- Students must meet EHS pre-requisites in order to enroll in these courses AND have an EHS GPA of at least 3.0.
- Students must pay for college credit per the fee established by Newman University. At this time, we anticipate the fee to be \$75 per college credit hour PLUS any lab fees required.
- Please also note that students are responsible for purchasing college level texts for these courses. In cases where EHS already has books that are required for a course, those texts will be used and students may not have to purchase the book that year. However, please note that it is ultimately the student's responsibility to obtain the texts for these courses.

- ❖ In order to help you plan for next year, we have compiled a list of required texts for 2017-2018. You should PLAN on purchasing these texts. Students should be in contact with their instructor for next year for requirements and questions.
