

Garden Project

The Bray Doyle Garden Project is getting started with several raised beds, a compost tumbler and a Hoop House. I want to thank all the staff and students for their help setting up our new Hoop House! It was a hot job! The Compost Tumbler is located on the South wall of the Cafeteria and is hard at work decomposing food scraps. Feel free to give it a SPIN. Aeration from the spinning helps keep the process going.

Our Recycling Contest was a huge success! We will be building "wicking tubs" with the plastic jugs collected. Thanks to everyone that participated, Bray-Doyle Donkeys are awesome recyclers! There will be two winners. One in Elementary (3 Yr old - 4th Grade) and one in Secondary (5th Grade to Senior). Winners will be announced October 5 and parties will be arranged with the winners. By the way, start collecting and crushing your cans. We will begin our next contest collecting aluminum cans soon.

Big THANK YOU to everyone who has donated supplies for our project!!!!

Several people have asked for a list of needs so here is what I can think of:

- Garden Gloves - various sizes (elementary will start in the spring)
- Turning fork, shovel, trowels, cultivators and pruners
- Water Cans, Water Hose
- 2 x 4's 8 ft and 3 ft wide wire fencing for greenhouse tables
- $\frac{3}{4}$ - 1" PVC (cutoffs are great, will be cut into 2 ft sections)
- Seed starter trays and miscellaneous pots
- Bagged grass clippings and leaves
- Small bales of hay (junk hay for compost pile edges)

It's a variety. If you can think of anything useful for starting seeds, caring for plants or composting get in touch with me bramsey@braydoyle.k12.ok.us

Again, A HUGE THANK YOU TO EVERYONE!

Bobbie Ramsey
