

WJRC Director's Report for June 2017

WJRC is in the middle of our baseball/softball/t-ball seasons and it is going great. This is our first summer with handling our own concessions and we are extremely satisfied with how we've done so far. We will be hosting three tournaments this summer and looking forward to the increased traffic in/out of our park.

We have received several compliments with the relocation of the playground and the additional play equipment. The remainder of the summer will be focused on the remainder of our scheduled games, maintaining a clean complex and our concessions. After the season, we will begin projects to improve the complex for the fall and next spring. We will provide updates when the projects are underway.

We had an increase in our participation numbers this summer and will look to do the same next fall. We will open registration for fall soccer, flag football and volley mid-June. When registration opens, we will post in on our website, Facebook page, Twitter, TextCaster and post our banners outside the rec office and Mid-America Bank.
