

**DATE 2.18.18**

**FROM: JOSH ADAMS, PRINCIPAL**

1. Emporia State sent us a report of how our students are doing academically at Emporia State University relative to the rest of their student body. The report included a comparison of mean grade point averages for these students in relationship to all other high school graduates.

<b>Wellsville Students</b>		<b>All ESU undergraduates</b>
Mean GPA	3.27	3.07
<b>GPA by Content Area</b>		
English	3.05	2.94
Mathematics	3.26	2.44
Social Sciences	3.28	3.09
Science:		
Physical Science	4.0	3.22
Physics	3.74	2.86
Biology	3.0	3.01
Chemistry	4.0	2.64

As you can see, our students are doing a great job compared to the rest of the student body.

2. On January 31, 59 Wellsville High School FBLA members traveled to Emporia State University to compete at the FBLA District VII conference. Members participated in a variety of competitions ranging from tests, team presentations, speeches, and interviews. With 17 schools and approximately 500 members present, this was the largest District conference in the state of Kansas. Overall, Wellsville had a combination score of 746 points with the next highest score being 337 points, resulting in 1st place for the Wellsville Chapter. Now, the Wellsville members are busily preparing for the State Conference in Topeka, Kansas on March 28th and 29th.
3. Substitutes: We have three new subs that have been covering for us this semester. They have all commented on what a great school climate we have and how good our kids are. A direct quote "how nice it is to be in such a polite, respectful and friendly place."
4. Wolf Creek: Mr. McCarty took his chemistry class to Wolf Creek in Burlington. The students got to learn about nuclear power and how the plant works.
