Monitoring:

The district leadership team will work with the school level teams to identify goals, initiatives, and plans for progress monitoring the learning of students. Building leadership teams will use assessment data to determine the needs of students and to develop learning goals for the school 2021-2022 ACSIP plans.

Throughout the year, the district leadership team will meet with the building leadership teams to discuss, review, and monitor assessment data and the progress being made toward the building learning goals.

Through the implementation of curriculum and programs, the district will support the specific needs of each building and work with the school teams to ensure a successful implementation plan is in place to monitor and analyze data to determine the effectiveness of each intervention with all students including the following subpopulations of students: low income, ELL, children with disabilities, homeless, migrant and students of color
Monitoring of the interventions and data will be done during PLC meetings within the buildings, as well as during grade level and leadership team meetings, and quarterly with the district leadership team.

In the Spring of 2022, the district leadership team will meet with building leadership teams to discuss mid-year progress monitoring data of each implemented intervention in order to evaluate the success of the programs put in place to address learning loss and determine next steps if needed in order to improve student learning.
