Hello Parents,

The CDC and Utah Department of Health have made recommendations for children under the age of 12 who are attending in person school this year. Under the direction of these agencies, Voyage will be implementing the following recommendations:

IN PERSON LEARNING:

- Due to the benefits of in person learning, Voyage will provide in person learning during the 2021-2022 school year.
- If a student is placed in quarantine due to exposure, teachers will work with parents to manage continuity of learning services.

WEAR MASKS:

- Due to the circulating and highly contagious Delta variant, CDC recommends universal indoor masking by all students and visitors to K-12 schools. We are strongly recommending that students and visitors wear masks.

PREVENTATIVE MEASURES:

- Health screenings to employees and visitors,
- Increase ventilation,
- Enhance handwashing and respiratory etiquette,
- Maintain a clean and disinfected environment,
- Employees and students are asked to stay home when sick and get tested,
- During a known exposure, contact tracing in combination with quarantining, and/or isolation will take place.

OUTBREAKS:

- Voyage will monitor community transmission, vaccination coverage, screening testing, and occurrence of outbreaks to guide decisions on the level of layered prevention strategies (e.g., physical distancing, screening testing).
EXPOSURE:

- If a student has been exposed to Covid, the local health department and Voyage will decide which of the following quarantine options are recommended:
  - Quarantine at home for 10 days.
  - Quarantine at home for 7 days and then get tested. If the test is negative and there are no symptoms of Covid, students can return to school.
  - Wear a mask at school for 10 Days.
  - Wear a mask for 7 days and then get tested. If the test is negative on day 7, the student does not need to wear a mask anymore.
