Jerry and Sherry – thanks for your time yesterday. Always a nice drive to Wellsville and I always enjoy meeting with you! Attached is the 5 year premium progression. If any of the board members have any issues with this year's increase, this may help. 2014 and 2015 are combined totals (as I recall, we had everything with EMC in 15/16 and moved the WC to Accident Fund in 2016 where it has stayed since. Keep in mind, these premiums also take into account property reconstruction costs increasing slightly each year. Let me know if there is anything else I can help with!
