program based on the number of weighted full-time equivalent students served. The commissioner may consider local resources available in allocating funds under this subsection.

(c) A school district may receive an allotment for transportation of students participating in a regional day school program, determined in the same manner as an allotment for the transportation of other special education students.

TEC §30.056. Funding of the Texas School for the Deaf.

The funding of the Texas School for the Deaf consists of:

(1) money the legislature specifically appropriates for the school;

(2) money the agency allocates to the school under this code;

(3) money paid under a contract or other agreement;

(4) money the school receives through a gift or bequest;

(5) a payment the school receives from a school district under Section 30.003; and

(6) the school's share of the available school fund and payments to compensate for payments no longer made from the available school fund as provided by Section 30.003(f).

TEC §30.003. Support of Students Enrolled in Texas School for the Blind and Visually Impaired or Texas School for the Deaf.

- (a) For each student enrolled in the Texas School for the Blind and Visually Impaired or the Texas School for the Deaf, the school district that is responsible for providing appropriate special education services to the student shall share the cost of the student's education as provided by this section.
- (b) If the student is admitted to the school for a full-time program for the equivalent of two long semesters, the district's share of the cost is an amount equal to the dollar amount of maintenance and debt service taxes imposed by the district for that year divided by the district's average daily attendance for the preceding year.
- (c) If the student is admitted for a program less than two complete semesters in duration, other than a summer program, the district's share of the cost is an amount equal to the amount that would be the district's share under Subsection (b) for a full-time program multiplied by the quotient resulting from the number of full-time equivalent days in the program divided by the minimum number of days of instruction for students as provided by Section 25.081.
- (d) Each school district and state institution shall provide to the commissioner the necessary information to determine the district's share under this section. The information must be reported to the commissioner on or before a date set by rule of the State Board of Education. After determining the amount of a district's share for all students for which the district is responsible, the commissioner shall deduct that amount from the payments of foundation school funds payable to the district. Each deduction shall be in the same percentage of the total amount of the district's share as the percentage of the total foundation school fund entitlement being paid to the district at the time of the deduction, except that the amount of any deduction may be modified to make necessary adjustments or to correct errors. The commissioner shall provide for remitting the amount deducted to the appropriate school at the same time at which the remaining funds are distributed to the district. If a district does not receive foundation school funds or if a district's foundation school entitlement is less than the amount of the district's share under this section, the commissioner shall direct the district to remit payment to the commissioner, and the commissioner shall remit the district's share to the appropriate school.
- (e) For each student enrolled in the Texas School for the Blind and Visually Impaired or the Texas School for the Deaf, the appropriate school is entitled to the state available school fund apportionment.
- (f) The commissioner, with the assistance of the comptroller, shall determine the amount that the Texas School for the Blind and Visually Impaired and the Texas School for the Deaf would have received from the available school fund if Chapter 28, Acts of the 68th Legislature, 2nd Called Session, 1984, had not transferred statutorily dedicated taxes from the available school fund to the foundation school fund. That amount, minus any amount the schools do receive from the available school fund, shall be set apart as a separate account in the foundation school fund and appropriated to those schools for educational purposes.
- (f-1) The commissioner shall determine the total amount that the Texas School for the Blind and Visually Impaired and the Texas School for the Deaf would have received from school districts in accordance with this section if H.B. No. 1, Acts of the 79th Legislature, 3rd Called Session, 2006, had not reduced the districts' share of the cost of providing education services. That amount, minus any amount the schools do receive from school districts, shall be set aside as a separate account in the foundation school fund and appropriated to those schools for educational purposes.
- (g) The State Board of Education may adopt rules as necessary to implement this section.
- (h) Expired.

XI. STATE PERFORMANCE PLAN and ANNUAL PERFORMANCE REPORT

Information about the State Performance Plan (SPP) / Annual Performance Report (APR) and requirements related to the SPP/APR can be found on the TEA website at:

<http://www.tea.state.tx.us/index2.aspx?id=2147497591>

About the SPP / APR

The Individuals with Disabilities Education Act of 2004 (IDEA 2004), requires each state to develop a six-year performance plan. This State Performance Plan (SPP) evaluates the State's efforts to implement the requirements and purposes of IDEA and illustrates how the State will continuously improve upon this implementation.

Fact Sheet on State Performance Plan

In alignment with IDEA 2004, the US Department of Education Office of Special Education Programs (OSEP) has identified five monitoring priorities within the SPP: (1) Free Appropriate Public Education in the Least Restrictive Environment; (2) Disproportionality; (3) Child Find; (4) Effective Transition; and (5) General Supervision. The RDA system uses these areas in the SPP to collect data and monitor school performance.

Monitoring Priority: Free Appropriate Public Education in the Least Restrictive Environment

- Graduation (Indicator 1)
- Dropout (Indicator 2)
- Participation and Performance on Statewide Assessment (Indicator 3A-C)
- Suspension/Expulsion (Indicator 4A-C)
- Educational Environment, Ages 6-21 (Indicator 5A-C)
- Educational Environment, Ages 3-5 (Indicator 6A-B)
- Early Childhood Outcomes (Indicator 7A-C)
- Parent Participation (Indicator 8)

Monitoring Priority: Disproportionality

- Disproportionality in the special education program (Indicator 9)
- Disproportionality by specific disability (Indicator 10)

Monitoring Priority: Effective General Supervision Part B/Child Find

- Child Find (Indicator 11)

Monitoring Priority: Effective General Supervision Part B/Effective Transition

- Early Childhood Transition (Indicator 12)
- Secondary Transition (Indicator 13)
- Post-School Outcomes (Indicator 14A-C)

Monitoring Priority: Effective General Supervision Part B/General Supervision

- Resolution Sessions (Indicator 15)
- Mediation (Indicator 16)
- State Systemic Improvement Plan (SSIP) (Indicator 17)

The Texas Education Agency (TEA) and the Federal Office of Special Education Programs (OSEP) have requirements to monitor, provide technical assistance and enforcement, see Section XIV on the following pages. Continuous Improvement Plans in the Bell County CoOp will use data analysis and focus on the indicators from the SPP, etc. when data show "needs improvement".

Indicator 13 Secondary Transition Percent of youth aged 16 and above with an IEP that includes coordinated, measurable, annual IEP goals and transition services that will reasonably enable the student to meet the post-secondary goals. *In preparation for Indicator 14, the Bell County CoOp will gather data from exiting special education seniors during their twelfth grade year. Data gathered will include but not be limited to: DADS and*

DARS Intake, Testing, IPE date(Individual Plan for Employability), Refused services date, Comments, Counselor Name/phone number.

Indicator 14 Post-School Outcomes Percent of youth who had IEPs, are no longer in secondary school and who have been competitively employed, enrolled in some type of postsecondary school, or both, within one year of leaving high school. *The Bell County CoOp will annually complete a One Year Follow-up by phone to the last known number. Documentation will include tracking the following information:*

Student is: Working pt time paid (up to 29 hours), working full time paid (30 hours +), attending vocational/technical school, 2 year community college, 4 year college, in the military, enrolled in GED, receiving employment related training, supported employment, connected with DARS, connected with DADS, refused to provide information, unable to locate, other.

XII. EMPLOY AND ADVANCE QUALIFIED INDIVIDUALS WITH DISABILITIES

§300.177 States' sovereign immunity and positive efforts to employ and advance qualified individuals with disabilities.

(a) States' sovereign immunity.

- (1) A State that accepts funds under this part waives its immunity under the 11th amendment of the Constitution of the United States from suit in Federal court for a violation of this part.
- (2) In a suit against a State for a violation of this part, remedies (including remedies both at law and in equity) are available for such a violation in the suit against any public entity other than a State.
- (3) Paragraphs (a)(1) and (a)(2) of this section apply with respect to violations that occur in whole or part after the date of enactment of the Education of the Handicapped Act Amendments of 1990.

(b) Positive efforts to employ and advance qualified individuals with disabilities. Each recipient of assistance under Part B of the Act must make positive efforts to employ, and advance in employment, qualified individuals with disabilities in programs assisted under Part B of the Act.

The Special Education Department (including High School VAC's) in Bell County CoOp will work in cooperation with the Personnel Office and Administration to carefully review job openings within the district. Consideration will be given to any qualified individual with disabilities to advance in employment. Examples of positive efforts may include providing employment vacancy information to organizations for persons with disabilities and conducting job fairs for persons with disabilities.

TEC §531.02447. Employment-First Policy (SB 1226)

- (a) It is the policy of the state that earning a living wage through competitive employment in the general workforce is the priority and preferred outcome for working-age individuals with disabilities who receive public benefits.
- (b) The commission, the Texas Education Agency, and the Texas Workforce Commission shall jointly adopt and implement an employment-first policy in accordance with the state's policy under Subsection (a). The policy must:
 - (1) affirm that an individual with a disability is able to meet the same employment standards as an individual who does not have a disability;
 - (2) ensure that all working-age individuals with disabilities, including young adults, are offered factual information regarding employment as an individual with a disability, including the relationship between an individual's earned income and the individual's public benefits;
 - (3) ensure that individuals with disabilities are given the opportunity to understand and explore options for education or training, including postsecondary, graduate, and postgraduate education, vocational or technical training, or other training, as pathways to employment;
 - (4) promote the availability and accessibility of individualized training designed to prepare an individual with a disability for the individual's preferred employment;
 - (5) promote partnerships with employers to overcome barriers to meeting workforce needs with the creative use of technology and innovation;
 - (6) ensure that the staff of public schools, vocational service programs, and community providers are trained and supported to assist in achieving the goal of competitive employment for all individuals with disabilities; and
 - (7) ensure that competitive employment, while being the priority and preferred outcome, is not required of an individual with a disability to secure or maintain public benefits for which the individual is otherwise eligible.

TEC §531.02448. Employment-First Task Force.

- (a) The executive commissioner shall establish an interagency employment-first task force, or may use an existing committee or task force, to promote competitive employment of individuals with disabilities and the expectation that individuals with disabilities are able to meet the same employment standards, responsibilities, and expectations as any other working-age adult.
- (b)....

XIII. DEPARTMENTAL BUDGET PROCESS

A. Roles and Responsibilities

1. Written budget management job responsibilities for the special education budget clerk, secretaries, coordinators and supervisors are on file and provided annually.
2. Budget details are reviewed on a regularly scheduled monthly basis. The director maintains oversight and final authority role in all budget decisions. Budget management is not delegated to the budget clerk.
3. Timelines are coordinated with the district budget office to ensure that reports reviewed by the special education department contain the most current expenditures (i.e., schedule around monthly postings/disbursements).
4. Work is done directly with the district budget office to correct coding errors. Funding allotments for unfilled positions (i.e., 1/12th per month) are reduced or moved. Review independent consultant contracts to ensure full implementation. If full implementation is not occurring, transfer funds to another line item.

Decentralized :

- Our district is large enough that decentralized budget management is practiced (meaning the delegation of program specific budget management and decision-making authority to special education coordinators or supervisors). The Job Description for coordinators/ supervisors include budget responsibilities as needed.
- Components that need to be decentralized consist of program specific independent contract management, materials, and staff development and travel.
- Time is scheduled at least once monthly during established department leadership team meetings to discuss all components of the decentralized budget.

B. Budget Notebooks

A separate budget notebook is maintained for each fiscal year. NOTE: For a Shared Service Arrangement include divisions for each member district. Department budget notebooks will be maintained for at least **five** years for reference in determining trends over time, salary increases, the funding balance between federal and local funds and high impact issues.

C. System Components

1. Review data:
 - i. Travel: District and out of district expenses (total, total by staff member, etc.)
 - ii. Staff Development: Training requests by type, person requesting, number of days, cost; local training based on short/long range plan.
 - iii. Independent Consultants: Type, number of days, total cost per year.
 - iv. Instructional Materials: Type of request, verification of Scientifically based Research (SBR)
 - v. Private Schools: IDEA 2004 requires that the Bell County CoOp maintain records and provide information to the state education agency (SEA).
 - a. Number determined to be children with disabilities
 - b. Number of children served
 - c. Type of consultation between LEA and private school
 - d. Proportionate share amount, expenditures and roll forward amount
 - e. List of representatives of private schools (maintain on file at the LEA level)
 - vi. High Cost Funds (HCF) formerly know as Rider 55: Establish a list of students whose direct special education and related services costs will exceed \$25,000 per school year. The ARD Schedule of Services page is used as a reference (i.e., salary for personnel hired to directly work with the student; related services costs; etc.).
 - a. Deaf education interpreter: Consulting fees, round trip mileage to Nonpublic Day School.
 - b. Bus monitor hired specifically to supervise student (hours per day)
 - c. Nonpublic Day School Tuition (monthly costs including summer programs)
 - d. Assistive Technology costs for equipment purchased for this student.

Enter costs throughout the school year so that the district can apply for and receive benefit from funds to support the excess costs of providing special education and related services to high need students.

- 2. Time and Effort Reports: Personnel funded 100% with IDEA-B Formula or IDEA-B Preschool Funds will submit verification form twice annually. Split-funded personnel must file monthly time and effort reports.
- 3. Materials Requisition and Capital Outlay: Departmental materials requisition forms are used and submission timelines shared with staff are followed. Capital outlay purchases are planned using short and long range planning as appropriate.
- 4. Noneducational Community-Based Support Services
- 5. Nonpublic Day School Programs – maintain and review if required
- 6. Residential Applications – complete if required
- 7. Other Unique Situations
 - i. Site Based-Decision Making: Principals make special education teaching position decisions at the campus level with or without input from the director.
 - ii. Special Education Teaching/Coaching Positions.

D. Budget Adjustments and Amendments

- 1. Effective budget management requires on-going budget adjustments to make the budget work for identified departmental needs and goals. An established monthly review process will enable directors to move money from unfilled salary positions, travel, etc. to areas of need and will lead to efficiency in spending the budget/reducing excessive roll forward amounts. Transfers between direct cost categories (class/objects) may be made without amending the budget as long as the cumulative amount of the transfers does not exceed 25% of the total approved budget.
- 2. Budget amendments must be submitted when:
 - a. the additional unbudgeted funds are received (i.e., High Cost Funds (Rider 55), roll forward, funding to maximum entitlement) and/or
 - b. cumulative transfers between major expenditure objects (e.g., class/object codes 6100, 6200, 6300, etc.) exceed the 25% allowable amount.
- 3. Completed the following prior to February of each school year and before submission of the funding to full entitlement amendment:
 - a. Residential Set Aside: Decrease this amount by 50% if the district does not have any students in a residential placement.
 - b. Vacant or Unfilled Positions: Reduce funding for all open positions by at least 50% and address the budget changes on the eGrant Amendment #2.
 - c. Capital Outlay: Increase or decrease based on plan implementation, make changes on the eGrant Amendment #2.
- 4. Roll forward and lapsed funds: Careful planning and monthly review will avoid need to quickly spend large amounts of funds at the end of a program simply to lower the account balances.

E. Maintenance of Effort

Local education agencies (LEA) must comply with IDEA 2004 Maintenance of Effort requirements found at 34 CFR §300.162-163 and §§300.203-205. This means that an LEA must ensure that IDEA Part B funds are not used to reduce the level of expenditure from state or local funds made by the LEA for the preceding fiscal year.

Monthly review of expenditure reports from federal and state/local budgets will help identify and correct costly coding errors that could lead to MOE problems. Review the Actual Expenditure by Program and Object within Function General Fund 199 records prior to the submission of the LEA Final Expenditure Report to TEA in July. Follow the format developed by Education Service Center VIII in collaboration with TEA to run specified reports and enter data on a spreadsheet that may be downloaded from the ESC VIII website. <http://www.reg8.net/default.aspx?name=sped.links> Identified problems can be corrected prior to submission of the final report by moving expenditures from federal budgets to state and local budgets. While this is not possible in some cases, the information is still critical in helping the LEA prevent the same mistake from occurring in the next fiscal year. The website also provides information for exceptions to the MOE requirement.

F. Budget Close-out

A budget calendar will include Bell County CoOp and/or special education department final timelines for purchase requisitions, vendor invoices, staff development registration fees and final end of year travel

reimbursements. Review the calendar at the beginning of the year as part of the normal back to school staff development process.

Annually review TEA timelines for budget close out changes. The federal fiscal year ends on June 30, local education agencies have 30 days after the end of the IDEA-B Formula, IDEA-B Preschool funds to liquidate all encumbrances (money obligated for a specific expenditure, such as technology or consulting). The final expenditure report is due to TEA 45 days after the end of the federal fiscal year (i.e., June 30). This means that existing department obligations (encumbrances) may be received by the Bell County CoOp during the 30 day period but no new obligations may be made during the 30 day period. New obligations need to wait approval of the new eGrant application. To avoid a lapse between funding cycles, submit the eGrant application early in June to allow time for approval by TEA and board approval, if required by local district policy.

The district budget office will complete or work with the special education department to prepare the final expenditure report. Budget management involving monthly review of expenditure reports should make this a seamless and effortless process.

The district will continuously review eligibility requirements for current grants that may apply to providing services, professional development for staff and/or technology and supplies to support students with disabilities as well as those who have been identified as having dyslexia. The district will adhere to all state and federal grant guidelines.

XV. TEA CORRECTIVE ACTION PLAN

TEA CORRECTIVE ACTION PLAN

Below are listed the four Corrective Actions that are specific to the local education agency effective beginning 2018. Required numbers from the TEA Corrective Action Plan submitted to OSEP include: 1b, 2a, 2c, and 3c.

Corrective Action 1.b. TEA must ensure that LEAs annually confirm that their local special education policies and practices are in compliance with federal and state requirements.

- LEAs will be required to submit assurances as part of the process for obtaining their IDEA formula and discretionary funds. These assurances will clearly convey that the LEA's special education policies, procedures, and programs are consistent with state and federal special education.
- The Legal Framework for the Child-Centered Special Education Process produced by ESC Region 18, through a grant from TEA, has multiple resources available to assist LEAs that would like to review their local special education policies before submitting these assurances. LEAs may find the Timeline Decision Tree particularly useful when reviewing their child find and evaluation process.
- To be completed Summer 2018 through eGrants.

Corrective Action 2.a. TEA must ensure that LEAs annually distribute information to every enrolled student's family regarding the following:

- Child find and FAPE requirements under IDEA
 - Parent and students' rights under IDEA
 - Contact information necessary to request an initial evaluation for a student they suspect of having a disability
- LEA's must review the revised Student Handbook Statement and assure that they have provided this revised information to the families of each student in the LEA by including the information in the student handbook or by another means as required in the Texas Education Code. This is to be completed by November 1, 2018.

Corrective Action 2.c. The Bell County CoOp will collect and retain requests for evaluation data that includes:

- The reason for the request.
- Whether additional services are needed.
- Including the timeline for implementation.

Data required to be collected include the:

- Total number of requests for evaluation made during the 2018-19 school year by either a parent or a public agency beginning on July 1, 2018 through June 30, 2019.
- Total number of requests made in which the reason for the request indicates a claim that the child should have been referred for an initial evaluation prior to the 2018-19 school year.

Data required to be collected include the:

- Total number of children found eligible and the Admission Review and Dismissal (ARD) committee determines additional services are needed, taking into consideration supports and services previously provided..
- Subtotal number for types of services to include four (4) categories for reporting; related services, supplementary aids and services, program modification, and supports for personnel (students may count in multiple categories if identified in the IEP).
- Subtotal number for timelines for implementation to include two (2) categories for reporting; up to six (6) months, or more than six (6) months up to one (1) year (students may count in multiple categories if counted in multiple types of services described here).

Corrective Action 3.c. TEA must ensure that the Bell County CoOp share resources with the parents of children suspected of having a disability that describes the differences between response to intervention (RtI), the state dyslexia program (for dyslexia or dyslexia-related needs), Section 504, and special education.

