III. Discussion/Action Items

A. Discuss and/or Consider Changes to the Current COVID Protocols and Definitions

Mr. Metzler explained reasons to change the COVID Protocols dealing with the mandatory requirement for students and staff to wear masks. He stated that the district had only seen one positive student COVID test in the past five weeks and that the county COVID rate had dropped considerably recently. He provided survey results from employees of the district that indicated 70.5% of the staff did not think students should be required to wear masks while at school and that 72.35 did not think staff should be required to wear masks while at school. His recommendation was that students and staff may wear masks but are not required to do so. Visitor would still be required to wear masks when in the building at this time. Further, he recommended that the definition of "close contact" be changed to the following "Close contact is defined as all persons living inside the home of a positive test result."

Randy Andrews made the motion to approve the changes as presented. Dawn Pollard seconded the motion. It was approved 6-0.

Adjournment – The meeting adjourned at 6:08 PM.
