2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

Smith Elementary School is located in the southern section of the City of Huntington Beach, three blocks from the Pacific Ocean. It was built in 1950 and was originally intended to be an extension of the K-8 school named, "Central School" as an overflow for their crowded campus. As the population of the surrounding neighborhood grew, Smith continued to add more classrooms to the campus. In September of 1965, Smith became an elementary school and Central School became a junior high school. Smith is named after its first principal, Agnes L. Smith, an instructional leader, dedicated to helping students become life-long learners and productive citizens. As it stands today, Smith's campus is 3 blocks wide, spanning from 14th Street to 17th Street.

Smith Elementary School operates on a traditional school schedule. It is a thriving learning community of 600 students in grades K-5, 28 teachers, 4 para-educators, and 15 support staff, along with an expanding extended family of parents and community members. Smith's Learning Community is a place where all stakeholders are engaged and collaborative participants in the learning process as they pursue the school vision of "High Academic Achievement for All Students". Smith's vision guides all decisions and determines all actions as all participants (students, staff, and families) work together to provide each student with a strong foundation for the future.

Smith Elementary School's mission of "The Relentless Pursuit of Learning" is observable throughout the campus, which is an inviting, safe, clean, and attractive campus that provides an optimal learning environment for all learners, as well as, is an asset to the Smith Surfer community. Common Core Standards and specific learning objectives guide daily classroom instruction and staff meet regularly to analyze student performance data and to plan research-based instruction and supports. Additionally, all 28 classrooms have been upgraded to a 21st-century learning environment with 1:1 technology devices in every classroom, along with a brand new library and media center.

Smith Elementary School is a Title 1 school serving a fair population of low socioeconomic students and English Learner students. The Smith Staff is diligent in its pursuit of optimal learning for all students. Smith offers specialized classes in vocal music provided by a credentialed music teacher, intervention reading and math interventions provided by credentialed teachers, as well as English Learner Development supports, to meet the varying needs of its students. The Smith PTA also provides programs that enrich the daily program and provide enhanced learning opportunities for all of the diverse needs of Smith students such as Meet the Masters' art lessons, Red Ribbon Week activities, Freckle online computer programming, and much more. The Smith Surfer community continually strives to be the very best as we "Ride the Wave to Success".

A. Conditions of Learning State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

2022-23 Quality, Currency, Availability of Textbooks and Other Instructional Materials

Pursuant to the settlement of Williams vs. the State of California, Huntington Beach City School District thoroughly inspected each of its school sites at the start of the 2022-23 school year to determine whether or not each school had sufficient and good quality textbooks, instructional materials, and/or science laboratory equipment.

All students, including English Learners, are required to be given their own individual textbooks and/or instructional materials (in core subjects), for use in the classroom. Additionally, all textbooks and instructional materials used within the District must be aligned with the California State Content Standards and frameworks, with final approval by the Board of Education.

Textbooks and instructional materials used in the district in the core subject areas of English-Language Arts, Mathematics, Science, and History-Social Science.

School Facility Conditions and Planned Improvements

Smith School was built at various times during the 1950's with portable classroom buildings added in the late 1980's through the 1990's. This site consists of an office area, library, multipurpose room, warming kitchen, original 23 classrooms and 9 portable classrooms. The site also has a YMCA portable building used for before and after school child care.

Improvements during 2020 include modernization of the classrooms into 21st Century classrooms with new furniture, technology, infrastructure and Chromebooks. Other repairs include roof replacement, upgrades to existing facilities P.A. and Bell system, updated phone and fire alarm. Upgrades made to MERV 13 air filters per CDC guidelines.

The new Administration building and additional classrooms were completed creating a single point of entry to the campus as well as security fencing, a new drop off and parking area. Facilities are inspected continuously by custodial and maintenance personnel, and work orders are submitted as needed.

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
English Language Arts/Literacy (grades 3-8 and 11)	N/A	65	N/A	68	N/A	47

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

Parents and the community are very supportive and collaborative of the educational programs at Smith Elementary School. The Smith School Parent Teacher Association (PTA) has made generous contributions of time and money to numerous programs and classroom learning experiences, including field trips, assemblies, book fairs, skating parties, Meet the Masters, PTA Reflections, and Imagination Playground blocks, which all enable students to have a quality experience at Smith Elementary School. Additionally, PTA has provided grant opportunities for teachers to fund additional instructional materials and enrichment activities. Smith Elementary School is fortunate to have a large number of parents who volunteer their time working in the classroom to assist teachers and support small group instruction. The school's programs have also been enriched by the generous contributions made by the following organizations: Barnes and Noble Booksellers, Huntington Harbor Philharmonic, Las Damas, 25 degrees, Miguel's Jr., and other local businesses.