- TEA will provide Bell County CoOp with the resources described in this corrective action by September 1, 2018. Bell County CoOp is required to assure that they have shared the resources with the families of all children in the LEA suspected of having a disability. sped@tea.Texas.gov, 512.463.9414.

(Extracted from Section 1, I of the OPOs)

Prior to Initial Referrals to Special Education

Prior to a referral to special education, students experiencing difficulties progressing in the general curriculum should be considered for all support services and intervention programs available to all students in the district, including tutoring, RTI/MTSS programs, and remedial or compensatory programs. Implementation of any intervention program cannot serve to delay or deny referral, evaluation, and eligibility determinations under the IDEA when students are suspected of having a disability and a need for special education services. The Special Education Director will work with the campus Principals to train staff on Child Find procedures and duties including how to address and document any parent requests for evaluation. Students who have received tiered interventions through the campus MTSS Committee will have documentation of those interventions on required district forms provided to the Bell County CoOp in a referral packet. Procedures will be reviewed annually at the beginning of each school year.

The support services and intervention program options to address the students' difficulties should be made in collaboration with parents, who should be notified of their right to request a special education referral at any time. If students continue to struggle with the general curriculum despite provision of interventions, the student should be referred for a special education evaluation within a reasonable timeframe, determined by the campus intervention committee based on each individual student, depending on the student's degree of response to interventions, the parents' input, and the degree of difficulty the student is experiencing in meeting mastery criteria on general curriculum. Implementation of any intervention program cannot serve to delay or deny referral, evaluation, and eligibility determinations under the IDEA when students are suspected of having a disability and a need for special education services. The Special Education Director will ensure the "Notice of Parent Right To Request Referral for Evaluation" is included in the districtwide student handbook provided to all parents. The districtwide student handbook including notice is provided annually. Specific Learning Disability is also found in Section 3 – Disability Criteria.

The district will provide the required notice in English and Spanish to each child who attends school in the district of their right to request an evaluation for special education. This notice will be included in each campus' student packet given to the parents of each enrolled student. Parents can request a referral at any time regardless of whether the student is receiving interventions through the MTSS Committee system. OSEP has advised that unless the district believes there is no reason to suspect that a child has a disability and is in need of special education services, an evaluation must be conducted within the applicable Federal/State existing timeline. If, however, the district does not suspect the child is a child with a disability and denies the request for an initial evaluation, the Bell County CoOp designee must: 1) provide written notice to parents explaining why the district declines to conduct an initial evaluation and the information that was used as the basis for that decision; 2) provide the parent with a copy of their procedural safeguards and be sure they are informed they can challenge this decision by requesting a due process hearing under 34 CFR §300.153 to resolve the dispute regarding the child's need for an

evaluation; and 3) Bell County CoOp Special Education Director will determine the designee responsible for providing this information to the parent. The Special Education Director will train campus Principals and diagnostician/LSSP/SLP annually on the proper procedures. Other campus personnel will be trained annually at a minimum on this Child Find procedure by the campus principal or designee.

TAC §74.28. Students with Dyslexia and Related Disorders.

Current TEA Dyslexia Handbook: <https://tea.texas.gov/academics/dyslexia/>

The district Dyslexia Department in conjunction with the Special Education Department will provide training to each campus Principal and staff on procedures related to services for students with dyslexia during August in-service and at a minimum of annually.

- The campus MTSS Committee will be responsible for reviewing referrals of students suspected of having characteristics of dyslexia.*
- Students in grades K-2 may have been identified through a dyslexia screening procedure provided to all students in those grades.*
- Referrals for consideration of dyslexia may be completed for any student in the district.*
- Parents of all students suspected of dyslexia will be notified by the Bell County CoOp designee in conjunction with the Campus Designee and provided information concerning the condition and possible options for providing services to the student which align with the TEA Dyslexia Handbook. The district dyslexia specialist will provide an annual parent education program that provides information to parents regarding the characteristics of dyslexia and related disorder; the testing and diagnosis process, effective research based interventions and strategies, eligibility criteria under IDEA and Section 504, and accommodations and modifications that can be effective and utilized in standardized testing. All parents will also be provided a copy of the current Dyslexia Handbook published by TEA and it will be documented.*
- Using the designated district-wide process, the family of all students suspected of dyslexia will be offered an opportunity by the district dyslexia designee for an evaluation for dyslexia and the parent will be notified of their right to request a Full and Individual Evaluation if so desired.*
- When it appears that the student may require a program of specially designed instruction, the family will be offered a full initial and individual evaluation for special education services following the special education referral procedures. This includes following all special education timelines and includes Notice and Consent.*

Screenings and assessments for dyslexia must be done by individuals who have been appropriately trained to identify dyslexia and related disorders. Teachers and evaluators who screen and/or evaluate for dyslexia and related disorders must also be trained in instructional strategies that utilize researched based interventions as identified in the Dyslexia Handbook published by the TEA. The district will provide information to the TEA annually regarding the number of student enrolled in the district who are identified as having dyslexia. Data will be gathered through the electronic data management system utilized by the district.

If the student is referred for an FIE under special education, The FIE will include information if the student has dyslexia and is a student with a Learning Disability. The ARD committee will meet to determine eligibility and need for special education and related services. The ARD committee will determine a need for goals and the Least Restrictive Environment for services if necessary. The district dyslexia designee will provide the parent education program, including all required components, annually. Documentation will be maintained by the district dyslexia designee.

Some families may decline a full initial and individual evaluation for a learning disability and may opt for evaluation under district Section 504 procedures instead. When it appears to the campus MTSS Committee, based on the request of the parent that no FIE be conducted, that the student will benefit from the standard dyslexia protocol, evaluation under Section 504 will be appropriate.

The Bell County CoOp/Troy ISD will use the MTSS Committee to consider all intervention services provided, all scientifically based reading or other programs used, any support services available to all students prior to referral for special education evaluation. Interventions such as tutorials, remedial support, compensatory support, and other services will be considered and documented in detail by the MTSS Committee prior to referral for special education evaluation.

Please note that parents have a right to request an evaluation at any time. When a disability is suspected, the appropriate referral process should be followed. Parents will also be given a copy of the Procedural Safeguards and information on how to appeal any decisions made through the Special Education Office.

Students meeting the age criteria above, suspected of having a disability, and residing within the Bell County CoOp can be referred for special education evaluation. Students suspected of having a disability attending a private, nonpublic school within the boundaries of Bell County CoOp may also obtain an evaluation for special education services. The district MTSS Committee, teacher, parent, doctor or other invested person with educational concerns may refer a student for a suspected disability and need for special education services. District forms are used for all documentation.

Enrolled Students (MTSS Committee):

Any enrolled student experiencing a lack of educational progress will be addressed by the general education intervention services provided as a part of the campus MTSS Committee process that is the responsibility of the campus principal. This local campus committee will monitor and determine student progress individually, track student progress on district forms and may refer for special education evaluation. At such time as the local campus committee determines a referral for special education evaluation is needed, the special education referral process begins. The district designee will complete the specific referral forms that are provided in the Bell County CoOp's Special Education computer system.

Enrolled Students (Parent/ Other Request):

Parents can request a referral at any time regardless of whether the student is receiving interventions through the MTSS Committee system. Unless the district believes there is no reason to suspect that a child has a disability and is in need of special education services, an evaluation must be conducted within the applicable Federal/State timeline found in Section 1 of these Operating Procedures.

- 1. If a parent contacts campus personnel verbally requesting a referral for special education evaluation, that campus person will immediately contact the local campus diagnostician/LSSP, principal, or Bell County CoOp who will reconnect with the parent and request a meeting.*
- 2. The parent will be offered the opportunity to meet with the local campus diagnostician/LSSP, or principal to discuss concerns regarding the student. The designee may also explain other options, 504 evaluation or the MTSS Committee process depending on student needs and parent request.*

The campus designee will proceed with gathering existing information. The designee will meet with the MTSS Committee to review all data and determine if the student data warrants moving forward with an evaluation for special education. The suspected disability must be interfering with the student's educational progress. If the MTSS Committee agrees the evaluation is needed, the committee will follow the district referral procedures. All state timelines will be followed.

If the MTSS Committee determines the evaluation is not warranted follow (b) (1), (2), & (3) below

If the parent wishes to proceed with a written request for a full and individual initial evaluation, the parent must provide the written request to the campus designee. The campus assessment specialist will then follow district procedures regarding Notice and Consent for Evaluation.

- (a) the special education department and campus designee will, not later than the 15th school day after the date the district receives the written request either continue the referral process providing and completing all required district forms including Notice/Consent (all TEA timelines for FIE and ARD apply); OR
- (b) If the district does not suspect the child is a child with a disability and denies the request for an initial evaluation, the Diagnostician or LSSP must
 - (1) provide prior written notice to parents explaining why the district declines to conduct an initial evaluation and the information that was used as the basis for that decision;
 - (2) provide the parent with a copy of their procedural safeguards. The district must ensure that parents are informed of their right to challenge this decision by requesting a due process hearing under 34 CFR §300.153.; and
 - (3) campus principals and Special Education Director will determine the designee responsible for providing the required information to the parent but most times it will be the Diagnostician or the LSSP.

The Special Education Director will train campus Principals, and the diagnostician/LSSP annually on the proper procedures. Other appropriate campus personnel will be trained annually on this Child Find procedure by the Special Education Department. All MTSS Committee documentation will be maintained in the student's campus folder. All special education required notifications, consents and documentation will be maintained with the student's special education eligibility information at the Bell County CoOp.

(See Disability Criteria Section 3 for: TAC § 89.1040. Eligibility Criteria)

(Extracted from Section 1, VI(A) of the OPOs)

Referral Packet:

- 1. When the Bell County CoOp MTSS Committee determines a referral for special education evaluation is needed, a Referral Packet will be used at each campus.*
- 2. The Referral Packet includes (but is not limited to) required district forms located within our district IEP computerized system, for example: Parental Receipt of Procedural Safeguards, Parent Information Form, etc.. Also provided is the TEA publication "A Guide to the Admission, Review and Dismissal Process".*
- 3. The Bell County CoOp diagnostician/LSSP completes the sections documenting Bell County CoOp activities and all existing data for the Referral Packet. The Bell County CoOp diagnostician/LSSP is responsible for meeting with the parent, providing the explanation of Procedural Safeguards, Notice of Evaluation and for obtaining written Consent for the Evaluation.*
- 4. The Bell County CoOp diagnostician/LSSP submits the completed packet to the Director at the Bell County CoOp noting the important timeline date (the day that the written "Consent for Evaluation" form is received by the school). This date begins the time line for the evaluation process. The Bell County CoOp Clerk and the Special Education Director mark on the Referral packet, in a notebook for referrals, (or in the special education electronic system): the date the signed Parent Consent for Evaluation is received by the school and the date the FIE is due. (following the state regulations for the timeline for evaluation)*
- 5. The Bell County CoOp staff notify district evaluation personnel and the diagnostician/LSSP determine the evaluations needed. The Bell County CoOp staff contact appropriate special education personnel to assist and/or conduct the evaluation (for example if the student is suspected to be a student who is deaf or hard of hearing, suspected of having a visual impairment (VI), or to be bilingual, etc. special evaluation personnel may be needed).*
- 6. The evaluation personnel will conduct the evaluation and completes the written report for the Full and Individual Evaluation (FIE).*
- 7. The appropriate campus personnel who send the Notice of ARD Meeting are notified when the report is completed in order to schedule the ARD/IEP meeting.*

(Extracted from Section 1, VII of the OPOs)

Students Referred For Adapted P.E.

1. All students referred for adapted physical education evaluation must have an identified disability.
 - A. The request for an adapted physical education evaluation must be made by the MTSS Committee upon initial referral or by the student's ARD/IEP committee.
 - B. The evaluation person will monitor the referral and forward the request for APE screening/evaluation to the appropriate person.
2. A written report from the adapted physical education evaluation personnel will be made available for ARD/IEP committee consideration and action including PLAAFP and IEP goal drafts.

(For more information see also FIE Section 2 and ARD/IEP Section 4)

Students Referred For AT

1. Requests for AT evaluation will come through the Full Initial and Individual Evaluation or the ARD/IEP Committee.
2. The ARD/IEP Committee may recommend additional evaluation by the technology assistance team. The technology assistance team may include any of the following professionals: Occupational Therapist, Physical Therapist, Speech Pathologist, Diagnostician, Vision Teacher, others as needed.
3. If the assistive technology team is requested for an evaluation, the team member(s) will conduct trials to determine what works with the student and then make written recommendations in an evaluation report for assistive technology services or devices including specific modifications which are needed to implement the student's individual education plan. The ARD/IEP Committee will then consider the recommendations.
4. Recommendations for assistive technology for all students from the ARD/IEP Committee meetings will be logged and tracked by the AT designee to assure follow up occurs in ordering of material, any training required, etc.

Students Referred For ADHD

If the general education staff has concerns and documented evidence of student behaviors, that documentation will be provided to the evaluation staff in the referral paperwork. The special education evaluation staff will proceed with proper documentation and any eligibility determination.

Evaluation staff will:

1. Discuss the educational needs with the parent and find out what instructional strategies have been implement to help with behavior.
2. Discuss other information or factors occurring in the home
3. Send an OHI Disability Report for the physician to fill out with parental consent.

The evaluation team, (diagnostician/LSSP, administrator, parent, teachers), will meet as part of the evaluation process to review existing data, determine appropriate measures, conduct the evaluation and determine whether a student meets criteria as a student with a disability. If the student data indicates a possibility of ADD/ADHD, the team may recommend that the Other Health Impairment (OHI) eligibility be pursued.

The Special Education evaluation staff is responsible for coordinating any disability determination.

If OHI eligibility is pursued:

1. The disability forms must be completed by a licensed physician , (MD or DO per TAC 89.1040(c)(8))
2. The medical forms are for diagnosis/eligibility only--we do NOT pursue medication
3. If the parent has a doctor who knows the child and is willing, (knowledgeable), to fill out forms, that avenue may be pursued
4. The medical doctor is just one member of the multidisciplinary team and it is all still an ARD committee decision

Caution: Remember that a student may be diagnosed by a physician as having ADD or ADHD but the student may not necessarily have an educational need for special education services. Some students' needs may be addressed by the local

campus Section 504 committee or classroom strategies. If you have any questions, please review with your Bell County CoOp campus personnel or call the Bell County CoOp special education office.

Students Referred For Homebound Instruction

Homebound instruction is a service that could be provided through General Education Homebound (GEH) services or Special Education Homebound services; depending which eligibility criteria the student meets. If the student is suspected of having a disability, a referral should be made for a special education evaluation through the established referral procedures. When determining services needed by a student, homebound services may only be considered under the following conditions:

1. The student is expected to be confined at home or hospital bedside for a minimum of four weeks;
2. The student must be confined for medical reasons only;
3. The medical condition is documented by a physician licensed to practice in the United States. Student Attendance Accounting Manual-Section III (4-21)

Students may not be placed on Homebound services through either program solely for disciplinary reasons. If a student is in need of homebound services due to pregnancy and does not meet the eligibility requirements for special education, services will be provided through the General Education Homebound program. If the student is pregnant and in need of homebound services and also meets the requirements for special education, the ARD committee will meet to determine the level of services and supports needed for that particular student.

Special Education Homebound - The student has already been determined to be a student with a disability and the student is receiving special education services.

Parent Responsibilities:

1. Contact the campus principal/district diagnostician
2. Share new medical information

School Responsibility:

1. Obtain parent information and the Physician's Report upon receiving consent from parent for medical information. The report states the medical reason for homebound confinement and the amount of time suggested by the physician
2. Schedule an ARD/IEP meeting to discuss the student's educational needs

(see also Instructional Arrangement Section 5)

Students Referred Who Are Limited English Proficient (ELL)

Resources

(See also Home Language Survey and LPAC in this Referral Section). Additional LPAC guidance on TEA website.

<https://www.txel.org/lpac/>

<http://tea.texas.gov/student.assessment/ell/lpac/>

Students Referred Who Are Limited English Proficient (ELL)

1. For all LEP (Limited English Proficient) Students:

- A. The LPAC report, which must have been completed within the past year, must be included with the referral packet. The student should have been tested in English and their primary language.
- B. Referral information will include: Initial referral information, LPAC report, LAS scores or equivalent test, amount of time in ESL, Home Language Survey copy.
- C. When the packet is verified, the diagnostician gives the packet to the Bell County CoOp Coordinator.

2. Speech only referral: (for these guidelines, Spanish is referenced as the other language)

- A. (LANGUAGE) The language proficiency assessment (ex. LAS, IDEA, other) should be considered with regard to the following:
 - i. If the student is proficient in English and has a lower proficiency in Spanish, the normal procedures for the speech pathologist evaluations are followed.
 - ii. If the student is proficient in Spanish and not in English, the speech pathologist will confer with the second language specialist and determine if an evaluation in Spanish (or other language) is

- needed. The second language specialist and speech pathologist will collaboratively complete the evaluation and write the evaluation report.*
- iii. If the student is barely proficient in both languages, the second language specialist and speech pathologist will gather all information regarding the student's educational history and performance and consult with the special education administrator before proceeding with the FIE.*
 - iv. If the student is proficient in both languages, normal procedures in English may be followed.*
- B. (ARTICULATION) The articulation evaluation should be considered with regard to how the student articulates sounds in English as well as the student's native language.*

3. Other Referrals (LD, ID, etc.):

- A. The language evaluation (ex. LAS, IDEA) should be considered with regard to the following:*
- i. If the student is proficient in English and lower in Spanish, the usual procedures for testing are followed.*
 - ii. If the student is proficient in Spanish and not in English, the diagnostician/LSSP will confer with the second language specialist and determine if an evaluation in the student's native language is needed. The second language specialist and the diagnostician/LSSP will collaboratively determine the appropriate evaluation procedures and instruments and write the full and individual evaluation report (FIE) and proceed to ARD.*
 - iii. If the student is barely proficient in both languages, the second language specialist and the diagnostician/LSSP will gather all the information regarding the student's educational history and performance and consult with the Special Education Coordinator or Director before proceeding with the FIE.*
 - iv. If the student is above proficient in both languages, normal procedures in English may be followed.*
- B. Consideration should be given to the following:*
- i. How long the student has been in the country;*
 - ii. Whether or not the student was enrolled and attending school prior to entering the United States;*
 - iii. What types of bilingual supports and services have been provided;*
 - iv. What type of academic progress the student is making in their home language as well as their progress in English.*

Students Referred for Occupational Therapy, Physical Therapy, or any Related Service

- A child must be identified as a student with a disability in order to receive OT, PT or any related service. If a child who is eligible for special education services is in need of a related service, the request for these services must be reviewed by the ARD committee and based on a current evaluation completed by the related service provider or a team of evaluators qualified to determine the need for the service.*
- Occupational and/or physical therapy services are provided to students whose disability, as determined through evaluation, interferes with their ability to benefit from educational programming.*
- Occupational therapy services include the evaluation, consultation, and/or direct services to individuals whose ability to cope with the tasks of living and learning is threatened or impaired by developmental deficits, environmental or sensory deprivation, physical injury, illness, or psychological disability.*
- Physical therapy is the art and science of evaluation, program planning, and implementation of physical or corrective conditions resulting from birth, illness, or injury. Physical therapy includes therapeutic exercise programs designed to develop or restore neuromuscular and / or sensorimotor function, relieve pain, control postural deviations, minimize disabilities, and maintain maximal performance levels within the individual's capabilities. If the child qualifies for therapy, the OT or PT will work with the diagnostician/LSSP to obtain the needed medical prescriptions per the therapist licensing requirements.*
- The diagnostician/LSSP is the designated person to monitor the referrals or request for related services. A REED will be scheduled to determine the need for the related service evaluations. If the committee agrees that an evaluation is needed, the diagnostician/LSSP will contact the related service provider and determine who will obtain the required notice and consent documents from the parents.*
- The Special Education evaluation staff is responsible for collecting all evaluation information in order to provide recommendations to the ARD committee regarding the existence of a disability according to state and federal regulations and that the student is in need of specially designed instruction. The ARD committee is also responsible for determining all supports and services the student may need, including the provision or any related service.*

(Extracted From Section 1, VII, (D) (H) of the OPOs)

ECI is a coordinated system of services available in every county within Texas for children birth to age three with disabilities or delays. ECI is funded through the federal Individuals with Disabilities Education Act (IDEA, Part C), P.L. 105-17 and through state appropriations. ECI supports families to help children reach potential through developmental services. ECI contracts with local agencies and organizations through a funding application process.

