Dr. Deidre Parish, Superintendent

November 5, 2020

Parents and Staff,

Darrouzett ISD has been notified that a female in elementary school has tested positive for COVID-19.

Darrouzett School has been deeply sanitized and all District employees and students are instructed to continue to follow CDC guidelines and recommendations and to practice social distancing.

Based on the information that we have gathered, it has been determined that the end of the 14-day incubation period for anyone possibly exposed on campus to the student is November 18.

Out of an abundance of caution, we advise you to monitor your health, follow the [CDC guidelines for people who have had close contact](#) and contact your primary care physician if you develop symptoms. Should staff or students develop symptoms, the appropriate District administrator should be immediately notified.

The District is continuing to monitor this situation and will provide additional information as needed. We hope for a successful recovery for our Darrouzett ISD student.

Sincerely,

Superintendent of Schools
