

Industrial Maintenance Technician Program

- AC/DC Electrical
- Electric Relay Control
- Electric Relay Control Troubleshooting
- Motor Controls I
- Motor Control Options
- PLC Motor Controls
- Basic Pneumatics
- Intermediate Pneumatics
- Advanced Pneumatics
- Basic Hydraulics
- Intermediate Hydraulics
- Electro-fluid Power
- Mechanical Drives 1—4
- Programmable Logical Controllers (PLC) 1 & 2
- Arc Flash/Arc Blast Electrical Safety Awareness

400 Hour Program

This is hybrid program where students will complete a module on their own time in the online interactive curriculum, then schedule time with an instructor on campus to practice and test their hands-on skills for each module. Students will work through the course at their own pace but minimum dates for completion will be set per class.

Total cost for the 400-hour program which includes a basic electrical tool set, Fluke electrical meter, and online e-learning curriculum use is **\$6200.00**

Oklahoma Works Approved Program To see if you qualify call the Okmulgee WIOA Office (918) 304-3132

This course may also be funded though Native American Tribes. Contact your tribe to find out.
