

Algebra 2
Week 27
Mr. Whitmire

Monday

Graphing Cube Root Equations

Today, students will apply negatives and numbers outside the radical when graphing cube roots.

Assignment: Students will graph problems 3-12 on the attached worksheet.

Tuesday

Today, I will work problems 3-12 on the board and explain the new concepts as we go through the problems

Wednesday

Today, students will complete a mixed review over graphing square root and cube root equations to prepare for the test on Thursday.

Thursday

Test over graphing square root and cube root equations.
