

Dear Instructors,

Below is information regarding how to qualify for the 2019 OKNASP State Shoot(s).

If you wish to participate in the 2019 OKNASP State Shoot, you must first submit a team score from an Interschool Shoot. **Inter-school Shoot scores must be received by midnight January 7, 2019.**

There are two options for Inter-school Shoots:

Option 1: One or more schools travel to another school campus to participate in a shoot.

Option 2: If a school cannot travel, the coach from another OKNASP school can come observe your students at your facility and those scores will be accepted.

A standard NASP shoot is composed of a practice End at 10m and 3 scored Ends at 10m, followed by a practice End at 15m and 3 scored Ends at 15m. Record the scores for each team member. Remember there is no limit to team size at Inter-school Shoots. Identify the top scores of your team with a maximum of 12 scores total (must include at least 4 of each gender). Scores will need to be submitted this year on nasptournaments.org to either the East or West pre-qualifier shoot. To login and submit scores you will need to have an active BAI instructor number. To check your BAI Status go here: <https://naspbai.org/default.aspx>

You will need to determine if your school is East or West, follow the link below to see the 2019 OKNASP State Shoot county map.

<http://bit.ly/2019OKNASPMap>

To submit scores for the East go to: <http://bit.ly/2019OKNASPEast>

To submit scores for the West go to: <http://bit.ly/2019OKNASPWest>

There is no minimum score to qualify. All teams submitting scores will be allowed to participate in one of the State Shoots listed below.

To allow full participation, there will be (4) State Shoot events, each team will be assigned to one of them:

DATE EVENT LOCATION

February 13, 2019 West State Shoot Tier 2 OK State Fair Park, The Pavilion

February 14, 2019 West State Shoot Tier 1 OK State Fair Park, The Pavilion

February 20, 2019 East State Shoot Tier 2 Tulsa Expo Square, River Spirit Expo

February 21, 2019 East State Shoot Tier 1 Tulsa Expo Square, River Spirit Expo

Tier assignments will be determined from the submitted Inter-school Shoot scores. Scores will first be categorized as East or West. Then, they will be divided into upper and lower halves. The upper half will

be assigned the appropriate Tier 1 event and the lower half will be assigned the appropriate Tier 2 event. There is no way of knowing what the midpoint will be or which shoot your team will qualify for until we have received all scores. If all goes well, we will post who qualified in what Tier by January 19th.

Remember:

- There is no limit to team size at Inter-school Shoots, however no more than 12 scores can be submitted. Be sure to submit your top 12 scores, and include at least four of each gender.
- There is no limit to how many Inter-school Shoot events in which a team may participate.
- Only one set of scores per team can be submitted. Scores submitted must be from a single event (you cannot combine events to improve your team score).
- Schools submitting less than 12 scores may be limited on the amount of spaces at the State Shoot. This will help reduce the presence of empty lanes in some of the flights. Teams that submit 12 scores will receive 16 spots for shooters at the state shoot.
- You must provide contact information (name, phone and email) for yourself and the other participating school coach/administrator from the Inter-school Shoot.
- Be sure to keep a copy of all scores generated at your event.
- The maximum team size for the State Shoot will be 16 students (Team score is comprised of top 12, including 4 of each gender).
