

COVID-19 When Can I Be Around Others?

**FOR ADDITIONAL QUESTIONS CALL YOUR
COUNTY HEALTH DEPARTMENT**

I KNOW/THINK I HAVE COVID-19 WITH SYMPTOMS (ISOLATION)

You can be around others after -
10 days have passed since your
symptoms first appeared **AND**

Symptoms have dramatically
improved (cough, shortness of
breath) **AND**

You have been fever free for at
least 24 hours (without use of
fever reducing medication)

I TESTED POSITIVE BUT HAVE NO SYMPTOMS (ISOLATION)

If you continue to have no
symptoms, you can be around
others after -

10 days have passed since
you were tested

If you develop symptoms after
testing positive, follow the
guidance for "I know or think
I had COVID-19 AND I had
symptoms"

I WAS A "CLOSE CONTACT" OF SOMEONE WITH COVID-19 (QUARANTINE)

You should quarantine (stay
home, monitor for symptoms)
for **14 days** AFTER LAST
EXPOSURE. This is based on
the time it takes to develop
illness.

Close contact means within 6
feet of the individual for at
least 15 minutes.

Contact your county health
department if you begin to
experience symptoms.