ECI staff may include physical therapists, occupational therapists, speech and language therapists, audiologists, educators, social workers, nurses, dietitians, psychologists, licensed professional counselors, and early intervention specialists. ECI programs must follow the Texas Early Childhood Intervention Policy Manual.

The local ECI programs must identify, locate, and screen or evaluate all infants and toddlers, birth through two years of age, who have or are suspected of having developmental delays.

Before notifying the appropriate LEA that a child is potentially eligible for Part B services, the ECI program provides written notification to the child's parent advising the parent of:

a. The information that will be disclosed, including the limited personally identifiable information (child's name, child's date of birth, parent's name, address, and telephone number), the service coordinator's name, and the child's home language; and

b. The right to opt out of the disclosure by submitting a written request to Opt Out of the Notification to the ECI program (CFR) §303.209 and the timelines specified in the 40 TAC, Chapter 108 before the notification is scheduled to be sent;

For a child whose parent has not opted out of the disclosure within the prescribed timeline, the ECI program notifies the LEA at least 90 days before the child's third birthday that the child is potentially eligible for Part B services; An IEP is developed and implemented for Part B eligible children by their third birthday; The ARD committee determines the start date of the IEP if the child's birthday occurs during the summer. Services will begin by the first day of school, or earlier as determined and stated on the IEP; and For children transitioning from Part C services to Part B services, the ARD committee considers an IFSP that contains the IFSP content including the natural environments statement, described in 34 CFR §303.344, and that is developed in accordance with the IEP procedures under 34 CFR §300.323(b) when developing the initial IEP.

The Bell County CoOp will transition students from ECI to ECSE as required. Parents are provided a document from the ECI staff that describes the process.

- The Bell County CoOp maintains a local policy included in Procedures that includes requirements to ensure that a student transitioning from ECI has an IFSP adopted and/or an IEP developed and implemented by the child's third birthday 34 CFR §300.124(b) and §300.123(b)

(see also section 5 of the operating procedures)

(IFSP)

Transition from ECI.

The transition meeting between the agency, parents and school is the cornerstone of the transition process. At the discretion of all parties, it can take place not more than 9 months prior to the third birthday but not less than 90 days before the child is eligible for the preschool services, to discuss any such services that the child may receive. The meeting provides an opportunity for the family, ECI and Bell County CoOp staff to make plans regarding the transition process. The transition meeting is an opportunity to explain eligibility criteria, service options, and the ARD/IEP process. The referral to the Bell County CoOp may be made before the transition meeting, during the transition meeting or after the transition meeting. Additional information is provided to parents/guardians regarding:

- The importance of explaining to the family that a delay in providing consent for Bell County CoOp involvement during the transition process may impede the implementation of timely, appropriate special education services for eligible children.*
- The need for collaborative involvement of the family, ECI, and Bell County CoOp staff. This ensures a more efficient and timely process of eligibility determination for Bell County CoOp special education services.*
- Information on the age eligibility criteria as it relates to when service may begin. Interagency collaboration is especially critical when the child turns three between the months of May and September. Generally, children turning three late in the school year should begin school services when they turn three. In some instances, the ARD/IEP committee, including the family, may decide that IEP services will begin at the start of the upcoming school year.*
- If a child turns three during the summer, the ARD/IEP committee, which includes the family, may recommend services for the student to begin at the start of the school year or due to the individual needs of the student the ARD/IEP committee may decide to begin to implement the IEP through ESY services. (Note: The instructional setting code for the initial ESY services should be the same as the instructional setting code for services implemented at the beginning of the fall session.) The need for ESY services must be documented from formal and /or informal evaluations provided by the Bell County CoOp , the parents, another agency or an ECI program.*

The Bell County CoOp and the ECI program will work closely to ensure that the IEP is in place for eligible children on their third birthday when a child is referred for services close to his/her third birthday.

ECI REFERRAL PROCEDURES

1. Referral from ECI (Early Childhood Intervention) Programs (all decisions will occur collaboratively between ECI staff, school staff, and the parents)

- A. Bell County CoOp will complete the child centered process including a Playbase or other needed evaluations where needed and the ARD/IEP process. Review of existing evaluation data, all time lines and referral requirements will be followed.*
 - i. When invited by the ECI service provider, the Bell County CoOp representative will attend a face to face meeting held up to 9 months prior to the eligible child's third birthday*
 - ii. a referral should be made to Bell County CoOp approximately 90 days prior to the student's third birthday.*
 - iii. To avoid a gap in services and to assure a smooth effective transition to the preschool program, Bell County CoOp will accept appropriate evaluations from an infant program serving children with disabilities.*
 - iv. Bell County CoOp will complete the referral, evaluation, and ARD/IEP process within the required time-lines.*
 - v. Eligible preschool children will receive the necessary services as determined by the ARD/IEP committee beginning on their third birthday.*
- B. The ARD/IEP committee will determine eligibility, educational need and develop an IEP to determine placement.*
- C. Services to auditory or visual impairments birth through 2 are coordinated with ECI service providers in the development of the Individual Family Service Plan (IFSP) instead of an ARD/IEP.*
 - i. The Bell County CoOp will document services were coordinated (including copies of progress reports), and*
 - ii. The Bell County CoOp has the capacity to provide services to the student throughout the year.(48 weeks)*

- iii. *Services are provided only under IDEA-C guidelines, not IDEA-B. Typical procedures followed such as: distributing Notice of Procedural Safeguards, completing the Part B referral packets, obtaining consents, and completing full and individual evaluations may not be followed. This would conflict with Part C, and cause parent confusion and may place undue hardship on parents.*
- 2. *Referral by Parents / Guardians / Others (children not previously served in ECI):*
 - A. *For children with suspected developmental delays birth through 2 years of age, the Bell County CoOp will maintain logs that document:*
 - i. *within 2 working days from the date that a "Child Find" referral is received it is forwarded to an ECI program, (the Bell County CoOp will collaborate with the ECI program and determine appropriate steps based on the student age and needs), or*
 - ii. *the Bell County CoOp will follow up with the ECI program to assure evaluation is completed within 45 calendar days from the date the referral is received,*
 - iii. *the ARD/IEP committee will determine eligibility, educational need and develop an IEP to determine placement prior to the third birthday.*
 - B. *For children referred prior to age 3, but less than the 90 days prior to their 3rd birthday, the Bell County CoOp will complete the referral and evaluation process in a timely manner following the required referral timelines.*
 - C. *For children referred for services after their 3rd birthday, the normal referral process will be followed. The Bell County CoOp may screen and use existing evaluation data to determine if the child will meet eligibility criteria. An ARD/IEP committee may temporarily place the child pending the 90 day timeline for referral, evaluation, and ARD/IEP completion.*
- 3. *Services: For eligible students 3 years of age and older, the Bell County CoOp will develop an IEP. If a student's 3rd birthday occurs during summer, the IEP team will determine the date services under the IEP will begin.*

Transfers/New to the District

When a student enrolls on a campus during the summer and a school employee (clerk, teacher, administrator, etc) is informed the student is receiving special education services in the previous district the Bell County CoOp will be notified as soon as possible. If the student enrolls during the summer from a district in or out of the state, the student will not be considered a transfer student. The staff will attempt to obtain all documentation of the IEP prior to the start of the school year and that IEP, if current will be implemented on the first day of school unless the district conducts an ARD committee meeting to revise the IEP. When a student enrolls on a campus during the

school year and a school employee (clerk, teacher, administrator, etc) is informed the student is receiving special education services in the previous district

- The individual receiving the information will notify the special education staff on the campus and the Bell County CoOp.
- The Bell County CoOp staff will verify the student received services by: a) phone call with previous district; b) IEP provided by parent; c) Review of current FIE.

The special education staff will also:

- Attempt to obtain a Consent for Disclosure of Confidential Information.
- Mail or fax signed consent to the previous district as soon as possible. Parent consent when requesting records from another Texas school district is not required but should be attempted.
- Schedule a meeting the day of enrollment or day after the student's enrollment (if at all possible) with the parent and fill out a schedule based on parent knowledge of the services a student was getting in the previous district. Services will be provided which are as close as possible to the services in the previous district until such time as the district can gather more data / information.
- In determining comparable services consider the following: amount of special education service minutes, amount of time in general education, IEP goals and any other factors in the IEP which will support this decision.
- Contact the campus lead diagnostician as soon as possible for a consultation. If the student has ADHD, ED, or AU, consult with an LSSP to determine if the evaluation meets federal and state legal requirements.
- If changes need to be made to any paperwork obtained from the previous district or the evaluation date is or will be up soon, the diagnostician/LSSP will schedule a ARD meeting to discuss any changes.

A temporary placement ARD committee will determine needed evaluation data and the evaluation will be completed within 30 school days from the temporary placement ARD date. The ARD Committee determines that the IEP objectives of the student can be met on the home campus and agrees on temporary placement for 30 school days. If an evaluation is pending in the previous district, coordination will occur to ensure timely completion.

If the Temporary ARD Committee determines that the IEP objectives of the student cannot be met on the home campus and the student will need placement on a different campus, the student will temporarily continue to receive services on the home campus. The campus special education staff will contact the Bell County CoOp. An ARD will be scheduled to include appropriate staff from the possible receiving campus to discuss appropriate placement options for the least restrictive environment.

The Director of Special Education is responsible for contacting the campus administrator annually to ensure appropriate office clerks have received training on all child find procedures including transfer students.

The same procedure will be followed should the student be transferring from another state. However, it may not be possible to obtain records from the previous school. In this case, use documentation provided by the family. All other procedures will be followed.

Children with disabilities incarcerated in adult prisons are addressed by the district as follows:

- ARD/IEP committees of this nature will be led by a district special education representative such as a supervisor, coordinator or director.
- The IEP may be modified if the state has determined a compelling reason exists to make the modifications due to safety concerns.
- Notice of transfer of rights at age 18 is required.

- *Transition services may or may not apply depending on the length of the incarceration.*

These procedures also apply to homeless children; children who are wards of the state; highly mobile children (including migrant children); all preschool age children and any child suspected of being in need of special education but who are advancing from grade to grade.

The Special Education Director will train campus Principals, campus Child Find designee and the diagnosticians/LSSPs annually on the proper procedures. The Bell County CoOp will then train any other campus personnel. The referral of a private school student may be made by the parent, private school personnel, physician, etc. Each campus MTSS Committee, which includes the diagnostician/LSSP, will coordinate the referral. The data collection and review process will be followed to determine whether an evaluation is needed.

1. If Parent has concerns, they may do the following:

- A. Contact the appropriate neighborhood campus and initiate a referral. The campus designee will assist the parent.*
- B. Referrals will be accepted for students who attend a private / nonpublic school within the boundaries of Bell County CoOp.*
- C. Provide any documentation available to the diagnostician/LSSP regarding the child's suspected disability, the student's private school teacher's contact information and sign a Release form so Bell County CoOp's staff can talk to the private school teacher.*

2. Campus Responsibilities:

- A. Bell County CoOp will use established procedures and forms for the parent referral of students from private/nonpublic schools. This includes the completion of the Referral Packet.*

B. The principal or designee will be responsible for coordinating the gathering of information from the parent and make it available to the diagnostician/LSSP to bring to the Bell County CoOp.

NOTE: The same referral time lines apply. (If a parent makes a written request, the Bell County CoOp must respond within 15 school days.)

3. Evaluation Person Responsibilities:

A. To the maximum extent possible, Bell County CoOp shall use referral and evaluation information from the private school's records in order to avoid unnecessary duplication of effort or services.

B. Coordinate and/or administer additional recommended evaluation.

(Extracted from Section 1 VIII of the OPOs)

Consultation of Parentally-Placed Private School Children With Disabilities

Annual free screenings will be provided. Bell County CoOp will maintain documentation of all Child Find activities including the dates of each activity and the results of each activity; and train appropriate staff for maintaining the documentation of all Child Find activities including students in private schools, religious schools and home schools located in the Bell County CoOp.

The private schools are offered our Child Find posters to advertise in their buildings if they choose. For all students not currently enrolled in our district, the required ARD/IEP process and timelines found in Section 4a. roman numeral XI. will be followed. The Child Find activities include collaboration and informing private/nonpublic schools of district requirements and possible options.

- 1. CONSULT: The Special Education Director will contact all private schools within our boundaries at a minimum annually. The private, non-public schools will be provided information regarding Child Find procedures. Annual input will be solicited following federal requirements. The Director will discuss equitable participation and solicit ways to inform staff/parents of private school students. Documentation of all communication/meetings with private/nonpublic schools is maintained with the Special Education Director.*
- 2. AFFIRMATION: The private school administration is asked to submit a required signed affirmation and consultation form stating the consultation requirements for the district Child Find have been met. If the district cannot obtain this signed form, the Director will provide a description of attempts in the eGrants application.*
- 3. The district will provide the private schools Child Find informational flyers to place in their facility.*
- 4. Parent inquiry: When a parent reaches out to the district with a concern or request for evaluation, the procedures listed in this Section 1. are followed.*
- 5. SERVICES: The ARD/IEP process for services including possible “dual enrollment” is discussed in Section 4a. and Section 5.*
- 6. For full text of the federal rules (including definitions) see Section 5. Instructional Arrangements*

The proportionate share of federal IDEA money available for the upcoming school year, will be considered in light of the consultation process and information gathered. Determination will be made regarding which eligible private school children will participate in special education services, what services will be provided, and how, where and by whom the services will be provided. The eligible students and parents will be invited to attend a meeting to develop an Individual Service Plan (similar to an IEP).

See Child Find activities in Section 1 of this document.

See Section 8 Administration. Through Child Find efforts and consultation with private nonpublic schools, the Bell County CoOp will make decisions regarding use of proportionate share of federal IDEA money. Decisions made by the district will include which eligible private school children will participate in special education services, what services will be provided, how, when, where and by whom the services will be provided.

All private schools located in the Bell County CoOp will be contacted via survey to provide input into the process and information will be shared on how to obtain referral information from the school district campus.

The Bell County CoOp will locate all private schools within the district and ensure consultation on the following:

- (1) Proportionate Share of Funds.*
- (2) How Special Education services may be provided.*
- (3) Explanation of services to be provided.*
- (4) How parentally-placed private school children suspected of having a disability can participate equitably; and*
- (5) How parents, teachers, and private school officials will be informed of the process.*
- (6) Any other topics appropriate for consultation including all Federal Regulations listed.*

Consultation methods with administrative and parent representatives of eligible private school children may include:

- Individual meetings with private school officials and the representative of parents of eligible private school children.*
- One or more group meetings with private school representatives and representatives of parents of eligible private school children.*
- Written correspondence to all private schools known to the Bell County CoOp to be within district boundaries.*
- Written correspondence to parents known to the Bell County CoOp who home school their children.*
- Written correspondence to parents of eligible private school students.*

The Bell County CoOp will carefully consider the information from private schools and parents of eligible private school students regarding use of available federal funds. After consultation, a complete child find process is conducted to determine the total number of eligible students with disabilities placed by parents in private schools. Consultation will be timely taking place prior to the designation of eligible private school students to participate in the Bell County CoOp's special education supports and services.

Decisions made after the survey results will be shared with private school administration and appropriate parents affected.

The Bell County CoOp will collect and keep on file any written affirmations. If unable to obtain a written affirmation, the Bell County CoOp will submit documentation explaining the attempts to secure the written affirmation to TEA at: sped@tea.state.tx.us

After consultation with local private schools within the Bell County CoOp, eligible private school students may participate in the special education services during a specific school year. An individual services plan will be developed and implemented as soon as possible after the services plan meeting. The services plan will be available to any Bell County CoOp staff and/or private school staff or other persons who implement any portion of it, and they will be advised of their specific responsibilities in implementing the services plan. The plan is reviewed not less than annually. An eligible private school student with a services plan in one school year has no right to a services plan in a subsequent school year. The Bell County CoOp is responsible to determine eligible private school students who will participate each year.

The final decision with respect to which eligible private school children will participate, the nature of the services, their frequency and location, and how they will be evaluated will be made by the Bell County CoOp. Private school students may be referred and evaluated throughout the school year. The provision of services will depend upon available funds.

The services plan team includes the same participants as would be included in an ARD Committee for the child.

The parents, a representative of the private school, minimum of one regular education teacher of the child if the child is or may be participating in a regular education environment, minimum of one special education teacher or special education provider of the child, a representative of the Bell County CoOp who is qualified to provide or supervise the provision of special education, is knowledgeable about the general curriculum and the availability of resources in the Bell County CoOp; a person who can interpret the instructional implications of evaluation results, the child, if appropriate; and at the discretion of the parent or the Bell County CoOp, any other individuals who have knowledge or special expertise regarding the child, including related services personnel if appropriate.

The regular education teacher of the child may be an employee of the private school. The District will ensure that a representative of the private school will be invited to the services plan meeting. If the representative is unable to attend, the District will share the document with the school if parent permission is obtained.

Records of all private school students referred, identified and served through this process will be maintained in the office of the Special Education Administrator

See also Section 4a. XI. PRIVATE NONPUBLIC SCHOOL PROVISIONS

The Special Education Director will ensure services provided to eligible private school students will be provided by personnel who meet appropriate standards.

The district has completed all Child Find activities to engage any private/nonpublic school within our boundaries. The district Special Education Director (a minimum of annually) has communicated, solicited input, planned and maintained documentation of those activities. The referral of a private school student may be made by the parent, private school personnel, physician, etc. Each campus MTSS Committee will coordinate the referral. The district data collection and referral procedures will be followed.

If the private school student has already been evaluated and identified as a student with a disability, the district diagnostician/LSSP will schedule the Individual Service Plan meeting. If a district outside of our boundaries completed the student's evaluation, the parent must provide a copy of that evaluation. A copy of any previous ARD/IEP paperwork will also be requested from the parent. The diagnostician/LSSP will follow the same district procedures to schedule an ARD/IEP meeting within the same required timelines.

When a student referred for testing from a private school is not a resident of the Bell County CoOp, and has not been evaluated to determine eligibility for special education, the special education administration will contact the district in which the student resides to collaborate regarding which district will complete the full and individual evaluation, if one is needed. The responsibility for conducting the ARD to offer FAPE to the student is the responsibility of the district where the student resides. Once the FIE and ARD have been completed, the district of residence will provide all appropriate documentation necessary to develop an Individual Service Plan for the student.

Creation of the Individual Service Plan: The Individual Service Plan meeting will be scheduled to plan appropriate services. All documentation for Notice will be followed. The private school student's Individual Service Plan meeting will be held and documented on district forms.

- 1. Individual Service Plan: the Individual Service Plan meeting will include the same required members as an ARD/IEP meeting, in addition to a representative of the private school. The Individual Service Plan will have measurable goals, will be implemented by district staff or district hired consultant, will use any necessary district materials, and progress monitoring and reporting will occur. The Individual Service Plan will be annually reviewed and revised as needed. If the student is eligible to receive proportionate share services, the school district where the private school is located is responsible for the services.*
- 2. Dual Enrollment: if a preschool age student is enrolled in a facility that meets criteria as a private school, the parents of eligible 3-5 year olds will be provided an explanation of the dual enrollment process by the campus diagnostician/LSSP. For dual enrollment, the student must reside within our district boundaries as well. The*

child may continue through the school year in which child turns 5 years after September 1, an eligible child in private school and may be enrolled in private school and still enroll part-time in Bell County CoOp and participate in special education services as specified in the child's IEP. It is the parent's choice to have the child educated only in private school or through dual enrollment. A parent may enroll a child full time in the public school district and receive all the special education services determined by the ARD Committee in the child's IEPs. When the child is 5 years of age or older on September 1 of the current school year, dual enrollment is no longer permitted.

