

ASBESTOS INSPECTION

In accordance with the federal Asbestos Hazard Emergency Response Act (AHERA), the technology center has identified all asbestos materials present within the district and has developed appropriate plans related to asbestos within the district. The technology center complies with all AHERA regulations, including periodic public advertisements and walk- through inspections. The technology center has selected the District Safety Coordinator to be its “AHERA Designated Person” for each site within the district. The AHERA Designated Person can be contacted at 918-465-2323.

All required documentation for an individual site is on file and available for inspection in the campus director’s office. A copy of the documentation for each site in the district is on file and available for inspection in the superintendent’s office.

Please refer to attached plan ([link](#))
