

Many of our older students are already familiar with their school email. For the younger ones this may be new.

For example:

Most student emails are set up:

firstname.lastname.yearofbirth@applus-student.org (ie. jose.borrego.2009@applus-student.org)

For example:

Some students have a middle initial:

firstname.middleinitial.lastname.yearofbirth@applus-student.org (ie. John.T.Smith@applus-student.org)

The Password is: IV followed by the entire student ID including the leading zero.

For example:

IV0123456