- 3. If a parent chooses to dual enroll the student, the district procedures for Notice, Consent, Evaluation and ARD/IEP will be followed and documented on district forms. For a child dually enrolled, the student's ARD/IEP Committee will inform the parent at the end of the school year in which the child turns five OR when the child is eligible to attend the district kindergarten program, whichever comes first. The parent will need to make a decision to either enroll the student or develop an individual Service Plan for the child to continue in the parentally placed private school. If a parent declines the dual enrollment, an individual service plan can be developed and procedures in #1 above will be followed.*

EVALUATION

Review of Existing Evaluation Data/REEDs

Resources

§300.303 Reevaluations. §300.305 Additional requirements for evaluations and reevaluations

(Extracted from Section 2, II of the OPOs)

As part of an initial evaluation (if appropriate) and as part of any reevaluation The ARD/IEP committee members and other professionals (as needed) will review any existing evaluation on a child to identify what additional data is needed to determine if the child continues to have a disability and has a need for special education and related services and if there are any additions or modifications to the services or supports for the student to meet the annual goals and requirements of the IEP.

The review of existing evaluation data (REED) is part of the reevaluation process and the Bell County CoOp is not required to obtain parental consent before reviewing existing data as part of an evaluation or reevaluation.

§300.300(d)(1)(i) and (Feb. 6, 2007, OSEP Letter to Anonymous)

The Bell County CoOp will present REED information and any additional evaluation information to the entire IEP team during a scheduled ARD/IEP committee meeting.

The ARD/IEP committee meeting to discuss the reevaluation and to complete the REED process can be conducted at the annual ARD/IEP committee meeting, but the REED must be completed and reviewed by the ARD/IEP committee at least 30 days prior to the due date of the three year reevaluation. If a three year evaluation is due in August or September, the REED ARD/IEP Committee meeting must be conducted at least 30 days prior to the end of the previous school year.

If the reevaluation is for additional assessments requested by the ARD/IEP Committee to determine behavioral supports, related services such as therapies or other needs and change is noted that would require discussion of eligibility or services, the assessments and written evaluation report must be completed by the 3 year evaluation date and the ARD/IEP meeting will be scheduled within 30 calendar days from the date of the completion of the written full and individual evaluation report.

If the reevaluation is for additional assessments requested by the parent, teacher, or other individual who works with the child and is not part of a three year re-evaluation process, an ARD/IEP committee will convene to complete the REED process to determine what additional assessments and information is needed and if to incorporate the information needed to complete the three year re-evaluation process. If the ARD/IEP Committee determines that only specific requested evaluations will be completed to determine the need for additional services and/or eligibilities and the complete three year re-evaluation process is not completed, then the original due date for the three year re-evaluation may not be changed to reflect the date of the additional evaluation report.

The group of qualified professionals in the Bell County CoOp to conduct the REED must include the same members that are required for attendance at the ARD / IEP committee meeting and the specific individuals required to participate in the evaluation of the student that are unique to that child's disability as defined in §300.304(c) and as specifically required for children with a visual impairment and or children who are deaf or hard of hearing.

Beginning with the 2014-2015 school year, the scope of any reevaluation of a student who has been determined, after the full individual and initial evaluation, to be eligible for the district's special education program on the basis of a visual impairment must be determined, in accordance with 34 CFR, §§300.122 and 300.303-300.311, by a multidisciplinary team that includes an appropriately certified orientation and mobility specialist.

The district will maintain all REED documentation on the district required forms and archived in the electronic data system. All evaluation reports and REED documents must be signed and dated as per the district guidelines.

If the decision is made by the ARD committee that no additional data is needed to determine that the child continues to be a child with a disability, and to determine the child's educational needs, the new FIE date will be the date of the REED documentation.

A request for an initial evaluation by a parent must be provided in writing to the special education administrator or a district administrative employee. For purposes of 89.1011(b) regarding the written parental request for a full and individual initial evaluation, the definition of a district administrative employee is considered to be the local campus principal or assistant principal where a student attends. Bell County CoOp monitors all referrals and/or request for evaluations and timeline compliance through the district referral procedures and MTSS Committee procedures.

Bell County CoOp will respond to the written request from the parent for an initial evaluation for special education not later than the 15th school day after the date the district receives the written request with either the prior written notice of the district's proposal to conduct the evaluation or the notice of the district's refusal to conduct the evaluation. A copy of the procedural safeguards will be provided to the parent. The district will maintain documentation of all communication with the parent regarding the request.

Bell County CoOp will follow all state and federal regulations regarding initial evaluations before the provision of special education and related services can be provided to a child with a disability. The initial evaluation must attempt to evaluate the child in all areas of suspected disability and consist of procedures to determine the educational needs of the child. Following the written request for an initial evaluation for special education the district will notify the Bell County CoOp and the diagnostician/LSSP will provide a Written Notice of Evaluation and make every effort to obtain parental consent for the full and individual evaluation within required state timelines. The evaluation specialist in charge of the evaluation will utilize district forms. All documentation and notes of communication will be stored in the student's eligibility folder.

The written report of the initial evaluation must be completed not later than the 45th school day following the date in which written consent from the child's parent was received. If the student has been absent from school during the evaluation period on three or more school days, then the due date of the evaluation must be extended by the number of the school days the student has been absent. If the district receives consent for the evaluation from the child's parent at least 35 but less than 45 school days before the last instructional day of the school year, the evaluation report must be provided to the parent not later than June 30th of that year. The student's ARD/IEP committee must meet not later than the 15th school day of the following school year to review the evaluation.

If the parent refuses to provide consent for the initial evaluation, Bell County CoOp evaluation staff will provide clear written documentation of the repeated failure of the parent to produce the child for the evaluation or refusal to provide consent for the evaluation.

For an Initial Evaluation : When the district assessment staff has obtained written parental consent for the evaluation, Bell County CoOp will complete a comprehensive full and individual evaluation for the initial evaluation of a student within state and federal timelines. An initial evaluation for eligibility for special education may not rely solely on a review of existing evaluation data unless there is existing evaluation data that was completed by a private provider that meets the district criteria for establishing initial eligibility as a student with a disability under federal and state regulations.

Revoked Consent for Special Education and Related Services : If a parent has revoked consent for services and later requests to re-enroll the student, Bell County CoOp must treat this as a request for an initial evaluation. On the basis of that review and input from the child's parents, the IEP Team and other qualified professionals must identify what additional data, if any, are needed to determine whether the child is a child with a disability and the educational needs of the child.

Parental consent is not required for observations conducted as part of routine classroom instruction and monitoring of the child's performance as long as that observation is not conducted as part of the full and individual evaluation of the child.

This screening of a student by a teacher or a specialist to determine appropriate instructional and/or behavioral strategies may occur without obtaining informed parental consent because it is not considered an evaluation for purposes of determining eligibility for special education. Bell County CoOp will determine person(s) considered a "specialist". The term "instructional strategies for curriculum implementation" is generally used to refer to strategies a teacher may use to more effectively teach children. 71 Fed Reg 46639 (August 14, 2006)

For an Initial Evaluation: If the student moves from one campus to another within the district, the timelines still apply.

If the initial evaluation process for special education eligibility was initiated in a school district prior to the student's enrollment in Bell County CoOp and that process was not completed, Bell County CoOp must coordinate with the previous school district to ensure timely completion of the evaluation. The timelines for completion as established by the previous school district may be changed only if the parent and new school district agree to a specific time for the completion of the evaluation; however, the Bell County CoOp evaluation personnel will make every effort to stick to the original agreed upon timeline.

Bell County CoOp ensures evaluation procedures are followed by hiring qualified, certified and licensed professionals. Continual training is offered through a variety of resources including but not limited to the following: the education service center, the TEA TETN, state wide conferences, specific professional organizations, and legal academies. In addition, at each annual job evaluation, any areas needing improvement or additional training are identified and documented as an area for professional growth. Bell County CoOp maintains files of additional training attended by district personnel. The appraisal instruments and procedures for administration are selected based on the unique needs of the students.

TGC 392.002(b-1) Texas Government Code § 392.002. Use of Person First Respectful Language Required.

Each disability criteria requires addressing how the disability adversely affects a child's educational performance. A child does not have to fail or be retained in a course or grade in order to be considered for special education and related services. However, the child must have one or more of the impairments identified in Federal law and a need for specially designed instruction and related services because of that impairment. A range of factors - both academic and nonacademic- can be considered in making this determination for each individual child. Even if a child is advancing from grade to grade or is placed in the regular educational environment for most or all of the school day, the team still could determine the child's impairment or condition adversely affects the child's educational performance because the child could not progress satisfactorily in the absence of specially designed instruction, which could include; modifications to the general curriculum, specific instructional adaptations or supportive services, and/or specific behavioral interventions.

The copy of the evaluation report will be provided to the parent by the appraisal staff, diagnostician/LSSP, if possible, prior to the ARD/IEP meeting. It is important to review the information with the parent, therefore, if the report cannot be provided prior to the ARD meeting, it will be provided at the meeting. If the parent is not in attendance, the copy will be mailed to the parent with an opportunity to discuss the report on the phone or in a conference.

Following the required timelines, the ARD/IEP Committee will meet to review the FIE and determine if the child is a child with a disability and if there is an educational need in order for the student to be eligible for special

education services.

A written evaluation report for any disability or eligibility for related services will include all of the requirements in §89.1011 (c) and §300.311 (a – b) and documented on the district forms. In addition, specific requirements for each specific disability category found in Section 3-Disability Criteria will also be documented in the written evaluation report. Evaluation reports will be signed by all the professionals required in the evaluation process.

Assessment protocols will be filed in a separate folder alongside the student eligibility folder and will not be filed with the written evaluation report. Each assessment protocol will be labeled with student's name and placed in the eligibility folder that is specified for the archived protocols. Parents or adult students have access to educational records including a review of test protocols. Request to review the protocols must be made in writing and provided to the school's Educational Diagnostician/LSSP, Principal or the Director of Special Education. Arrangements will be made to have the appropriate professional review the protocol with the parent or adult student. The district will maintain signed Written Evaluation Reports, REED documentation, and Assessment protocols.

Areas of Evaluation

A. Language Dominance

The evaluation team will first determine the student's dominant language most proficient method of communication (expressively and receptively). The student's dominant language is the language in which the student is most proficient. This determination may be made by formal or informal evaluation. Evaluation instruments must be administered in the student's dominant language (native language or other mode of communication unless it is clearly not feasible to do so). If the primary language of the home is not English, the student will be evaluated in his/her dominant language. Documentation will be Oral Language Proficiency scores, the LPAC report or a description of procedures used to ensure the student was evaluated in his/her dominant language when the examiner is not proficient in that language. Where no bilingual examiner is available, an interpreter may be used. Interpreters will be adequately trained.

B. Language Proficiency

The evaluation team must determine the student's most proficient method of communication. The language proficiency information must indicate the student's skill in understanding and using both receptive and expressive domains, such as oral and written language, reading comprehension, and listening comprehension, when appropriate. Proficiency in both English and the other language(s) must be addressed for Limited English Proficient (LEP) students. (see procedures in the Referral section 1 for ELL students and coordination with the LPAC to differentiate proficiency and disability)

C. Physical

The evaluation of an individual's physical factors (including health, vision, hearing, and psycho-motor abilities) must consist of an examination of physical conditions that directly affect the student's ability to profit from the educational process. A general medical examination will be required only when specified by eligibility criteria or when abnormal physical factors have been identified as part of the evaluation of physical factors. The health information collected during the referral process will be sufficient if a complete medical examination is not required by specific eligibility criteria and if there are no indications of need for further physical evaluation.

When requesting a medical examination these steps are required:

- 1. Evaluation personnel are to obtain a "Notice of Release of Confidential Information" that is signed and dated by the parent.*
- 2. Submit the following forms to central office personnel designated responsible for securing contract services:*
 - a. A signed "Notice of Release of Confidential Information" form with contact information.*
 - b. The Eligibility form(s) for the area of suspected disability*
 - c. Any other documentation the medical provider may need to complete their evaluation.*

3. Upon approval, designated Bell County CoOp personnel will contact the appropriate service providers to complete the necessary documentation for contract services and establish a purchase order to ensure payment for services. Parents will be contacted by the designated individual (Bell County CoOP staff or possibly campus evaluation personnel) to notify the parent that they may contact the medical provider to schedule an appointment.

D. Emotional/Behavioral

The evaluation of an individual's emotional and behavioral factors will consist of formally or informally identifying those characteristics manifested in in-school or out-of-school behavior, or both, which may influence learning. The evaluation will include behaviors relative to the disability that may affect educational placement, programming, or discipline. Adaptive behavior of all students must be considered to some degree, formal measures are required only when establishing a diagnosis of an intellectual disability.

E. Sociological

The evaluation of an individual's sociological variables must consist of identifying the child's family and community environmental situation influencing learning and behavioral patterns. Students will not be eligible for special education if the only deficiencies identified are directly attributable to a different cultural lifestyle or to the child not having had educational opportunities.

F. Cognitive

The evaluation of an individual's cognitive functioning must include an evaluation of verbal ability or performance or both. While the adaptive behavior of all students must be considered to some degree, formal measures of adaptive behavior will be required only when a student is being assessed for an intellectual disability. A formal evaluation of Intelligence must always be addressed when evaluating the possibility of an intellectual disability. An informal evaluation of cognitive ability may be used to determine cognitive functioning as a part of eligibility for certain disabilities at the discretion of the evaluation team.

Assessment Guidelines for the Evaluation of Academic and Functional Performance

The evaluation report will include:

- A. Criterion-referenced or curriculum-referenced assessments designed to aid in the development of the student's IEP; (include any district wide and state testing, benchmarks, etc.)*
- B. Information about the student's strengths and weaknesses; and*
- C. The specific modifications of instructional content, accommodations, methods and/or materials required by the student to achieve and maintain satisfactory progress, including those that can only be provided through special education services, and those adaptations necessary for the student's progress in general classes and other special and compensatory education programs.*

Assessment Guidelines for Assistive Technology

Each student assessed for determination of a disability will be assessed for assistive technology needs.

The assistive technology evaluation team may include any of the following professionals: Occupational Therapist, Physical Therapist, Speech Pathologist, Diagnostician, Teacher of the Visually Impaired, and other staff members as needed.

Evaluation of Specific Eligibility Areas

(Extracted from Section 3 of the OPOs)

Assessment Guidelines for Deaf or Hard of Hearing

A deaf or hard of hearing diagnosis must meet the criteria for deafness or for a hearing impairment. Deafness means a hearing impairment is so severe that the child is impaired in processing linguistic information through hearing, with or without amplification, that adversely affects a child's educational performance. A hearing impairment means an impairment in hearing, whether permanent or fluctuating, that adversely affects a child's education performance but is not included under the definition of deafness.

When considering students who are deaf or hard of hearing, a professional from the Temple Regional Day School, certified in the education of students who are deaf or hard of hearing will be assigned to assist in the REED process and/or the initial evaluation to:

- 1. Determine appropriate areas of evaluation;*
- 2. Develop or determine appropriate evaluation techniques;*
- 3. Conduct the evaluations when appropriate; and*
- 4. Interpret data to ensure consideration and understanding of the educational, psychological, and social implications of the disability.*

Birth – 2 years or Deaf-Blind:

When considering students from birth through age two that are deaf or hard of hearing, or students who are deaf-blind, a teacher of infants who are deaf or hard of hearing or a teacher of students who are deaf-blind, as appropriate, may perform the evaluation specified above. Bell County CoOp has a MOU with the Temple Regional Day School.

The deaf or hard of hearing evaluation must include an otological examination performed by an otolaryngologist or by a licensed medical doctor when an otolaryngologist is not available and a audiological performed by a licensed audiologist. The evaluation data must include a description of the implications of the hearing loss for the student's hearing in a variety of circumstances with or without recommended amplification. District evaluation personnel will follow the established procedures for procuring contract services for medical services and contract evaluators.

Assessment Guidelines for Autism

The team of professionals that completes the evaluation process for autism will include a psychologist or LSSP, a speech/language pathologist, a diagnostician, and any other professional appropriate. The parent is also a critical member of the team.

A child with a pervasive developmental disorder is included under the eligibility criteria for autism. Diagnosis and eligibility will be determined by trained and experienced evaluation professionals on the multidisciplinary team (including an LSSP and a SLP). These professionals use a range of information to distinguish autism spectrum disorders from other disorders by close examination of comprehensive assessment information and the student's developmental history and presentation of symptoms.

Assessment Guidelines for Deaf/Blind

A student who has been determined to meet the criteria for deaf-blindness is one who:

- Meets the eligibility criteria for a student who is deaf or hard of hearing and a visual impairment; or*
- Meets the eligibility criteria for a visual impairment and has a suspected hearing loss that cannot be demonstrated conclusively but has been identified by a licensed speech pathologist as having no speech at an age when speech would be normally expected; or*
- Has documented hearing and visual losses that if considered individually may not meet the requirements of either disability area but the combination of the loss adversely affects the student's educational performance; or*
- Has a documented medical diagnosis of a progressive medical condition that will result in concomitant hearing and visual losses that, without special education intervention, will adversely affect the student's educational performance.*

Deaf and Hard of Hearing

Visual Impairment

Assessment Guidelines for Emotional Disturbance

Diagnosis and eligibility will be assessed by a LSSP with information from other members of the multidisciplinary team such as the Behavior Specialists, parent, etc. These professionals use a range of information to distinguish emotional disturbance from other disabilities by close examination of comprehensive assessment information and the student's history and presentation of symptoms. The diagnosis of schizophrenia will only be made by an individual who is licensed and qualified to make that diagnosis in the state of Texas, which could include a LSSP, a licensed clinical psychologist, and/or a licensed psychiatrist.

Assessment Guidelines for Intellectual Disability

An intellectual disability is defined as significantly subaverage general intellectual functioning as measured by a standardized individually administered test of cognitive ability in which the overall test score is at least two standard deviations below the mean, when taking into consideration the standard error of measurement of the test. The student must also demonstrate concurrent deficits in adaptive behavior in at least two of the following areas; communication, self-care, home living, social/interpersonal skills, use of community resources, self-direction, functional academic skills, work, leisure, health, and safety. These deficits must be manifested during the developmental period and adversely affect a child's educational performance.

The following **local** guidelines apply:

1. In most cases, a norm referenced standardized IQ assessment will be administered. If non-standardized procedures are used to administer a standardized test or developmental scale because of a severe sensory impairment (e.g. a visual impairment), another severe physical disability, or because of language or communication differences, the adaptations should be noted and the implications for test interpretation should be documented. Normed scores are based on standardized administration procedures and should not be reported if non-standardized procedures are used to administer the test. Reporting ranges or categories of scores may be more appropriate.
2. If a student is very young and/or has a severe disability or a severe sensory impairment, a developmental scale may be administered instead of intelligence tests. The student's performance must be within the intellectually disabled range on the developmental scale.
3. Some measures of intellectual ability result in a composite or global score rather than individual verbal and performance scores. When an IQ test is used which results in a single score, it is up to the evaluation professional to ensure that both verbal and performance skills have been measured and documented. If they have, the single score will suffice as a measure of both verbal and performance ability.
4. An adaptive behavior scale must be administered and at least two of the areas of adaptive behavior listed above must be documented. The adaptive behavior scale includes interviewing a parent, teacher, and/or another individual who is familiar with the student's daily activities. Deficit scores should equate to a standard score below 70 when taking into consideration the standard error of measurement of the test given.

