Dear Parents and Community:

We had a terroristic threat at San Diego High School today. Out of extreme precaution all three campuses went on lock down. I can confirm that one of our HS students was taken into custody and is being questioned further by law enforcement. There is no further imminent threat on any of the campuses. I realize that this threat has caused a great deal of anxiety and fear throughout the community. This fear and anxiety is why we take terroristic threats so serious. We all love our precious children and will hold them a little closer tonight due to today's occurrence. I want to thank the Sheriff and the San Diego police department. They both worked with administration to secure all three campuses; response was swift and professional. I realize that in today's society we all want instant communication and access to our children. I want to thank you, the parents, for being patient and respectful of administration and law enforcement while we were conducting the investigation. We did our best via our parent alert system and social media to communicate that the children were safe. Your child's safety is our utmost priority while they are in our care. We take it very seriously. I want to assure you that we will continue to place student safety at the forefront.

In Education,

---
