

## STUDENT CONSENT FORM FOR OPTIONAL COVID-19 TESTING

The Amarillo Independent School District takes the health and safety of our students and their families very seriously. As such, in addition to steps to screen for the virus and prevent its spread on a campus, we are adding a voluntary K-12 COVID-19 testing program for students. This program uses Abbott Laboratories BinaxNOW tests provided by the federal government. Your child will only be tested with your consent. If you are willing to provide consent for us to administer this test on your child, please fill out this form. (If you are a student age 18 or older, please complete this form prior to testing.)

**What is the test?** If your child is symptomatic or part of a group that is designated for testing, if you consent, your child will receive a free BinaxNOW rapid test for the COVID-19 virus. Collecting a specimen for testing involves using a swab, similar to a Q-Tip, placed inside the tip of the nose. A school staff member who has been trained to use this test will collect the specimen and a trained COVID-19 test administrator will oversee the process. Test results will be made available to the parent/guardian or adult student who signs this form below. (In accordance with FERPA, an adult student's results may be shared with the student's parent/guardian.) The results will be sent by text message and email within 24 hours of the test. This program is **entirely optional** for students, although we hope you choose to have the test to keep our schools as healthy & safe as possible. The tests are being offered in addition to existing safety protocols such as mask-wearing, social distancing, and frequent disinfection of surfaces.

### **What should I do when I receive my child's test results?**

We ask that you keep your child home until the infection period has ended (typically, after symptoms improve and at least 10 days from the date symptoms first appear) and your child is no longer contagious. If your child's test results are negative, the virus was not found in the specimen tested and your child may continue to attend school without interruption. In a small number of cases, tests sometimes produce incorrect results – showing negative results (called “false negatives”) in people who have COVID-19 or showing positive results (called “false positives”) in people who don't have COVID-19. If your child tests negative but has symptoms of COVID-19, or if you have concerns about your child's exposure to COVID-19, you should call your child's doctor, a licensed medical authority, or your local health department.

### **Known Symptoms:**

**CONSENT**

By signing below, I attest that:

- A. I authorize the school system to conduct collection and testing of my child or me (if student age 18 or older) for COVID-19 by nasal swab.
- B. I acknowledge that a positive test result is an indication that my child or me (if student age 18 or older), must self-isolate and also continue wearing a mask or face covering as directed in an effort to avoid infecting others.
- C. I understand the school system is not acting as my child's medical provider, this testing does not replace treatment by my child's medical provider, and I assume complete and full responsibility to take appropriate action with regards to my child's test results. I agree I will seek medical advice, care and treatment from my child's medical provider if I have questions or concerns, or if their condition worsens.
- D. I understand that, as with any medical test, there is the potential for a false positive or false negative COVID-19 test result.

I, the undersigned, have been informed about the test purpose, procedures, possible benefits and risks, and I have received a copy of this Informed Consent. I have been given the opportunity to ask questions before I sign, and I have been told that I can ask additional questions at any time. I voluntarily agree to this testing for COVID-19.
