Corning Optical Communications

Corning is the world leader in specialty glass and ceramics, creating and manufacturing keystone components that enable high-technology systems.

With more than 160 years of science and engineering knowledge, Corning Incorporated creates keystone components for high-technology systems in consumer electronics, mobile emissions control and life sciences. Our **Optical Communications** segment delivers connectivity to every edge of the network, from optical fiber, cable, hardware and equipment to **fully-optimized** optical solutions.

What we do is life changing. Our innovations help customers keep pace with the world's insatiable demand for bandwidth, accelerating the delivery of information and keeping the world connected to the important people, places and things that enhance our lives.

Manufacturing Technician I
Concord Plant

Responsible for successfully executing the front-line, well-defined tasks and activities in direct support of the assigned department's daily objectives and outputs.

This position includes significant duties such as:

- Follows all safety, health and environmental procedures and actively participates in maintaining and improving department safety.
- Operates equipment used to produce, transport, test or measure quality, store, ship or otherwise handle optical fiber within the facility, or equipment used to support or maintain the facility infrastructure. Specific activities can include but are not limited to setups, cleans, monitors, loads/unloads raw materials, inspects, and/or audits. Required to annually recertify on job performance.
- Follows established procedures to monitor and maintain equipment used for raw material storage, raw material delivery to point of use, waste product collection, handling, storage and disposal in compliance with all air and water permits.
- Performs data entry for pertinent department or equipment information.
- Performs first level troubleshooting as defined by area documentation.
- Inspects and/or refurbishes equipment parts using well-defined procedures.
- Writes or updates documentation relevant to job or department activities.
- Performs general administrative support such as schedules of meetings, types, prepares presentation or supporting materials, copies, files, or performs receptionist activities.
- Monitors and replenishes inventory of supplies and parts pertinent to department; places orders to maintain inventory at specified levels.

Working Conditions & Schedule:

- Some work areas require working at heights of up to 20 feet with proper safety equipment
- Some work areas require working in spaces with elevated temperatures
- Occasionally lifts up to 50+ pounds.
- This position follows the DuPont Schedule, which is a rotating schedule between days and nights.
- Shifts will be 12 hours long and will cover weekdays, weekends, and some holidays
- Mandatory overtime may be required

Education:
High School Diploma or GED required. Job duties require specific knowledge and skills, which are acquired through classroom and on-the-job training.

Experience:
Some manufacturing experience or related experience preferred.
