

Hubbard ISD

### Cafeteria Charging Policy

Students and Faculty are allowed to charge breakfast and lunch meals throughout the six week period. Charges are to be paid in full within one week of the end of the six week period and on the last regular school day of the year. If charges remain unpaid after the time period stated and payment arrangements have not been made, students will be offered an alternate meal. Faculty will not be allowed to charge until the balance has been paid in full.

Students who qualify for free and reduced meals will be responsible for charges incurred from “extra” servings of food and/or “extra” milk/juice.

The district reserves the right to require pre-payment on accounts that are continuously delinquent.
