

LET'S WORK TOGETHER TO STAY HEALTHY.

WHAT WE'RE DOING.

Expanded PPE including mask, eye/face shield, and gown in addition to gloves	Provide table top acrylic barrier where space allows
Enforcing mask utilization throughout clinic	Provide hand sanitizer for participant use
Temperature check for all prior to event start. Those with temperature 100.4 or higher will not be allowed to participate	Touchless thermometer for use throughout clinic
Virucidal/germicidal cleaning supplies to sanitize surfaces throughout clinic	COVID symptom screening before each service
Medical disposal	Online appointment scheduling tool to assist with social distancing

WHAT YOU SHOULD DO.

Require participants to wear a face mask and encourage social distancing	Communicate to employees that they must be fever free to participate
Provide representative to help with social distancing, appointments, and temperature check	Provide outside, covered space or large open space indoors that permits social distancing
Ask employees to make appointment using H-E-B's online scheduling tool	Provide a garbage can for nonmedical waste
Encourage employees to pre-complete consent form, use own pen, and wash hands prior to clinic to help prevent the spread of germs	If possible, provide an employee roster with names and insurance ID to help limit contact
