OPAA! is working hard to ensure that your students have access to a variety of balanced, nutritious meals for both Breakfast and Lunch. This still includes local grocery pickups/deliveries and Sam's shipments, but OPAA! is committed to doing whatever it takes to get food and supplies to our students. We have invested in warehouses, reefer trucks and delivery drivers so that we can take on the distribution process ourselves for now. This has recently enabled us to start providing large deliveries to all of our districts that do not currently have a food vendor. We have served 10,158 BREAKFASTS and 22,324 LUNCHESES since the start of the year! I am extremely proud of my team and OPAA for the work they do each day to provide meals to our students, it is a tremendous team effort!

Thanksgiving Feast

We were so excited to get the chance to, once again, invite our students' families and friends to come and enjoy our Thanksgiving Feast at the Elementary School with their students. Over the span of three different "Feast" days we welcomed 151 parents and families to our cafeteria!!!

On December 8th we are also hosting the Senior Citizens Luncheon at the Junior Senior High. A big Thank You to Misty Poe, for organizing everything!

Make Their Day