Assessment Guidelines for Multiple Disabilities

A diagnosis of multiple disabilities occurs when a child has been determined to have a combination of disabilities (such as intellectual disability and blindness, intellectual disability and orthopedic impairment, etc.). The disabilities are expected to continue indefinitely and must severely impair two or more of the following areas:

- Psychomotor skills;
- Self-care skills;
- Communication;
- Social and emotional development; or
- Cognition

The term Multiple Disabilities does not include deaf-blindness.

Assessment Guidelines for Noncategorical Early Childhood

A student with a non categorical early childhood disability (NCEC) must be between the ages of 3 and 5 years old. The use of NCEC is a local decision. The use of NCEC will be determined by the Bell County CoOp at the policy level prior to implementation in the evaluation and ARD/IEP committee process.

There must be a documented eligibility report that the student is evaluated as having one of the following:

- *autism,*
- *emotional disturbance,*
- *learning disability, or*
- *intellectual disability.*

In making a decision to identify a child as being eligible under the NCEC eligibility category, multidisciplinary teams and ARD/IEP committees could consider the following:

- *the age of the child and/or*
- *the child's functioning level and/or*
- *all available formal and informal evaluation data.*

Assessment Guidelines for Orthopedic Impairment

A student with an orthopedic impairment must be diagnosed by a licensed medical doctor and the impairment must adversely affect a child's educational performance. This includes impairments caused by a congenital anomaly, impairments caused by disease, and impairments from other causes such as; cerebral palsy, amputations, and fractures or burns that cause contractures.

The multidisciplinary assessment team will work closely with the physician and the parent to complete the FIE and to obtain an eligibility document signed by the physician. A "Release of Confidential Information" form will be obtained from the parent and the eligibility form will be sent directly to the physician by the district. If the child does not have a licensed physician, the district assessment professional will follow the district procedures for obtaining contract services.

Assessment Guidelines for Other Health Impairment

The disability of other health impairment is defined as having limited strength, vitality or alertness, including a heightened alertness to environmental stimuli, that results in limited alertness due to chronic or acute health problems such as asthma, attention deficit disorder or attention deficit hyperactivity disorder, diabetes, epilepsy, a heart condition, hemophilia, lead poisoning, leukemia, nephritis, rheumatic fever, sickle cell anemia or Tourette's Disorder.

The multidisciplinary assessment team must include a licensed medical doctor. The district assessment professional will work closely with the parent to obtain an eligibility document signed by the physician. A "Release of Confidential Information" form will be obtained from the parent and the eligibility form will be sent directly to the physician by the district. If the child does not have a licensed physician, the district assessment professional will follow the district procedures for obtaining contract services.

Assessment Guidelines for Attention Deficit Disorder (ADD/ADHD):

When a parent request an evaluation based on their concern or personnel physician information that indicates their child may have Attention Deficit Disorder (ADD-ADHD) the evaluation team will follow the procedures for initial referral or the REED process, which ever is required. The evaluation procedures will follow the process for determining an eligibility for an Other Health Impairment Disability. In addition to medical information the parent will be informed of the comprehensive evaluation process which may include a full psychological evaluation and any other evaluations that may be necessary to determine if the child is a child with a disability who is in need of special education. If the parent has a medical doctor that has recently diagnosed the child with Attention Deficit Disorder, the evaluation team will obtain a signed copy of the OHI eligibility form directly from the child's physician after the parent has provided a signed copy of the "Consent for Release of Confidential Information." Even upon request, the parent will not be provided a copy of the district OHI eligibility form to provide to the child's physician. If the evaluation team determines that the child meets the criteria for a child with an Other Health Impairment and the parent does not have a physician, then district procedures will be followed for obtaining contract medical services to obtain the necessary evaluation from a licensed medical doctor.

After the Special Education referral is made:

1. *Appropriate evaluation measures will be administered. Establishment of eligibility under under IDEA is the responsibility of the Bell County CoOp staff and presented to the ARD committee. Evaluation measures will include:*
 - *Behavior Rating Scales: At least one (1) general behavior rating scale and one (1) ADHD rating scale should be administered to both the teacher and the parent. The purpose is to establish the presence of inattention*

and/or hyperactivity across settings.

- **Interviews:** Interviews relating to ADHD characteristics should be completed with both the teacher(s) and the parent(s) of the student being evaluated. The purpose is to establish the presence of inattention and/or hyperactivity across settings and to meet other key criteria for the ADHD diagnosis. Interviews also document past efforts to address student's behavior or academic needs in the general education setting.
- **Direct Observation:** Two or more observations of the student should be completed in the classroom ideally during study or instructional periods and data collected.
- **Cognitive and Achievement Testing:** measure of cognitive potential and academic achievement should be administered to rule out alternative explanations for the student's attention and/or behavior problems, including intellectual or learning disabilities.

Caution: Remember that a student may be diagnosed by a physician as having ADD or ADHD but the student may not necessarily have an educational need for special education services. Determination of educational need is made by the ARD/IEP Committee considering all data. Needs of some students may be addressed by the local campus Section 504 committee or classroom strategies. If you have any questions, please review with your Bell County CoOp campus personnel or call the Bell County CoOp special education office.

Assessment Guidelines for Specific Learning Disability

A specific learning disability means a disorder in one or more of the basic psychological processes involved in understanding or using language, spoken or written, that may manifest itself in the inability to listen, think, speak, read, write, spell, or to do mathematical calculations. This includes conditions such as perceptual disabilities, brain injury, minimal brain dysfunction, dyslexia and developmental aphasia. The existence of a specific learning disability is determined by evidence of:

- *Inadequate achievement for the child's age or the inability of the child to meet state-approved grade-level standards in one or more of the areas of: oral expression, listening comprehension, written expression, basic reading skill, reading fluency skills, reading comprehension, mathematics calculation or mathematics problem solving; and*
- *The child does not make sufficient progress to meet age or state-approved grade-level standards in one or more of the above areas when using a process based on the child's response to scientific research-based intervention; or*
- *The child exhibits a pattern of strengths and weaknesses in performance achievement, or both, relative to age, state approved grade level standards, or intellectual development that is determined by the group to be relevant to the identification of a specific learning disability, using appropriate assessments and multiple sources of data are used/considered of which neither supersedes the preponderance of data gathered; and*
- *The evaluation team determines that the inadequate achievement is not primarily the result of a disability in hearing, vision, motor abilities, an intellectual disability, an emotional disturbance, cultural factors, limited English proficiency, or environmental or economic disadvantages.*
- *The performance of the child is observed in the child's learning environment, including the general education classroom setting by an individual as identified in §89.1040(D).*
- *The evaluation team that completes the assessment for a student suspected of having a specific learning disability must be made by the student's parents and a team of qualified professionals that must include a licensed specialist in school psychology (LSSP), an educational diagnostician, or other appropriately certified or licensed practitioner with experience and training in the area of the disability. A speech difficulty must be ruled out as the cause for the learning difficulties. The team must include a remedial reading teacher and the classroom teacher as defined in §89.1040(E)*

The evaluation team must include data that prior to the referral for an FIE the child was provided appropriate instruction in a regular education setting delivered by qualified personnel and that parents had been provided documentation of repeated assessments of the child's achievement that occurred at reasonable intervals and reflected formal assessment of the student's educational progress.

The diagnostician/LSSP will attempt to schedule an observation of the child at the day care where the student attends. If this is not feasible, the district will use an age appropriate play room on a district campus.

Parental consent is not required for observations conducted as part of routine classroom instruction and monitoring of child before the child is referred for an evaluation. Parental consent is required for observations conducted after the student is suspected of having a disability and is referred for an evaluation. The district may choose to use either type of observation as available and appropriate.

Referrals: Initial referrals must have gone through a rigorous “Response to Intervention” process prior to the referral for special education evaluation and ALL documentation must support the RtI process implemented. The multi-disciplinary evaluation team will review and consider all information provided to determine if a child meets the disability criteria for eligibility as a student with a learning disability. Campus administration and diagnostician/LSSP must work collaboratively to ensure that documentation of the MTSS/RTI process is clear and that the necessary documentation of implementation is understood by all parties involved and unnecessary delays of evaluation for eligibility for special education are avoided.

Assessment Guidelines for Speech Impairment

A speech or language impairment is a communication disorder such as stuttering, impaired articulation, a language impairment, or a voice impairment, that adversely affects a child’s educational performance.

“Whether a speech and language impairment adversely affects a child’s educational performance must be determined on a case-by-case basis, depending on the unique needs of a particular child and not based only on discrepancies in age or grade performance in academic subject areas.” OSEP Letter to Clark (3-8-2007)

Refer to:

<http://www.esc4.net/users/0199/TSHA%20Eligibility%20docs/SI%20Language%20Eligibility%20Guidelines%20Manual.pdf>

For students referred for speech/language suspected disability, the evaluation will be performed and documented by a certified speech and language pathologist, certified speech and hearing therapist, or a licensed speech/language pathologist. In addition to the speech and language components of the evaluation, the physical, mental, and emotional conditions and learning competencies will be addressed in the evaluation. The written report of evaluation will include the level of severity of the impairment and will state how the communication disorder affects the student’s performance in the classroom resulting in an educational need for speech therapy services.

Assessment Guidelines for Traumatic Brain Injury (TBI)

A student with a TBI is one who has acquired an injury to the brain caused by an external physical force, resulting in total or partial functional disability or psychosocial impairment or both, that adversely affects a child’s educational performance. A TBI can be an open or closed head injury which results in impairments in one or more areas such as cognition; language; memory; attention; reasoning; abstract thinking; judgment; problem-solving; sensory, perceptual, and motor abilities; psychosocial behavior; physical functions, information processing, and speech. A student cannot be diagnosed with a TBI when the brain injuries are congenital or degenerative, or the brain injury was induced by birth trauma.

The district multi-disciplinary team will include professionals licensed to evaluate the areas of concern that are identified in the referral information and must include a licensed medical doctor. If emotional/behavioral concerns are noted, the district should include an LSSP, a licensed clinical psychologist, behavior specialist and or a Licensed Professional Counselor. The district assessment professional will work closely with the parent to obtain an eligibility document signed by a licensed medical doctor. A “Release of Confidential Information” form will be obtained from the parent and the eligibility form will be sent directly to the physician by the district. If the

child does not have a licensed physician, the district assessment professional will follow the district procedures for obtaining contract services

Assessment Guidelines for Visual Impairment

A visual impairment is an impairment in a child's vision that even with correction, adversely affects a child's educational performance. It includes both partial sight and blindness. When considering students who have visual impairments, a professional certified in the education of students with visual impairments will be assigned to assist in:

- 1. Determining the appropriate areas of evaluation;*
- 2. Developing or determining the appropriate evaluation techniques;*
- 3. Conducting evaluations when appropriate; and*
- 4. Interpreting data to ensure consideration and understanding of the educational, psychological, and social implications of the disability; and*
- 5. Collecting appropriate medical documentation.*

When considering students from birth through age two that have visual impairments, or students who are deaf-blind, a teacher of infants who have visual impairments or a teacher of students who are deaf-blind, as appropriate, may perform the evaluation specified above.

2015 adjustments: For a student suspected of having a visual impairment:

- An FIE must include an orientation and mobility evaluation conducted by a person who is certified as an orientation and mobility specialist.*
- O&M specialist is part of the multidisciplinary team for evaluating visual impairments*
- An FIE must be conducted in a variety of lighting conditions and in a variety of settings, including the student's home, school, community, and settings unfamiliar to the student.*
- The scope of any reevaluation of a student who has been determined to be eligible as a student with a visual impairment, must include a certified O&M specialist as part of the multidisciplinary team.*

Additional Areas of Evaluation

Resources:

§300.27 English Learner

TAC89.63

(Extracted from Section 2, IX of the OPOs)

The following categories of evaluations have special provisions and may require specific evaluation personnel to be included.

Assessment Guidelines For Adapted Physical Education (APE):

APE evaluations will be administered by appropriately trained physical education or special education personnel. Results from the evaluation will be included in the written evaluation report and should address the student's physical strengths and weaknesses and recommendations for specific services to be considered by the ARD/IEP committee.

Assessment Guidelines for the Evaluation of Students Who Have Severe Disabilities and/or Who are 0-5 Years of Age

If the evaluation team cannot test these students in accordance with the procedures listed under the individual evaluation section of this procedure manual, the team must document the rationale for deviating from the standard procedure, as well as the modifications used to complete the evaluation. The written report will specify the nature and extent of the disability. The educational evaluation of such a student may be limited to competency based or criterion referenced measures. Outside evaluations will also be considered.

Assessment Guidelines for a Functional Behavior Assessment/FBA

A Functional Behavioral Assessment is completed when a student's behavior impedes educational progress for the student or other students in the classroom. If the student's placement includes time in the general education classroom, the evaluation should include input from the general education teacher. The FBA should include the following information:

- Identification of the specific observable behavior(s) that is impeding the student's learning. Documentation of the behaviors(s) should be as descriptive and specific as possible in order to clearly identify and quantify the behavior.*
- Data from a variety of sources including but not limited to: discussions, interviews, records, and direct observation in a variety of settings by a variety of staff. The evaluation team may also use standardized instruments, if available. The data should determine the duration, frequency, and intensity of any patterns of behavior.*
- Identification and/or descriptions of any antecedents - events that logically serve as the stimulus for the behavior.*
- Identification and/or descriptions of any consequences - this is the action that is following and causes the student to maintain specific behavior(s) - determine effectiveness of each.*
- Identification and/or descriptions of the purpose of the student's behavior - usually to get something such as attention, avoid or escape something, or to control the antecedent event.*
- A description of the relationship of the behavior to the event and provide possible variables that can be changed in the setting or the situation.*

Utilizing the information in the FBA, the evaluation team will develop a Behavioral Intervention Plan (BIP) which will include positive behavioral supports, reinforcers and possible consequences. The BIP will provide information to teach the student alternatives to the behavior that is interfering with the student's learning.

If disciplinary action results in a change in placement under federal law, not later than the 10th school day after the change in placement the district will immediately seek consent from the student's parent to conduct a functional behavioral assessment of the student if an FBA has never been done or the FBA is more than one year old. If there is a current FBA, the district will review and/or revise the FBA and any BIP that is currently in place as needed based on the behavior that triggered the change of placement decision.

Federal Guidelines stipulate required timelines. If the student's ARD committee agrees that there is a need for a functional behavior assessment, the committee may determine that there is enough data to complete the assessment at the ARD. If there is insufficient data to complete the assessment at the ARD, the ARD committee determines the timeline for the assessment(s) to be completed, which may be more than 10 days if warranted.

Assessment Guidelines for Homebound or Hospitalized

Any student being considered for Homebound or Hospitalized placements through special education must have received a full and individual evaluation that describes the student's functioning in all required areas; health, vision, hearing, social emotional status, general cognitive ability, academic performance, communication, and motor abilities. Services in the Homebound or Hospital setting may be considered if the FIE has been completed and the ARD/IEP committee has determined that the student is eligible for special education supports and services and if the student is expected to be confined at home or in the hospital for a minimum of four consecutive weeks (for chronically ill students, this period of confinement may be a period of time totaling at least four weeks throughout the school year). This confinement must be for medical reasons only and the medical condition must be documented by a licensed medical doctor.

In making eligibility and placement decisions the ARD committee must consider the physician's information. However, the physician's note/information is not the sole determining factor in the committee's decision making process.

Assessment Guidelines For English Language Learners (ELL)

Specific requirements for an assessment of an ELL student is identified in the Child Find Section of the Operating Procedures. The LPAC report, which must have been completed within the past year, must be included with the referral packet. The student should have been tested in English and Spanish. If this is an initial evaluation, information will include; the initial referral information, the LPAC report, LAS scores or equivalent test, the amount of time the student was served in the bilingual program, and a copy of the Home Language Survey.

Speech Only Referral for an ELL Student:

The language proficiency assessment (ex. LAS, IDEA) should be considered with regard to the following:

- i. If the student is proficient in English and has a lower proficiency in Spanish or a language other than English (LOTE), the normal procedures for the speech pathologist evaluations are followed. Assessment would be conducted in English.*
- ii. If the student is proficient in Spanish or a LOTE and is not proficient in English, the speech pathologist will confer with the second language specialist and determine if an evaluation in Spanish (or other language) is needed. The second language specialist and speech pathologist will collaboratively complete the evaluation and write the evaluation report.*
- iii. If the student is barely proficient in both languages, the second language specialist and speech pathologist will gather all information regarding the student's educational history and performance and consult with the special education administrator before proceeding with the FIE.*
- iv. If the student is proficient in both languages, normal procedures in English may be followed.*

The articulation evaluation should be considered with regard to how the student articulates sounds in English as well as the student's native language.

Other Referrals (LD, ID, etc.):

The language evaluation (ex. LAS, IDEA) should be considered with regard to the following:

- i. If the student is proficient in English and lower in Spanish, the usual procedures for testing are followed.*
- ii. If the student is proficient in Spanish and not in English, the diagnostician/LSSP will confer with the second language specialist and determine if an evaluation in the student's native language is needed. The second language specialist and the diagnostician/LSSP will collaboratively determine the appropriate evaluation procedures and instruments and write the full and individual evaluation report (FIE) and proceed to ARD.*
- iii. If the student is barely proficient in both languages, assessment should be completed in the student's dominant language. You may also consult with the Coordinator or Director of Bell County CoOp.*
- iv. If the student is barely proficient in both languages, the second language specialist and the diagnostician/LSSP will gather all the information regarding the student's educational history and performance and consult with the Special Education Coordinator or Director before proceeding with the FIE.*

If the student is above proficient in both languages, normal procedures in English may be followed. Consideration should be given to the following:

- How long the student has been in the country;*
- Whether or not the student was enrolled and attending school prior to entering the United States;*
- What types of bilingual supports and services have been provided and what type of academic progress the student is making in their home language as well as their progress in English.*

Assessment Guidelines for a Vocational Evaluation and a Functional Vocational Evaluation:

Special education will collect vocational evaluation data when appropriate. As the ARD/IEP committee begins discussion and planning for entry into the high school curriculum and discusses the graduation plan of the

student, vocational evaluation may be determined appropriate. (For information on the Vocational Adjustment Coordination Program see Instructional Arrangements Section.)

- 1. The ARD/IEP committee may recommend vocational evaluation when:
 - A. The student has no specific identified skills which are determined necessary for employment, or*
 - B. The student has a need to determine vocational opportunities or interest.**
- 2. Based on ARD/IEP committee recommendation, a vocational evaluation may include information from:
 - A. The Full and Individual Evaluation;*
 - B. The current IEP;*
 - C. Information about past school performance;*
 - D. Work training history of the student; and*
 - E. Interviews with the student, the parent, and the teacher(s). The interviews include attitudes, work habits, behaviors, job readiness, work-related skills, and post-school expectations.**
- 3. The assigned special education teacher will explain to parents the purpose of the vocational evaluation process. Results of the evaluation may be discussed with the student prior to being filed in the student's special education folder. The results will also be discussed at the annual ARD/IEP committee meeting.*
- 4. If the review of the records in #2. above indicates, additional vocational interest and aptitude evaluation may be recommended by the ARD/IEP committee. The special education teacher and/or speech pathologist are responsible for sending the Notice and Consent for a Full and Individual Evaluation to the parent prior to the evaluation. Evaluation will begin no earlier than five school days after notification in accordance with Bell County CoOp procedures.*
- 5. For students with disabilities whose initial vocational evaluation, does not yield measurable results or sufficient information for planning appropriate occupational preparation, additional vocational evaluation may be required such as: review of work samples, situational evaluations, and work behaviors analysis. Observation, training sites, or other instructional programs and settings may be used to provide part of this data.*
- 6. Situational assessment of students placed in campus-based and community-based job-training options as a part of the student's educational program will be conducted by special education instruction staff on an ongoing basis. Reports will be filed in the teacher's student folder and reviewed at each annual ARD/IEP meeting.*

Functional Vocational Evaluation.

