To Whom It May Concern:

Oktaha Public School has been contacted by the Department of Homeland Security's Cyber Crimes Unit to conduct an informative presentation to our 5th – 12th grade students regarding cyber security. We take the safety of our students very seriously. Technology is growing and changing at an alarming rate-- students have the ability to access, send, and receive an overwhelming amount of information via cell phones, tablets, computers, social media, and the internet. We, as a school, want to prepare our students and give them the most up-to-date information in order to protect them.

Mr. Anthony Meter will be presenting this information to our students. He works for the Department of Homeland Security as a H.E.R.O Computer Forensics Analyst. He is an expert in the field of child exploitation, imaging and processing digital media, forensic analysis, assisting investigators to identify high-value targets, and locating child victims. Mr. Meter will be speaking about the following topics:

- Child Exploitation
- Sex Trafficking in Oklahoma
- Sending inappropriate photographs via a phone and/or social media (i.e. Snap Chat, Instagram)
- How hackers get your information and how to avoid it.

If you would **NOT** like for your student to partake in this program, please fill out the bottom portion and return it to your student's teacher (elementary) / office (JH & HS).

If you have any questions or concerns, please feel free to contact:

Mr. Chris Burt
JH/HS Principal
918-616-2512

Laura Holt
Elementary Principal
918-441-9243

Kari Fulton
Counselor
918-822-3905

Please **DO NOT** allow _____ to attend the cyber security presentation by Homeland Security on February 13, 2019.
