

# Mrs. Roberts'

# farm

**September 16 - 20,  
2019**

Things are starting to move quickly in First Grade! In writing we will continue to read Personal Narratives and add to our own Narratives. In math we will continue to work on counting on, to solve the unknown. We will start our Space unit in Science this week. We will focus on s-family blends in Phonics. We will be focusing on words that begin with an s followed by a consonant. Some examples would be scan, snug, span, stop, swim, snap, stem, slip, skip, spot, or small. Have your child show you how they can segment and blend & Onset and Rime.

Have a great week!

## TABLE TALK

- Why do we have day & night?
- Can we predict what our shadow will look like?
- Outer Space: "I'm So Hot," Song by StoryBots on Youtube
- Give them 2 numbers under 10 to add & see how fast they can do it (ask what tap & count is)
- Count backwards from 30-0
- What words did they segment?
- What words did they Onset & Rime?
- Big Book – Smarty Pants (have them retell the story. It is about a clown who loves adventure & takes one chance too many.
- Have them tell you what an adjective and noun are & examples of both. They could even write a sentence using their noun & adjective.

## Important Dates
