

Superintendent Report  
January 22, 2018

The second semester has is moving right along now. Students and teachers are in the full swing of moving in the right direction. Very proud of our students and teachers.

As you know, school has now been cancelled twice this semester. When this decision is needed to be made, there are several different factors that are involved. Safety of our students and staff is most important in making this decision. Knowing that we have students walking to school also is a factor. The area superintendents also get to discuss ahead of time to make this decision. Getting our transportation director involved is also a critical part of making this decision. All of this happens while the weather continues to be going on around us. This decision is never taken lightly.

The process of accrediting our school district is happening as well. We will be setting up a meeting with our outside validation team in the near future. Once we get to the point of completing this year, I will have our district leadership team give a report to the Board.

The stakeholder meetings went very well. Many patrons have commented to me about the company and how professional their representative(s) have been. The process is moving right along and very soon the Board will be at the interview stage.
