

May WJRC Director's Report for BOE Meeting

High school baseball/softball games are over at the complex and rec games are beginning. With the help of many community members, we were able to get the high school baseball field playable for the regional tournament. WJRC will be invoicing the school for materials used for this season's baseball/softball games. We received many compliments on the field conditions and appearance; which reflects how hard the WJRC Staff worked on them this spring.

We will be hosting rec baseball/softball/t-ball games from now until the end of June. Once that is over, we will begin to work on new complex projects.
