Policy 6.204 Attendance of non-residence students

In the past, state law permitted districts to decide whether or not to charge tuition to the child of a teacher who lived out of district. Discretion has been expanded to all employees. Boards can now choose to allow children of district employees to attend tuition free.

Policy 6.318 Admission of suspended or expelled students

Previously, state law required that the Commissioner of Education be notified if a district denied enrollment to a student who had been suspended or expelled from another school district. The notification requirement is removed in the update.

Policy 2.806 Bids and Quotations

This update addresses a school board's bidding threshold and updates bidding requirements for insurance providers.

Public Chapter 951

Each school district must designate a foster care liaison to facilitate compliance with state and federal laws on students in foster care.
