

Algebra 2
Week 28
Mr. Whitmire

Monday

Sct. 11.1 Radical Expressions and Rational Exponents

Students will learn to go from rational exponent form to radical form and vice versa.

Assignment: P-#386 problems 1-16 all. Students focus on changing forms and not simplifying

Tuesday

I will go over the problems the students worked on yesterday from the book to show how to simplify the answers.

Assignment: Worksheet attached to Google Classroom problems 1-12 and 25-32 omit 26 and 31.

Wednesday

Today, since so many people are gone, I am just going to add more problems to yesterday's assignment.

Assignment: Add to yesterday's problems 15-17, 19-22. Just change the form that the problem is in.

Thursday

Today, we are going to continue simplifying rational exponents and radical expressions.

Assignment: Radical Expressions and Rational Exponents WS #2