The ARD/IEP committee will consider any recommendations as a result of Transition Planning. Transition services means a coordinated set of activities for a student with a disability that includes if appropriate a functional vocational evaluation. If the ARD/IEP committee recommends this, a qualified professional will conduct the evaluation.

- 1. The evaluation will include but not be limited to: observation in vocational settings, interview with teacher and parents, and other formal or informal evaluations as appropriate.*
- 2. Results of the evaluation including strengths and weaknesses will be addressed in a written report maintained in the eligibility file.*

A Functional Vocational Evaluation is just one component of transition planning that is included "if appropriate". The IEP committee determines if a functional vocational evaluation is appropriate. It may be necessary if the student cannot determine a career interest area or if it is difficult determining the student strengths and needs. It may be considered appropriate for:

- 1. Students who would benefit from the "hands-on" experience afforded by work sampling, observations, situational assessment,*
- 2. Students who are having difficulty determining career interests, and*
- 3. Those who may need to showcase talents other than those limited to academic classes where they traditionally have been unsuccessful.*

A Functional Vocational Evaluation (FVE) is a systematic assessment process used to identify practical useable career and employment-related information about an individual. A FVE can incorporate multiple formal and informal assessment techniques to observe, describe, measure, and predict vocational potential. A distinctive feature in all FVE's is that the FVE includes (and may emphasize) individualized experiential and performance-based opportunities, in natural vocational or work environments. The systematic method used to collect and organize the information from the assessment is more important than the type of assessment utilized. The process may begin early and be quite broad during the middle school years, but becomes increasingly more specific as the

student moves closer to graduation. This is not a task that will be done one time only, but rather will be built upon as the student has new experiences and can be documented with data over time.

This Functional Vocational Evaluation procedure considers and documents the interactions of the student with instructors, peers, and employer and includes:

- 1. Interviews;*
- 2. Observation, inventories, surveys, and record reviews; personality and temperament;*
- 3. Career exploration of student's interests, values, attitudes, and social skills;*
- 4. Situational assessment of student's interests, skills, strengths, temperaments; work demands environmental factors abilities, motivation, physical capacity, and work tolerance work habits;*
- 5. Training needs;; assistive technology; necessary adaptations; and*
- 6. Multi-agency planning and assessment.*

The district will provide the student with a summary of the child's academic achievement and functional performance (SOP), which must include recommendations on how to assist the child in meeting the child's postsecondary goals. This SOP must be provided before any termination of a child's eligibility due to graduation from secondary school with a regular diploma, or due to exceeding the age eligibility for FAPE under State law. The district will attempt to obtain information from the parent and the student.

This Summary of Performance (SOP) will be completed prior to graduation using the district approved form. (Agency input will be requested upon parent/adult student consent) Information for the Summary of Performance can also be obtained from the IEP/transition supplement.)

Independent Educational Evaluation

Resources:

§300.502 Independent educational evaluation.

(Extracted From Section 2, XI of the OPOs)

The parents of a child with a disability have the right to obtain an independent educational evaluation (IEE) of the child at public expense if the parent disagrees with an evaluation completed by the district.

Information on where an IEE may be obtained will be provided to parents on request. A list of individuals who can provide an IEE is available from the Bell County CoOp Office. The district criteria (State/Federal requirements) for all evaluations must also be followed for the IEE. Evaluator Requirements are listed below. Contract evaluation personnel (which includes personnel who complete evaluations for Independent Educational Evaluations) must provide assessment results, recommendations and a written report to Bell County CoOp prior to or at the same time the information is provided to parents.

If the parent requests an IEE from any staff member or campus Principal, the parent will be provided the name and phone number of the Special Education Director and asked to notify that administrator immediately so that proper steps may be taken to address their request for an IEE. The Special Education Director, in consultation with appropriate Bell County CoOp staff, will determine whether to pay for the IEE or file for a due process hearing. The Special Education Administration will respond to the parent regarding the IEE request within 15 school days, following all required Notice procedures.

If the parent requests an IEE during an ARD/IEP meeting, the minutes will document that the parent was asked to provide reasons why they object to the public agency evaluation. If the parent does not provide any specific reason, that also will be documented in the minutes. The ARD Administrator or designee will immediately notify the Special Education Administrator of the parent request for an IEE in order to determine the district's response to the request. The district will not delay and will respond within the determined school days noted above.

District Steps as Soon as Notified of IEE Request

Special Education Director will notify parent the IEE request is received. Inform the parent that within 15 school days a decision will be made to either request a Due Process Hearing to defend district evaluation or pay parent for an IEE. If decision is to pay for an IEE, Special Education Administration will:

- 1. Provide the parent with Procedural Safeguards and the district IEE guidelines.*
- 2. Designate the local district contact person, (Director of Special Education), for the parents to coordinate the IEE process. Encourage the parent pay close attention to the Evaluator Requirements and the district process for payment of the IEE.*
- 3. Provide the parent a list of qualified examiners in the area.*
- 4. Once the parent has selected the independent evaluator they will provide the district with contact information for the evaluator and sign consent for the district to speak with the person chosen about the student.*
- 5. The district will contact the independent evaluator chosen by the parent and provide a written contract with IEE criteria and Evaluator Requirements. Once the contract is signed the Special Education Director will ensure that the Purchase Order Procedures for the district are followed to ensure payment once the evaluation is completed and provided to the district with an invoice for services.*

Evaluator Requirements

- 1. The independent evaluator will coordinate activities with the district designee whose name was provided to the parent by the Special Education Director.*
- 2. The independent evaluator will have the same qualifications as the Bell County CoOp assessment personnel (e.g., psychologist, associate psychologist, Licensed Specialist in School Psychology, or educational diagnostician) and as required by Texas law and also described in Section 8)*
- 3. Each independent evaluator must provide to the district a copy of his or her license(s) or certificate(s).*
- 4. The independent evaluator may be requested to complete a conflict of interest form provided by the Bell County CoOp indicating whether the examiner has a personal monetary interest in any service or program recommended by the examiner.*
- 5. The independent evaluator will be provided access to the student's cumulative folder and special education folders upon request. and parental consent*
- 6. The independent evaluator may meet with district by appointment to gather information about a student prior to the assessment or to share information following the completion of the evaluation by contacting the special education director.*

7. *The independent evaluator will follow federal and state assessment regulations and rules, reporting requirements and established eligibility criteria for the diagnosis of students with disabilities.*
8. *The independent evaluator will consider data obtained from the student's teacher or service provider through consultation and/or interview.*
9. *The independent evaluator will provide a written assessment report that shall address the presence or absence of those symptoms or conditions included in the specific eligibility criteria for the disability for which the student is being assessed. The report shall include the type and severity of the impairment and the functional implications for the educational process. The report must provide the ARD committee with sufficient information to determine whether or not the student has a disability and is in need of special education services.*
10. *The independent evaluation may be restricted to one assessment area upon mutual agreement by the Bell County CoOp and parent.*
11. *The independent evaluator must be located within a 100 mile radius of the Bell County CoOp.*
12. *If the independent evaluator is going to be conducting the evaluation on school property then Per Senate Bill 9, they must complete a state and national criminal history background search and the district must receive those results through the DPS criminal history clearinghouse (Fingerprint-based Applicant Clearinghouse of Texas – FACT prior to the assessment.*
13. *The evaluator must provide information in the same timely manner as required by Bell County CoOp personnel including an original typed report to the Bell County CoOp within 30 calendar days from the date that an IEE is approved by Bell County CoOp and 10 days prior to the ARD meeting. The report must address the Bell County CoOp format (which will be provided to the evaluator) for assessment and eligibility. Protocols must be available for review and the report must include an original signature and title of all assessment personnel involved in the evaluation. The report must comply with all requirements of state and federal regulations.*

15. *The parent will work with the independent evaluator to schedule dates/times for the evaluation unless the evaluation is to take place on school property.*
16. *Upon completion of evaluation, the written report will be submitted to the parent and the district along with the Invoice for payment.*

Reimbursement or Payment

Parents are free to select whomever they choose to perform the IEE, so long as the examiner meets the District's criteria. If parents select an examiner that is not on the District's list of qualified examiners, they should submit the name and vitae of the examiner with copies of certificates and/or licenses in advance of conducting the IEE in order that the District may confirm and notify the parents whether the examiner is qualified to perform the IEE. If the parents fail to submit the name and vitae of the examiner prior to conducting the IEE, the evaluator will not be paid if they do not meet the District's criteria. The parent and evaluator are taking an unnecessary risk of nonpayment. This should be determined prior to the IEE conducted.

Reimbursement/payment will be made directly to evaluator upon receipt of an invoice and the IEE which meets all of the Bell County CoOp assessment criteria. Parents obtaining an IEE without following these procedures risk payment. Whenever an IEE is at public expense, the criteria under which the IEE is obtained, must be the same as the criteria which the school uses when it initiates an evaluation, to the extent those criteria are consistent with the parent's rights to an IEE.

Criteria for Fee Setting

1. *The Bell County CoOp will pay a fee for the IEE which allows a parent to choose from among the qualified professionals in the area.*
2. *The Bell County CoOp will not pay unreasonably excessive fees. An unreasonably excessive fee is one which is (this percentage needs to be determined based on your area and data available for reasonable cost for an evaluation. Thirty five percent above the Medicaid rate is now the acceptable rate) above the average rate in the local area for the services required to complete the IEE.*
3. *Upon receipt of an invoice for payment of an unreasonably excessive fee, the Bell County CoOp will notify the parent of the unreasonable rate.*
4. *Parents will be allowed the opportunity to demonstrate to an ARD committee that unique circumstances justify an IEE that does not fall within the Bell County CoOp fee criteria. However, the payment decision will remain with the district.*

5. *When service providers have a sliding scale fee based on parent income, the Bell County CoOp will pay the amount charged to the parent.*
6. *In the event that a parent pursues an IEE independently, an original billing form must be submitted to the Bell County CoOp prior to payment. Before reimbursement or direct payment is authorized, criteria must be met not only regarding the fee, but also the evaluator criteria and the written report received by the district and the evaluation meet the district's IEE criteria.*
7. *Any Travel costs for examiner and/or parents will not exceed Bell County CoOp rates for travel as established by state guidelines.*

Parents Seeking Reimbursement for a Unilaterally Obtained IEE

1. *The Bell County CoOp will not consider a parent request for payment for a unilaterally parent-initiated IEE unless the request is made within a reasonable time after receipt of the results of the evaluation. A reasonable time is defined as 90 calendar days.*
2. *The Bell County CoOp can request a due process hearing to prove its own evaluation is appropriate. This can occur before an IEE is conducted or, in this scenario, after the parent has obtained the IEE and is seeking reimbursement.*
3. *Parent must submit Invoice for payment, the evaluator's name and qualifications, the completed IEE that meets all criteria.*
4. *The Bell County CoOp will review all information submitted by the parent.*
5. *The Bell County CoOp will deny payment of an IEE conducted by an evaluator who does not meet minimum qualifications.*
6. *The Bell County CoOp will deny payment of an IEE which does not meet minimum Texas Education Agency criteria for the specific disability identified.*
7. *The Bell County CoOp will deny payment of an IEE which does not meet substantial compliance with all state and federal requirements.*
8. *The Bell County CoOp will deny payment of an IEE that exceeds the maximum cost criteria.*

Consideration of Parent Initiated IEE

The results of a parent-initiated IEE obtained at private expense will be considered by the ARD committee in any decision made with respect to the provision of a free appropriate public education to the student (if the IEE meets federal and state criteria). Such consideration does not make the Bell County CoOp liable for payment of the evaluation.

Number of IEEs

A parent is entitled to only one IEE for each evaluation performed by the District, if the parent disagrees with the evaluation. This would include the three year re-evaluation or re-evaluations conducted more frequently. A parent is not entitled to multiple IEEs at public expense without an intervening re-evaluation. OSEP Policy Letter, EHLR 213.259 (1989); Hudson v. Wilson , 828 F.2d 1059, 1965 (4 th Cir. 1989).

FAPE/ARD

Under Federal law students with disabilities are entitled to a free appropriate public education (FAPE) at no expense to the family. The ARD/IEP committee is charged with developing an individual program for each student that is reasonably calculated to provide FAPE to the student. The Supreme Court has defined FAPE as a program reasonably calculated to permit the student to make progress based upon the unique circumstances of the student. (Andrew F. V Douglas County School District, 2017).

The school district will establish an admission, review, and dismissal (ARD) committee for each student who is to be considered for eligibility or already eligible for special education under current state and federal regulations. The ARD committee in Texas is the IEP team that is defined in federal regulations (CFR §300.321).

An IEP will be developed for each child with a disability in the district who meets the state and federal guidelines for special education eligibility. The IEP (or IFSP for students birth through two years of age with a visual and/or deaf or hard of hearing will be in effect at the beginning of each school year and reviewed no less than on an annual basis. Each IEP will contain all the components required in state and federal regulations.

(See TAC §89.1050.)

Decisions regarding eligibility and programming for a student with a disability will be made by a group of persons who meet at least annually as an ARD/IEP committee. This committee must include:

- *The parent of the child*
- *At least one general education teacher of the child. Efforts should be made to ensure that the general education representative of the ARD committee be a professional who has contact with the student either daily or weekly and thus has direct knowledge of the student. Efforts may include; selecting a teacher who provides academic instruction at some point in the student's schedule, selecting a teacher who provides instruction in physical education or a related arts area, selecting a teacher who provides intervention support, or selecting a teacher who provides instruction in an elective area,*
- *At least one special education teacher or service provider working with the student,*
- *A representative of the school district. This member of the ARD is either the campus principal or the principal's designee which might include the assistant or vice principal. Regardless of the position which serves in this capacity, the following conditions apply; the individual in this position must have the authority and responsibility to commit district resources to ensure implementation of the student's IEP, regardless of the designee, the principal remains responsible for ensuring that the IEP is implemented, and the individual in the position chairs the meeting, guides the discussion and supports parent participation and involvement.*
- *A person who can interpret the results of assessment. The special education teacher can interpret evaluation or state assessment results unless the IEP team is determining necessary three year evaluation needs or results and then the diagnostician or LSSP will be required. The LSSP or counselor will interpret results for students with emotional disturbance.*
- *With the permission of the parent, other individuals who have knowledge of the child.,*
- *Related services staff,*
- *The student if appropriate. The invitation to the ARD meeting will indicate that the student was invited to the meeting,*

In certain circumstances additional persons may be required participants in the ARD/IEP committee meeting. These include:

- *A representative of the district career and technology department, if the committee is considering placement in a CTE class,*
- *With the consent of the parents, or a student who has reached the age of majority, a representative of any participating agency that is likely to be responsible for providing or paying for transition services. The Bell County CoOp attempts to have representatives from other agencies meet with students and parents prior to the IEP meeting to ensure more quality time to discuss post secondary services and options. Documentation of such meetings may include an invitation, a meeting agenda and/or summary notes from the meeting. Such documentation will be included in the student's special education record,*

- A representative of the district Language Proficiency Assessment Committee if the student qualifies as a student who is learning English as a second language,
- A professional certified in the education of students with visual impairment, if the student has or is suspected of having a visual impairment,
- A teacher of the deaf if the student has or is suspected of having a hearing impairment,
- A teacher of both the deaf and one of the visually impaired if the student has or is suspected of having deaf-blindness.

Documentation will be maintained in the student eligibility folder that the above individuals were invited to the meeting. The record of the filed in the eligibility folder will indicate the positions of individuals attending the meeting. Responsibility for filing such documentation is assigned to the educational diagnostician/LSSP for the campus.

Excusal

If the member's area is not being modified or discussed, the member may be excused from the meeting if the parent and Bell County CoOp agree in writing on the district form that the member's attendance is not necessary. The Bell County CoOp parental informed consent is required in order to excuse an IEP member if their area of the curriculum or related service will not be modified or discussed otherwise they are required to attend unless there is a unforeseen emergency. Parental consent for excusal in the meeting must include all elements of informed consent found in Procedural Safeguards section. The Bell County CoOp will attempt to provide a minimum of 3 days advance written input to the parent to consider excusal unless there are emergency circumstances which cannot be avoided. The parent always has the right not to agree to the excusal. The Bell County CoOp will not routinely excuse IEP members and each IEP meeting requires either appropriate agreement or consent for the IEP member requesting excusal. Any excusal from the ARD/IEP Meeting will follow exact guidelines in §300.321 (e) (1-2) and be documented in writing on the Bell County CoOp form.

Parent Participation

Resources

TEC §29.05

TAC §89.1050

(Extracted from 4a, Section VI)

Parents are required members of the ARD/IEP committee meeting and as such, every effort should be made to encourage and ensure their participation.

3 Prior Notice Attempts To Ensure Parent Participation in the IEP Committee Meeting.

The Bell County CoOp will make advance attempts to notify parents of ARD/IEP committee meetings and arrange a mutually agreeable time and location.

1. The first Prior Written Notice of the ARD/IEP meeting form is provided in writing at least 7 school days prior to the scheduled ARD/IEP date, (earlier if possible). This early notice will allow more time to contact the parent and then proceed at the first scheduled date and time. The Notice form includes options to agree to the proposed date, change the date, hold the meeting on the phone, online meeting in Google Meets, or suggest the district proceed without the parent in attendance. A copy of the completed Notice form sent to the parent is maintained in the student eligibility file as documentation.
2. The second attempt to notify the parents of the ARD will also be in writing (if there is no response from the parent after the first notice). The Bell County CoOp will copy the first notice form and send it as the second Notice of ARD/IEP meeting.
3. The third Notice contact will be attempted to get parental participation if there is no response from the first two attempts. After 3 attempts and no response, the Bell County CoOp may go forward with the ARD meeting as scheduled.

All dates of scheduling attempts and the initials of personnel attempting contact must be documented on the district Notice form and filed in the student eligibility folder by the campus educational diagnostician/LSSP. Staff will also contact the parent by phone and email in addition to the written forms so as to get parent participation.

Campus staff will offer to allow the parent to attend in multiple ways such as by phone or online through Google Meets to accommodate work needs. The campus staff will make every effort to accommodate the parents schedule, however; there is no requirement that an IEP meeting must be held outside of regular business hours for the school. OSEP Letter to Thomas (6-3-2008)

Virtual Learning Delays

- What procedures are in place for ARD committee members to meet virtually if needed? The Bell County CoOp will ensure that links to virtual meetings are provided to parents and staff in advance. If the parent is unable to participate virtually, Assessment staff will call the parent to ensure the opportunity to participate. Each ARD Committee Meeting will contain a Contingency Plan for the event of School Closure and implementation of virtual instruction.*
- Describe procedures followed for documenting services provided during virtual learning days. Services during virtual learning days will be maintained on the parent contact page in the electronic documentation system and Progress will be monitored to make sure that students are getting the services needed to be successful.*
- What alternatives are available if students are not able to access technology and the curriculum at home during virtual learning days? In the event that students are not able to access technology and the curriculum at home during virtual learning days, they may receive instruction face to face or at an alternative location. The Bell County CoOp staff have made it available to parents for hybrid plans, plans where staff go to the house, etc in order to make sure that students are getting what they need. The districts have also provided devices and internet if needed.*
- Describe how related services will be provided remotely? If necessary, how will the LEA make-up any missed related services? Related services will be provided directly through virtual instruction provided parents give consent or by consult with the parent. Related service providers have also done home visits to provide services.*
- Describe training for staff about the provision of special education and related services during virtual learning days, such as the provision of instructional phone calls, videoconferencing, homework packets, online lessons, and other available distance-based learning approaches. Staff will receive regular instruction in the methods used to provide virtual instruction.*
- Describe procedures followed for documenting communication with parent(s) during extended periods of virtual learning days. All parent contact is documented through the parent contact log in the electronic documentation system.*

At each ARD/IEP committee meeting appropriate district forms will be used to document the meeting and decisions. The special education staff will provide relevant evaluation and educational data to the ARD/IEP committee as appropriate including a draft of the PLAAFP and IEP goals.

