WESTON INTERMEDIATE SCHOOL

Weston Intermediate School takes pride in creating a caring, responsive community of learners that fosters pride in each student's developing abilities. We build the essence of community each day in every classroom, and provide learning experiences that challenge each student to pursue personal excellence in every aspect of their lives. We focus on enhancing students' ability to think critically and creatively, and to be innovative problem solvers and proficient communicators; to speak and write effectively and clearly across all subjects.

This budget proposal supports our highest priority needs, which include the continued implementation of a revised writing curriculum aligned with the Common Core standards; ongoing implementation of the revised math curriculum; utilization of student data to provide individualized instruction; and the implementation of a social-emotional curriculum through the Positive Behavioral Interventions and Supports initiative. We will also continue to support 21st century skills by embedding the district's Academic Innovation and Measurement (AIM) initiative within and across the curriculum.

In addition, this proposal supports the reallocation of staff to reflect one additional certified teacher to provide research-based literacy interventions for students who need additional support. During this developmental time, students are moving from "learning to read" to "reading to learn." In order to prepare our students for the more advanced reading in all content areas that they will encounter, it is essential that we provide them with the foundational skills and strategies in order to become competent and confident readers and thinkers. Advanced literacy training in reader's and writer's workshop for all grade-level and special education teachers will also continue. Administrators, Curriculum Instructional Leaders, and the certified reading teachers will provide teachers and support staff with focused and ongoing training and feedback to support professional growth for improved student learning. This budget also supports intervention services in mathematics to meet the varied needs of our learners, as well as additional enrichment opportunities to extend learning beyond the classroom.

Through a continuous renewal process, we work to align our curriculum with the Common Core and State frameworks. As our teachers differentiate instruction in the classroom, they are also able to address the strengths and struggles of each individual student. Ultimately, our goal is to challenge our students with a curriculum experience that is rigorous, relevant, and personalized. We achieve this through the implementation of a workshop approach to instruction in all subjects, the creation of common assessments across subjects and grade levels, ongoing professional development for teachers that is both immersive and job embedded, and a comprehensive unified arts and technology program. Our mission is to build a foundation for success by providing a balanced learning environment that supports problem solving, creativity, and independent thinking.

In 2015-2016, our overall enrollment will be 524 students. Enrollment in the fifth grade will remain relatively unchanged at 183 students, while there is a projected increase of approximately 11 students in the fourth grade. The third-grade students will be organized in

seven sections with a projected decrease of 32 students; this represents the most significant change in our enrollment. In order to meet district class size guidelines, the total number of sections will remain unchanged for fourth and fifth grade, and will be decreased by one section in third grade for 2015-2016.

Weston Intermediate School is committed to the pursuit of character, knowledge, creativity, and a dynamic learning experience that challenges each student to continually pursue personal excellence. By placing students at the center of our work, we believe we can meet this commitment in the coming school year.

The following chart reflects the total staff assigned to Weston Intermediate School for certified and non-certified staff by cost center. This chart includes staff funded by the general fund and from federal grants (reflected in green). The second chart reflects a detailed list of the staffing that is budgeted under the school.
