

French 2 Honors

Summer Work 2021

For summer work, you will keep a written portfolio documenting your work. It is to be handed in on the first day of school. This work is not a punishment. It is to keep up your French skills. Do it at your leisure, but please try to do at least 45 minutes a week. Enjoy it!

Keep a journal of what you are doing, going to do, and have done during the summer. Include entry dates and times. Listen to French music and include the names of the songs as well as the names of the singers, and what country they come from. Practice your listening, reading, writing, and speaking skills with some of the recommended websites. Please **do not limit** yourself to the recommended websites. Keep a list of other sites you have used in your journal.