Once the student is determined eligible for special education services, the parent or district staff may request an ARD/IEP committee meeting as needed to discuss or review the student's IEP. An ARD/IEP committee meeting may be requested by contacting the student's special education teacher or case manager. The diagnostician/LSSP will be responsible for the following tasks related to the meeting.

- 1. Collaborating with campus staff to develop the ARD/IEP committee meeting schedule using monthly data printout of annual ARD due dates;*

2. Making sure the teacher completed the Notice of ARD/IEP committee meeting and sent the first written notice approximately at least 7 school days prior to the due date for the annual meeting
3. Contacting the parent to schedule the committee meeting at a mutually agreeable time and date when the meeting is being requested by the parent or the school;
4. Notifying all required members of the ARD/IEP committee meeting and providing required notices (see Procedural Safeguards); and
5. Providing a copy of the completed PWN to the parent at the close of the meeting and a copy by an online program to obtain signatures if the parent was unable to attend and signed consent for electronic shares.

The district will prepare a supplement to the IEP report documenting any delays during the 2019-2020 or 2020-2021 school year to a student's full and individual initial evaluation, delays in the development of the student's initial IEP program, and whether any provision of special services to the student were interrupted, reduced, delayed, suspended, or discontinued. The supplement will also include any compensatory education services that are appropriate for the child based on these delays. This has been completed each year and documented in the annual IEP in the deliberations and through the Contingency Plan and its updates. The SB 89 form from TEA was used and included for the 2021/2022 school year.

If the parent brings an attorney to the ARD meeting without prior notice to the school district, the Administrator must recess the ARD and contact the Director of Special Education at the Bell County CoOp until such time as the school's attorney can also attend. It is critical that the district document the student services that will continue until the ARD is reconvened. During the recess involve the Special Education Director or Coordinator to consider alternative resolutions to propose to the parent other than involvement of attorneys.

Determine if training staff in facilitation is needed in order to reach mutual agreement. The administrator working with the staff will analyze all possible options, pros/cons and prepare to present the data.

- It is important to help the group of people understand their common objectives are to benefit and assist the student.
- Beginning with assessment/evaluation at the beginning of the IEP, present IEP areas in small segments and determine agreement at each step. Listen and keep the focus on the student!
- In areas of disagreement, determine if agreement can be reached for a trial period of even a short segment of time such as 6 weeks or 2-3 months then return to a review IEP meeting.
- In decision making consider at all times the student needs.

If the parent disagrees with any part of the IEP, the parent must be offered the opportunity to write their disagreement in the IEP. If the parent refuses to write their disagreement, the school district personnel must write in the IEP specifics of the parental disagreement to the best of their understanding.

Either the principal or the diagnostician/LSSP should contact the Special Education Director for consultation when an ARD meeting is going to reconvene due to parental disagreement.

Upon completion of a full individual evaluation (FIE) the district will hold an ARD/IEP meeting to consider the student's eligibility for special education services and to develop an IEP. This must be done within 30 calendar

days of the completion of the evaluation. It is the responsibility of the educational diagnostician/LSSP to schedule the ARD/IEP meeting within the required timelines.

Following the required timelines, the ARD/IEP Committee will meet to review the FIE and determine if the child is a child with a disability and if there is an educational need in order for the student to be eligible for special education services. Documentation of the discussion regarding eligibility for services will be completed using district forms and filed by the educational diagnostician/LSSP in the student's special education eligibility folder.

Transition of Students with Disabilities to Post-Secondary Education: A Guide for High School Educators (OCR)

<https://www2.ed.gov/about/offices/list/ocr/transitionguide.html>

Transition services must be in place on or before the student's fourteenth birthday. Diagnostician/LSSPs for the Bell County CoOp will make sure that transition is completed and in place by the age of 13. Therefore, the district will begin formal transition discussions to address transition needs in the annual ARD/IEP committee meeting that occurs prior to the student's fourteenth birthday. Transition services will include:

- Identification of measurable postsecondary goals related to training, education, employment, and independent living skills as needed by the student,*
- The Transition services needed (including courses) to help the student reach the goals, and*
- How progress toward such goals will be measured and how and when progress will be reported to the parents. However, transition discussions will begin when the student enters the ECSE program at age 3 in order to maintain a continuum of services designed to help transition the student into adulthood.*

Documentation of these transition activities will be completed on the district's forms and filed in the student's special education eligibility folder by the educational diagnostician/LSSP.

Transition information will be collected and reviewed by the special education case manager, teacher, or Transition Specialist by meeting with the student at least annually to complete the following activities prior to the ARD/IEP committee meeting.

- Assist the student to determine strengths, interests, and preferences for future career goals,*
- Discuss with the student a coordinated set of activities necessary to further goals including CTE electives, the minimum, recommended, and distinguished graduation/career plans, etc.*
- Determine if Transition Assessments are completed or if any additional assessments are needed. These assessments may be formal or informal assessments such as surveys, environmental inventories, structured observations, interest inventories, etc. and*
- Assist the student to prepare for sharing his/her postsecondary goals in the ARD/IEP committee meeting. (not later than the first IEP to be in effect when the child turns 14, or younger if determined appropriate by the IEP Team).*

ARD/IEP team participants to invite when transition will be discussed at the committee meeting include:

- The child with a disability must be invited beginning in Middle School. If he/she does not attend other means should be used so that the child's needs and interest are appropriately addressed.*
- When appropriate, members of agencies that might be involved in providing or paying for services will be invited.*
- All required IEP/ARD committee members.*

The Special Education office will provide a print out of special education students for the diagnostician / case manager to note who will be turning 18 years old and their birth date. By the student's 17th birthday the district will convene an ARD/IEP committee meeting to provide each student and the student's parents a written notice

regarding the transfer of rights and other required information regarding guardianship or alternatives to guardianship.

Documentation of all transition activities will be kept in the student's special education eligibility folder.

The special education teacher, speech pathologist, and/or any related service providers are all responsible for the development of the student's PLAAFP and appropriate goals and objectives as well as ongoing progress monitoring and documentation.

The draft of the proposed PLAAFP, IEP goals and objectives should be sent home one week prior to the ARD/IEP committee meeting. A note to the parent should accompany the proposed goals and objectives that explains that the documents are drafts and that the document purpose is to plan for the IEP meeting and to request parent input on the goals and objectives.

The Bell County CoOp staff will come to the ARD/IEP committee meeting prepared to discuss findings and preliminary recommendations for the IEP.

The following apply for each annual ARD/IEP committee meeting:

- 1. Each student's individual educational program (IEP) will be reviewed within 12 months to determine the student's progress, the student's continued need for special education and related services, and the need for modifying the plan. The ARD/IEP committee may schedule an earlier review date if needed for review, modification, failure, etc.*
- 2. At the annual review, the current IEP objectives will be reviewed and documented on the IEP prior to the development and acceptance of a new IEP.*
- 3. IEP's will also be reviewed and documented at the beginning of the year and after breaks in the program for regression/recoupment information necessary to discuss the need for ESY.*
- 4. Progress on the IEP is documented in the same timely manner as other non-disabled students and reported to parents.*
- 5. A copy of the progress report should be filed in the student's special education record to document the report.*

S

A standards-based IEP is a process in which the IEP team has incorporated state content standards in its development of goals aligned with, and chosen to facilitate the student's achievement of, state grade-level academic standards. Many of the questions below are the responsibility of the student's special education teacher(s) in collaboration with the general education teachers.

Steps to Creating a Standards-based IEP

(These steps are adapted from the ESC 20 Progress in the General Curriculum Project Materials)

Step 1: Consider the grade-level content standards for the grade in which the student is enrolled or would be enrolled based on age.

- *What is the intent of the content standard?*
- *What is the content standard saying that the student must know and be able to do?*

Step 2: Examine classroom and student data to determine where the student is functioning in relation to the grade-level standards.

- *Has the student been taught content aligned with grade-level standards?*
- *Has the student been provided appropriate instructional scaffolding to attain grade-level expectations?*
- *Were the lessons and teaching materials used to teach the student aligned with state grade-level standards?*
- *Was the instruction evidence-based?*

Step 3: Develop the present level of academic achievement and functional performance.

Describe the individual strengths and needs of the student in relation to accessing and mastering the general curriculum. Information should be obtained from general education teachers, parents, and any other service providers.

- *What do we know about the student's response to academic instruction (e.g., progress monitoring data)?*
- *What programs, accommodations (i.e., classroom and testing) and/or interventions have been successful with the student?*
- *What have we learned from previous IEPs and student data that can inform decision making?*
- *Are there assessment data (i.e., state, district and/or classroom) that can provide useful information for making decisions about the student's strengths and needs (e.g., patterns in the data)?*

Consider the factors related to the student's disability and how they affect how the student learns and demonstrates what he or she knows.

- *How does the student's disability affect participation and progress in the general curriculum?*
- *What supports does the student need to learn the knowledge and attain the skills to progress in the general curriculum?*
- *Is the student on track to achieve grade-level proficiency?*

Step 4: Develop measurable annual goals aligned with grade-level academic content standards.

- *What are the student's needs as identified in the present level of performance?*
- *Does the goal have a specific timeframe?*
- *What can the student reasonably be expected to accomplish in one school year?*
- *Are the conditions for meeting the goal addressed?*
- *How will the outcome of the goal be measured? Be specific/concrete using measures such as 7 of 10 trials for mastery.*

Step 5: Assess and report the student's progress throughout the year.

- *How does the student demonstrate what he/she knows on classroom, district and state assessments?*
- *Are a variety of assessments used to measure progress?*
- *How will progress be reported to parents?*

Step 6: Identify specially designed instruction including accommodations and/or modifications needed to access and progress in the general education curriculum.

- *What allowable accommodations are needed to enable the student to access the knowledge in the general education curriculum?*
- *What accommodations have been used with the student and were they effective?*
- *Has the complexity of the material changed in such a way that the content has been modified?*

Step 7: Determine the most appropriate assessment option.

- *What types of assessments are offered for the grade level? STAAR, etc.*
- *What types of responses do different assessments require?*
- *What are the administrative conditions of the assessment? (i.e., setting, delivery of instructions, time allotted, etc.)*

- *What accommodations are allowed on the assessment(s)?*
- *Are the accommodations approved for the assessment also used in the classroom? They must be or they cannot be allowed on the state assessment.*
- *Has the student received standards-based, grade-level instruction?*
- *Was the instruction evidence based?*
- *What is the student's instructional level?*
- *How different is the student's instructional level from the level of typical peers?*
- *Can the student make progress toward grade-level standards in the same timeframe as typical peers? (If no, consider modified academic achievement standards)*
- *What can be learned from the student's previous state assessment results?*
- *Can the student demonstrate what he/she knows on the assessment option under consideration?*

Additional IEP Requirements/Special Factors

Resources

Certain special factors must be considered during the IEP meeting which relate specifically to individual students. These factors and their referenced legal basis are listed below:

Behavior: §300.324 (a) (2), §89.1053 (i), §89.1055 (g), §29.005 (g)(h).

English Language Learners: §300.324 (a) (2), §89.1226 (i), §89.1230, §89.1050

Blind and Visually Impaired: §300.324 (a) (2), TEC §30.002 (c).

Communication: §300.324 (a) (2).

Deaf and Hard of Hearing: §300.324 (a) (2), TEC §29.303

Assistive Technology: §300.324 (a) (2), §300.5, §300.6

Autism: §89.1055 (e), §300.320 (a) (4).

(Extracted from 4b, I of the OPOs)

Behavior

The ARD/IEP committee will address the needs of the student which arise from behaviors that interfere with the student's learning or the learning of other students. Addressing the continuum of behavioral needs: ,

- *Student special education needs will be addressed in the Least Restrictive Environment appropriate for each individual as determined by the ARD/IEP Committee*
- *If the student exhibits behavior that is interfering with his/her learning or the learning of others, the ARD/IEP Committee will consider completing a Functional Behavior Assessment (FBA) and develop a Behavioral Intervention Plan (BIP) if needed.*
- *If a BIP is developed, the ARD/IEP committee will review the plan at least annually and more frequently if appropriate to address any changes in a student's circumstances that may impact the student's behavior, such as; the placement of the student in a different educational setting, an increase or persistence in disciplinary actions taken regarding the student for similar types of behavioral incidents, a pattern of unexcused absences, an unauthorized unsupervised departure from an educational setting and/or the safety of the student or others.*
- *In addition, Social/Emotional Goals/Objectives might be appropriate.*

For more information see Section 2-FIE for development of the FBA and also Section 6 of the OPOs for more information on Discipline. Discussion of needs of the student in this area will be documented on district forms and filed by the educational diagnostician/LSSP in the student's special education eligibility folder. The Bell County CoOp has a variety of Behavior Specialists who are trained and need to be included in FBA/BIP decisions.

English Learners

The Special Education Director or designee and the LPAC Coordinator will work closely together to ensure that campus staff has training and materials needed to make decisions in the ARD/IEP committee meeting. The LPAC and the ARD/IEP committee will follow all state and federal regulations regarding students with disabilities who are also English Learners.

Decisions regarding exemptions of certain qualifying ELL students will be made following the state criteria.

<http://tea.texas.gov/student.assessment/ell/lpac/> or

For All Limited English Proficient (LEP) Students with Disabilities:

- The LPAC report, must have been completed within the past year for each Annual ARD to review.
- The ARD/IEP committee will determine placement based on current assessment and IEP Goals and Objectives needed.
- The ARD/IEP committee will include the LPAC representative and will ensure that placement in a bilingual education or English as a second language program, if appropriate, is not refused solely because the student has a disability.

Additional LPAC guidance on TEA website will be followed:

<http://www.tea.state.tx.us/index2.aspx?id=2147496923> or <http://www.tea.state.tx.us/student.assessment/ell/lpac/>

Role of LPAC and ARD/IEP Committee:

The members of the ARD/IEP Committee and the LPAC will pool expertise related to special education and second language acquisition to collaborate making assessment and accommodation decisions with an LPAC member participating in the ARD/IEP Committee meeting to:

- Evaluate student needs,
- Determine and implement testing requirements, and
- Make instructional recommendations for the student.

Additional Guidance in Serving Students With Disabilities Who are Also English Learners Includes:

- Use the TEA manuals to assist with decision making.
- Review carefully to be clear on how to fulfill special education and EL assessment requirements for ELs receiving special education services.
- Decisions must be made on an individual basis.
- The decision is indicated as "ARD/IEP Committee Decision" in student's TELPAS record.
- ELs receiving special education services may be administered any assessment for which they meet the participation requirements (STAAR, STAAR Spanish, STAAR Alternate 2).

Chapter 101 of the TAC requires the LPAC to work in conjunction with the ARD committee to make assessment decisions for these students. This collaboration helps ensure that factors related to disabling conditions and second language acquisition are both carefully considered. The LPAC's involvement in assessment decision-making for ELs served by special education should help ensure that EL participation in these assessments is appropriate.

Accommodations for ELLs with Disabilities

For these students, LPACs will make accommodation decisions for the STAAR program in conjunction with the student's ARD committee, as applicable.

- Linguistic accommodation decisions
- Accommodation decisions related to the student's disability

These committees will refer to the accommodation information on the TEA Accommodation Resources webpage.

TELPAS (Texas English Language Proficiency Assessment System) results will be reviewed and considered as required by state law. To view all English language learner (ELL) resources, visit the ELL webpage .

<http://www.tea.state.tx.us/student.assessment/ell/>

Discussion of needs of the student in this area will be documented on district forms and filed by the educational diagnostician/LSSP in the student's special education eligibility folder.

Blind and Visually Impaired:

When an ARD/IEP committee meeting is held for a student qualifying for special education services as a student who is blind or visually impaired, the committee must induce a professional certified in the education of students

with visual impairments as well as Orientation and Mobility. This must be documented in the IEP and filed in the student's special education eligibility folder.

Vision Services

The purpose of vision services is to provide a consultation or direct instruction in compensatory vision skills, based on the student's Functional Vision Evaluation/Learning Media Assessment, for students from birth through 22 years with a visual impairment. Students with impaired vision are provided the recommended appropriate learning media, which may include regular textbooks, large print books, brailled books, audio media, and materials from American Printing House for the Blind (APH). Students meeting eligibility requirements are registered with TEA as Visually Impaired or Deaf-Blind on the annual VI registration. Students evaluated and determined eligible will receive Orientation & Mobility (O & M) instruction as a related service.

<https://hhs.texas.gov/services/disability/blind-visually-impaired>

Deaf or Hard of Hearing:

Opportunities for direct communications with peers and professional personnel in the child's language and communication mode will be specifically addressed in the ARD/IEP Committee meeting. For a student who is deaf or hard of hearing, the ARD will consider assistive technology needs. Discussion of needs of the student in this area will be documented on district forms and filed by the education diagnostician/LSSP in the student's special education eligibility folder.

Assistive Technology

Student use in a school setting of any assistive technology, including but not limited to 2 way listening/talking devices, GPS locators, etc., must be discussed at the IEP meeting. All variables to the use of such devices will be considered. Federal information privacy laws require consideration of other student's rights before any auditory device may be used in a school setting. Discussion of assistive technology needs of the student will be documented on district forms and filed by the educational diagnostician/LSSP in the student's special education eligibility folder.

Autism

For students with Autism, the district ARD/IEP committee must consider specialized strategies that are based on peer-reviewed, research-based education programming practices to the extent practicable. The consideration and/or need for specific strategies must be reviewed annually and documented in the ARD/IEP.

Methodologies

Education methodologies refers to systems of practices and procedures such as project based learning, cooperative learning or applied behavioral analysis. Educational programming methodologies are not the responsibility of the ARD Committee. Appropriate instructional strategies and accommodations recommended by the ARD committee will be documented in the ARD. The Bell County CoOp is responsible for ensuring that classroom teachers will have appropriate training in specific strategies and accommodations needed by students. Students with autism may benefit from applied behavioral analysis strategies which include a systematic approach to the assessment and evaluation of observable behavior, and the application of specific targeted interventions that alter behavior. Data collection and analysis of progress is a key component in all special education classes in Bell County CoOp.

Students with autism may be excused from attendance in order to participate in specific therapies in the community setting as arranged by their parents. The Bell County CoOp will request information from the parent in order to document the request for an excused absence. The following must be documented:

- *What service specifically the student is receiving;*
- *What are the credentials of the health care practitioner; and*
- *Verification of attendance with the health care practitioner.*

Parental Options For Retention

The district will follow all guidelines for parental options for student retention per §28.02124. The ARD committee may meet to discuss the results of the retention committee decision and review the need for any changes to the student's IEP prior to the beginning of the school year or semester in which the student will be repeating the same grade or high school course.

Supplemental Aides and Services

Resources

§300.42

§300.320

(Extracted from Section 4b, U, of the OPOs)

The ARD/IEP committee will identify any aids, services or other supports (accommodations) needed by the student with a disability to be educated with non disabled children to the maximum extent appropriate and which are provided in the general education environment. The committee will identify needed accommodations for the student by subject area and will also consider behavioral accommodations as necessary.

** Specific pages in the The TEA State Assessment manual will provide information on accommodations by type of assessment and accommodations category. Information in italics indicates that an Accommodation Request Form is required.*

** The TEA Student Assessment division will provide information to districts regarding the provision of adequate objective evidence when submitting an Accommodation Request Form (ARF).*

Discussion of the accommodation needs of the student will be documented on district forms and filed by the educational diagnostician/LSSP in the student's special education eligibility folder. All educators providing instruction to the student will have information concerning specific accommodations identified in the student's IEP. Distribution and documentation of this information will be done by the student's special education teacher or case manager and filed in the student's special education eligibility folder.

