Wellsville Elementary
September 2016

Wellsville elementary had individual portraits in September. Our new photo company, Inter-State, did a great job and provided quality service for our building. Most importantly, they were great with our students and pride themselves on their positive attitude. It was a great photo experience.

The Wellsville Elementary PTO has several activities planned for families to attend this year. Recently they sponsored a PTO movie afternoon. Several families showed up on a Saturday afternoon to watch a movie in the elementary gym. Free soda, snacks, and popcorn were also enjoyed by those who attended.

Recently several staff members, including myself, attended Crisis Prevention Intervention training. It was a great training that specifically targeted identifying students who are in stressful or anxious situations and how to respond before the situation escalates further. It was a very useful training that the Special Ed COOP provided. I look forward to expanding the techniques and knowledge to the rest of the staff.

Recently the administration team attended a symposium on the new accreditation process. We are very fortunate to have so many positives in our district. All the positives should help the process go a bit smoother.

We have several new certified and classified staff members that have already contributed to the positive environment that our students learn in every day.

As I have stated in these reports before – we have a tremendous staff. The elementary school utilizes every staff member, every day, in the ways that best meet the needs of our students. Every person in our building has an important role in creating a positive experience for our students. They are doing a great job in fulfilling that role.
