

## Superintendent Report April 23, 2018

Finishing up one school year and starting another is always an exciting time for educators. Testing will be completed very soon and then the time to wait for results always comes with much anticipation. As we continue to prepare for the upcoming school year, we look at how our school improvement process will make us better. Many of the in-service opportunities will be focused on school improvement.

Graduation will be May 12th at 2:00 pm. Mr. Adams will discuss this with the Board at the meeting. Any Board member that can attend will become part of the ceremony. This is always a joyous time for all students. It is a huge accomplishment in our students and parents lives. The district teaching staff does a great job of supporting these seniors on this day. Very proud of what our students have accomplished.

The training we had on Monday was very eye opening. It was good training for an active shooter within our buildings. Staff was given instructions as to how to react. Learning to use ALICE, Stop the Bleed and Mental Health trainings were helpful, but we found out very quickly they need to be practiced. Later in April I will get together with all the players and we will talk about what happened well and what we will need to improve. All in all, a good morning to learn more about safety.
