

Dear Faculty,

We use Aurora Concepts to provide and vaccines for faculty below is information for the upcoming day for Newton Faculty. Please follow guidelines below and contact them directly if you will be needing any testing or immunizations.

Thanks John RN

For the faculty Immunizations and labs, we have a sign up they can do online so that we are better prepared for what they may need. This may be something you want to copy/paste in a blast email to your faculty.

Faculty may go to our website: www.auroraconcepts.net and click on the school login in the right upper corner. Once they click on their school, the guest password is: **AC2017**

They may registered and select the items they wish to receive. **On the date of service, they will need to bring the registration form, a copy of their insurance card (front and back) and any consent forms for vaccines they wish to receive -- all of the forms are located on our website.**

The 'FORMS' link is on the website homepage. It contains the registration form and all the consents available.

If they have any questions, I may be contacted at dbarnes.aurora@gmail.com or [936-598-3296](tel:936-598-3296)(office) or [936-590-2906](tel:936-590-2906)(cell - text is good).

Thank you,
Dawn Barnes, DNP,RN,FNP-BC
