

Boil Water Notice for Noncommunity Public Water Systems
10/03/2022

Due to **low disinfection residuals**, the Texas Commission on Environmental Quality has required the **Mullin ISD/1670013** public water system to notify all customers, individuals, or employees that this establishment or business has implemented a boil water notice. All water provided by this establishment or business shall be boiled prior to use for drinking water or human consumption purposes prior to consumption (e.g., washing hands/face, brushing teeth, drinking, etc). Children, seniors, and persons with weakened immune systems are particularly vulnerable to harmful bacteria, and all customers should follow these directions).

To ensure destruction of all harmful bacteria and other microbes, water for drinking, cooking, and ice making should be boiled and cooled prior to use for drinking water or human consumption purposes. The water should be brought to a vigorous rolling boil and then boiled for two minutes.

In lieu of boiling, all customers, individuals, or employees may purchase bottled water or obtain water from some other suitable source for drinking water or human consumption purposes.

When it is no longer necessary to boil the water, the public water system officials of this establishment or business will notify customers, individuals, or employees that the water is safe for drinking water or human consumption purposes. Once the boil water notice is no longer in effect, the public water system officials will issue a notice to customers, individuals, or employees of this establishment or business that rescinds the boil water notice in a manner similar to this notice.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

If you have questions concerning this matter, you may contact **Charles Baish** at **855-467-0030** or at **403 Bulldog Dr, Mullin TX, 76864**.

The public water system customers and the executive director shall be able to reach the public water system at one of the numbers listed in this notice. If a customer, individual, or employee wishes to contact the executive director, please call (512) 239-4691.