Special education, related services and supplementary aids and services must be based on evidence based research to the extent practicable which means to the extent that research is possible and available. Services with the greatest body of research are not necessarily the service required for a child to receive FAPE. The What Works website provides information and a list of strategies documented by evidence.

If a qualified student with a disability requires related aids and services to participate in a regular education class or program (including accelerated classes) then the student must receive those related aids and services. Additional information on scientifically based research and response to intervention resources may be found on the Region 10 ESC Special Education website.

Least Restrictive Environment

Resources

§300.114 (a)(b).

§300.115

§300.116

§300.117

(Extracted from Section 4b, I & M, of the OPOs)

Bell County CoOp will consider the general education classroom first when determining the least restrictive environment for a student receiving special education services. Whenever a student is removed from the general

education setting, the ARD/IEP committee will discuss and document in the IEP why the removal is in the best interest of the student.

The student will be educated in a school as close to the student's home school as possible, unless the services identified in the child's IEP require a different location. The Bell County CoOp makes available a full continuum of alternative placement options that provides opportunities for students with disabilities to be educated with nondisabled peers to the maximum extent appropriate. If a student's IEP requires services that are not available at the school closest to the home, the student may be placed in another school that can offer the services that are included in the IEP and necessary for the student to receive FAPE. If needed to benefit from special education, transportation as a related service will be provided at no cost to the parent to the location where the IEP services will be provided. All LRE discussions will be documented in the IEP on district forms and filed by the educational diagnostician/LSSP in the student's special education eligibility folder.

LRE Questions the ARD/IEP Committee may Discuss :

The following are points for discussion and documentation as an ARD/IEP committee determines the appropriateness of the Least Restrictive Environment for a student with disabilities. {based on Daniel R.R. v. State Board of Education, 874 F.2d 1036(5th Cir. 1989)}

- Can education in the general classroom, with the use of supplementary aids and services be achieved satisfactorily for the student?
- Has the Bell County CoOp provided a range of supplementary aids and services which might include some of the following: assistive technology supports; supports from specialists such as behavior support or speech and language supports; and supports from special educators through direct instruction or consultation?
- Have a range of accommodations been considered and tried?
- Have efforts been made to modify the curriculum expectations, if appropriate?
- What educational benefits might the student receive from the general classroom? The student is not required to be able to make the same progress as non-disabled peers. It is also possible that the primary benefits for the student will be social. Those are acceptable reasons to consider inclusion of the student.
- It is allowable to consider the impact of the included student on other peers in the classroom and on the classroom teacher. The ARD will collect data to support this area and to describe the steps taken to ameliorate concerns.
- It is important to consider the sufficiency of efforts which have been taken to support the student within general education. These efforts should be documented and more than mere "minimal efforts".
- If education in a general classroom cannot be achieved satisfactorily, determine whether the student has been included to the maximum extent appropriate for that student and if all academic and non-academic classes in general education with non disabled peers have been considered or tried. This could include times such as lunch or recess.

Placement decisions are made on a case by case basis depending on each child's unique educational needs and circumstances, rather than by the child's category of disability, and must be based on the child's IEP. Students with disabilities will have access to curriculum based on the TEKS in the least restrictive environment appropriate to meet their unique needs.

Placement in a Residential Facility

Resources

§89.61 (a)(2)(4)

TEC §29.008 (d)

(Extracted from Section V, V, IV and V of the OPOs)

For any student in a RF facility in Bell County CoOp, the district will oversee the implementation of the student's IEP and annually reevaluate the appropriateness of the placement. If contracting becomes necessary, reports will be obtained each 6 weeks on the services the student receives.

The Bell County CoOp will follow the federal and state rules as well as the agency MOU agreements in serving students with disabilities in the residential facilities located within our district boundaries. The MOU agreements will be reviewed annually. The MOU requirements are located in Section 8 of the OPOs.document. The following are additional local clarification and guidelines:

1. **Residential Facilities Specialist:** For purposes of compliance, quality and continuity, the Bell County CoOp special education department will designate RF job responsibilities and oversight to one district employee. That identified person will be the district designee to maintain communication and compliance oversight with the RF within the district boundaries. Systematic documentation will be maintained annually by the Bell County CoOp special education department designee. This documentation will include a 3 ring binder with individual sections for each RF within the attendance boundary. The RF designee will maintain the MOU, contact logs, RF meeting Agenda and minutes, correspondence copies, child find/ referral logs, sample referral packet, procedures and local guidelines, sample documentation forms and any other pertinent information.
2. **Child Find:** Annually, in January, the Bell County CoOp will determine licensed / accredited agencies and obtain updated contact information. A survey (by phone, fax or email) will be conducted to determine the student population served. The district will conduct annual training for the RF staff regarding the guidelines for enrollment and referral. Agendas and attendance will be kept in the documentation notebook.
3. **Enrollment Guidelines:** Any MOU requirements will be followed. A designee from each RF will provide information to the Bell County CoOp designee upon student enrollment in the RF. A disposition upon enrollment is made of previous general education or previous special education. Also documentation will be kept if the student enrolling is a current Bell County CoOp student or a non-Bell County CoOp enrolling student. For school age students, the enrollment information is shared with the Bell County CoOp designated RF specialist. Education services are not to be interrupted for any student enrolling in a RF. The RF is responsible for providing the following information: the date of withdrawal from previous district, birth certificate or other proof of identity, student registration, medical history and records, parent approval of participation, student enrollment form, student directory information, parent survey of home language, transcript of working document, and documentation of special education eligibility, current FIE and current ARD/IEP, if the student was receiving special education services. The district will collaborate with the RF on the need for an ARD/IEP committee meeting and follow all guidelines for a student who transfers into the district. In addition, the RF will determine if the student was classified as a 504 student or if the student was receiving any RTI/MTSS interventions or specialized services from the previous district.
4. **Referral and Evaluation:**Determination of Disability and Eligibility for Special Education Services MOU requirements will be followed. Upon enrollment in the RF, the student will receive general education services pending completion of the referral and evaluation process. Upon determination of previous special education services, the special education state rules will be followed as previously stated.
5. **Service Delivery:** If the student has a disability and meets eligibility criteria, follow the federal and state rules and the ARD/IEP committee recommendations. The ARD/IEP Committee will determine any special education, related services or supplementary aides and services necessary for the student to make progress in the general curriculum in the Least Restrictive Environment. If the ARD/IEP Committee determines the special education student should remain in general education, the TEKS/ISD curriculum will be implemented. If the student needs any accommodations in general education classes, those accommodations will be determined by the ARD/IEP Committee and specified in the IEP.

If the ARD Committee determines an alternate state assessment is appropriate, the ARD will develop short term objectives in addition to the measurable annual goals required in (2)(i) above.

If appropriate, any specialized services or supports such as 504 accommodations , G/T, Bilingual / ESL, or Dyslexia will be provided to the RF student.

6. **Progress Monitoring:**The federal and state rules will be followed for all students including those in a residential facility residing in the Bell County CoOp. Progress toward mastery of the goals and objectives will be

documented and reported to the parent/guardian/adult student in the same timely manner as students who do not have a disability. Annual review of the IEP which includes placement in the least restrictive environment appropriate for the student will be conducted by the ARD/IEP Committee following all state and federal regulations.

*7. **Program Evaluation:** The district will continually review the implementation of RF requirements and update the database of RF facilities on an annual basis.*

Staff Training Related to State Assessments

*The Bell County CoOp special education director/coordinators will work closely with the district testing coordinator to ensure special education staff is provided continuous training with local campus staff. The Bell County CoOp will follow the TEA recommendations found online. Training of special education staff will be held annually. The Bell County CoOp follows the most current Assessment Guidance available through the TEA Student Assessment Division for ARD Resource and Special Education Assessment information:

Allowable Accommodations from TEA:

*Continuously updated information regarding accommodations can be found on the TEA website.

ARD/IEP Committee

All students with disabilities must participate in all required state and district assessments including the STAAR, STAAR A and the TELPAS. Decisions regarding such assessments and any accommodations needed by the student will be made by the ARD/IEP Committee. For ELL students, the decision will be made in collaboration with the LPAC. It is important to emphasize that the instructional decisions made by the ARD/IEP committee and documented in the individualized education program (IEP) must always guide the assessment decisions for students receiving special education services.

For students with disabilities working below their enrolled grade level, it is the responsibility of all stakeholders, the state as well as the district, campuses, and classroom teachers—to work with parents and other members of the community to understand and provide the support these students need to reach their academic potential. All students have the right to be exposed to as much of an on-grade-level curriculum as possible. The ARD committee must weigh the benefits of rigorous and challenging expectations given each student's individual strengths, needs, instruction, and accommodations. As always, the ARD committee should first consider administering the State of Texas Assessments of Academic Readiness (STAAR) when making assessment decisions.

Discussions regarding student participation in state and district assessment will be documented on district forms and filed by the educational diagnostician/LSSP in the student's special education eligibility folder

Additional information is available at the following TEA websites:

www.tea.state.tx.us/student.assessment/special-ed/

<http://www.tea.state.tx.us/student.assessment/staar/> <http://tea.texas.gov/student.assessment/special-ed/staaralt/>

<http://www.tea.state.tx.us/student.assessment/special-ed/>

Allowable accommodations are found in the Coordinator's Manuals provided by the TEA. The accommodations listed in the manual will be followed as required by TEA and determined by the ARD/IEP committee for each individual student. The Coordinator's Manual also lists accommodations which are non-allowable.

STAAR - Alt. 2

The Texas Education Agency (TEA) has developed the State of Texas Assessments of Academic Readiness Alternate (STAAR™ Alternate) to take the place of the TAKS Alt. STAAR Alternate is designed for the purpose of assessing students in grades 3–8 and high school who have significant cognitive disabilities and are receiving special education services. STAAR Alternate beginning in 2011–2012. For most current updates see: <http://www.tea.state.tx.us/student.assessment/special-ed/staaralt/essence/> and <http://tea.texas.gov/student.assessment/special-ed/staaralt/>

REQUIRED EXPLANATION OF STATE /DISTRICT-WIDE TESTING FOR THE IEP TEAM - INCLUDING PARENTS:

In order to meet all of the requirements listed above regarding state and district-wide testing, the following questions must be addressed in the ARD/IEP committee meeting. If the ARD/IEP Team determines, based on analysis of current data, that the student cannot take the State or district-wide assessments, the committee shall provide and document the following information:

- A. Specify why the child cannot participate in the regular assessment.
- B. List the particular alternate assessment selected that is appropriate for the child.
- C. Provide documentation (multiple records and multiple sources of information) to answer ALL of the following questions in the affirmative. The student:
 - requires supports to access the general curriculum that may include assistance involving communication, response style, physical access, or daily living skills,
 - requires direct, intensive, individualized instruction in a variety of settings to accomplish the acquisition, maintenance and generalization of skills,
 - accesses and participates in the grade-level Texas Essential Knowledge and Skills (TEKS) through activities that focus on prerequisite skills,
 - demonstrates knowledge and skills routinely in class by methods other than paper and pencil tasks, and
 - demonstrates performance objectives that may include real life applications of the grade-level TEKS as appropriate to the student's abilities and needs.
- D. Explain clearly the differences between assessments based on grade-level academic achievement standards and those based on modified or alternate academic achievement standards.
- E. Explain clearly the effects on the student's education resulting from taking an alternate assessment based on alternate or modified academic achievement standards (such as whether only satisfactory performance on a regular assessment would qualify a student for a regular high school diploma).

Definitions Below:

Accountability: refers to an individual or group of individuals taking responsibility for the performance of students on achievement measures or other types of educational outcomes (e.g. dropout rates.)

Alternate Assessment: an assessment that is different from the one administered to most students. It is best viewed as the "process" for collecting information about what a student knows and can do. The majority of students participate in statewide assessments, some by using accommodations. Some students, however, are unable to take the test even with accommodation. For these students, a state must design an alternate way of determining their learning /learning progress. (Massanari, Carol B.,1999)

Alternate or modified academic achievement standards: a tailored/personalized measurement of a child's attainment or accomplishment of the standards for academic areas of reading, writing, math. This alternate or modified measurement is not the same as the STAAR measurement used with the regular education majority of students.

Differences : While the majority of regular education students will be administered STAAR assessment, the alternate or modified academic achievement standards will be based on the student's functional performance data

gathered by the IEP Team and will be individualized at the student's functioning level and not at the assigned grade level.

Effects on the student's education resulting from taking an alternate assessment based on alternate or modified academic achievement standards :

- *satisfactory performance on the regular STAAR assessment will qualify the student for a regular high school diploma if all credits and other requirements are also met*
- *satisfactory performance on an alternate assessment will qualify the student for a regular high school diploma if all credits and other requirements are also met, however, the following implication should be discussed: taking an assessment other than STAAR limits the student's preparation for post secondary training above the Jr. college entry level.*

Accommodation that does not invalidate the test: *an adjustment, change, or adaptation made to an assessment or the process of administering an assessment to students with special needs. This term generally refers to changes that do not significantly alter what the test measures. It results from a student need and it is not intended to give the student an unfair advantage. All accommodations must be identified in the student's IEP (CEC and the Learning Network 2000-2001).*

Benchmarks: *are statements of what all students should know and be able to do in a content area by the end of grade levels 4, 8, and 12.*

Content Standards: *are broad descriptions of knowledge and skills students should acquire in a particular subject area. The State of Texas content standards are known as the Texas Essential Knowledge and Skills (TEKS) and can be found online at the TEA website.*

Criterion-Referenced Test: *a test that is designed to provide information on the specific knowledge or skills possessed by a student. Such tests are designed to measure the objectives of instruction, skill levels, or areas of knowledge. Their scores have meaning in terms of what the student knows and can do, rather than in their relation to the scores made by some comparison to a norm group (Tuckman, B, 1986).*

Functional Tasks: *skills used in everyday life or that prepare students for life after graduation. These skills include those required for personal maintenance and development, homemaking, and community life, work and career, recreational activities and travel within the community (Smith, D.D., 1998).*

High Stakes Assessment: *state and or district-wide tests that have important consequences for students, staff, or schools (CEC and the Learning Network 2000-2001).*

Large Scale Assessments: *these assessments show how students are performing against state standards or national norms, and to hold school districts accountable for student performance (CEC and the Learning Network 2000-2001).*

Norm-referenced Test: *a test designed to provide information on the performance of test takers relative to one another. It measures basic concepts and skills commonly taught in schools throughout the country. These tests are not designed as precise measures of any given curriculum or single instructional program. The results provide information that compares a student's achievement with that of a representative national sample. (Tuckman, B. 1986).*

Performance-based Assessment: *a task that enables a student to demonstrate abilities to meet objectives or standards (Campbell, Melenyzer, Nettles, and Wyman, 2000).*

Rubric: *a set of criteria and a scoring scale that is used to assess and evaluate students' work (Campbell, Melenyzer, Nettles, and Wyman, 2000).*

Standardized Test : *a type of test that is always administered and scored in the same way. These tests have norms reflecting a larger population (usually these are age or grade based norms reflecting the performance of children throughout the country on the same tests).*

Student Success Initiative Requirements (SSI)

The ARD/IEP committee will address all SSI requirements for students who do not meet the assessment expectations. The following resource is available from TEA: <http://tea.texas.gov/student.assessment/ssi/>

The flowcharts found on the TEA website outline how the SSI grade advancement requirements affect students served by special education. In the case where a student's IEP states that the student is to take STAAR and the student does not meet SSI assessment expectations, the ARD committee will serve as the GPC-Grade Placement Committee.

The ARD committee will design an intensive program of instruction to enable the student, to the extent practicable, perform at the student's grade level at the conclusion of the next regular school term; or attain the state required standard of mastery. The committee will also determine if the parent or guardian is requesting a specific teacher per the guidelines of 28.0211 for students going into grades 4, 6, or 9 the subject areas (reading and/or math) in which the student did not perform satisfactorily on the STAAR assessment.

If a student is receiving special education and related services in a Homebound placement, the ARD/IEP committee will determine the supplemental accelerated instruction that meets the needs of the student based on the student's medical condition and the student's ability to participate in instructional activities.

Individual Graduation Committee Frequently Asked Questions (TEA)

(Extracted from 4a, VIII (F) of the OPOs)

The manner in which a student with a disability meets requirements for graduation will be determined by the IEP/ARD committee. This Summary of Performance (SOP) will be completed prior to graduation using the district approved form. (Agency input will be requested upon parent/adult student consent, Summary of Performance is supported with information included in student's IEP/transition supplement.)

The Bell County CoOp will discuss graduation ceremonies and certificate of attendance during the Annual ARD/IEP meeting for students not completing their IEP but wishing to participate in the graduation ceremony with their classmates. At the annual ARD meeting beginning the 8th grade year provide the following information to parents: a student who has completed 4 years of high school but has not completed the IEP may elect to participate in a graduation ceremony with his class. The student shall receive a certificate of attendance. The student shall receive a diploma upon completion of the IEP. By law, a student may participate in only one graduation ceremony.

The Bell County CoOp encourages student involvement in the ARD/IEP meeting no later than the 8th grade to ensure not only the parent but also the student understands the differences in the High School Graduation Options. Discussion regarding graduation will be documented on district forms and filed by the educational diagnostician/LSSP in the student's special education eligibility folder.

Extended School Year

§300.106 (a),(b).

§89.1055(c).

§89.1065

(Extracted from 4b, Section I, F)

The following guidelines will be used to assist in identifying students who may need ESY services. ESY services are determined on an annual basis, are not synonymous with summer school and are not intended as a recreational service. ESY services may be provided during the summer, before or after school hours, or during school vacations depending upon the need of the individual student.

1. Decisions concerning the qualification for ESY services will be based upon a body of data collected throughout the school year. This data will include student work, anecdotal records, charting, etc: Procedures will include the following:

- a. Identification of students who have experienced regression on specific IEP objectives at the beginning of the year compared to IEP reviews conducted the last six weeks of the previous school year. This process is done for students who did receive ESY services and for students who did not receive ESY services.*
- b. At the IEP progress review at the close of the first six weeks, students identified at the beginning of the year as having experienced significant regression, should be evaluated to determine if they have recouped the skills lost during the summer. For those students not evidencing recoupment of skills at this review, another review should be conducted following an additional two weeks.*
- c. Throughout the school year, following holiday breaks, etc. additional data may identify students who are experiencing regression on IEP goals.*
- d. For some students regression might be considered substantial even though recoupment does occur within the six to eight weeks (includes the 2 weeks of additional reteach). This is particularly true in critical skill areas such as health, safety and vocational skills. This must be an educational decision by the ARD/IEP committee, based on knowledge of the individual student's needs and current IEP goals and objectives. Data reviewed may also include predictive data, based on the opinion of professionals in consultation with the child's parents as well as circumstantial considerations of the child's individual situation at home and in his or her neighborhood and community.*

2. The ARD/IEP committee will review the body of data in determining the need for ESY services for the coming summer break for any student:

- a. For whom the data indicates regression and recoupment issues*
- b. For any student referred by their parent for regression and recoupment issues.*

3. The ARD committee in reviewing the need for ESY services will determine the appropriate IEP goals and objectives from the current IEP and the required amount of instruction time needed to prevent regression and recoupment issues.

4. For students transferring into the district during the school year the following procedures can be used to determine the need for ESY services:

- a. Attempt to contact a teacher from the student's original school for supporting data related to regression*
- b. Begin immediate data collection using the FIE, current IEP goals and continue with data collection throughout the school year focusing particularly on school holidays and student performance following such holidays.*

5. For ECI students new to the district, the staff will use all existing data to analyze regression recoupment of the goals and objectives on the IEP or the IFSP.

Data to support ESY decisions will be collected by the special education staff supporting the student and presented to the ARD/IEP committee for consideration. All decisions regarding ESY will be documented on district forms and filed in the student's special education eligibility folder by the educational diagnostician/LSSP
