|--------------------------------|--|
| Chicken patty – like alot | Chicken bacon ranch salad w/ real bacon |
| Chicken & waffles – like a lot | Spaghetti & meatballs |
| Lasagna | Chicken Alfredo |
| Hot dog | Taco Salad |
| Tony's Pizza | Biscuit & Gravy – Elem asks to split biscuit |
| French toast | Breakfast pizza |

Dislikes – need improvement:

OPAA Pizza – doughy and not much flavor – can bake crust to make crispier & can add Italian Seasoning & put garlic & butter on crust

Breakfast sliders – do not like – can have breakfast pizza as replacement

Bags of apple slices – Elem K & 1st hard to open – can stop ordering

Salad running out on the line 2nd lunch shift, have lots of broccoli – can put less broccoli on line and have more salad

Have more homemade items – have a lot of frozen and heat items – will homemade vegetable soup be offered

Spaghetti with meat sauce instead of meatballs

Meatball subs – make sure marinara is served on the meatballs

Prepackaged mini pancakes – Elem would prefer having regular pancakes not the Prepackaged

Increase participation:

Why students don't eat:

Don't like either option

JSH students don't get to school until about 5 minutes before school starts – drive themselves to school

Ideas to increase participation:

JSH likes multiple options.

OPAA to go meal – pre made cold sandwich or wrap with fruit & cookie – JSH students like the idea

Breakfast – 2nd chance breakfast – serve a pick up and go breakfast between 1st & 2nd hour classes

Students were asked if the staff is friendly and the JSH said they love the cooks they are very friendly.

Theresa gave each attendee a copy of the FSMC Monitoring review. She explained what the review is for and what is reviewed. She explained results.
