

High School Science Text Books:

Our current books were bought in 1998. They are falling apart and we made them last this year the best we could.

This is the first year of testing for the Next Generation Science Standards. We looked at several textbooks and these are the ones that aligned the best with the new curriculum.

Chemistry Textbooks: (Pearson)

Student books: (90) @ 97.47	\$8772.30
