

Lavoro per l'estate per la classe di Italiano 2 Avanzato:

[Class Code: 2xmcojr]

Summer is a great time to relax, to stay productive without forgetting what you have learned, and to catch up on things you might need to know for your next scholastic year....this guide will help you stay connected with the language and be ready. Make sure you save all completed optional work as a Google document (especially for the grammar exercises!!!); this also includes the writings, if you decide to do them (one per week-Use the grammar table to help you write along with the vocabulary slides). It is very important that anything you do is on your **OWN** so that I know what needs to be reviewed and where everyone is in their language learning. You will only be wasting **your time and mine** if you do not take this seriously and commit to continuing your learning. Submit all work on Google Classroom at the end of August, before we return to school. I look forward to meeting new faces as well as old ones this fall and to continue your adventure in learning and understanding the Italian language!!!

Ci vediamo
