

Information on Return to Full-day Schedule

HFISD has started the move-in process with the Middle School portables in Hamshire. Therefore, on Wednesday, February 12, 2020, the district will return to a full-day school schedule with high school and middle school students. Elementary and intermediate grade students will continue on the same schedule until the end of February. The district added additional drainage work in Fannett that pushed back the project completion in Fannett. Please remember that full-day services are still offered for elementary and intermediate grade students. A map of the Hamshire traffic flow is included, and we'll have law enforcement helping with traffic flow. Please follow the traffic flow map to alleviate back-up onto Highway 124. We appreciate your patience and look forward to having all students back full-day soon.
