

Superintendent Report for April 24, 2017 Board Meeting.

As the school year finishes up, much planning is happening for the upcoming school year. Our big focus will be on district accreditation with KSDE. Our upcoming in-service is focused on the KESA (Kansas Education Systems Accreditation) model. We will have several meetings next school year to develop our needs and follow them up with a plan of improvement. Kind of a exciting time in Kansas education.

There has been no action at Topeka this past few weeks. The break they have scheduled is taking place right now. HB 2410 is the bill to create the new funding formula for schools is sitting and will be debated when the Legislatures come back on May 1. It does pump \$150 Million into the schools. There is speculation that the Supreme Court would say this is not enough. I am pleased there is a start to putting more money back into to schools.

Graduation is just around the corner. Just a reminder graduation will be on Saturday this year. More information will be shared at the Board meeting.
