January 21, 2021

Hubbard Family,

Hubbard ISD makes the safety and security of our students and staff a top priority.

Thursday, January 21, 2021, we were notified that a student has tested positive for COVID-19. The student was last on campus on Wednesday, January 20, 2021. Due to privacy requirements, we will not be releasing the name of the individual or details that may identify him or her.
Also on Thursday, January 21, 2021, we were notified of a staff member who tested positive for COVID-19. The staff member was last on campus Wednesday, January 20, 2021. Due to privacy requirements, we will not be releasing the name of the individual or details that may identify him or her.

The district has been in contact with our local health officials to conduct contact tracing at the school. We have completed contact tracing and we have contacted individuals determined to be in close contact or considered to have a high risk of exposure. **If you were not directly notified, your child was not in close contact or at a high risk of exposure with the infected person.**
Hubbard ISD will keep you updated on any further developments.

All areas that either individual may have been in contact with have been thoroughly cleaned and disinfected.

Please screen your child before they come to school each day. We ask you to continue to monitor your student for signs and symptoms of COVID-19. Daily monitoring/screening and keeping sick students at home can help us slow the spread and have a successful school year.

HISD will also be performing daily screenings for the next week.

**Please notify the school if your child or anyone in your household has tested positive for COVID-19 or has been in close contact with anyone who has tested positive. We will then discuss COVID precautions and remote learning options.*

Sincerely,

Traci Drake
Superintendent