Parents are encouraged to be involved at Smith School by volunteering in the classroom, planning school PTA sponsored activities such as the Read-A-Thon, and joining one of the many PTA or school committees, all of which enhance our school program. Families are also encouraged to attend Family Movie Nights and Smith Family Restaurant Nights. Parents can go to our PTA website at www.smithpta.org to learn how to get involved. Additionally, parents have opportunities on several committees that support Smith Elementary School. The Smith Elementary School Site Council is a leadership body consisting of staff and parents. Interested parents can submit their names in the fall and participate in an election for representation on the council. The council gathers input for use in the decision-making process regarding the expenditure of site funds in alignment with the implementation of our school plan. Families participate in school meetings such as Back to School Night, PTA meetings, SSC and ELAC meetings, and parent-teacher conferences. All parents of Smith's English Learner population are encouraged to participate in Smith's English Learner Advisory Committee (ELAC) to provide input and get connected to the Smith Elementary School culture. Parents of Title 1 students are involved in creating and implementing the Parent Involvement Home-School Compact distributed to all parents during Aeries data confirmation and throughout the school year. Parents are also able to choose between in-person or virtual parent-teacher conferences, IEPs, 504s, and SSTs. With this flexibility of opportunities to attend, Smith Elementary School has observed an increase in parent participation. This participation is critical to the success of Smith Elementary School.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Subject	School 2019-20	District 2019-20	State 2019-20
Suspensions	0.40	1.14	2.45
Expulsions	0.00	0.01	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

2022-23 School Safety Plan

The Comprehensive Safe School Plan was developed by the district to comply with Senate Bill 187 (SB 187) of 1997. The plan provides students and staff with a means of ensuring a safe and orderly learning environment. Each school includes the following requirements of SB 187 within their safe school plans: current status and assessment of school crime; identification of strategies and programs that provide and maintain a high level of school safety; child abuse reporting procedures; disaster procedures, routine and emergency; policies related to suspension and expulsion; notification to teachers; sexual harassment and discrimination policy; policies and procedures for the prevention of bullying; provision of a school-wide dress code; safe ingress and egress of pupils, parents, and school employees; safe and orderly school environment; and school rules and procedures.

The school evaluates the plan annually and makes any modifications as needed. Safety procedures, including elements of the Safe School Plan, were reviewed with school and district staff during the winter of the 2022-2023 school year. The plan was reviewed and updated with staff and School Site Council in early 2023.

The district progressively addresses structural needs at each school to ensure facilities are safe and comply with education codes as well as building and safety regulations. One automated external defibrillator (AED) was installed in the administration building. A \$169 million bond (Measure Q) approved in November 2016 provides the necessary funding for District-wide modernization efforts. The Smith campus was under construction during the 2019-20 school year and major improvements included the renovation of learning spaces and relocation of the administration building. Permanent campus perimeter fencing was completed during Winter 2019 to increase student safety. Modernization of facilities was completed in 2020-21.

2021-22 Types of Services Funded

For students identified and who meet eligibility criteria, Smith provides Gifted and Talented Education (GATE) instruction through cluster classes for grades two through five. Instruction within these classes focuses on teaching grade-level standards through the use of Sandra Kaplan's depth and complexity icons. This program provides challenging instruction to students capable of achieving significantly beyond the level of their peers. GATE classes are taught by fully credentialed, GATE-trained teachers, who annually participate and attend GATE training and workshops sponsored by the California Association for the Gifted.

Title I funding plays a critical role in the Education Act, Every Child Succeeds Act (ESSA). Title I is federal money used to support additional staffing and programs to meet the needs of low-income, low-achieving students and other designated students with special needs. Smith School uses Title I funds to assist students identified as failing, or most at-risk of failing, to meet the State Board of Education standards. Information regarding Title I designation assists parents and the school community to understand the impact ESSA will have on Smith School. ESSA requires evaluation of student performance both school-wide and by specific subgroups within the student population. Two credentialed instructors provide small group instruction to students needing academic support in reading, through an intervention program.

Smith School sponsors many supplemental activities and educational programs for our students and their families. We have purchased Chromebooks and hot spots for use by our English learners to provide additional access to our supplemental programs in addition to visits to the computer lab. Certificated teachers provide after-school homework help and instruction, and there is an open computer lab before school several mornings per week for thirty-minute sessions, for those who may not have computer access at home.

Professional Development

Huntington Beach City School District regularly collaborates with all levels of district and school site staff when developing professional development offerings. Instructional program improvement is driven by student needs and guided by state standards and frameworks. District and school administrators use site trend analysis, state testing, district-level assessments, teacher response, and administrator observations to identify more effective methods and strategies to achieve positive results for teachers and students. The Assistant Superintendent of Educational Services and principals meet monthly to analyze current instructional programs, instructional materials, implementation timelines, and student achievement. Feedback is gathered at the site level through direct input and staff observation. Periodic Curriculum Development Committees are formed to address identified areas of need and focus. A minimum of 10 professional development days were available and held during the school year which involved curriculum based training for Discovery Education (NGSS), Creating with Canva, math, Second Step, Canvas Studio, Tech Refresher, Marzano's New Art and Science of Teaching, and Thrivers.

In alignment with the district's long-range curriculum plan, staff development opportunities are available for teachers, support personnel, administrators, and classified staff at Smith School. Teachers combine their knowledge of how students learn with the best teaching practices found in state frameworks and task force reports to provide a rigorous and comprehensive core curriculum for all grades. The school has focused extensively on reading and language arts by utilizing the district's Literacy TOSAs for job-embedded professional development which include co-planning lessons and units of study, modeling and feedback of instructional reading strategies, data analysis of local assessments for target instruction, and professional learning communities.

A portion of our school funding is used to enable staff members to attend teaching seminars and other events designed to enhance their teaching techniques and expand their knowledge base. Teachers new to the profession are supported by peer coaching and are encouraged to attend in-services offered by Orange County Department of Education. Classified staff and instructional assistants are provided training and development opportunities at the school, district, and county levels. In-services for classified staff are geared to their specialty areas.

This table displays the number of school days dedicated to staff development and continuous improvement.
